Lately, the situation I have been under is one best described as some sort of occult or witchcraft based stalking. Small fires have been lit nearby on full moons, and various other antics have taken place. I also have had movie scenes shot in my direct vicinity on my last two birth days and whatever exactly it is, it's much more than just a coincidence. Dave Case called it "synchronous biological programming".

Anyway, I just keep working on my small and confused website. I am working towards podcasting and finally I have a proper theme worked out help from a few interested people.

The underlying root of our social problems is avarice, and we really need to start condemning it... and get the church to condemn it as it should. The pulpit is ultimately broken in all of its forms, and it fails to advocate genuine morality. We really need to work on changing this.

You're welcome to contact me if you have questions or issues to discuss. It's early, but perhaps we could do a recorded interview of some sort in the near future. I am going to try and put up more material on the Internet and build something useful. The basic theme of the radio chat I am working on is "Parity Talks". We need to condemn avarice and get back to financial parity if we want a peaceful world free of problems.

I have been researching conspiracy related material for no less that 25 years, and I have also been a victim of electronic harassment, street theater, voice to skull and other assorted tortures. I am fortunate that my problems have not been as severe as some have reported... but every case differs I have found.

The bureaucracy that handled persecution 500 years ago was the Office of the Holy Inquisition. Do you not realize that it was not even renamed to the Office of the Congregation of the Doctrine of the faith until 1965.

Cardinal Ratzinger was head of the Inquisition, and also the dispensation of indulgences up until his election as pope. In other words, he is likely the chief of harassers, and from his perspective, he is enforcing the doctrine of Canon Law.

To understand the mentality of these people, which overwhelmingly INCLUDES Royalty and the upper classes, you must read Canon Law.

I have an online resource here: New Commentary on the Code of Canon Law

PLEASE USE THESE LINKS SPARINGLY. If they are openly linked, I may be asked to take the commentary down. Please read privately or set up a mirror site.

The Code itself, without commentary is here:

[http://www.vatican.va/archive/ENG1104/\\_INDEX.HTM](http://www.vatican.va/archive/ENG1104/_INDEX.HTM)

The Code of Canon Law is the source of the issue that has been plaguing you... and will become apparent so long as the veil of religious denial that blinds most people does not affect you as well. The persecution and torture going on is most likely being done with religious sanction. This must at least be understood... and the "enemy" recognized for who they are.

There is also the possibility that victims have been persecuted on false grounds, but correcting this is impossible if you cannot confront the source.

Please, remove information that you, your relatives, your friends and acquaintances were anally raped. You do not have their testimonies. I experienced and experience all these symptoms. I wish you all the best, strengths, health. Sincerely, Galina Kurdina

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Dear TI leadership:

I am one of many United States citizens who are being victimized by the illegal, immoral, unethical, unconscionable, & inhumane use of this diabolic bio electromagnetic weaponry. Per Dr. Kilde, M.D. & many other authorities "this technology links the brains of people via implanted microchips to satellites controlled by ground-based super-computers"- simply beaming targets into metastasizing sickness & even premature deaths. This travesty is the ultimate system in demoralizing mind control surveillance, espionage, exploitation, terrorism & "the biggest threat to humanity." For example, without my knowledge & consent the rogue spy agencies (sadistic shadow regimes) have implanted me with excruciatingly covert biochips (RFID/GPS) surveillance devices in my neck, nose, right ear, & left ankle during surgeries concocted in 1972, 1989, & 1999, by their "agents" in the "militaristic medicine." Evidently, all known surgeons who have mutilated me with this clandestine biotelemetry technology have probationary history with their respective medical boards in California, including revocation (one even has set a national record for fines)!

In addition to looting me of my human, civil, & constitutional rights, the perpetrators routinely torture & harass me with their stealth psychotronic electromagnetic warfare. In 2005, my local FBI office told me that I may be a human experiment! In the same year, while reporting additional crimes, my local police department revealed that

the CIA has been attacking me with directed energy (high voltage pulses) & they instructed me to have these implants removed! Recently, the DOJ's Office of Law Enforcement Coordination (OLEC) recommended that I seek legal advice! In the last couple of years, this conspiracy was echoed by some of my healthcare professionals, albeit vaguely! Also, these lethal neurological attacks explain many of my clinical diagnoses such as "induced" seizures, heart attacks, & strokes, just to name a few of my many other symptoms of electronic radiation exposure. Nearly fifty years ago, President Eisenhower clearly warned against the Military Industrial Complex - "the potential for the disastrous rise of misplaced power exists and will persist."

Despite my valor efforts in seeking remedies from ostracizing public & private authorities since becoming aware of this arduous electronic slavery - while being severely disabled, destitute, & homebound - all my furore & struggles have turned to despair! By writing you I hope that you would acknowledge my protest, aid in raising public awareness & legally support my appeal for justice. I am pleading for your help to be unleashed from these atrocious cybernetic shackles! Please address the outcries of all victims in ending all forms of electronic genocide & menticide!

Please place my name on this list - I am a victim, a TI under extreme torture, taken inches from death. I'm a whistleblower who went up against big corporate defense contractor wall street after they sent my husband to his death. My odds winning - 99-100 percent my side, in writing. My own lawyer participated. Since, life has turned into a horrid nightmare with nano etc.

I have experienced home invasions, harassment at work, harassment anywhere I went, forced into early retirement, assault, electronic harassment, v2k, sound is projected into my home, tracked, slandered and libeled, vandalism, etc. Worst part is lack of mental privacy. I cannot protect myself without mental privacy.

If you are in USA, I can mail you a copy of my paperback, "Electronic Torture, Electronic Rape" for free. Would love to share it with you. Take care, and thank you for making the list.

It's been an intense 4 years but began before then. Absolute strangers talking about things that happen in my private life. All the patrons of a public place will cough, whistle, stare at me, smile, talk about things that pertain to current personal experiences, act extremely rude, ect. Cops follow me in traffic, drive by my house turn on sirens then turn off sirens when past my house. Relations with neighbors, friends, and some family suddenly severed. Followed by cars on foot and in traffic. Erratic sleep patterns, no sleep, a couple hrs. of sleep, strange dreams that usually end with me waking up, voices, uncontrollable body movements, rapid heart beat, various levels of unnatural anxiety, hot ears, lights shined in windows at night, ect (this has also affected my child and pregnant wife.) Loud or large vehicles constantly drive by my house and turn around at the end of the cul-de-sac and drive by again in a once quite neighborhood. I can sit next to a window in my house and there is no noise outside. The second I open the door or window birds begin to chirp ceaselessly, cows moo ceaselessly, a car will drive by erratically, planes fly over, trains lay on horn, cars lay on horn, dogs bark ceaselessly, neighbors yell or talk loudly about me. Bird noises and honking follows everywhere I go. Lost 6 or so jobs in a year. Most of the time I start a job, every one likes me, and then one day I will see a cop hanging around the parking lot and coworkers become extremely rude, aggressive, and tell me I need to leave, and I try to stick it out. The first few times I walked off the jobs, but the last couple times the job tries to push me out and then ultimately fires me for something bogus. I've also had people say that "accidents happen" then I will have a close call in traffic immediately after. People have told me face to face in conversation "I'd kill myself if I were you" or other variations of hinting at suicide. Law enforcement does not respond to my requests for help and when they do they hint that I am suicidal, which I am not. Requests for help from law enforcement really upsets the perps. Strangers will say things like "quit contacting us! It's disrespectful." Women often try to seduce me and I summon the will power to turn them down. Then people will hint that I am homosexual. From what I have read my experience is a standard one.

Birth 1968/06/21

I've encountered a break up in 2015, and was alone.

i've noticed that private info "leaked" at work (supermarket) like one viagra prescription.

After the summer of 2015, Bullying campaign began, with homoxuallity gossip (i'm not), and other kind of humiliating treatment.

The goal was not to fire me as an employee, but really to destroy me as a person.

In april of 2016, i urge the director to stop this harrasment, as my health, physical and psychological have suffered.

I know that coworkers were manipulated, often trying to provoc me, in order to say or do something violent.

All theses months with my weak mind were like an every day evil trap.

I've complaining to the police and one harrassment health institut.

Since june, i've noticed street theathre scenes with car convoy with or without noisy police/fire/emergency cars, that i'm followed from home to work, groups of young adults in front of m building entry at night (once week ago), various home break in (like in june 24, elctricity was cutted, and the webcam surveillance video file of my appartment was unreadable),constant noise (motocycles for instance) torture and so on.

I suspect neighbors and a few coworkers are a part of this gangstalking.

It's a terror, with fear and panic moments, as no one can be trusted, and anything in my appartment can be a source of evil.

Of course it is difficult to have a kind of normal life, even if i still working, with only 3/4 hours of sleeping every day.

Thanks for your attention and sorry for my english.

Best regards

My case makes me believe that this is legal way to kill. All the people who I contacted till now are involved. I am 100% sure that police, lawyers...kill people who hate for fun. They tell me that I am poor, single nothing who must die. I know most of the people who participate. Actually there are no laws or they are for people with power. They repeat that I am "stupid like ass"...They pretend that they show me the way and people who love me...What if I don't like these people? I am slave literally! 3 years of my life are gone and wasted. Every day I am brainwashed. I am wondering if they realize that they are against the law or their minds are twisted...They torture me and state that I am awful creature who is loved only by her granny and must go there...Actually I am friendly and easy make friends but at the moment my biggest dream is to get rid of them. I don't love people who were my friends or acquaintances before 100 years. I want to change my friends and almost did it but...It is ritual abuse. They sound crazy like religious fanatics.

**Former CIA Attorney Electronically and Chemically Targeted**

By Olga Krzeminski <http://www.truedemocracy.net/hj36/10f.html>

May 25, 2011

This is a letter describing my complex electronic torture circumstance as an International but mostly a US Targeted Individual. I kindly thank you in advance for your time and consideration in reading this letter.

My name is Olga M. Krzeminski, and I worked for the CIA in the years of 2006, 2007, 2008, 2009 and until the middle November 2010 on an unofficial assignment via the electronic departments. I had a pro bono attorney assigned to my case. I was included in the CIA Legal Honors Program which allows a small number of exceptionally qualified recent law school graduates (study obtained via the CIA electronic departments to obtain a broad exposure to the practice of national security law over a three-year period or less. I worked for the CIA on over 500 cases involving State Interest, National Security, Human Trafficking, Terror cases, and Police corruption cases. One of the major cases was the case against the Chicago Federal Office and Patrick Fitzgerald, the Attorney General for the Northern State of Illinois, and John Grant, one of the directors of the FBI Chicago, which endangered US National Security and State Interests in 2006 (this case was later blocked by Donald Rumsfeld who illegally accessed my private property with the use of electronics with attempt to immorally back up Patrick Fitzgerald who was his pupil; I attempted to obtain the CIA's help to release me from hands of Rumsfeld, the oppressor and in my mind a war criminal. He had commenced electronic torture on my person, also because I was involved in the initial phase of evaluating the 9/11 case through the CIA.)

The case was later resumed by the CIA. The Military Commission was involved including Collin Powell as well but never finalized the case.

The Bush administration with its agents became criminally visible to be responsible for the prior criminal activities against my person since 1996. I found out that Bush and Cheney were watching me since I was 21, Rumsfeld since around 14. This was all confirmed by the CIA. It is when they use their covert international connections and systems to find and monitor the top promising young brains or those who may in the future endanger their status. That is what they were doing to me. In 2006 George W. Bush, Dick Cheney, and Karl Rove involved me rather automatically via the electronics in one of their political groups composed of young Republican Americans working for Bush. That arrangement came to pieces in the few months since I was opposed to Bush's war politics. They wanted to use me as the young intelligent prospect. The CIA involved me in their legal work at the peak of my intellectual abilities being 30-years-old.

The CIA case also involved the corrupted Chicago Police Department officers and organized crime groups (gangs) from all over the US, and some criminally acting private individuals.

Today, I am being abused and tortured by Directed Energy and Neurological Weapons, Mind Manipulating Technology and Electronic Harassment. Also, V2K (Voice to Skull), Satellite Microchip, psychological torture, and the use of synthetic telepathy.

During the first six months of my ordeal surviving terror and torture from the enraged Chicago FBI agents (during that time I survived the extreme hateful rage crime of being violated/tortured for prolonged periods of time by about 100 virtual agents at once and also gang raped), I was receiving electronic help from covert independent sources in the US, some from other FBI divisions and some from the UN, also from the Polish Foreign Affairs (the former establishment before Radoslaw Sikorski), various Polish and some American scholars and politicians. The CIA had concluded that this is an extreme hate crime out of envy mostly of my physical appearance, intellectual property, and my social status, and popularity. I was also compared by the CIA to top fashion models. For a good ten years now Chicago Federal agents have been torturing my body to constantly change my figure by bombarding it with the use of directed energy weapons, also electronically shortening my bones. I also initially received covert help from the Libertarians in the US and while working with the CIA, I had patented a symphony. This patent and my person very shortly after that was destroyed and ridiculed to the point of obscurity by Patrick Fitzgerald who had violated my brain and considered me too unfit for an American because I am an immigrant. Thanks to my covert cable connections through the CIA to the US Department of Justice in 2007 Patrick Fitzgerald's ranking was lowered to mediocre in an attempt to fire him. That never happened, however, due to Obama's, Bush's, and Eric Holder's political manipulations and bribing of my initially highly successful case.

During my work for the CIA, the abuse of the Chicago FBI and the multiple Police departments of my person was comparable to the Guantanamo cases, and punishment for the corrupted police was considered either life-imprisonment or capital punishment cases.

Again, today, I am being terrorized and electronically tortured by the Chicago Federal Bureau by the use of directed energy weapons, satellite microchip, and psychological torture. This kind of abuse has been happening to me on the high scale for seven years now.

As mentioned above the CIA had offered me to work for them in 2006 on my case and over 500 various criminal and patent cases including a number of other anti-police abuse cases and National and International terror cases and US State Interest cases.

The CIA did a thorough investigation of my circumstance and they now hold all evidence in the terror case of me.

As indicated above the CIA was contacting me via electronics and helping me to survive, but they had stopped the engagement in the middle of November 2010, therefore leaving me completely alone with the very abusive, brutal, and inhumane FBI agents. These agents engage in all of the following abuse practices:

- blanketing my dwelling and surroundings with electromagnetic energy,
- making me mentally hear others' voices through the microwave hearing effect.
- invading my thoughts via remote sensing technologies.
- depriving me of sleep due to neurological intervention.
- introducing poisonous gas and radiation toxins into my house
- having me stalked en masse on foot and in vehicles.

- vandalizing my home and/or car
- tapping my phone and hacking my computer
- blacklisting me in the labor market
- workplace mobbing
- bombarding my body with debilitating electronic and mind manipulation.

Also: painful narrowing of the hips, narrowing the shoulders and a forehead and the eyes, electronically mutilating bone structures, shortening of the whole body and the face, mutilating and shooting at the feet while walking, manipulating the genetic code (destroying the brain with my father's genetic material), dissolving the bone marrow, virtually shooting other faces through my face with the intent to ugly me or deviant facial mimicry to cause the retarded illusion of the face and to retard the brain, shooting multiple number of agents' brains through mine to torture and retard the brain.

During my time of work for the CIA, I had patented the partial marketing material for the Chicago Olympics, earned credits for three degrees from Yale University and was told I would receive a degree from Oxford University and the University of Warsaw; I had also patented a couple of commercial patents while working with Polish Foreign Affairs, and later a legitimate Miss Universe 2009 patent (again work through the CIA). The CIA had concluded that the corrupted Polish-American and the American Federal Agents from Chicago have been abusing me at least since the age of 14 and had mutilated my bone marrow and had shortened me about 6 inches and that they had changed my overall appearance by mutilating my bones. I had also had worked for the US Army in the initial phase of the electronic CIA engagement; they had initially said they were to award me a bravery medal, and was in diplomatic relations with some of the Polish, Brazilian, Russian, and American politicians.

The degrees I was to be granted by the CIA were: a JD in Comparative Constitutional Studies, JD in Behavioral and Institutional Economics and a Ph.D. in Psychiatry and a Ph.D. from Oxford University in International Relations and a JD from the University of Warsaw in Political Science. Today I am being treated worse than an abused stray dog.

Subsequently, Michael Morell took over the position as the Deputy Director of the CIA in May 2010. Morell, together with a singular corrupted CIA and the notorious earlier mentioned Federal and Police Agents, have been trying to embarrass, abuse, and falsify the case and completely erase the facts and any evidence of my legal case. I was lucky to be still receiving help from friendly CIA agents until November 2010 so he would not kill me since he had electronically abused me right after taking over the office. Polish Foreign Affairs had concluded in 2007-2008 that they would have wanted to arrest forty Federal Agents from the Chicago Federal Bureau for their murderous abuse of me. Polish Foreign Affairs were headed by the late Zbigniew Wassermann in the Polish Ministry of Special Forces who electronically delivered oxygen to my brain but after his death in a plane crash in May 2010, Michael Morell and some singular American corrupted CIA and Patrick Fitzgerald's agents started the attack on my person, again violating the Human Rights Conventions and electrifying the whole house also using Anti-Polish and Anti-Immigration slurs and offences while shooting at my internal organs and my body with military techniques using synthetic telepathy with extremely obscene language. Also, amongst the most abusive human rights violators who have been accessing my family's property per the CIA's finding since 1992 is Michael Chertoff. I have also received threats, and my brain was either electrified or gassed by John Ashcroft because I did not consent to his monitoring based on the PATRIOT Act and from the former Mayor of Chicago, Richard Daley, because he lost the Chicago Olympics because of the actions of his corrupt Police.

Therefore, from being a respected and highly intelligent US and Polish citizen, I am now left completely alone suffering at the hands of the most brutal and corrupt Chicago agents in the world.

In February 2007 Polish Radoslaw Sikorski breached onto the private property via electronics in conspiracy with Patrick Fitzgerald and had severely beaten me with his Polish Police agents.

The CIA had hired me to either lead some of their cases or just work in cooperation with them. The CIA stood by me until November 2010; I received an electronic back-up until the end of December 2010 on high voltage cables.

I have been inactive for the past seven months. The Chicago FBI and a number of Police Officers from a few districts have been now using this time to molest and torture me. They electronically place a finger inside me and move it inside my internal organs; they place their electronic body inside of me and move; they shot an electronic gun at my eyes and head; they shot me with a virtual device inside my body in a form of some small black ball that transmits to my brain slowing its work and causing temporary retardation, they had shot a car and airplane engines through my brain and abdomen; they had also shot a virtual shot of a burned human head through mine. Almost

every night my brain gets hazed and I get sedated so I cannot wake up and open my eyes in the morning. Because of all this my body composition has significantly changed, and they induce the swelling of the internal tissue. My weight has changed from 130 pounds to 170 pounds. They had used military hazing and gassing to create an environment of extreme terror and unspeakable filth, intellectual poverty and impoverishment in the house. They shoot at my heart, electronically touch it, create tension, and shoot at my head while driving to blind me and cause the most terrible panic attacks and muscle spasms.

I was in good covert relations with the US Justice Department until October 2010, but since Obama/Holder took over, they have been blocking my case. The UN was helping for a while and wanted to offer me a job but that was over two years ago, and now they do not answer my letters anymore. In 2007 while I was in Poland, the UN sent their planes and warned the Chicago FBI and the Bush-Rove agents against attacking me because they saw how enormous a conspiracy it was. They had told me via the Programmable Logic Controller (Automation Direct Technical Support) that once I handled Patrick Fitzgerald's FBI abuse, then they would help me with the CIA. They suggested the Senator's office. Senator Mark Kirk has not fulfilled his promise and obligation to remove FBI access or to communicate with the CIA in this case. Since September 2010 the Chicago FBI murderous agents grew in power requesting help from Michael Morell of the CIA. They have been bombarding me with their depraving statements that they are ignoring initial CIA findings and a very strong legal case of four and a half years duration, and will simply be torturing me for an infinite time.

Overall, I still think it is just an attempt to create panic, illusion, and to falsify the real legal standing of this case. It should become a matter of an adequate communication with the CIA to release their findings. Since there is a lump sum of funds involved, there may be a need to eventually file an official law suit against the CIA for breach of employment. Nowadays, the FBI agents who are torturing me are intentionally profiled and consist of the lowest ranking agents with extremely low intelligence, violating my brain with the most deviant and absurd motivations and statements using high technology equipment therefore everyday torturing me and compartmentalizing my brain, and that is how they wage this war on terror. They target the most talented people in the field who should be of help as lawyers and psychiatrists, and try to kill them because they – the corrupted FBI stand no chance in court once a talented attorney takes on the case.

This is a terror case, Human Rights case, Intellectual Property case, Women's Rights case, Immigration, the breach of Trust from the CIA case, Labor, and a money case.

I am making the request for help to either communicate with the CIA or to file a law suit against the CIA to release the findings of my case against the Chicago FBI which was finalized by CIA Attorneys assigned to me in 2008, and for releasing my university diplomas. The CIA holds all legal evidence in my case.

Please also note that the CIA had promised large sums in billions of dollars as the remedies in my case.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My name is Victoria Kuphall. I have been a victim of electronic harassment for nearly my entire life.

This harassment includes psychological torment, physical and emotional manipulation and devastation of financial

and social resources.

As a Citizen of the United States of America, my constitutional rights have been trodden upon; my 4th Amendment right has been abused, my 5th Amendment rights disregarded and if this terrorism is meant to be some sort of "criminal punishment" for perceived wrongdoings, then my 6th and 7th Amendment rights have been completely eradicated. Due to the constant suffering under this campaign which includes hundreds, perhaps thousands of victims nationwide, our 8th Amendment right has been outright dismissed.

This is indeed cruel and unusual punishment.

I am also being denied my constitutional right to pursue happiness. This torture is constant-24 hours a day, 365 days a year, year after year. I have absolutely no privacy and have not even been granted human dignity. This torture and abuse prevents me from finding emotional and psychological peace. It has taken its toll on my health, well being and ability to a productive member of society. Medical, social and psychiatric services only add to the misery of my condition by either dismissing my symptoms as regular illnesses or by insisting that I am mentally unstable and need medication.

The use of directed energy weapons, remote harassment and organized stalking are quite plainly unlawful, criminal acts. I am treated worse than a common criminal, more like a lab rat, not even human. I have done nothing to deserve or warrant such treatment. I am an American citizen and I deserve my rights guaranteed to me in the Constitution. I seek justice.

**My symptoms of harassment include; sexual stimulation, orgasm and pain, sudden onset of headaches that can last for more than 10 hours at a time, bee sting attacks to the surface of my skin occurring anywhere on my body, blurred vision, manipulation of body parts, muscle spasms, sleep deprivation that has lasted for up to 5 consecutive days, extreme drop in your tracks tiredness, loss of balance, loss of concentration, short term memory loss, dizziness, burns, bloody nose, ringing/tinnitus in one or both ears, extreme itching, fake noises and noise campaigns to induce stress and sleep loss, symptoms of heart attack, chest pain, burning feet sensation, numbness of extremities. All of these symptoms can appear and disappear without notice.**

**Besides the electronic harassment I have also experienced the following; appliances turning on and off, traffic light manipulation, missing personal items, damaged clothing, unexplained problems with email/computer, damage to my vehicle, damaged clothing, missing personal items, missing mail, street lights/building lights going out as I walk beneath them, street theater-organized stunts conducted by people to further induce anxiety, isolation and stress.**

**I have been completely isolated from family and friends. I have been in a mental hospital twice and have been put on psychotropic medication.** I have been diagnosed with schizo-affective disorder. I have had to discontinue my career as an Operating Engineer. I now work part time as an elderly caregiver. At the end of August I will lose my health benefits. My husband has divorced me and my only child will have nothing to do with me. My mother and step father will not allow me to live with them unless I go back on psychotropic drugs.

I hope and pray you will take the complaints you receive VERY seriously, and spend whatever resources it will take to expose and stop these crimes. These are crimes just as heinous and destructive as any other. Surely murders and rapes are investigated. How about the torture of innocent human beings?

DEAR SIR/MADAM

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My name is Galina, I am a victim of Directed energy weapons and organized torture. This is my story, and I testify that everything described below is truth.

I am a Canadian Citizen, IT professional, arrived in Canada in good health in February 2004. My IQ was 145. I have been involved in a cruel experiment since my arrival, especially from the beginning of the 2006. It is not a clinical trial, and I have not signed any consent forms.

I am affected by bio-terrorists, who perform a mind control over me. They proposed me to work as a guinea-pig for RCMP several times and offered money: 25000 CAD per year. I refused every time.

Maybe it is not RCMP, maybe it is another Canadian structure, but it is a Canadian structure, because I live in Canada and the police, RCMP, Ministry of Health, doctors, etc. have been informed many times since the beginning of 2006. Nothing has changed. It points directly at the local authorities.

This influence at a distance is possible with a microchip or a filament implanted in a human body (if a filament is implanted, then a microchip may be somewhere outside). By means of the microchip, they play with a person's brain as if it were a computer device. The following are the symptoms of this influence:-

- 1) A feeling of living in an unreal world, as if I'm taking drugs.
- 2) Permanent scanning: waves from the top of the head to the bottom, which delete memory. I lose memory and cannot remember what I did 2-3 seconds before.
- 3) They receive all my perceptions: see what I see, smell what I smell, hear what I hear and so on. They can send perceptions to a person, for example, they send to me very clear visual images.
- 4) They can suppress a person's will, delete feelings, emotions, desires. They can send and substitute artificial ones for my own. They scanned and recorded my different mental states in the beginning; now they manipulate me by sending these recorded states and suppressing mine. They can change emotional attitude and relationships with other people.
- 5) They can destroy interest in an occupation.
- 6) They can manipulate reflexes (for instance, desire to eat and sleep).
- 7) They inhibit and suppress thoughts when a person tries to focus and analyse the situation. They can send and substitute their own (or computer) thoughts, words and solutions. They intrude into my thoughts with my own voice, my intonations, my vocabulary. Their purpose is to send thoughts and impulses to a person, so that he or she can not distinguish them from their own, manipulate him/her as a computer device. When they send me wrong ideas, I can percept them as right ones, because I can not analyse them. Sometimes they tell me their solutions, sometimes they send me computer perceptions and thoughts and try to camouflage them as my own.
- 8) They talk to me days and nights like over a cell phone. They can use an individual's head as the Internet and chat to each other. There was one moment when they talked to me as usual, but something happened and this speech started to sound loudly in the room. They pronounced several phrases this way, loudly.
- 9) They can affect and move every part of the body: mouth, tongue, hands, legs. They can easily change facial expressions, tone and pitch of the voice. They can cause artificial laughter and tears.
- 10) They can send impulses to do certain things: to look at something, to turn, to say certain words loudly etc.
- 11) They can trigger actions and delete memory of them later. A person acts as a biological machine. They impose pressure on a head (especially on the left side of the head), bring the person in a grave hypnotic, "twilight" state and manipulate him in this state, make him say or dosomething that he does not want to do and delete memory of it

afterwards. This pressure debilitates mental abilities very much. When I experience pressure on forehead, temples, eyes and ears, I cannot read and understand meaning of words, cannot speak properly, lose coordination of movements, feel dizzy, cannot concentrate. They improve blood circulation in the throat and in the crown of my head after this pressure. My son saw very strong blood pulsation in my throat.

12) They can inhibit and stimulate mental abilities (for example, ability to understand foreign languages, think logically, and so on). They can do it very quickly, within minutes. But they are not going to improve victims, they are interested in experiments with psychics.

13) They have methods and tools to get and decipher all of the person's memory for his entire life.

14) They can send such strong states to a person that surrounding people can receive and feel them (for example, sleepiness, tension, rage, aggression).

At the beginning of 2006, I went to hospitals and immediately changed my family doctors Sara and Naomi Pliamm (I am almost sure that they disclosed my medical data to somebody in their Jewish community and at least were aware of these experiments with psyche), went to hospitals, neurologists, psychiatrists, passed an

MRI brain scan. All the doctors refused to send me to a full-body Computer Tomography scan in Canada. I am sane at this moment. I visited two psychiatrists (Dr. Deaf and Dr. Gratzner) in June, 2006. Both of them did not do any objective examinations and tests, both refused to explore the real cause of these symptoms and formed wrong psychiatric diagnoses for a healthy person who was involved in experiments and who was in a dangerous situation. My family doctor Kenneth Chow wrote down a false diagnosis: "Psychiatric disorder" in my medical records. I was almost 47 years old when they made these diagnoses. I am sure that such false diagnoses are a shame for Canadian doctors, like false psychiatric diagnoses in Russia in Soviet times. As usual, it is necessary to spend 7-10 days in a psychiatric hospital in order to form or cancel a psychiatric diagnosis. It means that all these Canadian "doctors", who watched me for several minutes in total and formed the false diagnoses based on this diary, are profanes, bad specialists or criminals.

I know names of some people who conduct these fascist experiments ( I am sure that the tenant of our former landlords Xia (Lei) Chen, who lived with us at 73 Mossbrook Cres. Scarborough and worked for Chinese government for 10 years, was one of them). On the 18th of September 2006, in the evening, I lost my watch. I said to them of it next day in the morning, when I was leaving home. When I was returning from college on the 19th of September about 4 p.m., I found absolutely new watch of the same brand in front of the house, where I lived at that moment. Its requisites are: CITIZEN, WATER RESIST, BASE METAL, 5421-S93967, 150 120, HSB-9, MOV'T JAPAN. It is really brand new: its inside surface is not worn, and there are all sections in the bracelet (when I bought the first watch in the spring 2004 in the CenterPoint Mall at the intersection of Steeles and Yongue in Toronto, I asked to remove one section, because a standard bracelet was too large for me). They are afraid to touch people who work for secret police or intelligence services of other countries, they just legalize these spies. They look for defend less civilian people who are not connected with any intelligence services and make guinea pigs of them. Those Canadian military men, who sold us for the experiments, are not soldiers, defending their country and sacrificing their lives for its sake. They are fascist executioners, who torture innocent defend less civilians and kill them for money, carriers, "genius" scientific achievements. They should not be decapitated or executed physically. If they do not consider such experiments and debilitation as a crime, if they do it with families of innocent people, they must get it themselves. They must hear idle talk day and night, they must be debilitated, their IQ significantly lowered (they say to me that my IQ is 60-80 now), their memory and professional knowledge deleted. They must stay happy and satisfied with all these changes (they send to me sense of happiness all the time). They must lose their jobs and money (for the benefit of the victims and their families), clean floors and wash dishes as they force other people to do. If experiments with psyche need guinea pigs, they must become the guinea pigs, nobody else. No innocent civilian people must suffer because of their crimes, only these fascists and military men like them. They say they are programming, modelling a cybernetic double. They want to replace my consciousness with the control from the cybernetic twin and "turn off" my own consciousness: "You will not exist in a short period of time".

Every person may be affected, recorded and transformed into a biological machine by means of this computer system very quickly. They say that a race of completely controlled people should be created in every country. This is the most dangerous weapon nowadays, it can be compared to atomic bomb.

I wish everybody who scans me and destroys my abilities the same influence and the same result. They must get what they do for other people. All "scientists" and the military men, who involve alive and healthy people in this

program and experiment with them, must be considered as criminals, who commit crimes against humanity, they must get what fascists got after the World War II..

My name is Galina Kurdina. I live in Toronto, and I am going to sue the Government for doing nothing when I applied to the police and reported them names of perpetrators.

I need witnesses to come to Toronto (or send me affidavits) to testify about their symptoms (forced speech, involuntary body movements, voices, visual images and so on ). Please, contact me as soon as possible.

Thank you in advance,

DEAR SIR/MADAM (to *HUMAN RIGHTS WATCH*)

I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST AND ABUSE USING DIRECTED ENERGY PSYCHOTRONIC NEUROLOGICAL WEAPONS OR REMOTE MANIPULATION TECHNOLOGY.FOR NON CONSENTUAL HUMAN EXPERIMENTATION THIS PROBLEM IS A SILENT EPIDEMIC WORLD WIDE

I am a Victim of Electronic Harassment/ Mind Control/ Directed Energy Weapons/ non consensual human experimentation. I BECAME AWARE OF MY ATTACK IN January 2006.

A SHARP RISE IN INCIDENCE OF PEOPLE RAPPORTING THE SAME PROBLEM HAS TAKEN PLACE IN THE YEAR 2000 on every single continent of this planet and the number of victims keeps growing ... The implications of what is happening are enormous , the scale of it is global. The victims world wide, are trying to get organized...This is no science fiction, this is real, please ....HELP

NAME:	Galina Kurdina
Citizenship:	Russia, Canada
Born:	25-07-1959 Krymsk, Russia

I was a programmer, worked as an Information Technology consultant and a leading developer in many companies in Russia. I had an extensive experience from business analysis to testing and maintenance of application suites.

#### Health Issues:

I have experienced symptoms of Psychotronic Weapon attacks since January, 2006:

- 1). Debilitation of mental acuity, disruption of ability to concentrate and think by myself.
- 2). Loss of memory and knowledge: I cannot remember what I did or was going to do 2-3 seconds ago.
- 3). Feeling of living in an unreal world, as if I am taking drugs.
- 4). Receiving of visual images and sounds (e.g. intense loud noise).
- 5). Triggered actions and deletion memory of them later. I experience pressure on my crown from above, which brings me in a grave hypnotic state. I experience pressure on the forehead, which makes impossible to concentrate and think. I get a non-stop stream of words, commands, impulses, pictures. My attention is drawn to this non-stop stream very much. I am manipulated in this state 24/7, like a computer device, compelled to say or do something that I do not want to do. Decisions are made artificially. I experience forced speech, involuntary body movements, change of facial expressions, tone and pitch of the voice, artificial change of emotions and desires, artificial laughter and tears.
- 6). Inadequate states, which I have never experienced before (depression or obsessive desires).
- 7). Deciphering memories and reading mind.
- 8). Sleep deprivation or uncontrollable sleep.
- 9). Heart attacks, artificial pain, cramps in muscles and other symptoms.

I was diagnosed with psychosis and delusional disorder in June, 2006. I told psychiatrists that I considered myself as a victim of Psychotronic Weapon, sent letters to them, applied to the Information and Privacy Commissioner of Ontario in order to cancel these diagnoses. Both doctors refused to do it. I am convinced that I have been sane so far, but the fact is that I have got two psychiatric diagnoses. If these diagnoses are right, the psychosis and delusional disorder are the consequence of the influence of electromagnetic energy and Psychotronic Weapon, since the crudest forms of the Psychotronic Weapon attacks could be used to distract individuals. I also claim health damage of other kind as a consequence of electromagnetic energy and Psychotronic Weapon attacks: trauma of left temple (I experience stimulation of the left temple every day, I do not understand well what I read and hear without this stimulation), debilitation of mental acuity, disruption of ability to concentrate and think by myself, loss of

memory. I have arrived at Canada in perfect health in February, 2004. My IQ was 145. My family does not have any history of psychiatric diseases. I was almost 47 years old, when I was labelled with psychosis and delusional disorder. I lead a normal and healthy life: I did not drink, smoke, abuse drugs, I attended gym. The only serious stress that I experienced was a stress, intentionally inflicted by the effects of electromagnetic energy and Psychotronic Weapon, negligence of RCMP and police officers. There were no other reasons to develop psychosis and delusional disorder.

#### Financial Issues:

The experiments with my psyche were used to sabotage my studying in college, daily co-op job routines and efforts to find a job, since criminals needed just guinea pigs in extreme experiments with psyche and prevented me from finding and securing a job. I graduated from Seneca College in August 2007 and started a co-op job in bank in September 2007. I was affected with idle talk, hypnotic states, manipulations during the co-op semester so hard that I could have started programming only after 5 P.M. every day. I have applied for disability determination, since I am being attacked all the time and not able to secure any job.

#### Agencies Approached:

I applied to the Ministry of Health in Ottawa, United Nations Office in Ottawa, Scarborough Court (Justice of Peace refused to take an application and sent me to Mental Health Court Support Services), went to Ontario Information and Privacy Commissioner Department, visited Member of Provincial Parliament for Don Valley East David Caplan, went to Scarborough Criminal Court. I wrote a lot of letters to Canadian Government, its associates, Canadian newspapers, magazines, TV, Radio and all over the world. I met many Canadian politicians in person.

I have applied 7 times to Toronto Police Service, provided them with my symptoms and the names of suspects (Lei Chen and family of landlords at 73, Mossbrook Cres., Scarborough). First and second time I applied to the Police Division N 41 in January, 2006. Both times police officers sent me to Health Department and refused to start investigation. I applied to the Police Division N 52 and said to them name of suspect, Lei Chen, but police officers refused to investigate. I applied to Police division N 33 and talked to police officer Thompson on the 29 of December, 2006. Told him my story and provided him with the name of suspect Lei Chen. He refused to start investigation and suggested to go to a doctor. I applied to Police Division N 33 and talked to police officers Castle and Nicholas on the 16th of December, 2007. I told them name of suspect Lei Chen, but they refused to investigate. Police officer Castle asked me twice: "What do you think, what government affects you? May be Russian?". I answered that I believed it was the Canadian Government (at least, it sanctioned all these attacks and possibly employed organized criminals), because police, RCMP and other Government structures had been aware of these experiments since January 2006, but did not start investigation, despite the fact that the experimenters lived and visited the house at 73 Mossbrook Cres, Scarborough, where I rented an apartment, and I heard their Russian speech, saw their faces and reported it to the police and RCMP with the names of the suspects. Furthermore, the Government of Canada has a track record history of abuse that results in experiments to cause disease and premature death of people. Officers Castle and Nicholas gave me a lift to the Scarborough Grace Hospital to a psychiatrist. Police officers Constable Corbie and Constable Khan from the 33 division came to my apartment on the 6<sup>th</sup> of February 2008 and witnessed microwave hearing. I talked to the police officer Gottschalk in the 33 Division on the 24<sup>th</sup> of April, 2008. He created a file in their computer system. It was done two years and three months after the first report to the police division N 41 of Toronto in January 2006. I and my landlord reported to the police division N33 (officer Gottschalk) that I recorded more than 200 volts/meter for radio frequency 10 MHZ (and other frequencies) many times, but nothing has changed so far.

I called RCMP in April-May, 2006 and reported to an officer, who introduced himself as Steve Frith, my symptoms and name of a suspect. Steve Frith laughed and said that there were no laws to defend me and he did not see anything criminal in this situation.

#### The Reason For My Being Targeted Per My Experience Are:

I did not commit any crimes. I lived at 73 Mossbrook Cres., Scarborough, Ontario, Canada from January, 2005 to October 2006. I am sure that a friend of landlords Lei Chen carried out these fascist experiments with psyche. This "Doctor Mengele" arrived at 73 Mossbrook Cres in March 2005 and started assaults upon me and my family. He reads and understands Russian (he tried to read a Russian book in Plaintiff apartment). Son of the landlords Yu Xiong Li said to me that Lei Chen had worked for Chinese government for 10 years. I began to feel bad and move my bed at night time in August 2005; unusual bruises appeared under nails of my toes. I experienced loss of memory (e.g., especially when I took exams or job interviews. At the end of sentences in tasks, I could not remember what I had read at the beginning of these sentences). Several people, who spoke Russian, joined him in January 2006. I heard their activity, voices and saw their faces in the house from January, 2006 to March, 2006. For

example, I heard in Russian: “Miracle, miracle” on the main floor of the house in January, 2006. I had never heard Russian speech and saw only Chinese people in this house before January, 2006 and after March, 2006. Since January 2006, I have seen Lei Chen in several situations that directly point at his involvement in the events that I describe. In the middle of January, experimenters ordered me (by means of microwave hearing) to go out and meet a person in front of the house. I used a perfume “Chanel N5”, and I heard that somebody had said on the main floor before I went out: “Is Chanel N5 OK for you?” I went out, and a person appeared from the house at 73 Mossbrook Cres. 2-3 minutes after me. He stood on the porch and looked at me. This person was Lei Chen; there was nobody else on the street. I saw one white man in a car with Lei Chen in front of the house at the beginning of 2006. I saw one white woman with earphones and Lei with earphones in front of the computer in his room on the second floor (I saw them through window glass) at the beginning of 2006. Lei Chen waved his hand and greeted me. On the 13th of January, 2006, I got a trauma of the forehead and left temple: I felt a sharp pain on the left side of my forehead. My speech was deteriorated after that; I saw bloody letters in books and did not understand meaning of well known Russian and English words, when I tried to read. The following night I experienced multiple heavy waves in my head. I put several saucepans, blankets and pillows on the head, but a pain was severe.

I heard laugh and Russian speech on the main floor of the house after the trauma: “She is looking at the book. She is trying to find out whether she can read or not.”

Chinese in the cars followed and watched me after the trauma. One car turned abruptly in front of me on the street, and two Chinese in it looked at me during 20-30 seconds. The car made a turn and left after that. It was an open threat.

Experimenters started talking to me after that trauma. On the 21st of January, 2006 they offered to pass a procedure that could have helped me. I felt some movements inside my head (as if beams crossed lines on my forehead, temples and crown from inside). It temporarily improved my state, but I still read with difficulties. They offered another procedure in February. It resembled acupuncture on my left temple, and almost restored my health (I could read and understand as I did before). After that they said to me that they were going to create a hybrid of a computer and a human being in order to suppress my will and manipulate me as a bio robot.

I claim that Dr. Family Physician Sara Pliamm, who was my family doctor till January, 2006, got my permission to disclose medical data to other doctors in 2005 fraudulently, she did not say to me about the purpose of this disclose. I signed this paper, because I thought if anything had happened to me and Sara simultaneously, Sara’s children Naomi and Lew (family doctors in the same polyclinic at 4646 Dufferin Road, Toronto) would have helped me. I have never given a permission to disclose my medical data for the experiments with psyche. I am sure that Doctor Sara Pliamm was aware of these experiments. I was shocked when Dr. Sara Pliamm said to me all of a sudden at the very beginning of our meeting in January, 2006: “Do not think of any silly things” (this phrase was not an answer to me).

Dr. Naomi Pliamm reviewed my medical history and chart. Dr. Sara Pliamm said that she had found two references for me, made by Naomi Pliamm, in my medical file and showed them to me at the end of 2005 year. The references were regarding problems with throat and bones (I recall that Naomi Pliamm formed a diagnosis something like osteoporosis). Sara Pliamm asked whether I had contacted Naomi Pliamm before, and I answered that I had never seen Naomi for any medical complaints. Sara Pliamm asked whether I experienced any pain in throat or in bones. I responded that I did not experience any symptoms in the throat, but I experienced some pain in my right hip from time to time. Dr. Sara Pliamm replied that, in her opinion, it could not have been an osteoporosis, but told me to set appointments with two doctors in the Polyclinic at 4646 Dufferin Street. She said to me to cancel these appointments later, but she did not say that these references were made for somebody else and put in my file by mistake. These references were made for me, they had name “Galina Kurdina”.

At the beginning of the 2006, Jewish people started following and watching me openly in the polyclinic at 4646 Dufferin Road.

#### Urgent Demands:

- 1). Investigate my complaint.
- 2). Produce copies of my profiles from RCMP, CSIS, Ministry of Defence and Police.
- 3). Cease activities of described abuse permanently and forever.
- 4). Provide with written request of permission to do experiments on me.
- 5). Release to me names of all persons, involved in illegal investigation and or experimentation on me.
- 6). Answer FOIA Requests to Government of Canada and its associates honestly.

- 7). Supply me with all records and diagnoses, opinions and lists, as they pertain to me from the experiments and investigations done.
- 8). Disclose to me all records of the location of any electronic device inside or outside the body, affecting me.
- 9). Provide with a letter of demand for "honest service" in order to present such letter to health authorities and remove any suspected devices in the body.
- 10). Treat all physical and medical injuries, present and future, which resulted from Psychotronic Weapon crimes
- 11). Compensate pain and suffering, physical and mental harm, detection and removal of microchips by commercial experts, negligent abuse by RCMP and Police, job deprivation, illegal use as a guinea pig, breach of confidence.
- 12). Outlaw usage of Psychotronic (Mind Control) Weapon on innocent people. This weapon may be used only after the decisions of Courts against spies, terrorists, criminals and so on.

Evidences of the effects of Psychotronic attacks upon me:

- 1). I use a Trifield BroadBand Meter, commercially available device for measuring electric current from 0 to 1000 Volts/meter. Tests, when I have detected electric current with the meter near my bed place, show voltage up to 1000 volts/meter and more. Accuracy of the meter is +-30%. If we take the maximum measurement as 1000 volts/meter (though very often the meter detects much more than 1000 volts/meter) and subtract 30% from 1000 volts/meter, we get 700 volts/meter. This voltage is considered as high voltage.
- 2). I use an RF Electromagnetic Field Meter EMF-829, commercially available device for measuring Radio Frequency from 100 KHz to 3GHz. The meter has been calibrated to standards, traceable to International standards. Tests, when I have detected radio frequency with the meter, show strength of radio frequency field 10 MHz (and other frequencies) from 1.46 V/m to 200 V/m and more for hours. Obviously, this radio frequency field is induced artificially and is health and life threatening, since maximum exposure limit for Persons Not Classed As RF and Microwave Exposed Workers for 10 MHz radio frequency is 28 V/m for 6 minutes in Canada.
- 3). On the 18th of September 2006, I walked on foot in the evening and lost my watch. I said to the experimenters of it next day in the morning. When I was returning from Seneca college on the 19th of September about 4 p.m., I found absolutely new watch of the same brand in front of 73 Mossbrook Cres (where I lived at that moment). Its requisites are: CITIZEN, WATER RESIST, BASE METAL, 5421-S93967, 150 120, HSB-9, MOV'T JAPAN. It is really brand new: its inside surface is not worn, and there are all sections in the bracelet (when I bought the first watch in the spring 2004 in the CenterPoint Mall at the intersection of Steeles and Yongue in Toronto, I asked to remove one section, because a standard bracelet was too large for me). This watch was expensive: about 200 CAD, including taxes and repair of the bracelet.
- 4). I have reported to police, RCMP, Courts since January, 2006. On the 6th of February 2008, police officers Constables Corbie and Khan from the 33 division of Toronto Police Service came to my apartment. Constable Corbie said to me that he heard noises and sounds in his head. I asked Constable Khan several times whether he heard noises in his head. He answered that he heard them at the same time as Constable Corbie. I did not hear anything at that moment. On the 24th of April, 2008, Constable Corbie said that his hearing was impaired by microwaves on the 6th of February in my room, and he heard these sounds everywhere all the day long after visiting me. He also said that he could not testify against government, since he worked for it. Constable Khan denied that he heard anything on the 6th of February, 2008. I have applied to the Superior Court of Justice in Toronto, and I am going to subpoena these Constables, ask the Court to put them under oath and testify. It proves that I am under health and life threatening attacks of Psychotronic Weapon (microwave hearing is one of the incapacitating effects of Psychotronic Weapon).
- 5). I testify that I experience enormous pressure on my head. Blood circulation in the throat and in the crown of the head is artificially improved after it. My son saw very strong blood pulsation in my neck.
- 6). I testify that my memory is deleted by Psychotronic weapon. I sent a letter to my mother in Russia on the 21 of June, 2006 and put "Lei Chen" as the name of tenant at 73 Mossbrook Cres., Scarborough in this letter (I found a copy of the letter by chance at the end of August, 2008). It indicates that I knew his name very well. My memory was deleted since the 21 of June 2006, and I put name Xia Chen in the first version of Statement of Claim to the Superior Court of Justice (I saw this name on a letter in our common mail box in autumn 2006 and wrote it down in my diary). On the 17th of July 2008, I signed a contract with Yorkey Investigation Incorporation to find out the full name of tenant Lei at 73 Mossbrook Cres., Scarborough and paid 250 CAD. On the 18th of July 2008, I received a letter from them with the name of tenant "Lei Chen".

Dear Derrick,

it is a good idea to come to Washington and protest (picket) White House. I will come, if I have a place to stay for 2-3 nights, because I am not able to afford hotels. We must have a social club in Washington, near White House. It is necessary to have an office (a room) in Washington for protesters, who want to come to Washington from others cities and countries.

Thank you, Sincerely, Galina Kurdina

**20/10/08**

Dear Derrick,

We are being destroyed and murdered every second, we do not have enough time till our organizations comprise tens or hundreds of thousands of people. We must "socialize" in Washington near White House and in Ottawa near Senate Building.

Thank you,sincerely, Galina Kurdina

**PETITION DATE STARTING IN OTTAWA AND TORONTO FROM AUG. 25, 2009**

**Dear Member of the Canadian Government:**

CC:

To Whom It May Concern:

This letter is to ask for your help for the many constituents in Canada who are being affected unjustly without their informed consent by Psychotronic (or Mind Control, Electronic, Directed Energy, Neurological, Non-lethal) Weapons.

We are writing you on behalf of Canadian Organization of Victims of Psychotronic (Mind Control) Weapon. We, and many others, are being TORTURED AND MUTILATED IN A MIND CONTROL CONCENTRATION CAMP 24/7. We wouldn't be tortured and manipulated in a properly functioning legal system/society.

Victims of Psychotronic Weapon detail the most extreme and totalitarian violations of human rights in human history, including the most horrendous incidences of psychological torture, mental and physical mutilations. Criminals place human subject under continuous surveillance, no matter where he/she is; they monitor human brain, including thoughts, reactions, motor commands, auditory events and visual images; they continuously alter consciousness, introduce voices, noises, other disturbances, commands, images and "dreams" into the brain; they directly abuse, torture and hit bodies - including performing advanced medical procedures - from remote locations. The technology they are using is so advanced that it allows the controller'(s) to see through the eyes of the targeted individual, essentially seeing whatever the victim sees.

These are some of symptoms of targeted individuals:

- 1). Microwave hearing and torture with intense loud electronic sounding noise
- 2). Visual disturbances, visual hallucinations
- 3). Manipulation of will, emotions, feelings, perceptions
- 4). Manipulation of human behavior: forced speech, involuntary body movements, transmission of specific commands into the subconscious, compulsory execution of these commands
- 5). Reading thoughts remotely, retrieving memories, implanting personalities
- 6). Debilitation of mental acuity, inability to concentrate, disruption of ability to think rationally and independently
- 7). Loss of memory and knowledge
- 8). Inadequate states, which targeted individuals have never experienced before (states of narcotic intoxication, depression, obsessive desires and so on)

- 9). Control of sleep patterns: sleep deprivation or uncontrollable sleep
- 10). Blurred vision
- 11). Cramps, seizures and spasms
- 12). Excruciating artificial pain in any part of the body, for example, heart attacks and other symptoms

We have contacted police, RCMP, Security/Intelligence Agencies, Courts and other Government institutions over and over and over again, but have had our appeals for assistance and protection almost completely ignored or suppressed. Government “doing nothing” in this situation is a form of sanctioning these horrendous fascist experiments with psyche on innocent and defenseless people, that is why Canadian Government is responsible for these crimes. Government of Canada must uphold the rule of National, International and Human Rights Law and protect Canadian citizens by these laws, instead we see the huge disconnect between its professed Principles and Values and the reality.

It is our responsibility to record and alert the world to these horrendous crimes and the extreme danger that these technologies pose to democracy, human rights, privacy, mental and physical freedom, health of all people. These are the most horrendous weapons and crimes imaginable, and the people, using them, are mass-murdering conspirators, pursuing fascist, totalitarian, fundamentalist schemes.

“Doctors Mengele”, who started developing these techniques in concentration camps during World War II, were brought over here from Europe after the war to continue their atrocities. MKULTRA was the first of these illegal and immoral experimenting with unwilling victims, we are the latest victims. THIS MUST STOP, and the responsible people exposed and brought to justice for these unspeakable crimes against humanity. We demand only that human rights are respected, and the Canadian Government appoints a Committee to get to the bottom of this most serious matter based upon the evidence piled up, which was collected, intercepted and captured by the victims years after years.

This gross violation of human rights must be investigated immediately.

**THE FIRST DEMONSTRATION IN THE HISTORY OF CANADA REGARDING THE TORTURE, AUG.25, 2009.**

On behalf of the victims of canada, thank you for your support all the time. With your full support, we successfully held the first demonstration in the history of Canada regarding the torture, Aug.25, 2009.

Could you please post Danielle's letter and photos Re. our petition in Canada onto your website? Thank you very much.

Best regards,  
Robin Yan

Hello All,

Many of you do not know me, but Galina and Robin do(who ran the protest yesterday at Queen's Park do) - and I will save introductions for later for those who are dedicated to working to expose the truth about our cause.

I would like to send you all a little run-down of events yesterday -- I think Galina and Robin will agree, it was an excellent day with superb weather (my nose is totally toasted..LOL~) and we were treated with dignity and respect, a generous amount of interest (so much so that we RAN OUT OF letters), and a FEW VERY INTERESTING CONTACTS! All times are approximate.

10:00 AM We were greeted by Security and shown where we could set up. We were asked if we would be "chanting" and we said no. We were asked not to interfere with people on site and that we should let them come to us, we agreed.

We set up across from a woman on a month-long protest of her autistic son being cut off from therapy and put in a regular school. [www.tooautistic.com](http://www.tooautistic.com) (HEY! OUR PIC IS THERE!)

10:30 Human Rights Worker from the Citizen's Commission of Human Rights approached us and discussed at length the situation we faced. We exchanged emails, but unfortunately she had no business cards on her. She directed us to her website <http://www.cchr.org/>

Here is a write up found on the site where she said you may find many resources:

The Citizens Commission on Human Rights (CCHR) is a non-profit, public benefit organization dedicated to investigating and exposing psychiatric violations of human rights.

11:30 am, A HUGE tour of Italian and Spanish speaking tourists get stuck outside the legislative building for some reason, and (possibly to kill some time) the tour guide relays and translates in both ITALIAN and SPANISH, the story of Covert Mind control as dictated by Galina. The group is sympathetic and interested (until they get to go in..lol)

Nothing too interesting happens after that for a couple of hours, we get a number of people stopping and asking about our situation -- some stopping for longer than others...needless to say, we only have ONE letter left when we spot the CBC vehicle in the parking lot!

1:00 pm Media Trucks start arriving -- our hearts are in our throats as we feel as if they may intend to interview us! Acutally, the set up is for speaker Dan McTeague to present his speech on the treatment of Omar Kadhr at Guantanamo Bay!

2:30 Dan McTeague shows up to do his interview. About half an hour of talking on Dan's part -- the issue with Quantanamo Bay is loosely connected to OUR issue...the underlying facts being that PEOPLE ARE BEING TORTURED WITHOUT MERCY/JUSTICE/ETHICAL CONSIDERATIONS!!!

Here is a link to the situation he spoke of (but nothing on CTV.ca about the talk yesterday, oh well)  
[http://www.ctv.ca/servlet/ArticleNews/story/CTVNews/20090125/khadr\\_panel\\_090125/20090125/](http://www.ctv.ca/servlet/ArticleNews/story/CTVNews/20090125/khadr_panel_090125/20090125/)

Unfortunately, he only appeared on the news for about 10 seconds! (Robin, did you VHS it?) Legislature Watchdogs (while polite) stood guard IN FRONT OF AND AROUND THE CAMERAS so that WE WOULD NOT BE IN ANY SHOTS!!!

However, Mr. McTeague's assistant came over to talk to us, took our picture and, I believe, strategically placed a camera to include US in the shot!

Once the shoot was over, Mr. McTeague came over and shook all our hands, talked with us for a bit, gave us his card and told us "You sure got THEIR attention" (possibly meaning the media - I mean, is it coincidence that a talk on a HUMAN RIGHTS TORTURE ISSUES by a prominent M.P. is scheduled on the SAME DAY as our protest??? I think NOT!

Anyhow, he said we should contact him if we need anything...we already got a very good thing from him, we got a confidence boost like you wouldn't believe!

And so, our first protest day came to a close. Sunburned, but happy, we took a walk to the subway, and went on our way.

I would say it was a VERY successful day, no one was disrespectful to us, we got a good deal of attention, learned a lot about what to do better NEXT TIME -- and ALMOST got on TV...lol!

Most of all we learned that FEAR is THEIR greatest weapon...none of what we feared came about.

The perps will keep on doing what they do no matter what we do...being afraid only helps their cause so...we may as well make some noise 'cause they ain't going away by themselves.

Cheers and talk to you all soon.

Dear All,

I have two lawsuits in the Superior Court of Justice against doctors, who labeled me with Psychosis and Delusional disorder, after I had told them truth about my symptoms of Psychotronic (Mind Control) attacks. I need to do toxicological tests in Quest Diagnostics Laboratory in the USA in order to get a report form a toxicologist and file it with the Superior Court of Justice, as a proof that I experience Psychotronic attacks. I will be happy, if anybody can help me financially and send money orders for "Quest Diagnostics" or cash, because these tests are extremely expensive, and I do not have any medical insurance in the USA (tests are unavailable in private laboratories in Canada, only in the USA). I will return the money in 2010.

Thank you,  
Sincerely, Galina Kurdina

## **WE HAVE PROTESTED IN FRONT OF THE LEGISLATIVE ASSEMBLY BUILDING AND NEAR MEDICAL SCIENCE BUILDING OF UNIVERSITY OF TORONTO TODAY.**

We started at 10.30 A.M. There were 5 people in front of the Legislative Assembly: Robin Yan, Regan Hallett, Carlo Calandra, Mark Holden and I, Galina Kurdina. People approached us and we distributed about 10 fliers. One woman came to us and started a scandal. She offered us to hire people, pay them and ask to hold our posters on streets of Toronto. She suggested us not to appear ourselves on the streets. She persuaded us that we had to put some soft information on our posters, not the truth that we experienced and described. When asked, what soft things she would advice to write on our posters, she did not answer. She asked Robin, what was the reason of his targeting. It was clear for all of us that she worked for police, or RCMP or Government. Robin took his camera and wanted to take pictures of her, and she immediately disappeared. I kindly ask you not to talk to such people, not to waste your time and strengths. Even if you have the best proofs in the world, these people will spread lies about you, because they are paid for it.

We left Legislative Building about 1.30 P.M. Robin, Regan and I went to Tim Horton and had some coffee. After that we decided to go to any street and came to Medical Science Building of University of Toronto. Regan left us in 30 minutes, Robin and I stayed there for one hour. We distributed our fliers very quickly, people approached us, read our poster about mind control and took fliers. One student of UofT, sweet boy, said to us that, in his opinion, these experiments were disgusting, another person wished us to continue our struggle.

We made pictures and video records. I will send them to all of you, as soon as get them.

**21/12/09**

Dear All,

I wish you Marry Christmas and Happy New Year. May the true spirit of Christmas bring you Peace and Happiness.

I send you references to four video recordings on You Tube about my lawsuits against psychiatrists. I lost motions on summary judgment, because judges neglected all medical records about specific electromagnetic attacks upon me and nano materials in my system that were used as microchips to send signals to my body.

Just to let you know that this coming Sunday, 15 April at 7pm local Irish time there will be a radio show with the topic Microwave Warfare, see [www.oymireland.com](http://www.oymireland.com) with Barry Trower. If you have any questions for that show you can email them to Alan at [info@oymireland.com](mailto:info@oymireland.com) I have forwarded few and one of them is below:

All the best

Galina

Q. How Microwave warfare is applied in assassination?

Lately I had an experience. I went shopping and this time I took with me microwave radiation detector. When I arrived to the grocery shop all the car parking places were taken apart from the one in front of which the woman with a sport bag was standing. Instead of parking into the parking slot I stopped the car next to her and switched on my device. It started to produce a very loud sound. So, I got out from the car and went to the shop with my device ON. It started again to give a very loud sound towards one couple. So, I kept it pointing at them in the same way they normally click their mobiles into my face and put them away. But the sound was continuing and now I was following them making them very uncomfortable, so they quickly run away from me. Then I approached the till. Again, my device gone with a very loud sound towards the man. He turned out as red as a tomato not knowing were to hide from me. Then he was rescued by taking him to another till. But before leaving I gave him information I normally give to people who stalk me.

Similar incident I had in Cuba. With the Cuban girl and a large bad I found behind my back. The paralysing pain started to spread in my body. Luckily there sea was O.K. that day and I jumped into the sea and started to watch as to what was happening on the beach. Quickly she started to walk away with the bag.

So, I started to take this device with me now to check as to what is happening around me. Because normally perps lock you into their network in their tracking. I detect few other things with this device but it needs more writing.

So, I could explain if there is an interest.

But somehow, I cannot detect anything with this device in my bed but recon that because I am in a static position something is beamed from the satellite which I cannot to pick up as I do feel wavy and pulsating sensations in bed.

**23/6/13**

I feel worse with every passing day: experience pressure from above, hypnotic states, inability to think by myself, voices and sounds in my head, loss of memory, forced speech, involuntary body movements, triggered actions 24/7, except time, when I sleep. I needed immediate help of the Emergency Service and called 911 3 times on the 1,2 and 3d of June, 2013. PC Clarke (# 10772), PC Gonzales (# 5417) and Sergeant Danny Dion (# 6143) came to my place with 3 medical workers from ambulance. They referred me to psychiatrists one more time, reported to me that they did not have any equipment and training to measure electromagnetic frequency, explained to me that they work for the Canadian Government and can not investigate crimes, committed or sanctioned by the Government (in this case, what service works for people and defends them in Canada?). As usual, their hot desire was to put me in a psychiatric hospital. They could not do it, since **I said to them that I was not going to harm anybody, including myself**, and decided to arrest me instead. The police took me to the 41<sup>st</sup> division, moved to the 55<sup>th</sup> division and brought to the Criminal Court on the 4<sup>th</sup> of June, 2013. The bail program officer did not have enough time to talk to me on the 4<sup>th</sup> of June, and I spent one night in Vanier Center for Women. I was released on the 5<sup>th</sup> of June, 2013 after 6 P.M. I may be arrested one more time on the 25th of June, 2013 in the Court, since I refuse to go to psychiatrists, who are not specialists in the field of assessment and treatment of people, who are subject to manipulation via mind control devices, since these psychiatrists, most likely, will make wrong diagnoses for me. Sincerely,

Galina Kurdina

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

27/4/16

Hello, I'm a victim of Non consensual experimentation pretty heavily since 2012, but I believe I was chosen much prior. It started with Biological/chemical/emf. Physical experimentation which turned into behavior modification of motor skills and limb movement. Mind mapping. This has been mostly focused on continued programming as of late reinforcing physical effects of directed radio frequencies at my body to trigger movements without me consciously telling my body to move. I've been drugged and implanted without my consent, and believe there is heavy metals and nano technology throughout my body. I'm definitely in a program extension of modern day mkultra. This technology is intense and powerful. It never stops. The programmers keep developing psy op agendas and have been intensifying the programming thru the chips and directed radio frequencies over the past year and a half. I've had this tested on me in clinical settings as well as in public. It's been said that they like to manipulate me bc I'm petite and coachable. I think I have an implant as well in the top of my head which receive the frequencies and I can explain in further detail.

I wanted to fill you in on how my last 2 weeks alone went, to give you an idea on what I've been going through as a targeted individual. I'm concerned that the puppeteering may become severe, and If they continue to expose me to drugs and toxins as it decreases my cognition. I want to share before it gets too late and they cause me to commit a dangerous offense or something as I've read about that gal in Canada, who committed a stabbing sounds like she's been Manchurian candidate programmed and is a targeted individual as well.

<http://www.cbc.ca/beta/news/canada/toronto/psychiatric-assessment-rohinie-bisesar-1.3549347>)

The technology continues to advance becoming more invasive to targets and highly accessible to average street perps involved with harassment as well. I wanted to tell you about my targeting and my experience being programmed. I'm in deep in the realm of mk ultra type experimentation. I was trying to move on with my life and the effects of targeting and I made a really foolish mistake 2 weeks ago and I was totally taken advantage of.

I went to my first appointment for biofeedback. MAJOR MISTAKE. I thought it would be therapeutic. They recruited the biofeedback therapist to assist in programming me as follows. When I got the sense I should leave I was mind controlled to stay.

I know I'm implanted and this confirmed it. Now they've programmed me with new frequencies to control my more limb movements throughout my body. I'm terrified. I knew they had the ability to raise my right arm through programming previously done in 2014 with rf waves. This just opened the door wide open. I didn't think I would be getting a treatment the first day. She attempted once and it was unsuccessful, she moved it over a half inch and put the electrode right on top of where I have the pain and tingling sensations from the implant when being hit with

frequency. The implant is on the top right side which connects with what i believe is the vagus nerve. Now I've found they can remote trigger my neck to spasm and twerk for me to look to the left and change my eye movements as well as spasm my legs to tighten up. They can cause me to space out and lose my thoughts, or stumble on my speech. They can also effect emotions and make me go from content to sad in a moment.

One AGENDA might be: CAUSE ME TO CRASH MY CAR. if I get in an accident this is why. Ive been in a handful of minor traffic accidents but nothing ever severe. They've been doing things to get me worried when driving. Like one car came at me w.o their headlights on, so i wouldn't see them and cause a wreck.

So they hacked my brain to mess with my eye movements and other spots on my body are now coded with various frequencies to trigger movements. And they disrupted my olfactory senses. They can make me sniff deeply and induce different smells. Like garlic or campfire smoke. It effects how i breathe overall and causes my breathing to stop through my nose when I'm sleeping.

I did find that this effected the nerves on my heart. I woke up another time to it beating out if whack and in pain. Essentially they can electronically make my heart burst into pain controlling the nerves on the muscle.

So I've been freaked out about this driving threat so I went to a defensive driving course. They rigged the classroom to beam frequencies that would reinforce the programming coding that was done with the biofeedback. They said it was the same tech used to program mass shooters.

The teacher harassed me the whole time with underhanded comments directed at me. Talking about how a crash will cause permanent trauma to the driver and they will never be the same. People handle emotions differently, and can't cope after a crash and they are forever changed. We're some of the things he said. He barely taught much material in the 6 hrs, he was mostly bs'ing and fear mongering for me to be afraid of driving. Which is def the case now that they have control of my body.

The driving course instructor made a lot of allusionary statements. That presidents arent elected their selected. Also said 20 percent of the population own 85% of the money which leaves 80% of the people fighting over 15% of the money that's left over. (Which is why so many people are willing to participate in targeting, for the \$ incentives). And he said something about the golden pyramid which had nothing to do with driving.

Basically Ive been caught up in dealing with targeting from a psych stand point and united, my controllers in charge of experimentation and the doctors, are creating this timeline of trauma throughout my life. My parents divorce and an abusive relationship to paint this picture of someone who is mentally unstable and these "traumatic" events each cause permanent brain dysfunction. Having me think that after a crash I would be mentally disabled to function in society bc they have the tech to make it so and programed me to appear dysfunctional, disorganized and confused in the event of a wreck.

They can use it to mentally handicap me mentally and use the technology to continue to run the show.

So another threat I'm facing is Permanent "psychiatric impairment" (guidelines attached) They've painted a portrait to fulfill these markers and create this false agenda to portray history of mental illness when dealing with stress.

My targeting is severe. They want to SILENCE me from my experiences and they can achieve it through brain damage, or causing me to hurt someone in a wreck and allowing the programming to intervene and make me act mentally ill. I've been threatened that I'll be the youngest person with Alzheimer's.

I'm a generational TI. My uncle was also targeted and they permanently mentally handicapped him. They claimed he "fell" down the stairs when he was in his 30s.

As you can imagine the technology has advanced. And through high level harassment they've allowed beaming frequencies to be easily accessible through cellular phones and other mobile devices.

My coded frequencies are now linked to perps phones and they have a control panel of buttons to reinforce the coding of different things they've programmed me to perform. They can control which direction I turn my head, where my eyes look, and blink. They can move my arms and tapp my feet (which concerns me about them causing me to mash the gas). I've been trying to resist their commands. It's extremely hard though, when I get hit with a frequency if my mind is elsewhere it goes right through my subconscious and there I go moving about how they

trigger. I can tell when I get frequencies directed at me bc the spot on the top of my head where I was implanted gets tingly. Has been tested on me in public now. I know it sounds out there but this is the extent the technology has been developed for the use of general population control.

I know the level of control they've got on me is emense. I've become their perfect human guinea pig. Theyve become dead set on encoding every fiber of my being until I can't control myself at all.

Different things cross my mind to what they could achieve, as I've described. I'm so worried about what they have stored in the future. They've already been trying to get me to crash and harm someone to incarcerate me.

It seems like they've caused some neurological damage from the emf to my head as well as exposure to heavy metals, it always hurts abd OTC meds don't relieve the pain so I ice it.

I asked my pcp for maxalt something i used with migraines in the past. She perscribed imitrex instead, side effect = psychosis! I have vision problems like floaters and my left eye there is like darkness in the center.

It's disgusting, the level of involvement that had gone into ruining my life and creating a doll for the programmers to control. Their agenda is complete destruction.

After college I've been a Christian preschool Teacher, and then the Marketing assistant to the VP of the company Legal Resources. There was involvement from my prior employer who was contracted to target me, they exposed me to chemicals, even drugged my lunch.The "powers that be" want to take an average good person, and turn them into a monster.

So far also in my experience- poor healthcare, doctors that lie or have injected me with chemicals, and fake lab results. Researchers testing the technology on me. Psychiatric Web of lies to cover up the truth about the research and refrain from awareness of this technology getting out to the general public.

I've been put me into this program which in actuality is a puppet arena for the elite to toy with me and take turns programming and controlling me, they turn targeting into a sport. It's unfortunate I find most everyone is involved with targeting. I can only trust my dad my younger brother and my aunt.

I truly am fighting for my life and freedom. I'm concerned that they will never stop until they get me hospitalized permanently or drug me and set me up to commit a crime. They're willing to inflict brain damage to achieve silencing the truth. They want to stop me from speaking the truth about what's been done to me. They obviously don't want the general public exposed to what can be acheived and knowing how they intend to control everyone this way with the mandatory rf chips down the road.

I hope you can share my story, so that this evil program is exposed. If there are any questions about the statements that have been made please ask.

**11/6/13**

To all war crime victims and other email recipients,

I trust that this expose does what it is intended to do. Get us all rescue and relief and victim identification numbers from the United States Department of Justice before I leave for Washington, DC to hand deliver a packet of material evidence of federal obstruction as requested by the United States of Justice on behalf of the Attorney General.

This is obviously with regards to the domestic biological terrorist attacks of V2K, electronic telepathy and AEGIS (space based biometric cage). AEGIS is an electronic weapon of mass destruction target acquiring system that is also used in the freaks 18 year, 9.5 month version of human genome mapping through racketeering in federal slavery aided with violence at us unwilling crime victims such as myself that are stalked with criminal intent (unlawful surveillance with criminal intent to terrorize, harm, injure, and harass).

Of course, I never gave informed written consent to participate. Which is absolute necessity for the perpetrators to be within the laws.

These heinous atrocities are as we know are serving against humanity and serving against the United States in a rebellion against the laws of the United States.

So, if someone says they are only harassing us with electronic devices that were once unconventional advanced weaponry and devices, they are engaged in a rebellion against the laws of the United States that are against electronic harassment which in all truth is still domestic terrorism.

Because I am an eye witness and crime victim (as the freak criminals were very sloppy back on, or about 07/21/94 when it was ALL Unconventional Advanced Research, Development, Experimentation that never got my mandatory informed written consent. these Criminals fired up V2K after I saw them and then asked me directly through my brain if they could perform research using me. I had no alternative but to think F\*\*K NO! Shut that Sh\*t off! One of the domestic terrorists replied "Tough Sh\*t We're going to do it anyway!" They are identifiable terrorists out of North Carolina. After my thoughts had become audible without vocalization while these domestic terrorist held forced conversations in my skull the same way other fellow Countrymen are terrorizing me today only they've added more unconventional advanced delivery system crimes that you are now alerted to.

These freaks are also interfaced into my visual cortex. seeing what I see. Most certainly a crime against humanity, slavery, among other crimes.

So, whomever has criminally abused me since then, are accessories to the fact of the object of the original conspiracy of same UARD&E, so, it makes no difference what the status of those weapons and devices are today.

Because of electronic telepathy I am no longer capable of practicing my religious worship properly and in accordance with THE HOLY BIBLE, Old Testament, King James Version Book of Mathew, Chapter 6 Verse 6 with respect to performing a secret silent prayer of thought.

Because of the excessive prolonged and maintained duration of other persons willful criminal act. It is a rebellion against the laws of the United States that are against the perpetrators Unconventional Advanced Research, Development, and Experimentation, stalking with criminal intent to terrorize, unlawful surveillance with criminal intent, Racketeering in federal slavery of forbidden research, development, and experimentation that violates the Nuremberg Code, deprivation of rights under color of law, hate crimes, war crimes, domestic biological terrorism, rebellion, seditious conspiracy, insurrection, Domestic violence, espionage, corporate espionage, a form of sabotage, Theft of intangible intellectual property through means of electronic telepathy, federal obstruction, impeding justice, high treason, and other capital offenses.

Do not scoff as that would be your misfortune! As I stated, I have material evidence of these heinous atrocities.

Be alerted that the United States and Federal governments have willfully failed to execute state and federal law concerning criminally applied science and technology

that is terrorizing Domestic Nationals of The United States by means of signal splashing energy into our human property to force different interfaces and target us with weaponized energy. I have the irrefutable material evidence and at least twentyfour material witnesses all present and former Government employees, personnel, officers, and officials that will be testifying under oath to the Federal obstruction, part of which is crime victim tampering and federal witness tampering.

I say federal witness tampering due to the United States Department of Justice has initiated departmental proceedings in the form of correspondence that I had to almost proverbially extract someone's teeth to obtain. It was sent on behalf of the Attorney General and it stated that I can present material evidence of federal obstruction.

The correspondence requested that I am to present same criminal evidence to the Newark, NJ office of the Federal Bureau of Investigation. Since I received same correspondence I've telephoned same FBI Field Office and alerted the duty agent to the correspondence and that I am ready to present material evidence of federal obstruction that I am a crime victim and material witness of. Part of the federal obstruction is crime victim and witness tampering. Because of that type of federal obstruction, the burden of proof is on the defendants to prove their innocent of all allegations.

To explain what transpired over the telephone would be redundant. Needless to say, all three times I telephoned. I've never got a telephone call back.

That is the FBI's direct participation in a maintained and prohibited federal obstruction, again. They were contacted back in aprox. 1995 when I had a municipal detective contact their FBI field contact. Long story short,

the FBI that I am supposed to present material evidence of a widespread federal obstruction that is serving against the United States was and is still engaged in same federal obstruction with respect to a seditious conspiracy of a willful failure to execute State and Federal Law. The FBI caught with their hand in the proverbial cookie jar engaged in a direct treasonous seditious conspiracy. needless to say, I will not be giving any material evidence to the FBI as They have unlawfully and willfully dropped the ball more than once concerning this prohibited act. Better yet, I'll be going to the judicial branch as authorized by law, seeking redress to obtain arrest warrants, indictments, mandatory protection of law for rescue and relief, a judicial order to execute the law in the form of a Criminal Investigation from the Human Trafficking Prosecution Unit, the Public Integrity Section, Both of the United States Department of Justice, the Defense Criminal Investigative Service, United States Department of Defense, and the Independent Counsel. Obviously Senatoral and Congressional hearings will soon follow.

As the laws against treason clearly state, anyone that has someone misprisoned for treason will be imprisoned themselves. Believe me when I now state no one will be imprisoned for misprisoning people for High Treason.

Also, Federal extraterritorial jurisdiction is mandatory. High treason for you fellow Countrymen, a crime of this proportion is a grave and heinous atrocity that demands capital punishment. One calls a spade, a spade. Nothing can disguise it.

So, there is a treasonous seditious conspiracy that is adhering to the domestic enemies of the United States that have engaged in a rebellion against the laws of our once great nation concerning criminally and willfully applied science and technology.

This is a violation of trust at We the people from within the United States and Federal Government. This I have irrefutable material criminal evidence of that is beyond contest.

It appears that certain people have an unlawful electronic prophylactic that protects only a certian few and not the United States as a whole. Same electronic prophylactic serves no peaceful purpose as it is not serving the entire people of the United States and is thereby, serving against the United States and using force to put down same United States and is again, treasonous and unlawful as defined in the law.

That improper action does not promote good faith of Government from within same Governments stated and IS a violation of trust and a indictable high crime offense.

So, inclosing, If ANYONE, up to and including President Barack Obama believes that I am bad mouthing the United States Government. Certainly not! I have material evidence to uphold my allegations. if I did not, I would'nt state these allegations and there would not be a federal obstruction the is impeding the course of justice and hindering me from getting subpoenaed into United States Supreme Court. But if any of you think so, I'm not leaving anywhere soon. Have me arrested, as I need the money I'll get when I sue you for false arrest and have you indicted as an accessory to the fact of these heinous atrocities because of the unlawful and willfull attack that has and still is undermining me, a United States National, and my personal infrastructure of health, welfare, security of person, and my personal finances as well, as I am now injured and disabled from these criminal unnatural harnessings of other people of directed energies that were harnessed into a physical force and sent from a remote location at this non participant and non combatant.

Same directed energies are forced interfaces of my human property and assault my human matter to gain access to my human energy and my human essence. That is two different types of my human energy criminally and willfully harnessed from fellow Countrymen in an enterprise of racketeering in federal slavery with criminal intent to terrorize while criminally abusing my human property in forbidden research, development, and experimentation.

DEAR SIR/MADAM

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I was targeted in 1998 on Vancouver Island, British Columbia, Canada.

Stalking by mobs began the day I was targeted. Night terrorism commenced that night too, which means my house and farm were under attack every night: vandalism, door and window rattling, beating and killing livestock and pets.

I was chosen for organized stalking at work. My career was as a government employed crisis counsellor.

A crisis client turned out to be a stalker seeking fresh prey. I was stalked immediately.

Due to intimidation, retribution, and threats that were actualized, I had to abandon my family so as to distance myself from them.

Then I lost my home, career, savings, truck, and my entire extended family.

Perpetrators prevented me from keeping a job and home for many years.

While all this was going on I was suffering from radiation sickness from electronic harassment.

This meant I vomited night and day, trembled like I was plugged in, and all my hair fell out. I was sick like this for several years.

Now, it is almost 2013 and my situation has changed somewhat because of my location.

High level gang stalking would be obvious on the very small island I live on. Thus, electronic harassment is at a high level.

I am sick again, today, from radiation poisoning. A microwave beam focused on my eye a few days ago, and now only one eye is seeing.

The electronic harassment has disabled my legs. My bones felt baseball batted and cooked every night for years, and now I can barely walk.

After a bad electronic hit to the brain. I have to crawl for a week. This happens two or three times a year and is totally disabling.

A burn to my windpipe was sent to surgeons worldwide trying to figure out what could have caused such a burn. There was no explanation.

Anyhow, I was given three days to live. My windpipe is still under attack, and often I cannot get any air. The beams also choke me and give me heart attacks that drop me to the floor.

My electronic harassment is 100% of the time, including voice to skull. The stalking is still a problem, but quite minimal compared to before.

If my stalkers know I'm going out, they come over in a boatload.

Night terrorism is still a problem. However, much of it could be v2k. I'm never sure.

To give me a purpose in life, because all seems hopeless right now, I assist other ti's.

If I do activism my kids get hit with the energy weapons as intimidation, so I am limited to what I can do.

Several years ago, I did have a successful law suit going against police-perpetrators, but my kids were threatened with murder, so I had to drop it. The murder threats are sincere. The way our livestock has been butchered and the way my kids have been attacked has been inhuman and I consider that perpetrators must be seriously psychopathic.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**January 2008**

I am a victim of surgically implanted implants into my brain to interrogate, monitor, control and torture, via Brazilian authorities during my extradition to the USA in 1991.

It is my understanding that one of the following three (3) types of methods were used on me, and continues to this

day:

1. E. D. O. M. (Electronic Dissolution Of Memory) ;
2. E. E. O. M. (Electronic Enhancement Of Memory) ;
3. R. H. I. C. (Radio Hypnotic Intra-Cerebral Control)

Please review my website: [www.BrazilBoycott.org](http://www.BrazilBoycott.org) for an excellent overview of x-rays of my implant by the U.S. Government and case studies on mind control.

No fiction writer would dare to use what really happened to an American businessman in Brazil as the story line for a novel. It would certainly be called "not believable" by the critics. But sadly, **what is "not believable" as fiction really happened to John Gregory Lambros.**

**Minnesota** stockbroker, investment banker and international businessman **John Gregory Lambros** was arrested on May 17, 1991, in Rio de Janeiro, Brazil. He was denied a bail hearing and bail that had been previously approved by the U.S. federal district court judge that authorized his arrest in Brazil. Lambros was denied court appearances required by the Brazilian Constitution, and his family was ripped-off by scamming Rio de Janeiro attorneys: CARLOS ROBERTO SCHLESINGER, NELIO ROBERTO SEIDL MACHADO, RUY LUDOLF RIBEIRO, and VERNON DALE McNAMEE. Lambros was held in degrading conditions in Rio de Janeiro and Brasilia, Brazil, and tortured in Brasilia, Brazil while awaiting extradition to the State of Minnesota.

You say, "That's what happens when you get arrested in a third-world country, right?" Well maybe, but the usual foreign arrest doesn't include the high-tech depaterning (interrogation) that Lambros was subjected to: a form of torture akin to living inside a toaster, bombarded by an intense elector-magnetic field twenty-four hours each day. But when depaterning apparently didn't deliver the results the Brazilians (acting as U.S. agents) wanted (or needed) from Lambros, **implants were surgically implanted in Lambros's brain to interrogate, monitor and control him.**

To add insult to injury, the Brazilian Supreme Court ILLEGALLY granted Lambros' extradition to the United States on April 30, 1992, knowing Lambros could only receive a MANDATORY LIFE SENTENCE WITHOUT PAROLE. The Brazilian Supreme Court had been advised several times by the United States Embassy in Brasilia, Brazil and by Lambros that the Brazilian Constitution did not allow extradition of persons facing a life sentence. The Brazilian Constitution prohibits any penalty of a lifelong character (Article 5, clause XLVII, b) and Article 75 of the Brazilian Criminal Code, limits the maximum sentence in Brazil to **THIRTY (30) YEARS**. See, STATE OF WASHINGTON vs. MARTIN SHAW PANG, 940 P.2d 1293, 1352 (Washington, 1997). Lambros COULD NOT legally be extradited, as proven by Mexico's Supreme Court, who blocks the extradition of criminal suspects facing life sentences in the United States. See, "INTERNATIONAL EXTRADITION NEWS" section within this web site for details. In fact, the Brazilian Supreme Court never applied "The Doctrine of Dual Criminality" to Lambros' criminal conduct. 'Double criminality' is in effect a reciprocity REQUIREMENT which is intended to ensure both the U.S. and Brazil that they can rely on CORRESPONDING TREATMENT. In November 1997, Lambros retained the U.S. and Brazilian Lawyers for MARTIN SHAW PANG, who advised Lambros that CONSPIRACY to distribute cocaine is specifically addressed in Brazilian Law No. 6368, Article 14, and carries a sentence of **THREE (3) to TEN (10) YEARS**. Therefore, the Brazilian Supreme Court by resolution should of at least stated to the United States that Lambros MUST NOT BE SENTENCED TO PRISON FOR MORE THAN **THREE (3) to TEN (10) YEARS**. [CLICK HERE FOR PDF COPY OF DECEMBER 19, 1997 LETTER FROM MARTIN SHAW PANG'S U.S. AND BRAZILIAN ATTORNEY'S TO LAMBROS](#). (December 19, 1997 letter from Attorney Timothy Dole, Browne & Ressler, Seattle, Wa. and Attorney Dr. Roberto B. Dias da Silva, Escritorio de Advocacia; Rua Marconi, n053 - Coni. 83; Sao Paulo, SP; Brazil to Lambros. This letter offers an excellent overview about statutes of limitation and maximum sentences for drugs within Brazil's Penal Code).

Back in the U.S.A. there was a massive cover-up by the CIA, the Department of Justice, and the State Department, supported by the government and courts of Brazil. Lambros has now sustained years of torture and mind control. He has also been denied the freedom to practice his religion. Lambros remains imprisoned by the federal government, and has been denied the medical treatment he so desperately needs. Lambros' sentence was overturned on September 8, 1995 by the Eighth Circuit Court of Appeals that vacated his mandatory life sentence without parole because the sentence was not legal under a law in effect at the time of his alleged crime. See U.S. vs. LAMBROS, 65 F.3d 698 (8th Cir. 1995). The sentencing mistake occurred with the consent and assistance of Lambros' court-appointed attorney, **CHARLES FAULKNER**. Lambros was re-sentenced to thirty-eight (38) years,

30-year sentence with a 8-year term of supervised release, to be served upon release from imprisonment, thus a 38-year term. See, U.S. vs. ROBERTS, 5 F.3d 365, 369 (9th Cir. 1993). PLUS a CONSECUTIVE 5,357 DAY SENTENCE that he WAS NOT EXTRADITED ON, which was a breach of Article 75 of the Brazilian Criminal Code, which limits the maximum prison sentence to thirty (30) years in Brazil **and** DENIED his request to vacate three (3) other counts as per Brazilian law under the legal terms of Bis in Idem, Mutatis Mutandis, and the Principle of Subsidiarity, that have been granted to other Americans extradited from Brazil. See, [STATE OF WASHINGTON vs. MARTIN SHAW PANG](#), 940 P. 2d 1293 (Wash. 1997) and AFFIRMED by the U. S. Supreme Court, 139 L.Ed.2d 608.

The following facts and proof of this case didn't support Brazil's extradition and treatment of Lambros. - You can't fit a square peg in a round hole. The peg simply won't fit. - When you don't have the law, you pound the facts. And when you don't have the facts you pound the law. If you don't have either, you pound the table. And that's what you've been seeing from Brazil since Lambros was arrested in 1991. But no matter how hard Brazil pounds, the peg still doesn't fit.

: Mr. Lambros offers proof as to the above sentence he received and the laws affecting same by offering the court document written and researched by the oldest and whom most consider the most prestigious law firm in Minnesota, BRIGGS AND MORGAN, P.A., dated August 15, 2000, in LAMBROS vs. FAULKNER, et al, Civil No. 98-1621(DSD/JMM), U.S. District Court, District of Minnesota. The following first four (4) pages of the August 15, 2000, "PLAINTIFF'S MEMORANDUM IN OPPOSITION TO DEFENDANTS' COMPREHENSIVE MOTION TO DISMISS OR FOR SUMMARY JUDGMENT" offers an excellent summary overview. DEAR SIR/MADAM

### **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Here is some of my factual story and if you know of anyone in Florida that would want a roommate please let me know -I collect social security because of these attacks and they became permanent, .....

Mental Illness and different emotions IS possible (ie paranoia skitophenic,depression,guilt,anger,fear and more), that form of voice, pain, emotional changes including suicide (2<sup>nd</sup> or 3<sup>rd</sup> cause of young adults deaths) is not only possible BUT our Military has Patents on it.

This "communications" has been since before "Son of Sam" David Burkerwitz talking to a Dog via "thought" , and this has attacked my Family (Father's dead from "talking to God") since the early 1960's .

Don't you think my family has had enough, it's attacking me badly and I'm just barely holding on to life. My Mom and Dad were WW2 vets and they divorced, after 20 years, after the attacks started to my Mother in the form of emotional outbursts in the 60's,70's and 1980's and my father staring off and "talking to God" in the 70's and dying in 1992 not able to take anymore of it-the Doctor said his will to live is gone.

Whatever you and Russia has going please honor our Constitution and stop, your people are just aiding the enemy during wartime against me an innocent victim like my dad. Therefore given this, where does original thought come from, if you can send it to a person's GPS as their conscience.

John Hinkley, David Burkerwitz, and lately the Virginia Tech shooter. I not only have voices telling me awful things, but, while I was in an emergency ward Memorial Hospital June 11 2004 a Navy Seal with Navy Seal printed across his t-shirt came in, sat next to me, cupped his hands over his ears and started yelling Ma Ma, Ma -Ma, then within I'd say 3 minutes real-time voices were telling me "call your Mother she's dead " then the Navy Seal left the emergency ward, got up, left without ever seeing a Doctor, these voices continued about my Mother's death and to call her for 1 ½ years every day and night. Who would order this?

When I was in the Bahamas I was transported from one jail, on one island to another, for hearing voices, on August 5<sup>th</sup> 2004 at dusk by United States Military helicopter, In the Bahamas jail where there were gunshots (real ones)and voices (to my head) saying I'll be taken out back and killed, these voices came through loud and clear by computer, right to my inner ear, like by laser or something. The voices came with bodily pain, lots of it, intense, unbearable, pain in my abdomen, intestinal, head and ear pains, phantom touch also, constant voices used other Senators and Presidents voices also with ad-lib fights between Bush and Kerry in my mind with different voices giving descriptions of punches and more -it was election year 2004- , my UPS and Fed-ex were taken, hand stamped, address unknown ,when the address was fine, all these signed and stamped by the same person. Faxes and emails disappeared .

I need a meeting with someone of a high rank, and me to sign non-disclosers on this matter instead of "them" killing me via this technology under your command and the President's.

Sincerely truthful ,taught by Dad, Gary Norman Landry. P.S. Doesn't my WW2 vet Mother, Brother and Sister have a right to know what happened to her Husband and Son, Father and Brother in one FAMILY ?

These emotional changes fear to anger or guilt, remorse , they can pull from previous experiences-record them and what happen to make you feel this way- so they can give back to your or my subconscious at any time like a closed loop of anger you've had or fear.

They have heated my head - hot to the touch while laughing and saying “we’re not going to kill you Gary , and I knew your Father” things of this nature along with intense bodily pain to chest, stomach, head and groin .

Please make them stop and have someone with this knowledge talk to me in person, I’ll sign non-disclosure papers.

I am ruined emotionally, physically ,and financially (I am bankrupt - not of my doing but theirs), I am now on social security disability because of this, how many others like me?

That’s why a face to face meeting with me, and me signing a non-disclosure, after all this has attacked my family Mother ,and Father and Me for decades.

I deserve to talk to someone about this and not a person who doesn’t know it’s manmade. Someone in Homeland Security or another form of Government, who is honest with me, I need to know what happened to my Father and Me -both hearing man-made voices, via computer, to our GPS exact location - to our inner ear, temple area with pinpoint accurate aim, locked on.

Please have someone who has been following me with this technology ,have a meeting with me or anyone else who will level with me. Please BE a Patriot. --

Have you heard of spontaneous rebroadcast ? Whose doing this to my family? for 3 decades now . Since my Mother and Father, it killed my Father and it's killing me .

---You don't need to send me reading on this as both my father and me had more than anyone can describe, much more, plus they can now make anyone’s voice to me as they have used Pres H.W.Bush , actors, actresses, and more....Senators John McCain's voice, and others - so I do not need a run down telling me what they can do as I have experienced more than anyone -period -with over 1,000 breakdowns crying in the first year 2004 alone.

Tortured more than anyone before death - nobody has been tortured more than me – all the while I brought it to FBI, Hague, EU, EP, United Nations and more . They own my life and now I will be warehoused in an institution (assisted living facility) this for me a guy who built houses all my life.

Please find enclosed a petition for your perusal. We need your help to stop this global problem. (This e-mail may be forwarded to others who may be able to help.)

My name is- Edgar R. Laverde, Date: August 14, 2007, New York, NY USA

To Whom It May Concern:

I have been a victim of directed energy weapons, remote harassment, and organized stalking since 1986. The phenomenon is real. It includes psychological harassment to induce psychosis, isolation, depression, and suicide; physical and emotional manipulation; and devastation of financial and social resources.

My story is not yet in sufficient state to be published, but I do participate as an activist against these crimes, I do have relevant testimony to specific instances of harassment, and I have meticulously documented each occurrence of these assaults. To hear my story would be terrifying and bewildering to an audience unaware of the specifics of these crimes so I will reserve it until I can clearly, coherently, and efficiently speak about them.

Nobody is above the law, yet some group or agency out there believes them to be. This is not right!

My Constitutional rights have been trodden upon: my 4th Amendment right has been abused, my 5th Amendment rights disregarded; and if this terrorism is meant to be some sort of "criminal punishment" for perceived wrongdoings, then my 6th and 7th Amendment rights have been completely eradicated. And due to the constant suffering under this campaign which includes hundreds, perhaps thousands of victims nationwide, our 8th Amendment right has been outright dismissed.

This is indeed, cruel and unusual punishment.

I am also being denied my Constitutional right to pursue happiness. This torture (from a remote, undetectable source) is constant 24 hours a day, including while asleep—thus preventing me from finding emotional and psychological equilibrium, which takes its toll on my health, well-being and ability to be a productive member of society. Medical, psychiatric, or social services are generally unhelpful or serve to alleviate only a few of the many symptoms that arise from these assaults; remember, the attacks are ongoing.

The use of directed energy weapons, remote harassment, and organized stalking are quite plainly unlawful, criminal acts. I am treated as a political prisoner or worse, as a common lab rat, not even human. And that this is happening on American soil, to innocent American civilians—some victims former members of the military—is unconscionable. Legislation must be enacted to increase awareness of this hidden menace and to outlaw use of these weapons. Only through making the use of these weapons illegal will we be on our first step to alleviating this highly organized form of domestic terrorism.

I refuse to surrender my freedom and I demand justice!

**I DEMAND AN INTERNATIONAL INVESTIGATION INTO THESE CRIMES AND HUGE VIOLATIONS OF HUMAN RIGHTS!**

**For listening to my story and for your support and help in legislation and enforcement, I greatly thank you.**

Please pass this through. If any one can put Don Lee NYC on the victims list for me

To Rep Guest: It has been awhile since I wrote this.

I'll describe this. I was first targeted in 1993 or thereabouts. I wasn't aware that the **MINDCONTROL PROCESS** was being used.

It was only when I came here that I learned to define what it is. I have examples of some on this [URL](http://www.geocities.com/sgadowillowist/mindcontrol)  
<http://www.geocities.com/sgadowillowist/mindcontrol>

“SHADOWILLOWIST” A TERM USED TO DEFINE A HOAX WHERE ELECTRONICALLY GENERATED SOUND HAS BEEN USED AS A TOOL FOR HARASSMENT, TO SPREAD AN ENCODED STORY WITHIN MEDIA, ALSO AS A TOOL FOR HARASSMENT, IN ORDER TO REACH AUDIENCES WORLDWIDE, EN MASS, WITH POTENTIAL FOR MANIPULATION, AND AS A PRECURSOR FOR MINDCONTROL OF TARGETED INDIVIDUALS

Prior to 1989-1996 there was, as far as I knew, or was concerned about, no such word as “THE SHADOWILLOWIST”, in the English language, or American culture.

My only thoughts back then living in Westchester County NYS, were to take care of my recovery. Which meant attending meetings in the popular, preferred method of treatment programs of Alcoholics and Narcotics Anonymous. During this period I started to experience an harassment at my residence, more noticeably so after a staff member from NY Hospital Cornell Medical Center’s, Sleep Deprivation and Research Unit 3 south, had moved into the apartment below mine, see <http://www.geocities.com/rationaldl/index.html>

With the aid of building maintenance staff were caught by me in the beginning setting up a system whereby they might use or develop a systematic way of using sound as a method of harassment and sleep hypnosis from neighboring apartments. Based on my smoking cessation hypnotist’s sessions and relaxation class tapes at my drug rehab hospital. As this unfolded and she was reported to hospital authorities. Then things started happening outside in the neighborhood, and today as TARGETED PEOPLE know, by personal experience and now call events of this nature, GANG, GROUP or MULTITALKINGS.

Simply put, this is stalking by groups of individuals banded together for this purpose. Stalking harassments went on almost twenty four hours a day. NA members ringing my door bell and shouting obscenities, as well as individuals from the welfare hotel and neighbors. Messages, in the form of pictures and even dead animals were left in the building and on my path to the store. All this led me into at a later date one very large social services, and state department of education collaborative, connected network devoted to harassment, and the use of sound for harassment. This led to the idea that union workers from several unions do carry sound as a method for harassment of targeted individuals, and that they also use outsiders who become agents and agencies devoted to such harassments. This helps with misleading the public as to who, where and what the origins of these terrorist groups are about, and the actual reasons for ongoing terrorist harassments, with media and state education connections.

Due to breakins to my apartment by maintenance staff, working for the super, and the super, in an effort to see my written life story for NA, and fears about subsequent publication of a book based on these harassments. Especially as it relates to their connections to other 12 step employees within the building, other steppers, an old politically connected girlfriend, not active within the step groups themselves, but actively engaged in this 12 step therapeutic community, harassment. Threats of prosecution culminated more harassment and resulted in a set up, a fingering by members of AA and NA, and a vehicular mayhem, outside an NA meeting, all of which has been covered up, distorted, and ultimately led to a step up in actual realtime and sound harassment.

One method of spreading this word and engaging the public en mass was to keep the story hidden, encrypted, or encoded, later to become an ongoing harassment of major proportions, a HOAX, on the public by media. The way of spreading this story started out using sound and subliminals in media pieces, world wide and became a precursor for mind control, en mass, and a method to target almost any individual anywhere, anytime with sound. Figuring that as a 58 year old man with chronic severe lung disease, I would succumb, Leaving the doors open for more encoded games, blackmail and ongoing harassments.

There are those within the entertainment industries who have been asked to cease and desist their stalking activities. Most have responded with stepped up harassments. See <http://www.geocities.com/shadowillowist/mindcontrol.html> For examples related to entertainment, and state education. Save the transcript to desktop, and listen as directed, with headphones, or with the speakers pressed next to your ears. As the evidence becomes available the site’s links to them will be updated. See <http://www.geocities.com/shadowillowist/cspanmndcntrl.html> As with the Boston link from the previous site link, this also took place out of NYS. It became clear that sound harassment brought to the public, in relation to my

NYC and NYS harassment is being used.

For people having experiences with similar sound or sound harassment related to this issue, with similar content contact [shadowwillowist@yahoo.com](mailto:shadowwillowist@yahoo.com)

There is an explanation with each example, like the one where a man presumed dead by me as several others from my area who really are alive, and one professor Samuel Beyser from FIT, SUNY NYC.

**THIS INVOLVES THE SUPPORTIVE SERVICES AREAS CENTERED AROUND TREATMENT FOR THE ADDICT**, especially at first, and my building superintendent and helpers.

Then the violation of my written life story or fourth and fifth step. Hollywood seemed to pick up on this. See the **URL** marked /jeaninePirro she a Westchester County D.A. is mentioned during the applause segment of this showbiz sound technology created subliminal piece. Mrs Pirro's office ignored complaints of an attempted murder related to this. She is now in show biz, but lost a bid for Attorney Gen..She And Bernard Kerrik were caught up briefly in a scandal, which involved no legal action, her husband was caught upstate in prison for a bit also, during her term as D.A.

**SHOWBIZ IS STALKING A LOT OF THE TIME. NEXT COMES THE UFT TEACHERS UNION ESPECIALLY AT FIT IN NYC.** There is one example of a tape that I have made in class at FIT. In it the professor instructs students as to what must be done to keep me believing that it is the White Plains Police department, under (Pirro) save all transcripts to desktop and read along with the sound byte, as directed. Please go to C-Span once there look for "Road to the White House" scroll to Edwards and Guiliani in new Hampshire. Guiliani at Scaman's home and Garden. Find guiliani at I believe 58 min. At the end of his speech or visiting session in the Garden store he is asked by a reporter if there is anything to "the Shadowwillowist being related to MIRAMAX and old Joe Bonanno". he replies no comment, and gets in his limo. My cousin pamela married one Richard Bonanno. Look up MIRAMAX board of directors and yo will find richard Bonanno there. The industry is stalking as are several other affiliated UNIONS.

One very significant factor is that a lot of my written fourth step turns up on TV in shows like this, in a brief one sentence bit of dialogue.

I live now at the Encore 49 Hotel here in NYC. ON that Jeanine Pirro sound byte you will hear if you listen closely that, " Donald Boggis Lee will be living at the Encore 49 Hotel, a welfare dump in NYC.

This brief stalking bit was done way back in or around 1996, created by sound tech union workers, years before a fire displaced me and before I even thought of moving to NYC to further my education at FIT, after being directed to FIT by a Jewellery Design Professor Rebecca Lasking. Here I found several welcome parties. One of whom whose voices are heard on almost all those tapes. This is a network, and I have found also as heard on tapes, many call to a building, all recipients lay there cells on a bed and listen to callers from different rooms discuss what to speak about tonight. There is one tape there of a man being instructed by, I believe a Susan Annunziata from Westchester to tell all of us at GEORGE DALY HOUSE to masturbate to the building super's nine year old daughter. Joe from previous tapes, and the earlier show biz pieces tells us upon awakening for me to begin masturbating to Belkus, his onetime employee. **THIS IS BEING RUN BY AND INTO THE NYC SHELTER SYSTEMS**, and through building maintenance department workers and certain mentally ill residents, carried into different areas. Threats are being made daily by shelter personnel and staff, acting on there own also. The nearest motive is that it is to prevent knowledge of their existence from being put into book form, and it stems from old acquaintances and the WPPD and NYPD. Upon arriving at FIT, I found maybe a woman who lived below my father over twenty years ago, who dated the boys next door, who are now NYPD also, and another teachers aid, a Garnet Baraks a Jamaican who appears to be dating my Staten Island cousin's wife. His son Jeff seems to be dating a staff member of the shelter system. However there is also NA input reaching into this harassment bunch. I filed sexual harassment and harassment suits also, now on appeal.

I have hours of tapes also of class and nightly sessions also available to Rep Guest on command, and will take any recommendations also.

**WHAT IT AMOUNTS TO IS REGULAR ELECTRONICS INCLUDING TAPE RECORDINGS, CELL PHONES AND TWO WAY RADIOS BEING USED TO HARASS AND SLEEP HYPNOSIS, TWENTY FOUR HOURS A DAY. PLUS THE USUAL NEIGHBORHOOD INTEREST AND GANGSTALKING BY**

## **CURIOUS LOCALS, WHO FIND THEIR WAY INTO THE NETWORK AND CONTINUE**

**HARASSMENT AND CHAT WITH OTHER PERPS.** There are young children doing this also from children here near the Encore along with their mothers. Parking lots of hotels seem to carry this sound. the url marked BOSTON contains sound bytes taken from a piece up in Boston too, which is hundreds of miles away from NYS. Listen to it. I removed it from a travelogue film, and in it men are heard asking unseen voices in a state building, questions, about my, "the Shadowwillowist" situation, you also hear the name Donald Wright used too. he was NA then and close to Leher (NA). The remark made I believe was made by my first sponsor's wife also NA. MRs Lehere along with a member of AA each took me to a location where we were watched. After an NA meeting a man was run down. The drivers were those people watching. It was a case of mistaken Identity.

Watch MNN TV public access cable here in NYC available on the net, while shows air. You may watch without a TV hook up. They mention me all over in every show. I have traced several indy producers to my superintendent back in Westchester. One Larry Gelbert and one Lara K who perps me daily with sound and is part of our MCFORUMS site. She doesn't work at MNN but claimed an affiliation with the UN where Gel and my super's son works.

After arriving here I found the Riverview Hotel, on historic Jane St, where this UN worker Eric Hoffman the super's son lived also. It is the Theater Hotel where you will hear the whole thing including me being named as a pedophile, right on stage, and that an NA member from my homegroup has sentenced all pedophiles to death. Mrs. Leher (NA) is mentioned right in the play itself, "Hedgewig and the Angry Inch" The play's actors are heard doing this, and it like other show biz pieces are carried world wide and heard worldwide for years. Also heard is staff from fit and they are using sound which permeates the whole damn building also, and affects the minds of the audiences as a whole en mass.

Please convey this to Rep Guest, as well as the political connections to this harassment. The first is Rep Nital Anne Lowey, who along with an ex girlfriend of mine is involved, especially at my first employ in Recovery, where harassment on the job happened daily. next is HC McCall, whose wife is pres. of FIT, SUNY. Carl admitted this, that he let our teachers go after me, because of some twisted idea that he could do this as part of an investigation. he can't we know this. Waiting here at FIT also was a whole women's group of harassing agents related to my grade school. One Joan Kaplan amongst them, as is one Mary Anne Mulrain, daughter f the then head of the department of sanitation. If anything is happening in an investigatory area about my harassers being gangster related H Carl McCall should have stated it as such and asked my cooperation.

Thanks for your interest and time again. I look forward to being assigned a Congressional aide, and helping Rep Guest unravel the phenomenon related to sound and voice torture here in the USA.

I am D Lee and already on the list. If you wish you may add my site name also.

<http://www.geocities.com/shadowwillowist/index.html> you may if you wish add it right next to my name Donald Lee aka SHADOWWILLOWIST, Geshe Roache Lee. There is another site also

<http://www.geocities.com/rationalddl/index.html> This site deals with several issues but tells my therapeutic community oriented harassment's beginnings, and a journey planned by outsiders through the NYC system, to be hammered on until I could be placed, extremely ill at the Encore 49 Hotel.

I can say that this Catholic Church owned property is an SRO within the social services domain. On a sound byte it is mentioned if one listens closely to it that I will be living ere years before I arrived or before a fire displaced me from my home while I attended college in Westchester County.

You can if you wish add this statement or an abbreviated version to your site. I support your cause. I can't say I am aare of every case which you speak about, and like my own they sound incredible. Some maybe shouldn't be here without actual substantiation, however a topic like this is difficult to substantiate, especially when dealing with covert agencies or uncooperative agencies. Thanks again.

Sincerely D Lee MY COMPUTER WON'T SEND TO MORE THAN 50. SO I'LL JUST SAY THANKS, AND ADD MY STUFF

hello John: I admire your activism and wish you well Sometimes the task at hand seems like we jumped into a bottomless pit and that the only way to freedom here in the U.S. is to dig our way out. However I have noticed here certain patterns which, relate to actual involvement in realtime harassment, which show up, and repeat themselves enough to warrent an investigation, rather than turning over to them case summaries. At <http://www.shadowwillowist.tripod.com/shadowwillowist.html> there is a brief story with examples relating to E/H by certain large businesses related to the entertainment industry. Some of this harassment was done too by actual

actors connected to entertainment and its UNIONS. I also gave some examples where within showbiz media applause segments, edited in by UNION sound techs as an almost subliminal are voices related to my harassment, which can be traced to the NYC shelter systems. They have been doing this and doing me for almost two decades, placing harassing rumors using group stalking techniques, in shows that I might never have gotten to see at all ever. On our activism site I give incredible details which help back up and explain my story. I don't wish to direct you in your own activism at all, to interfere with how you run your campaign. I realize that in releasing this amount of detail it too may be viewed by the same individuals, who have and who are engaged in these acts right from the start. One case in point was that I was originally harassed by my building staff, and upon arrival here in NYC the harassment continued in the same manner. I later discovered that these people were part of a what appears to be a network, and I learned too that their relatives lived here along with my family and had directed me towards this direction and were already in place. Here is where the son of my super living around the block from my brother's inlaws engaged in a hostile campaign. Part of this may be heard on a sound byte at <http://www.shadowwillowist.tripod.com/shadowwillowist.html> where a confederate of my family tries to engage others into perping acts, UNDER THE GUISE OF BEING A D.E.A. AGENT. This super's son works for the U.N. as a security officer. I was engaged by a woman related to the U.N. on our MCFORUMS site, and she claimed that she didn't hear any E/H at all, and she has engaged me ever since with E/H as has another U.N. affiliated man who produces their U.N. show for MNN TV, where also harassment and E/H took and take place. I can't see any use for case histories of any Ti being shared with any entertainment stars at all. Much of this group which I seem to know and come into contact with is extremely racist. Some claim to have an affiliation with the Latin end, whatever that means, most like my family do not. Why then do others in the Black end, related to the NYC shelter systems engage in similar harassment I don't know. So please where show biz is concerned refrain from giving any information to them, other than my name. I believe that they do targeting also but also act in the interests of others, in my case it is to back political targeting for my outspokenness against the DSS systems abuses and NA and AA the step groups. I'll let my name stand as is on what's already there, but they do targeting. All of the major conglomerates in the U.S.A are owned by six corporations. Six parent corps. They actually own and manipulate media and what we see and hear. They even own all the net firms. They own and are the sponsors for our favorite stations and shows, who's actors, writers, and sound techs, devise and carry of 24 hr harassments on. I feel it is mostly a waste of time approaching these corps also, and ask that you treat them the way that I have asked you to treat the entertainers. Law enforcement and the House and Senate back these individuals and UNIONS. But who else is going to arrest any harassing agent or agencies. So give to them if you must.

Sincerely, D Lee

This is great of course. The thing is too that it takes so long to even begin to look at it To examine it take it apart and do something. Now e all have to convince the government that for one we are being tortured on hammered on daily. That what is happening to us is torture, that it fits all legal definitions of torture. Then we have to dissect each of our cases separately, this is after we convince others that we do really hear voices in conversation with each other and about us individually. I hope that a favorable bill goes into effect soon even a vague one describing that E/H is being used. Then we stand a chance of being able to call a cop or state official, and getting him to look deeply into each specific case. Now we get things like this from our city council members "Check into a loony bin". I swear to God that they all hear, I swear that they all know about this sound machine and its capabilities and who is running it into buildings all over the NY area. Twenty years from now people will talk about this era like we talk about those incidents way back where the US Embassy was blasted with microwaves by the Russians in an effort to read minds. It will be common. Giuliani knew and he knows of the few US marshals that I do who operated along with members of my family on setting me up for this shit.

Today we suffer.

Just received your e-mail. I am also a victim who has been helped by Roger Tolces and have appeared on his Coast to Coast with George Noory radio program as a person who is a victim. ( Roger, in case you don't know) is a counter measures expert)

I live in New York, right near the UN, and would be able to assist you in formulating your approach to the NY senators, as I met them all the time when I worked for Jimmy Cayne, the former CEO of Bear Stearns, as they were always having lunch in the executive dining room with Jimmy Cayne and other top politicians.....Ray Kelly, the police commissioner of NY also worked for Bear Stearns and for Jimmy Cayne at that time.

To Whom It May Concern:

The purpose of this e-mail is for FREEDOM FROM COVERT HARASSMENT AND SURVEILLANCE in America, my name is Zainab Lee and my direct telephone number is 312-823-2664.

For several years - - possibly longer, I have been a victim of these electronic sonic weaponry and my symptoms are practically verbatim to what I have been reading from the various websites listed at:

<http://www.us-government-torture.com/Psychiatric.html>

[www.us-government-torture.com](http://www.us-government-torture.com).

I am writing for further information as to how I may proceed with either joining a civil rights action lawsuit for filing a grievance claim with the proper organizations, etc. I understand that there are many more victims who are also experiencing the same symptoms as myself and I am curious as to how their claims are processed.

Please advise ASAP. Thank you.

I did a video for Marshall Thomas about my experiences, and I will attach the text for it (abridged version below – full text available on request or video) as well as for an e-mail I sent to Eleanor White a couple of months ago. (available on request) Because of my having been an electronic technician in the Navy and my background in computers, my approach to these problems is probably different from people who have different experiences. All I can do is my spin, if it helps anyone, I am happy, if not, at least I put in my two cents worth.

Janet Leih Women Against Sexual Harassment

My name is Janet, and I am a victim of electronic harassment.

I am tormented and abused every day.

They are trying to make me retaliate in order to discredit me, and in order to make me appear mentally ill.

This torture has been going on for 45 years

I have appealed to the authorities, but no one will help me.

They have repeatedly driven me out of homes, I have moved 15 times in 45 years.

They have repeatedly driven me out of places of employment, I have had 30 jobs in 38 years, I have not looked for work in the past fifteen.

The various ways I have experienced electronic harassment are:

Noises keeping me awake or waking me up at night: Sleep deprivation — using resonance or noises from a reverse bug

A beam of light, perhaps a laser, keeping an old injury painful

Infra red detectors used to record my movements inside my house

Positive ions polluting the air in my house which caused asthma and coughing spells

Electronic listening devices in my house

Use of microwaves to cause irregular heartbeat and asthma

Unknown beeping sounds in various parts of the house

Implant in my mouth under where my upper right wisdom tooth once was

## Possible spinal implant

The first time I was aware that I was a victim of electronic harassment was in around 1965 when I was a student at Memphis State University in Memphis, Tennessee. One night after I had gone to bed and was half asleep, I heard a sexy, seductive male voice say my name. Startled, I got up and tore my bed to pieces, even took the mattress off and looked under it. It had sounded like it was coming from my pillow, but I even tore the pillow to pieces and could find nothing unusual in it. This happened repeatedly.

I finally decided it had to have something to do with my telephone, which was on the bookcase headboard. I got the phone company to install a 20 foot cord on it, and when I went to bed, I would take the phone 20 feet away into the living room and then I had no further problems, at least not with that. Believe me, I had plenty of other problems, just not that one.

Since then, I keep phone lines away from my bedroom and since the advent of phone jacks, I unplug all phones when I go to bed.

Because of the myriad of other problems, I left college, sold my house, and moved to Germany. I cannot say that I solved a single problem by doing this, in fact, I may have given myself more problems, but I ended up living in Munich, Germany. I was working as a programming assistant at the Technische Hochschule there, and I had a student apartment near the Uni in Munich. ....

I cannot say that in general I had previously had problems sleeping, but I started to have problems sleeping. I did not ascribe this to electronic harassment at the time, I just thought that things were getting to me, and indeed, I had plenty of reasons for losing sleep. I struggled to get by on no more than 3 hours of sleep a night. Sometimes the man who lived over me, who apparently worked in a night club, came home around 3:00 am and I would wake up hearing high heels going back and forth across the floor, sometimes he apparently brought someone home with him to clean up his kitchen, and his stainless steel sink and pipes down to my stainless steel sink were a conduit for the clatter of silverware and pots being washed, sometimes I did not hear anything in particular, I just woke up at 3:00 am for no apparent reason.

By the time I returned to the US after two years in Germany, I was so exhausted that I thought I was dying. I managed to get to the San Jose area of California, where I continued having problems sleeping for the six years I lived in the bay area, moving from a data entry clerk to a consultant in computer applications software during that time.

I was able to get surgery on my foot that I had broken in Germany, but it remained extremely painful and was really no better after the surgery than it had been before. Little did I know that was because of electronic harassment as well, but I did not realize that until later, either.

Once again, I became so exhausted from the sleep deprivation and other problems including death threats from a former employer, that I eventually left the area and returned to South Dakota, thinking that the atmosphere would be less stressful here and that my computer skills would be in great demand. Little did I know.

Quite soon I realized that a highly qualified technical female was a pariah in such a conservative state, and having contacts like family members and old friends did me absolutely no good. I ended up working at Citibank and other dead end jobs most of the time just to keep my taxes paid, as I had been able to get a mobile home on an acre that was free and clear, probably the smartest thing I had ever done.

But the problems with sleep deprivation continued. I had previously thought that it was the sounds of traffic and neighbors that had kept me up, but here, my nearest neighbor was a quarter mile away, and the traffic at night was minimal and was not near to my home. The final proof occurred in a bizarre coincidence, and one over which I did not have a lot of control.

I was hearing doors slamming, books dropping, dogs barking, electronic signals and bells ringing, motors running, a whole litany of different sounds waking me up at night. Then, because I was out of work and could not pay my electric bill, the electric company cut my power. At the time I felt badly about it, but it was summer, I was able to keep my vehicle running so I could haul water from gas stations, (I learned to go around to different ones so nobody would get suspicious), in the retaining tank of my camper. My camper also had a small refrigerator.

And to my amazement, all of the funny sounds that had kept me awake for 11 years simply vanished and I slept like a baby. At that point, I knew that I had been a victim of electronic harassment. Up to then, I did not have a clue. ....

.....

Some might think that I would hate electronics because of all my bad experiences, but this is not so. In fact, I have always enjoyed electronics. One of my earliest recollections is of sitting on the floor of my oldest brother's bedroom playing with a box of resistors and capacitors and other electronic components. He was a very early ham. The sun was shining and they were probably the prettiest things that I had to play with. I think this irritated him, I have a vague recollection of being unceremoniously picked up and shooed away. I was around three years old at the time. When I went to electronics school in the Navy, the resistors and capacitors were like old friends.

I enjoy having a TV, stereo, VCR, DVD player, and love my computer. I have used my knowledge of electronics in working with computers. I took a couple of courses in Computer Construction when I worked at the Technische Hochschule in Munich, Germany. I used some of what I learned there to solve very complex problems in computer software, because I knew how computers did things like arithmetic and branching, I could manipulate the data in order to get what I wanted out of it. I love electronics.

It is like with the internet. There are all these really evil people out there who use their knowledge to cause other people a lot of grief. Most people use their knowledge to do good things, but some people seem compelled to use their knowledge to manipulate and exploit people. In order to get around them, you need to have as much knowledge as they do, or hopefully more knowledge than they do. Without that, you don't have a chance. Because of my interest in electronics, I had a chance and I developed it and used it.

I have addressed many of these issues in my book, When Medicine Failed, which I published myself because I could not get a legitimate publisher. It can be purchased by going to <http://www.janetleih.com>. I shudder to think what might have become to me had I not made some critical decisions and taken steps which were probably regarded as bizarre by everyone including my daughters, who give my stories no creditability. This after I struggled to take care of them with a pack of wolves snarling at my heels the whole time, afraid to say a word about it because I was afraid of ending up in a rubber room if I did, and their father would have gotten custody of them and girls to do with as he pleased. Things were bad enough as they were, but at least they were protected most of the time. Because of the refusal of a doctor to render an accurate diagnosis, there was nothing I could do about it and I had to give him access to them.

I also addressed many other stalking and harassment issues in a trilogy of novels, Valley of Many Winds, Part I, Shouting to the Wind, Part II, Which Way the Wind Blows, and Part III, The Windmill. They were published under a pseudonym Mario Edlosi because they were written when I was working as a programmer/analyst in Germany and California and I really liked my profession and didn't want to jeopardize my positions. They are available at <http://www.marioedlosi.com/>.

I started an organization in 1991, Women Against Sexual Harassment, and I have observed that most women who report sexual harassment are subsequently stalked, many report electronic harassment. Our web site is <http://www.washrag.org>.

But I do not believe this is the end. I believe that if you do as I have done, and find ways of protecting yourself from electronic harassment, that whoever is responsible finds other ways, a myriad of ways, to accomplish the same thing. Ask Alexander Litvinenko. Since he was a former KGB agent, he was undoubtedly an expert in electronic surveillance, so he would not be easily victimized using electronic surveillance. He also defied the powers that be, and I guess they sure showed him, didn't they? That Polonium-210 really did the job for whoever wanted him out of the way. I think that chemical harassment is rampant, including the use of Rohypnol, the date rape drug. I have had so much toxic exposure that it is nothing short of a miracle that I am still alive. I have also developed some ways to deal with toxic exposure, I also discuss them in When Medicine Failed, along with some of the electronic harassment I have experienced.

This is what I look like now when I go to town. I hate to have to leave the house, but if I do not wear this particle mask with pre-filters, I have terrible asthma attacks, and worse, I was having trouble with symptoms of incontinence which I never have at home. So I do gird up my loins so to speak and take care of whatever business I

have. It is humiliating but, as George Burns said when asked how it was to be 94 years old, it is better than the alternative.

If there is room at the end of the tape, I will try to get pictures of the shielding on my windows. I don't think that having pictures of anything else will be of any use, most of the problems I have had were either inaudible or you had to be there to see/hear them, so I have no actual proof of any of this. But I do appreciate the opportunity to share what I have experienced, it is a sort of catharsis. I hope that something in this is of use to someone, I know from experience that most people just plain don't want to hear anything like this, they want to think that "people don't do things like this." They want to believe that people are all basically good. The local news programs are full of stories about the positive things people do, and some people do positive things, but they have never addressed what was happening to me although I have sent them information about it.

I am convinced that none of the hundreds of incidents I have reported to local law enforcement were reported as crimes, which is in itself a crime. The federal government has a system for reporting criminal acts in any jurisdiction. I worked on an early version of it in San Francisco, and I was told it was a Federal mandate that crimes be reported for their statistical system. But my reports to the local sheriff were never entered into their system, I doubt if there is a single report of a crime that I called in to them between around 1995 and 2002. That is how they make it look like this is a conservative paradise, by simply not reporting half of the crimes for which they receive complaints. These were not all electronic crimes, they included theft, vandalism, poisoning including by crop dusters and pills put into my supplement stashes, I once reported the theft of almost a whole tank of propane and nobody did anything about it or offered to compensate me for the theft of at least \$400 worth of heating fuel. I had to pay for several hundred dollars worth of fuel from my social security, most of which I actually charged to my credit cards because I simply did not have the money to pay for that and other financial obligations. Because the theft of propane is so rampant, I did not heat with propane this year, but bought several electric space heaters and placed one on every circuit in my house. I doubt the total cost was any higher than propane has cost when you take into consideration the crooked propane dealers and the neighborhood thieves stealing propane out of my tank when I go to town to buy groceries. Last winter during a snowstorm, one that I had not talked to in several years called me to see if I had been able to get my propane tank filled before the storm. I guess she didn't want to send her pimp down to steal from me unless there was something there to steal.

I was curious to know if you got my submission. I don't see it on your list. I sent it in a month or more ago. If you are still interested, I can send it again. I have been having problems with e-mail deliveries to others, mine with the narrative attached may have simply not gotten delivered.

I have been watching a series on PBS Contemporary Masterpiece Theater. At the beginning, it seemed to be about a problem with serum for shots given to refugees in Afghanistan causing their deaths, but gradually, the theme of microchipping the entire population in the UK was introduced until that seems to be the major thrust of the series. It is handled as being very insidious and subversive and as being used to exploit and manipulate victims. I recommend that anyone who is interested in this subject should watch it on Sunday nights. According to the promos, you can also go to PBS.org and click on Masterpiece Contemporary Theater, where you can also watch it.

I believe that I have seen three episodes already, and there is at least one more which should be shown on October 25.

Normally, PBS will show these British series more than once, I am sure that THE USUAL SUSPECTS was shown several times, and others have been shown more than once as well. I suspect that this will be on again in the spring or summer if you watch for it. The title is "The Last Enemy."

If you are able to watch it and think it is handling the subject in a way that will benefit victims of stalking, I hope you will take the time to write or e-mail PBS and thank them for showing the series.

I also recommend OUT THERE TV NEWS which is supposed to be on Sunday afternoons around 2:00 central time, it has been on Fox 44.2 locally. They do discuss counter culture issues, to show how controversial it is, the local station is preempting it most of the time with, get this, Continental Football League games. But when it is on, it is always a breath of fresh air. They have a web site <http://www.outtheretv.com>. Yesterday it was preempted, the week before they had an interview with the Green Pary presidential candidate, Cynthia McKinney, who was not permitted to take part in the presidential debates.

You are welcome to forward this to anyone you think might be interested.

#### **9/4/09 COMPLAINT TO FCC - <http://www.FCC.gov>**

I have a digital converter box and watch TV on the DTV channels.

I have been disturbed by some of the chatter on the internet about the DTV converter box being some kind of a domestic spying gimmick, but did not pay a lot of attention to this until I noticed when I reprogrammed my box that I had a channel on 15.2 which never has any signal. The remote always stops there when I surf from 14.2 to 27.1.

It has been even more disturbing that around that time, I started to have severe joint pains and blurring of my eyes after I turned it on in the evening. I had been turning off both the converter box with a UPS and the antennae with a power strip. I got a sheet of mylar and now cover it with that. In addition, I have had to unplug the UPS from the power outlet as it keeps turning on spontaneously after I turn it off, and remove the antennae cable from the surge protector where it comes in from the antennae. By doing that I have cut down on my joint pain and blurring of my eyes, although I have to put on a pair of glasses with filters that filter out fluorescent lights whenever I turn on the TV or change channels, or I start to have blurring of my eyes again.

I suspect that these problems are caused by whatever is being transmitted over channel 15.2. It seems to me that this ought to be illegal, or maybe the government did this intentionally????

Well, I am giving you the chance to investigate it and correct it, if this was not the intent of the DTV converter box but a subversion of the intent to improve reception, which it has done. I live around 40 miles from the transmitters in Sioux Falls and closer to 70 miles from the ones in Sioux City, and I get excellent reception from both, sometimes when there is severe weather in the area, it may deteriorate some, but generally, my reception is excellent. I receive 20 channels: 2.1, 2.2, 2.3, 4.1, 4.2, 7, 9.1, 9.2, 11.1, 11.2, 13.1, 14.1, 14.2, 27.1, 27.2, 27.3, 44.1, 44.2, 46.1, 46.2.

Unfortunately, most of what is on them is either pap or crap, but occasionally there is something that I find interesting. I keep hoping that there will be a channel with the program guides for them all like the cable channels have, but I suppose that is too much to hope for. I'm sure I miss some programming that I might want to watch simply because I don't know it is on. I used to surf to see what else was on more, but with the converter box covered with mylar, the remote doesn't work and I have to stand by the box with the remote under the mylar, glasses with filters on and try to work it when I can't see it, and it doesn't work very well. I just think it makes more sense to do that than to become a blind invalid because of some kind of a vendetta.

You might want to add another category to your complaint: chemical warfare. I have taken the address you sent me off, I have already sent much of the information I have compiled to the UN Criminal Court in the Hauge, if I have time, I will try to send as much as I have left to this one, too. I am plagued by hackers who have deleted a lot of the information I had, but I do the best I do.

This is just one of dozens of letters I have sent to the Surgeon General to try to find some help for these problems. Most of them included the actual implants and darts I have found in my body. I have never received any response from them, so I do not know if they were received. I just know there was no point in trying to find anyone locally to address these problems, which I have found all but impossible to deal with.

Dr. Regina Benjamin, Surgeon General  
Office of the Surgeon General  
5600 Fishers Lane, Room 18-66  
Rockville, MD 20857

Dear Dr. Benjamin:

Yesterday afternoon, I noticed what appeared to be a bruise on my left arm. On closer examination, there was an area that was swollen with a small ball with a puncture wound in it, it looked like someone had given me an injection. It was about 2:00 – 3:00 in the afternoon, and my computer/printer were not available, so I thought I would try to scan the area this morning, but even a couple of hours later, the swollen area and the ball with a puncture wound in it had all but disappeared, and this morning the bruise is almost gone. Not only that, but it is on an area that would be all but impossible to scan on my scanner, now isn't that a strange coincidence! I would have to break my left arm to even get that area pressed against the printer scan area.

It did itch all around that area for a while last night, but that is the only reaction I have had other than the bruise itself and the concern I can't help but feel for someone having been able to give me some kind of an injection, which I cannot believe is for my well being, without me having known about it. Someone who is giving you an injection to help you somehow is going to do it in a professional setting, not while I am asleep and in a coma induced by some kind of an implant a quack put in my lower back 58± years ago.

Anyway, this was the first episode of this kind in a month or two, but in exchange for not having anyone shooting darts at me and putting implants in my hands, arms and face, I have started to have problems with some kind of fumes making me very ill when I go to town. I had to wear a full face particle mask for around three years maybe 5 – 10 years ago, in order to get my groceries, medications and other necessities, but since I stopped having that problem, I have had them shooting darts at my legs and putting implants in my arms, hands and face.\*

The first time was when I went into the post office on North 4th in Sioux Falls to pick up my mail, the minute I stepped through the door, my lower arms and hands as well as my lower legs and feet were struck with severe cramps. When the same thing happened the next time I went to town, I got out the full face particle mask which I detest wearing as it is uncomfortable and embarrassing, and wore it the next time I picked up my mail. That time, I got home without any ill effects, but the next time I went to town, after I got home I was totally overcome with cramps in my right leg during the evening or night after I went to town. So last time I went to town, I did wear the particle mask to pick up my mail, and I took a vitamin E every couple of hours, as that lessens the severity of the cramps, so I had only a couple of minor twinges. If it cools off a little bit, I will open my car windows when I get into the car, as I am not sure if I am being exposed to whatever is giving me this problem while I am in stores or when I am driving, I just know I only get it when I am in or have been to Sioux Falls. They can build all the crappy event centers and fancy fountains they want to, and it cannot begin to compensate to the agony and inconvenience caused by this problem, but I have no choice, I have to go there to make medical appointments, get my mail and get whatever I need. I have panic attacks whenever I have to go to town, I detest going there, I don't do anything there except whatever I absolutely have to do, it is an abomination.

I'm enclosing one of the pre-filters for my particle mask. I had sent one of all of the pre-filters I had used when I had this problem previously to various government and media that I thought might have an interest. One of these was South Dakota Senator Tim Johnson, about a week or ten days before he had his stroke or whatever it was. I know that I always warned people that I was afraid that whatever was on them was extremely toxic, but even so, I still feel sorry that I have to feel that he might not have taken my warning seriously, opened the plastic bag I had it sealed in and smelled of it causing his problem. It bothers me even more that there were no warnings given to the public that people should be concerned if they have health problems that seem to be related to a specific place or certain individuals, I am certainly not the only person who is effected by these kinds of problems. Hiding them only encourages the perpetrators. I am convinced that many people have severe health problems because

they do nothing to protect themselves and even are killed because of this kind of activity.

And our government and all of the governments in western Europe and even the other Muslim countries are preparing to go to war against Assad in Syria for doing the exact same thing as has happened to me and certainly hundreds if not thousands of other US Citizens. I think the whole system stinks, and you can quote me on that.

Even law enforcement says that if you know about illegal activity and do nothing about it, you are as guilty as the perpetrators. Although they switched their tactics after Senator Johnson's attack, the problem has obviously not been eradicated, and it may be a problem that can only be handled by an educated public, which nobody has had any inclination to inform. It's not like this is something new, this problem has been brewing for ten or fifteen years, and it is just as prevalent today as it was when I first became aware of it.

Sincerely,

(Grace) Janet Leih

You can see scans of the various darts and implant sites at <http://www.washrag.org/WASH/Implants>, or at least some of them. Because every time I get a camera and figure out how to use it, it gets vandalized and I ran out of money to buy any more, considering that it will be vandalized as soon as I figure out how to use it. So I have been reduced to using my printer/scanner to document them, or at least part of them, less than half, I think. (I just realized that my notebook has a camera that I can use, too. Hit the wrong key and it opened up.)

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My stalking started in late 2002 while working at the law firm of Hogan & Hartson in Wash., D.C., USA (although I did not recognize it at first as stalking).

I, along with several others, was subsequently fired. While working at another firm from 2003 - 2005, the stalking abated somewhat. In the summer of 2005, Hogan & Hartson offered employment to me again. I returned. Almost immediately, the stalking started again, within the offices of Hogan & Hartson in late September 2005. This time it was overtly and brazenly carried out. Christopher Hagan, a private equity attorney, is directly involved in my stalking. (He is now with the law firm of Goodwin Proctor in Wash., D.C., USA.) Robert Johnston, Hogan & Hartson firm administrator, participated in a mobbing scenario that was set up for me (just one of many), and I am quite certain that Sam Konrad (the then-security director - now retired) knew of and participated in the initial plans to have me stalked (he began to act very strangely toward me). Also, former co-workers (that I thought were friends) participated in the stalking/harassment. After the initial stalking events at Hogan & Hartson, the stalking events followed me to my home.

In the spring of 2007, the use of electromagnetic weaponry was started against me in my home.

Currently, I am stalked wherever I go and I suffer electromagnetic jolts and stings to almost every part of my body no matter where I am. The criminal use of these electromagnetic weapons on me are causing the following effects:

\*\* My 1st instance: Laying on the edge of my bed, my body became uncomfortably stiff and I could not speak. It was as though I was having a seizure or like I was in an electric cocoon. It only lasted for 5 seconds or so (I think);

\*\* Sitting on my bed, I felt cold air coming across the floor from the direction of the wall. I looked up at the air vent in the wall to see if the air conditioning had come on by itself. This happened another time, and I again looked to see if the air conditioner had somehow come on. I felt this cold air a third time, again at floor level, when I was downstairs on the lower level in the bathroom;

\*\* Sitting on the edge of my bed with my foot hanging over, I watched my left foot bend to the left all by itself;

\*\* Then after the above incidences, I now experience:-

- uncomfortable tingling and an electric feeling in my feet;
- involuntary limb movements;
- stings and jolts to my head - temples, forehead, top of head, and back of head. Sometimes it feels like the pain is moving through my head (much like a worm would move, like a slow wiggle movement);
- headaches and ringing in ears;
- stings to my eyes;
- stings and pains to almost every part of my body, especially my thumbs, the tips of my toes, and my heel and bottom of my feet. One sting I'll never forget - it was at the point where my big toe meets the next toe;
- stings and jolts to my jaws and teeth;
- a pressure at my nose, like something was going up it;
- pains along my spine;
- stings to my ears;
- stabbing pains to the left and right side of my abdomen;
- buzzing in my left ear (I've been told this is the precursor to voice-to-skull);
- involuntary upward movement of the right side of my mouth;
- involuntary upward movement of my right eyebrow;
- an involuntary movement like I'm being shaken on my shoulder, which movement wakes me up;
- an involuntary movement at my feet, like my foot is being pulled by my toes;
- cramping in my calves;
- muscle jumps in my left calf;
- inability to sleep;
- forced sleep;
- itching, especially on my neck, behind my knees, and my feet;
- my teeth sometimes snap close when I'm falling off to sleep;
- forced air in mouth, puffing out cheeks (when I'm trying to sleep);
- forced air under top lip, making it flap (when I'm trying to sleep);
- racing heartbeat; then heart beat slows down, then there a feeling of emptiness (like I had no heart);
- tingling at various body parts, especially when I'm trying to get to sleep or when I first wake up;
- my fingernails (especially thumbnails) are becoming wavy;
- shiny, silver specks in my eyesight; and
- My cat came to sit beside me on the bed. His body began to shake, his ears were twitching, his little head was held straight up and out, and he didn't close his eyes. I quickly picked him up and set him on the floor. He seemed fine then. He also developed a strange habit of going in the corner behind the tv on the opposite side of the room and staying there.

My U.S. postal mail and home and cell phones usage have all been compromised, My satellite tv service is almost constantly interfered with.

There appears to be some sort of GPS tracking on my car, quite well-hidden, although wires suspiciously hanging from under my dashboard are evident.

It appears that my neighbours (in several of the surrounding houses) have been enlisted to "watch" me.

On several occasions, unknown persons have been in my house while I've been away. I have no criminal record at all, yet police cars (whether lights and sirens are blaring or not) just seem to love me when I drive in my car. Helicopters have taken a liking to me also.

The reason for all of this, I have no idea. I only know where it started and with whom it started.

**I have documented each occurrence of electromagnetic harassment and/or stalking since 2005.**

In the spirit of the TUSKEGEE SYPHILIS EXPERIMENTS, THE PLUTONIUM/RADIATION EXPERIMENTS (Mary Jean Connell is the only living person left from these experiments), and COINTELPRO SURVEILLANCE, among other crimes committed against U.S. citizens, I declare that I am a U.S. citizen protected by the U.S. Constitution.

ALL OF MY RIGHTS HAVE BEEN TAKEN AWAY FROM ME AND THE ACTIONS THAT ARE CARRIED OUT AGAINST ME SEEM TO HAVE BEEN DEvised FOR A TERRORIST SUSPECT. I AM BEING TREATED AS THOUGH I AM SOME KIND OF TRAINING GUINEA PIG. I AM BEING ABUSED AND MISTREATED.

I refuse to surrender my freedom and I demand justice! I am being subjected to uncontrolled and unacknowledged torture and mental and physical destruction, which has remained completely unreported and undiscussed publicly. This treatment must not go on.

25/2/08

My own personal ordeal is growing weirder day by day, like I'm being roboticized.

**I DEMAND AN INTERNATIONAL INVESTIGATION INTO THESE CRIMES AND HUGE VIOLATIONS OF HUMAN RIGHTS!**

Hello, i'm in Omaha ne 68132 USA I have been a Prisoner for 15 years with an "Electronic Concentration Camp" The Unique thing about this case is that I know the NAME and exact LOCATION of the person that is doing this to me. He, s in Bellevue ne usa. Law Enforcement will not respond to my Complaints.

I have been Forcibly Nasal Implanted. I am being TORTURED to the result of serious medical problems ie. Total Hip Replacement, Bleeding Lungs, Focused microwave radiation burning painful bleeding holes in tongue, and other parts of my body. Lost teeth, ad.infinitum. Please Look into this World-Wide Oppression before more TARGETS are Tortured or Killed. They are experimenting with different wave lengths of MICROWAVE RADIATION to see what it does to Targeted Individuals. These RADIATION EXPERIMENTS are VERY PAINFUL and DESTRUCTIVE TO BODY.

Yes, i am writing to add 1 more bit about the Torture and Health Problems i have endured for 15 years now. I was drugged and held down in 1995. i am eye-witness to the 2 Friends? who held me down while a surgeon i didn't see Forcefully painfully implanted with an electronic device in my nasal cavity. For 15 years i have been hearing

threats of Extortion for \$50,000., I have been given pain, horrible sickness, sleep deprivation, appetite supression, forced diarrhea in clothes in public. Burning cuts and ulcers in mouth and tongue, focused microwave radiation on hip joint. this went on for 1 1/2 years of extreme pain resulting in total hip replacement 2 surgeries-it had turned to pulp with nearby leg bone, i was given pneumonia twice, suffocated while my perpratator and his DRUG ADDICT friends laughed. Ambulance to Hospital. Forced Heavy IV DRUG USE severe damage to arm and hand. Forced beginning of gangrene in toes while perpratator listened to me beg for my toes. cramps, VIOLENT coughing and vomit while he threatened me-to "either cooperate or suffer the consequences" Forced Heavy Long Term consumption of Large Quantities of Crown Royal Whiskey. This went on for 2-4 years while i begged him to let me stop. His response was "Well, greg I'm an asshole" a total of 18 Hospitalizations Draining my Estate. for various damages to my body and mind. He is running a DRUG HOUSE for 34 years. THE UNIQUE part of this is that i know his Identity and exact Location of his unit controlling my Implant. A Mr. Marty Buss 2204 Jackson ST Bellevue, NE 68005 USA SE Corner of Basement. Drug parties where his customers ABUSE the equip and me. He threatened me that he had a GUN in House. Police won't respond to my complaints. If i must be a part of this V.E.R.P. Very Extensive Research Project as he calls it, then PLEASE CUT OFF HIS DRUG SUPPLY. I keep my mouth SHUT about any of this. On the other hand Marty shows this to a Large amount of people over the years. This Equipment needs to be REGULATED so that it doesn't fall into the WRONG HANDS, as in My case.

## Victim of Surveillance and Brain Washing

My name is Jennifer and I am a 29 year old who has been victimized for 3 and a half years. They used all surveillance equipment, brainwashing methods, tazors, and shock tortures. Everything involved is written in an article by Paul Baird on the website [www.surveillanceissues.com](http://www.surveillanceissues.com).

I have been trapped, tormented, and tortured. I know exactly whats happening but no one believes me. They think I'm crazy and sent me to a psych rehab place. I do not have schizophrenia. I am "doing time" for a crime I have nothing to do with.

Their motive: Let's brainwash Jennifer into being "straight". I was in a committed lesbain relationship. I was a social worker. I had a wife and an autistic step son. I was so happy until these people came into my life and ruined it. All I have left is my life, but what good is my life while I'm locked up in here?

I have a very long and complicated story but I'm willing to share it at your request. What do I want? I want justice for everything that they did to me, and that includes a rape. I am willing to help anyway I can in this matter. It is my duty to stop these "criminals" from hurting anyone else. But I am afraid because they threatened to kill me if I told on them. So I am putting my life on the line to help others.

The difference between me and the others is that I have proof. I have the truth and I have educated myself on the topic. I will "fight" while others don't have the strength.

I am writing this to you in hopes that you can help me and all the other victims. I have no where left to turn. My last hope is to get justice, with your help.

**I DEMAND AN INTERNATIONAL INVESTIGATION INTO THESE CRIMES AND HUGE VIOLATIONS OF HUMAN RIGHTS!**

To Whom It May Concern,

This letter is to ask for your help for myself and the many people in our country who are being affected unjustly by electronic weapons torture and covert harassment groups. Serious privacy rights violation and physical injuries have been caused by the activities of these groups and their use of so-called non-lethal weapons on men, women, and even children.

I am asking you to play a role in helping these victims and also stopping the massive movement in the use of Veri-chip and RFID technologies in tracking Americans.

Long before Veri-chip was known we were testing these devices on Americans, many without their knowledge or consent.

I am asking for your help in stopping these abuses and aiding those already affected.

Attached please find my statement and RFID chip verification letter.

### **Statement of *\_James F. Lico*, a Non-consensual Human Subject who resides in *\_Everett, Washington\_* to “Opt-Out” or Discontinue Participation in the Human Subject Research/Experiment**

#### **Introduction:**

In the Bioethics Commission’s report released on December 15, 2011, the Bioethics Commission suggested that to keep track of the more than 55,000 research projects using human subjects, the Federal government should create a central online portal and database where basic information about the projects are archived and made easily accessible and further concluded that it “cannot say that all federally funded research provides optimal protections against avoidable harms and unethical treatment”. The Bioethics Commission also said although human subjects in US government-funded research are generally protected by existing rules and regulations, their safety and well-being could be enhanced with stronger measures, including increased public transparency and a system of compensating subjects who sustain research-related injuries.

**Research** is defined by the Common Rule regulations as “a systematic investigation, including research development, testing, and evaluation, designed to develop or contribute to generalizable knowledge. Activities which meet this definition constitute research for purposes of this policy, whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.” **Medical experiment** is defined by California Law, Health & Safety Code Section 24171 as “the severance or penetration or damaging of tissues of a human subject or the use of a drug or device, electromagnetic radiation, heat or cold, or a biological substance or organism, in or upon a human subject in the practice of research of medicine in a manner not reasonably related to maintaining or improving the health of the subject or otherwise directly benefiting the subject.

**Human Subject** is defined by the Common Rule regulations as “a living individual about whom an investigator (whether professional or student) conducting research obtains either a) data through intervention or interaction with the individual or b) identifiable private information.” **Human subject** is defined by FDA regulations as “an individual who is or becomes a participant in research, either as a recipient of the test article or as a control. A subject may be either a healthy human or a patient. Subject [also] means a human who participates in an investigation, either as an individual on whom or on whose specimen an investigational device is used or as a control.”

Human subject research should adhere to the ethical principles and guidelines for the protection of human research participants summarized in the uniform set of regulations, called the Federal Policy for the Protection of Human Subjects, 45 CFR 46, Subpart A, formally known as the “Common Rule.” The 45 CFR 46 regulations are based in large part on the Belmont Report and were written to offer basic protections to human subjects involved in both biomedical and behavioral research. Today, 45 CFR 46, Subjects A and E: Registration of Institutional Review Boards (added 1/15/2009) is shared by 17 Departments and Agencies, representing most, but not all, of the Federal Departments and Agencies sponsoring human subjects research. Many of them have not adopted Subpart B: Additional Protections for Pregnant Women, Human Fetuses & Neonates Involved in Research, Subpart C: Additional Protections Pertaining to Biomedical & Behavior Research Involving Prisoners as Subjects, or Subject D: Additional Protections for Children Involved as Subjects in Research. For the past 20 years, 45 CFR 46, have been considered merely “guidelines” and is not a lawfully, promulgated regulation.

Before a research project involving human subjects is initiated, it must be reviewed and approved by an Institutional Review Board (IRB). The IRB has a central role in ensuring that all human subject research is planned and conducted in an ethical manner, and in compliance with federal, state and local regulations. The major responsibilities of the IRB are to assess the risks and benefits of proposed research and to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects.

I have a bachelor degree in computer science and two associate degrees, one in electronics engineering technology and one in biology. I have narcolepsy, hypertension, arthritis and obstructive sleep apnea.

I am constant electronic surveillance with chemical and electromagnetic attack. I am a member of a group of people in America known as "Targeted Individuals", all with identical symptoms.

I was originally targeted with torture/kill technology while I was living in Cape Coral FL in 2010. However I may have been under surveillance before that. I worked at the School District of Lee County FL from 1998 until 2010 as Application Support Specialist for 11 years. I had been gang stalked at work when I was laid off one day before I was to go on a two week vacation. I filed a complaint with the EEOC (Equal Employment Opportunity Commission) for age discrimination and disability discrimination. I am waiting to hear back about that.

I was chased out of my house and took the first good offer to sell. I was attacked viciously while in FL and so I decided to move. I first moved to High Springs FL, but was financially taken advantage of and then falsely arrested and placed in Jail for 45 days. The woman said she owned the house but in fact it was owned by her psychiatrist as I later found out through county tax records. Even though I had the bail, I was allowed to stay in jail the entire time. I lost all of my belongings, except for some guns that were confiscated by the police. The police have not been helpful and seemingly assisted the woman who defrauded me. I lost \$15,000 plus all of my belongings valued at \$75,000. My record remains clean. Even though the Police said I must come to them due to the no contact order, they refuse to even call this woman to verify whether or not my belongings are at her residence and will not let me file charges against her for Elder abuse. They tell me it is a civil matter and I know the first question the defense will have is why I didn't file charges against this woman. They know I can't afford to go to civil trial, so she will get to keep her ill-gotten gains thanks to the High Springs Police Department. She filed a false police report and they don't even want to ask the question why she lied about owning the house, which was their reason for arresting me. It is suspected by many TI's that numerous psychiatrists have active interests and participation in the targeting of American Citizens.

I decided to move to Washington State to get a job, because there were more jobs available in the technology field. Leaving the Lee County area did no good and I was to find that no matter where I went in the country, I would be followed and receive the same torture/kill treatment. I have gone completely through my life savings quickly because I have been on the run from the horrible program or experimentation I am controlled by. I had to apply for food and living assistance in July because the State of Florida Employment Security Division had put me under investigation for 6 months they would not pay me unemployment insurance they owed me. They were embarrassed into it because I was on assistance in another state and they had no excuse for investigating me. Inability to obtain a job is not a crime. I have had interview, yet no job has come from it. TI's are under perpetual investigation with potential employers informed that I am a terrorist suspect. It will be a miracle if I can obtain another job at this point.

I have 3 RFID microchip implants as verified by Jessie Beltran in Sacramento CA and Seattle WA. I have one each in right/left upper temporal area and one in left shoulder. Please see you tube video.

**In the National Institutes of Health, Office for Protection from Research Risks (OPRR) 1993 Institutional Review Board Guidebook states,** "attention should be paid to subjects' rights when they decide to withdraw from participation in the study. The federal regulations clearly require that subjects be free to withdraw from participation without penalty or loss of benefits to which they are otherwise entitled [Federal Policy §116(a) (8)]."

In addition, the National Commission for the Protection of Human Subjects believed that those who are already burdened (*e.g.*, by disabilities or institutionalization) should not be asked to accept the burdens of research unless other appropriate subjects cannot be found (*i.e.*, if the research concerns their particular disability or circumstance).

This human subject research/experiment has failed to comply with the terms in Title 45 Public Welfare Part 46 Protection of Human Subjects (45 CFR 46). This part of the "Common Rule" is intended to allow IRBs to waive informed consent in its entirety or any of the required elements of informed consent. In order for this human subject/experiment to waive informed consent it had to meet the 4 criteria in 45 CFR 46.116 (d). An IRB may approve a consent procedure which does not include, or which alters, some or all of the elements of informed consent set forth in this section, or waive the requirements to obtain informed consent provided the IRB finds and documents that: (1) **The research involves no more than minimal risk to the subjects;** (2) **The waiver or alteration will not adversely affect the rights and welfare of the subjects;** (3) **The research could not practicably be carried out without the waiver or alteration;** and (4) **Whenever appropriate, the subjects will be provided with additional pertinent information after participation.**

**Risk** is defined in The IRB Guidebook as the probability of harm or injury (physical, psychological, social, or economic) occurring as a result of participation in a research study. Both the probability and magnitude of possible harm may vary from minimal to significant. Federal regulations define only "minimal risk." **Minimal risk** is defined in the Common Rule as the probability and magnitude of physical or psychological harm that is normally encountered in the daily lives, or in the routine medical, dental, or psychological examination of healthy persons.

## ***II. \*\* Revise and discuss your pain, violations of your rights, privacy, safety & welfare as a human subject. \*\****

The human research practices, presents a danger to my overall well-being and has violated my rights and welfare as a human subject. which I am experiencing, should be reclassified as "cruel and unusual punishment" or "crimes against humanity", which goes way beyond the physical or psychological harm that is "normally" encountered in our daily lives or in the routine medical, dental, or psychological examination. I am experiencing intentional infliction of severe physical pain or suffering, which violates my rights and falls under the purview of 18 USC § 2340 Torture.

*I am under constant 24/7 electronic surveillance with directed energy weapons, chemical attacks, electronic and chemical harassment, as well as being followed by car and on foot by organized stalkers. I feel stings all over my body, especially my eyes, head, shoulders and genital areas. I am microwaved sometimes from more than one source, with the handler eliciting outside perpetrators to use portable microwave weapons on me. The microwaving makes my skin burn and my heart has to work a lot harder and I feel like I have a heavy weight on my chest. When I am out, I am squirted with chemicals. People break into my car and my apartment to replace chemicals, but they never take anything. They want me to know they are always present and to have a hopeless feeling, that there is nothing I can do to avoid being tortured to death and there is nothing I can do.*

## ***Section III. \*\*\*Discuss about how this waiver adversely affected you rights and welfare as a human subject?\*\*\****

***Personal privacy is important to ethical research as stated in 45 CFR 46.111, but this human subject research has not met all of the requirements to protect the human subjects. My confidentiality and privacy rights have been violated. Invasion of privacy concerns access to a person's body and the "researchers" and countless of men, women, and children, also called "informants" or "perps" who have access to my body 24/7 without my informed consent or knowledge. The "researchers" have never contacted me about pertinent information after participation.***

*I know the handler can hear and see me at all times. If I say I am going to a particular store, then I will be met at the store by a gang of stalkers who will harass me and squirt chemicals on me. If I read something on the internet having to do with the targeting, then the chemical or microwave attacks get more intense, like right now. The handler has a chemical to keep me awake making my heart pound, and one to put me to sleep. Sleep can and is also be induced by microwaves. About every month or so the torture increases to a point where it is unbearable, as if they are seeing if they can kill me or make me call the police. After a few days of that they back off to a lesser degree of torture. Also, if I run into a problem, they know what it is, try to make it worse and also increase the torture to see if I can be broken. My phones are tapped and my cell phone is manipulated constantly. My computer is accessed remotely, files are deleted and I have even seen this happen in real time.*

*The torture is taking its toll and I feel short of breath, do not leave the apartment and do not get enough exercise or proper nutrition. I have no health insurance and cannot see a doctor when necessary. I know if I complain too*

loudly, then I will be put into an institution. No one will help me nor do they know anything about this program, even though it has been ongoing for years. The police and other public service workers seem to be in on this and even help the perpetrators out.

---

#### **Section IV. \*\*\*This section is not applicable to me\*\*\***

---

Both the **National Commission for the Protection of Human Subjects and the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research** recommended that such waivers be granted only if subjects will not be denied benefits or services to which they are otherwise legally entitled. The waiver of informed consent has diminished the protection of my rights and welfare as a non-consensual human subject. I have received no respect as a non-consensual human subject. There is a non-verbal element that "whatever happens to the human subject is of no personal concern to the researcher. They can do whatever they want to the human subject and there is nothing that the human subject can do about because no one will help the human subject."

For research involving more than minimal risk, an explanation as to whether any compensation and an explanation as to whether any medical treatments are availability of medical treatment and compensation in the case of research-related injury, including who will pay for the treatment and the availability of other financial compensation as stated in 45 CFR 46.116(a)(6). In July 2005 the National Academy of Sciences came to the conclusion that the preponderance of scientific evidence shows that even very low doses of radiation pose a risk of cancer or other health problem and there is no threshold below, which exposure can be viewed as harmless. According to data from Hiroshima and Nagasaki, show that **symptoms may persist for up to 10 years and may also have an increased long-term risk for leukemia and lymphoma**. The effects of radiation on the human body can be found at [www.atomicarchive.com/Effects/radeffects.shtml](http://www.atomicarchive.com/Effects/radeffects.shtml). Will the human subjects of this non-consensual human subject research be compensated due to research-related injury?

The waiver of informed consent has caused adverse consequences for my welfare and for my general well-being, as well as, my loved ones. In addition, our rights, safety, dignity, welfare, and privacy as non-consensual human subjects have been violated. This human subject research/experiment has also failed to comply with the terms of the policy, 45 CFR 46 therefore, as stated in 45 CFR 46.123 it should be subject to termination or suspension. If I continue in this "loosely controlled" research/experiment, it will likely result in irreversible permanent injury, radiation-induced diseases or even pre-mature death for myself (this request also includes my family members who were systematically included in this because of me), because the **"researchers" are operating above the law and below the accepted standard of scientific, ethical, and humane research. I am requesting to "opt-out" or discontinue my participation immediately out of this non-consensual human subject research/experiment without prejudice.** The "Common Rule", 45 CFR 46.116 (a) (8) states, "and the subject may discontinue participation at any time without penalty or loss of benefits to which the subject is otherwise entitled." I am not waiving any legal claims, rights or remedies because of my participation as a non-consensual human subject. The legal rights as a human subject may not be waived and the human subject may not be asked to release or appear to release the investigator, the sponsor, the institution or its agents from liability for negligence.

#### **Section V. Revise this area base as an individual or as a family by changing the tenses**

*I, James F. Lico certify that my decision to "opt-out" or discontinue participation in this human experiment is without the intervention of any element of force, fraud, deceit, duress, coercion or undue influence on my decision. I am requesting to "opt-out" or discontinue my participation because of my rights as a human subject as stated in 45 CFR 46 116 (a) (8). This request includes all of my immediate family members who were thrust in this unethical, human subject research/experiment without their consent or without their knowledge. I/We have endured grave civil, constitutional & human rights abuses. We have suffered unimaginable pain & suffering, which is needless & senseless. Our rights, safety, dignity, welfare, and privacy as a non-consensual human subject(s) have been violated. This human subject research/experiment has also failed to comply with the terms of the policy, 45 CFR 46 therefore, as stated in 45 CFR 46.123 it should be subject to termination or suspension.*

Thank you for your letter. I know of what you speak about because I am a targeted individual. There are thousands of targeted people in the US who are tortured with Microwave directed energy weapons and psychotronic weapons. In addition, there are many civilian people with inferior brains, who assist in the torture, such as neighbors.

Can you give me an Idea how many Targeted Individuals (TI) there are in China?

I would estimate that there are 30,000 ti's who are aware of their plight. I believe there are many thousands more who are unaware of what is happening to them.

I will post this email to my web site and send a copy on our TI community.

Thank you.

**14/8/13**

I have been experiencing **Remote Neural Monitoring** and **V2K** for the past 7 yrs.

The individuals work in shifts of 1 – 2 hrs. and very greatly in their attitude and message.

Often times they “whisper” all night long, 24/7 as if to hypnotize with their subliminal message of compliance and discipline. The purpose of these experiences are Behavior Modification. They continually want me to make changes in my lifestyle with promises of stopping the “voices”. I am continually bombarded with what seems to be like a telephone party line, especially when at work. Early mornings are usually the worst. Then around noon the bombardment heats up.

Sometimes they aren’t even “talking” to me. They sometimes argue with each other over issues related to these phenomena experiences. They often disagree with each other over how to proceed with these unauthorized, experiments. Some seem to want to stop the harassment but they are too afraid to take any action because someone in this “circle of friends” seems to have “dirt” on all of the unwilling participants. These unwilling participants are afraid to go the FBI and report what is being done to me for fear that this insidious nightmare will also be done to them and their family members.

My symptoms very much resemble the symptoms of schizophrenia. Of course, any time one hears “voices” the medically trained doctor always immediately diagnoses schizophrenia. “Take these pills and all will be well” He says. I have taken his various medications to no avail. Medications thus far offer no relief. I now only take the meds to go to sleep at night as “they” “talk” to me continually all night long thus causing me to suffer from their non-stop attack serious sleep deprivation.

On weekends the symptoms lessen and usually become more mild. I KNOW what I am experiencing is NOT Schizophrenia. I recently read an article on a legitimate medical website that the medical community is on the verge of having a physical, biological test that will positively confirm whether one really has schizophrenia. I can hardly wait to take that test and confirm my doctor’s diagnosis as wrong. I am **absolutely positive** that what I am experiencing and suffering from is not clinical schizophrenia. I am absolutely, totally convinced that V2K and Remote Neural Monitoring are to blame.

A couple of years ago I met up with an old high school lady friend named Lucy G. who shed some light on who is behind and to blame for these insidious, non-consensual, illegal actions being used against me. I have in my circle of friends and relatives all of the necessary components to carry out this act of gang stalking and this form of domestic terror. As a matter of coincidence, I just happen to work for California State Government.

In 2006 filed a Whistleblower complaint to the State of CA thinking I could save the State a significant amount of money by reducing the number of employees needed to handle what I thought wasteful spending for CA consumers. I find it strangely ironic that this condition and symptoms have been happening to me ever since.

I have between 20-30 people that I am aware of that would be a perfect fit into what has amounted to a conspiracy which “they” call, ‘The Game’.

A **Neuroscientist**, an **Electronics expert**, an **IT Professional**, a trained **Radio specialist**, and **large sums of money**, a **Research specialist**, such as a **Private Investigator**, **law enforcement & military connections** to classified Military/Law Enforcement **iPhone/Android Apps** with sufficient motive, are all that is needed to put together a scheme initially for fun and then for profit with, of course, an **Implanted, innocent** victim are all that’s needed to play ‘**The Game**’ with absolutely no defense whatsoever for the **targeted victim**. I personally know all the ‘**Players**’ in the mind-bending ‘Game’.

**VIGILANTE INJUSTICE: ORGANIZED "GANG STALKING" IS THE AMERICAN GESTAPO**

by Scrivener | July 10, 2008 at 11:49 am | 500 views | 5 comments

Link to story: <http://tinyurl.com/5vje49>

A frightening mosaic of unconstitutional abuses is nullifying the rule of law and the right of due process under the law in America. Human rights violations are taking place in cities and towns across the nation, but the mainstream media has yet to take note.

People are being targeted for ruin -- financially, socially and physically -- by an organized campaign of vigilantism that some victims believe is funded and supported by multiple levels of government, perhaps using citizen "watch" and volunteer programs as well as private fraternal organizations as a front for extra-legal harassment and persecution.

The phenomenon is commonly known as "gang stalking" and "community stalking." But that nomenclature tends to trivialize the issue.

This is a re-emergence of the monstrous methodology of the KKK, the Stasi and the Gestapo. It is mob rule that can turn even well-intentioned community organizers into an extra-legal control mechanism that some targeted individuals believe is coordinated and condoned by rogue elements within the power structure. The recent killing of an inmate at the Prince Georges County, MD jail could be the latest manifestation of such officially tolerated, extra-legal vigilante "justice."

This link explains it well, and contains sublinks to additional information:

<http://citizensoulpower.wordpress.com/2007/09/21>

Those who raise this issue find that their telecom connections are subject to surveillance, interruption and tampering. Their ability to freely communicate is severely circumscribed. Careers are ruined, reputations are slandered, and the physical well-being of targeted individuals is placed in serious jeopardy by the employment of high-tech instruments capable of inflicting pain and harm. Victims have charged that their mail is intercepted, transactions are sabotaged and financial statements are altered to surreptitiously drain targeted persons of their financial security, driving them to destitution and personal destruction. Entire families have been decimated. This phenomenon may even explain in part the crisis in the mortgage and credit markets. Here is another link that explains how this is happening:

<http://www.usenet-replayer.com/faq/alt.abuse.recovery.html>

I am an investigative/business reporter/producer who has worked for major newspapers, TV stations and magazines. I had my own TV show in the metro New York market for six years. Perhaps not coincidentally, the show ended just as I began to realize that I was being methodically and destructively gang-stalked. It's been going on for more than four years. I have tried to seek redress by going through official channels, to no avail. It wasn't until I read and researched the many web sites on the subject that I began to realize what was happening --- and that others are being similarly afflicted. I have contacted media outlets, but I find that there is a concerted effort to destroy my credibility, and I believe that has affected my ability to get this story told. (Persons targeted by this movement report that their complaints to public officials are routinely received with scorn and not-so-subtle suggestions that the complainants are mentally unbalanced -- a response that critics maintain is part of a strategy to neutralize those who dare to challenge the prevailing dogma.)

I was part of "major media" for many years, and I can report that the mainstream media is highly vulnerable to

intimidation, manipulation and rumor-mongering. I post this message at some personal risk to myself and to my family; but I cannot remain silent and solely rely on "the system" any longer. The system isn't working.

My name is Victor Livingston and I live in Bucks County, PA. My telephone number is (215) 295-0852, and my email address is [scrivener50@...](mailto:scrivener50@...). But my email is erratic, my accounts have been subject to hijacking, and I can't rely on the privacy or even the veracity of electronic communications. I fear that my identity has been stolen and that I have been set up by rogue elements that have tolerated this extra-legal activity, and who will resort to "any means necessary" to suppress accounts of official misconduct.

Federal law enforcement is aware of gang/community stalking; indeed, it is possible that federal grants are being used by localities to fund such activities under the guise of community watch groups and volunteer corps. Some local police personnel who have resisted the vigilante movement reportedly have become targets.

My hope out is that conscientious officials under the direct authority of the Justice Department are working behind the scenes to curb the abuses. I have officially requested a civil rights investigation into what has been happening, but to no avail. I have tried to contact my Congressman, Patrick Murphy, but those efforts have been unsuccessful. That explains why I have resorted to multiple postings on the web, so I can confirm that my words have not been altered. I have also emailed members of the House and Senate judiciary committees to request a congressional investigation.

If you are a fellow journalist, please investigate this under-the-radar abuse of power in your own community; odds are, it's going on in your own backyard. Residents of other industrialized nations also have posted reports of organized gang/community stalking in their communities, suggesting that these tactics could be part of an international reactionary ideology.

And if you know or work with Sy Hersh, Nat Hentoff or Bob Woodward, or local journalists in your local communities who are more than just stenographers for the status quo, please send them this post.

In the words of John Dean, it's worse than Watergate.

I am a citizen of the United States of America. I am 42 years old and was born in Philadelphia, Pennsylvania.

I have been tortured for the last 19 + months with such US patented technologies as # 4,877,027 and other such technologies that my research has shown me are known as 'Psychotronic' technologies.

I do not know why this is happening to me. Many serious 'attacks' have occurred over the past 19 + month period, and I have looked for help in many places. But my lack of an ability to 'document' this situation has been a problem, as has been the lack of location any resource that either is in a position to or has the power to assist me in defending myself and bringing this situation to an end.

I am emailing your organization with the hope you can offer me some understanding and possible assistance where my previous attempts at finding such a resource has failed.

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My name is Ramona Lopez; I have been targeted for over 10 years.

Prior to my being target with this **ELECTRONIC TECHNOLOGY OF HARASSMENT AND TERROR FOR POLITICAL CONTROL;**

I was a community activist in Venture County California. In 1993, I receive The Latino Leadership Award for my community work.

Now I live in torture and terror. I have several microchips in my body; several doctors are aware of what's going on in this area but, are afraid to treat Targeted Individuals. I have doctors that say, "your body is the evidence'.

These people abuse my body in every way they desire and no one to stop them, the pain is so intense that it surely should be enough to knock out an elephant.

I and a Professor of Irvine University went to Congress Women Loretta Sanchez's office and other state government officials with evidence. We went to Congress Women Sanchez's Office in May 2004, and I've not received a response, as of yet.

**We believe there is no response due to a shroud of secrecy with our government officials regarding this operation.**

This technology is well documented in certain archives and circle of communities. My home phone # 805-532-2140, cell # 805-630-1252, best time to contact me is mid-morning and late-night.

**11/8/09**

I'm still a prisoner in this complex. It seems unbelievable that this can occur in plain sight. I was abused sexually a few days ago. I don't look the same my face and body have been changed or altered. I'm being tortured as I write this e-mail. I'm not able to get too far without the torture. I have inercom in my apartment. I hear and listen to perps talk all day and night; its a nightmare. I'm actually, a prisoner and a slave for sex. These man are filthy and evil I fear for my family and grandchildren. I get tortured horribly everyday and night now. I feel as if I am dying now. I no longer have a car; these perps made sure my car got impounded by Thousand Oaks Police Dept and I didn't have the money to pay for the fees of \$1600.00; the car was no loner worth \$1600.00. You know how they operate. Being without transportation make me more vulnerable to their abuse; I'm like a sitting duck. I simply cannot believe the degree of evil I find myself in. They often contaminate my food with cinicals and toxins. They now steal my money, therefore, leaving me without groceries. If anyone attempt to visit me; they can't get in the gate; my phone calls are intercepted and i don't get incoming calls. I don't know what to do Bob except ask you to keep my information active to other TI's. I now have come to the realization that I have been abused under hypnosis and perhaps under an unaltered mind. people have stolen my youth and now I fear for my aughters. If I have been abused in this way by these gang of perverts, I can only imagine what they are capable of doing to a young

beautiful young women. I'm burning badly now; these people are now trying to kill me with the directed energy weapons. I'm at their mercy now all I can do is rely on other to get my story out to the public. These perps are all about programing and sexual abuse. Please give my phone number to TIs 805-553-9354. I feel very isolated my only communication is with the perpts now. I despise these people and their tactics with all my essences. God bless, Ramona Lopez

Apreciado:

Por medio de la presente me dirijo a usted, con el objeto de hacerle llegar a sus manos informacion acerca de la situacion por la que estoy atravezando, la implantacion de un micro-chip en mi organismo, y que espero me puedan brindar la asesoria o el respaldo necesario para asi solventarla.

De origen cubano, soy actualmente ciudadano estadounidense y vivo en la ciudad de Miami, Florida. Hace unos anos tuve un accidente, que motivo el hacerme una cirugia, en la que se me removio la vesicula, de la cual pense me recuperaria satisfactoriamente, pero no fue asi.

Posteriormente, a mi proceso de recuperacion empece a sentir una serie de sintomas corporales tales como : Dolores en todo el cuerpo, sensacion de tener un tv encendido, voces, etcetera. Por supuesto que inmediatamente recurri a diversos profesionales, con el mismo resultado en todas y cada una de las ocasiones : No encontraron nada, y por ende terminaban remitiendome a psicologos y psiquiatras, los ultimos de los cuales me recetaban una serie de medicinas... sin resultado alguno.

Ante este panorama, me he dedicado a buscar informacion e indagar acerca de mis padecimientos y sus posibles origenes. A consecuencia de este proceso investigativo me he encontrado con que mis sintomas son similares a los de aquellas personas, que han sido sometidas a implantes de micro-chips.

Hoy por hoy y ante esta situacion, he decidido recurrir a organismos y personas que me escuchen y me posibiliten la oportunidad de hacerme el estudio necesario a fin de dar con este micro-chip, que de una u otra manera ha alterado mi vida personal, familiar y laboral.

Tengo la esperanza que a traves de ustedes, encontrare el camino hacia una solucion definitiva a esta problematica que me aqueja minuto a minuto, y la cual, por lo que he leído, aqueja a miles y a miles de personas a lo ancho y largo de nuestra nacion.

My name is Richard h lovelace. SR. Live in kings mountain n.c. USA I have been a target. For decades. I have been implanted spine,heart, and other places. Scanned by Jesse beltrain and Derrick Robinson March 17 2012 people think this is all about mlnd control it is not this is about taking out the trash. I have heard them say many times that they are going to kill all those people I explained this to my congressman office and others.they don't need implants to kill people now. All they need is the directed energy weapons, star wars program to give people diseases. When targeted 24 7 this can happen quick. My home is a death trap. Richard h lovelace SR. DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I'll try to stay in touch with everyone a little better in the future.

Many years ago i became a victim of **GANG-STALKING** (probably before 1990). The Stalkers used many types of **ELECTRONIC HARASSMENT** including **DIRECTED ENERGY FREQUENCY TECHNOLOGY**.

**You would not believe the intrusiveness of the SATELLITE NETWORK or what can be done with it especially by criminals (you just have no concept). This is a hate group using ELECTRONIC HARASSMENT techniques (possible MILITARY/NSA ties). I am caught up in a struggle for my very existence.**

I have been:-

1. **continuously** - 24 hours a day 7 days a week mentally and physically monitored.
2. subjected to sleep deprivation torture
3. **continuously** subjected to sensory and mental torture by being **very aggressively and relentlessly psychologically attacked, denigrated, interrogated, undermined, and baited - directly into my invaded and occupied brain**. This takes the form of a running attack with a personally codified system of comments and responses to my thoughts, activities, social and psychological state, and biorhythms - both straightforwardly and with many different disorienting, infuriating and distorting effects. This sensory and mental torture and attack directly into the brain has varied from extreme causing near-complete mental breakdown and desperation, to loud, intensive and continuous, to milder. It is all, however, **completely and totally unignorable and inescapable**, and it has profoundly degraded and wrecked my mental and physical life and being.
4. **repeatedly and relentlessly** subjected to electrical abuse and torture on the genitals - electric currents are applied to my genitals at different intensities and positions, often continuously for extended periods of time. This ranges from mildly disturbing to extremely torturous. The cumulative affect is sickening and constant mental and physical tension and aggravation. This electrical abuse and torture on the genitals is applied at any time of the day or night. I am often woken up by the application of electric currents to my genitals - night after night after night.
5. **continuously** subjected to multiple nightly neurological experiments and interventions - night after night after

night 2,3,4,5 or more times per night artificial "virtual-realities" are introduced into my brain and therein processed/experienced. This has resulted in mentally and psycho-physiologically exhausting, degrading and wrecking me. I haven't had an uninterrupted/uncontrolled nights sleep in over 2 years.

6. subjected to "deep" neurological interventions on my brain creating a lasting "lobotomised" effect – some similar to being sledge-hammered, stabbed, roasted, fan-forced microwaved, blow-torched etc. in the brain.

7. subjected to various other mental, physical and social tortures, degradations and dirty tricks- All kinds of unnecessary fees for just about everything added to my accounts, rent, and everything else. Scraping up enough money just for postage fees to send these mailings has been difficult

8. each and every night I am repeatedly put to sleep, woken up, made to go to the toilet, and mentally mood and temper controlled on waking. Other nights I am given erections, and occasionally voided of semen (my sperm production has been stopped). **I AM BEING USED, EXPERIMENTED UPON AND BUTCHERED LIKE A LAB RAT.**

**In the past I have I have been run down (chased) with a 8 FOOT long ELECTROMAGNETIC POWER FIELD ARC.** It was tan and clear in nature. I was literally scared and running for my life. I have been asleep with covers around me, and lifted up off the couch by people using the same ELECTROMAGNETIC POWER FIELD EQUIPMENT. Towels and rags have shimmied off tables without human help. I have had gray balls appear on my TV set when the set was off. I am tired of hearing their computer generated crap (thus the MICROWAVE HEARING) referred to in the sites above. It is overwhelming at times. I have been taken out of the workforce purposely. Thus keeping me broke and unable to afford, or gain access to proper help (law enforcement).

I personally have had Directed Energy Frequency Weapons pointed at me for so long. They have been working over my chest area, and lower abdomen. They say they are trying to take my body to a comatose state where everything starts to go bad at once. By depriving me of sleep it keeps my body from healing properly, and keeps my metabolism low. It has been hard to control my weight. They have threatened my life and everyone in my familys' life. My Uncle Winifred Bolen was killed by this group – their every move about this was told to me by them. They worked over my mother and her husband with HYPNOTIC STATE & FREQUENCY WEAPONS. They know everything at any time of day about everyone in my family (mother, husband, sister, uncles, nephews, niece, cousins. This CYBERSTALKING GROUP threatened years ago to take me to quote "the lowest common denominator" poorhouse & everything else. I didn't take them seriously enough at the time – and now here i am trying to seek justice with my health compromised & my life-expectant severely shortened. This group of criminals gangstalking me is located on Hilltop Drive/Circle in Auburn, Georgia 30011. they also have a second group of people using this network illegally in Conyers, Georgia 30013 (at least 2 or 3 people working at SIMPLEX-GRINELL LP – the company I used to work for).

At **SIMPLEX-GRINELL LP, Conyers, GA 300139 (A FIRE ALARM/SECURITY COMPANY).** I had to leave the company because I had people using REMOTE WIRELESS LISTENING EQUIPMENT in my direction. **I have been 'WANDED' and hurt badly by this.** at some point the people in question started using one of the EAVESDROPPING NETWORKS against me. **A SATELLITE ELECTROMAGNETIC FUSION LISTENING BEAM with which they have also used to hurt me, they have literally been using this to "COOK" me with. They are still today using this against me, and have hurt me physically beyond repair. I will not go into great detail at this time as to the multitude of dirty things they have done to me using this equipment.**

**I have been shown through with some type of MAGNETIC IMAGING SURVEILLANCE and have had my internal organs altered, and aggravated to the that my life expectancy has been severely diminished. At this time I would like to those who have been a positive part of my life say thank-you for being there. Due to the length of time I have been stalked I feel that I may not be around much longer. They have poked, sparked and hurt me with the EMP-RNM BEAM for just that long. My bones are aching at the hinges, and threats from those doing the stalking the stalking are saying that they are going to kill me and everyone in my family, as they killed others.** It seems that this beam is made partially of something called COMPTON RECOIL ELECTRONS (EMP) which is used to heterodyne (mix0 various types of frequencies on the beam. It is used to read people's thoughts as well.

In 1997 I started to hear what appeared to be talking (very lightly of course). However it always seemed to be outside my apartment (no one was ever there). So I just went on about my daily business and really didn't think much about it at the time. In the Spring of 2002 the REMOTE NEURAL MESSAGING crap they were transmitting became noticeable and unbearable. I still didn't have a full understanding at that time of what was happening to me or the equipment being used. Now I am still here trying to get them to stop, and years have passed. I have struggled with this GANG STALKING GROUP the whole time. It has taken me this long just to get

this far. My biggest mistake was believing that they would just get tired of bothering me. Then I would have gone back to leading a normal life. That never happened and it was late 2005 before I found the information on the internet to help start putting fact behind what I was trying to say.

I have been manipulated from a distance, and have had my every move countered at times.

**I have exhausted most all means at this time of obtaining legal help. I spent last 2 years mailing different people in Law Enforcement (Atlanta FBI, Joint Terrorism Taskforce, Georgia Investigation Bureau, Barrow & Auburn County Georgia Police) Legal authorities have been manipulated in front of my eyes as well as before I can reach them. People have misuderestimated the human programming capabilities of this criminal network. The criminals using this ILLEGAL SATELLITE NETWORK can program, and manipulate honest people when they are asleep (unknowingly), not just when they are awake.**

**This GANG STALKING GROUP needs to needs to be brought to justice, and dissected to help prevent further abuse of the SATELLITE SURVEILLANCE SYSTEM you cannot talk to the NSA – no vehicle is in place for them to police themselves, or for them to help you. I have tried that already!**

**Why me? I wish I knew the real answer to that question. The criminals using this network against me I have never met. I do know enough to place proper Government (and Law Enforcement) officials in the direction of the criminals using the system illegally. I just recently found the information in [www.surveillanceissues.com](http://www.surveillanceissues.com) web site. Remember, most of what I am referring to has happened before reading that site. Also I have had most of the things mentioned in [www.raven1.net](http://www.raven1.net) pages 4-6 happen to me.**

I am a victim of organized stalking. I lived in Ga. from 1981 to 2005. (Auburn, Ga. for 10 years) Look on You-Tube under **1/7 HAARP BOILS THE UPPER ATMOSPHERE** (Site) ALL 7 ARE Great. Either part 5 or 6 will explain the frequency qoutes behind your dilehma. Also serf the internet under ELF Zombification look at the site labeled PDF frequency quotes. This is not an answer to your problems, but should be of significance. I have been sleep deprived and worked over with frequency almost to the point of death.

I would like to thank you for the information you send me. I am being harassed so bad by directed energy organized stalking group. I never know if any thing I send is being read by the people I send E mails to. Rarely I will get a reply from someone the stalkers do a number on the computer systems I use. I recently sent a message to Jesse Ventura Consprincy Theory Via TRUTV.com. I wanted to keep a copy of it and would like for you to review as well. Thank you all so very much! I wish I could stay in touch with people better but is nearly impossibe with organized stalking hate group bothering me.

P.S. I wasn't able to get enough shielding to protect myself properly before the stalkers got me completely broke, and unable to afford. I will soon be losing my health completely.

**As Follows to TRUTV:**

I sent some material concerning (Bio-coded directed energy) organized stalking (electronic harassment)to Conspiracy Theory. This is a problem that many people are placing sites on the internet. I believe much of this is due to several illegal Biocybernetic Communication Systems operating across the USA. Reference to synthetic telepathy/RNM-remote neural messaging "The Fry Effect" (Allen Fry Memorial Institute) I believe this to be a big part of the problems you have discussed on many of your shows. The group of organized stalkers harassing me I believe them to be a part of something called "MK-Ultra Cults" which are some type of syndicate spinoffs. Refer to the book called "A New Breed : Satellite Terrorism In America" Also pertaining to your latest book I do believe their was a conspiacy to have JFK assassinated:refer to the Youtube speech called "Secret Societies And Freedom Of Speech 1961/JFK" approx 6 min long. Many people believe it was that speech that got him assassinated. Also the organized stalking group harassing me is using RHIC-EDOM on myself as well as people around me. I am willing to polgraph (brain fingerprint) about these subjects to substatiate what I am saying. This satellite electronic harassment has hurt me physically so bad!! You must check out some of the sites on the internet about these subjects. Think about the types of crimes that can be committed by criminals using this type of technology illegally. Please keep in mind the amount of Disinformation/misinformation about these subjects that is also presented on the internet.

Loved your shows!

Also a software program being used called Tempest which is an electromagnetic sensing program used with this technology to detect CRT emissions. The hackers then create backdoors into your computers using this information. The organized stalkers harassing me have used this technology on me also. EMP-electromagnetic power/compton recoil electrons. "The Tetra System" frequencies are being used as a silent radio hypnotic facilitator. These are being used in conjunction with the cell towers somehow/those amplify every frequency between the range of 300 to 1430 MegaHertz. Claims of up to 15% of America may be frequency saturated causing many cancers (also kills many insect larva as well-too many milli watts in the air) due to these cell towers being set up that way.

**14/1/11**

I mailed you some info a few years past. The stalkers did every thing to me that they have done to you. ( Plus a lot of particle depressions/invisible bullets/color images). I wish I had some answers, but I don't. I am getting beat up badly.

I am so sorry for not having gotten in touch with you sooner. I would like to thank you for E-mailing me all of the organized stalking information that I have received in previous years. I wanted you to know your efforts have been appreciated by me, and have been of great help.

Hello! My name is Roger R. Lowe. You may have seen my name on the national victims list of electronic harassment (directed energy stalking). I managed to get an associates degree in applied sciences (electronics) from DeVry in Atlanta in 1993 at the age of 35. Even though I have been hurt physically from years of directed energy (RNM) harassment, I feel that I am still competent mentally.

I am a targeted individual. My whole family including relatives are being messed with by the stalkers (most all unknowingly). The use of silent hypnotics as well as RNM on myself (as well as most people around me-family, friends) has been overwhelming. Due to years of sleep deprivation as well as a constant bombardment of frequency harassment keeps me from getting a lot accomplished.

I should have gotten better connected with others in the victim's network sooner. For some reason I did not, and it may have been a bad mistake.

It was in December 2005 before I found information on the internet about electronic harassment, and organized stalking. In late February of 2002 was when I started to get harassed 24/7 by directed energy organized stalkers.

At some point in the near future I would like to be an active part of the Freedom Fighters For AMERICA (.com) But I have been getting beat on pretty badly by organized stalkers.

Hello, I found your email in a 2008 report "educate yourself.org"

Without a doubt, I am certain that I am a targeted Individual of electorinc stalking and mind control. all the signs,

symptoms are here and so much evidence, though unprovable to an authority. I won't even bother with that!

I would like to correspond with you or others about how to "cope" with it. What I can do to help myself. I am certain that I know who my "handler" is but I can not or don't have the means to stop it, only to fight for my own sanity and safety.

So if you can assist me in anyway. I would appreciate it. Any referrals or links you can email me would be so appreciated. Other folks willing to share their story of survival, I would like to correspond with if you have willing people. Feel free to give out my email for that purpose.

I am 54, single, divorced 12 years and been living alone in isolation, a prime target.

Thanks for the information. I first noticed my 'attacks' about July, 2012

I am a U.S. citizen in Washington State.

The attacks began with my radio in car, then my home thru songs.

In the past month, I have experienced what I believe is silent weapons to prick, shock and slice the skin on my hands.

I am curious, How are you involved and how have you been affected?

Thank you

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

The following is my story relating my experience of being covertly harassed via COINTELPRO-style tactics for the past 1-1/2 years.

I'm 48 years old, a law abiding citizen, and generally proud to be an American. I graduated with honors from high school, served in the U.S. Navy and, after receiving a degree in electronic engineering from California Polytechnic State University, San Luis Obispo, worked hard in the Silicon Valley, devoting the best years of my life helping the high tech industry succeed. In addition I've been involved in theatre and enjoy running, hiking, and doing volunteer work with Habitat for Humanity building houses for financially struggling families.

For me it began 1-1/2 years ago. I started noticing that certain drivers on the road were shadowing my car in such a way to make it obvious I was being followed. Weird people would show up in places I frequented, giving me dirty looks to make it clear they were "against" me. Certain neighbours would purposely slam their doors whenever I entered the neighbourhood. I got the very distinct message I was being watched in the privacy of my home, presumably via hidden cameras and bugs, as a car parked outside would synchronize door slamming or car alarms with something I was doing inside, such as getting out of bed in the morning. Trash would occasionally be strewn in the front yard. Car horns would sound several times a night depriving me of sleep. And while at home I was being hit with high-power electromagnetic energy based on directed energy weapons technology, which would induce annoying tingling sensations, sharp pains, and headaches.

Although these tactics sound benign in isolation, they are part of a coordinated psychological warfare operations campaign waged 24/7 which over a prolonged period have the effect of instilling a strong sense of paranoia;

making it a struggle to maintain one's sanity. Indeed some have committed suicide as a result. Over time the net effect is self esteem is damaged; one finds they are worn down and isolated from society, and life becomes a very difficult struggle.

For the first year I didn't know exactly what was happening. I approached neighbours trying to ascertain why they seemed to be shunning me, with no response. I spoke with the Police several times, telling them everything that was happening, with only useless advice being imparted. I spoke with some of the people who were following me, but they weren't forthcoming. Drawing upon my electronics experience I utilized several approaches in attempting to locate the surveillance bugs in my home with no luck -- apparently they were based on sophisticated surveillance technology planted by someone experienced in this field.

Then after about a year I stumbled upon a description of this form of covert harassment on the web. It goes by the names of gang stalking, cause stalking, organized vigilante stalking, community-based harassment, covert war, technological harassment, psycho electronic mind control, MKULTRA, and COINTELPRO. I discovered that many thousands of individuals are targeted throughout the U.S., more internationally. Generally there is no way to get off the list -- once targeted; one is usually targeted for the remainder of their life. Some victims have been targeted for over 20 years! Moving doesn't help; the harassment follows you wherever you go. The news media doesn't cover it; government and law enforcement are complicit by virtue of refusing to do anything about it. Citizens from all segments of society and all levels of government are recruited to participate. Who is behind all this and the reason for it are not entirely clear.

Why I was originally targeted? I don't know for sure -- nobody has told me -- I would certainly like to know! My best guess is it's because I told some kids, who presumably had contacts within this harassment cult, to turn off their loud music several times. This is consistent with reasons why certain others believe they have been targeted. Networking with other targeted individuals I find that we as a group tend to be intelligent, righteous, law-abiding people.

Before this began I enjoyed being a contributing member of society with an optimistic view toward life. Now I find that I am unemployed and my esteem for humanity has declined markedly by virtue of the fact our society allows this extremely inhumane injustice to occur. It has a very satanic, sadistic feel to it. The reason seems to be revenge-based. In any case the punishment has no relationship to the crime.

This government-sanctioned abuse of U.S. citizens is an attack on our freedom. It's a flippant violation of our rights to privacy, to face one's accuser, and to be tried by a jury of one's peers. Please not only investigate this, but resolve to end a very ominous cancer that is attacking the very moral fibre of our society and serves as an embarrassment to U.S. constitutional principles and America as a whole.

### **August 7, 2007**

This is being submitted in support of a mass petition organized by John Finch, 5/8 Kemp St, Thornbury, Vic 3071, Australia, to raise awareness of, and seek resolution to, organized stalking, directed energy weapons, and neurological weapons torture and abuse of citizens across the globe.

Organized stalking psychological warfare operations, directed energy weapons abuse, and neurological weapons torture are being carried out on millions of citizens worldwide against their will and without their consent, knowledge or notification. These covert harassment operations are essentially a continuation of the U.S. COINTELPRO and MKULTRA FBI and CIA programs which targeted citizens with discrediting campaigns and conducted mind control experiments on human subjects beginning in the 1950s and were investigated by the U.S. Church committee congressional hearings in the 1970s.

This harassment invades every aspect of the lives of the victims. Victims and their family members are regularly stalked, their residences are entered while they are away, personal belongings are tampered with, and rumors based on lies are spread about them within their communities. Many are also subjected to neurological weapons attacks via sophisticated, military-grade through-wall imaging technology, directed energy weapons and remote neural monitoring equipment based on microwave, infrasound, biofeedback and other technology, which has the capability to induce headaches, ringing noises, voices and other sounds, muscle spasms, sharp pains that feel like electrical shocks, and burns.

This harassment has increased significantly in the past 15 years and today victims number in the millions. Victims are chosen because they are government or corporate whistle blowers, for reasons of revenge by hate groups, or because they are loners and thus easy targets. They are not criminals or terrorists, nor do they pose any threat to their respective countries. Once targeted, they are usually targeted for the remainder of their lives. Many feel this is being coordinated by extremist groups and cults operating within government agencies via classified projects as part of a new world order movement with the goal of establishing rogue shadow governments. This is sometimes referred to as "the silent holocaust" due to the victims who have died as a result.

I live in the United States and in 2005 I became a target of this harassment. Every time I leave my home I am followed by stalkers recruited from citizens within my community. They follow me wherever I go, on the road, into stores and restaurants, on airplanes, even across the country. I've moved and the harassment followed me to my new residence. Neighbors have been recruited to engage in noise campaigns. At home I am hit with directed energy weapons which induce annoying tingling sensations, headaches, ringing noises in my ears, and sharp pains that feel like electrical shocks. I've spoken with the police about this several times but they failed to investigate, as did the U.S. FBI. This harassment is typical of what other victims are experiencing.

This government-sanctioned abuse of its citizens is an attack on our freedom. Please not only investigate this but resolve to end what is an embarrassment to human rights principals and humanity as a whole.

**I DEMAND AN INTERNATIONAL INVESTIGATION INTO THESE CRIMES AND HUGE VIOLATIONS OF HUMAN RIGHTS!**

Sincerely

**I am a Targeted Individual/Victim of Directed Energy Weapons/Electronic Harassment/ Psycho-Terror / Organized Stalking/Abuse/ Torture.**

**Other members of my family are targets as well. My 16 year old son, as well as my daughter who is now on disability.**

Mass amounts of participation is occurring all over my community, I am unable to find help even from Law Officers. There is participation at the level of fire departments, policemen, community watch groups, tampering with my mail upon delivery and outgoing mail at the post office. I have experienced V2K. I am a victim of COINTELPRO - Cynthia Morris, the state of Missouri, USA.

**These groups of people began making their assaults upon me the beginning of the year 2006 I am a Consumer Data Collector for a high profile rating company. My stalking began by occurring in the stores while working, progressing to the point of being monitored 24/7. I have been chased by other vehicles through my community, I have moved 3 times in 4 months, I have lost work, suffered loss of sleep dues to sound stalking from perpetrators living below and across the hall from me, am being group mobbed at every location I enter, I am being verbally assaulted and slandered on a daily basis to the point of fearing I will not be able to find work with any other company now, I am experiencing street theatre on a daily basis, I have been shouted at down my street after dark by someone through a mega phone, I have had head lights of vehicles flashed at me when arriving home after dark, I am openly followed and photographed by my stalkers, my mail is constantly tampered with (including mail that contains checks to pay my bills), I have been followed for miles and met at work and private destinations by firemen in their fire engines, from one**

community to another, I am currently having my phone conversations and all electronic communications tampered with, I have been stalked by police officers ushering in stalkers, I have been overtly assaulted by police officers making it look like a small accident, I have been pulled over by police officers who remove their I.D. badges and their shields before approaching me, people have set fires in cigarette bins in front of stores that I am working in, while taking a cigarette break with the stalkers attempting to make it appear I am responsible for a very smoky fire while they attempt to capture the incident with cell phones, I have experienced helicopters flying over my residence a numerous amount of occasions, my 16 year old son has had helicopter lights shone on him. There is much more that has occurred.

I have made visits to the St. Louis City Court House, my district P.D., my county P.D., my neighbouring community P.D. on behalf of my daughter. I have written letters to The New York Times, The Washington Post, my local channel 30, 4 and 5 television stations. I have contacted the Oprah Winfrey show producers, Montel Williams producers. I have contacted state and federal agencies for people with disabilities in regards to my daughters safety who is also a target. I have stood on street corners passing out flyers. I have put a web sight reference on the back glass of my car referencing gang-stalking. All of this communication has only resulted with one producer of a talk show considering me for a future show.

**16/8/13**

Thanks so much for getting back to me, and for doing the work that you are doing. I am trying to figure out how we can work together. I have a big vision for seeing this go public, and criminal groups getting infiltrated, investigated and prosecuted. Below is the short story for me. The only thing I did wrong was meet the wrong person. It's terrifying that that is all you really have to do to get targeted by these criminals. Below is a bit of my story. MJ Mack is a pen name, my real name is Constance Hannah Rose.

I was singled out and targeted to be a victim back in 1996. I was doing temporary contracting work in the Bay Area in California for a company called AirTouch. There I met the person, Lyn Gandy, who singled me out for this crime. The second or third time I ever had conversation with her, she told me that "if anybody ever messes with me they have to pay".

She insinuated herself into my life, and eventually orchestrated a scenario whereby I did get angry at her and told her I thought it would be good to have some space for a while. That was it. I was 38 years old. I am now 57.

From 1996 to 1999, I would call what was happening group harassment, cyberslander and character assassination. Social death by e-communications. There was baiting, set-ups, and all manner of petty harassments that people thought up. Unfortunately I am one of those very naive people who could not possibly conceive of doing the things these people were doing. Nor am I a vengeful person who will participate in any type of activity that would harm another person. I want to believe and see the best in everybody. Therefore it took me about a year and a half to figure out what these people were doing. But even then I did not have a clear picture.

In those first three years my car was vandalized on an ongoing basis. One of my cats was kidnapped and tortured twice. I had people looking through my windows at night and then the next day, co-workers would bring up whatever I had been watching on TV. Death threats were insinuated. Food and vomit were found on my car on several occasions. My "friends" would take me to parties and introduce me to a lot of people in order to spread the slander, and then abandon me. I lost jobs and clients and my reputation in my industry was completely destroyed. In 1999 I felt completely defeated and attempted suicide. I barely lived.

Between 2000 and 2008 I was able to live a normal life for the most part, though rumblings of the character assassination happened with some groups of people. I had moved, and while I think the criminals knew where I was, they had no idea who my friends were, and so they couldn't get to me. This was before smartphones, which I think have changed the game quite a bit.

In 2008, they found out who one of my close friends was and the nightmare began again. This time on a whole other level. The 24/7 surveillance and stalking began. By this time I had established myself in my industry and community, and all that came crashing down like a house of cards. I was set up to look like a gossip, backstabber, thief and bully, and those accusations persist today. One person accused me of being a prostitute. There have been insinuations of grisly murder scenarios.

I have not experienced any physical torture, but today I am unable to go out and get a job, nobody will have me for a friend or business associate. Within a day of making new friends or business acquaintances, they are recruited and begin participating in the psychological abuse. This includes most of my family members. Nevertheless, I've decided to be one of the people on the planet who assists in bringing justice to victims of these crimes and to help others in any way I can.

There you have it. Let me know if this is too long, I've left so much out. I actually spent months driving across the country trying to get away from these people. There is a novel in that. Also John, what can I do to help you?

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I am from Texas the United States.

This has been going on w/ me since I lived in Seattle in 1995 so its been about 13 years.

The first distinctive memory I have of beginning to become aware is of me & a friend sitting on the roof of our apartment building in downtown Seattle at night (3rd & bell) and the clouds are coming off the sound you know just streaming over head. My friend looks up & says what the #### is that? I look up & there is what looks like a star in a perfect circle hole in the clouds (that are moving around it).

Anyways the hole steadily gets bigger & bigger til there's a big perfect circle hole in the clouds just over my apartment building. It spooked me so I went in.

I also had what seemed like a paranormal experience that night but I'm sure it had something to do with the satellite star thing.

I don't like to dwell on this but it has been torture. Kind of like being locked up in an impenetrable fortress w/ only the stupidest dumbass idiots imaginable babbling constantly.

I get a lot of audio neurophonic psychotronic transmit. I also get electric shocks in my sleep & other technologies that feel like invisible bullets. I also get phantom stimulus of what feels like getting a #####? & also a phantom sensation of a ring on my left hand.

Other than that. That's pretty much the extent of my torture, its just that So Goddamn much of it goes on ALL the ##### Time.

You know I guess its the same way w/ water torture, You woudn't think that a little drop of water could hurt you, but boy are you wrong.

Anyways the only documentable evidence of it has been in my records. I am a recording artist (THUNDERHEAD) & there are discrepancies on BLACK MAGIC (my first LP) that probably only could be noted by my own word. they try to mess up syllables in the lyrics.

In my experience these are extremely extremely stupid people who have unlimited resources available to them not to mention NASA level technology at least 30 years ahead of the public.

The other day I was trying to doze after the sun rose after an entire night of tossing & turning from the head lightning (my own special slang) when all the suddenly my forehead was just being electrocuted & I heard what sounds like an automatic redial telephone number dial tone in my head as clear as a bell. It hurt like a bitch but I tried to resist letting the electricity permeate past the surface & i seem to have by sheer will power w/ my own natural electricity kept it out.

I woke up & just laid there and a few moments later the whole house started shaking and rattling as if an earthquake was happening. I got up & turned on the news & a gas refinery 30 miles to the east of me had just exploded. Anyways it was all over CNN & I find it incredibly eerie in coincidence. Remember 9/11 2001? I was totally kept up all night the night prior to it w Audio & electric shocks. I went to bed as the sun rose & didnt wake up till like 6 in the evening only to learn of the towers.

To get down to it I believe this technology to be comprised of four components besides the human being perpetrators.

1. is satellites
2. is radio towers
3. is supercomputers w/ advanced software & satellite uplink &
- [4.is](#) chemtrails which make the reception between the satellites & radio towers super good.

Being purely & intelligently speculative, I believe that the whole program is based upon Psychotronic Emission Tomography Mapping of the Brain, I call it Brainwave Radio Haloing. They wait for you to sleep so you'll be perfectly still then they put the beam down on you & map out your brain (It feels like your head is being electrocuted).

I'm so sick of all the brainwashed sheep sitting around & whining that this is impossible. Its not just possible, It is happening right now. Its the same type technology as a CAT scan or an MRI or even an EEG. Except its remotely controlled. The satellites that are up right now have what's called "Spread Spectrometer" Its like a flys eye It like one big lens made of 50,000 little lenses. That means they can target up to 50,000 individual targets all on different programs & frequencies at once (& theres no telling how many satellites there are).

Anyways I've got to get back to the business of living. I'm tired of writing about this & even thinking about it anyways. You know, who but a Fucking Geek could dream up this shit and use it to fucking harass A Rock & Roller. Its revenge of the nerds Folks. Youre gonna have to find a way to either block the signals, cancel out their frequencies, or just find out who they are, Hunt them down & punch a hole in each of their foreheads w/ a .44 Magnum. End of discussion~\*

MADSEN UNDER THREAT OF ASSASSINATION FLEES WASHINGTON, D.C.

Following months of harassment by the Bush administration, that includes getting him fired from his job at a think tank and attempting to strip him of his membership in the Washington Press Club, the Bush administration has stooped to new lows in trying to make former National Security Agency employee Wayne Madsen disappear. America has entered a dangerous new age of the Neo-Con and new Nazi movement that thrives on lies and propaganda from Fox News and right wing talk show hosts. With Pat Robinson pushing for assassination of foreign leaders are domestic internet journalists next?

Insider Editor's Notes:

"Dear Readers:

At Wayne Madsen's request we are putting this message to him from a source high in a United States Intelligence agency. Wayne is now in hiding and on the run after his source revealed that a private contractor assassination team had been hired to take him out due to his articles and exposures in Insider-Magazine.com and WayneMadsenreport.com. We will keep you informed and If the assassination teams kill him then all the world will know where the orders came from..."

dear john: You now have what was sent to me by someone who has excellent bona fides. If anything happens to me -- send this far and wide. I am leaving Washington for a few days.---wm

Intelligence Source: We have reason to think that a "project" will be undertaken against "someone" considered problematic now...not next week but NOW. That person is not specified but is in the US, in an apartment setting and lives alone. It is a "he" and he works via www. This information is specific to an intent but not specific to a person. The source is impeccable and you know my track record which have parallel sourcing.

THE CALL FOR ASSASSINATION (slightly abridged):

The "project" will be assigned to "parallel contractors" who will make any action appear random and witnesses would suggest Middle Eastern in source. Actions would be carried out in or near the home. We do not hear things like this often (almost never) and so far every warning of this type has been within 24 hours of action and these warnings have proven 100% accurate in the past. Your recent work and profile make us tell you this directly. Please respond with a note that all is normal there. Please consider what can be done while taking any measures you think necessary to avoid this "project". We consider this warning as coming with the highest level "authenticity" and purity of motive, but the subject and message subject and it's specifications were too unusual to be sure of intent.

I am an expert in the field of the "Klan Race" torturing and keeping humans in concentration areas. I need financing for my research as **I am being kept a prisoner myself and I am censored.**

**28/5/08**

I am a former NASA scientist who is researching the existence and agenda of the Martian Klan Race and their Hives in America. I was thrown out by the Martian Klan after refusing to mate with Martian women at NASA and have spent nearly 20 years on the streets of the major "Martian Klan Hive" cities of America being tortured while I study the Martian Klan. I have filed the only Federal Civil Rights lawsuit that exposes the Martian Klan and includes Pres George Bush, Sr. This complaint was filed in 1992 and I was chased across the country and locked up in Las Vegas for a year as a political prisoner where I was chemically sterilized and tortured on a daily basis by the Klan. America is a Martian Klan trap for human beings. We human beings are controlled, enslaved, and exterminated by the Martian Klan. My web magazines are censored and I need public support and funding for my magazines and tv programs.

We have been invaded by a ScumBag Race of Klan Aliens and if you don't tell the Gentiles that we have been invaded and are being assimilated into alien HIVES then you are FRAUDS!

**24/7/08**

If you don't know we are living with an alien race then you do not know anything about life. Call them Sumerians. Call them Anunnaki. Call them Scumbag Klan Aliens. Call the Super Nazis. Call them what you want but they are aliens and they have enslaved Gentiles and are exterminating Gentiles.

I didn't read your response because it is nonsense and I have no time for this time of crap.

Either you know, or you don't. And you obviously don't know. Hope you marry a Martian Klan Cunt and from between her fake legs emerges the alien beings that will cause your heart attack when you reach about 40 years old and the big life insurance policy goes to her and the kids plus they get an additional million for throwing out a Gentile. And yes, I met Alan J. Pakula, Princess Diana, and JFK, Jr and gave them copies of my first TV show that exposed the Martian Klan Race and its agends. They are all dead. Too bad. The Martian Klan uses Mr. Clean to wipe the human stain from the planet Earth.

And, if the Federal courts in Manhattan or Brooklyn had accepted my civil rights lawsuit that exposed the Klan race and slavery in America the WTC would still be standing. How can I say this? Because I am being crucified as their Jesus and I know. Yes, I know.

I have been victimized for two years and would love to help. I am forwarding a message I sent to the NEW YORK TIMES with copies of the Letter to SENATOR LEAHY as documentation supporting the situation.

I am willing to help, despite recent financial hardness caused by stalking. My number and address are below listed. In any case thanks for your work.

**7/4/08**

Dear Sirs,

As some of your journalists have reported in the past and the Washington Post's Sharon Weinberger has reported for years:

<http://www.washingtonpost.com/wp-dyn/content/discussion/2007/01/12/DI2007011201368.html>)

Some classified weapons using RF, microwaves and laser at different frequencies have been illegally used against over 300 civilians in the US and NYC specifically. They have apparently only been tested by Airforce and NATO forces as well as Israeli Army but some unscrupulous manufacturer has 'lost' a few pieces.

I have reports, documentation and photos which I have also given to NYC Police of activities happening near my home at 1000 Woodcrest Avenue, at 164th Street. Investigations have been conducted in the area and I am yet aware of full results but I believe NY Times and other newspapers should look into possible abuse of this technology possibly indiscriminately used by extremist groups or gangs in this area even against NYPD or law enforcement (essentially giving criminals a technical advantage on law enforcement).

My computers, cellphone and private life has been intruded for illegal profit and a sexual harassment suit has been filed (I am gay and street theater and harassment against gay people and minorities has happened often on cameras). I am a former Sergeant in the Italian Army and I was aware of some of this technology for Army used while in the Force.

I am enclosing the article from the Washington Post, a white Paper on the latest tests on this technology and a letter to Congress sent by victims in DC.

I welcome any investigation by the paper and I am willing to share any of my experience and documentation should this not interfere with the current investigations.

Best Regards  
Stefano

**29/3/08**

I have been working for the past few weeks at Sleepy's and things are better than in the past on a personal level. I am training as a manager and I have access to company portal and wonderful team of experts to eventually generate a lot of business for the Company.

The users of Direct Energy Weapons (MK-ULTRA copycats from Italy, connected to low life marijuana and coke drug dealer--and as explained to Ed connected to the Gladio and neonazi funding network) have been experimenting and eavesdropping on me and consequentially on IMPORTANT and RESERVED corporate conversations and details which may have a great commercial impact and be of extreme detriment to a billion-dollar corporation like Sleepy's, if accessed or abused at ANY time.

I obviously cannot inform the management of potential danger from these individuals until the DA has done what they are supposed to do.

The DA should take real attention to this business intrusion and illegal access through the facilities of 2000 Broadhollow Road in Farmingdale and the various showrooms previously indicated in my text messages.

Damaging the health of a series of employees and customers of a very important job creator (with the adequate lawyers) like this may generate a REAL Civil Lawsuit easier to demonstrate, since all facilities are covered by video surveillance. The previous breaches of privacy on my life, my family and my dear ones are also documented and additionally documentable. Well beyond the aggravated sexual harassment case reported to Valentini at the 44<sup>th</sup> District.

Please Denis&Computer Squad in Manhattan, these people are damaging computers (see details sent to Ed) and need to be stopped from the irrational health damage which they pose. Some of these perverted individuals have sprayed liquids similar in composition to LSD 25--I don't even know where someone would ever find stuff like that--with no respect for children and old people.

Latest places of operations observed (plates NY DBZ 3248, ny dtm1428) AT 935 AND 1015 Anderson Avenue, 1001 Woodcrest, next to my home at 1000 Woodcrest Ave. REMEMBER THERE ARE MINORS AND SICK INDIVIDUALS IN MY HOME.

Whatever reason makes me a target for the use of DIRECT ENERGY WEAPONS (white laser, microwave weapons and ionizing and x radiation) has nothing to do with these good people!! There is no reason to torture and submit anyone to psychotronics of any kind.

Congress is also taking awareness of this as well as Legislatures in different states. 630 or so documented victims in this country and elsewhere.

**7/9/08**

My name is Stefano Marco Marescotti and I have been targeted by several individuals using MW and other weapons for over three years both at my old address in NY (1000 Woodycrest avenue--should already be in your database) and at my new address (221 Jackson Ave, 9M, 07030 Hoboken, NJ). My email is [smarescotti@yahoo.com](mailto:smarescotti@yahoo.com) (secured with a special visual, non-alphanumeric password) and my phone is 646/944-2227. You can publish my info if I can be of help.

I will send you a further note with my story and all the documentation I am able to share due to a NYPD investigation. I was the victim of break-ins, my health used to be perfectly fine and I have to suddenly be hospitalized several times.

I am recovering now, but the latest tools seems to be ultrasonic and are very easily detectable due to a strong vibration which disrupts health, sleep and causes sudden inflammation of nerves.

The perpetrators have Italian passports (so do I) and use mainly low-income Dominican or Spanish individuals which I caught on tape and photo (so does the NYPD) to travel with the weapons. The heads of this Fascist group never travel but they seem to take enjoyment in abuse of minors and I have heard verbal claims with street theater that there is an old connection with Mr. Dorigo, an active victim in Italy in the 90s.

Thanks for all you do and as I am recovering I shall contact you again and lend a hand if I can. Thanks, Stefano

**I AM GOING TO ITALY FOR A MONTH AT THE END OF THE WEEK. THE ILLEGAL EXPERIMENTS BY MK-ULTRA COPYCATS ARE STILL BEING CONDUCTED ON A DAILY BASIS AND I HAVE REPORTED RADIATION CHEMICALS AND MICROWAVE LEVELS ARE ALWAYS HIGHER THAN NORMAL MULTIPLE FOLDS**

450 Audubon Ave 10040 is a site of experimental microwave and radiation illegal mk-ultra technology. Small innocent elementary school children and teenagers are radiated with the promise of physical enhancements which will cause CANCER.

FEMA and FBI have been monitoring the almost daily visits in the building with a consistent and perfectly match in the loud street theatre helicopter scan (see Google new inter-departmental agencies effort to scan the use of TF MW) and laser besides the constant spray of chemicals which seem to induce sleeps and makes DEFINITELY mid-size dogs vomit and for several hours. Apts 19 (has a fake Marshall sign, but people are constantly using it) 29 (abused friend of mine who has been driven of previous apartment at 559 West 191 for harassment) and , 19, 25, 24, 49 and 36 have been used with obvious transportation of equipment possibly stored in the boiler-room/and ground levels service apartments of porter and super. Three Italians and small group of very unsophisticated Dominican kids and particularly mid-aged Dominican women and have been used at different levels), but some of the original Italians were partially trained by Italian or governmental money. Occasionally have been often using one of the apartments on the top floor on St. Nicholas Ave to host recruiting parties or store illegal lighting looking equipment.

What are we waiting to get involved and use the last effort of FBI and FEMA to eliminate these Anarchic and Illegal experiments by individuals that have no connection to a governmental program like mk-ultra and are making money abusing children and uneducated Americans. One more detail, some chemicals used before were sprayed one afternoon and through the door and one dog and one cat got sick vomiting all day.

thanks so much for the great work you do for all the victims.

One interesting update to my story started in 2006.

I recently have had some medical problems after spending nights and nights without sleep and decided to move from NYC to Italy where i grew up. I'll be working for an Italian company.

I am accustomed at this point to recognize if someone is stalking me and I noticed someone has followed me from 450 Audubon Avenue, where i lived in NYC to JFK airport and then someone ACTUALLY boarded a plane and still was pointing a device at me even through security. I flew via London to Venice and AS SOON as i indicated to the police in London that someone was behaving erratically and showed them some pictures, the cowards stopped. Unfortunately someone is still pointing devices at me even in

ultrasound devices at me and generating fake bird sounds to make known their presence. No additional device to report so far. Yes, stalking even in Italy. And no I am not crazy, I had myself checked multiple times.

Thanks again for everything. best regards,

**5/1/09**

Happy New Year to all helping out against stalking.

As usual I have to congratulate for the work you do for all victims. I will try to help more as soon as I am settled with my new job in Italy.

I just wanted to update your records with my new address. , since two of the US perpetrators managed to actually follow me to Italy. I do have some nice pics ON THE PLANE and I'll write my story in detail with those pics and other electromagnetic scans ASAP. These people are amateurs (homemade copycats of Mk-ultra stuff) but absolute sociopaths. In the last few years have they have tried to develop higher connections for \$\$ with scarce success I believe. They managed to purchase Ultrasound and old electromagnetic equipment on the black market and started stealing money from credit cards and company files, which gave me the excuse of creating a real investigation still with the NYPD. I managed to find a lot of digital material during their physical and remote computer intrusions. Copycats are disorganized but more dangerous than others for the very same reason. They actually were in possession of radiological material traced by the fire dept. in the Bronx at 1000 Woodycrest and 1008 Woodycrest. Connections to scientology as well. I'll put as much as I can online for your and public view in a few months. The torture and stalking (although with limited technology so far and limited disturbance to me) has continued on the flight (BA 176 11/27/09) AND VERY CLOSE TO MY ADDRESS IN PADOVA, ITALY it appears from a fixed location and one car touring around. As we speak someone is using very large frequency ultrasound creating waves of vibration where there is no electrical equipment in my house.

I also believe that one or two Italian citizens are also trying to get listed in your torture cases to both make you loose credibility (shoud the real victims to to trial) and/or try eventually to eventually obtain some 'compensation' in case governments are indirectly involved in some cases.

My old address used to be

Stefano Marescotti, 450 audubon street apartment 29, New York, NY 10040  
and 1000 woodycrest ave, 10462 bronx, NY, tel +1 646 944 2227

**MY NEW ADDRESS IS**

Stefano Marescotti, Via Faggin 16, 31535 Padova, Tel +39 333 795 6949

I shall speak to a friend of mine who is a ranking official in the Italian police to monitor my home and try to get additional material against these sociopaths.

My best regards,

Stefano Marescotti

PS You can publish whatever part of this note if it helps you. I have nothing to hide if we get to the worldwide criminalization of this equipment.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I would like to draw your attention to some extreme and horrendous criminality being conducted with the involvement of United States Government-related Agencies and the complicity, if not participation, of many other governments, security agencies and/or shadowy organisations - involving the use of DIRECTED ENERGY AND NEUROLOGICAL WEAPONS on defenceless people.

I can confirm that the technical abilities and powers to:-

1. place a human subject under continuous surveillance, no matter where he/she is, from remote locations.
2. continuously monitor a human brain from remote locations, including thought, reaction, motor command, auditory event and visual image reading
3. continuously input directly into a human brain from remote locations, including the ability to override, control and alter consciousness, and to introduce voices, noises, other disturbances, images and “dreams” into the brain
4. directly interfere with, abuse, torture and hit bodies - including performing advanced medical procedures - and objects - from remote locations
5. directly interfere with, alter, insert etc. data, files, communications and legal evidence from remote locations - even during transmission
6. make live TV, and other screens and monitors, two-way – for surveillance, invasion of privacy etc..
7. control the flow of information and orchestrate the media – worldwide.

**ARE ALREADY IN EXISTENCE AND ARE ALREADY BEING ABUSED!**

There is massive ignorance and secrecy regarding this, and victims such as I are being subjected to uncontrolled and unacknowledged torture and mental and physical destruction. This has remained completely unreported and undiscussed publicly. There are many others, all over the world, who are being subjected to similar torture and abuse – some of us are being subjected to the most extreme and totalitarian violations of human rights in human history.

As well as being inhumane and criminal the crimes being committed against us are contrary to the Principles and Values of all the major religions and ethical systems - and yet our appeals for justice, protection, assistance and/or publicity to Government Representatives, Government Officials, Government Agencies, International Organisations, Human Rights Organisations, Universities, Scientific and other Institutions, and the International Media have been almost completely ignored and/or suppressed.

For anyone at all concerned about human rights, liberty, democracy, privacy, the rule of law and ALL aspects and degrees of human freedom, individuality and mental and physical integrity and health this uncontrolled and unacknowledged technology and torture and abuse is intolerable!

Your attention and assistance is urgently needed to halt these atrocities, control and regulate the use of these technologies, and to bring these extremist elements to justice.

Please assist urgently.

SIGNED James F. Marino  
Citizenship: United States Of America

Year Torture/Abuse Began: Illegal Satellite Surveillance Approximately 1980. Overt harassment including torture by way of Directed Energy Weapons and Organized Stalking began in 2003.

However, I've been an NSA satellite prisoner since 1980 when this system was first deployed on a wide scale against the American people—this according to John St. Clair Akwei, a former NSA agent who filed suit against the NSA for its illegal use of its Signals Intelligence program. Google Akwei VS NSA to learn more. Since 2003 my harassment has increased dramatically as I continue to be targeted for remote mind control torture as well as other forms of attack which I have listed below:

For many years I have experienced all of the following. In the cases of having my thoughts read, this is being done on a daily basis by the NSA at the direction of the FBI & Department Of Homeland Security (The FBI was the genesis of these attacks on me).

- \* Microwave hearing
- \* Transmission of specific commands into the subconscious
- \* Visual disturbances, visual hallucinations
- \* Inject words, numbers into brain via electromagnetic radiation waves
- \* Manipulation of emotions
- \* Reading thoughts remotely
- \* Causing pain to any nerve of the body.
- \* Remote manipulation of human behavior from space
- \* Harassment, stress symptoms such as helicopters flying overhead
- \* Seeing, as in a camera, through your eyes, i.e. to see what you see exactly
- \* Control of sleep patterns.
- \* Computer-brain interface, control and communication
- \* Complex control of the brain such as retrieving memories, implanting personalities

Please note that even though these attacks continue to take place against me and have in one way or another for the past 27 years, that I have never been arrested, charged, tried or convicted of any criminal activity.

The following also concerns the FBI's COINTELPRO attacks on my person which began in the early 1980s and which I believe resulted in my being illegally satellite tracked and monitored by the NSA for the past 27 years.

1. The FEDS' Illegal spying of my person by way of NSA audio visual satellites for the past 27 years no matter where I have travelled to including my home. I have also been spied on within the privacy of my own bedroom and bathroom during this entire time.
2. The FEDS' use of these satellites to piggyback their Directed Energy Weaponry from in efforts to torture me both physically and psychologically.
3. The FEDS' use of this technology to target my mind as part of the US Intelligence Community's non consensual cover research and human experimentation program, in which my thoughts have been routinely adversely affected.
4. The FEDS' use of coercion to force my Family into keeping silent about this in order to help the FEDS completely obfuscate any legitimate investigation into these crimes, and to covertly engage in the COINTELPRO psychological warfare operations that the FBI, NSA and DHS have continued to illegal deploy against me.
5. The FEDS' use of a sanctioned network of Organized Stalking Groups to follow and harass me where ever I travel to, through the use of psychological warfare operations. This is commonly reported by myriad others who have been targeted by the US Federal Government for non consensual cover research and human experimentation.
6. The FEDS' assorted tampering and damage to my personal property.

7. The FEDS' use of various forms of calumny orchestrated to destroy my reputation as well as my relationships with my Family and friends.
8. The FEDS' use of electronic devices to illegally access and tamper with my computer as well as hacking into my E-mail accounts at the America Online, Blogger and Websites.
9. The FEDS' tampering with my credit cards in order to get them cancelled.
10. The FEDS' tampering with my medication having replaced legitimate medicine with placebos.
11. The FEDS' attack on my 1<sup>st</sup> Amendment Right To Freedom Of Speech by removing or having hidden all of the articles that I have attempted to publish on the Independent Media Center Websites in efforts to promulgate the FEDS' conspiratorial attacks on my person.
12. The FEDS' circulation of vicious and scandalous rumors in efforts to smear my reputation.
13. The FEDS' illegal eavesdropping on every conversation whether it was in person or by way of electronic means that I have had in the past 27 years -- an outrageous violation of my privacy as well as the privacy of the hundreds of persons with whom I have communicated in that time.

While there are numerous other charges that I plan to file against the FBI, NSA and Homeland Security as a result of their outrageous conduct over the past 27 years (4 years for Homeland Security who was later drawn into this criminal conspiracy), I believe that the ones that I have included here are damning enough proof of the precedent setting civil rights violations that these agencies have perpetrated against me; crimes in which due process of law has been completely disregarded.

My article covers harrasment by the Federal Bureau Of Investigation. Harrassment which is on par with that of Ex-FBI Agent Geral Sosbee.

## **TORTURED BY THE FBI. JAMES MARINO'S ACCOUNT**

**(ENGLISH, ESPAÑOL, FRANÇAIS)**

### **ENGLISHVERSION**

**4/18/2005**

Hello, My Name is James F. Marino. I am an American citizen and I feel that it is incumbent upon me to report terrible abuses that my family and I have suffered at the hands of the United States Government. This is a situation which at first sounds stranger than fiction, but I can assure the reader, that every event that I have experienced has not only occurred, but does so in one form or another twenty four hours a day, seven days a week. Please read on.

The FBI continues this day to use their psychological operations in their effort to force me to commit suicide. They have subjected me to this covert form of torture for two years now and it shows no sign of ending. The more research I do in regard to their misdeeds, the more I find that it is just the tip of the iceberg. Their corruption is so wide-spread and involves so many different branches of government that if it were ever to be made public, the US Government as we know it would be subjected to a criminal investigation unparalleled in world history. I can no longer remain silent about what I have learned. Consequently, there is no way that I can possibly be allowed to continue to exist in society knowing what I know about them. They will either find a way to arrest me, continue their psychological torture in an effort to drive me insane, or figure out a way to murder me but in a way in which they have plausible deniability. As they have been unsuccessful in any of the aforementioned attempts (so far), they have sought to discredit and destroy my reputation with my family as well as the community at large. They have done so through the use of black propaganda, spreading whatever vicious lies their feeble minds can muster. If the FBI has difficulty in pursuing a case against a target, they will leak information to the public as a form of character assassination. The FBI's actions are not in anyway related to finding the truth, but rather, a form of psychological control to manipulate the desired outcome that they seek. They are quite proficient at the art of mind manipulation, and what is more, they enjoy it.

This control includes the use of fabricated conversations between my parents and family (at the direction of the

FBI) to discredit me whenever possible. The FBI even forces my family (through the use of coercion) to participate in the psychological operations that the FBI is conducting against me. What my family does not understand is that the more they cooperate with the FBI in this conspiracy, the deeper they involve themselves in criminal activities. This is how the FBI gains control of people. They corrupt them. My family, the most honest, loving and decent people I have ever known, are being controlled (through the use of intimidation and blackmail) by the FBI, and used as agent provocateurs in an attempt to lure me into committing crimes. The FBI has tremendous power. With this power they have access to unlimited resources including an arsenal of technologically advanced surveillance equipment that American society as a whole cannot begin to comprehend. The FBI also has access to psychotronic weapons which can be used to physically torture a selected target, at will. I have had the FBI use these weapons against me on a number of occasions and know of many other individuals who have also been targeted for this torture. There is a mind control forums page on the Internet which includes the testimonies of at least 1600 people worldwide (including many from the United States) who have been abused by government mind control experiments. Psychotronic weapons are used in combination with psychological operations to torture anyone that the FBI chooses to target. They are a vicious combination, intended to drive a target insane. They can also make the target quite angry, as they have in my case. No one likes to be abused, so just imagine what it is like to be abused in every aspect of your life without ever having a break from it. It is cruelty beyond words.

If the FBI were (in a court of law) to claim that they did not use psychological torture against me, it would in fact be perjury and a complete fraud on the court. Psychological operations are a matter of record and used by the FBI when they are having difficulty in cracking a case. Please note that it is illegal for the government to use psyops on its citizens. Psyops, as they are known by those who employ them (FBI, CIA, US armed forces etc.), are among the cruelest and most inhuman tortures known to mankind. Worst of all, they are so brilliantly devised that they can, if necessary, give those who utilize them plausible deniability. However, I can cite numerous instances of psyop abuse as it applies to me, which would fit well into the very definition of psychological operations. If the FBI claimed that they did not interfere with my communication with others by way of intercepting my E-mails, that too would be perjury. Moreover, if the FBI denied the use of others in my own circle (family and friends, community) as agent provocateurs, through the use of coercion (blackmail) or black propaganda, they would be committing perjury, and a fraud on the court.

There have been well documented instances where the FBI has committed fraud on the court, so there has been a precedent set for this breach of faith on the American Judicial system. Please keep in mind that I have never even been charged with a crime, yet the FBI through the use of these psyops as well as surreptitious entry has in many instances already violated my constitutional rights. An ex- FBI agent by the name of Geral Sosbee has been the target of the FBI's psychological operations for over eight years, since reporting to his superiors regarding serious felonies committed by other FBI agents. As a result of his forthrightness, Geral was threatened to resign from the FBI, or be committed to a psychiatric facility. Out of understandable fear, Geral complied with the FBI's request and resigned. Sadly, that was not the end of his ordeal with them. Wherever he went to start a new life, the FBI stalked him, conspiring to destroy any chance that he had at happiness. This has been the penalty that Geral has had to pay for being a whistleblower. It is clear from his accounts, that the FBI is more interested in protecting itself than in acknowledging any wrongdoing by its agents.

The harassment eventually took its toll on his marriage which ended in divorce. Geral was chased from job to job and state to state only to have the FBI sabotage any success that he achieved. Any friends he made were quickly scared off as the FBI would poison these people against Geral. I have personally had the FBI do this to me on many occasions. As a result they have ruined every friendship that I have had in recent years. When he fled the country to avoid their abuse, the FBI was instrumental in having thugs in their employ kidnap Geral and literally hold him hostage. This was beyond the psychological captive that they made of him and many others, including myself. He was physically tied up by these outsourced FBI operatives and held captive for a time as a source of intimidation. It did not work. When he returned to the United States, the FBI went out of its way to financially bankrupt him, which forced him to lose his residence for a time. Geral ended up living in his car. Since that time he has compiled a list of FBI crimes against him including psychological torture and harassment so startling, that they would at the very least shock the American public, and definitely cause them to lose whatever trust they have placed in this organization.

I have been to Geral's Website which discusses in great detail the abuses which he (and an ex-CIA agent, Barbara Hartwell) has suffered at the hands of these immoral and vindictive cowards. I have even E-mailed him on a few occasions to let him know that he has some support for all that he has been forced to endure. However, I question whether or not the E-mails that I have sent Geral ever actually reached him. I believe without a doubt that all of the abuse that Geral has suffered at the hands of the FBI is true. However, I seriously doubt that the E-mails I sent to

him were ever received by him. Furthermore, I believe that the FBI intercepted my E-mails to him and in fact, answered for him. If the FBI has done this, there can be no doubt that they have committed a very serious criminal offense. Why would they do this? The FBI's goal behind psychological operations is to mentally incapacitate those whom they target. If targets are allowed to hear from other targets who can support and empathize with their abuse, then that would interfere with the FBI's goal. Allen L. Barker is another psyops target who has had his life destroyed by the FBI. As with Geral, his marriage eventually failed under the constant strain that the FBI assaults placed on it. My attempt to reach him via E-mail has been unsuccessful. It is my belief that my E-mail to him was either intercepted by the FBI, that Allen has been threatened not to respond to me, or that something has happened to him. No one who has been subjected to this type of vicious torture would ever voluntarily refuse to speak with another torture victim.

As with Geral and Allen, my relationship with my family was eventually destroyed by the FBI's constant harassment. As a result, my family found it less painful to go along with the FBI than to be constantly tormented by them. Who could blame them? -- when you're battling with a raging river it is only natural to want to swim with the current rather than against it once you are exhausted, even if the current is taking you to a malevolent place. I know that my family are wonderful people though, and when this nightmarish hell that the FBI has put them through is over, they will be OK. I can no longer deal with the pain that losing them has caused me, so I just try to think back to the good times that we had. It is all that I have left of them. The FBI's continued abuse of them as well as myself took the ultimate toll. This constant abuse through the use of time, space and force is what makes the FBI so formidable to those who oppose it. They simply wear you down through the use of this demonic strategy. Just ask anyone who has been the target of an FBI vehicle surveillance team.

As author and former FBI agent Lee Adams wrote, "an FBI vehicle surveillance team does not just follow you, they surround you. They become part of your environment." Mr. Adams goes on to say that these teams become a part of your daily routine and never let you out of their sight. I can attest to this, as they have hounded me for the past two years. However, what I was unaware of prior to that time was that the FBI surveillance teams were around me for a much longer period of time (perhaps twenty or so years). Their surveillance included the surreptitious entry of my parents' home, where electronic surveillance cameras were installed throughout the house. This type of covert surveillance, a clear violation of the 4th Amendment of the Constitution, allowed them to know where I was going before I ever arrived. It also enabled them to listen in on private conversations that my family and I had, which had absolutely nothing to do with crime. This blatant invasion of privacy on every conversation that took place, including both phone and Internet conversations also gave the FBI the upper hand in knowing where I was traveling in my car, before I ever left my home. However, no matter where I went, I was simply unaware of them because they blend in to society beautifully. They don't drive FBI bureau cars when they are keeping you under surveillance. They drive SUV's sports cars, luxury sedans, tractor trailers, taxicabs, motorcycles, vans, school buses, ambulances etc. Do you get the picture? They are indistinguishable from the rest of society, which is why they are able to go undetected by their targets. Keep in mind that the targets who are the focus of these teams have not committed any crimes, yet can be hounded repeatedly and subjected to constant attempts at entrapment, a clear violation of the 5th Amendment to the United States Constitution.

Most FBI agents are so well programmed by the FBI that they can take part in the torture of their targets without having the least bit of feeling for them. This programming frees them from human emotion so that they can carry on the sadistic protocols that are in direct contrast to the pristine personas that they portray to the American people. Of course, their control of the media goes a long way to perpetuating this fraud on our society. After all, if Peter Jennings or Deborah Norville tell you a segment of news is true, then it must be so. After all, who would question these pillars of evening entertainment? The FBI must maintain credibility though and that means demonstrating that they are human and can make mistakes. If there is some impropriety by an agent or employee who is deemed expendable, the bureau will then make a public example of him/her to accomplish this. However, this is a rare event, and the more serious charges leveled at the FBI never come from the upper echelon of the bureau itself, but rather, from a source that has exposed some crime that they have discovered in regard to the FBI. These sources can be either FBI agents themselves (known as whistleblowers) or members of society who have witnessed the victimization of someone by the bureau, or who themselves have been victims of the bureau. Most people who suffer abuses by this organization are too terrified of it to ever come forward. FBI reprisals would be of a far too devastating nature to deal with. Just ask those who have done so only to have their lives destroyed.

FBI whistleblowers can be in one of two categories: those who report serious crimes which could actually threaten the existence of the FBI (Ex-FBI agent Geral Sosbee) or those who report crimes of the bureau which can be rationalized and later accepted by the American people. FBI agent, Colleen Rowley is a good example of the second type. Her report to FBI chief, William Mueller makes it sound as if the FBI was careless in the intelligence

data that they obtained leading to an ill-fated 9/11. However, it in no way implicates them in any type of conspiracy. On the other hand, Sosbee's information implicates the FBI in a conspiracy that was responsible for 9/11. If the latter were proven, the already existent lack of public support for the FBI compounded by a conspiracy of this magnitude would surely lead to a public call for the demise of the FBI. Hence, the need to secure the Sosbee breach by either murdering him or driving him insane through the use of psyops. In the past two years I have spent much time researching how and why the FBI was harassing my family and myself. The education that I have received as a result of this has caused me tremendous distress. There are surely many FBI cover-ups that have been obscured from the public eye, however, many were so blatantly obvious that it would take complete denial to ignore them. There is good reason to suspect FBI complicity in the Oklahoma City bombing, the TWA Flight 800 bombing, and the 9/11 disaster.

The victims of 9/11 -- Lots of inconsistencies including why there is no videotape of the 9/11 hijackers at Logan airport. There should be video of every person who enters and leaves the Logan airport terminal, so why is there no video of the purported hijackers entering Logan on the day in which they were supposed to hijack the planes? One would think that the FBI would have had the tape of the hijackers' faces plastered all over the network newscasts. What about the two eyewitness accounts of men working on the cleanup of the World Trade Center (Mike Bellone and Nick DiMasi) stating that they had actually seen three of the four voice recorders found from both the jets that hit the World Trade Center. They were by the FBI to keep quiet about it. Are the American people expected to believe that these heavy duty metal boxes were destroyed when the planes hit the WTC towers, but that an ID card from one of the "FBI identified" hijackers was found in nearly perfect condition just a few blocks away? That laminated coating must be as fireproof as asbestos! Of course, as is their standard response, the FBI denies that the black boxes were ever found.

Also, another missing flight recorder for flight 93, which was reported to have been crashed by the hijackers but appears to have been deliberately shot down by the United States Airforce. And what about the victims of TWA Flight 800, shot down by a missile over the Atlantic Ocean in 1996. Early reports by many eyewitnesses recounted seeing a flare from the ground head upwards toward flight 800 causing the subsequent explosion. However, The FBI was quick to kill this story and over the course of time came up with some totally contrived tale about the gas tank on the plane igniting. This is about as believable as Lee Harvey Oswald being the lone assassin in the Kennedy assassination, if in fact Oswald played any key role at all, other than that of patsy. And the mysterious assassin's bullet which blew the right side of President John F. Kennedy's head off, appeared in perfect condition on a stretcher found at Parkland Memorial Hospital. Another massive cover-up by the FBI/CIA. Just ask James Sanders, author of "The Downing Of Flight 800" what happened to him and his wife after writing about the conspiracy surrounding the destruction of this aircraft. They were both soon visited by the FBI, and subsequently charged with and convicted of conspiracy. So much for voicing your opinions in this country and for the 1st Amendment, which the government says is still applicable. If it's applicable, why were James and his wife arrested? The government coverup continues. As far as 9/11 is concerned, who would have had the most to gain by having terrorism on American soil? Saddam Hussein and his sons? He's in prison for life and his sons are both dead. Ossama Bin Ladin? Where is he anyway? The FBI would have us believe that after three and a half years of nonstop searching, Bin Laden is still missing. Hard to believe? You damn well bet it is.

What about the "weapons of mass destruction" that the United States invaded Afghanistan to destroy. The United States never found any weapons of mass destruction in Afghanistan because they never existed. So why did the United States invade Afghanistan? Who had the most to gain from the 9/11 attack on the World Trade Center? The United States Government, by obtaining through the use of terror and the subsequent fear which results from it, complete dominance over the American people. Since 9/11 and the creation of the Patriot Act (as Fascist a law as there has ever been), Americans no longer have any protection from the 1st, 4th or 5th Amendments of the United States Constitution. That is what happens when a law is passed through executive order and by-passes Congress. No checks and balances. In other words, it is a law which can be abused by the authorities at any time they care to, for whatever reasons they deem necessary. Because the Patriot Act was enacted through executive order, the FBI no longer needs probable cause to search through American's personal information. Not that probable cause was ever in favor of the average American citizen. It always favored the FBI, as it was a judgment call on their part.

Even prior to the Patriot Act, the FBI was busy violating the law including their illicit black bag jobs (breaking and entering into private homes) and installing bugs and electronic video surveillance equipment for questionable "fishing expeditions." Is it any wonder why the American people are so fearful and paranoid at the very mention of the FBI, especially now that they can go on these "expeditions" legally? American's take note, your privacy in this country has never before been in the jeopardy that it is now. The confidential records which you thought were private can now be accessed by the FBI, whenever they want. Medical records, bank records, your credit card

information, the library books that you read, even your own DNA, all accessible to the FBI at a whim. Remember, it is all in a file on some computer just ready to be accessed. Let's not even get into your Internet Web surfing. The FEDS have access to that as well and are working on forcing the Internet Service Providers to restructure Internet architecture to make it easier to spy on you. And that is not the end of the story, either. Your home privacy can be invaded anytime the FBI deems it necessary, in the interest of domestic terrorism. Did you realize that under the new Patriot Act that if you attend a convention or perhaps even a peaceful political demonstration that the FBI can label you a terrorist? Believe it or not, it is true. Just go to an Internet search engine and type in Patriot Act. You will find several Websites that actually cover the document in its entirety. Read it and you will be stunned to find that the Patriot Act basically nullifies the United States Constitution.

The FBI has been infiltrating peace groups in the United States for decades with the intention of destroying them. Operation COINTELPRO was what is known in FBI terms as a black operation. A covert government program created to disrupt and destroy the actions and lives of any persons they claimed were dissidents. One of the more famous victims of COINTELPRO was Dr. Martin Luther King Jr.. He was targeted by the then head of the bureau, none other than J. Edgar Hoover himself. King was repeatedly threatened by the FBI. He was even blackmailed by them in an attempt to get him to commit suicide, just prior to one of his greatest and well known speaking engagements. What you will never realize is the level of sophistication of the surveillance equipment that the FEDS have at their disposal. Cameras that can see through your ceiling and invade the privacy of your boudoir. Yes, and it gets even worse. The FEDS can videotape you in your most private moments. Just envision yourself in the shower or on your commode as the FBI videotapes you for posterity. Just imagine the type of blackmail that they could use against you if they chose to. Fellow Americans hold onto your hats. The FBI has been illegally kicking innocent derriers and taking names for decades. The only difference today is that the Fascist Patriot Act now makes it legal.

I was once under the false assumption that as American citizens, we have a Constitution which protects our rights. It has been painful to learn that this is simply not the case. If you are caught in the commission of a crime within the United States, you might expect to receive a trial by a jury of your peers, which to a degree is subject to certain constitutional rights. However, if you have not committed a crime but are a source of curiosity to the federal government, FBI agents can break into your home (surreptitious entry) install hidden surveillance cameras and bugs and then embark on what they like to refer to (and as I previously mentioned) as a "fishing expedition." As stated, the recently passed Patriot Act only furthers this type of constitutional abuse. The FBI can now sit back and wait for you to implicate yourself in a crime before they react, a blatant violation of the 5th Amendment to the United States Constitution. If you don't commit a crime, they can use entrapment to coerce you to commit crimes that you would otherwise not. Sometimes (in my case) this entrapment is so blatant, so extreme, that the FBI is basically complicit in the crime itself. Furthermore, thanks to hi-tech surveillance they don't even have to follow you out of your home any longer. Your privacy can be violated in ways unheard of, at least, unheard of in a country which presents itself to its citizens and the rest of the world as a Democracy. The FBI has for decades spied on its citizens including famous stars and those in government, to find out what skeletons they had rattling around in their closets. This can come in handy for use by the FBI to use as coercion. They love to use sexual blackmail to influence those people who can be of help to them. Blackmail, especially of a devastating sort is the FBI's stock in trade. Just imagine that you are the defendant in a federal court where the judge presiding over your case has been under surreptitious surveillance by the FBI. Why is he under surveillance? It could be any number of reasons. Could it be that he has been accused of taking a bribe, or maybe even of having an extra marital affair? Maybe it's something more benign, like not agreeing with some aspect of government that the FBI is uncomfortable with.

The trial is going well and you are pleased thus far with due process. Suddenly, the trial takes a suspicious turn and you and your attorney now find yourselves in a losing battle. Something behind the scene has happened, but you are just not quite sure what it is. Could it be that the judge presiding over your case has been anonymously contacted by someone threatening to reveal something that could cause him some sort of embarrassment, perhaps even something scandalous? Will it impact the way in which he handles the trial? Judges are human and susceptible to all that that implies. Of course it can effect the outcome of a trial. It has many times before. Sadly, this type of abuse, this blatant invasion of privacy, is far more Fascist in nature than it is Democratic, and truly representative of what the United States of America has become. Bottom line: You have constitutional rights as long as the government says you do -- translation -- you don't have constitutional rights, at least not anymore.

I did say that I was distressed by what I have learned, not only in regard to the lack of a constitution in the United States, but also, because I now know the truth about the American government and its true agenda. In this case, it is not just the American government, but a conspiracy between the American government and a number of foreign governments whose goal is to create a New World Order -- a world order in which this conglomerate will have control over the rest of the world's population. This operation is one of extreme complexity and is in many

instances not even known by many of our own Senators and Congressman. It certainly isn't known to the world at large or to most of the American people. This group has been in existence for a good part of the twentieth century and is now close to accomplishing their objective. What is frightening is that most people rightfully cringe at the memory of the Jewish Holocaust, an event so horrible that we tell ourselves that it could never happen again. Yet it is happening again. It is happening in Africa; it happened in Croatia in ways just as atrocious as the Holocaust. It will continue to happen on a large scale around the world, but in certain parts of the world in not so obvious a way. While will it happen? It will do so because one of the goals of the New World Order is to reduce the size of the world's population, to protect the dwindling natural resources that are needed for human survival.

A Darwinist type of situation will be played out here, as only the wealthy and hence those who can afford the power needed to maintain control will survive. They will do so at the expense of the rest of us. It will not happen overnight, but within the next two decades or so these forces will change the course of world history, and not for the better. George Orwell's concept of the world he described in his novel 1984, appears to be far more of a reality than anyone could have possibly realized. While he is thus far remembered as a famous novelist, his accurate portrayal of a frightening world in which free thought is in and of itself a crime, may force people from around the world to ultimately acknowledge him as more of a prophet. Those of the New World Order have learned the lessons of the Nazi's well, though. In America, they will not exterminate humans in the same way that the Nazis did the Jews. That is far too obvious and would incite a revolution. Instead, the new type of extermination will be just as nefarious but far more covert. There exists, a method of mind control which can be used on unwitting mass populations to control and thus enslave them. I have been subjected to this technology. I am a US citizen and have experienced this abuse within the United States, so I can therefore deduce that the United States government maintains this technology. Although it is doubtful that they would ever admit this to the public, countries around the world, including the our own, have used this technology to experiment on their own unwitting citizens with dier consequences. It is this type of mind control which the NWO will use to escalate its plot to subvert American society and hence the world's way of life.

For those of us who are already aware of this, our time for free thought is nearing an end. Most will suffer in prisons or be tortured through the use of psychological operations and psychotronics, and ultimately murdered for our individuality. Those functioning in society will be used to contribute to the designs of the New World Order, yet will remain unaware of it. Their reward will be the delusion that they are actually free. They will live a life more controlled then they could possibly imagine, and if by some chance any of them actually realize that they have been the subjects of non consensual experimentation, they will one way or another be silenced to prevent them from alerting others.

Some may call what I have written here the act of a conspiratorial nut. However, I have experienced first hand the FBI's use of both psychological operations as well as psychotronic weaponry, and can attest to the fact that they are not only wickedly effective torture devices, but also used on a fairly large scale. It was my suffering which forced me to look for others who were also being abused by the United States government. Thanks to the Internet, a communication tool that terrifies organizations like the FBI, not only because of the freedom that it represents, but also because they have limited control over its use, I did not have to look far to find many other victims of these types of abuses. One thing is for certain. The United States government will surely do whatever it takes to destroy any credibility that I and others like me have.

The signs of a New World Order are all around us. It only takes a casual observer to notice that since 9/11, our country as we knew it has changed irrevocably. We are now for all intents and purposes a police state. A not so long ago a trip that I took into Manhattan proved this, as US Army troops with automatic weapons patrolled our city streets. The scene was more reminiscent of some war torn country then that of our own United States of America. I even caught a glimpse of a US tank which was on display. One must only examine the past to learn that the most atrocious acts ever perpetrated on humankind have been done so out of paranoia and fear. As Americans, we have always associated these acts of terrorism with other countries, never our own. However, if the United States government, our own government, a government created by the people for the people, has been subverted, and the terrorist acts which have occurred on our own soil were perpetrated by it in an effort to gain ultimate control over its citizens, then we have been duped by the best con-artists of all time. We have given up ourselves to the country that promised all who were born or immigrated here, the right to be free. Maybe the term conspiracy theorist will someday take on a different meaning then its present one. Perhaps something less negative, like barometer of the future.

### **TESTIMONIO PARCIAL DE J. MARINO TRADUCIDO POR RUDY ANDRIA**

#### **TORTURADO POR EL FBI**

**18 de abril de 2005**

Mi artículo informa sobre el acoso por el FBI. Acoso idéntico al del antiguo agente del FBI, Geral Sosbee.

Buenos días, me llamo James F. Marino. Soy ciudadano americano y considero que es de mi deber informarles sobre las terribles torturas que el Gobierno americano hace sufrir a mi familia e a mí. Es una situación que, a primera vista, parece más extraña que la ficción, pero puedo garantizar al lector que cada acontecimiento que viví no sólo se produjo, sino que sucedió de una manera o de otra, veinticuatro horas al día cada semana. Por favor lean lo que sigue.

El FBI sigue a la hora actual sus operaciones psicológicas con el fin de impulsarme al suicidio. Me someten, desde hace dos años hasta hoy, a este tipo de tortura secreta, que no muestra ninguna señal de final. Cuanto más profundizo mis investigaciones sobre sus fechorías, más constato que es sólo la parte emergente del iceberg. Su corrupción está tan extendida e implica a tantos sectores del Gobierno que si tuviesen que hacerse públicas algún día, someterían al Gobierno americano, como lo sabemos, a una investigación criminal inigualada en la historia mundial. No puedo mantener más el silencio sobre lo que aprendí. En consecuencia, no hay ningún medio por el que yo pueda seguir manteniendo mi existencia en la sociedad, sabiendo todo lo que sé al respecto. Encontrarán una manera de detenerme, continuarán su tortura psicológica para volverme loco, o imaginaran una manera de asesinarme ( pero preservando su latitud de oponer un mentís ).

Como hasta ahora han fallado en todas las tentativas mencionadas arriba, intentaron desacreditarme y destruir mi

reputación en mi familia y en toda la comunidad. Por eso, recurrieron a la propaganda difamatoria, extendiendo todas las mentiras viciosas que sus mentes embotadas podían concebir. Si el FBI tiene dificultades para poner un pleito a su objetivo, revelarán al público informaciones que destruirán completamente la reputación de este objetivo. Las acciones del FBI no son concebidas nunca para encontrar la verdad, sino que son más bien, una forma de control psicológico para atraer los resultados que desean. Son totalmente competentes en el arte de la manipulación mental, y aún peor, encuentran placer en ello.

Esta manipulación incluye la utilización por el FBI de conversaciones inventadas de toda pieza entre mis padres y mi familia para desacreditarme en la medida de lo posible. El FBI llega a forzar a mi familia (coerción) a participar en las operaciones psicológicas que llevan a cabo contra mí. Lo que mi familia no comprende es que cuanto más coopera con el FBI en esta conspiración, más se implica completamente en actividades criminales. Es así como el FBI llega a controlar a la gente. Los corrompen. Los miembros de mi familia que son las personas más honestas, más afectuosas y más decentes que nunca he conocido son controlados (por intimidación y chantaje) por el FBI, y son usados como agentes provocadores, con el fin de empujarme a cometer crímenes. El FBI tiene un enorme poder. Este poder les da acceso a recursos ilimitados que incluyen un arsenal de equipamientos de vigilancia de tecnología avanzada que la sociedad americana en su conjunto no puede aún comprender. El FBI tiene también acceso a las armas psicotrónicas utilizadas para torturar físicamente, a discreción, a la persona elegida como objetivo. Constaté la utilización por el FBI de estas armas contra mí, en varias ocasiones, y conozco a muchos otros individuos que son dirigidos también hacia esta tortura. Existe un foro sobre el control mental en Internet, donde figuran los testimonios de al menos 1600 personas en todo el mundo (varias de ellas vienen de los Estados Unidos) que fueron torturadas por experiencias gubernamentales de control mental. Se utilizan algunas armas psicotrónicas en operaciones psicológicas para torturar a todo individuo quien el FBI ha elegido como blanco. Son medios viciosos destinados a conducir al blanco a la demencia. Pueden también poner el objetivo en un estado de furia extrema, como a menudo ha sido mi caso. A nadie le gusta ser torturado, se imagina pues lo que significa ser torturado, en la integridad de su vida, sin tregua nunca. Es una crueldad inefable.

Si el FBI tuviera (ante un tribunal) que afirmar que no usaron la tortura psicológica contra mí, esto sería de hecho un perjurio y un fraude total en un tribunal. Las operaciones psicológicas son hechos que constan en los registros y son usadas por el FBI cuando tienen dificultad para solucionar un caso. Por favor noten que es ilegal para el gobierno usar operaciones psicológicas con sus ciudadanos. Cuando las operaciones psicológicas son conocidas por aquellos que los emplean (FBI, CIA, fuerzas armadas estadounidenses etc.), figuran entre las torturas más crueles y más inhumanas conocidas por la humanidad. Lo peor de todo, son tan gloriosamente ideadas que pueden, cuando es necesario, proporcionar a los que las utilizan toda latitud de oponer un mentís.

Sin embargo, puedo citar numerosos casos de abuso de operaciones psicológicas que se aplican a mí, y que cabrían bien en la misma definición de operaciones psicológicas. Si el FBI afirmara que ellos no interfirieron con mi comunicación con otros por vía de la interceptación de mis correos electrónicos, también sería un perjurio. Por otra parte, si el FBI negara la utilización de otras personas de mi propio medio ambiente (familia, amigos, comunidad) como provocadores, utilizando la coerción, el chantaje o la propaganda difamatoria, ellos se harían culpables de perjurio y de fraude ante el tribunal.

Hubo ejemplos bien documentados donde el FBI se hizo culpable de fraude al tribunal. Hubo pues precedente de este acto de deslealtad contra el sistema judicial americano. Por favor tengan presente que nunca fui culpable de un crimen, y sin embargo, por la utilización de estas operaciones psicológicas y por sus invasiones subrepticias, el FBI ha, en muchas ocasiones, ya violado mis derechos políticos. Un antiguo agente del FBI de nombre Geral Sosbee es blanco de las operaciones psicológicas del FBI desde más de ocho años, por denunciar a sus superiores los graves crímenes cometidos por otros agentes del FBI. Debido a su franqueza, Geral ha sido amenazado con la expulsión del FBI, o con ser ingresado de oficio en un servicio psiquiátrico. Por temor comprensible, Geral respondió a la petición del FBI y dimitió. Por desgracia, esto no fue el fin de su calvario. Por todas partes donde él fue para comenzar una nueva vida, el FBI le hostiga, haciendo todo para destruir cada oportunidad que se presenta en su camino para acceder a la felicidad. Eso fue el precio que Geral debió pagar por haber sido denunciador de ilegalidades (o whistleblower en inglés). Es claro con la historia de Geral que la preocupación mayor del FBI es protegerse y no reconocer una injusticia cometida por sus agentes.

El acoso acabó por arruinar su matrimonio que se concluyó por el divorcio. Geral ha sido echado de un empleo al otro y de un estado al otro, sólo por haber denunciado el sabotaje por el FBI de cada éxito que resultaba de sus esfuerzos. Todos los amigos que se hizo fueron alejados rápidamente de él, porque el FBI llevaba contra Geral una campaña de intoxicación ante estas personas. Ví personalmente el FBI actuar así contra mí, repetidas veces. De este hecho, destruyeron todas las relaciones amistosas que pude tener, durante estos últimos años. Cuando Geral se salvó del país para evitar sus torturas, el FBI se esforzaba por tener golfos a su servicio para llevarse a Geral y secuestrarle literalmente. Esto iba más allá del simple estatuto de preso psicológico en el qué estaban Geral y

muchos otros, incluido yo mismo . Físicamente ha sido atado por estos empleados externos del FBI y mantenido encarcelado por algún tiempo, como fuente de intimidación. Esto no funcionó. Cuando volvió a los Estados Unidos, el FBI revolió Roma con Santiago para arruinarlo financieramente, lo que lo forzó por perder su residencia durante cierto tiempo. Geral acabó por vivir en su coche. Desde aquel tiempo ha compilado una lista de los crímenes del FBI contra él, incluyendo la tortura psicológica y el hostigamiento tan alarmantes que al menos asombrarían el público americano, y de modo definitivo provocarían la pérdida de la confianza que han colocado en esta institución.

He sido al sitio Web de Geral que habla en el gran detalle de los abusos que él y una ex-agente de la CIA, Barbara Hartwell han sufrido en las manos de estos cobardes inmorales y vengativos. Aún le he enviado un correo electrónico en unas ocasiones para informarle que él tiene algún apoyo con todo lo que le han forzado a aguantar. Sin embargo, me pregunto si realmente los correos electrónicos que había enviado a Geral le llegaron. Creo sin alguna duda que todo el abuso que Geral ha sufrido en las manos del FBI es verdadero. Sin embargo, creo que el FBI interceptó mis correos electrónicos y de hecho, contestó para él. Si efectivamente el FBI hubiera hecho eso, sería sin ninguna duda una ofensa criminal muy grave. ¿Por qué harían esto? El objetivo del FBI detrás de las operaciones psicológicas es incapacitar mentalmente a los que quieren apuntar. Si permiten a objetivos tener noticias de otros objetivos que pueden ofrecer apoyo y sentir empatía con su abuso, pues esto interferiría con los planes del FBI . Allen L. Barker es otro objetivo de operaciones psicológicas que ha visto su vida destruida por el FBI. Como en el caso de Geral, su matrimonio al final fracasó bajo la tensión constante provocada por los asaltos del FBI. Mi tentativa de contactarlo vía el correo electrónico ha sido sin éxito. Estoy convencido de que mi correo electrónico a él fue o interceptado por el FBI o que Allen ha sido amenazado para no responderme, o que algo le ha pasado. Cualquiera que ha sido sujetado a este tipo de tortura viciosa nunca de modo voluntario rechazaría hablar con otra víctima de tortura.

Como con Geral y Allen, mi relación con mi familia fue al final arruinada por el acoso constante del FBI. Como consiguiente, mi familia encontró menos doloroso ir junto con el FBI que ser constantemente atormentada por ellos. ¿Quién podría culparlos? Cuando usted se enfrenta con un río en furia, es muy natural querer nadar con la corriente más bien que contra ella una vez que usted esté agotado, aún si la corriente le lleva a un lugar maléfico. Sin embargo, sé que mi familia es gente maravillosa , y cuando acabe este infierno de pesadilla por el cual el FBI les ha puesto , ellos estarán bien. No puedo más aguantar el dolor que la pérdida de ellos me ha causado, sólo trato de recordar los lindos tiempos que tuvimos juntos. Es todo lo que he conservado de ellos. Este maltrato constante por el uso del tiempo, del espacio y de la fuerza es lo que hace el FBI tan temible a aquellos que se oponen a ello. Les agotan simplemente y les cansan hasta rendir por el uso de esta estrategia demoníaca. Les basta sólo con preguntar a cualquier persona que ha sido el objetivo de un equipo de vigilancia del FBI.

**Mon article relate le harcèlement par le FBI . Harcèlement identique à celui de l' Ex-agent du FBI, Geral Sosbee.**

#### **TORTURÉ PAR LE FBI**

**18 avril 2005**

Bonjour, je m'appelle James F. Marino. Je suis citoyen américain et j'estime qu'il est de mon devoir de rapporter les abus terribles que ma famille et moi avons soufferts entre les mains du gouvernement américain. C'est une situation qui paraît plus étrange que la fiction, au premier abord, mais je peux assurer le lecteur que chaque événement que j'ai vécu non seulement a eu lieu, mais aussi l'a été, d'une manière ou d'une autre, vingt-quatre heures sur vingt-quatre et sept jours sur sept. Veuillez lire ce qui suit.

Le FBI continue à l'heure actuelle ses opérations psychologiques dans le but de me pousser au suicide. Ils me soumettent, depuis deux ans maintenant, à ce type de torture secrète, qui ne donne aucun signe de fin. Plus j'approfondis mes recherches sur leurs méfaits, plus je constate que ce n'est que la partie émergée du iceberg. Leur corruption est si répandue et implique tant de secteurs du gouvernement que, si elle devait être rendue publique un jour, le gouvernement américain, comme nous le savons, serait soumis à une enquête criminelle inégalée dans l'histoire mondiale. Je ne peux plus garder le silence sur ce que j'ai appris. Par conséquent, il n'y a aucun moyen pour moi d'être autorisé à continuer mon existence dans la société, avec tout ce que je sais à leur sujet. Ils trouveront une façon de me faire arrêter, de continuer leur torture psychologique pour me rendre fou, ou imaginer

un moyen de m'assassiner (tout en préservant leur latitude d'opposer un démenti ). Comme ils ont, jusqu'ici, échoué dans toutes leurs tentatives mentionnées ci-dessus, ils ont cherché à me discréditer et détruire ma réputation auprès de ma famille ainsi qu'auprès de la communauté dans son ensemble. Ils ont, pour ce faire, eu recours à la propagande diffamatoire, répandant tout type de mensonges vicieux que leurs faibles esprits puissent concevoir. Si le FBI a du mal à tenter un procès contre leur cible, ils divulgueront au public des renseignements qui détruiront complètement la réputation de cette cible.

Les actions du FBI ne sont en aucun cas prévues pour découvrir la vérité, mais sont plutôt, une forme de contrôle psychologique pour manipuler les résultats . Ils sont tout à fait compétents dans l'art de la manipulation mentale, et pire encore, ils y trouvent un vrai plaisir. Cette manipulation inclut l'utilisation par le FBI de conversations inventées de toutes pièces entre mes parents et ma famille, pour me discréditer autant que possible. Le FBI parvient même à amener ma famille (par coercition) à participer aux opérations psychologiques qu'ils conduisent contre moi. Ce que ma famille ne comprend pas est que plus elle coopère avec le FBI dans cette conspiration, plus elle s'implique totalement dans des activités criminelles. C'est ainsi que le FBI parvient à manipuler les gens. Ils les corrompent. Les membres de ma famille qui sont les personnes les plus honnêtes, les plus affectueuses et les plus décentes que j'aie jamais connues sont manipulées (par intimidation et chantage) par le FBI, et sont utilisées comme agents provocateurs, afin de me pousser au crime. Le FBI a un énorme pouvoir. Ce pouvoir leur donne accès à des ressources illimitées comprenant un arsenal d'équipements de surveillance de technologie avancée que la société américaine dans son ensemble ne peut pas encore comprendre. Le FBI a également accès aux armes psychotroniques utilisées pour torturer physiquement, à volonté, la personne prise pour cible. J'ai constaté l'utilisation par le FBI de ces armes contre moi, à maintes reprises, et je connais beaucoup d'autres individus qui ont été également ciblés pour cette torture. Il existe un forum sur le contrôle mental sur internet, où figurent les témoignages d'au moins 1600 personnes dans le monde entier (plusieurs d'entre elles venant des Etats-Unis) qui ont été torturées pour des expériences gouvernementales de contrôle mental. Des armes psychotroniques sont utilisées à des fins d'opérations psychologiques pour torturer tout individu que le FBI a choisi de cibler. Ce sont des moyens vicieux destinés à conduire la personne-cible à la démence . Ils peuvent également mettre la cible dans un état de fureur extrême, comme cela a souvent été mon cas. Personne n'aime être torturé, imaginez donc ce que signifie être torturé, sous tous les aspects de votre vie, sans jamais bénéficier de répit. C'est une cruauté indicible.

Si le FBI devait (devant un Tribunal) déclarer qu'ils n'ont pas employé la torture psychologique contre moi, ce serait en fait un parjure et une fraude totale au tribunal. Les opérations psychologiques "psyops" sont des faits avérés figurant dans les registres et sont utilisées par le FBI quand ils ont des difficultés pour résoudre un cas. Veuillez noter que le recours aux opérations psychologiques par le gouvernement sur ses citoyens est totalement illégal. Les opérations psychologiques, telles qu'elles sont connues par ceux qui les utilisent (FBI, CIA, forces armées américaines, etc...) sont parmi les tortures les plus cruelles et les plus inhumaines qu'ait connues l'humanité. Le pire de tout, c'est qu'elles sont si brillamment conçues qu'elles peuvent, si nécessaire, accorder à ceux qui les utilisent toute latitude d'opposer un démenti .

Cependant, je peux citer de nombreux exemples d'abus d'opérations psychologiques appliquées contre moi, qui entreraient bien dans la définition même des opérations psychologiques. Si le FBI affirmait qu'ils n'ont pas infiltré mes communications avec d'autres personnes pour intercepter mes emails, ce serait un parjure également. Par ailleurs, si le FBI niait l'utilisation d'autres personnes de mon propre environnement (famille, amis, communauté) comme agents provocateurs, par le biais de la coercition, du chantage ou de la propagande diffamatoire, ils se rendraient coupables de parjure et de fraude devant tribunal.

Il y a eu des exemples bien documentés où le FBI s'est rendu coupable de fraude au tribunal. Il y a donc eu un précédent créé pour cet acte de déloyauté contre le système judiciaire américain. Veuillez avoir présent à l'esprit que je n'ai jamais été coupable d'aucun crime, et pourtant, par le recours à ces opérations psychologiques et par leurs invasions subreptices, le FBI a, dans beaucoup de cas, déjà violé mes droits constitutionnels. Un ancien agent du FBI du nom de Geral Sosbee est la cible des opérations psychologiques du FBI depuis plus de huit ans, pour avoir rapporté à ses supérieurs de graves crimes commis par d'autres agents du FBI. En raison de son franc-parler, Geral a été menacé de démissionner du FBI, ou être interné d'office dans une institution psychiatrique. Par crainte bien légitime et compréhensible, Geral a cédé à la demande du FBI et a démissionné. Hélas, cela n'a pas été la fin de son calvaire. Où qu'il aille pour commencer une nouvelle vie, le FBI le harcèle, faisant tout pour détruire toute chance qui s'offre à lui d'accéder au bonheur. Cela a été le prix que Geral a dû payer pour avoir été un lanceur d'alarme (en anglais "whistleblower"). Il est clair de ses récits que le souci majeur du FBI est de se protéger et non de reconnaître quelque injustice commise par leurs agents.

Le harcèlement a totalement démolé sa vie de couple qui s'est conclue par le divorce. Geral a été chassé d'un emploi à l'autre et d'un état à l'autre des Etats-Unis, pour avoir simplement dénoncé le sabotage par le FBI

de chaque succès résultant de ses efforts. Tous les amis qu'il s'est faits ont été rapidement éloignés de lui, car le FBI menait contre Geral une campagne d'intoxication auprès de ces personnes. J'ai personnellement vu le FBI agir ainsi contre moi, à maintes reprises. De ce fait, ils ont détruit toutes les relations amicales que j'ai pu avoir, ces dernières années. Quand Geral s'est sauvé du pays pour éviter leurs tortures, le FBI s'arrangeait pour que des voyous à leur solde enlèvent Geral et le prennent littéralement en otage. Cela allait au-delà du simple statut de prisonnier psychologique où se trouvaient Geral et beaucoup d'autres, y compris moi-même. Il a été physiquement attaché par ces employés externes du FBI et gardé prisonnier pendant un certain temps, dans le but de l'intimider. Cela n'a pas fonctionné. Quand il est revenu aux Etats-Unis, le FBI remua ciel et terre pour le ruiner financièrement, ce qui le força à se départir de sa résidence pendant un certain temps. Geral a fini par vivre carrément dans sa voiture. Depuis lors, il a établi une compilation des crimes du FBI contre lui, parmi lesquels la torture psychologique et le harcèlement, tellement effroyable qu'ils choqueraient pour le moins le public américain, et leur feraient définitivement perdre toute confiance qu'ils ont placée en cette institution. J'ai consulté le site de Geral qui parle de façon détaillée des mauvais traitements que lui-même et une ex-agent de la CIA, Barbara Hartwell ont subis aux mains de ces lâches individus immoraux et impitoyables. Je lui ai même envoyé des emails en quelques occasions, pour lui assurer de mon soutien dans les durs moments qu'il endure. Je me demande, cependant, si les emails en question lui sont réellement parvenus. Je n'ai pas l'ombre d'un doute sur la véracité des mauvais traitements que lui a infligés le FBI. Je crois, par ailleurs, que le FBI a intercepté ces emails et qu'en fait, ils ont répondu pour lui. Si le FBI a effectivement agi ainsi, il ne peut y avoir aucun doute qu'ils ont commis un très grave crime. Pourquoi agiraient-ils ainsi ? Le but du FBI derrière ces opérations psychologiques est de frapper d'incapacité mentale ceux qu'ils ont pris pour cible. Si des personnes-cibles se voient autorisées d'entrer en contact avec d'autres cibles, qui pourraient leur offrir soutien et sympathie, cela serait une entrave à la réalisation des buts du FBI. Allen L. Barker est un autre objectif d'opérations psychologiques qui a vu sa vie brisée par le FBI. Comme dans le cas de Geral, son mariage s'est conclu par un échec, sous la tension constante provoquée par les assauts du FBI. Ma tentative de le contacter par courrier électronique est restée sans succès. Je suis sûr que ce courrier a été intercepté par le FBI ou que Allen s'est vu, sous la menace, obligé de ne pas répondre, ou que quelque chose lui est arrivé. Quiconque a été assujéti à ce genre de torture vicieuse ne refuserait jamais, de son plein gré, de parler à une autre victime de torture.

Comme avec Geral et Allen, mes relations avec ma famille ont aussi fini par être détruites par le harcèlement constant du FBI, tant et si bien que ma famille a trouvé moins douloureux d'aller se joindre au FBI plutôt que d'être constamment tourmenté par eux. Qui pourrait les en blâmer ? – quand vous êtes aux prises avec une rivière en furie, il n'est que normal de vouloir nager avec le courant et non contre ce courant, dès que vous vous sentez épuisé, même si le courant vous emporte vers un lieu maléfique. Je sais, cependant, que les membres de ma famille sont des gens merveilleux, et que, lorsque prendra fin cet enfer cauchemardesque où le FBI les a plongés, ils se porteront bien. Je ne peux plus endurer la douleur que la perte des miens m'a causée, j'essaie simplement de me rappeler les beaux moments que nous avons vécus ensemble. C'est tout ce qui me reste d'eux ... C'est ce mauvais traitement constant par l'usage du temps, de l'espace et de la force qui rend le FBI si redoutable pour ceux qui s'opposent à eux. Ils les épuisent tout simplement en recourant à cette stratégie diabolique. Il vous suffit de vous enquérir auprès de toute personne qui a été l'objectif d'une équipe de surveillance du FBI.

I wanted to thank you for such an eloquent statement of our plight and the additional information that you have included to help us inform others. As I type this, I am being given pharmaceutical ads, a reminder, that I am being watched. I know that I was implanted with electrodes similar to those that are used for depression, without my knowledge or consent, on two different occasions over the past 20 years. The website at the Medical College of Virginia is advertising these same implants (transcranial magnetic stimulation) as having been researched for 15 plus years, which pretty much coincides with my timeframe. Through these electrodes they have monitored my eegs and therefore have stolen every tiny bit of personal privacy that I could possibly have. They know what I think, say, see, hear, and feel. What more, short of my life which I am sure they will take through some form of heart or immune system problem, could they possibly take? Stimulating the immune system to act or overreact with inflammation is definitely one of their calling cards and from what I understand, part of the problem with cancerous tumors is not so much the stimulus of the tumor but the overreaction of our immune system that causes metastasis of tumors. Throw in the muscle contractions that can stop a heart or kidneys and you have the perfect stealth killing machine handed over to a bunch of heartless sociopaths with chips on their shoulders and visions of dollar signs dancing in their head. Ironically, the people who were handed this technology to beat up on me have inevitably lost their jobs either during or after their torture of me. Guess they got the lesson on what could be done to them if they got upset at their firing while having fun at my expense as well.

Thank you again and I hope there are enough other happinesses in your life to help you through,

**Petition date starting in Ottawa and Toronto from Aug. 25, 2009**

Dear Member of the Canadian Government:

CC:

To Whom It May Concern:

This letter is to ask for your help for the many constituents in Canada who are being affected unjustly without their informed consent by Psychotronic (or Mind Control, Electronic, Directed Energy, Neurological, Non-lethal) Weapons.

We are writing you on behalf of Canadian Organization of Victims of Psychotronic (Mind Control) Weapon. We, and many others, are being TORTURED AND MUTILATED IN A MIND CONTROL CONCENTRATION CAMP 24/7. We wouldn't be tortured and manipulated in a properly functioning legal system/society.

Victims of Psychotronic Weapon detail the most extreme and totalitarian violations of human rights in human history, including the most horrendous incidences of psychological torture, mental and physical mutilations. Criminals place human subject under continuous surveillance, no matter where he/she is; they monitor human brain, including thoughts, reactions, motor commands, auditory events and visual images; they continuously alter

consciousness, introduce voices, noises, other disturbances, commands, images and "dreams" into the brain; they directly abuse, torture and hit bodies - including performing advanced medical procedures - from remote locations. The technology they are using is so advanced that it allows the controller(s) to see through the eyes of the targeted individual, essentially seeing whatever the victim sees.

These are some of symptoms of targeted individuals:

- 1). Microwave hearing and torture with intense loud electronic sounding noise
- 2). Visual disturbances, visual hallucinations
- 3). Manipulation of will, emotions, feelings, perceptions
- 4). Manipulation of human behavior: forced speech, involuntary body movements, transmission of specific commands into the subconscious, compulsory execution of these commands
- 5). Reading thoughts remotely, retrieving memories, implanting personalities
- 6). Debilitation of mental acuity, inability to concentrate, disruption of ability to think rationally and independently
- 7). Loss of memory and knowledge
- 8). Inadequate states, which targeted individuals have never experienced before (states of narcotic intoxication, depression, obsessive desires and so on)
- 9). Control of sleep patterns: sleep deprivation or uncontrollable sleep
- 10). Blurred vision
- 11). Cramps, seizures and spasms
- 12). Excruciating artificial pain in any part of the body, for example, heart attacks and other symptoms

We have contacted police, RCMP, Security/Intelligence Agencies, Courts and other Government institutions over and over and over again, but have had our appeals for assistance and protection almost completely ignored or suppressed. Government "doing nothing" in this situation is a form of sanctioning these horrendous fascist experiments with psyche on innocent and defenseless people, that is why Canadian Government is responsible for these crimes. Government of Canada must uphold the rule of National, International and Human Rights Law and protect Canadian citizens by these laws, instead we see the huge disconnect between its professed Principles and Values and the reality.

It is our responsibility to record and alert the world to these horrendous crimes and the extreme danger that these technologies pose to democracy, human rights, privacy, mental and physical freedom, health of all people. These are the most horrendous weapons and crimes imaginable, and the people, using them, are mass-murdering conspirators, pursuing fascist, totalitarian, fundamentalist schemes.

"Doctors Mengele", who started developing these techniques in concentration camps during World War II, were brought over here from Europe after the war to continue their atrocities. MKULTRA was the first of these illegal and immoral experimenting with unwilling victims, we are the latest victims. THIS MUST STOP, and the responsible people exposed and brought to justice for these unspeakable crimes against humanity. We demand only that human rights are respected, and the Canadian Government appoints a Committee to get to the bottom of this most serious matter based upon the evidence piled up, which was collected, intercepted and captured by the victims years after years.

This gross violation of human rights must be investigated immediately.

Sincerely,

Thanks for sharing this list. I am also a victim of neurological weapons and torture. To add to the list, when I wake up, within seconds I get hit in my stomach - it's like they know exactly 'when' I am waking up, etc...

What's upsetting is that I have electrodes in my head and wires leading to the back of my neck leading to a battery pack of sorts. Personally, I would advice you to get a head ct scan..don't say anything, and then ask for a copy of it through your medical records, then get a technician to tell you if there is anything that shouldn't be there.

## **3/9/09**

Well to play Switzerland for a second - I have to admit that MANY of us have been complaining recently about being stalked electronically, etc... After a while they have no choice but to investigate. I know that I really, really shared how horrible my situation was to them, etc..and well for what it's worth I did peak interest just in the local detachment. For any organization (and I am seriously hoping this is the case) it's egg on their face, if say a bunch of people put in official complaints and nothing is done, only for it to be identified, rectified by an 'outside' agency (ie: a u.s. group presently and covertly looking into such allegations, linked to the say...film industry). Nothing worse than being caught with your pants down - better to be on top of what kind of nasty toys are out there.

I am not saying that the RCMP don't know about this stuff, a certain small section may - BUT I do know that numerous groups in Canada now do - so they are probably trying to see who is who.

Rumour has it that you can purchase a stalking 'option' if you are a bit of \$, and now how to refer the person to the 'hit list'. Call it the new wave in organized crime - keeping snitches/good citizens, etc...in hell.

I know, because I am a decent citizen, mind my own business, but it appears like all of you, I have been added to the list - since April 2007. Now that I am officially a gov't worker, again - it's even MORE embarrassing when someone can't even ask their own gov't for assistance as a civilian, let alone as a peer, etc.. I may be a simple public servant with no ties to legal stuff, etc..but I have to admit, I find it really, really hard to take this. To add insult to injury, 3 generations of military/enforcement of some kind in my family. In other words, no one is immune from this. If there was a reason to 'protect' I may just very well have fit that category and it appears that

no one can.

My gut - don't take offense, perhaps in a wacky way - they may in fact find some perps - when shaking out who's who in the cyberworld.

Yes, a glass is half full moment - I have to think this way, it's HOPE that is literally keeping me going these days.  
Carmen

Thank you for sharing your chronological diary. I am shocked to see that some of the physical things you have experienced and are still experiencing are similar to mine.

What's interesting is that I am in the same boat, yet when I read your story, I have to remind myself that this is very real to all of us, but at first glance, it does read a little 'out' there.

I feel that the mere concept of something like this happening to human beings is exactly the CORE REASON why it has gone on for so long. It sounds so crazy that no one will believe us, etc..

I relate to the horrible sexual torture, the images, the horrific pain AND the whole 'causing you debt' story. It's like they hook you or deceive you on purpose and it makes no sense. I had a supposed E.I. overpayment, at first it was 5 K, so I got out my paperwork, then a month later I get a letter and it's now 11 K, and then 16 K, and so forth. Not only did I go to my bank and find out this was introduced electronically into my bank statements (I asked the manager how this was possible, interesting answer) I just knew that whoever is electronically torturing us, can do ANYTHING to us.

The pain is one thing, but the fear of having your chest light up and you wonder if you are going to have your last breath at that moment, or worse think about things like you hope you don't die in the middle of the street, or at work in front of everyone, etc...are horrific multi-layers of thought that go through one's mind when trying to combat this.

I can't tell with certainty 'what' exactly or 'who' put me on this hit list, but it's pretty bad. I have done everything the 'right' way to get off this list, and yes, I hope I live long enough to see laws in place that protect us all from such horrific fate. If it's a covert group, then we need to eliminate funds being provided to them, etc... via again politicians/law makers that stop giving them power.

Imagine the blackmailing potential when you have this power - nothing stopping the bad guy from blackmailing someone in politics, etc...especially when the victim or family members have been subject to this already. This is the approach I am going to take. ANYONE, including persons in power making important decisions can be a victim - which means Canada/Canadians are NOT SAFE. Perhaps then, laws will be in place, and perhaps then, we can go after /eliminate the culprits, after all, this is terroristic, and last time I checked we don't have to be at war with 'silent terrorists' without putting up fight.

I've sent a small statement to the people you suggested. I'm in support of this issue... I am targeted 24/7. They have triangulated me.. During the week at the college across the street they have placed the brain scan device. It is a constant ringing in my head. The apartments to the north have psy- ops in it using microwaves and some kind of light that causes great arthritic pain in my bones when in front of my kitchen windows. Then there is a operative to the south that has some more things!! I have a video up on u tube site is super soldier talk by James Rink. My name is Susan Martin . My face is swollen and burnt from the microwaves. My phone is [217-638-0814](tel:217-638-0814). Keep safe and call if you need to. If you come to the US I will have a place for you to stay if you need it.

I have been avidly reading through your website for the last no. of days. I am seeking some sort of resolve to electronic harassment I have been experiencing for about the last 4 years. I am a 50 year old man, living in the Palm Springs, CA area, USA. I have been receiving V2K -- voice to skull transmissions, by my stalkers, and as of late, in the last number of months, this has increased to include physical manipulations, as well. The voices, usually one or 2 harass me 24/7. The physical sensations I am experiencing include electronic shocks to various parts of my body, numbness of my limbs, heart palpitations, induced anxiety, sleep deprivation, a type of microwave heating of various parts of my body, where I feel as if I am being "cooked". This is also happening to 2 acquaintances of mine here in Palm Springs....all of us have been going through this for about 4 years now. I am reaching out to you for more knowledge on this subject. I have been told it is via EEG brain waves...or it is an implant...or via satellite transmission...what is the answer? I have been in touch with Dr. John Hall, author of "Satellite Terrorism in America...A New Breed" . I am inundating myself with web pages and research on this...what is the answer? How do we stop it? How can any right-minded individual think it is OK to harass someone psychologically and physically 24/7? Your input, and/or reading materials would be greatly appreciated...

Thank you so very much! I truly appreciate the listing of various organizations. I believe the mind control implant was "installed", possibly as far back as 1993, however, I didn't start catching on until 2005. Then when I backtracked my past, I tracked back a lot of out from 2001. The tremors started about 2006 and I've gone through numerous injections, all over my body. I typed in my old address, where I stayed with what I believed to be "friends", and it now comes up as CaRp LABORATORIES. They specialize in stem cell and cloning research. Then from approximately 2009 and on, I've been blatantly hit with the dews and frequencies. The top of my head and other areas would actually feel like it was burning. I wrote a book but can't seem to get it out to media or anyone. Entitled: "I GOT THE DEATH PENALTY...BUT SOMEONE FORGOT TO TELL ME!" I have docs and various other things that prove the collusion of state and govt entities. Every flashdrive I've put it on, they've stolen. My communication of every nature is severely monitored...but all I can do is keep trying. Anyway, thanks for touching base with me!

**27/11/12**

I haven't had much communication with anyone lately, as I am very sick.

The doctors don't believe I'm dying, but my body does. At any rate, besides the frequency issue, my other big issue has been the use of stem cell and cloning research.

This is the latest letter I wrote regarding the issue because no one else has found what I've found.

Possibly not everyone has been used in this capacity, but I certainly have and I fit every symptom associated with these dangerous CaRP stem cells. They are CaRP XIII, X, XI, and probably more than I've found. They are in the super human family and they're trying to build the perfect 'human'! How sick is that?

My latest letter and please pass on the info as I tell you, I've researched it thoroughly!!! I've written a book and I can prove my allegations and therefore do not have much time left! Possibly only days now.

My best wishes to all of you with all of your hard work!!!

May God Bless all of you!

**November 26, 2012**

My name is Pamela C. Martinez, and I am dying. I have a story to tell but unfortunately, I've simply run out of time.

For the past few days I have been deathly ill. Many would blame it on the flu, or some other type of infection, but the truth of the matter is that the government is killing me because I have 'connected' too many 'dots', concerning the non-consensual experiments they are doing to people. There is a host of websites which substantiate my allegations and the reason they are taking me out as quickly as they are, is that I CAN PROVE my allegations. My life is not important to anyone except me and I realize that and there is absolutely no where I can go for assistance. First and foremost...WHO WOULD BELIEVE a twilight story like this??? Only people who have researched what the government is covertly up to, realize the horror of their covert tactics and experiments. They could, nor would they ever announce to the world that they would use its own citizens as their own personal lab rats.

Why am I dying? My tests have all come back great. My vitals reflect perfect health, YET...I am dying and I can tell you why. One of the many tests they have involved me in is the research of CaRP stem cells and cloning research. I wrote a book which describes the exact symptoms of these CaRP stem cells, yet the pages I printed from the government's own web pages were stolen from my book. Now they are very difficult to find...if indeed you are able to find them.

The symptoms include: Loss of tissue, throughout your body: (Which is quite apparent in my own situation.); Loss of bone absorption; Excessive saliva, which is apparent in my numerous endoscopies. (I continuously spit non stop). Excessive belching, regardless of what you eat or drink. My medical records reflect all of the above. My central nervous system is mush, and that too, is also a symptom. I have tremors throughout my body and my cervical and lumbar are falling apart. Since I have tried to announce to the world about these issues, they have stepped up their efforts to shut me up.

I tell you this to hopefully make the public aware of what is going on. The CaRP stem cells are in the super human family and are being experimented with, worldwide. They are in the throws of trying to make the "perfect" human/soldier, etc. It is all very disgusting when you realize they are trying to play God.

You will either believe this or not...and most likely not; however, this whole scenario is about to become main stream media because even now, the whistleblowers are coming forward and many lawsuits are being filed. Unfortunately, my time is up and I am unable to follow through with either.

If one were to check credibility issues, here is the story I was told upon moving in to where I presently live. Greg and Jeanne Wiley live in Brea, California at the above-mentioned address. I was told that Greg was a salesman, now retired. However, he has 4 college degrees, so it makes one wonder what type of 'salesman', he was. Jeanne and Greg have two sons: Brian and Erick Wiley. I believe they are some type of scientists, but I was told that Brian was also a 'salesman', yet makes over \$250,000.00 a year. Erick is a scientist for an 'environmental' company. That is the story I was told, yet I do not believe anything any longer. I have been lied to so much that I don't believe anything about their family. Since I have resided at their home, I have gotten much sicker in a short amount of time. Whoever 'hosts' me at their home receives huge amounts of monies in which to do so. Still, the fact that they are aware that I am being killed and experimented on at their home, I believe, makes them as guilty as the perpetrators! Basically, they are getting paid to watch me die.

They say they believe in God, but how could they and do the things they are doing. Of course, many perps are lied to because it's been my experience that there are 1,000 different stories for whatever arena they are speaking to, therefore, not all perps are aware of what is really going on. But the Wiley's are aware because I was perfectly healthy when I moved there and was told by Jeanne Wiley that she would take care of me until I died! DIED!?! Why do you believe I'm dying and the doctors don't??? There are many holes in their story and once this story finally becomes main stream news, I pray they are prosecuted for my murder. They may not be doing the actual experiments but they are as guilty as if they pulled the trigger themselves!

I know right now, no one will believe this story...but someday in the very near future, you will.

I pray that the world will stop these monsters from continuing on in perpetuating extreme human suffering and misery.

I pray that someday the world will wake up and understand that these right wing agnostics are playing God and

they represent all that is bad in mankind.

Thank you for your time!

Sincerely,

Pamela Cleeton Martinez

**LETTER TO THE COUNCIL OF EUROPE**

Besides electronic torture, I have been the victim of CaRP stem cell and cloning experiments. My name is Pamela Cleeton Martinez and I urge everyone to research the effects of these stem cells that cause similar effects of other experiments. CaRP XI, XIII and the many others. [icaact.org](http://icaact.org) found three chips implants and I suspect there are more than that. I have a mind control implant by my left ear and my hands burn when I try to type or use my cell phone. Like touching a hot iron. My sincere thanks to Dr. John Hall, PhD who helped [icaact.org](http://icaact.org), and Jesse Beltran for helping with the scanning of May 25, 2013.

We are walking proof, yet no one wants to hear our stories.

USA Citizen. I first became aware in 1997, my daughter also at age 9 but now with hind sight am aware we were targets all our lives. They murdered her last Sept 2014. It would take me a month of Sundays to describe, everything from V2K (not so much anymore) DEWS which created sores (skin Ulcers) both myself and my now deceased daughter had. Her daughter my granddaughter would also get them. My father and my pets. All living things within range of these 2 satellites I have stationed above my home and private property. Recently I've discovered a commonality among persons with O- blood type. Sarah, my daughter and I both are (were in her case) O-.

All areas of my life are targeted. I've been ruined financially, campaigns to defame my character to friends and family have left me isolated, all my vehicles have been vandalized, my home broke into when I sleep and the gas burner turned on, near miss accidents, my online accounts, hacked, my cell phones hacked, I've watched my cell phone begin sending data with no prompt. one computer destroyed with a virus, the new one has had many attempts, which are daily per my Norton insights. etc., etc. I know exactly who my perps are and have strong evidence against them but can't find the support or legal professionals willing to pursue the assholes! They are well to do with familial ties to the Duponts (Illuminati) Satanic Bloodline, and our sponsored by Minnesota Politicians. Also proved.

I am what they call a “TI”, or Targeted Individual.

While not an ideal term, it is the best that we, who are targeted for unbelievable abuse, have to offer.

We know we are targeted by corrupt people involved in the military and other walks of life, but we cannot say exactly who, or why. Something terrible has gone wrong here in the US (and other countries) such that high-tech, military weapons are being used on innocent civilians to the extent that their health and their lives are forever changed for the worse.

My story is a long one but I will make it short. I have been tormented for 20 years by people involved with the American government and military, possibly because there is a conspiracy of powerful, self-interested people, and possibly for reasons of testing new military technology on unwitting civilians.

Directed-Energy Weapons—in particular, focused non-ionizing and ionizing radiation—have been used against me. I have had damage to my eyes, to my ears. I have a scar on my hand that I *watched* appear in a matter of seconds—I basically watched the scar being cut into my hand. I often have red “burn areas” around my nose because my nose area is often targeted, making breathing difficult. As you may or may not know, radiation penetrates right through walls, through most everything but thick steel and lead. It is *directed* radiation so it affects the target heavily but others comparatively little. The perpetrators use an infrared-type camera to see through walls (to see a heat signature of the victim’s body) and focused radiation to attack through walls.

I, like other TIs, would like to see a speedy end to this unnecessary and cruel abuse of technology. If there is anything I can do to help bring about an end to this injustice, please do not hesitate to contact me.

Complaint: 2009- Current year:

I am a victim of "Remote Neural Monitoring", and "Targeted Individual" for the past 5 years and have medical records stating the fact I had experienced a psychotic episode by these attacks by way of "Remote Neuro Monitoring". This act alone has been remotely attacking the pre cognitive and cognitive brain wave activity by use of "Non Lethal Weapon" using mind control and brainwashing techniques 7 days a week 24 hours a day. This act has isolated me as an individual to conduct with a non consensual agreement to under go as a subject to remote observational studies and numerous of stress test by way of "Remote Neuro Monitor". This act and covert program is being used by NSA technology that is targeting innocent civilians conducting mind control, and illegal communication practices. This NSA technology was supposed to be used by the agency to monitor individuals of interest to protect a global threats against terrorist. Speculations has surfaced that the NSA and CIA are still involved in these kinds of mind control and brainwashing covert operations currently. Complaint and class action law suits have attempted to sue the U.S government agency in the involvement with electronic harassment devices. I would like to sue and file a law suit against the NSA and the CIA in its involvement with non lethal weapons as a deception device to conduct mind control and brainwashing techniques against me as an innocent law abiding citizen. As well as negligence for not handling documents, files and complaints individual citizens have written that policy reprimands it will investigate all claims on "Remote Neuro Monitoring" or "Targeted Individual. This act is violating my Human Rights, my Privacy Act Law, and it is also considered to be along the lines of being a terrorist made threats. I'm writing this document to go forward in my complaint to file against the NSA and CIA for its involvements in the past as well as present date to go through with the act of "Remote Neuro Monitoring" on innocent individuals, as well as negligence on their part when complaints go without investigation or due legal procedure. This is my complaint and testimony behind the cover up of "Remote Neuro Monitoring" If you don't know what "Remote Neuro Monitoring" is I will briefly explain.

### **REMOTE NEURO MONITORING:**

Remote neuro monitoring is the observation and monitoring of one's cognitive and pre cognitive behavior targeting one's bio-electrical field set frequencies within the brain effecting the central nervous system, bypassing the ears transmitting encoded messages the brain picks up as an impulse or could be interpreted as audible sound heard in one's skull or head. The human brain and body has its own unique set of bio electric data sets. These frequencies and signals are extremely low frequencies which range between 5hz - 60 hz. . These frequencies are unique brain signatures. Such technology as "RNM" can detect brain electro magnetic field remotely. Can decode brain wave received remotely into exact subject voice, images. Can modulate and send signals remotely in forms of voice in audio cortex bypassing ears and images in visual cortex bypassing eyes and optical nerve. . Send thousand of people simultaneously (large location coverage based on practical experience. Detect signal associated with thought before it comes to conscious mind (in practice know what you will think before yourself knows. Provokes suggested thoughts onto the mind to process. Remote neuro monitoring modulates and mimicks the frequencies that co-respond to the sub conscious thought region and the central nervous system to transmit a computer emulated voice signal that acts and responds as an 2nd sub -conscious voice or inner mind's sub conscious voice. Once implemented the voice uses various octaves of voice audible sounds that could be described as voices heard in the head to implant subliminal and negative messages the brain picks up and receives to thought process. At 30 hz to 60 hz the mind is known to harbor these set frequencies when looking to decode evoked potentials from one's sub conscious mind. Another Device is called the NEUROPHONE.

The Neurophone

[US Patent # 3,393,279. July 16th, 1968](#)

[US Patent # 3,647,970. March 7th, 1972](#)

The Neurophone was developed by Dr Patrick Flanagan in 1958. It's a device that converts sound to electrical impulses. In its original form electrodes were placed on the skin but with defense department developments, the signals can be delivered via satellite. They then travel the nervous system directly to the brain (bypassing normal

hearing mechanisms). Dr Flanagan's "3D holographic sound system" can place sounds in any location as perceived by the targeted / tortured listener. This allows for a variety of deceptions for gullible victims.

Today, the CIA, DIA (etc) use satellites and ground – based equipment to deliver verbal threats, deafening noise and propaganda; using neurophone technology. Anything from TV's/radio's appearing to operate when switched off through to "Voices from God" and encounters with "telepathic" aliens are all cons using neurophone technologies to torment, deceive and (most importantly) discredit agency/criminal targets. Naturally, the system can mimic anyone's voice and automatic computer translations (into any language) are incorporated.

Anecdotal evidence indicates that people like David Koresh, Martin Bryant and others could have been programmed then remotely triggered (or tricked) using harassment technologies like the neurophone. (Although most of the targets are intelligent and law-abiding). For example, John Lennon's killer, Mark Chapman, reportedly heard voices before and after silencing the agency-hounded peace advocate. "God" apparently told him to confess verbally.

To explain why others physically moving into the path of the laser (or whatever) do not pick up the signals, please note the following "possibilities"... a) Kirlean photography may be an ancillary system so it's attuned to the targets personal energy field (their unique EM waves).

b) The magnetite in our brains can act as a detectable fingerprint.

c) Equally each of us has a unique bio electrical resonance frequency in our brains. EMF Brain stimulation may be encoded so that pulsating EM signals sent to the targets brain cause audio-visual effects which only the target experiences. This, to me, is the best explanation.

d) The individuals "vibrational pattern" could be used as a signal filter like a radio receiving only the sound modulating the frequency of the station it's tuned to.

e) The monitors simply adjust the volume downwards when you're in a position where the signal could hit someone else's body. Even if they heard it (briefly) they'd attribute it to another voice in the crowd etc.

As with the final proof, the definitive answer lies in the actual blueprints; secreted in the bowels of the Pentagon or some similar facility. Nonetheless, there is no report of ANY intercepted neurophone signals. If it wasn't so effective it would not have been used to facilitate silent communications between U.S. government agents/military personnel. This next piece is a more extensive look onto the matter.

I am a victim of first an Internet Discussion Group mind control CIA operative, now stalking by Freemasons and others, meanwhile they are mapping out the WIFI in my city, and possibly using mind control on my family members, and my renter's family across the street. In the last two days they have popped up a website on my computer, changed the radio station on my radio, turned the radio off, and caused me to lose a night's sleep. My daughter is having vivid nightmares. They have been in our house at least twice. The local police are in on the stalking also, and they told the FBI not to take my report. My doctor is obviously in on it as well.

A radiology researcher moved in across the street from me, into a house that is owned by a Mormon Psychologist (they spend a lot of time at Deep Creek in MD during the summer, too, oddly enough).

Everything in my case points to CIA MKUltra, or Monarch/ New Phoenix. I am also being blackmailed.

I am also a target, since March. Our daughter was harassed by a man in the Pittsburgh airport who was on his way to Australia, he said. I know that the person who is doing this to me is a native Australian.

I know they have contacts in Belgium also.

Hello, My name is AJ McKay I have had telepathy for 2 years now and have felt like a slave the entire time.

These machines have marked my body and I was told that they were branding me as their slave. I have found some good girls to watch over me in the past but they keep getting taken down by the bad group.

I know that there is a machine that controls my telepathy and it seems as though a lot of normal people have them, especially the old Liberal Party here in Canada. Boeing supposedly produces the machines.

I can't get a machine to control my own mind and nervous system from anybody, can you help free me from slavery? I'd like to be in your group to help others. Here is a group that I have built on Facebook. I have written to various politicians including Prime Ministers about this issue. Telepathy... slavery or freedom?  
[www.facebook.com/group.php?gid=2393294598](http://www.facebook.com/group.php?gid=2393294598) nobody has joined my group yet.

I have been a virtual slave for 2 years now, I have telepathic vocals 24/7. My body has been marked by celebrities machines. They called it branding me as their slave, whereas they use my mind to save their stories. I would take the federal government to court over their treatment of schizophrenia. They give us pills because we hear voices but they don't offer any education or access to control of your telepathic sense. In order to take them to court, I would need proof of the machine... I need one.

The Canadian Health system is a cover for the underground telepathic sense conspirators.

The machines can cause any health related problem that you can physically have, but they don't make them accessible to all of us. Please help me get a machine that is supposedly produced at Boeing, and I'll help you fight this. Supposedly I have a lot of money from my virtual identity.

**5/7/08**

I take pills because I'm schizophrenic...Risperidone helps by supposedly making it so you can only be on 1 machine at a time, which lessens the pain and effects of people hurting you...I heard this through telepathy so it may or may not be true but I have felt better since taking them, one in the morning and one at night.... the other pills don't seem to do anything but I'm told that clozapine erases your site.... hides you but you're still on other people's sites so you can still be hurt.... I'm working on finding the right drug that erases the telepathic sense but it's gonna take some time....

**FRED McKENNA - ATTEMPTED MURDER & DEATH THREATS:**

A Visit from The Boys in Black Is Expected.

Its late fall of 2004. Fred McKenna\* surveys his beloved radionics equipment with sorrow. "I am expecting a visit from the boys in black" he sighs to me. Because he has been engaged in storm mitigation and deflection, he's sure that military and other authorities know of his location and activities. Fred has already begun to dispose of the reagents, the active principle used for the "broadcasting" of specific corrective energies to persons or the

environment. By transferring their activity to the land itself, he hopes this might at least protect a passive aspect of his operation. But he fears that the machines themselves may no longer be in his possession by the end of the following year.

Its for good reason that Fred is concerned about confiscation of his radionics machines. He has received numerous threatening phone calls; his computer has been sabotaged while connected to satellite weather-data sites; and he has even been subjected to a psionic attack intended to cause a car crash - which would have happened if he had not serendipitously made an unplanned turn off the highway. Just as he was stopping the car, he was suddenly plunged into unconsciousness (for which no medical explanation could be found). Had he continued on the road, he said, the car would have smacked into a rock face.

Just because Fred lives in Canada, he is not exempt from interference or even being arrested. The U.S. military has a very long arm. As evinced by many examples, the US feels it has the right to reach into any nation on earth to take whatever it wills by force, whether this is oil fields or weather-influencing technology.

My name is Darren and I live in Plant City, FL. I am targeted on a daily basis by what I believe is a MASER (microwave laser). I will begin to feel a burning sensation on the top of my head. If I remain stationary, the burning sensation will engulf my entire head, and I will begin to feel ill. If I move in an unpredictable manner, the burning sensation will dissipate. I have theorized that I am being targeted by aircraft and/or satellite.

Have you experienced similar sensations?

Hello, I am a TI in Danville,Kentucky originally from Louisville, Kentucky.  
I am trying to get in touch with other TI's. I have been stalked for approximately one or two years.

Around July of 2008 I was contacted by the people. It was a voice in my truck. I now know they speak straight to my brain. They have attacked me with their weapons (hurting my jaw extremely, burning parts of my body, pin pricks, etc.) They speak to me all day every day. As I was saying, I am trying to get in touch with other TI's mainly to see how they deal with the abuse. I also want to offer any help or advice I can to other TI's. I would like to know of any events I can be a part of.

Thank you for the information on Satellites. Very informational.

However, I would like to remind everyone that the simplest and cheapest methods of surveillance are usually employed. You would be easier to track just using a GPS tracking, or your cell phone, or a little bugging or sensory device in your home, which would be hard to find. Even if you found it something else would be used. Heck sometimes they just get kids to sit under your home to listen to when you move from room to room, etc.

Always look for the simplest answer first. It's probably the right one.

Don't freak out. Just a bunch of dickheads.

Sorry I forgot to say our situation, here is the short version:

"Organized Stalking is a form of terrorism used against an individual in a malicious attempt to reduce the quality of a person's life so they will: have a nervous break-down, become incarcerated, institutionalized, experience constant mental, emotional, or physical pain, become homeless, and/or commit suicide. This is done using well-orchestrated accusations, lies, rumors, bogus investigations, setups, framings, intimidation, overt or covert threats, vandalism, thefts, sabotage, torture, humiliation, emotional terror and general harassment. It is a "ganging up" by members of the community who follow an organizer and participate in a systematic "terrorizing" of an individual." -- Mark M.

Rich.

In 2002-2003 I contacted Governor Jeb Bush to help us enforce our Civil Rights in the Courts and instead we were label and targeted as "Dangerous Individuals" (something that existed in Cuba to repress people that acted against the Government , but I did not know existed against simple citizens in this great Country of Liberty) to shut us up and cover the corruption ....I have been trying to expose corruption in Miami, Florida for almost 10 years, to no avail, Plz read my blog that I post almost daily in FaceBook.com/themeadowsfmly, "Let's get some JUSTICE.....or <http://www.marinameadows.wordpress.com>, or <http://www.MarinaMeadows.blogspot.com>, find out what is been done to our family, how the medicals records have been used to harm us, medications tampered right out of the pharmacies, how we been isolated from friends and family, manipulation and blocked internet, mail & phones, how my 3 sons have been manipulated, and also their lives, our house of 15 years taken with fraud and ransacked, taking even our documents and much more, how the banks had manipulated our money, the roll of the Police & Gov.Officials allowing this abuse mental, emotional & physical to go on for years, to cover all their wrong doing, No hesitation in destroying our whole family, adding that the father of my sons (after I had a personal conversation with ex-Mayor Manny Diaz) & his mother (one week before of a Court appointment), both UK citizens passed away very suddenly from the same affliction without any medical history of that illness...??? Here we still suffering, almost collapsing without any one doing anything to help us; now after over 8 months here, been able to text a bit I come to understand how tainted & corrupted things are, manipulated by well-connected individuals, corporate executives & politically motivated Gov.Officials who simply buried the truth inside a shadow legal system inaccessible to everyday ordinary American citizens. So I give thanks to God for the strength given to us and for people protesting #OWS since November 17, 2011 that had help make the truth come to light!!!

By the way if any one out there with some humanity and power can do anything for us, we appreciate very much the help!!! We need a contingency Lawyer that is not fearful to confront the Judges, willing to help us ASAP, it is very Urgent, my mother loosing her eye sight, day by day since she is not able to put her eye drops for her glaucoma, or take any medication needed, since they were altered causing harm to her health, and we not longer can trust doctors in general, also we are all perishing, we are real people existing but not living!!

## SPANISH VERSION

"El acoso o la persecucion Organizada es una forma de terrorismo usado en contra de un individuo, en un malicioso intento de reducir la calidad de la vida de una persona, para que aquellos que acosan o persiguen puedan llevar al individuo a: tener un ataque nervioso, que lo pongan en prision, que lo pongan en un instituto mental, que experimente constante dolor mental, emocional, o fisico, que se queden en la calle como mendigos, o que cometan suicidio. Esto es hecho utilizando acusaciones muy bien preparadas, mentiras, rumores, investigaciones inventadas, acorralar, intimidacion, amenazas, vandalismo, robo, sabotajes, torturas, humillaciones, terror emocional y molestias en general. Es "tener una ganga" hecha de miembros de la comunidad que siguen a un Organizador y participan en sistematicamente "aterrorizar" a un individuo".--Mark M. Rich En el 2002-2003

Contacte al Gobernador Jeb Bush para que nos ayudara a enforzar nuestros Derechos Civiles en la Corte y lo que hicieron fue ponernos una orden de "Ley de Peligrosidad" (cosa que conocia existia en Cuba contra los cubanos que actuaban en contra del Gobierno, pero no sabia existia contra los simples ciudadanos en este gran pais de Libertad) para callarnos la boca y no se supiera toda la corrupcion que hay.....,He estado tratando de exponer la corruptcion en Miami, Florida, ya por casi 10 anos, pero sin resultados, Por favor lean mi blog el cual pongo en FaceBook.com/themeadowsfmly, "Hagamos alguna JUSTICIA... o en <http://www.marinameadows.wordpress.com>, o tambien en <http://www.MarinaMeadows.blogspot.com>, encuentren lo que nos han hecho, como es que han utilizado nuestros records medicos para danarnos la salud, medicinas alteradas acabadas de comprar en las farmacias, lean como nos han aislado de amigos y familiares, sobre la manipulacion y bloqueo de la internet, correo regular y certificado, telefonos, y como las vidas de mis tres hijos han sido manipuladas y ellos tambien manipulados, nuestra casa de 15 anos nos la quitaron con fraude y la saquearon, llevandose los documentos y mucho mas, como los bancos han manipulado nuestro dinero, tambien el acoso, y abandono de las Iglesias, Colegios, Organizaciones.... el papel que ha jugado la Policia y los Oficiales del Gobierno, todos permitiendo que nos sigan abusando todos estos anos, abuso mental, emocional y por ende fisico, han estado cubriendo las cosas mal hechas desde el principio, destruyendo nuestra familia sin escrupulos, tambien quiero adicionar que el padre de mis hijos (despues de yo tener un encuentro personal con el ex-alcalde Manny Diaz) y su

madre (una semana antes de una cita en la Corte) murieron repentinamente de la misma causa sin tener ninguna historia medica de esa enfermedad, los dos ciudadanos Ingleses. Nosotros nos encontramos sufriendo y casi colapsando sin que nadie nos ayude; ahora solamente despues de 8 meses ya, he podido estar escribiendo un poco en la internet me he podido dar cuenta de cuan corrompidas y manchadas son las cosas, manipuladas por individuos muy bien conectados, ejecutivos corporativos y Oficiales Gubernamentales motivados politicamente los cuales simplemente entierran la verdad dentro de una sombra de sistema legal inaccesible a los ciudadanos ordinarios de cada dia. Asi que le doy gracias a Dios por la fuerza que nos ha dado, y por las personas protestando #OWS desde Noviembre 17 del 2011, ya que estan ayudando a exponer la verdad tal y cual es, sacandola a la luz publica! Necesitamos Urgentemente alguna humanidad sobre nuestra situacion, para poder exponerla y encontrar la Ayuda y Proteccion que pedimos, asi que si alguien tiene el poder de poder hacer algo, lo apreciaremos muchisimo! Necesitamos un abogado de contingencia que no le tema enfrentarse a los jueces, y que quiera ayudarnos, ASAP, es muy, muy Urgente pues mi madre esta sin medicinas y perdiendo la vision pues tampoco puede hecharse sus gotas de glaucoma, ni tomar ninguna medicina prescrita que necesite, ya que las cuales estaban alteradas y le causaron danos a su salud, hemos perdido la confianza en los medicos en general, tambien nosotros estamos pereciendo.....somos personas reales existiendo pero no viviendo! Would you please send a case summary form and also if you care to you may put the following website of John and I on your newsletters [www.us-government-torture.com](http://www.us-government-torture.com) .

We will look over the case summary information and send it back filled out.

**At the moment we are in the SUPREME COURT for a re-hearing that will reach the Justices tomorrow. In a few weeks we should receive an answer. We have well over 100 contacts of victims from recently and maybe 100 from pre 2004.** We are bogged down to call them up again, maybe in a couple of weeks we will have some time to help build the list.

Keep up the good work. We are suffering also and hope that all of our efforts will prevail.

**14/10/08**

I received this on my e-mail, would you please tell me where we are to send our information about our case summaries of torture and abuse. We are also covertly implanted with chips, etc.

**24/11/08**

We are being tortured horrifically in our home right now.

My name is Deborah Lamb and my boyfriend, John Mecca from Kings Park New York are writing to you, because we have evidence of our being tortured in our home and this letter is on behalf of New York residents with their names and addresses at the end of this letter; they are victims of the same kinds of attacks in your state. The chance that New York residents are being attacked as we are in New York is too great a probability to dismiss out of hand; the issue of their being attacked should be responsibly looked into because their stories are so similar to ours that it amounts to preponderance of evidence.

No less serious in experience of having been attacked is Brian Wronge from Queens New York, whom has x-ray evidence of rectangular foreign bodies in the area of the cochlea ear area. He has a radiology report stating that the rectangular foreign bodies are paramagnetic. It was done without his knowledge and consent. His suffering like so many others is receiving audio signals ( noise and voices) from the paramagnetic devices which are apparent radio receivers is an immoral and egregious act by again by authorities.

Many others are being stalked by what are believed to be federally funded civic groups associated with the Department of Justice "Weed and Seed Programs" and or Homeland Security. As well it is suspected that such activity is based upon such persons being stalked are implanted by tracking chips inside their body and the stalking is practice of federal tracking programs of suspects; such is assumed to be based on false affidavits and warrants that are malfeasance or immoral acts by authorities sanctioning these activities.

We are being tortured in our homes with near lethal levels of radio and electric energy according to tables of exposure on the Center for Disease Control's website. The test we used was the IEEE test for human exposure to radio and electric energy using a test device made specifically for the IEEE test. That test validated there are covertly installed electronic devices similar to a pace maker in our bodies that emit electrical and radio energy, the energy is not from the environment as we have tested simultaneously with a spectrum analyzer. Deborah and I are being caused so much horrific pain purposefully and continually.

Debbie has metal detectors go off in the abdominal area showing some kind of metallic material in the area that an MRI shows large circular interference rings as well as unknown etiologies and artifacts. Doctors are either not trained to look for camouflaged devices or have ignored facts we have presented and have left us without a solution. We are tortured everywhere we go and are praying that you would please help all of us who are victims of immoral electronic torture attacks.

It is expected such activities are being done using false affidavits and warrants combined with waiver of informed consent to perform human experimentation to allow torture level pain and to carry out so called lawful investigations including near lethal levels of pain (extreme pain is not considered torture by the current administration but instead it is considered interrogation). Also, note there are recent studies that implanted devices, such as gps devices cause cancer in animals. There are many legislations that need to be mooted or modified and narrowed regarding their vague verbiage, that allows extreme pain through the installation of covert implanted devices and energy beams among other modalities.

We ask that you initiate a Hearing for New York residents that will look into the reports of torture and hopefully validate them for further investigation and recommendations as to what laws need to be modified and how. Subsequently we have hope that such a public exposure of these activities through such a hearing will bring public support from newspapers and television before, during and after it occurs for subsequent support of a BILL in the Senate and or Congress to ban state and federal activity of the nature described by the victims; to order a stop to immoral human experiments and investigations. Such egregious activities can cause all sorts of disease by electronic, biological and chemical means. These activities are I believe considered "Lawful Investigation" being either a clinical or law enforcement investigation.

Having investigated this issue of attacks on myself and others for 10 years, it can be concluded that such activities are definitely being used on public servants, as the broad latitude of legislation suggests that an agency head could waive consent for any individual including elected officials.

a.) We ask that you initiate Senate and Congressional hearings into un-consensual human experimentation where the term "waive consent" is the method apparently being used to allow immoral clinical experiments involving the use of extreme pain and other immoral activities such as the use of audio by cochlear implants and similar directed beam technology; such waivers to use experimental methods are believed being used in immoral law enforcement investigations. One of the many legislations is the Title 45--Public Welfare PART 46--PROTECTION OF HUMAN SUBJECTS; it allows "Agency Heads down to small Institutional review Board Heads to WAIVE CONSENT. Such legislation can be used unethically to funnel names of people who dissent or others whom are causing persons in authority discomfort to be placed on lists to experiment on as a means to retaliate and cause them to cease to be capable persons by causing them harm, disease or death by experiment.

Additionally that such hearing include the issue of covert experimentation using military technology on persons

for any law enforcement purpose whatsoever a moral mistake in its wording, in that the specific law being Title 50 War and National Defense 1520a which has wording somewhat like a used car salesman's contract that is misleading where it seems to convey the "necessity of the consent of a person; however from analysis the first sentence stating consent is required, is mitigated by verbiage further along in that legislation to allow for police to grant consent to use that legislation for use on any person. This legislation and analysis is attached with a column on the left of independent analysis and the right column Title 50.

Honorable Senator , in January 22, 1997 then Senator John Glen proposed the following failed Bill to stop covert experimentation, you must not fail as he did or generations will be lost, respect for authority be eroded and the purpose of the country and common decency and beyond recovery.

**Senator John Glenn's Introductory Remarks on S.193:**

Mr. GLENN: Madam President, I rise today to introduce the Human Research Subject Protection Act of 1997. I send the bill to the desk.

The PRESIDING OFFICER: The bill will be received and appropriately referred.

Mr. GLENN: Madam President, if I approached any Senator here and I said, 'You did not know it, but the last time they went to the doctor or went to the hospital, your wife or your husband or your daughter or your son became the subject of a medical experiment that they were not even told about. They were given medicine, they were given pills, they were given radiation, they were given something and were not even told about this, were not even informed about it, yet they are under some experimental research that might possibly do them harm--maybe some good will come out of it, but maybe it will do them harm also--but they do not know about it,' people would laugh at that and say that is ridiculous. That cannot possibly happen in this country. Yet, that very situation is what this piece of legislation is supposed to address.

b.) The Department of Justice "Threat Assessment Program (TAP)" is so broadly written so as to allow all and any immoral action be done to a person, no matter whether they do nothing legally actionable except indulge in an extra drink, which can be contrived as worthy of placing a person into a Threat Assessment Program investigation; these investigations can be jury rigged by authorities and initiated without proper public oversight according to the broad verbiage of that programs description of reasons to investigate. Such a TAP investigation can too easily be boosted up to be eligible for their inclusion in Anti terrorism and Effective Death Penalty Act 1997 ( ADEPA), where merely based on authorities perception their demeanor and or mental aptitude can be defined as a person whom "might" be of a kind that a terrorist can use them as a resource again without public or proper oversight. As well the ADEPA legislation seems to infer that a person being repeatably investigated is using national security resources and can therefore also be subjected to the ADEPA act, resulting in a secret punishment judgment of any kind at the discretion of those whom enforce it and again without proper oversight. During our research we have found that many persons are covertly implanted and/or experimented on to cause them to be placed on such lists; where authorities use electronic means or drugs to make them look aberrant and then use that as a reason to place them on TAP or ADEPA.

c.) There was a case in the Supreme Court that we ask you Honorable Senator to write a letter in support to bring back that case to that court as the Bush Administration. The crux of the case is that the persons John Mecca and Deborah Lamb in Supreme Court Case No. 07-706 which exists as PDF's from the original Federal Complaint to the Supreme Court Filings on <http://www.secretangel.tv>

That you Honorable Senator contact the President Elect Obama and the Supreme Court and tell them to bring back this case; it needs to be supported by you Senator and sent in writing to the new President Elect Obama and that our hope is that you make an effort to gain that administrations support. Without active effort on your part the cronies in the agencies installed by previous administrations will remain along with their interpretation of the legislation that has done so much harm to the nation.

There is a Supreme Court Rule that supports the allowance to resurrect a petition for appeal and it is shown in the (Supreme Court Eight Edition) Titled "The Interests of Justice, Part 15.3(b)). Our Supreme Court Petition is No. 07-706 and references an exhibit that was ignored by all the courts, being that, local police declared to Mr. John Mecca as a first hand witness that the electronic attacks upon him in his home, was and is being done by the military but that they could do nothing to stop it or they would get into trouble. That the original complaint first hand account alleges the police declared that federal military authorities were involved in an immoral action against the petitioners. It seems fitting that you Honorable Senator in your wisdom begin the process of support to curb previous administrations abuses of power in overly broadly written legislations, by having Hearings that as a

part of its purpose codify the structure of needed revision.

There are thousands of people across the country reporting being attacked with advanced technology and we expect that from clues of syndromes and disease many more whom do not know what has been done to them. Many are in New York.

The fact is that we have indisputable evidence via an IEEE test that shows we have near lethal torturous energy coursing through our bodies, the levels of approximately 30 milliamp is based upon the Center for Disease Controls numerical tables for electrical exposure, this occurs wherever we go and according to a spectrum analyzer is "not" from the environment; we have been implanted with a device similar to a microwave oven that emits energy from inside the body and causes that energy to resonate in specific areas of the body such as the brain and other areas depending upon the frequency emitted. The instruments used were manufactured specifically for the IEEE test. The IEEE (Institute of Electrical and Electronics Engineers, Inc.) is the world's leading professional association for the advancement of technology, setting standards for industry and governments around the world. IEEE test titled "C95.3- 2002, subpart (5.6); titled "IEEE Recommended Practice for Measurements and Computations of Radio Frequency Electromagnetic Fields with Respect to Human Exposure". Upon going to my local 4th precinct police department in 1999 and explaining that I was being attacked inside my home with exotic weapons, one of the six officers there sitting in front of a computer asked for my name and address and after a time looked up and said "it's the military and we cannot do anything about it or we will get into trouble". John this bold seems redundant, to previous paragraph. That is culpable negligence if true for them to engage in abrogating our New York State rights to federal authorities; however I think it is a police program that has federal support and is not legal on the basis of its moral repugnance to upstanding persons. This could be a clinical investigation or a law enforcement investigation, nevertheless it is happening to us with our knowledge and without our consent and without due process. We are being severely electronically tortured with these weapons continually on a daily basis. This is an activity that cannot be allowed to continue. Our research into the subject of human experimentation has shown FOIA documents that provide copies of memos where persons being experimented on have had their doctors told by authorities not to assist or properly diagnose them in order to complete their experiment; even when there is high expectations the result will be that the targeted person will die. This has been documented to have occurred in many experiments. It is hoped that such an atrocity will be stopped and not be allowed to reoccur here in New York.

We have not touched upon the Patriot Act and other legislations as it's text length is too long to go into detail here, we need to see such laws modified to stem abuse. In closing, wrong headed virtually criminal legislation brought into being over the last administrations need to be reviewed immediately upon the swearing in of the new administration for the benefit that the national security be preserved.

Yours Truly;

With the full support and endorsement of the following persons whom claim to be suffering from similar attacks as described here in the letter above!:

**30/11/08**

I received this e-mail from you. I am writing to you as a victim of emf torture, gang stalking and mind control. I found a letter from you dated November 2, 2008 that was listed on <http://educate-yourself.org/cn/psychotronic torture02nov08.shtml>. I am so sorry about your serious situation. I also am being butchered severely with the emf, however I have been covertly implanted with a transmitter type of device and I have evidence. John is also a victim. I think that the majority of the victims are implanted, however that is just my opinion. The reason I am writing is to see if I could read your letter on the program [www.The-President-Obama-Hour](http://www.The-President-Obama-Hour.com) that John Mecca is a host of. I just do a little introduction, with some information. I related to your plight and wish that there was something I could do to help. I tell the victims to never give up. As horrific as this immoral crime is I hope that you keep fighting to stop it. The emf torture is causing many supplements in the body to be depleted. Taurine, 5htp, amino acids, and melatonin help with replacing what is being depleted. The 5htp helps with some of the pain. I sleep on a float that is filled with water to help with some of the effects, also taking cool showers helps to drain the battery. However the torture is so severe that many times nothing helps. I have also found information about studies that have proven implanted devices, such as gps, etc cause cancer in animals. We are desperately fighting to stop it. We are writing our congress, etc, but yet to no avail. Please don't ever give up. You are in our prayers.

:) P.S. Updates will be on [www.secretangel.tv](http://www.secretangel.tv) within a week.

It is essential to keep cool with a cool pad while sleeping as they heat process your nervous system, as well there will be a new supplament update of substantial merit in a week or so. The vitamins will aid in correcting imbalances to the physiology and nervous system that has been driven out of balance and compounds the issue of a persons sensitivity being made more sensitive. Read more <http://www-us-government-torture.com/KIT.html>

Everyone has I think a somewhat different device, different efficiency of its affecting the person and thereofre causes differing symptoms from one victim to another. The relative issue is to read KIT. Overall the idea is to stabalize the physiology, strengethen it and do the things on the KIT page, since 2001 there has been onstruction on how to use magnets rotating and audio to reduce pain. Those things are free and there as files for whoever can use them.

Instead of giving up as some have, I believe that one should upon failure as we had in the 2006 complaint rethink and try to learn from the mistakes made and do it again corrected. We succeeded and it is because of strategy and hard work. The battle is not over. We are the first to get into a court and have a hearig set for it. We hope that everyone who has lost their case or believe that a case cannot win has an unfortunate perspective that has caused many not to consider wanting to stay alive, that is sad. We want all who feel there is no hope, think again there is and we believe we will win. Strategy is of value to realize that sometimes it takes time. SO to all please do not feel that all is hopeless; remember that in the last year the law was changed by attorneys and federal judges who took back Habeas Corpus. Now today we will be recognized and vindicated that there is too law in these here nited States, that ALmighty God is on our side in this battle and we are God's tools. So everyone do not give up, we did not. There are still hurdles and there may be setbacks but they are on the run now. Again thank you for your positive thoughts. Please wherever any of you know of a victim who is in depression that the attacks will never end, that there is too hope it could be ending soon. There is a way, determination, spirit and perseverance is what those under heavy attack need to remember. That is not hollow as a perspective.

Also we are going to send the information to [OTP.InformationDesk@icc-cpi.int](mailto:OTP.InformationDesk@icc-cpi.int), to support you in a few days as we want to include the torture and abuses happening to us. It is so very severe, we have fought for so long to stop this heinous crime, we have the pain electronic torture and implanted devices causes serious problems. With sympathy and empathy about the heinous atrocity happening to you and also to us.

## **LETTER SENT TO THE INTERNATIONAL CRIMINAL COURT – ICC**

This is the letter that we just sent to the International Criminal Court.

Head of the Information & Evidence Unit  
OFFICE OF THE PROSECUTOR

FROM:  
Mr. John Mecca and Ms. Deborah Lamb  
119 Whittier Drive  
Kings Park, N.Y., 11754  
U.S.A.

Dear Sirs,

This letter is an appeal to you for help regarding atrocities going on in the United States upon us and thousands of other people, where I, Deborah Lamb and John Mecca are also victims of electronic torture going on all over our country. We are being electronically tortured via covertly implanted devices in our brains and bodies and we are suffering severely. The torture is seriously debilitating and severely painful. Our lives have been destroyed and our domestic and international rights have been stripped away from us. We have appealed to numerous agencies for help to investigate and stop this inhumane atrocity and our own courts to no avail, lawyers here will not take such a case. Every agency and every government official that we have contacted has turned their backs on us refusing to help us. We are being held in our own homes imprisoned in non-consensual human experimentation and left to be tortured until our death. Many victims have already died and we have lost the support of families and friends from their being uneducated and disbelieving, we have suffered sabotage of our careers, tortured so severely that working becomes impossible for many of us and as one would expect we have been shunned by society, our existence as human beings with GOD given rights has been destroyed by our Government that apparently seeks to make itself a god over us. We urgently appeal to you to bring this to light in public and lend assistance by that to help stop this heinous atrocity, that echoes Nazi atrocities now in these modern times; silence will only embolden those carrying out these sadistic acts of terror.

Post Scriptum (P.S.):

Also we are writing to you in support of Mr. John Finch, 5/8 Kemp St, Thornbury, Vic 3071, Australia, TEL: 0424009627 EMAIL: [tjohnfinch@gmail.com](mailto:tjohnfinch@gmail.com), who has contacted you already and is also a TARGETED INDIVIDUAL and a member of THE WORLDWIDE CAMPAIGN AGAINST ELECTRONIC TORTURE, ABUSE AND EXPERIMENTATION. He is an activist as well as a victim, a targeted individual who is fighting to stop the heinous atrocities of electronic torture involving implanted devices, electromagnetic frequencies, non consensual human experimentation and gang stalking. These are crimes against humanity according to the Rome Statute in that they include: 1. Enslavement; 2. Imprisonment or other severe deprivation of physical liberty in violation of fundamental rules of international law; 3. Torture; 4. Rape, sexual slavery, enforced prostitution, forced pregnancy, enforced sterilization, or any other form of sexual violence of comparable gravity; 5. Other inhumane acts of a similar character intentionally causing great suffering, or serious injury to body or to mental or physical health. These atrocities are being done to thousands of victims remotely with electronic or microwave technology. These are transnational crimes and victims have not been able to gain assistance or justice from local, national or any other authorities, a crime against humanity and that we need their humanitarian and legal assistance urgently. These are worldwide crimes and there are thousands of victims.

Sincerely,

Ms. Deborah Lamb and

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My name is Michelle Mellema, located in Encino, California.

My ex Greg Mellema rumored my daughter, Katie, now 11 years old and I are victims of CIA-NV mind control human experimentation. Please Google CIA Mind Control. My ex and her step father Greg Mellema, Abaris Training Reno NV, blabbed this whole thing to impress his new wife and his few friends. He said he sold my daughter, not biologically related to him, when she was 5 as a human experiment to gain CIA position. Dr. Dykes, Ear, Nose, and Throat Doctor, Reno NV put an implant in her eardrum and Dr. Clark Pillsbury Podiatrist Reno NV put an implant in one or both of my feet in 6/04 according to Greg Mellema. After the last year, I believe it all.

Since 8/04 when I recovered from my foot surgery I have been harassed out of a 9 year career as a Family Support Specialist with the State of Nevada Welfare Division, stripped of over \$130,000 in assets by the corrupt 2ND Judicial Family Court Reno NV, escaped Shannon Bryant's and Judge Doherty's poor attempt to commit me, all family and friends from infants to elderly have suffered some form of harassment even in different states, CIA has been all over me for months where ever I go and questions friends, and the ultimate: the court, Judge Francis Doherty a woman, completely stripped me of legal and physical custody of my daughter and she has been denied contact with me and her biological family for almost a year now. I don't drink, do drugs, have a normal court approved psychological, and before this had close to perfect credit and no criminal background.

Judge Doherty ordained that Katie should go to her step father and the best example I have seen of him is De Nero in "Hide and Seek". He has a knife fetish I reported for 2 years to the court and CPS The wanna be mother lost her own children and has a history of substance abuse just like Greg Mellema. His 5 year abuse of prescription drugs like Riddlin, Paxel, Viagra, etc. was given to the court and ignored.

Apparently all this was done to me because CIA-NV, wants me to condone a lot of criminal conduct and just shut up. They are all buried deep with Greg Mellema who can't pay a bill on time with money. Also Shannon Bryant Esq. Reno NV who hacks into his clients adversaries personal computers to gain information he can embellish and use against them. Karen Shelton PhD who took Katie from me via a custody evaluation that she let Shannon Bryant write, a lot of evidence on this turned in. She just signed to help him cover his crimes and use this king court kiss ass to gain more business. A child psychologist did this.

Shannon Bryant Esq involved me in the Darren Mack/Judge Chuck Weller case that can be searched on the Internet. It is deadly. Currently both District Attorneys in Reno and Las Vegas refuse to get back with me on my claim that Maurice Washington, Senator suppressed my evidence that Charla Mack was on the same sex personals site that Chuck Weller is on and they accuse Darren Mack of being on. I know Chuck Weller is on it because I was and he hit on me there. All evidence that Chuck Weller could have had the rumored affair with Charla Mack for court favors, just as Chuck Weller offered me at one time, is ignored. Also CIA-NV is not disclosing the information that Judge Chuck Weller bragged the very next day after the shooting that Darren Mack was set up and CIA fixed his next election so he didn't have to pay for it. The shooting was a small price. Because Shannon Bryant involved me in this without good cause, CIA-NV is upset with me for having this information. Why it is an issue in my case is because Judge David Hardy originally took Katie from me because " I may or may not have had email contact with persons that may or may not have been associated with Darren Mack". So who involved who and why?

The sad fact for CIA-NV is if the chipping thing is true, they NEED me back. I don't need them. Without me they

have no project, even with Katie. I will never stop causing them grief and reporting this while she is not with me, her mother. They have tried everything but gratifying me in ANY way. Currently the Reno city attorney and Detective Meister of Reno PD are issuing warrants for my arrest that they admit will not be prosecuted. That means I can't gain employment with background checks. Also the 2ND Judicial court BEFORE the divorce trial garnished my checks for child support based on amounts requested not from my income declaration. Judge Francis Doherty also garnished back child support while married AND took back child support from the proceeds of my real estate the court gave me NOTHING of. The decision to strip me of my child was already made, their intention is to keep me broke so I can't sue for any damages, keep my location known to them if I do manage to get a job with the open warrants, and as threatened for the last year, KILL ME. The lawsuits are huge the first being against the DOD in Caeson City Nevada that will put the JAG, LTC Dick Blower, out of his army career.

I will not go back or shut up. After their conduct no normal person would without some kind of compensation for what they stole and protection. First and foremost my daughter and my livelihood, and put the criminal fraction that wants me dead, Greg Mellema, Shannon Bryant, his friend Perry, etc in PRISON for their federal crimes so I am protected from them. They also refuse to talk to me giving lame excuses but the fact is I know them. All their personal dirt and crimes too. My answer to CIA-NV is this: You need me more then I need you and have stepped on every advantage/person you had in this situation and you had more then most.

Anyone with referrals, ideas etc to take on this civilly making big money and/or grants for cat scans, please get back to me. If the CIA implants show, then I will need an attorney that can take that on too so I and my daughter can lead normal lives again. Obviously CIA can't manage their own in Nevada.

Please add me to your list with this summary. I know a few good people in this but they are unable to control Mike Willden and Greg Mellema. Will the good suffer with the bad. The good men trying to help me just don't and I can't expect them to babysit these 2 loser men.

Mike Willden and Greg Mellema are the kind that will agree to behave then don't as soon as they have no one keeping tabs on them. Unfortunately since this is government it is too hard to fire them and they attack me physically as well now. They will always find a way to harass me and any that concern themselves with me until they are completely put down.

(1) J, (A mind control victim whom I knew nothing about) who I heard from the torturers, died during May 2002 to August 2002 in China. Her death frightened me; I had ever mentioned her death in my letters to United Nations.

(2) CLARE L. WEHRLE, described as a local transient, was crossing 34th Street North just south of Dartmouth Avenue North on January 6, 2006 at 7:40pm when she was struck by a 1991 Pontiac Grand Prix, travelling southbound and driven by Edward Raymond Peters, of St. Petersburg.

A minivan had been in front of Peters and it swerved to avoid Wehrle as she crossed against traffic. The minivan blocked Peters view of Wehrle in the roadway as she continued walking from the center lane to the median lane and was struck by the Pontiac. This pedestrian/fatality traffic crash was investigated by a Traffic Homicide

Investigator (not to be confused with a homicide investigator). There are no charges pending in the traffic crash. Most victims believed that because torturers using mind control and Directed Energy Weapons to cause her death in a car accident.

**(3) CAROLE STERLING** , On November 6, 1997, Carole Sterling, a mind control victim, committed suicide. She lived in Washington, D.C. and was tortured so brutally she was led to kill herself to escape the torture. She went to a UFO conference years ago and it was there she noticed she became a victim.

**(4) NADINE ELAINE MITCHELL** (May 16, 1938 - August 5, 2006) Last Saturday, August 5, 2006, a fellow-target passed away due to her injuries rendered physically and psychologically via covert harassment. In speaking to those that were close to her, she suffered greatly, especially in her last days because of the cancer, directed energy weapons and non-stop group stalking activity. Here is a link to her online obituary:

**(5) DARIN SMITH**

From Jennifer M: I received a strange and sad phone call tonight. A woman was going through her boyfriend's cell phone to find out who he had been in contact with prior to his suicide. It was a TI who had contacted me in June about targeting. He described what was happening to him first in an email to me. His name was Darin Smith, a member of the Coast Guard. We talked on the phone for about an hour. He was very supportive to me and seemed to be knowledgeable about the technology. He knew what they were doing to him, but he didn't understand why or how they did it, like most of us. He shot himself in the head, while driving, on Aug. 31st. 2006.

To any of you who knew him, I am very sorry. His girlfriend Tiffany, was asking me about this group. I'm still freaking out. He seemed so strong, when I last spoke to him in June. We have to stay tough guys. I'm having a hard time processing this, but I know that this is a supportive group.

Please add Darin's name to any memorial group or list we have and let me know if you need more information on the case. Sincerely yours, TI Jennifer M.

**(6) RENA** from USA suicided

It is with great regret that I inform my fellow TIs that a fellow TI has committed suicide.

Her name was Rena, and she had a brief blog that she kept at the following address: <http://tinyurl.com/4knhho>  
<http://multistalkingcallforaction.blogspot.com/>

Over the last couple of months, she and I had become friends. She had stayed over at my place a couple of times, and we shared our stories. She had also been a victim of the electronics, as many of you are. I had hoped to perhaps engage in a relationship with her, and now she is dead.

Rena was a very sweet lady about my age, who also happened to be legally blind. What these bastard pig shit sewer scum gangstalkers do is evil. I am just sick right now, and I can't say anything more.

**(7) JOHAN HELLER** --A Sweden Mind Control Victim died from a heart attack (we believed that was an artificial heart attack) This bad news was firstly brought to us by Sherry Bell a Ti, one his good friends in USA. and forwarded to us by Monika Stoces [monika.stoces@gmail.com](mailto:monika.stoces@gmail.com)

Our friend Johan Heller (Sweden) had passed away last week. He died from a heart attack while he was in the Philippines. Probably this was a result of the abuse of remote technology on his body and mind for several years.

He got targeted consciously with electromagnetic weapons in 1999.

In 1999 he lost his children and wife as a result of this, nobody believed him this was happening He lost his work being a computer programmer. And he accepted forced antipsychotic medication that strongly damaged his health. This disbelief and ignorance of what was happening to him, also from his second wife in the Philippines since last year, made him suffer deeply, in fact the disbelief was the most painful part of it, as it is to many others. This story once more should tell us all that there is nothing more important than what is happening to us and to thousands of us worldwide. I realize that we have only one life, and that ignoring reality and acting as if nothing happens, it impossible and totally wrong.

**Our reputation is totally unimportant in comparison with this crime, we must break the silence and face reality, ignoring these historical crimes , is as wrong as denying the existence of the concentration camps back in world war 2 .**

**This must be exposed, and only by exposing ourselves, all the people who know this already, we can do something. So many targets worldwide, only need to find each other and work together! WE SHOULD NOT BE SCARED TO SPEAK LOUD AND OPEN ABOUT THESE EXPERIMENTS ON PEOPLE. THIS IS HAPPENING ON SUCH ENORMOUS SCALE, THAT WE SHOULD BE ASHAMED TO IGNORE THIS, TO WAIT AND TO HIDE ONCE WE ARE AWARE OF IT.**

**I DEMAND AN INTERNATIONAL INVESTIGATION INTO THESE CRIMES AND HUGE VIOLATIONS OF HUMAN RIGHTS!**

**15/10/08**

You have reached someone in the United States who has been a victim of human rights violation and torture. Forms of psycho tronic weaponry was used on me for a period of almost 3 years starting in Pawtucket, RI ending in El Paso, TX. Despite the fact that these were real people stalking and harrassing me night and day no matter where I went I could not get it stopped. I had no way of tracing them although I did have a few clues. I have had other things happen to me as well that are more realistic and also deliberate including being caused tinnitus, brain damage, damage to my extremities, and a hematoma when a car was deliberately run into me. All this by a former supervisor and instructor who sought to take advantage of letters I had written in the hope of fame and fortune.

I had to quickly send the e mail but I wanted to elaborate more on the torture I experienced. My brain was as if it had literally been opened up. It did not require receptors on my part to be stalked and harrassed but I'm thinking I might of been a good target due to the injuries I had sustained which were deliberate. The FBI was in on it and it was totally inhumane as well as un American and anti American. I know I would be a rich woman if I could ever sue over it. They don't need cameras of any kind to view you. They use you for everything they need. To see with, to hear with. They were doing it though for the benefit of others and not for me so I could say I had been turned into a human test subject. Mine played out over the TV, radio, and phone lines. Pleas to get it

Pleas to law enforcement to get it stopped went unheeded and instead I was mentally committed on several occassion and forced on drugs which I am now sick from. But it is possible to read a persons mind without them uttering a word. I know this because I witnessed it first hand. I was it's source. They are able to in effect slice a persons brain open to the point where it no longer becomes your own. Your brain is on public display like I was. It was horrible what was being done to me. I did not keep a journal as I didn't want to because I knew it would be used against me. It was one of the most torturous experienced I've ever been through and it actually happened. They were with me all the time and followed me everywhere. They became a part of my life. Unwanted and unwelcome.

Sorry, I just wanted to stress that there was nowhere to hide from my attackers. They were able to penetrate any locale you were at no matter where you went. I moved from state to state and they were still able to follow me. This type of weaponry needs to be banned because it does exist and it is real. There is no hiding and no relief if you're targeted unless you do as they say. Mainly drugs. They'll even kick you out of housing if need be which happened to me.

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

HOW I FOUND THE MANUAL TO LIFE, My testimony (1-15-2008).

What you are about to read in these pages may seem to be a diabolic nightmare. One time I heard that God whispers to your ear before He throws you a brick to call your attention. Only this horrifying experience could send me in a frantic search for God.

I lived a laid back life, and I thought I had what I needed. All of the sudden I found myself lying down on a chicken house dying in pain, struggling to breathe, forgotten by all, and with no hope. I begged to the Lord for my life so I could serve Him. God answered my prayers. This trial has shown me that we have a living God that punishes the same way a loving father punishes his children.

I had lived an honest life. However, I did not have God on my heart. I was arrogant, proud of myself, always criticizing others' mistakes, wise on my own opinion, and I had an answer to everything. Without knowing, I was like an animal going to its own destruction. I got married for the third time in 1994. A year later I started Law School in the State of Michigan. My plan was to work as a lawyer to help the poor. If I could make the same money I make working as an auto-mechanic while helping the needy, I will be killing two birds with one stone, I thought. However, my thoughts started to change by the second year of law school. I started to think that maybe it was not right to study day and night to help those who probably were not going to appreciate it. I did not know that the tribulation was near.

Everything started when I found evidence that the Law School was a big fraud. All of the sudden I found myself on the emergency room with chest pain, and difficulty to breathe. Something was telling me that my maladies had to do with the evidence of fraud that I had found. I became the subject of road harassment by weird people, and I felt like electrical shocks all over my body. I moved from my apartment, and placed aluminum paper in between the covers in my efforts to ameliorate the pain and be able to sleep. I would go from place to place looking for a place to study to no avail. The harassment was following everywhere I would go. I was confused, and many times I was asking myself whether I was losing my mind. The harassment was worst every day, and I returned to my hometown, Mission, Texas. It was July of 1998.

I started to work as a mechanic. However, the harassment followed me even to the work place. The pain and the diarrhea forced me to leave to Reynosa, Mexico. The harassment almost disappeared there. I decided to return when my wife became pregnant. I wanted to take to court the culprits of this harassment. I tried to find an attorney to no avail. Is very difficult to win a case against the federal government I was told. One attorney send me to see a Christian attorney, because according to him, this attorney could help me out. I went to his office and after explaining my case, the attorney told me that he was a servant of God, that he worked honestly and did not make a lot of money, then he could not take a case that was to take a lot of time and expense. "Let me pray for you," he told me. I came out of his office disappointed, feeling insulted. This guy wants to fix everything with prayers, I thought, without knowing that I was on a long road to realize that the solutions to all of our problems start with sincere prayer.

I filed a law suit myself against the Law School. I know the law, I can do it myself, I need nobody, I thought. After three years of litigation, everything came out wrong, I thought. What I said before the courts was not what I had prepared. Without knowing, the Lord had placed wise words on my lips. The harm caused by the overexposure to radiation had divested my body of the ability to tolerate environmental radiation. I had to spend

the afternoons in the country side to be able to work. There, I started to read the Bible. I grabbed the book like someone grabs a life saver on troubled waters. Something was telling me that on that book I could find the answer to my problems. I had sought an education seeking wisdom and intelligence. However, the more years of study the more confusion I found, but I learned how to appear educated. I did not know that an education without God takes you away from Him, and that the wisdom and intelligence are found on the way seeking God.

Maybe this book has a trick, I thought. It's almost a thousand pages, but I am used to read more in three months, so reading this one is going to be a piece of cake, I thought. It took me a year to read the Bible for the first time. One time a pastor told me that unless we have the spark of God on our hearts, just reading the Bible is like having a car without battery.

The Lord gave us our daughter Kim in the year 2000. Ivan came the next year, and then came my daughter Karina. I was getting worst every day, I could barely work. At the beginning, I tried to persuade myself that the electronic aggression had ended, and that what I was feeling was just the pain caused by the environmental radiation. However, I would see my children screaming in pain in the middle of the night at the same time I felt the electric shocks. It was torturing to see my children in pain, swollen and disoriented, but I could not run into the street asking for help without risking being locked up on a mental house. To begin with, my family could not understand how the lights, the television set, the fridge, or the air conditioning could cause me swelling and pain. Some thought that I was crazy and was making excuses not to work. I was the object of ridicule, insults and scorn. My family became also my enemy.

I sought help and understanding with those who appeared more intelligent to no avail. Not even the more educated could contemplate the possibility that advanced and invisible technology could be used to torture and murder at a distance. I found myself on the dark tunnel of misery and despair. One day, crying with my daughter on my arms, I asked the Lord to help me demonstrate to others that this aggression is real. The Lord answered my prayers.

With the evidence necessary, I filed a law suit against the only one that could be responsible for this infamy, the federal government. While the case went through the courts, I tried to stay away from my children, to spare them pain and suffering. I asked the owner of the shop where I was working to allow me to stay there after explaining my tribulation. A few weeks after, he asked me to leave, because he could not stand the pain and was concerned for his children. Things became worst after the case reached the US Supreme Court. I asked my wife to take the children to the ranch of my in-laws in Mexico.

A few days after, a police officer came to my door with an order of arrest. My mother had been persuaded that I was neglecting medical care, and that a State hospital was able to cure electrical sensitivities. Without knowing, my mother was sending me to a mental hospital. There, I presented the medical records of my condition that indicated that I could not stay inside a building for extended periods of time. I was ignored. I spent the night on the emergency room with a swollen heart. During the psychiatric evaluation, the doctor claimed not being familiar with electrical sensitivities. To him, my claim that I had a pending case on the US Supreme Court was delusional, he said.

I asked the Lord not to let me die there because I did not want my children carry the stigma that their father had died on a mental hospital. The Lord answered my prayers. The same day, I saw a gentleman walking by. He had a look of peace and harmony in his face. I asked him if he was a doctor, and he said, "yes, I am a doctor here." I asked him if he was familiar with people with electrical sensitivities. He said that he had studied several cases in Greece, the place where he was coming from. After making a psychiatric evaluation, he said that the only problem I had was to explain to others that I am sensitive to electricity. My wife and kids were waiting for me at home. A month after, the swelling and pain aggravated my breathing problems, and I was taken to the ranch of my in-laws in Mexico. The electronic aggression almost kills me the same night I arrived there. There was no doubt, the radiation was directed by satellite. It was May of 2003.

It is difficult to believe that death can come from satellites, I told my in-laws, as I was lying in bed, on the patio looking at the stars. The pain was so intense that I could barely breathe. Every day seemed to be the last. What is happening to me is bound to happen to you too, guys, I told them. Unless we do something about it, no even the chickens are going to make it, I said. This is like placing us inside a microwave oven every day, I explained. Only God can save us from this, but it would be tempting the Lord if we do no do anything to defend ourselves, I told them. The wise thing to do now is to get together as a family and send letters to our congressmen asking for an explanation to this case, maybe that could help, I explained. Please do it for my children, I begged.

One day, one of my nephews came for help on a homework assignment dealing with satellite technology. I read aloud one paragraph explaining how satellites are equipped with powerful lasers and other lethal technologies. It was horrendous to hear my in-laws complaining of pain all night. My mother-in-law thought that this was witchcraft. Although she was a servant of God, the pain made her to persuade me to go and see a witch. Thanks God, the lady was not home. One day I felt the need to go to church. I cried when they placed their hands on my head. Without knowing, I was surrendering to the feet of Christ. It was wonderful.

I asked the Lord to see my desire to serve him with all my heart. However, I felt unease when I invited the Holy Spirit to come in me when my head was full of arrogance, envy, hate, resentment, and revenge. Little by little I started to get rid of that evil, replacing it with love. Without knowing, I was entering real life. I shared with the congregation my efforts to purify my mind. I said that we have the habit of judging others by appearances. "And we think bad of people most of the time," said one of my sisters in Christ. It was true. I realized that the only way real life is to sincerely make an effort to treat others the same way we like to be treated. I had been like a beast before God. When it dawned on me that the Son of God had asked for forgiveness to those who were whipping, and spitting Him, I started to pray for those who are procuring this evil to us. Things started to change when my prayers became sincere.

When I felt I had only a few days to live, I came back home to see my children for the last time. Thanks God, I started to feel better, and I was able to work. However, the electronic aggression became stronger even at the work place. One day, I was on my knees asking the Lord to provide what I needed so I could demonstrate to others that the electronic aggression persisted. At that time, the telephone rang. I had been on a radio talk show explaining my tribulation and the producer was offering me detection equipment. At the right time, the Lord has been giving me what I need to show with facts that this evil plan is real.

I have tried to explain every which way this complex technology to no avail. Only those who have an intimate relationship with God have been able to discern my tribulation. Prayers that evil does not harm my children have been answered. My daughters' speech problems are getting mild. Karina had grown a tumor on her foot and could not move one finger in each hand. The tumor disappeared one day before the surgery, and now she can move all of her fingers.

What I thought had come out wrong on the courts came out to be right. Although the litigation did not stop the electronic aggressions, and even when some judges attempted regard the case as delusion or fantasy, the record established as a matter of law my mental stability and the fact that satellite technologies are in use to torture those who denounce injustice in a way that others may not perceive the aggression. This evidence can be used by other victims. The Lord has given me the opportunity to encourage other victims to seek help from the Lord. I explain that it is more likely that the Lord would help one of His servants than helping one evil from another evil.

The road harassment continues. There have been attempts to run over myself and my children, I have been the subject of death threats, and I have been labeled as child molester, drug dealer, and mentally insane. It is sad to see in congregations, some of those engaged in this evil. The electronic aggressions occur even when I am helping my children with homework. Although the pain stays with me day and night, the Lord has given me the strength to deal with this trial. Even in the agony of the pain I feel the joy of having placed all of my faith and confidence on God. I know that the Lord will keep in perfect peace those whose mind meditate on Him. Now I can say with confidence that to live is Christ and to die can be for the better. I know that everything comes to be right to all who sincerely serve the Lord. Please pray for us and for those who procure us harm.

#### SLOW ELECTRONIC MURDER OF JESUS MENDOZA & HIS FAMILY

View His Video: <http://www.multistalkervictims.org/other/video/maldonado.wmv>

Electronic murder assault target Jesus Mendoza of Mission, Texas brought his case to the world's attention two years ago on The Power Hour radio broadcast. He has been under heavy electronic and stalking attacks, particularly when he is at home, and particularly when he is in the company of his children. His children also suffer these attacks, even when he tried commercial faraday cages (electromagnetic shielding enclosures) around his children in bed, furnished by a specialist in electromagnetic hazards. (The cages didn't help.) His case is also somewhat unique in that he has been able to videotape both non-ionizing EM and ionizing (xrays, gamma rays, radioactivity) radiation readings on his several meters, and these readings tend to drop when he switches on the camcorder. Some articles relating to Jesus Mendoza's case are posted on: <http://www.raven1.net/mendosa.htm>

As of September 24th, 2005, Jesus reported that he is receiving death threats. No doubt this is in response to the

Video which exposes the torture he and his family are enduring. His incoming and outgoing emails are read and sabotaged -- especially when they are from persons offering help or relevant information which pertains his slow Electro magnetic murder. His telephone calls too are under heavy surveillance and are being controlled. All members of his family including his children, wife and in-laws -- are literally being electronically cooked o death. And now, finding himself almost unable to breathe, and with barely enough energy to function, Jesus is bedridden much of the time. The blood seen in his eyes indicate broken blood vessels. See description below.

*"Heating the victim to death, by microwave cooking is caused by increasing the field intensity of the radiation, to cause local hot spots in the victims' eyes and gall bladder, which have poor circulation, so cannot carry away the heat. Irradiating the optic nerve of the victim with the same signal that is sent to the brain by this nerve, causes the nerve tissue to overload. In this way, subversives can be blinded by the intelligence community without them knowing what has occurred." -- Tim Rifat*

I sent the same email content to Galina Kurdina yesterday, 03/31/2016. As she still did not answer me and my situation is serious, I am sending this same email for you and other members of the Organization of Victims of Torture Psychotronics.

Mine is Helio and I'm from Rio Claro, São Paulo, Brazil.

I am suffering all kinds of imaginable psychotronic torture: handling and recording thoughts of images, dreams and memories,

Intracranial voice, synthetic telepathy, controlling sleep patterns, reading my thoughts.

For everything I've read about it I'm sure they are trying to deploy images and trying to put my self, so I stay in a vegetative state.

But for all who have suffered and all that happened to me, I think I'm just being the guinea pig of a much larger and revolutionary project for the development of new technologies psychotronic torture, including the participation of Brazilian universities in this project.

Among the reasons that lead me to believe it is that bought QuWave Defender and did not block any symptoms of the attack. However, the most aggravating and scary fact of this story is that the attack started from my own family. This began 07 ago when I fought with the boyfriend of my sister, who is a university researcher. Somehow using and do not know what kind of technology, he was able to get my brothers and mother hated me. I've heard through intracranial voice, my own mother tell me you hate me. All but all people the same, whether they know how much I know not attack me.

It's scary, but they are getting a mass control people. Proof of this is that I went to Paraguay, neighboring country to find a little peace and even there, in areas where understand my language was attacked.

If my case interested in and you can help me, please answer me. I do not know how long it will take.

Hello and thank you for your emails!! Please let me know that you have received this email.

Please add me to the list of victims.

My name is Andrea Metz and I live in Colorado.

Targeting began in 2012.

1. 2012: Full medical records acquisition over 1 year along with invisible surveillance, loss of business clients. (cost: \$50K) (Hands/arms Chipped) Set up to do a SARS incident to get me in the program. Client - Audubon - put me in the program with local mental institution who is fusion center.

2. 2013: Overt surveillance: 1 mo

3. Gangstalking: 3 mo

4. 2014: DEW's leading to hospitalization (brain/nose chipped), 3 days. Forced mental hospitalization: 2 weeks

5. 2014-2015: Torture: 2 years:

Forced learning: read books (on state sponsored terror) go to movies about extreme experiences. Forced naps (10), Mock execution, terror mindset 24/7, BCI hookup, remote rape by doctors - took DNA samples from cervix (for Cloning purposes?? genetic profit?), terror ramps over 1 week's time - getting stronger and increasing each day, starting where they left off the day before, at the end of this was a Suicide program. Sexual harassment, gastronomical pain and terrible smell, mind control 24/7. Loss of business, arrest, jail, restraining orders, work release, car accident, shattered tree, non-forced break-ins, theft of digital equipment and notes, forced to burn notes, smash phone (evidence), harassment of all kinds, chips in hands, arms, legs, nose. Music torture. Forced to spend money on home projects (Home Depot fully involved) Mind control - Satanic entity took over my mind and thought through it. Thought backwards. Full mind control of moods, thoughts, actions. Hit myself in my sleep - awoke with giant, deep dark bruises on my arms and legs. Sleep deprivation 3 days, used for punishment and control at end to keep me from retaliation. Forced to sit in front of computer 16 hours a day studying this

phenomena, for all the experience sets of learning about it - to eventually block it from public knowing or believing. (Suspect my psychologist is related to Mengele.) 10 more forced naps. Forced institutionalization: 2 1/2 more weeks.

5.5. 2015: Covert Cat Scan with radioactive tracer, during heart scan, Glenwood Springs Hospital, March 28, 2015, for future lobotomy work.

6. Remote Lobotomy, September 10, 2015, in my home (suspect it's ultrasonic). Doctors appt with 5 police - handcuffed and forced to hospital for MRI, Dec 3, 2015.

7. Forced institutionalizations: 2 weeks; Total: 2 months.

8. Loss of entire family/friends's support. All think I am mentally ill. Cannot even consider anything else. Beliefs are completely controlled. Mind controlled 100%.

9. Complete loss of feeling in my brain: completely numb. No sense of panic, anxiety, worry, loss, happiness, love, attraction. Nothing. All gone. No motivation.

10. Put on SSDI and labeled with 4 severe mental illnesses. Put on drugs. Threatened with further lockup. Police involved and threatening or ignoring.

11. Cats tortured and chipped - surveillance. Constant mind reading. Complete brainwashing of all PTSD From torture. Lobotomy took entire emotional library. No feelings left. Only mania and depression, and rage.

12. Complete Censorship of all communications. Complete control of my emotional state and mind control. Cell Phone is use for neural modulation and emotional state changes. Neurosurgery.

13. Financial destruction, social destruction. Life and mind destruction. Intent was to make me mentally disabled for life. All life goals and desires are gone from my mind. Not allowed to get a new doctor or go to a neurosurgeon to find out extent of damages. No lawyers will help.

14. 2014-2015: Driven to NYC and back to Human Rights Non Profits to report - no response. Flew to Washington DC and back to Brennan Center for Justice symposium on Gov Oversight with FISA Court and ACLU. No response. Sent letters to Senators, President, Attorney General of US. No response. Reported to City attorney, US Attorneys, Colorado State Attorneys, ACLU. Flew to San Francisco to report to EFF. Slammed door in my face-controlled opposition. Etc etc etc. No response. (cost of escape, protection, efforts to tell: \$50K)

15. Complete denial and redirecting of belief to victim that this is a mental illness, rather than neuroweapons testing, by mental health professionals. Part of the study of conflicting beliefs and the entrenchment of belief and how it is created by having the person you need help from refusing to believe you, and telling you that you are wrong, and that if only you believe you are mentally ill will you be able to get 'well'. You can get well, but you must believe you are mentally ill instead of being tested with neruoweapons. This is the ULTIMATE TORTURE. It is also programmed into the family.

16. 3 people I knew died during my targeting - and it was pointed out to me, in a note from the mental institution after my first visit in 2014 - that I might have stress and how to handle it, like when people die.

Other considerations: this program is a racket for the NWO. Bankers and SS are making, going to make, trillions off the intellectual property stolen from families, including DNA info, experience-sets info of business/jobs, social networks, memories. Will be packaged and sold to the world. Torture sets can be used on AI to control them. Alzheimers can be implemented with hookup to mind clones for full control of memories of populations worldwide. Belief systems all changed. All written material made into neural network experience sets and overplayed with other information or blocked beliefs, or hypnosis. Entire populations hypnotized to not be able to hear a TI when they speak. Complete impunity for the Criminals and NAZI's doing this: CIA, NSA, FBI.

Lesson to 700 doctors in Operation Paperclip coming from Nazi Germany: Never leave evidence of your crimes, and never get caught.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

This is Barry Michael writing again concerning the situation of being mentally monitored/harassed in Baytown , Texas , by a group of perverted anti-psyhic criminals who are utilizing both telemetric software and microwave transceiver array towers to mentally abuse telepathic individuals in the U.S.

I am a person who has understood for some time that he exhibits an increased intensity level of brainwave activity in a frequency spectrum generally spoken of as telepathic. I HEAR these frequency ranges as they are broadcast via microwave. We live in a microwave permeated environment, both indoors and outdoors. This is why our cell phones ring wherever we go. It is also why we can pick up radio and TV with an aerial. We are very much like an aerial ourselves IF we are an individual like myself who is sensitive, and Aware of their sensitivity in these frequency ranges.

The software being used is Telemetric, and carries wireless medical type data, including my Brainwaves, my

systolic and diastolic pulse timings (from which can be derived blood pressure, anxiety levels, relaxation levels, etc.) This is NOT new technology, and is used every day by NASA to communicate with satellites, the space station, the space shuttle, and individual astronauts. There is No reason to understand that it is NOT used on the ground as well.

This software uses high speed internet lines on the backbone itself, in discreet IP addressing sessions. Using a dual leg ISDN line or a T3 line, real time brain wave content can be read from any individual whom the software picks up telemetry data from on the target system to which you are logged on. This program has been partially described in a previous email, and I will continue to describe it in further detail later.

For now, it is enough to say that this software was obviously originally designed to communicate with telepathic individuals in a bidirectional telepathic, telemetrically-based communications session. It was recognized at some point by DARPA and the DOD to be potentially Very useful as a clandestine surveillance system, which, for some government agencies, such as the CIA, had the added advantage of being able to do things that made telepathic individuals very mentally uncomfortable. For that reason the software was developed toward the direction of mentally intrusive mind control software, including modules added to effect in a detrimental fashion a persons memory, freedom of thought construction, ability to protect oneself from dangerous more or less silently "pushed" programming content, which is exactly like the techniques developed by the CIA before this particular technology was available.

Unfortunately, some VERY sick individuals thought it might be necessary to Physically intimidate people with this software in order to impress upon a telepathic person the need to obey the instructions of whoever was the "operator" of the moment. With this in mind they have introduced Digital Oscillators into the system. Each SGI Indigo or Onyx supports multiple instances of these through DSP. These oscillators can be placed anywhere within the cerebral cortex of the "Subject" with a mouse, dragging the "Send Point" to which the oscillator is assigned to any particular location within a 3D image the human cerebellum on the screen. These can be adjusted to any of a range of frequencies and adjusted in "Intensity". These range from annoying to extremely painful, and are intended to intimidate and frighten the subject, or better stated, the Victim, of the operators' attention.

For the past 3 weeks I have been subjected to an ever increasing level of harassment by several operators simultaneously IPd into a multiplexer or a system which is supporting multiple discreet IP sessions, supposedly being run under the "Good Graces of someone claiming to be one or another member of an FCC "Investigative Tech Support Team". They CLAIM to be working with another group of people represented by a person claiming to be in a supervisory position, who are an Investigative Enforcement branch of the NSA. They claim to be arresting large numbers of these individuals who seem on the face of it to have access to an inordinant number of these very expensive SGI computers. I find ALL of this to be highly unlikely. They all claim that as a result of my email campaign, a lot of peoples attentions have been drawn toward the situation of this group of criminal terrorists and mind rapist having gone berserk in their supposed hatred of telepaths and psychic people in general, such as others who exhibit abilities such as clairvoyance or psycho-empathic skills.

This fits into the rather over-the-top and equally highly unlikely aspects of the Supposed belief system of these "Miscreants Association" operatives, who are SAID to believe that "Getting Over" on people is absolutely necessary for them to be able to succeed in life. A telepathic person, being able to, at least to some extent,(varying from telepath to telepath of course) understand what another person is thinking, is able to discern a persons ulterior motives in dealing with people. This proves to be undesired by a person who is basically a professional con artist. They DON'T want people to understand what they are up to, making a telepathic person a natural danger to the success of their criminal activities. Thus, they exhibit the avowed hatred of Telepathic individuals. At the same time, juxtapositionally, they want "control" of a telepathic person, understanding how valuable the person might become if they Could possibly be utilized as a Component of these criminal plans. These "Miscreants" claim they both Envy and Despise telepathic persons. Their methods of gaining this "control" over people, both telepath and non-telepath alike, are the classically understood methods of organized crime. Blackmail, intimidation, coercion, threats, extortion, i.e., whatever it takes to get that person to "Capitulate" to their program or agenda.

Now, I propose that this whole story is about the most preposterous bunch of bullshit that anybody EVER concocted, and is intended, as much of the CIA program of mind control has been intended to do since the fifties, to make me, Barry Michael, Naive and gullible 54 year old telepath, as completely confused about what is REALLY going on as anyone has Ever been about anything.

The question arises again. Why? Why me? Obviously I am a telepathic person. I was originally contacted in this

way about 6 years ago. I Was incarcerated for about 10 1/2 months and was picked again on this telemetric computer system in a Tx. Prison unit. So it could be a matter of me being a once-incarcerated telepathic person that someone still feels the need to track. There is obviously a lot of Time being spent on my being constantly monitored (24/7), several individuals involved, a lot of hardware and high-speed access as well, which translates into expense. Now, even if this is an established group which is actually monitoring Several individuals at once, giving each one a personalized "Scenario", as the CIA calls it, you STILL have to ask yourself: WHY? What do they Actually want? They say to me regularly, "All this can end, I will end this immediately if you will agree to come to Austin, Tx. And become miscreant. We want to give you a job doing exactly the same thing we are doing to you, to other telepaths, so that we can gain control over them. If you don't capitulate, we will keep doing this for the rest of your life."

Now the story they WANT me to believe sounds as unlikely as any fiction you will EVER read. My email has brought in both the FCC, because of the high-speed lines and the microwave towers being misused in criminal fashion, and the NSA because the FBI was completely penetrated and infiltrated by this group of miscreants as far back as several years as part of their program of gaining a controlling influence and, I suppose eventually, a measure of control, over state and federal law enforcement and politics, with an eye to consolidating their control, power, influence and security against whistle-blowing persons such as myself.

I HAVE been emailing the FCC Hotline, The NSA, the FBI IC3 div. (Internet Crime), the Whitehouse, DARPA, and others, so there is a cast of characters supposedly supplied by myself through the interest being generated by my email campaign. They are purportedly arresting these people wholesale in Texas and elsewhere, although the number of arrests seems to vary wildly every time I enquire. I guess this is to point up my stupidity, which they seem to thrive on. It is VERY obvious that this aspect of what they SAY is going on, is a Complete fabrication. Even the LOW numbers of arrests (such as 70-80), would draw a LOT of attention. It is therefore Impossible that what I am being told is even anything remotely LIKE the truth.

I seriously suspect that rather than a group of people made up of employees of government agencies, what is REALLY happening is that I am being dealt with by a single group of operatives, some of whom pretend to be these "miscreants" with their wildly unlikely pseudo-philosophical hate-based agenda, some of whom pretend to be other telepaths who have also been subjected to this type of mental harassment, some of whom pretend to be FBI, NSA, FCC, and yes, even CIA.

This is MUCH more likely what is really happening.

Who are they? I have some ideas on THAT as well. They MIGHT be a federal law enforcement group, who are tasked with the location, tracking and constant harassment of telepaths who were discovered in incarceration. They MIGHT be a private organization who has contracted their services to the federal government. They MIGHT be a department of the federal government itself, such as DOD, operated through DARPA as the research branch and and either the CIA or a special military branch as the operatives. I have often thought that these people, or some of them, Might be military intelligence. This could Very well be an initiative that, since 9/11, has fallen under the auspices of the Dept. Homeland Security, i.e, the Patriot Act, which would, I supposed obviate any need on their part to be worried at all about depriving me of my civil or constitutional rights, wouldn't it?

Among the cast of characters involved, are two who bear special mention. They call themselves Sarah Montgomery and Angelina Tomasina. They claim to be federal marshals who are also telepaths. They claim to be bisexual women who are in love with one another and that they have been living together, at least off and on, for some 3 years or more. They both claim to have both gotten mistakenly involved with this group of mind rapist and terrorists (read here Organized Criminal Activity).

Sarah seems to have been monitoring me almost constantly for the entire time I was incarcerated, and the whole 2 year "scenario" has been geared toward having me believe that she has been protecting me as much as possible from the full wrath of the "miscreants". I say Seems to have been, because it is Very obvious that there are a number of women who have been trained to sound like "her". This lends itself very well to the suspicion that this is an "invented" personality. It may be that one of these people really Is a government operative that has somehow gotten into the trust of this organization.

Now it begins to look again like I am actually investing this "Scenario" with some modicum of belief. I assure you this is NOT the case. The Methodology developed by the CIA repeatedly makes it very obvious to the subject (read here "victim") that the tapestry of false reality that is being woven is meant at some point to go beyond ones' ability

to actually believe. The details of the scenario become so over the top in a way that is clearly meant to look like fiction at some given point, that it is really seen to be that one is meant to lose one's sense of being able to differentiate between reality and invention. The scenario begins each time with believable characters and details, but becomes over time so elaborate and obviously invented, that the subject understands that they have been led to suspend their disbelief very skillfully, only for the reason of letting them understand how easy this is to accomplish. This leads the victim into a mental instability where they are aware that the fabric of their belief in reality is being repeatedly and methodologically torn up and reinvented, effectively pulling the rug of reality out from underneath the "Subject over and over again.

In my case, rather than leading to instability, which WAS exactly what happened at first, it has gone so far beyond that, that I have now reached an entirely New level of mental stability in which reality is Totally relative. I can understand that some elements of what is being told to me MIGHT actually be the truth, and at the same time am aware that there is a high probability that NONE of what is happening in this electronically enhanced (via Microwave delivery) telemetrically telepathic environment is real or factual (i.e., truthful AT ALL)

Several things need restating at this point.

- 1.) These operatives are VERY highly trained in this software environment.
- 2.) The point is confusion and mental destabilisation.
- 3.) There are expensive systems being utilized, as well as high speed lines.
- 4.) It is happening ONLY because I am a telepathic person who has receptive capability of the broadcast content of this system.
- 5.) There is a very obvious lack of moral or ethical control of these operatives, as the content and the abuse of the subject mentally is tantamount to mental rape on an ongoing basis.
- 6.) Whoever is in control of this project is a total sociopath and has a pathological need to injure telepathic persons
- 7.) All this leads to the obvious conclusion that this could not Possibly be happening in the United States without government sanction and approval, pointing again to either a privately contracted (by DOD) group of perverted anti-psyhic animals, or a division of an equally demented intelligence agency, or a specially trained military ops group (PsychOps)
- 8.) I am not meant to EVER understand the real reason that someone finds this worth their time and effort, pointing to myself being merely one of any number of subjects of an ongoing project. That is the ONLY way it makes sense or could be at all economically feasible.

These points are hardly debatable at this time. I am closing this installment of the TRUTH, and will begin mailing it. The next installment will describe the entire cast of characters and their purported roles in a war against a real or invented terrorist group working within the country. Again, when this story is told, I will constantly remind you that it is never going to be wholly believed by myself as it has been revealed. I am a person they should have NEVER chosen for this kind of treatment. I am NOT afraid to make as much noise as possible for as long as possible in order to make this mental abuse and mind rape end, for myself AND other telepathic individuals in this country AND abroad. There is a great increase in the rate of the evolution of the human species at this point in time. Our health and longevity have increased by a large amount since just the forties (1940). We are on an exponential scale of the rate of evolutionary change that is taking place in this, the beginning of the 21st century. The number of telepathic individuals in this country AND abroad is ONLY going to increase in the next two generations. Obviously the government is aware of this. Someone put this program in place ostensibly to understand or control it, so as not to impact American society in an uncontrollable manner. However this group that is working on me is totally OUT OF CONTROL. The methods they are using I have already understood, as I have said, were developed by the CIA in the last fifty years for mind control, interrogation, and surveillance purposes. I might suggest that this program should have been populated with clinical psychologists with a familiarity with telepathic experience, rather than wannabe psychops spook types, who are VERY DANGEROUS and are working in an unchecked manner.

My intentions at this point are to make enough noise in enough places as to be unable to be "disappeared". I also intend to publish as much material as possible on these experiences, as soon as possible.

This group's campaign against my mental and physical health has been deliberately ramped up as a result of this email I have been sending. They are currently placing multiple digital oscillators within my cerebral space telemetrically around the clock, inducing Extremely uncomfortable effects which are designed to intimidate me into - What? - I AM going to figure that out, believe me I am.

27/10/08

This Barry Michael - Real Name - Still around- Still mentally monitored - Really starting to figure things out.

You wouldn't happen to be using your computer for VOIP point to point discreet IP sessions using something like Telnet, would you. You wouldn't happen to be IPing into a telemetric computer system yourself would you?

What you are describing is a technique used by professional criminal hackers and also by government IT Specialists. The government only does this if they are seeing odd looking IP traffic. DARPA developed tools over seven years ago that can look for specified types of IP traffic. There are some types of traffic such as VOIP or telemetric data streams that Very easily located. Especially when implemented using discreet point to point IP sessions. There Are government systems set up to look for this type of traffic constantly and to automatically home in on it. You Must realize this type of surveillance is Absolutely necessary for national security purposes.

The internet backbone began as ARPAnet - It consisted entirely of low speed phone line modem connections between military installations, DARPA, and university/corporate research facilities. This grown into the Backbone as we know it, but DARPA is Still the research group that understands the most about its' content and traffic.

It might also be pointed out that the internet backbone is Not public broadcast space. In this country it Is government owned and operated. ISPs are Licensed to Rent You access to the backbone. It is Not a right, but a privilege.

With this in mind, it becomes even More obvious that the persons or groups who have been given access to this neural-computer interface, which by the way DARPA Has Completely perfected as long as six years ago, are Either criminals who have gotten their hands on the technology in order to intimidate and coerce those persons whose mental abilities make them locatable by this software, Or it is some group authorized by or within the government itself. This Is particularly disturbing, because if this latter option is actually the case, these people have been given these methods of operation which are, no mistake about it, Mind Rape, pure and simple. IF these people Are government or military personnel, it means that our government has adopted, sometime in the last six years (since deployment of the software), a Very ugly mous operandi towards those of us who are so easily picked up by this neural-computer interface, and is making us the victims of remote transcranial electromagnetic stimulation, either for experimental purposes, or to train personnel in the software and its methods of operation in terms of surveillance. The Real problem is the aspect of surveillance that include digital oscillators introduced transcranially at extreme levels of intensity. Sometimes multiple oscillators at multiple frequencies. Sometimes "push" is applied to increase the pain induced by these operations. This combined with them telling you what is happening in your upper level mental content or "private thought, or tracking your reading along with you, or presenting themselves using electronically filtered "personas", sometimes natural "sounding", sometimes robotic. Sometimes of the opposite gender. Some of you understand Exactly what I Am talking about. Untill we start talking about our actual Experience of the program functions themselves, all the "activism" in the world means nothing. I have been trying to advise people Not to regale us with their "particulars". In other words the "BullShit" they are telling you. It Is Meaningless!!! Designed to make sound like a nutjob should you tell Anyone. But what they are doing to you with the technology, The program itself, and how they are using it, Are For Real. Talk about it!!! Tell people what you have understood about the technology!!! Do Research!!! Don't Stop!!!

Good Luck from an anti-terrorist, anti-miscreant, hard target.

I Have Still got my Mental Health And my Mental Equilibrium.

Barry Michael - I have moved two thousand miles in the U.S. and am Still monitored.

I am certain I passed from one wide area coverage I/O device (an ELF transceiver) into the range of another with no perceptable dropout, even in the middle of nowhere. What does THAT tell you?

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**21/8/09**

**Petition date starting in Ottawa and Toronto from Aug. 25, 2009**

**Dear Member of the Canadian Government:**

CC:

To Whom It May Concern:

This letter is to ask for your help for the many constituents in Canada who are being affected unjustly without their informed consent by Psychotronic (or Mind Control, Electronic, Directed Energy, Neurological, Non-lethal) Weapons.

We are writing you on behalf of Canadian Organization of Victims of Psychotronic (Mind Control) Weapon. We, and many others, are being TORTURED AND MUTILATED IN A MIND CONTROL CONCENTRATION CAMP 24/7. We wouldn't be tortured and manipulated in a properly functioning legal system/society.

Victims of Psychotronic Weapon detail the most extreme and totalitarian violations of human rights in human history, including the most horrendous incidences of psychological torture, mental and physical mutilations. Criminals place human subject under continuous surveillance, no matter where he/she is; they monitor human brain, including thoughts, reactions, motor commands, auditory events and visual images; they continuously alter consciousness, introduce voices, noises, other disturbances, commands, images and "dreams" into the brain; they directly abuse, torture and hit bodies - including performing advanced medical procedures - from remote locations. The technology they are using is so advanced that it allows the controller'(s) to see through the eyes of the targeted individual, essentially seeing whatever the victim sees.

These are some of symptoms of targeted individuals:

- 1). Microwave hearing and torture with intense loud electronic sounding noise
- 2). Visual disturbances, visual hallucinations
- 3). Manipulation of will, emotions, feelings, perceptions
- 4). Manipulation of human behavior: forced speech, involuntary body movements, transmission of specific commands into the subconscious, compulsory execution of these commands
- 5). Reading thoughts remotely, retrieving memories, implanting personalities
- 6). Debilitation of mental acuity, inability to concentrate, disruption of ability to think rationally and independently
- 7). Loss of memory and knowledge
- 8). Inadequate states, which targeted individuals have never experienced before (states of narcotic intoxication, depression, obsessive desires and so on)
- 9). Control of sleep patterns: sleep deprivation or uncontrollable sleep
- 10). Blurred vision
- 11). Cramps, seizures and spasms
- 12). Excruciating artificial pain in any part of the body, for example, heart attacks and other symptoms

We have contacted police, RCMP, Security/Intelligence Agencies, Courts and other Government institutions over and over and over again, but have had our appeals for assistance and protection almost completely ignored or suppressed. Government "doing nothing" in this situation is a form of sanctioning these horrendous fascist experiments with psyche on innocent and defenseless people, that is why Canadian Government is responsible for these crimes. Government of Canada must uphold the rule of National, International and Human Rights Law and protect Canadian citizens by these laws, instead we see the huge disconnect between its professed Principles and Values and the reality.

It is our responsibility to record and alert the world to these horrendous crimes and the extreme danger that these technologies pose to democracy, human rights, privacy, mental and physical freedom, health of all people. These are the most horrendous weapons and crimes imaginable, and the people, using them, are mass-murdering conspirators, pursuing fascist, totalitarian, fundamentalist schemes.

“Doctors Mengele”, who started developing these techniques in concentration camps during World War II, were brought over here from Europe after the war to continue their atrocities. MKULTRA was the first of these illegal and immoral experimenting with unwilling victims, we are the latest victims. THIS MUST STOP, and the responsible people exposed and brought to justice for these unspeakable crimes against humanity. We demand only that human rights are respected, and the Canadian Government appoints a Committee to get to the bottom of this most serious matter based upon the evidence piled up, which was collected, intercepted and captured by the victims years after years.

This gross violation of human rights must be investigated immediately.

**Electronic Harassment-Rf, emf, microwaves**

To Whom It May Concern,

This is a desperate plea for someone to help. I have never agreed or volunteered in any way shape or form to be any kind of test subject for anything nor have I ever participated in any human experiments. I am shocked that technology that has been around for decades hasn't been more publicized, however I am aware of what happened to the scientists that were involved in the MK-Ultra Program dying suspicious deaths as well as people that have written about this form of technology. From the hundreds of papers and experiments using microwaves I have read, I am aware of the significant side effects, health issues and even death caused by microwaves as well as information regarding their use by the CIA. Besides the manipulation of moods and emotions, the use of subliminal messages and holograms (which do not have to be from memories, experiences or nightmares/dreams or from pictures. More than one subliminal can be done at once.) whoever has been able to cause physical pain or itchiness anywhere on my body with pin point accuracy at any level from mild to excruciating (I have been through several eegs, catscans, MIR's and such when I was having issues with laughing and falling over, and after years of tests was diagnosed with narcolepsy & cataplexy. I believe these tests aided then in this harassment, dr. names at end of letter). In just the past 2 years whoever has caused me to suffer well over a thousand hours of SEVERE migraines and SEVERE toothaches. Almost every minute of every day besides verbal harassment (which does have directionality) I am either in pain or discomfort. Whether it be nasty tastes or smells, stopping my breathing, increasing my heart rate, send me running to the bathroom, making my privates itch, raising my body temperature, sweat profusely or any of the dozen others (several can be done at one time and they come and go and change levels in less than a second. There is no escape, not in the basement in my home nor anywhere I have been in these past how many years) it's straight out torture. Almost every night I am woken and for the past year harassed as I sleep, nightmares/dreams manipulated and even subliminal messages put into my head. My brain hardly ever gets any rest, I am mentally exhausted. Before jumping to conclusions about my mental stability I encourage you to have an open mind and read my letter in its entirety, I can back up my claims. As I stated this form of technology has been used by United States military as well as others with a great amount of success. In Iraq we used a local radio station to place subliminal messages that brought about hundreds of thousands of Iraqi troops to come out from the cover of their bunkers and surrender peacefully.

One of the names often associated with microwaves is Allen Frey.

“Frey caused rats to become docile by irradiating them at a power density of 50 microwatts per square centimeter. He altered specific behaviors at 8 microwatts per square centimeter. He altered the heart rate of live frogs at 3 microwatts per square centimeter. At only 0.6 microwatts per square centimeter, 1600 times less than the current U.S. guidelines for public exposure to microwave radiation, he causes isolated frogs’ hearts to stop beating by timing the microwave pulse at a precise point during the hearts’ rhythm.” Silent Wireless Spring by Author Firstenberg.

Allen Frie also reports that he could speed up, slow down or stop the hearts of isolated frogs by synchronizing the pulsed rate of a microwave beam with the heart itself. According to Dr. Robert Becker, similar results have been obtained using live frogs, which shows that it is technically feasible to produce heart attacks with rays designed to penetrate the human chest. (<http://www.wariscrime.com/2009/01/18/news/project-blue-beam-step-one-economic-disaster/>)

Since 9/11 as well as the decade of the brain a lot of research has gone into studying and mapping the brain. I have been able to find a leaked document on the internet of DARPA plans and Arizona State all in efforts to manipulate cognition. If what I am experiencing is some research along the line of that then I can tell you that they have accomplished far more than just the ability to manipulate/impair my ability to comprehend information. There are time periods I have experienced that are very similar to AZ states plans in hiring a producer and creating skits for volunteers to watch while recording their brainwaves. I am under the impression whoever has been claiming their results are using several different people but have repetitively remained on me. Besides being a unwilling gunuia pig an important fact that you should be aware of is that apparently I had been targeted as far back as 2001(possibly sooner) in attempts to exclude people from my life and a lot of effort seems to be about the man I fell in love with June 2010 (who I was fooled to believe to be involved in this harassment, Adam Poliak), the perfect target. My life has basically been sabotoshed with lies and rumors, claiming I am a mindreader or psychic, people being contacted and/or messaged the list goes on. Most disgustingly has their perverted sexual accusations, rape, child molesting.....

I want no association with these individuals or any profits made. I have offered to sign a confidentiality agreement to never disclose information I have discovered from my experience about this entire ordeal with only two requests but have continually been ignored and this has continued. One, my family and I as well as Adam Poliak and his immediate family are left alone forever. Two for Adam to know the truth behind all the lies, to know what he has been manipulated to believe/think/feel, people that have been involved as well as the people that have had knowledge about either my harassment and/or his. These people are cowards!!!! I have made statements to meet me face to face and settle this. I cannot imagine what more could be accomplished by continuing. Of the many different excuses one claim is about my honesty. If they have doubt about my honesty why not meet me face to face, look me into my eyes and see if I am lying? (If I was lying why the hell would they need to manipulate my brainwaves which can make me feel guilty or use subliminals)

From their own statements they have not been completely forthcoming in reporting their discoveries (apparently for the reason of not wanting to share credit with whomever else involved and have made numerous comments about money) nor honest about myself so I will set the record straight. In all honesty I believe I am the best to explain and describe what has been accomplished using me as a gunuia pig anyway (One example their ability to decrease my metabolism so severely I have nearly doubled my weight and have gone from a size 2 to a size 14/16!).

However successful whomever has been by their use of this technology (everything that they are capable to doing to me can be done at different levels, including subliminals, holograms, pain and discomfort. Some subliminals I do not recognize or completely comprehend unless the topic is mentioned sometimes days /weeks/months/years later), I have been pushed to suicide twice, forced to be injected with antipsycotics (I believe this was intentional for some kind of drug signature or because Risperidone is a dopamine blocker and/or to aid in mind control), they have not been able to erase my memory nor implant false ones. I am aware of how genuinely psychotic I have made myself appear, I have posted several times on Facebook about this harassment including a statement they made over 3 years ago about 2 families hiring them to psychologically and sexual harass me, I was reaching out for someone to help. I am aware that I have posted other conclusions that I have learned to be false. At one time the only possible explanation I could come up with for whomever was causing me pain was voodoo/witchcraft (also I had been told back in fall 2010 that whomever was putting spells on, holding the McIntyre family hostage w/ voodoo and that Adam got married in a witchcraft wedding) and I don’t even believe in that sort of thing; another was that I thought I could hear microwaves. My deepest secrets have been exposed as well as secrets others have confided in me. Apparently they are able to tell when another psychic/mindreader is trying to read me and that

causing me pain makes it hard. Along with a pretty sharp memory I have taken a lot of notes, saved letters I've written, downloaded my Facebook and have copies of police reports, its truly pathetic what lengths these people have gone and are obviously willing to go with no regard for my life or wellbeing (I have heard whomever say my social security number several times, debit card number & parent debit card number. My savings account I had since childhood at Associated Bank disappeared and they have no record of me ever having a savings account). There most definitely is a personal motive behind all of this besides what they've stated about investing too much on this ordeal to walk away.

If you are interested in more information email me at [miller.michelle.84@gmail.com](mailto:miller.michelle.84@gmail.com), however due to my email being hacked several times as well as my fb & mylife, please follow-up with a call on my cell [\(920\)840-4843](tel:9208404843) (however even that might not work since I have sent this email to thousands of people already and have not received one call. I tried calling my dads cell while volunterring two times and it never showed up on his phone even though it rang and went to voicemail. My home phone has lost connection at least a few times that have been noticed, Im sure there are times its gone unnoticed as well). And to be sure I don't end up having issues I must ensure everyone that I am not a threat to myself or others. I am a strong willed woman, I know I have a tough road ahead of me, there are issues due to this that I will have to work on such as my sexuality but I will get through this and I WILL be happy. Thank You-

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I am a Targeted Individual of Directed Energy Weapons/Electronic Harassment/Microwave/Mind Control/Mind Manipulation Weapons, Organized Stalking, Abuse and Torture.

I am from the state of North Carolina in the USA. I have been attacked since 1942 and the year the overt operation began was 1997.

I have over 42 symptoms of the weapons including but not limited to nausea, vomiting, dizziness, sleeplessness to sleeping constantly, unable to perform simple housekeeping duties, being sexually attacked and orgasms, made to urinate on myself, clothes ruined by manipulation, muscles pulled, pain on any place on my body, memory tampering, tampering with my eyes, my thyroid was ruined, my teeth are ruined from improper programming, forced speech, bowel manipulation, and many other symptoms.

I had to go on Social Security Disability and an Organized Stalking Campaign was done. My cognitive ability has been ruined and my child was tampered with physically and mentally also. It has been the most devastating thing ever done to human beings. They use the body and mind to do what they want even if immoral or unlawful.

**need help microwave mind control victim.**

I am writing to report myself as a victim of microwave mind control harassment and ask for help and direction. It has been going on for 7 + years now. I have been writing of what my negative experience was to doctors for years but just of recent found out what it was called on the internet. They had everyone keep that information from me that knew that I was around and they have been working on me extremely and my surroundings so as to have no contacts that weren't manipulateable. They have all the things going on (and no implant on me ). Physical extreme interference manipulation, mental extreme interference manipulation, social manipulation interference extreme and a mass interference with people and under the pretence of legitimacy as if its scientifically, philosophically, acceptable . Like a psuedo science roject where they already arrive at there whatever then raildown on me who in a bad condition gives them more weight. They torturize in long drawn out tangents and to give them selves public relation appearence they contrast by backing off those things for the most part that you can tell I'm in a tortured condition. There is a like force feild of negative containment all around me at all times - it precisely injects into body-mind and reacts back to every quiver in magnification.

Their original excuse or rationalization besides wanting all things considered and a way of life to lord over another is there mad about in a false notional way the sexual energy that emanates between myself and others that they call "dick breath" . They make up all kinds of false justification and condemnation upon me for this and all kinds of other things and actually have the power working subliminally with others and my blundering track record their influx and lack of options outside of falling on my face again and again constantly in all things considered - working within the framework of a relativity -duality. Those around me if they don't become influenced by them by creating any # of mixed messages and misunderstanding ( of which for me to try to get around it in relatings just leaves us like a blubering fool seeming ) there motive being negative skirting off in relates or working in some way against me has happened .) then they if not successful come down on them with agitation or confusion with their gadgetry and methods and make it seem like its coming from our direction and you can't explain your way around it that your being worked upon by invisible people for the most part you can't - being unable and I don't blame them to see through it. So 9/10's of a lie of torture and workings keep them in good business and we being the grunt. They probably use vocal tones pleasantly audibly or subliminally , humor, and a psuedo mature tone and attitude while they deflect the attention from me to them -and them about me or 9/10's of a lie about how life works & things like this, and intimate look heres proof - negative face placement s on me jealously,pride , zombie and heres what he been up to to boot. Also pseudo set up of pretense that what their talking about to another over there ( and how we'd supposedly be expected to react back through their intermediary like were on understanding terms ) and then battering me around with mixed messages coming between social relates ( and blah proclaiming that were coming between things and etc....) I don't create a presidency by entering into one of those most of the time but I could just react back naturally and hope its not misunderstood. I've been in all kinds of severe mental illness states of being them lots of times like I said they contrast it out when around others so hard to tell or they keep on going at me depending on objective at moment or it could be unwillingness to back off at all and let the mentally ill person be as he is . Also ther able to manipulate automobiles starter systems braking down autos , electronis equiment so I couldn't listen to music and other things and dropping into cell phones and calling people before I got there to have a chaT in all pseudo legitimacy or whatever. Having as if we are the pseudo dough boy malable and ahs no concept. Us just trying to hang in there not wanting to become more bombarded by them in what I call subdementional conversation ,trying to inhabit and curb negatively for our mind in their motive workings when we don't want to have all that interference but what as other folks to direct ourselves in a positive way . I could go on and on because I haven't had someone who may understand about it and would not be manipulated. I usually would not be able to express myself in as clear ( chaos to perfection ) a way as this except at large intervals because of all this but I truthfully did here. My main thing is I'm looking for help is there a place to go for an interval or a way of blocking out completely that are't quack ideas , blocking out completely there root causes. They just want to go on and onand on and call me an idiot cause I don't know how to get out of this at this time. In very dark moments they have proclaimed thatr they own my life and are never going away. Need help any suggessions I'm not above to say the least taking help from anyone who would lugitimantly give it . soul blessings.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I have some how become a victim of this cure torture.

I am worried about my 13 year old daughter being harmed by this technology . The local police are not interested in helping me even though I have experienced death threats and sexual harassment .I am constantly being hit by some kind of Pulse Weapon. Some of this harassment might have started years ago when my family used ATT/Bell South on a dial up internet connection from my (Now EX-husband) husband's job at Tulane University . We used this on our home telephone line for over 15 years. One of the strange forms of harassment I noticed years ago while checking my email after getting off the telephone was parts of my recent conversation would be written into spam email that Tulane should have been filtering out. We had Sprint cell phones that we experienced problems with as well. During evacuation from hurricane Quatrain in Panama Beach City Florida we purchased a version pocket p.c. so my husband Nick Marinello could continue his work writing for Tulane. One strange thing happened on my daughters Sprint cell phone. She was given the same phone number of the now deceased NFL football player Marquise Hill and for for years and experienced harassment on that line. The strange phone calls began again after hurricane Quatrain with people looking for Marquee Hill. In Panama Beach City my husband used an internet cafe and at one point returned to Metairie to get our computer . My husband was abusive and had mental problems. He was on medication before the storm. The stress of the storm may have brought about a sudden personality change but he became violent and out of control trying to strangle me twice in a six month period . He started calling me names like Adolph Hitler and Jim Jones These personal issue plus New Orleans being hit by the hurricane has delayed my getting help with some of these problems .

There are other factors that may or may not be part of the reason my family has become a target of this abuse . But recently I have found another "victim" Stefan A. Schoellmann that lives less than a minute from my house. My cousin Arthur Witherup says he knows him from Tulane where they both studied computers and he knows him from the WTC in New Orleans. When I spoke to this man ( Stefan) on the phone he was doing remote viewing of what I held in my hand. I have talked to Dr. Robert Duncan of the American Cognitive Liberties Association about how this could happen. He says that all these people are under some kind of program. This stalking and harassment became worst after a filed a restraining order against my abusive husband . I did not know but at the same time my husband's cousin Vince Marinello was involved at the same court house in Jefferson Parish filling restraining order against his wife Liz Marinello . He has now been indicted for murdering Liz Marinello . This has become a very much talked about lawsuit because he was a local sportscaster on radio and television and a murder "to do list" was found in his FEMA trailer with the now deceased sheriff Harry Lee's Phone number on it. This is the 3rd person that has been murdered in my ex-husband's family. Fifteen years ago another cousin of his with the same name Vince Marinello was also shot in the head. This Vince Marinello worked as a lawyer for Crime boss Carlos Marcello .

As you can see I am in desperate need to talk to someone outside of local government that will listen to what I have to say. Will you please investigate my case? I have more to tell you about Elliot's Gun Shop.

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Señor tengo el honor de dirigirme a su distinguida persona por el siguiente motivo:

Yo Fernando Arakaki Miranda nacido en el Brasil, y soy nacionalizado Boliviano.

Por tener ascendencia Japonesa viaje al Japón donde he vivido exactamente desde el 1de Junio de 1992, hasta el 1998. En ese lapso de tiempo que estuve viviendo en el Japón fui usado con la tecnología cibernética mas avanzada, a través de implantes de microchips cerebral en contra de mi voluntad, sin mi consentimiento.

Estos implantes tienen la capacidad de recoger, guardar, transmitir los pensamientos, sensaciones, sentimientos he inclusive pueden ver a través de mis ojos, con la tecnología cyborg mas avanzada llamada SOUL CATCHER 2025, con esta telepatía artificial pueden hablarme directamente al cerebro, controlando hasta en mis sueños. Esto significa que he sido usado como conejo de laboratorio y ahora estan tratando de destruir mi cerebro usando armas de radiación electromagnética que es tortura cerebral, formando grupos de personas para hostigarme día y noche tratando de acallar y que este crimen quede impune. Estos criminales viven, trabajan solo para destruir a los seres humanos. Estos actos inhumanos no tienen excusas, son sin Dios ni ley.

También usan la mentira engañando a la gente con calumnias en mi contra tratando de aislarne, es la forma de crear al paranoico esquizofrénico y para este fin hemos contado veinte seis delitos de los que estoy siendo victima, entre los cuales tenemos: Amenazas, asociación delictiva, chantaje, injurias, tentativa de homicidio, daños a la salud, daños psicológicos, discriminación, allanamiento, robo, etc..

Estos son algunos de los delitos que están usando para encubrir este avasallamiento en la ciudad de Santa Cruz de la Sierra.

Estoy siendo estudiado por universidades de este país como un conejo de indias por la novedad de este implante de la tecnología avanzada que mucha gente ignora en países de tercer mundo, están violando mis derechos humanos en toda su magnitud.

Señor como usted puede ver se trata de vejamen, lesa humanidad y estas injusticias son sancionadas por la Organización de Naciones Unidas (O.N.U), y los Derechos Humanos del mundo entero, por que el ser humano tiene derecho a la vida, la libertad, y el derechos de buscar su felicidad.

Esto no quiere decir que este en contra de la ciencia, si no que al ser humano se debe respetar en su integridad física, mental, parece que se están olvidando de Dios y de sus principios.

Esta denuncia que hago publica es pensando en las victimas que han sido acalladas inhumanamente y esos crímenes han quedado impunes.

Señor espero usted comprenda mi situación, necesito su colaboracion para hacer publico este atropello y as?poder llegar a un juicio internacional con justicia, pidiendo resarcimiento de daños con una indemnización justa, ejemplar a través de las vías legales.

#### OPINION PÚBLICA

Crimen de lesa humanidad... no a la agresión a la especie humana

Distinguido representante de esta prestigiosa e importante organización que para nuestro entender trabajan a favor de la salud de todos los seres humanos.

El motivo de este escrito es principalmente la preocupación por la salud mental y física de los seres humanos; Necesitamos que su organización investigue a fondo el tema que les explicaremos más adelante.

Nosotros somos activistas que trabajamos por los derechos humanos y estamos en contra del uso de armas psicotónicas, psicofísicas, microondas, porque es una agresión a la especie humana, pues esta forma de agresión electrónica causa muchas enfermedades mortales, y daños psicológicos. Estamos trabajando para hacer público estos vejámenes que se han permanecido oculto por mucho tiempo, ahora estamos buscando que gente pueda opinar sobre estas matanzas silenciosas, buscamos la opinión de todas las organizaciones que trabajan por el bienestar de los seres humanos a través de los medios de prensa, los derechos humanos, para un debate mundial sobre estos temas, contando con la justicia y la opinión de todos los seres humanos.

El tema es que están esclavizando, enfermando, manipulando, induciendo, enloqueciendo, matando a seres humanos.

Es así que estamos en contra de esta elite de poder que se está apoderando de este planeta tal vez con el fin de reducir la población mundial, con genocidios que están destruyendo, están dañando al planeta tierra con una nueva orden que lo manipula y controla todo sin medir consecuencias, sin saber el daño que causan a la naturaleza humana y al planeta tierra.

Ya es hora de que los seres humanos opinen y se puedan defender de esta masacre, porque pensamos que no son dueños de este mundo, todos los seres humanos formamos parte de este planeta y todos somos responsables de proteger la vida.

Estos señores controladores están realizando el papel de depredadores de su propia especie. Todos los seres humanos no estamos de acuerdo que nos quiten la libertad ni la vida, estamos en contra de estos crímenes, pensamos que se debería ayudar y proteger a las víctimas de estas sistema de matanza silenciosas.

Agradecemos a las organizaciones jurídicas y científicas, prensa internacional, derechos humanos, cruz roja internacional, federación de victimas en Europa, (fedame), la Unión Europea y todas las instituciones que trabajan por los seres humanos, que han dedicado mucho tiempo para investigar sobre estos temas importantes que pueden dañar al planeta y la integridad física y mental de los seres humanos. Le invitamos para que investiguen en el Internet en la página google lo siguiente:

***Weapon haarp chemtrails --- implants invasive mind psychotronic – manipulación mental armas psicotónicas — implantes cerebral agresión electrónica — haarp armas psicotónicas implantes — mind control victims implants – implants weapons mind torture — implants psychotronic mind electronic — gwen implants mind torture –***

Estas son algunas paginas para poder investigar sobre estos crímenes.

Espero su colaboración y su opinión publica sobre estos temas de interés general. Se despide agradecido Fernando Arakaki Miranda. (Nota.- hacer público este documento)

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I live in Brazil and my hassment and torture started in 2009 after I dennounced a high profile drug trafficker to the federal police. This man knew about psychotronic weapons, he has friends in high places and he used his affluence

to get one weapon. After some months they kicked him out of the business and other people started to harass and torture with different weapons that had different features and functionalities.

The harassment does not stop, even when I think they stopped. They can cause altered mental states like feeling of anxiety and panic.

John, if you are also a victim or just an activist for human rights, let me know.

I think the case of the ousted president of Honduras is emblematic and his story should be told to all politicians. Mr Manoel Zelaya, former president of Honduras, sought refuge in the Brazilian embassy. While there he told the British newspaper The Guardian that he was being attacked with microwaves. When asked by another journalist of another newspaper if he had microwave weapons in his arsenal he replied, "yes, of course".

Some politicians think that they are insiders and that they will not be attacked. But they can be attacked even by radars or satellites that may change their mental state, their heart beat and cause illness in their minds and bodies.

I believe something must be done in a worldwide level to stop torture with electronic weapons.

Write back to me so let me know that this e-mail is still valid.

**27/3/13**

I am being tortured day and night. Last night it was hard to sleep. Tonight I don't know how things will be. I sent the petition to Red Cross International. I hope someone out there feels mercy on us and decides to do something about it.

John, sometimes I think the only way to convince members of parliament, judges, government officials, etc would be to build a prototype of a device of microwave hearing. It would not be necessary to translate the hearing into words. I believe if a member of the parliament hears a noise nobody else is hearing but him, he would have an idea how the torture can be.

Here in Brazil I am not the only one. I will send a list of the people I know that are also victims. I don't have the e-mail of all of them, but I will try to get them.

One of the things that hinders our fight against this crime here is the fact that most people have been induced to think that someone inserted microchips in their bodies without them knowing and without their consent. I try hard to convince them that all the harassment and torture can be done without microchips.

John, there is an activist in the Czech Republic whose name is Babacek. I believe you heard of him. He has a blog and on his blog there are the text of petitions made to parliaments, to Amnesty International, etc. Take a look.

Pray for me, that I can endure this ordeal until the day we get free.

**9/4/13**

The files you sent me will not help me. A lot have been written about electronic torture, but it seems nobody is working to find a way, a blood test, that proves that the victims have been tortured.

John, I am sure this torture leaves markers in the blood.

Despite the attention of the United Nations by creating the ICAACT, I don't see progress in the forensics to verify the torture and to trace the location of the psychotronic weapons.

I have read a lot, but I have not found yet a text that explains clearly how the technology works.

It's hard to tell the police, human rights organisms etc that what is really going on is a Dr Mengele-like experimentation to see how much torture a human being can endure before he/she commits suicide.

John, what is happening in the world is the HOLOCAUST of the NEURO TECHNOLOGY. And it will go on unchecked if we don't involve medical doctors and electronic engineers to find a way to stop the tortures and killings.

There is too much to read and little elucidation or no elucidation whatsoever.

I am sick and tired of reading texts that lead me nowhere.

It is so hard to convince the police and other law enforcement agencies that this sophisticated technology is in the hands of demented criminals whose only purpose is to drive their victims into suicide. It is hard to convince them that Dr Mengele has multiplied in a million monsters spread worldwide.

John, I can not tell you all that I know, They are threatening me. I think you are better off not knowing some peculiarities about those criminals.

However, if you read as much as I have read you will come to some conclusions eventually.

John, pray for me. I don't know if I can live another day.

### **Targeted Individual and neighborhood subjected to electronic weapons tests**

I am a targeted Individual since 2009.

The person who zapped my brain in worldwide famous ex- athlete who claims to be friend of Barack Obama.

I asked the police in Brazil to investigate this ex-athlete who was the owner of the apartment upset from mine in Santos, state of são Paulo, Brazil. He was involved in drug trafficking and he and other people of his gang did not want me to live in the downstairs apartment.

They threatened to kill me many time. He investigated my life and I heard him reading the report of this investigation. He then zapped my brain and they said they were using psychotronic weapons and said things about a part of my brain called cochlea. They also made comments about my DNA. They said I had no prions and that the holographic photo of my DNA was all white.

He then put visions of Obama with a fire background while I was asleep and asked me what I thought of Barack Obama. The answer was always the same: He is Death.

It was difficult for me to live with a person guessing my thoughts all the time and I almost jumped before a car on an avenue. My son was with me and pulled me back.

In early 2010 the ex-athlete managed to get an electronic weapon to give me a strong seizure. His intention was to kill me. I had a very strong seizure. I fell on the floor and had one my vertebrae crushed in 75%.

After this I moved to São Paulo city. It was no longer possible for us to live in that apartment. I felt much pain and started an anti-seizure treatment. I did ressonance of the read, tomography of the back and EEG.

The perpetrators moved to the same building as I and stayed on the second floor in two apartments. They occupy other apartments that I do not know the numbers.

They tested all kinds of electronic weapons in me: made my trachea swell inside making me shorter of breath, gave me pain in the back on the vertebra that had been crushed, gave me sudden pressure in my ears, made my son's ear bleed, cause pain like it was raining needles on me making my skin react with psoriasis, made me faint several times, gave me electric shock in several parts of my body, attacked my heart in such a way I jumped in the bed, gave me another seizure on March 6, 2015 \_ my son found me unconscious lying on the corridor and with vomit on my face, they make my joints dysfunction completely, they made me feel orgasm in my head, they messed with my cranial nerves, the inflicted many kinds of pain and no pain killer could have any effect, they make me feel dizzy as they want, they broke several electric and electronic equipments in my house, they burn all the lamps from time to time, they make the lamps in my neighbors house flicker, they attack the street electric transform rendering the neighborhood without electrical power, they throw microwaves on lit candles and make the flame big and flickering, they broke the lock of my neighbor's doors making her and her daughter to be locked inside, they mess with metals and scare my cats, they make strange sounds in the neighborhood, the passed superbond (a glue) on my neighbors doors door locks making them all change their locks, they attack my neighbors who have implanted teeth, they say the want a 3rd ter for Barack Obama and that they are leftists and gay men.

They have no plans of leaving me and they want me to believe that there are other people in their experimentations.

They installed an internet substation in my building and are doing a mess with our internet accounts. I can not post on Facebook and my emails are systematically deleted \_ I can only see what they want me to see. They say things like Nova Aurora (New Dawn), dielectric transmission of energy, solid fuel, etc. When we have no electric power they continue their harassment and torture which makes me think they have other sources of energy.

They say they don't belong to any religion, but made me watch a TV program on African-Brazilian religions where there was worship of the devil.

What they do is a kind of electronic voodoo. They follow me wherever I go with torture. They can reach me even in the middle of flight on an airbus or on a Boeing.

I have seen post 2015 sustainable development Global Agenda plans of United Nations. Ban Ki Moon even suggested a one minute of silence for the victims of war on the international day for peace. Nobody told him that TIs never have silence and I suspect that silence was taken from humanity long ago. The Russian woodpecker is an example, but I think we have been devoid of silence before that.

They also have electronic weapons that do telekinesis and they pulled my covers while I was sleeping. I woke up with a scream. I felt really scared. They did this only once.

I don't know what are their plans for one world government, but I believe they will deceive many people and that all TIs and perpetrators will be murdered. They will not want anyone who knows about those weapons to be alive.

I don't think anyone can save us Targeted Individuals, but Jesus.

My best wishes.

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Last night was particularly hard for me due to the EMR assaults to my head last night. It appears the Electronic Harassment has gotten worse, with suspect neighbour and his advanced equip (military) and the house in the back which is suspect to other high RF and EMR equipment. My attacks are quite severe due to living next door to an electronics expert and **FORT GORDON** being a **SIGNAL CORP BASE** training in communication (I am three miles from the base) and the first state that tested military ray gun.

A noxious cloud of what appeared to be gas or something was wafting throughout neighborhood, and I was told it was controlled burning, but it did not appear to be smoke related cloud, more like dust. I video taped it and the sky was red with two military jets going over at that moment. The smell was awful and after this, I began to experience, some disorientation and confusion. I believe there was something injected in the air, chem clouds.

I am writing this for your help. Until I can order an shielding, the harassment is getting severe. I feel the radiation throughout my body and it feels as if electricity is jolting through my extremities.

I was in contact with Senator Kennedy's office and the Congressman who is also helping me. Derrick is working on my behalf, and I am confident my bill and lobbying efforts will pay off. Until then, my body is being subjected to high amounts of radiation and EMR. A lot of press contacts and my contacts with the Senate and Hill know my

story and have worked with me on this issue.

I was hesitant about sending my photo due to having several assassins try to kill me and the numerous death threats on file. My photos will be sent by text shortly, however, these are photos sent to my husband while travelling and show clothes I was buying, etc, my face showing, on some, but I don't want you to feel these are meant as suggestive photos, just to give you a full description of my appearance, face, body. Thanks for your help and assistance.

To whom it may concern,

My life is mixed with constant surveillance and constant isolation. Why you ask? I'm a victim of neural chip implantation. What is that? A neural chip is a chip that reads your mind. What are you talking about, I don't believe you? It's hard to believe, but there is a whole community online of people that have been put in the similar situations: either through direct energy weaponry, electronic warfare and/or stalking tactics. Most of these situations are government experimental of an unexpected Targeted Individual but my situation is a special case: I was implanted by a private group, criminals of privacy and civil rights, all stimulated by my disgruntled ex-girlfriend. Long story but let's just say that she has a family member who has ties to the black market. Why haven't you had your girlfriend take it out, what does she say when you talk about it? She denies it of course but the reality of the situation is I'm monitor constantly and they can read my THOUGHTS among other things--<http://educate-yourself.org/mc/kirklandelectronicmindcontrolharassment07jan08.shtml> (similar experience). The same thing happens to others: the bottom line is it's hard to prove because quite frankly the group behind it slander and berate the targeted individual with lies and rumors and manipulate facts to people so the victim, the targeted individual, looks so bad they don't want to help them and/or they use scare tactics so even if they feel obliged to help after hearing the slander they opt not to for there own safety; they also play on the fact that it's hard to believe i.e. trying

to make the individual look mentally unstable. In most other situations, though, the perpetrators are not known. My situation is a bit different due to the fact that I know some of the people involved; I know that some of these people could be persuaded to reveal a lot of information. It's wrong; they know it's wrong, they just don't want to be isolated and/or misinformed but if they were anonymous and told the whole truth it would be easy to get information.. And quite frankly, a light needs to be focused on this because it's been happening for decades to people involuntary, violating and degrading our constitutional foundation and our rights as human beings. Thank You for your time.

PS: I can be contacted @ 678)227-8612, please leave a voicemail if I don't answer.

I'm sending this message as a cry for help. I've been put and a very tough situation involving new technology with cellular phones and a Spychip. A lot of people already know about it and I think a lot of my friends and family know about it but they haven't helped me because either they 1) heard or saw something that lowered their opinion of my character or 2) don't want to isolate themselves and hurt their lives in the process (or both). I understand that completely but one should know that I'm still a good person yet I do make mistakes but most of the accusations are simply not true. Despite this fact I should still get a chance to defend myself, I should still have human rights, and I should still have the unconditional love that comes from family and friends, which brings me to a simple yet effective plan.

Dear All;

Good news for Mind Control Victims! Apparently government of Canada and the CSIS made a smart move after our email campaigning to save their reputation by leaving most of the victims alone, specially the noisy ones like Mustafa Hosny, Liza Parker and Eleanor White (not sure about Eleanor yet).

I have contacted about 40 victims in Canada only 4 replied two of them said they are still having problem, one of them said "yes, they left me alone but they told me you will be arrested if you talk about it, from where did you get my email?", another one said the "the noises is down now but they told me to wait another 6 months". Hopefully the rest that haven't replied are also being left alone.

I made phone calls to two of the victims and they also said that they are being left alone.

I hope the Government of U.S and CIA also follow the Canada and leave us all alone by stopping this senseless acts and stop embarrassing their country. Optimistically they will also realize that it will be better for them to do

something for helping people instead of wasting their time and money for hurting and harassing them.

I know that we get some replies from the intruders in the network that this claim is false but since I made phone calls and I have two email confirmations I am sure about it.

Please I need all of you to replay with your news about it, either you are free or not, I am keenly interested to hear from those who are living in Canada.

I pray the God to set all of us free very soon!

Thank you for the information you sent me. As I read down the summary list of effects and tactics by "gang stalkers"-it supports what I am experiencing as real. My "new" neighbors that just moved in about 4 months ago-haven't even unpacked their shit that lays in boxes in their garage. He, works for the local Fire and Rescue. I believe they are a "tag team"-I don't really care about them, hell I don't even wave, unless I have to. Across the street, Army National Guard members (husband and wife) and idiot son moved in some 2 months before the "tag team" next door moved in. Up the hill, a Mormon family dwells-and recently in the past 6 weeks, a couple of idiot carpenters can't seem to build a fucking fence have been "up there"-making obscene noises every time I step out for a cigarette. Their van is a cargo van with no company logo on it. The staged "events" in public are real. And with a city firefighter/rescue person next door-I am sure he can communicate my every plan or movement to the cops or anyone else with a radio or cell phone. These people are sad. I lived in big cities surrounded by criminals-Rancho Cordova, Ca.-Antioch,Ca.-Salinas,Ca-These were drug/gang infested neighborhoods-It was a life risk raising small children in these areas. I had to employ a "certain" diplomacy with "them", as to make it safe for my kids and wife when I was working 12 hour shifts. These "activities" of theirs amuses me to some point. It is their pathetic behavior that is so akin to predator gangsters, that they don't even realize that, that is one type of people I most certainly can identify-Hell, in the days of Rancho Cordova, I carried a .38 in my car-and wasn't afraid to defend my family from "those" Crips that "ruled" the streets. These days? Nah, I wouldn't even apply for a concealed weapon permit-They don't scare me-as so long as you are aware of what and where they are going to be, and what to look out for-My advice to those being "gang stalked" is, be more aware of what you say to "strangers"-and avoid any physical contact with anyone you don't know-This is a small city, and I pretty much know a lot of people-its sad to see the ones you thought were cool, wound up being the "real fucking assholes". There is some good to this-Be aware, and find something to make you laugh-you have got to stay on the bright side-Don't let them get under your skin-They are fucking miserable people, and misery loves company. **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I WAS UNKNOWINGLY FORCED physically while under police restraint almost 3 years ago in Connecticut into taking microchip implant injections from paramedics and DOCTORS THAT RUINED MY LIFE. A CORRUPT ORGANIZATION HAS BEEN TORTURING, TERRORIZING AND ANTAGONIZING MY MIND & BODY BY ATTACKING MY NERVOUS SYSTEM ELECTRONICALLY FROM SATELLITE SINCE FEBRUARY OF 2005.

For whatever reasons they feel they have, this corrupt organization has been vigorously and covertly trying to frame and sabotage my entire life to cover their own unspeakable crimes. I AM EXTREMELY SERIOUS. This corrupt organization has been trying to destroy my mind and body from the inside out slowly using satellites, cybernetics and sound waves that act in concert with microscopic microchips that were injected into my bloodstream and have been inhibiting my nervous system.

I am an educated 28 year old man from New York City . I DESPERATELY NEED HELP. I CANNOT SUFFER IN SILENCE A DAY MORE. THIS IS NOT A HOAX or a regular "RFID" complaint. I AM A LONGTERM VICTIM OF UNSPEAKABLE CRIMES WITH SPACE-BASED WEAPONS THAT HAVE BEEN PLAGUING MY MIND AND BODY ENDLESSLY SINCE EARLY IN 2005, ONLY ONCE I DISCOVERED SOME SERIOUS THINGS THAT WERE COVERED UP AND I BEGAN "EYING" THE PERPETRATORS, RESEARCHING THE FACTS AND PREPARING MY EVIDENCE TO LAUNCH A FEDERAL LAW SUIT AND EXPOSE A GOVERNMENT CONSPIRACY. I HAVE BEEN SILENTLY ENDURING INTENSE PSYCHOLOGICAL AND PHYSICAL TORTURES, ELECTRONIC HARASSMENTS AND DISRUPTIONS OF ALL MY SENSES, AND BODILY FUNCTIONS; WITH INTOLERABLE AND RELENTLESS THOUGHT CONTROL OF OBSCENE NATURES - ALL CONTROLLED REMOTELY WITH RADIO FREQUENCY BY A VERY CORRUPT AND EVIL ORGANIZATION.

\*\*\*ONLY\*\*\* since the time a long while back that I began researching "mindcontrol" with cybernetics and microchip implantation in humans thoroughly, and began comparing and documenting my suffering experiences did I begin to receive much more continuous and intense "sharp pains", "suspicious itches", "tiny stings" almost like "small electrical shocks" in awkward and private areas on my body as well as all over my face, lips and nostril areas. These are accompanied with other terrorizing experiences that I have never had before in my life prior to taking those injections from paramedics and police holding me face down in cuffs. As a matter of fact, one of the sensations I feel at times inside the back of my head is a sensation that i do actually recall experiencing as a young boy, maybe 5 or 6 years of age. Sensations at times inside the lower back portion of my head that sound like something almost softly sizzling or like a cd player trying to read a scratched cd track. BELIEVING NASA would eventually STOP ALLOWING THIS CORRUPT ORGANIZATION TO ENDLESSLY TORTURE MY DEFENSELESS NERVOUS SYSTEM with SPACE-BASED WEAPONRY, I kept my problem to myself out of fear for a long time. I was also too afraid to tell anybody of this before, even my own mother.

This INTENSE disruption and distortion of my voluntary and involuntary bodily functions completely VIOLATES my constitutional rights as a citizen to exist here; and has gone too far and must stop. Misuse & unauthorized use of satellites and cybernetics are CRIMES AGAINST HUMANITY, and I also believe a breach of diplomatic protocol internationally.

**ELECTROCHEMICAL WARFARE IS A FORM OF TERRORISM.**

I demand this cybernetic up link with my body to be immediately terminated permanently. In addition, I will settle for nothing less than a full medical compensation for the intentional and premeditated damage, pain and unspeakable suffering gradually over the course of the past nearly 3 years.

**\*\*\*THE PERPETRATORS OF THESE CRIMES AGAINST HUMANITY MUST BE BROUGHT TO JUSTICE\*\*\*.**

At no point in time was I ever informed that I was going to have an experimental unauthorized technology implanted into my body. I certainly did not grant permission legally, verbally, or in any other way. Many of my

Constitutional rights as a U.S. born citizen have been violated and abused completely and relentlessly since February 17, 2005. In essence; I HAVE BEEN A WALKING MEDICAL EXPERIMENT, A FRAME JOB COVER UP of a corrupt organization of The United States, as well as now an information and propaganda resource for the media to profit off of. I have been suffering severely for almost 3 years in silence fearing for my life and health. Please contact me with help. I don't know who to turn to in a situation like this. DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I would like to draw your attention to some extreme and horrendous criminality being conducted with the involvement of United States Government-related Agencies and the complicity, if not participation, of many other governments and security agencies. I am a victim of torture and abuse using DIRECTED ENERGY AND NEUROLOGICAL WEAPONS technology

There is massive ignorance and secrecy regarding this, and victims such as I are being subjected to uncontrolled and unacknowledged torture and mental and physical destruction. This has remained completely unreported and undiscussed publicly.

I have been a victim of directed energy weapons, remote harassment, and organized stalking since 2002. The phenomena is real. It includes psychological harassment to induce psychosis, isolation, depression, and suicide; physical and emotional manipulation; and devastation of financial and social resources.

Nobody is above the law, yet some group or agency out there believes them to be. This is not right!

The use of directed energy weapons, remote harassment, and organized stalking are quite plainly unlawful, criminal acts, and indeed cruel and unusual punishment.

I refuse to surrender my freedom and I demand justice, not just us and fuck you!!!!!!!!

I can confirm that the technical abilities and powers to:-

1. place a human subject under continuous surveillance, no matter where he/she is, from remote locations.
2. continuously monitor a human brain from remote locations, including thought, reaction, motor command, auditory event and visual image reading
3. continuously input directly into a human brain from remote locations, including the ability to override, control

and alter consciousness, and to introduce voices, noises, other disturbances, images and “dreams” into the brain

4. directly interfere with, abuse, torture and hit your body from remote locations

5. directly interfere with, alter, insert etc. data, files, communications and legal evidence from remote locations - even during transmission

- are already in existence and are already being used and abused on myself and other US CITIZENS.

Please find enclosed a copy of my Presentation that I have worked on for 4 yrs in research as I have been a victim of electronic stalking and harassment for 4 years and 9 months.

I am sending a POWERPOINT PRESENTATION and I hope you find this very resourceful please feel free to contact me at Powerfulrirc@yahoo.com, gmail.com, hotmail.com

What I am going to disclose to you is there seems to be a lot of factors involved here I found by I believe 9.700 U.S.A.M. a document that states that there is title 28 title 111 laws for electronic monitoring by court order or authorization and then there are roving orders per the FCC RF Imaging and Surveillance but what seemed to amaze me was they have what is called consensual monitoring which is for police, undercover witness protection and informants and I am none of them next is real interesting. Silent computerized sub vocal speech which is called talking on the inside which I can do. and they seem to use voice morphing to hide who they are. Myself I have lost 5 jobs been in the hospital 9 times. I appreciate your time and help in this matter.

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

On Friday evening, August 4, 2000, I came home to find that my residence had been totally ransacked. It was like those television dramas where everything is dumped out of drawers and cupboards onto the floor. I thought it would never happen to me. Scarcely anything of value to a casual thief was missing. My red CET was gone. The CET is housed in a red plastic cylinder with a rounded top like a ball. It sits on the floor. I had just bought one a few weeks before from [Nordic Living Water Systems](#) and placed it in an inconspicuous corner.

The purpose of a CET is to protect people from geopathic stress. Geopathic stress can be caused either by certain natural earth energies or by excessive amounts of electromagnetic frequency waves (EMFs). EMFs from power lines can increase free radical activity. New electronic technologies may be making people more susceptible to geopathic stress. Geopathic stress hastens the onset of chronic disease. (pp. 13, 14, 101, Thurnell-Read, Jane, Geopathic Stress: How Earth Energies Affect Our Lives, Element Books, Shaftesbury, Dorset SP7 8BP, U.K., 1995.)

### **Mind Control Systems**

After installing my new CET, I noticed that it blocks the influence of mind control messages. I kept this to myself, thinking that no one would find out that I had this new protection. After I found that my CET was stolen, I distinctly discerned a mind control message that conveyed the idea, "I don't want a CET, I don't want a CET . . . " Someone knew before I did that the CET could block mind control messages. Most people are not aware of the operation of mind control systems. Anyone can be programmed or influenced by mind control systems. Most never even guess that they have been programmed.

There are various kinds of mind control systems. Dr. Becker comments on one such system. In 1973, Dr. Joseph Sharp at the Walter Reed Army Institute of Research "heard and understood spoken words delivered to him in an echo-free isolation chamber via a pulsed-microwave audiogram (an analog of the words' sound vibration) beamed into his brain." Dr. Becker points out that such technology can be used to program people undetectably to do as instructed. Mind control can be used to make people think they are hearing "voices." (Robert O. Becker, M.D. and Gary Selden, *The Body Electric: Electromagnetism and the Foundation of Life*, New York: Morrow, 1985. pp. 318-319)

When I started the Fluoride Issues website in 1995, I became aware that intelligence cultists were trying to obstruct my work by operating a mind control system. One might wonder why intelligence cultists would be concerned about opposition to fluoridation. Fluoride makes people more susceptible to such things as subliminal messages and mind control.....

Anyone who opposes fluoridation needs protection from mind control systems. Anyone who is a political activist needs protection from mind control systems. Anyone who wants to be left alone needs protection from mind control systems..... <http://www.whale.to/b/montgomery.html>

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I would like to draw your attention to some extreme and horrendous criminality being conducted with the involvement of the United States Government-related Agencies and the complicity, if not participation, of many other government and security agencies.

I am a victim of torture and abuse using DIRECTED ENERGY and NEUROLOGICAL WEAPONS technology.

The criminal use of these on me are causing the following effects and others not stated:

Microwave hearing  
Visual disturbances and hallucinations  
Manipulation of emotions  
Thought manipulation  
Short term memory manipulation  
Reading of thoughts remotely  
Painful sensations on all parts of the body  
Transmission of specific commands into the subconscious  
Control of sleep patterns  
Sexual harassment (manipulation of genitals)  
Artificially induced dreams  
Seeing everything that I see  
Harassment, covert and overt

There is massive ignorance and secrecy regarding this, and victims such as I are being subjected to uncontrolled and unacknowledged torture and mental as well as physical destruction. There are many others, throughout the world who are being subjected to similar torture and abuse.

Your attention is urgently needed to halt these atrocities, protect me as well as countless others, and to bring these extremist elements to justice.

**12/4/09 A Non Consensual Human Test Subject From Delaware**

While doing some research I encountered attempts to provide protection for all of us by preventing everyone from being used as human test subjects without first obtaining their written informed consent.

I thought on this and then I realized that maybe that is the reason why no one in Washington really cares seriously about any of our welfare. At least in regards to our being used for experimentation purposes to further research

efforts.

Why else would all of the letters and faxes sent to the US House of Representatives and the US Senate over the years have been ignored.

More people than I can number have at one time or another appealed to those serving in Washington to intervene on their behalf due to their being aware of being used as human test subjects relegating them to the status of non consensual human test subjects.

I personally have a stack of faxes and covers that I have sent to Washington in the past year and a calendar for the year of 1998, that documents those in Washington who I sent letters to seeking assistance.

Of all of the letters that I sent in 1998, I only received one kind and caring response and unfortunately she is no longer in Washington.

The one who responded showing concern and compassion was Carol Moseley-Braun, who represented Illinois in the United States Senate from 1993-1999. (Wiki link for more information) [http://en.wikipedia.org/wiki/Carol\\_Moseley\\_Braun](http://en.wikipedia.org/wiki/Carol_Moseley_Braun)

She advised me that she was concerned but that she could not do anything because she did not represent me and for me to contact my senators from Delaware.

Why would Washington not want to protect us from the possibility of being used as guinea pigs/lab rats to further the research of whoever needed human test subjects.

The groups that I am affiliated with as well as many others have petitioned those in our nation capital to intervene on our behalf and to allow us to receive the rights and protections as guaranteed by the Constitution of the United States, the Geneva Convention, the Belmont Report, the Nuremberg Code, the Universal Declaration of Human Rights and the Helsinki Declaration to name a few.

In 1978, the Congress enacted P.L. 95-622, establishing the "President's Commission for the Study of Ethical Problems in Medicine, Biomedical and Behavioral Research (President's Commission). So why would they table **\*H.R. 3946** of the 104th Congress that was introduced by Rep. Torricelli and **\*S. 193** of the 105th Congress that was introduced by Sen. Glenn?

Now in light of all that those serving in Washington knowing (if they did not know previously and after all that I have shown them personally while viewing them in session via CSpan) you would think that they would demonstrate to the people of America and globally that they truly care about the welfare of others.

To date only one elected official in all of America has shown his opposition by writing a letter stating as much and that is Missouri State Rep. Jim Guest, who has shown himself to be a true Patriot and a humanitarian by publicly making his feelings known.

Harlan Girard, who is the director and founder of the International Committee On Offensive Microwave Weapons has always for as long as I have known him said that we are all living in an electronic concentration camp and that most people don't recognize it as such.

The people of the United States truly, seriously need to be protected from those who in their quest to further their research will even subject our children to experimentation.

Is this what we as a people have come to? If we care nothing about ourselves or each other we should at least care and be concerned about the generation(s) to come.

I am willing to do all that I can and must do in order to attempt to make the world a safer place for the children that are here now and God willing the children that have not yet been born into a world where there is the possibility of their being made into someone's personal lab rat.

We need to eliminate the electronic concentration camp and prevent it from ever being restored. Have we learned nothing from what Hitler and Nazi Germany did to the Jewish people in the concentration camps of World War II?

Dannie Moore

"I was falsely arrested with my hands cuffed behind my back, and tossed into the back of a patrol car with the orders to "slide your fanny over." The acts of retaliation and harassment against whistle blowers have become so wide spread that some of the individuals have organized. The organization is known as TI for targeted individuals. Our numbers are in the hundreds of thousands. We are activist, whistle blowers, and honest American citizens who love this country and are determined to bring attention to this cancer on our democracy. Our web page will soon bear the names and stories of the thousands of "Targeted Individuals." Most, but not all, are educated blacks and whites who fight for justice for the poor, the elderly, and the youth.

Following my false arrest, I sought help from the Justice Department, the NAACP, my Senators, the ACLU and the FBI. I sent certified letters to Mr. Mueller at the FBI and to Mr. Gonzales at the Justice Department at least three times each and never received a response. I traveled to the Justice Department in Washington, DC and was denied access to the building by armed guards. A Florida senator finally responded to my letter and required the FBI to talk to me. Agent John Rowan called me quite concerned about my situation, and we made an appointment to meet. When I arrived for my appointment, Agent Rowan was not available, instead, I met with Agent Griffin who promised to help. I never heard another word. Agent Taylor in the Wilmington office of the FBI sat across from me with a smirk on his face and announced that the "FBI is not going to investigate this case," even though an FBI spokesman remarked, "the FBI thoroughly investigates all allegations of wrongdoing."

My book, "I Wish My Eyes Had Not Been Opened" was written to encourage the thousands of whistle blowers, who have been abandoned by government and public apathy, that they are not alone. When the word "whistle blower" is "Goggled" the site reveals over one million, six hundred thousand hits"

"I find solace in one thing. I am NOT alone. I have meet hundreds of people via this website who are living the same experiences as I. They too, have been rebuffed by the ACLU, NAACP, NOW, even some whistle blower advocacy groups and other 501 C3 organizations whose charters profess to protect the rights and dignity of people like us. These groups are either bought off, frightened off, or sufficiently threatened. Of course, it doesn't help us that the legal profession, trained in the powers of persuasion, portrays all of us as "crazy or delusional." That is their most powerful tactic. Most of these victims of the system have been isolated from friends and family the same

as I. Many are reluctant to go public for fear of being labeled "crazy" or paranoid. They fear that no one will believe what has been done to their lives. I am blessed, I have two children, both law school graduates, who have lived through every moment with me and are willing to substantiate what I have endured at the hands of these "sickos" posing as human beings, including a house break-in that involved the theft of only one item: the ashes of my beloved fifteen year-old Greyhound. The expensive urn that held the ashes was left intact.

If the vivid portrayal of my life frightens you, be uplifted as I am. My book entitled, " I Wish My Eyes Had Not Been Opened." chronicles briefly my life before politics and details my fourteen- year struggle as a political whistle blower.

Dear Person of Conscience:

## **WE SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

The last 13 + years of my life, my family of 7, have lived on a major roller coaster ride. Most days, weeks, months, even years have been low points. In 2006 I was in bed ill 161 days out of that year, could not even stand up to go to the bathroom . All of this, I attribute to ORGANISED STALKING, DIRECTED ENERGY WEAPONS and PSYCHOTRONIC WEAPONS TORTURE AND ABUSE.

We have all suffered a great deal and continue to suffer more and more till this day. This harassment has taken a great toll on us. No man, woman or child should suffer like this. I wouldn't wish this type of torture on my worst enemy. My life has been wonderful for 25 years before this all started. Now to say my life is a living Hell, is a gross understatement.

My name is Daniel Morgan, I am 40 years old own my own home and have had a decent education. I live in El Dorado Hills California, with my wife of 14 years Lorna, and our 5 children. Nicole is 15, Patricia 14, Christopher 13, Dylan 9, and Avery 16 months old. Not only have I been going through this but my entire family has suffered right by my side. We have all experienced the same type of harassment on different levels. We have all suffered the same symptoms, while this harassment was going on. Some of our physical symptoms include severe tooth decay and vision loss. Unexplained rashes and burns, sever headaches, mood swings, anxiety, thyroid problems, high blood pressure, heart problems, vision loss and cancer. The list also includes botched surgery, premature labor and birth of 2 of my children, ADHD and the death of my father to cancer. Other family members who do not reside with me are also victims. Our pets are even affected on certain levels. We have all had many levels of harassment. We are followed by people (gangstalking) and get a high rate of air plane and helicopter activity. Our computer and telephone are being monitored and manipulated.

Two of my children were born premature which I attribute to this. Our son Dylan, now age 9 was born very premature. He was born at 31 weeks. During her pregnancy with Dylan we were being targeted more so then other

times. At the delivery there were "weird" men walking and waiting around the hospital. Right outside our delivery room window there was a white cargo van parked with two suspicious men inside. They were there the entire labor/delivery. Our son had to be transported to another hospital 45 mins away- when arriving to the hospital those same men and van were present. For the next several weeks a helicopter would be overhead as we made our trip to visit our ill son. This last pregnancy was the "hardest" for my wife Lorna. She kept going into premature labor after a few days of torture. While this was going on she alarmed me that the "baby" was not moving like it should. Frantically, we did everything we could to "wake" the baby up. This happened over and over again all while I exhibited signs of being tortured.

In 2001, my father died of cancer. Not knowing what was going on with me he often came to me to complain of his "ill" symptoms. This happened at the same time I was being hit hard and targeted. He also said that on his daily errands he had people following him. Sadly, my father died a very horrible and painful death. I attribute this to the torture he endured while living in our home. My family genetics is very sound and very strong. There is no history of cancer. They simply died of old age- most of my family lives into their late 90's often into their early 100's. Three of my children have severe rashes that have not been explained by several doctors. These rashes have been present for several years at a time. If interested I will gladly furnish you with detailed photos of the rashes. Our infant daughter, at 3 weeks old was diagnosed with Lerner's Syndrome. This was after a severe rash appeared on her body after a few days of torture. We were told by a couple doctors to take her home and "Love Her and spend the rest of the time we have with her".

They told us she would ultimately die from this Syndrome. Thank God that Lerner's Syndrome was not what affected our daughter. Doctors are still dumbfounded by her rash and symptoms. Sadly we know that her symptoms were effects from the torture this poor innocent 3 week old baby endured. Recently, I lost complete vision in my left eye. This was after a few hours of being outdoors with guests. Air traffic was greatly increased that day. I recall seeing flashing lights like beams coming from the sky. At the same time I exhibited the flashing lights my 9 year old son Dylan complained about the lights. You will often hear that vision is something that is greatly affected with this type of torture. Our family had their vision deteriorate at an alarming rate. I have also had botched surgeries. Aside from physical symptoms, My entire family are victims. As hard as it is to understand, this is not mental illness or depression. I have spoken to many doctors over the years and have no mental illness of any kind.

Please feel free to come to us with any questions you might have. I have several years worth of hard evidence, I will gladly share with you.

I am a member of a Human Rights Interest Group interested in encouraging persons of conscience to speak out on behalf of victims of unwarranted surveillance and victims of unregulated electronic and electromagnetic technologies.

People in rising numbers are complaining about being subjected to unreasonable surveillance. We have reason to believe that current surveillance practices are so oppressive as to be terrorizing and inflicting serious injuries, damages and distress. There is a great deal of information available which describes the types of surveillance/ security devices currently being developed, tested and used by government agencies and contractors on the general population. These offensive technologies are now widely accessible, legally and otherwise.

**We believe that there is an entire genre of crime which is thriving due to the absence of accountability permitted by the USA Patriot Act. This legislation, now cross-referenced with FISA provisions, surrenders the public helpless to the authority of defense/intelligence agents, and, empowers agents to "recruit" private citizens without their informed consent. Also, The Patriot Act allows for technology industry expansion without appropriate oversight. Ultimately, the Patriot Act authorizes federal and local law enforcement, and their contractors, as well as their representatives, assigns, licensees, transferees, etc., to utilize resources intended for national security, at their own discretion.**

All over the country, local community leaders and activists are receiving, with disturbing frequency, complaints about frightening surveillance experiences and a variety of other actual injuries, some of which are listed below:

- a) violations of human, civil and constitutional rights
- b) technology that causes burns, memory loss, rashes, vision problems, softening bones/teeth etc.
- c) forms of direct energy to the heart, face, head and genital areas
- d) surveillance so invasive that it follows you to the shower, bathroom and bedroom causing severe and permanent loss of dignity, privacy, consortium and family relationships

A number of victims have reported that the Air Force admits to performing tests on subjects which cause pain and burns. The Air Force claims that if the energy is directed for no more than ten seconds that there is no permanent damage. However, there is no protection to the population regarding use of these devices. The potential for abuse of electronic surveillance and weapons is a real and serious threat to our civilization. Quite a few victims have lost employment and have even become homeless due to their physical injuries and damages to their reputation and character. The victims have been grossly discredited and are often treated with anti psychotic drugs. This, of course, relieves the surveillance industry of any responsibility or liability.

The secrecy blanket that protects the government from accountability renders private citizens helpless. As granted under FISA and The USA Patriot Act, there are no provisions to assure that law enforcement/ intelligence agencies substantiate that their targets are associated with terrorism. Complainants do not know why they are being victimized. There appears to be vast personal abuse of the system by government and corporate entities. Contact with anyone that would be perceived as a terrorist. the FBI several years ago.

We believe that our health and welfare is as strong and stable as the United States Constitution.

We understand that the Bill of Rights was made a part of the Constitution so that inalienable rights would be guaranteed rather than recommended. The intent was to prevent the rights of citizens from being usurped. In order to specifically prevent this, the Constitution of the United States contains specific language to guaranty the right to due process and access to one's papers; rights to freedom of thought and speech; protections from unreasonable search and seizure, involuntary servitude and cruel and unusual punishment.

We the victims and the members of the Human Rights Interest Group thank you for your time and interest in these, the most crucial matters of our time.

12\12\12 update..

Dear Person of Conscience :

My name is Daniel Morgan, your constituent from El Dorado Hills, California. I am a Targeted Individual -- a Victim of an Inhumane Lethal U.S. Patriot Acts I, II, III and the Space Preservation Act & Electromagnetic Pulse Microwave Energy Weapons and Lethal Psy ops. Satellite Torture Electronic Microwave Beam Harassment, by the DOD CIA NSA for Illegal Research and Mind & Body Manipulation For the past 20 years, I have been subjected to illegal surveillance and torture through electronic means. My wife and 5 children have also suffered right by my side. This covert operation has been a gross violation of mine and my families human, constitutional and civil rights. I am also victim of Disabled person act. I want this electronic Gang-stalking and harassment to stop.

It is well documented that the United States Intelligence agencies working in conjunction with local law enforcement agencies and the military employ the use of bio-electromagnetic weapons. These weapons emit beams of microwave and radio wave energy at frequency levels undetected by common measures. To monitor and manipulate human behavior.

The use of these weapons has been shrouded in secrecy, but a recent report by Vanity Fair indicates indisputable proof that these same measures are being used on detainees in U.S. custody. Senator Carl Levin will hold hearings regarding detainees. I am asking for your help concerning the full scope of the use and testing of these weapons on myself , my family and the other known constituents of The United States of America who are being tortured as well. I am also asking that your office contact Representative Jim Guest from the Missouri State Legislature who

has extensive knowledge of the abuse of these weapons on U.S. citizens throughout this country. Representative Jim Guest is seeking a congressional hearing regarding this issue. I have been a target of this torture for 20 years that I know of, but others have been targeted much longer. These covert operations are essentially a continuation of FBI and CIA-run classified programs such as COINTELPRO and MKULTRA also the DoD non-lethal weapons and science technology division. We believe that we are part of the thousands of Americans that have fallen victim to the warrant-less surveillance of the NSA and DoD JNLWD. We know that these current government-sanctioned operations discredit the targeted individual and torments the individuals life, sometimes even to the point of death. Like myself some victims are stalked wherever they go and become physically ill.

They are subjected to noise campaigns, insults, taunts and threats. Others are violated with these electronic weapons that induced excruciating pains, tingling sensations, ringing in the ears, electrical shocks, and various elements of synthetic telepathy. Again myself, my wife of 14 years (now 20 yr)Lorna, and our 5 children , Nicole age 15 (now 21), Patricia 14 (now 19), Christopher 13 (now 18), Dylan 9(now 15), and Avery 16 months old (now 6) are all victims of this technology.

We have all experienced the same type of harassment on different levels. By different sources and Agency's. From top military agency's to the street drug dealer. The end result is the same. CONTROL. Some of our physical symptoms include severe tooth decay and vision loss detached macula. Unexplained rashes and burns by RF frequency's, sever headaches, mood swings, flu like symptoms, lethargic, insomnia, anxiety, extreme sweating, thyroid problems, hormonal issues, high blood pressure, heart problems (palpitations), vision loss and Immune disorders and cancer's. The list also includes botched surgery's, premature labor (10 weeks early & 6 1/2 weeks early) and 2 miscarriages in the second trimester. Direct extreme pain on an ongoing basis of feet, knee, back, kidneys, stomach intestines, tight, chest, and hard to breath, lungs. Many different types of head pain from headaches front temporal lobe, left and or right side. back left and or right side. At times I can feel a magnetic type wave rolling from one side to the other. Also a pecking type pain in back or the top of my skull like a woodpecker pecking at my skull usually during these types of pains comes RF rashes and burns on skull. Adhd and the death of my father to colon cancer including death of my brother w/seizure/stroke.

In 1992-1994 I woke up one morning with blood on my teeth and dried blood out my right nostril. I went to a Dr. office where I was told I had my septum broke and sinus scraped. I believe I was implanted at this time. Location being in my sinus,up my right nostril. I now have an MRI of an RFID and/or brain stimulator in that area. Medical personal have concurred with this.

I was told that IM going to be going through some testing from 2 people saying they were from Stanford university. I laughed it off like anyone would a joke. The next 6 months of my life I was Gang-stalked, monitored, street theater, my house broken into many times and all electronic items were tampered with. It was a nightmare, like a switch was turned on to my consciousness and someone was playing with it, (ME). 1996 the first of 2 times I was held. My son and I were held at Heathrow airport in London 6 hours. I was told we were on a terrorist watch list. My son was 2 yr old. This was before 9/11. Since then I've been having extreme amounts of medical issues with my health in every direction. 1996-1997 again ill, I was told to move from my home of 27 years. To get away from my friends that were also Targeted. So I did and moved My family to El Dorado Hills. I was told all these things happening to me would stop. And they did for about two years. I was told I would still be monitored, but not gang stalked or ill. From 1999 till now 2013 viscus cycles of Military type Gang-Stalking electronic harassment and what I call TORTURE of my being. By DIRECT ENERGY WEAPONS DEW, systems for the purpose of neural monitoring of myself and family. 2002-2006, 2008-2012 was also a horrible time. During my targeting iv traveled to many countries seeking relief. wich I found. I was left alone but was only there a few months at a time. England, Canada, Japan, Wales, France and Mexico. Also many places in the U.S.

In 2006, I was in bed ill 161 days out of that year, unable stand up to go to the bathroom or care for my family. Also 2012 July to December, 6 months electronic illness. All of this, I attribute to DARPA,NSA, DoD JNLWD and other Government agency's, electronic harassment psycotronics, ORGANIZED STALKING, DIRECTED ENERGY WEAPONS, PSYCHOTRONIC WEAPONS, TORTURE. By the Naval Studies Board and National Research Board of NON-LETHAL WEAPONS SCIENCE and TECHNOLOGY.

Our pets are even affected by this. You will hear other victims complaints of their pets being tortured. We have all had many levels of harassment. We are followed by people (gang-stalking) and get a high rate of air plane and helicopter activity.

Our computer's, telephone, and vehicles are being monitored and manipulated, tampered with. Other family members who do not reside in our home are also victims. There is no physical or mental illness that can cause all of the symptoms indicated above. I have been cleared By neurologist. But there is a technology (neurological

weapons, radio-frequency weapons) that can!

Freedom From Covert Harassment and Surveillance, <http://peacepink.ning.com/> and <http://targetedindividualscanada.wordpress.com/2011/10/18/cheryl-welsh/> is 3 of the few organizations that work tirelessly to offer help and support to victims this abuse. There are Thousands of members whose lives have been devastated by this abuse. Networking with sister organizations lead us to believe that these attacks are being carried out against thousands of innocent US citizens. Most of these citizens are vulnerable and easy targets (i.e. single women, elderly and children. minority). According to Representative Jim Guest's information, 68 percent of the victims are women. Others are government and corporate whistle blowers or victims targeted by hate groups and other extremists.

These are law-abiding citizens, not criminals, not terrorists, or people who are threats to U.S. security in any way. It would be an atrocity to the US and our standard of democracy and freedom to allow this "silent Holocaust" to continue.

With the United States as a leader of democracy, this type of torture cannot continue nor should it continue to be covered up. This is scandalous to our motto and we need Congress to set things right. We are asking Congress to hold hearings and give us as victims a voice. We need Congress to let us know that the United States truly "hold these truths to be self evident,

That all men are created equal and they are endowed by their Creator with certain inalienable rights." We need Congress to restore law and justice back to our country. I am asking you to petition other members of Congress or organizations that might be of help to help get the word out. Ultimately, I would like to see congress to hold hearings on the behalf of myself , my wife, our 5 children and all The unwilling test subjects of this so called non-lethal weapons science technology division.

And the many Americans that continue to suffer everyday.

I will be happy to provide you with any official documentation videos or pictures that I have in my possession concerning my case. I am requesting a written response to my request. I look forward to hearing from you very soon.

In addition, the Central Intelligence Agency must comply with all subparts of 45 CFR part 46 under Executive Order 12333. The Department of Homeland Security, created after issuance of the Common Rule, has chosen to apply all subparts of 45 CFR part 46 to its human research activities.

Sincerely,

Daniel J. Morgan

### Brainwashing and It's Consequences

By Paul Baird

'Hard Evidence' pp20-31,only knew.

The basic ability to enter a person's mind is not a futuristic fantasy. This is real and in prototype. DARPA began this research in 1983. The Internet has become a focal point in our lives with reliance for information and communication. Remote Neural Monitoring is a patented mind and behavior control technology that thousands of innocent citizens are being subjected to endure according to consistent reports by advocacy groups such as Freedom From Covert Stalking and Harassment. The technology uses EMF and ELF radio waves to influence brain functioning. (See: The NSA Harasses Thousands Of Law Abiding Americans Daily By The Usage Of Remote Neural Monitoring (RNM))The business of non-lethal weapons is expanding and will continue to grow. In 2006, the Joint Non-Lethal Weapons Directorate received \$43.9 million compared to \$25.8 million in 2000. Ionatron's website states that, "...the market for new directed-energy applications (will increase to \$12.7 billion over the next ten years for the defense market alone."

Thank you for all of your work.

I've been printing out your emails and sharing these with my family; I think that they are now starting to believe me instead of categorizing me as "crazy".

I've been through it all but since I gave my life to Christ; "their power has significantly declined as God is a protector and He has supernatural powers that far exceed that of man....Peace. I will continue to pray that God keeps all of us Targeted Individuals in his hands and that none of us is lost to suicide, mental deterioration, etc. The Lord is mighty and powerful; omniscient and all knowing. Certainly, we have the upper hand when your master is Jesus Christ. There is no other power greater than that of God. Once again, peace my brother.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I have been hesitant before, because of what has been done to me. I am not sure if it is some kind of an independent contractor who has been contracted by some type of governmental agency, or an agency, itself that is responsible for hurting me so bad that my soul is crying. I feel that I have been violated as a human being.

When I had some suspicions that something was going on, I bought a radio-frequency detector. I went down the hall from my apartment. It did not go off. When I got closer to my apartment, it went off. It activated in my bedroom, kitchen, bathroom, etc. I have been hearing a high-pitched signal, everywhere. I believe that it could be a microwave transmission that functions like a carrier wave. I have tried to block it. I even put a pot over my head, but it did not do any good. I catch the bus to work. About three months ago, someone on the bus saw me and made the comment "They can just take things out of her head and use them." I went to my Doctor's office about 5-6 years ago because I wasn't feeling good. After my Doctor left and I was dressing, I heard him down the hall make the comment to his Assistant, if the FBI calls, and they will call, tell them she just has a cold. I am a hard-working person, who is not a terrorist or a killer, who even may have saved lives, because I alerted the residents of my apartment building to a gas leak. I have been experiencing the echo, as well as monitor comments. I even picture something in my mind and there are comments. The technology, or even in combination with a gifted person, is incredible. My apartment is on the second floor. There is usually a recap in the morning when a report is made to the head person. The comment was made that "she masturbated for an hour and a half last night." One morning, the monitor in his own voice made the admission that "I got an erection." I feel the same way as if I had been raped, because I feel that I have been personally violated without my consent. They are deliberately using technology to enter my residence and do this to me. I don't think that society is ready to deal with issues such as this. So I have been suffering like this for days, months, years.

I have not previously come forward because of what was done to me. Those who have been doing this had "scanned me" and found that I liked an actor. They used the technology to make it appear as if the actor was brought up to their listening post and that they were going to bring him into the office to meet with me. All of a sudden, they made it appear as if he stormed out saying "she doesn't need a confidentiality agreement" so that I did not get to meet the actor. I was terribly hurt and disappointed that I did not get to meet Harrison Ford. We had a client, a Mr. Ford, but as they made it appear as if he was storming out, my boss was down the hall on his cell phone saying "But Mr. Ford."

Then the next weekend, on Friday night, those responsible made comments and tried to "con" me into believing that the actor was in a limousine down the street, that he had come to meet me. This led to my boss showing up at my apartment. He did not tell me where he was taking me, or who I was going to meet. I thought that I was going to meet a client, etc. so I arranged for my daughter to stay with neighbours for a few hours. My boss drove me to

the hospital, where he made the comment "this is the woman that I talked to you about over the phone." I ended up being placed on a 72 hour mental health hold, then short-term certified, and I was locked up in the mental ward of the hospital for 18 days. I had no idea that this was going to happen. The police had to pick up my daughter from school because I did not have anyone who could take care of her. I did not even have a change of clothes with me. A dependency and neglect action ensued. My daughter was put in foster care for 5 months. I finally got her back, while I had to prove that I was O.K. and not a crazy person. I had to spend Christmas locked up in the hospital away from my daughter. I had to pay \$3,500.00 in child support to pay for the foster care. The hospital sued me for 15,000.00 in medical bills. This is why I have not come forward earlier, because of all this

I lived in SF for many years. I love it there. This could be where my targeting began who knows. With my pregnancy I became an unsuspecting guinea pig. Or my ex actually works for the CIA was sent to do my big rad ass mouth in and accidentally got me knocked up so to speak. Well Thanks for your story. Mine is close different city. I do not have the talent or training you do. I could only dream of it. I went there to become an artist/musician. I got close. THANKS Bob. I fall through the cracks here. I really do. I did check it out. Even with two kids I don't qualify due to the nature of entrance to the program now and how the robed man set up the time scheduling and support. No support, no food stamps, no disability. I have one family member who has supported my existance. A few friends that I cannot decide which side of the "war" they are on. But I can't give up. It is so beautiful here in the summer. Sometimes I just feel in my gut like I am stranded in the desert of suburbia out here. Can't walk to much. No regular job. I suspect people who hire me arent just random people that much. I am supposed to go from home owner to home cleaner? You should hear me sing. You should see what I used to fucking look like even in my early forties. Today I have at least three stinging itchy places on my scalp, punctures where my hair was removed last night. My neck has stings in specific places we are rapo aging right now under my jaw. No blood today in the nose but the usual liquid in the ears. Stinging and puncture on the back of my head and down my neck. You can see the ones on my neck. My foot. And the dog has a place with a black looking ink like tatoo spot between here toes. Been doctoring that for days with ointment. Prids. Smileys. Ask for it by name! Health store. Ointment in tin in an orange box. Incredible. Also Dr. Wacky's. Ha! Small comfort from real wacky doctors.

Thank you for all the information i look forward to our get together.

This would the beginning of our historical success...We can overcome the silent holocaust the solutions are within our reach.....we live in the most rich, intelligent, technological country we can utilize these abundance and succeed.... :-)

i would like to invite you and other TI's in your circle whom i consider my friends now to get together and talk about working together and becoming one voice.

Please let us come to this meeting with no negativity no baggage from the past we want to find common ground to

work together become a strong healthy voice bringing peace to ourselves and our planet.

We must be able in our meeting set an example of forgiving finding common grounds setting a realistic goals and start working on them we must each participate .....We are incredibly challenged. We can not afford to fail.

If we can not find a common ground and do come together... very soon TI abuses would be categorized in the Psychological Codes as a new global mental disease....

We must be able to bring peace, compassion, love among each other then demand it from our perpetrators.....

My dear Ramona has taken the responsibility to contact all of beautiful friends that she knows in the area and within the circle and you to set a time and location to meet.

**28/8/08**

Good day Thank you so much for your offer your support we definitely need your support and every one's We can establish a dialog with UN - It all depends to this presentation....

Our presentation is going to the UN by a top Human right official therefore we have a very good chance

Our hopes are UN and the US Congress/ Senate we must work with these two organizations till we are free. There is no where else to go.....

We have to put a package together short but effective of Factual abuses we must give some idea which law or policy we think was utilize to make us look a criminal what policy or procedure was utilized to make us look mentally ill who did executed such documentations against us.then at the end we can conclude the government involvement the source.first we have to draw a road map by our each individual experience then move our way up to the source.we have talk about the health effects on adult and youth and children if we have evidence would be great then about people committing suicide since documented mentally ill of depressed government washes his hand with no liability...

i have a road map that i will be sharing with every one later but let us think together put our heads together to come up with the best present ion this is about our life our dignity and our loved ones and the humanity we are smart people we can do it together. We should put our heads together and put a presentation which will be from the US people to UN

My respectful loving family became a target because of me.... i just heard my mother is sick is gong to the hospital will you please forward this e-mail and my request to every one you know and have every one to contact me to bring this present ion together....Please forward this e-mail to every one you know and the individual i did e- mail yesterday. this would be a great help at the moment.

Our hope is in God our Congress and the UN .We can do it if we come together as a one healthy voice.

I have to go to mother's help.....

**6/9/08**

If we work hard, intelligently, respectfully with persistence and believe and come together just as we do now we will have the Senate and Congress and the UN to support us to stop this silent holocaust we have an undeniable opportunity to succeeded....

Since my attorney is so busy could you please kindly first contact me i will act as Mr.Nejadpour's assistance.

Also, i would like to mention that i have had a few years of legal training not so in depth but enough to be assisting Dr. Nejadpour.

I am please to announce that Last Week my beloved brilliant Psychologist Dr. Siamak Monjezi has agreed to Psychologically/Scientifically stand against the harms of DEW on Victims of this crime.

I would like to announce that my Beloved brilliant Attorney has joined and offered his legal support to the victims of DEW.

It is an honor to have these gentlemen on board along much respected Attorney Wilson.

Since he is so busy please first contact me then i will inform him and i will assist him in his legal Support against DEW

i know them personally they are of high quality human and professionals with an open mind and open hear.

Also, my endless gratitude to you Attorney Wilson, Derrick, Timothy, Richard and all the responsible individuals and all the TIs you are all brilliant human beings we are a team who would be among the pioneers in this movement to end such aggregation against our constitution and humanity...

i informed my beloved attorney of the DEW exposure he offered me his support and said will stand by me till the end and he has truly done that no matter how i have been framed as untouchables and condemned by the handful of violators our rights who are so powerful and manipulating the whole government of US acting as our government ....while

i was put in the terrorist list of united States of American and labeled by the County mental hospital a mentally ill and non cooperative patient. this label has been sent to all home;and security , national security and all relevant agencies . i have been put in the "Electronic Guantanamo" per Military Commission Act of 2006 signed and made into Law by the legendary George W. Bush!!!

My beloved attorney never gave up on me he reminded me how respectful i was . he always receives me as a professional and fine human....

i have written the following to show in what circumstance my attorney still stood by me.....to demonstrate his heart and mind and of course my beloved Psychologist did the same....

This life goes on for the beautiful Souls .....

Being on the Terrorist list of USA with the Global War on Terror Campgin of this administration (who are planning to continue it for decades per their announcement to keep me captives while bin laden is enjoying life at some resorts... ) you can imagine what i must i have endured.

i have been burned, i had been taken to emergence hospital for having lots of liquid accumulation on my brain...i have been electronically sexually violated when

American solitudes were violating Iraqi solders in Iraqi war ...i have been sent terror and sexual degrading messages for a long period of time...my car a fairly new Mercedes Benz engineer blow up in the FWY. my face and body is deformed to make me look less attractive and look tiered old angry there are lines put on my face to make me fit the terrorist accusations, my properties and clothing are vandalized on the daily bases . by employers of the **U.S. Department of Treasury** .i have been threatened over and again, my family has become a victim my mother and other member of my family are being murdered by radiation and they do not know it is radiation this was to justify that my whole family is bad and this runs in the [family.to](#) even block more of reaching high officials by taking every credibility i could ever have and murdering my family in front my eyes ..i have lost my 22 years of outstanding service to the local US Government had been electronically sexually abused at my employment at County of Los Angeles Department of Public Works by mind control i would hear my boss or whoever pretended to be my boss sexually electronically violate i knew my top bosses were well aware and involved in this . Then the same people have put a report against me that i manipulate men to....to get my way ....i was given such a secure that i do not know how i got home from work i was so frightened i could not go to work for two days the former director of the County of Los Angeles Department of Public Works accused me that i have offered my body to him for a promotion my degrees and education supersedes my boss's the rummer was devastating to my professionalism while i was working there.most of these accusations as of now are Public documents devastating my career ... i kept on producing the best projects an engineer could till the day i was fired i acted professionally towards all including Public.as among pioneer women engineer i have lost my health insurance my savings i have borrowed to take my law suits against such aggression , i am stopped now of receiving a loan which i am perfectly well qualified by one of the most experienced credible loan officers but the loan officer does not understand why he is having such a hard

time with my loan stop me of taking my case to court so i will be free from this aggression and it the DEW scandle will surface....i am financially very pressured....

My experience is that Police is the coordinator of all they have to be brought to Justice. If you noticed every TIs life has been touched by Police. the source may be somewhere else but the Police is the coordinator turning the innocent in making falls accusations manipulating other aganices to comply with their .

When i went to police to pelge that this abuse to be stopped i saw the ...Please forgive me that i have to use an unprofessional word ... i saw a tall big man there was something about his looks he smiled at me by electronic communication i was told that this man is my master and a pimp and tonight we are going to have orgies ...and it went on with profanity this is our Police Department.....i went home i called the White House .....and the FBI .

perhaps they made a mental illness report against me because it did not end for a while....

i have never spoken about this i was frightened to be labeled further as mentally ill now everything is so becoming exposed that i am talking about it for the first time...publicly

Is not interesting that the Police hires Pimps, **criminals, violators vandalizers and the U.S. Department of Treasury** pays them a salary and benefits !!! Pimps and under cover securities which are in any and all buildings in the most remote locations every building you can think of receive jobs, paychecks and benefits from Police and the **Department of Treasury** and **I HAVE NO JOB.....**

**All TIs please know that the violaterors of your life mostly are on pay roll and paid by the US Department of Treasury.**

**i wish our legal processes would holed the POLICE and the US Departmetn of Tresuary responsible we should put our heads togehter and see how this can be dome we we must be able to ring this to the Senate and Congress and the POLICE is easy every TIs records and files has been touched by the POLICE at one point whether the TI is aware of it or not...**

Even though i respect police and that is 20% of them i have frightened to report other major crimes against me...i have lost 80% of my respect for Police.

Police has to be brought to Justice also, we must put our heads together and see how we can do this. Also i will be campaign for Police Reform. Police betrays American Government ( the public side of the Government and gets money and funding pretending keeping terrorist the TIs out of dangering the US Public taking the money and abusing the innocent citizens and turning them to entities who have monopoly on the new emerging technology the Nano Technology..... I am a victim of Police aggression so are my family .....

It is conceivable if McCain wins god forbidden especially not palin a disaster for women right and other ethnic groups and labor union members Rights just before our February meeting with Senator Eric Adams there are going to be a lot of terrorist activities happening in the subways of NewYork as as result McCain perhaps will right a law to effect as such: Military commission Act of 2009 no crowed of mores than two could gather any where in town that is our new National Security policy and this all in the name of war on terror ultimately keeping America Safe.Why do i say this because this is exactly what happened to me....they fired me then there were surprisingly lots of NewYourk subway threat it was then they made into law much more profoundly that any such treat one goes into the US Terrorist list then they justified to strip me of my everything and dehumanize me. Any time US has any problems in other countries the Electronic Guantanamo for me becomes even more unbearable in the Electronic Guantamo right here in Los Angles i am abused as if i am related to any thing abroad!!

If these people are so incompetent how are they are claiming that they are defending our country America. if they can not realize in Seven years that i am not a terrorist? how could they be trusted by safe guarding us...if they go after the Patriot instead of the Enemy ...do;t you think that there is a real problem here? i believe Police need help legally and psychologically , ethically they have be trained how to be a Patriot and to be peaceful...

My attorney not only believed in my innocence he encouraged me to be strong in our constitution when i was down he would up lift me with his encouraging words and beautiful smile. he invited me to all his family gatherings so i would not be isolated while there would be immense measures taken against me to come out of isolation...

Attorney Nejadpour is a Patriot & a Humaniterian

My beloved Attorney became my legal strength and the brother i never had ....now he along my

No attorney would want to take my case either they were afraid or they were so narrow minded they taught i was crazy.

Any American attorney i have been that they were courageous and understood wanted to take my case seemingly they would be contacted and perhaps they were informed that there is

court order against me and that is the **NO DUE POSSES CORUT of FISA** that the terrorist are prosecuted behind their back based on the law enforcements and the Police and they are sentenced to death with no poroal the DEW and the Electronic Gaunatamo just as me and my family just as many TIs. the Attorney immediately would cancel their taking upon my case i had this happen over and again even the County Board of Supervisor Deputy to Supervisor Antonovich told an influential friend of mine who was trying to do something positive for me in relation to my employment the Deputy told my friend Sir **STAY AWAY FROM THIS CASE!!!**  
The crime against us and against me is so immense that they can not afford this case to go to court they are financially and by DEW are almost killing me  
but my beloved Attorney supported me.....

No attorney would want to talk to me ...this is how the Police of Glendale managed to make my statute of limitation pass so even though i sued them but they got away with the violation of my civil/constitutional right they got away with the taking my health and life from me and my family.  
Again now they are manipulating unreasonably the loan situation i have so i can not continue to complete my law suits against their despicable crimes....so they can be hiding from the court of law and continue to their crime against the Humanity....  
No matter what my attorney stood by me.....

Please now that i have top degrees and licenses and experiences in my field and have been acknowledged by the Cambridge who's who the "Professional of the Year for 2008-2009 and last year i was recognized as the Top Women Engineers since 2002 to date as among Top Professional Engineers in the US. As of now i have no job and my finances are devastated!!!!!!!!!!!!!!!!!!!!!!

I am sure you would appreciate that what kind of a retaliation i will be facing for this.....but i will go on.....there is hope out of sentence to death without poroal there is hope out of electronic Guantanamo .....all will be fine soon for us even if McCain and palin come in write more torture and electronic Guantanamo because we have now our brilliant professionals on board and we have each other we have our constitution and we have God.....the future is bright..... :-)

I am writing a book of my story and by my experience who are involve in this aggression the benefit of the book if any mostly will go to the wellbeing of TIs or our cause....

i will not send long e-mails as such again....  
Thank you

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**23/5/10**

I am a TI of electronic harassment. since the week before Thanksgiving 09 and prior to that the gang stalking started in 4/09.

What is the most compelling evidence you have that electronic harassment is being done in the USA as well as gang stalking.

I know myself from how I feel but there a lot of people who don't believe it. I have visited a lot of websites but what would you say is the most compelling evidence that EH and gang stalking is happening to people across the USA?

**3/6/10**

My name is Jeff Murray -- I am being nightly and daily tortured with electronic harassment and gang stalking ( gang stalking is a tactic developed by the Nazi's in Germany and later used by the KKK). All I ask is you get the word out. An abundance of evidence is out there and 3 states have made it illegal. There are thousands of victims--- all somebody has to do.... is put you on a list an you could be next. I have no charges of anything against me... we spoke to Sheriff Gore and he said my name does not come up in his computer.

This is happening to me... please send it to everyone on your mailing list. As Jesus Christ is my Lord I am telling you the 100% truth. And that is why whistle blowers from the NSA have come forward saying it is being done to American citizens. Somehow I got put on a list and this is what happens to you when you are on this list. We want to keep America safe... but I am nightly be tortured with electronic harassment and so has my 77 year old mother been hit with it. You cannot identify where it is coming from as it involved microwave radiation and RF waves.... Again-- I am telling you the truth. Laws have been passed banning it in 3 states. This is happening. There are thousands of targeted individuals in America.

Every night and in the day I get hit with painful electronic harassment. This is happening in America. Somehow I got targeted.

I am under a comprehensive program of gang stalking/smearing where ever( everywhere-- I learned that the network is already set up so they don't follow you from your home they go to where you are) I go and electronic harassment daily/nightly I know it sounds hard to believe but I have found many other people who are on this same illegal thing. Some people only get gang stalking and many get gang stalking and electronic harassment. I get both plus microwave hearing-- they do it by remote neural monitoring. Two NSA whistleblowers have come forward and said it is happening to American citizens and court cases are at the links below. Laws have been passed in MI, ME and MA against it. They use remote neural monitoring on me and combine it with microwave hearing. So they know what you are thinking and they can speak to your head. They click a lot. It sounds crazy but the technology is actually old technology. Microwave hearing also know as V2K goes back to the 1950's and RNM was patented in 1974. Two whistleblowers from the NSA came forward and said it was being used illegally on regular citizens. If this weren't true why would you ruin your career with the NSA to report something that was not happening:

It is happening -- I know because it is happening to me. No court ordered this but I am being hit with this hard enough to have to go have lesions froze off my head unlike anything I ever had. It messes up your eyes. Check out the link on Mendoza. it has pictures of his eye and his court case banned this electronic torture in MI.

Per the instructions of John Finch I am forwarding the account of the gang stalking, electronic harassment, remote neural monitoring that I have experienced since April 2009 when it started at the home I had worked my butt off to pay off the mortgage in Nashua, NH. First started the gangstalking, harassment and vandalism which went on 24/7 until the week before Thanksgiving 2009 and then was added intense painful electronic harassment. I hired 2 firms to try to find the devices and never did. I have since learned the EH was most likely coming from cell towers or satellites. I went to live in hotels in NH and MA and got hit hard with EH (electronic harassment) there was well. I ended up renting out my home and putting it up for sale in NH and moved in with my mother in Rancho Bernardo, CA where I have been hit with electronic harassment at varying intensities every day for over 6 months. My mother who is 77 years old has been hit too and I have spent a fair amount of money on active and passive shielding. I was also laid off 12/30/09 in large part due to this and have been unemployed but looking in this great recession we are having over here. I never retaliated even though I was having doors of vehicles repainted, tires replaced, police in Nashua taking down complaints on a 1/2 inch square piece of paper and smirking and on and on it went. I never retaliated but I yelled a lot in the privacy of my own home which I now know is not private at all. Also, Captain Segal of the Nashua, NH police Dept said to me "Jeffrey there is no investigation of you." and when I got to San Diego a close family friend met with Sheriff Bill Gore and he said "his name does not come up in the computer". I know from my research that 3 USA states have made it illegal - MI, ME and I believe too. But I did not know that when I got hit at a hotel in MA in 2009. In the past couple months I had to have a lesion froze off my head unlike I ever had before. The Dermatologist said it was not cancerous. I have slept on the floor for over 6 months now because the EH in the bedroom causes too much pain in my head. Sleeping on an inflatable (air) mattress has caused considerable hip pain due to my being 51 years old.

See attachment of documentation I sent to the US State Dept, Office of Human Rights.

Sincerely,  
Jeff Murray

**18/7/10**

I was driven out of my home in NH by DEW and organized stalking. The home was paid for. The EH was too intense to stay.

I live with my mother temporarily - she is 77 and is getting hit with EH and organized stalking too. We were scrolling your list and she said add my name but not my phone number.

Joan Fitzgerald (senior citizen), USA, year torture began: 2010, San Diego, CA, OS and EH, and if I am not there, Jeff Murray, USA, torture began 4/2009 in Nashua, NH - continues in San Diego, CA, [Jeff773747@yahoo.com](mailto:Jeff773747@yahoo.com), OS and EH,

Thanks,  
Jeff

Sirs,

In America and around the world innocent, non terrorist, non criminal, non under investigation for any crime, ordinary people are being daily targeted with Government Sponsored Stalking, torture from directed energy weapons- this is pain caused from electromagnetic energy, remote neural monitoring, COINTELPRO tactics. They are literally destroying innocent peoples lives. And by "they" I mean the US Government agencies-- it must be rogue people in there who have taken control of these technologies. Congress refuses to pass the Whistleblower Protection Legislation so the people with consciences there are not coming forward. Below I have listed some of the websites and support groups that have arisen from these atrocities. Two former FBI agents came forward and said this is happening - Ted Gunderson and M. Wesley Swearingen. Yet the Main Stream Media and the US

Congress and the Oversight Committee does nothing to help us.

It is my hope that your organization may have proof that these things are happening because the USA. MSM will not help us. The courts will not help us. Law Enforcement will not help us. They right us off as delusional but the TRUTH is these things are happening.

Thank you for any help you can provide to get the truth out about these things.

I am ccing some of the Targeted Individuals who run these websites.

My name is Jesse Murray. I have been the victim of satellite mind reading since Dec. 1st 2013. It has devastated my life. I am sure you are aware of the covert programs that take place on U.S. civilians where they are constantly monitored, tortured, and harrassed 24/7 365 days a year by operators for monetary gain. This type of invasion of privacy on my mind and body most certainly breaks what the Constitution has set forth in writing.

It started when I graduated from college in May 2013 and I decided to get a job down in Frederick, MD. I worked on the maintenance and repair of I-495 in Alexandria. The company I worked for was Roy Jorgensen and Associates I figured out I was under surveillance when the managers of the company around me would comment on things that I did in my apartment, and in my house in Hazleton, PA. I said some inappropriate things about some of the managers and their daughters while I was in my apartment. I believe they decided to call a colonel in the airforce (perhaps retired) who proceeded to keep me in this program. They wanted revenge. This could end up to be deadly to me and devastating for my family. I know billions of dollars are thrown around and their must be some contracts given to military personnel who are the perpetrators of this satellite mind reading. Please help me or direct me to where I can get help. I have received my Freedom of Information Act from the NSA and it states that there is no reason for me to be under such surveillance. This must mean that what is being conducted is taken place in secrete and is classified. Thank you for your time.

I live in Palm Coast, Flagler County, Florida 32164

I'm assaulted 24/7 with few moments in-between by these weapons and technologies. Because the area is small, I know who's doing this to me here.

It depends on where you live, however all three US states I've lived in have a common denominator: The Satellite Intel DOD & local connected Contractors and infamous areas for MkUltra (CIA), this includes the medical community, and more importantly, the NSA.

In my second state, I lived (unknowingly) by the CIA TORTURE RENDITION AIRPORT / AERO CONTRACTORS and it is there with the aide of FT BRAGG POPE AFB North Carolina the PSYOPS are trained--its who targeted it on me. I sadly bought my dog from a guard there whom informed me his father was NSA; before long all the neighbors began targeting in on me. I soon learned they too were Ex-NSA, ex-military, sons in the military and CIA-GANGSTERS... they were MOBSTERS/New JERSEY USA whom moved to North Carolina to hide out from all the serious federal crimes left behind.

Living around all of these areas I learned something of interest to all TIS: They run a Global Satellite Network (CIA-DOD) from the air. They are the ones coordinating the ground issues for TIS. They also run they're targeting from local airports (HDS \$\$\$\$) with the Navy, Ex-Commissioned, Prostitutes, Cops (on the take) and low low NSA types.

In the end, it's the CIA. They've destroyed America now working on the world. I'm sorry as an American.

Since 911, my country has declined rapidly. I'm seeing a complete breakdown by most all, with no end in sight. The only ones safe are the rich and the 'militarized-federalized' police (yes).

The CIA-FBI did this & 9-11. Where were they and the NSA then? I know they know.

My real name is; Christina C. (Krabal) Myers. The first year I was hit with energy weapons was May 2009 in Smithfield, Johnston County, North Carolina. I moved from there July 2011, headed for Florida and was hit day one attacked by Space Based Weapons and handheld CIA Raytheon Guns straight thru my heart, and Gwen & Microwave towers, and Satellites; maybe HAARP with Chemtrails. The organized stalking started slow, graduating to mass hysteria in Florida where they say its worse. The stalking began in North Carolina same time, 2009 and the electronic harassment both on the ground and from space (Satellites) that also stalked and preyed up me; they used space-based energies attacking my cats, 1 in NC, the other here in Florida. They killed both of them. I am hit with microwaves, electromagnetic frequencies and scalar pulls, cold fusion, lasers from sharp to large, large microwave hits to the kind that split into my brain causing my spine to feel as if its splitting in two which I believe to be both satellite based and helicopters by the Navy. I have been hit by a military jet flying over me -- in the center of my spine. There is always low-lying satellites hovering around me, 24/7 while unknowns swarm around where ever I am living. When I go out, there are times they send rough low life type guys after me, going so far as to send the police here to try to shoot me--I had a coffee in my hand. It was shocking. My life is obviously always on the line. Someone wants me dead. Its the DOD-CIA-FBI/SBI (State Sponsored) for HDS FUSION CENTER murdering madness in America for the Bush/Cheney cover-ups of 911 and the massive amount of money stolen from me (millions) that they made sure I'd never see.

Christina C. Krabal Myers

widow of George B. Krabal who was murdered at Bethlehem Steel Ship Yard, Baltimore MD known as Sparrows

Point.

Its one of my perpetrators and their law firm Whiting Taylor and Preston and lawyer Dale Garbutt who covered for my own so called lawyer Jay D. Miller both robbed me of millions (yes) and received big D.C. favors. That's who started the gang stalking: Jay D. Miller in Bel Air, Harford Co MD where I bought a home finally... I was in it 2 weeks when all of this started. They got the next door neighbors Ann & Ski to get their daughters husband to begin the Satellite torture on me as his daughters married into heavy investors of Sateliites and they did so jumping up and down laughing, like the ones in North Carolina all for those mentioned here-- millions stole from me for my husband's death at Beth Steel.

illegal home and work surveillance

phone tapping / intercepted calls / hang up calls

The most recent attack against me included covert drugging by a man I was dating (Matthew Garrett Bram, Licensed Professional Therapist) with a liquid dropper bottle (cyclic antidepressants mixed with triptophan)

Slander campaign to discredit me

Some type of electromagnetic weapon testing (high body heat, sweating, heart palpitations, ear pain, low noise, being awakened from sleep at 12:00 am every day)

Chest pain, dizziness and confusion have been experienced by my senior citizen parents as a result of these assaults

My animals also have exhibited erratic behavior and obvious signs of distress and agitation as a result of these attacks

Please do what you can to make this abuse / torture stop.

I understand that gang stalking is a federal crime which violates a whole bunch of civil rights.

My elderly parents and animals certainly don't deserve to be abused in this way, even if these people have a personal vendetta against me. We can take some comfort in knowing that people who do such things will go to Hell, but my family and I have been through enough. We need it to stop. Thank you.

My name is Chuck Nappi. I have been tortured since April 3 of 2013. I am suspicious that I was implanted by a man named Jeff Black. I am suspicious is part of a satanic cult. I suspect his family may be involved as well. I believe the implant happened 12 years ago while I was in Georgia with this man. We were very close friends at one time.

I am being electronically tortured by electricity and communication devices such as cell phones and computers. Currently they are relying heavily on my cell phone when I am not home and electrical torture when I am at work and at home.

It is ruining my life. Please help me and other victims of this horrible crime.

A letter to Attorney General, Organized Crime Task Force Attn: John Dormin Capital Albany, NY 12224

Dear Attorney General:

I am a native New Yorker and have resided in the state for my entire life. I graduated from Brooklyn College in 1981 and went on to earn my Masters degree at Yale University. I have had a long and successful career in the arts. My work in the theater has earned me honorary grants from New York State; but it is primarily in the field of literature that I've made my mark. My various novels have received many awards, among them a Guggenheim Fellowship, and my first novel, *The Women Of Brewster Place*, won the National Book Award in 1983 and was made into a television miniseries by Oprah Winfrey. I have tried to live a peaceful and law abiding life; tried to give back to my community and to the world through teaching at various universities and through touring for the United States Information Agency in Africa and India. So I am in a quandary as to why in 1996 I first became a target for constant surveillance, organized harassment, and ultimately assault by electronic weaponry.

The surveillance began in Beaufort, South Carolina, where I was researching a novel and continued when I returned to my home in New York. Six months into this experience I began to "hear voices." Among the many messages were exhortations to kill myself. And I did what I would suggest anyone do under such circumstances: I sought medical help. After almost ten years, three psychiatrists, and prescriptions of haldol, a chemical reason for this condition was ruled out by professionals. That is because the reason was technological. But that was beyond their prevue. I do not believe it is beyond yours; because my circumstances make me the target of an organized and concerted operation to deny me my civil and human rights.

Over the years I have calmly and systematically tried to bring various elements of my plight to the authorities I felt would be concerned with it: The surveillance and wiretapping to the attention of the local police, civil rights attorneys, human rights organizations, and the progressive press. The technological abuse I brought to noone because, while there is knowledge of its existence, and knowledge of decades of experimental abuse of emerging technology on unwilling citizens, there is nothing concretely documented about this current wave, I am in the midst of history in the making; and like COINTELPRO and MKULTRA and the radiation experiments from the 1950's to the 1980's, I stand as one among many who have had their lives and their sanity disrupted and often destroyed. But I also stand as a resident of New York State; and I am bringing to your office a declaration of these human rights abuses on one of your residents.

Carta al Fiscal del Tribunal Supremo Americano.

Fiscal del Tribunal Supremo.

Grupo de Reflexión sobre el Crimen Organizado.

A la atención del Sr. John Dormin

Albany, NY 12224

Estimado Señor Fiscal,

Soy una nativa del estado de Nueva York y residí en este estado toda mi vida. Obtuve mi diploma de licenciatura en la Universidad de Brooklyn en 1981 y perseguí mis estudios, hasta la obtención del Master en la Universidad de Yale. Tuve una larga carrera coronada de éxito en las artes. Mi actividad en el teatro me permitió gozar de

subvenciones a título honorífico del Estado de Nueva York; pero es esencialmente en el dominio de la literatura que me distinguí. Mis varias novelas recibieron numerosos premios, entre los cuales el Guggenheim Fellowship. Mi primera novela, "The Wives of Brewster Place" obtuvo el National Book Award en 1983 y ha sido adaptada en una miniserie televisiva por Oprah Winfrey. Traté de llevar una vida apacible y respetuosa de las leyes; traté de ayudar a mi comunidad y al mundo enseñando en varias universidades y ejerciendo actividades en el campo del turismo para la United States Information Agency en África y en la India.

Intentar comprender por qué en 1996 me hice objeto de una vigilancia permanente, de hostigamiento organizado y luego de agresiones por armas electrónicas es sencillamente un verdadero dilema para mí.

La vigilancia comenzó en Beaufort, Carolina del Sur, donde yo trabajaba en una novela y continuó cuando volví a mi casa, a New York. En el curso del ejercicio de esta actividad (que duró seis meses), comencé a "oír voces". Entre los numerosos mensajes había unas incitaciones al suicidio. E hice lo que le habría sugerido a quienquiera en tales circunstancias: busqué asistencia médica. Después de casi diez años (tres psiquiatras y prescripciones de Haldol), el motivo químico fue excluido por los profesionales, porque la razón era simplemente tecnológica. Pero era más allá de su previsión. Las circunstancias me convirtieron en blanco de una operación organizada y concertada para negar mis derechos civiles y humanos.

A lo largo de los años, traté de manera tranquila y sistemática, de presentarles varios elementos de mi situación penosa a las autoridades que, a mi parecer, me concederían su atención: el asunto de la vigilancia y las escuchas telefónicas ilegales a la atención de la policía local, de los abogados de derechos civiles, de las organizaciones de derechos humanos y a la atención de la prensa progresista. No hablé a nadie de los abusos tecnológicos, porque, a pesar del conocimiento de su existencia y a pesar del conocimiento de décadas de experiencias de la tecnología emergente sobre ciudadanos no consentidores, no hay nada de concretamente documentado en este dominio, estoy en el medio de una historia que actualmente se está escribiendo: entre las experiencias COINTELPRO, MKULTRA y todas las experiencias de irradiación desde los años 1950 a los años 1980, soy sólo una víctima entre tantas otras que vieron su vida y su salud mental perturbadas y a menudo destruidas. Pero soy también una residente del estado de New York y vengo para presentar ante sus servicios una denuncia de estas violaciones de los derechos humanos de uno de sus residentes.

Respetuosamente,  
Gloria Naylor

Monsieur le Procureur Général,

Je suis une native de New-York et j'ai résidé dans cet état toute ma vie. J'ai obtenu mon diplôme de licence à l'Université de Brooklyn en 1981 et j'ai poursuivi mes études, jusqu'à l'obtention de ma maîtrise à l'Université de Yale. J'ai eu une carrière longue, couronnée de succès dans les arts. Mes activités dans le théâtre m'ont permis de bénéficier de subventions à titre honorifique de l'État de New York; mais c'est essentiellement dans le domaine de la littérature que je me suis distinguée. Mes différents romans ont reçu de nombreux prix, parmi lesquels le Guggenheim Fellowship. Mon premier roman, "The Women of Brewster Place" a obtenu le National Book Award en 1983 et a été adapté dans une mini-série de télévision par Oprah Winfrey. J'ai essayé de mener une vie paisible et respectueuse des lois; j'ai essayé d'aider ma communauté et le monde, en enseignant dans diverses universités et

en exerçant des activités dans le tourisme pour la United States Information Agency en Afrique et en Inde. Tenter de comprendre pourquoi en 1996 je suis devenue la cible d'une surveillance permanente, de harcèlement organisé puis d'agressions par des armes électromagnétiques est tout simplement un vrai dilemme pour moi.

La surveillance a commencé à Beaufort, Caroline du Sud, où je travaillais sur un roman et a continué quand je suis rentrée chez moi, à New York. Au cours de l'exercice de cette activité (qui a duré six mois), j'ai commencé à "entendre des voix". Parmi les nombreux messages il y avait des incitations au suicide. Et j'ai fait ce que j'aurais suggéré à quiconque dans de telles circonstances : j'ai cherché de l'assistance médicale. Après presque dix ans (trois psychiatres et des prescriptions de haldol), la raison chimique de cet état a été exclue par les professionnels, parce que c'était tout simplement technologique. Mais c'était au-delà de ce qu'ils avaient pensé, parce que les circonstances ont fait de moi la cible d'une opération organisée et concertée pour nier mes droits civiques et mes droits humains.

Au cours des années, j'ai essayé, de manière posée et systématique, de présenter différents éléments de ma pénible situation aux autorités qui, à mon avis, y accorderaient leur attention: j'ai présenté la question de la surveillance et des écoutes téléphoniques illégales à l'attention de la police locale, des avocats de droits civiques, des organisations de droits de l'homme et à l'attention de la presse progressiste. Je n'ai parlé à personne des abus technologiques, parce que, malgré la prise de conscience de leur existence et malgré la connaissance de décennies d'expérimentations de la technologie émergente sur des citoyens non consentants, il n'y a rien de concrètement documenté dans ce domaine. Je suis au beau milieu d'une page d'histoire qui s'écrit sous nos yeux: parmi les expériences COINTELPRO, MKULTRA et toutes les expériences d'irradiation depuis les années 1950 aux années 1980, je ne suis qu'une victime parmi tant d'autres qui ont vu leur vie et leur santé mentale bouleversées et souvent brisées. Mais je suis aussi une résidente de l'État de New York et je viens présenter auprès de vos services une déclaration de ces violations des droits de l'homme sur un de vos résidents.

Respectueusement,  
Gloria Naylor

Brief an den Generalstaatsanwalt  
9. Januar 2007

Generalstaatsanwalt  
Arbeitsgruppe Organisiertes Verbrechen  
Zu Kenntnis von John Dormin  
Albany, NY 12224

Sehr geehrter Generalstaatsanwalt,

Ich bin eine Einheimische von New York und ich habe mein ganzes Leben in diesem Staat verbracht. Ich habe mein Hochschulabschluss an der Universität von Brooklyn 1981 gemacht und ich habe mein Studium fortgesetzt, bis zum Master an der Universität von Yale. Meine langjährige Karriere in der Kunst war sehr erfolgreich. Meine Arbeit im Theater hat mir ermöglicht, die Honorarzuwendungen des Staates New York zu erhalten. Hauptsächlich hat sich mein Talent im Bereich der Literatur bewährt .

Meine verschiedenen Romane erhielten zahlreiche Preise, unter anderem den Guggenheim Fellowship. Mein erster Roman, "The Women of Brewster Place" bekam den National Book Award 1983 und ist in einer Fernsehkurzserie von Oprah Winfrey gezeigt worden. Ich habe versucht, ein friedliches Leben zu führen, das den Gesetzen entspricht; ich habe versucht, meiner Gemeinschaft und der Welt zu helfen, indem ich an verschiedenen Universitäten gelehrt habe und Tätigkeiten im Tourismus für die amerikanische Informationsagentur in Afrika und in Indien ausgeübt habe. Die Feststellung, dass ich 1996 ein Ziel für eine permanente Überwachung geworden bin

und begreifen musste, dass ich mit elektromagnetischen Waffen angegriffen werde, stürzte mich in ein wahres Dilemma. Die Überwachung hat in Beaufort, Südkarolinien begonnen, wo ich an einem Roman arbeitete, und ging nach meiner Rückkehr in New York weiter.

Im Laufe der Ausübung dieser Aktivität (die sechs Monate dauerte), begann es, dass ich Stimmen hörte. Unter den zahlreichen Mitteilungen gab es Anreize zum Selbstmord. Ich machte zu diesem Zeitpunkt, was ich jedem unter diesen Umständen vorgeschlagen hätte: ich habe medizinische Hilfe aufgesucht. Nach fast zehn Jahren (drei Psychiatern + Haldolverschreibungen), ist ein chemischer Grund dieses Standes von den Experten ausgeschlossen worden, weil alles ganz einfach technologisch ist. Aber das konnten sie nicht voraussehen. Ich glaube, dass mich die Umstände in ein Ziel einer Operation umwandelten, das organisiert und vereinbart ist, um meine bürgerlichen und menschlichen Rechte zu leugnen.

Im Laufe der Jahre habe ich versucht in aller Ruhe und systematisch, verschiedene Elemente meiner mühsamen Lage den Behörden näher zu bringen, die wie ich dachte, sich darüber beunruhigt zeigen müssten: die Überwachung und illegale Telefonabhörung durch die lokale Polizei, durch die Bürgerrechts-Anwälte, durch die Menschenrechtsorganisationen und die progressive Presse. Ich habe mit niemandem über diesen technologischen Missbrauch gesprochen. Trotz der Bekanntheit ihrer Existenz und der Jahrzehntelangen Erfahrung der Technologie, die auf keine bestimmten Bürger zu treffen, ist nichts konkret dokumentiert über dieses Thema. Ich bin Mittendrin in dieser Geschichte, die erst noch geschrieben werden muss: wie in COINTELPRO und MKULTRA und die Bestrahlungserfahrungen, der 1950er bis 1980er Jahre hebe ich mich als eine von vielen anderen Opfern hervor, deren Leben und geistige Gesundheit gestört und oft zerstört werden. Aber ich bin hier als eine Einwohnerin des Staates New York, und appelliere an die Verantwortlichen meines Staates um dieses Verbrechen der Menschenrechte an mir zu denunzieren, als eine unter ihnen.

Respektvoll Ihre  
Gloria Naylor

MY targeting began about 2 years ago.

I have had "staged car accidents" done to myself and my son.

Directed Energy Weapons were used while at work and at home. How do I know? While sitting at my desk at work I got extremely hot which is highly unusual for me because I am normally cold. I could feel my skin burning as though I were sitting in the direct sun. I could see owner of the company standing in the shadowed part of hallway just outside my office watching me while this is happening. Coworkers would comment not long after this happened that my skin looked sunburned. It sure was!!!!!!!!!!!!!!!!!!!!!!

When I got home my children noticed as well. I had not been in the sun for months and prior to incident had no sunburn! They continued to use these "non lethal" weapons on myself and my children. My life was utterly destroyed by this. I was later fired. As you know the police are of no help. They treat me like I am the criminal!

Yes I am a US civilian (you are only considered a citizen if you were enlisted in the military.) I was born and raised in New England. I was forced to move from the south because the harassment reached a very dangerous point. I will not run anymore. I will not move anymore! They destroyed much of my life but they will never get my soul! We as TIs need some sort of National Lawsuit there are enough of us. I feel it is the only way to stop this.

**6/12/12**

Hello, with all due respect I am tired of e-mails where people and organizations claiming to be Human Rights Advocates, continue to say they will help yet deny me any help! I have been the victim of Gangstalking for over

7years. Through this I have come to know the enemy as it were. They hate it when I smile wich is not often. I was bullied and harassed at my last place of employment, Action Collection Agency of Boston located in Middleboro, Massachusetts. Even though I expressed my harassment situation to Unemployment as well as the fact the 4 or 5 employees (some no longer with the company), had gone to the manager (who was then) Mike Mckenna to voice their displeasure at my harassment. Still letting umemployment know this the claim was denied. I was also suffering from 2 infections in the head at the time. No justice I am now tired of hearing promises of justice and am contemplating suicide I guess that is their goal right? And how is it that TI's have a roof over their heads still when I was screwed out of my home!? I now live in a cold basement and only get \$300 a month of wich I will surely be cut off from.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**The following is an account of my experiences with Organized Group Stalking/Gang Stalking.**  
**October 13, 1993**

This is the date my stalking and harassment started. I was hired by the provincial government of Alberta (Family and Social Services, Child Welfare) in Edmonton, Alberta to care for a six year old girl who through ritual abuse had multiple personalities. This case of respite care was for only a 2 week period while the young girl's foster parents took a holiday. Immediately after taking on this case I thought I was followed and under surveillance, but I put it down to my imagination.

In addition to doing respite care for the Alberta Government I also worked as a case worker in a halfway house for Federal parolees. This half way house (Elpida House) was run by Catholic Social Services in Edmonton. I also held a second part time job with a company called Humanacare. My position was a field case worker and my duties included early intervention for children in need as directed by Alberta Family and Social Services.

Strange occurrences began to happen a short time after completing this 2 week term of respite care. My house was broken into and my landlord caught the perpetrator going through my belongings in my bedroom. I also had prowlers in my yard on numerous occasions. In addition, I received many anonymous obscene phone calls. As well as all the strange occurrences, my health began to fail. I was a very healthy fit person who worked out daily and suddenly I had many complaints of pain and lack of energy.

Around the middle of April 1994, the perpetrators made it very obvious to me that I was being stalked and harassed. I was followed from my home to my employment at Elpida House. I was followed by unknown people to each case that I took on from my employment with Humanacare. I was followed and harassed while driving my car on a daily basis. I was verbally harassed by strangers while I was shopping. I saw strangers in my neighbourhood that I had never seen before in the 7 years that I lived there. I surmised that my ex-spouse was behind the stalking, but later found out the perpetrators wanted me to believe my ex was behind it. Around the first of May 1994, I received a call from Alberta Family and social services with a request to do another 2 week term of respite care for the same 6 year old girl. By this time the stalking and harassment was so severe that I decided to decline the contract and leave the province moving to Nanaimo, BC where I had family support.

Before leaving Alberta, I had strangers knocking on my door asking me if I was moving and asking if my place was for rent. This stranger produced a cut out from the newspaper classifieds that stated my house was for rent. My Landlord told me he was not going to rent the house and was going to do renovations so I thought this to be strange. A phone call to my landlord confirmed that he did not place the ad in the paper and this incident was orchestrated to instil fear into me. I began to sell all my belongings and pack up what I could stuff into a small U-Haul. Just days before I left Edmonton, I again got a call from Alberta Family and Social Services (Child Welfare) only this time they were investigating me on the claim of neglect of my two young boys who were 8 and 6 years of age. The claim was unfounded and no further investigation arose.

We left Alberta on May 10 and arrived in BC on May 11, 1994 and stayed with my family for about a month. Within days of my arrival to Nanaimo my rear window in my car was smashed...I put it down to bad luck. My health seemed to improve and once again I returned to a daily work out. I began to look for a job in the helping field but was unable to secure employment even though there were many job postings in the helping field.

I applied for Employment Insurance and found a place of our own for myself and my 2 boys. Once I moved into this home, again my health began to deteriorate. After approximately 3 months of looking for a job I finally secured a position, working with street kids of Nanaimo only to have it taken away from me the night before I was due to start. The director of this agency called me the night before I was due to begin working and stated that he decided not to hire me and that he decided to hire a man for the position instead. I was devastated and knew I could fight them on the grounds of discrimination, but because my health was getting worse and I lacked funds to pursue a case of discrimination, I gave up. I have since found out that due to slander, I was black listed and never will secure a job in the helping field.

The following six years, I started a small cleaning business and struggled with only one client a day as my health had taken a horrible turn for the worse. I had excruciating pain that the doctors had no answer for and according to the doctors, nothing was wrong with me. I began to search for natural cures and finally found a product line that gave me my health back within one year. I once again returned to my fitness program and thought my life was back to normal. I enjoyed good health, my business grew and for the next few years everything seemed to be going well until the year 2001. At this time I had a falling out with a boyfriend who turned out to be a stalker. I also noticed that not only was the ex-boyfriend stalking me but also people whom I did not know. Once again I moved to a new location, sold my car, and bought a new car and I felt safe for a period of about a year.

In the fall of 2003 my cat went missing, then within weeks of this my dog went missing, then within weeks of my dog missing my house was broken into and turned upside down as if they were looking for something. Nothing of value was stolen except a photo album and it is my belief that listening devices were placed in my house at this time. My pets were never found. My photo album was returned exactly one month after my break in. It appeared to be thrown from the highway above our road and 'splattered' all over our road in front of our house. This was a form of psychological warfare and I decided to fight back and find out who did this to me. Because of my determination to fight back I made many people nervous and as a result the perpetrators made it clear to me that I was under their surveillance. I encountered many person that appeared to have road rage, While driving on the highway 19A to work each day, I encountered daily road rage drivers who would follow too close or drive too close to me while passing in the fast lane. I began to memorize the licence plates and discovered that no matter what time of the day I

would always have the same 30 plates travelling with me. It appeared to me that after about one month new vehicles would travel with me and I would see daily , a new group of 30 plates. Each month a new group of 30 or so cars would travel with me. By the end of a six month period I noticed that the first group of plates that I noticed in the first month began to reappear and travel with me on my daily 20 kilometre drive from Nanoose Bay to Nanaimo.

Because I was nosing around the neighbourhood and asking many questions of neighbours the criminal element seemed to beef up their surveillance of me as well as call the Police Tip line. I subsequently found out that were 2 pages of complaints against me from anonymous callers claiming that I had a marijuana grow operation. Suddenly, not only was the criminal element stalking me but now I seemed to have citizens on patrol stalking and harassing me in addition to private security companies.

Because of my nosing around I discovered that one of my neighbours (who harassed me) had a meth lab and he was a known cocaine dealer. Around February of 2006 I notify his landlord of the possible meth lab operating next to me. Because of this phone call Aaron and others tore down the meth lab and flushed it down the septic system. When the landlord checks the house, there appears to be no sign of meth lab. Within days of this incident the septic field starts to back up into their home and after many attempts to fix the problem, the landlord ultimately has to replace the septic field at a cost of \$15,000.

On April 25, 2006, my neighbour Aaron James, assaults his live in Natasha Moore and I called the police because of the disturbance. I subsequently volunteer information about Aaron and his live in Natasha about their past meth lab operation and knowledge of him being a cocaine dealer. I also again make a call to the landlord and Aaron is evicted from this home. On June 6, 2006, I receive a Subpoena to testify in court against Aaron James with an appearance date of July 12, 2006 and the charge is assault. I appear on this date and of course the victim of the assault does not show up and the charges are dropped. Because of this incident I was stalked and harassed even more. Aaron James and five of his 'buddies' were caught by my son approaching our home when they thought we had left the house. This was after he had vacated his home and there was no reason for him to be on this road. I made two complaints to the police about the harassment from my neighbour Aaron and also made a complaint about being stalked by numerous people. The police laughed at me when I said that multiple people were stalking me.

In August of 2006, a man that was known to me, walked into my house and demanded money from me he claimed my son owed to him. I refused to pay for my son's debt and demanded he leave my home. This man then proceeded to physically assault me by grabbing my arm and twisting it. I grabbed the phone to call the police and he ripped the phone out of my hand and grabbed my arm again and forced me to me knees. I had two witness' present at the time of the assault and one of the witness' left the room and ran to get the other phone and called the police. The perpetrator of the assault left my home but not before he threatened me. His threat to me was "If you tell the police who I am, I will tell them you are a dirty little drug dealer" My responses was "the police are on their way".

The police did their investigation and interviewed the witness'. Six weeks later the police come to my door and tell me that my witness' are not credible and they would not follow through with the assault charge. My question here is, why was my testimony not enough as well as the bruises he left on my arms which were photographed by the Parksville RCMP?

From the period of July 2006 to December 2006 there were three attempts to run me off the road while driving at high speeds on Highway 19A The first attempt to drive me off the road was when I was on the Nanaimo parkway travelling at speed of 100 kilometres. This first attempt was deliberate as this 55-60 year old woman made two attempts to force me off the road. The second attempt to run me off the road approximately 2 months later was orchestrated by 3 vehicles. I was able to identify the driver who forced me off the road as someone that I had seen before and then interestingly enough, I saw this man working at his 'real job' only a week later. It was finally in November of 2006 after many months of searching the internet that I discovered a name for what was happening to me and many other people globally. On December 11, 2006 I was run off the road again and again it was a planned event as three cars were used to box me in and drive me off the highway. This incident was the push I needed to get into my stalkers faces and let them know I was not going to take this anymore. I put the signs on my car and began to look for other people who were also victims of this crime. I have found many people on the internet who are from many places around the world. I now am a moderator for an on line multistalk forum. I have found 5 other people in the Nanaimo area who are also stalked and harassed and hold support meetings in my home for these people.

My life is not the same as it was before.

I am black listed and no longer can work in the helping field. I have been labelled a pedophile and a drug dealer. I am Electronically harassed and I believe the perpetrators of this type of harassment want to disable me physically so that I am not able to work and will become destitute.

I am under 24/7 surveillance.

My cell phone is tapped and it is also used as a tracking device.

My new dog has been poisoned on two occasions.

My dog is also Electronically harassed.

My two sons are also harassed and stalked.

My friends and family have been harassed because they believe me.

The police sent 'car 87' (one police officer and one psychiatric nurse) to my door because I complained to the police about stolen mail from my mail box. I believe the real reason for sending car 87 was because of the signs on my car. I received 3 follow up phone calls from the Nanaimo RCMP about stolen mail from my mailbox. In addition the police called both my sons about this issue. My question here is, why did the police not spend this much time trying to make a case against the man who assaulted me? Especially given that I had a name and a last known address of the assailant.

My car has been sabotaged by so called upstanding automobile repair company. They did an oil change and only put 2 litres of oil back into my car. My car is supposed to have 6 litres of oil. I also believe that this upstanding automobile repair company placed a GPS tracker on my car. There have been attempts to damage my car while parked in shopping parking lots. I have had barricades placed inconspicuously behind my car in hopes that I would not see it and run over it.

I have had my food poisoned.

I have had my house entered and small items stolen only to have them returned again and placed in a different location.

I have had strange objects placed in my front yard in the attempt to scare me and also to let me know that I was not safe from their attacks of sabotage in middle of the night.

I have had many calls to the police after seeing prowlers in my yard at night.

My tomato plants in my garden have been poisoned for two consecutive years in a row.

My house and car have been paint ball attacked.

A chiropractor, jumped on me so hard during a treatment that he popped my hip out. I believe this was intentional. I subsequently go to the doctor about this only to find that the perpetrators 'got' to my doctor and he accuses me of coming to see him for drugs. If he had only read my file he would have seen that I do not take any sort of prescription drugs.

The perpetrators have tried to scare my cleaning business clients by suggesting to my clients they should be in fear of me because of the activism signs on my car. I did lose one new client because of this tactic. One of my clients son's was stalked and harassed and as a result he went berserk and landed in the psychiatric ward of the Nanaimo Hospital for a 3 week period of observation. He claimed he was followed aggressively, harassed on the telephone and also claimed that something evil was after him. After much sleep deprivation this young man took after people unknown to him with an axe. I feel responsible for what happened to this young man. He may still be under surveillance and I know that he now has been labelled delusional because people unknown to him messed with his reality. This is a goal of the perpetrators because then the target becomes discredited and thus not believed when future attacks of harassment and stalking occur.

Every person in my life who believed that I was stalked and harassed suddenly had bad luck befall them. My friends, family and business clients have stuck by me and truly believe that I am stalked and harassed by people unknown to me.

#### **networking with other like minded people/activists**

Below is an event a TI in Victoria, BC Canada, is putting on this Wednesday. MANY people are effected by EMF in Victoria and Heather (TI in Victoria) organized this event in order to network with like minded people. She has found more targets within these many people, but right now these people(targets) current focus is on their neighbourhood that is full of EMF and concern for their failing health.

These people are supportive of Heather..She is doing this for the group called C.A.U.S.E. and I know she hopes

they will also do for her...She is such a go-getter TI activist and it is unfortunate that she does not yet have her computer up and running...perp problems. Because she has started to network in the community with others like environmentalists, 911 truthers, chem trail activists, and this one C.A.U.S.E., she is getting to be known in the community and getting out of her house and recognizing that many for these people (activists) are also targets. The group C.A.U.S.E. has some good community contacts for testing for excessive frequencies and C.A.U.S.E. has many other professional helping them. Networking is helping her immensely and she says she is having a blast doing it.

I think I mentioned I did a presentation to a 911 truthers in Victoria, and from this presentation we gained a supporter. Me and Heather believe he is a target. Larry who forwarded Heathers blurb below to me, was my worst critic when I presented to the 911 group. He set out to prove me wrong and he has become a supporter, a friend and big help to me.

Here is Heathers blurb on Wednesday event...by the way she organized this by herself in three weeks.

I am Nicole from Québec. I was wondering if someone would know what is happening to me. This is my third time going in ambulance to the emergency room extremely weak not being able to walk or breathe. It even happened to me at work. I took many tests and there is nothing wrong with me. Nothing wrong with my heart.

My ears are killing me. They ring extremely loud especially at night. I feel like I am being bombarded with needles on my head. There is nothing wrong with my scalp.

I just came back from California. I went to see my son. My ears were ringing so loud I could even think straight. It has not stop since I came back home. It is very painful. While my ears are ringing also all sorts of things happened in my body making me nervous and weak.

Would any one have any idea what is happening to me?

Hi,  
For some time , like you, I am a victim of psychotronic harassment. Currently, I want to press charges against the head of public safety since under the constitution of Canada, we have the right to be protected against this kind of torture and public safety officials should know more since the use of directed energy weapons is well known and some parliament like that of the EU or Russia have already discussed this question. The reason of this correspondence is that I would like to know if there is someone amongst you who have pressed charges and if so, if it has worked. If not , what were the reasons to not working. Thanks for getting back to me.

**25/5/12**

Thank you for adding me in the list of victims. I 'have been attacked by psychotronic weapons for the first time in 2010. Other forms of attacks began much earlier.  
I have double citizenship: Canada-Burundi.

I support the worldwide campaign against torture and abuse using directed energy and neurological weapons.

I have been a targeted individual since 2000. I live in San Jose, California, USA. I sent letters about the torture and abuse to President George W. Bush, senates, representatives. When I called 911 (local San Jose emergency phone number) to report the torture and abuse, police put me in mental hospital.

Please put me in the list of the victims of the torture and abuse using directed energy and neurological weapons.

I demand an international investigation into these crimes and huge violations of human rights!

I want to keep contact with you. Please reply to this email so I sure you receive it.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Help me I am being investigated by the FBI, and I have reason to believe that is due to provisions in the Patriot Act.

I am neither a terrorist, nor a person who had shown any hostility towards the American government.

I'm in my late teens, and a first generation Caribbean male enrolled at a Top 50 University. They have tortured me, and have used this university as an institution of education to turn me into a terrorist.

Among the methods the FBI has utilized while I have been on campus are ostracism, and psychological torture. I have endured these treatments since November 2006, but I thought it was merely stress related to college, yet I now know that this is far beyond what is considered normal for any college student. The FBI has tried to put in situations that would make me a criminal; to bring out what they thought was there a cold-hearted terrorist. At first, I thought it was this university that was against me, but this institution has made many efforts to help me. I cannot take it any longer. Between the psychological torture, pain, suffering, and mental anguish that I have endured I am sure the FBI thought they would have created a domestic terrorist, or at the very least a college drop out.

I am unwilling to have my civil liberties infringed upon any longer, and I want my story to be told, so people can intervene and expose exactly what the government has done to me. Being from the Caribbean while in America is hard enough without having the Federal government try to crush your dreams, and aspirations for being of a certain ethnicity. I am not a terrorist just because I am a first-generation Caribbean American.

I know that the people interviewed are unable to tell you that the FBI has been searching through your background, but I know enough now that it is the FBI, not this top 50 that has been responsible for what I have endured. Please hear my story.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I have been a victim of Directed Energy Weapons and Remote Harassment since 2001.

The phenomenon is real. It includes psychological harassment/manipulation to induce psychosis, isolation, depression, and suicide; physical and emotional manipulation; and devastation of financial and social resources.

My story is not yet in sufficient state to be published, but I do participate as an activist against these crimes. I do have relevant testimony to specific instances of harassment, and I have gathered a large amount of data as to the effects. To hear my story would be terrifying and bewildering to an audience unaware of the specifics of these crimes so I will reserve it until I can clearly, coherently, and efficiently speak about them.

I do not have the Fundamental Freedoms (in bold) granted to me (and all of us) as citizens of this country, as under the Constitution Act of 1982.

Fundamental Freedoms

2. Everyone has the following fundamental freedoms:

- (a) freedom of conscience and religion;
- (b) freedom of thought, belief, opinion and expression, including freedom of the press and other media of communication;
- (c) freedom of peaceful assembly; and
- (d) freedom of association.

I am also being denied my Constitutional right to pursue happiness. This undetectable torture is constant 24 hours a day, including while asleep - thus preventing me from finding emotional and psychological equilibrium, which takes its toll on my health, well-being and ability to be a productive member of society. Medical, psychiatric, or social services are generally unhelpful or serve to alleviate only a few of the many symptoms that arise from these assaults; remember, the attacks are ongoing.

The use of Directed Energy Weapons, Remote Harassment, and Organized Stalking are quite plainly unlawful, criminal acts. I am treated as political prisoner or worse, as a common lab rat, not even human. And that this is happening on Canadian soil, to innocent Canadian civilians - some victims former members of the military - is unconscionable. Legislation must be enacted to increase awareness of this hidden menace and to outlaw use of these weapons. Only through making the use of these weapons illegal will we be on our first step to alleviating this highly organized form of domestic terrorism.

I refuse to surrender my freedom and I demand justice!

For reading my email and listening to my story, and your support and help in legislation and enforcement, I greatly

thank you.

I thank you and friends for putting so much work into trying to solve this problem.. I have cut back a little on my letter writing to the government and such because of the danger it poses me as far as the "psychiatric" community is concerned. I do have some letters/responses from the "Canadian Human Rights Commission" "Office of the Communications Security Establishment Commissioner" and "Navy Public Affairs - Canada" (the Navy is responsible for conducting human experimentation in the United States).I wrote 7 other letters to various government agencies...without response. They are required to respond within 6 months legally and simply ignore the law...I guess they really think our problem is a joke.

If you would like a copy of these letters... I can provide them to you. If you require any help in this ongoing fight for our liberty and freedom from mind manipulation...let me know what I can do.

They call Obama a socialist... i sure hope that isn't true. It doesn't surprise me that they would use this in China though. Actually... I figure that is where most of it should be happening now....

I've travelled. It isn't local; provincial, or national.... as it remained virtually undisturbed during my trip to Arizona. And yes, it was active at 30,000 feet, so it obviously could have implications to 9/11. If it does not control the world... i do not know what does...

They talk about security and it makes me laugh.. HARD.

Bullshit politics.... bullshit excuses.... bullshit world.

**My Story Part One**

My story spans over a decade. I have been tortured beyond belief. My life turned upside down. How many of you have been subjected to the whole symptoms list? I've noticed that some of the people seemed paranoid about other people. I've only had one experience where it seemed that a person was present.

I was at 7eleven carrying some milk when this female voice came from near the back of my neck and said "Honk if your horny". and at that moment a low-rider passed and honked. I also received a jolt as if it came from a cattle prod at the back of my calves. The driver of vehicle had the dumbest wide toothed grin. The kind you see in a cartoon right before they get hit in the mouth with something and their teeth fall out.

I have read and done research for a long time. Like in the video on our website I was told to look up this or that and that this or that was what was wrong with me. I get confused sometimes with it's remarks. Sometimes it would say to try to get help and other times it would threaten to harm anyone I talked to. I believe it's just a tactic to show how alone you really are. I've found that people start off believing it's a mental illness or demonic

possession. If you try to get help, your referred to a psych ward, and if you're lucky you'll get some good meds and get some sleep from the constant talking in your head. The other is that you get no help and you off yourself.

For me it said it was this entity or that entity. Meaning when I asked nurse at the psych ward what other people here in their heads they say Police, FBI, CIA, and just recently someone told me Homeland Security. I've heard it all. I have begun to revamp my belief system since I have found out that everything I experienced is listed in the article *The Silent Massacre In America*.

(1) Monitor movements. They not only know one's vehicular movements but they can also view him and follow his movements on his property and even inside his house. Once they "hook" the target with their equipment, they have ready access to the him at all times. Their torture follows the target wherever he goes, even to other states and abroad.

Cell phones may play a role in monitoring a target's movements. Many TIs trace the origin of their electronic torture and mind control to the early 2000's, when cell phone usage was becoming increasingly more popular. Cell phones have to be used in the case of gang stalking, which goes right along with ESMC. In fact, the stalkers could not coordinate their harassment against targets without the use of cell phones or some type of walkie-talkie. Cellular phones may even somehow be used with the device that renders the electronics effects on victims. It is known that cell phones carried on one's person near credit cards can cause those cards to malfunction and wear out quickly. Credit cards are one of the hundreds of items that operate through the RFID (radio frequency identification).

(2) Hear and record one's conversations along with those with whom one talks. This can be done even in a moving vehicle or while on foot in a rural area. The harassers occasionally record and play back to the victim excerpts of some of those conversations in his brain. The handlers can also record a person's voice and then simulate that voice.

(3) See through the victim's eyes. One's eyes are controlled by his brain; thus, by controlling the victim's brain, the handlers can also see whatever the victim sees. Not only that but they can also see what he thinks.

(4) View the victim's body whether it is clothed or not and zoom in on any part or organ of the body, even in the darkness. EKG, CT scans, and MRIs can be performed by remote. The handlers probably use the GPS with directed sound to see and torture the target's body by remote. NASA has long used similar telescopic instruments for carrying out delicate space operations.

(5) Inject holographic pictures or images into a victim's thoughts. In my case, the handlers have shown: my son drowning; pictures of what is believed to be images of Jesus; and pictures of family members and friends, sometimes in suggestive poses, and countless numbers of unknown individuals in induced dreams and thoughts. When I pray for my grandchildren, a girl and a boy, the perverted handlers will sometimes show my granddaughter's school uniform dress flying upward, showing her little panties and legs. Sometimes the perverts show me old photos in black and white, further evidence that the handlers can communicate through my eyes.

6) Apply a variety of torture techniques to the body. Many of those effects may perhaps be accomplished through the use of silent directed sound and various PC software used over the voice-to-brain communication. Others may be psychological or aided by psychological suggestions through the psychopaths' subliminal talking and whispering into the target's brain. Those effects include

A) Sensation of pin pricks in the eyes, shoulders, face, feet, elbows, and other areas. The pin prick can be instantaneous or can be prolonged. In my case, the handlers have long caused an enduring pin prick on the rear of my neck. At first I thought that the sensation was an irritation on the neck caused by shirt labels; however, when it kept hurting in the absence of labels, I knew that it was only one of the perverts' bag of tricks. In addition, the sensation was not in the same location as the shirt labels. They can also cause the entire lower legs to feel like they are being struck by pins. In recent months, they have pin pricked the depths of my auditory canal in my right ear, causing me to shiver violently

B) Restless legs. A sensation begins in the small of the back and extends into the extremities, causing the "restless legs" syndrome. I can feel that sensation coming on as the handlers apply their vibrations to my body. Sometimes when that happens, the legs will jerk involuntarily.

C) Electrical jolts. These affect the entire body and feel much like the shock that one gets from touching a low voltage electrical fence.

D) Tremors, or vibrations. These can affect the whole body or be focused on specific parts of the body. They can range from very mild to violent. (I believe that the jolts and vibrations may partially be pre-hypnotic suggestions causing the target to think that he feels jolts and vibrations whenever the handlers whisper the code word. In other words, those physical effects may instead be psychological effects resulting in physical reactions. I have asked other people to touch my legs and body when they were vibrating, and they felt nothing.) The vibrations can envelop a large area, e.g., a lawn, including the house, or they can narrow down to a very small area, e.g., a target's stomach or his nose.

E) Zapping in/on the head. These sound much like sparks from a welder's torch or like children's sparklers used as fireworks on holidays.

F) Clicking in the ear. (In my case, it is always in the left ear, never in the right one.)

G) Severe cramping, mainly in the calves of the legs.

H) Numbness in the limbs from the base of the spinal column to the toes.

I) Coughing (I can feel an unnatural scratching in the inside of my throat), and sneezing (likewise, I can feel an artificial tickling in the inside of my nostrils).

J) Induced erections, by vibrating very lightly the inside of the urethra and the groin. Those erections usually occur while the handlers whisper the names of friends and relatives, very obviously attempting to cause the target to associate the sexual sensation with those people.

K) Stomach aches and pains, indigestion, nausea, and dizziness.

L) Sodomizing, using some unknown force to probe the anal cavity (perhaps directed sound waves, which cause a strong vibration and can focus on a particular very small area).

M) Lethargy and listlessness. I suspect that many people suffering from Chronic Fatigue Syndrome are actually victims of ESMC.

N) Tinnitus. I had never suffered from tinnitus before the electronic stalking began. It hit me the day the stalking became overt, and I have had that condition ever since then. The tone of the ear ringing changes often in a very notable manner.

O) Inability to urinate or frequent urination. I had two prostate procedures in 2001, although the prostate was not enlarged, because I had the urge to urinate but could not do so. Now I know that it was the work of the perverts who use the ESMC techniques, for since the handlers became overt in 2005, they have continued making the bladder often seem full. Now I can hear them whispering, "Don't piss."

P) Constipation. Likewise, I often used to have a problem defecating. Since I have developed an ability to "hear" the handlers' whispers, I hear them saying, "Don't shit." The brain learns over a period of time to react to their commands. However, knowing now what causes the constipation, I am no longer affected by it.

Q) Frequent defecation. The handlers constantly probe my anal cavity and whisper for me to "go shit." According to other victims, this is a very common symptom. Making victims defecate often is psychological as well as physical, as it humiliates victims and keeps them from leaving home. That particular effect, however, has not adversely affected me. I still control my bowel movements.

R) Sleep deprivation. All of this leads to sleep deprivation, which then becomes a symptom itself. This is designed to weaken the victim's body as well as his mind and cause him to have motor, household, and other accidents. In addition, it makes the victim more vulnerable to mind control. Conversely, the handlers' device can also make targets incredibly sleepy and actually cause his eyes to close involuntarily. There appears to be a particular form of vibration that will "wire" the target to keep him awake at night.

S) Sensation of crawling insects on the face and neck.

T) Intense itching. This can be any place on the body. They often will make it seem like a mosquito bite or a fire ant bite. The itching is normally on the hands or the feet.

U) Twitching of the fingers. The perverts not only want to annoy you but also convince you that you are developing Parkinson's disease.

V) Partial loss of sight. The handlers do something to the eyes that make them feel as if a grain of sand is underneath the eyelid. They also cause pin pricks in the eyes. I have lost much sight in my left eye as a result. I do not wear glasses to read or to drive. Until a few months ago, I could read the TV captions clearly. Now I have to be very close to the TV set to see the captions and I often have double vision and blurred vision, especially in the left eye. In addition, the lips and mouths of speakers on TV are not in sync with their words. I also recently discovered while watching Wheel of Fortune on TV that the movements are likewise not in sync. When the participants in that program spun the wheel, the result on my TV (or in my vision) was about two clicks of the wheel off what they should have been.

W) Throbbing in the head. This has something to do with "mining" the brain or it is part of the psychological conditioning to make the target believe that he must reveal his thoughts.

X) Aches and pains in various parts of the body. I am very physically active; thus, the handlers attempt to cripple my knees and my right arm and hand (I am right handed) to keep me from being able to work. They can also cause arthritic-type pain in the hands, pains in the lower back, and extreme pain in the legs by striking the sciatic nerve.

Y) Salivation. The pervers' device can cause me to salivate at night while I sleep as well as during the day when I am active. For no reason, spittle will sometimes seep from the corner of my mouth.

Z) Tingling vibration focused on the outside of the right side of the nostril (it can, of course, focus on any location). As a result of the vibrations (or perhaps lasering) on that area, a small brown bump has appeared at that location. That bump remains very sensitive and often runs and forms a scab.

AA) Involuntary physical movements. For example, when I type my emails and computer documents, the pervers' software, which constantly pummels my brain, causes me to reverse certain consonants and vowels, slowing down considerably my typing speed. Other targets have suffered serious falls, when the devices caused their knees to buckle. The handlers' device can also cause the arms and legs to flail and jerk involuntarily. I have awoken while sleeping when one of my arms flailed into the head board.

BB) Heart flutters and irregular palpitations. In particular, the pervers cause the heart to beat at a far greater than normal rate, or at least they lend the perception that it is beating rapidly through psychological or perhaps post-hypnotic suggestions. The handlers want the target to believe that his heart is overworking and that he may suffer a heart attack, stroke, or chronic heart problems.

CC) Pressure on the bladder, causing the victim to want to urinate very often. Because of that sensation, I underwent two painful and costly prostate procedures with a urologist before I knew the real cause of the problem. The pervers still apply pressure on the bladder; however, now that I know that it is their evil work, it does not bother me.

DD) Sores in various areas. The pervers continually vibrate (or laser) the outside of my right nostril, which remains continually sensitive. That area scabs over, loses its scab, and then scabs over again. A spot has also developed on my chin, where I often feel the tingling of their vibrations (or lasering).

EE) High and sudden temperature rises in the body. Those may be psychologically induced.

Most of the time, when I try to talk to someone, I'll lose my articulation of speech or draw a blank forgetting what I was trying to say. This is the norm with many. Either they are afraid or they are interfered with. Since I began writing this letter, they have increased their assaults ten fold. They continually say "Welcome to Hell", and "Are you Scared?" My basic snub is "I'm still Here and I'm still Alive!"

Not listed above but also in the article 'Silent Massacre In America', is their fascination with the male/female genitalia. I constantly feel energy or a tingling in that region. I know I shouldn't but, I can't help but respond with a homophobic remark almost every time.

One of the worst forms of torture is it's ability to take your thoughts and spoken words and twist them to form whatever statements or ideas they choose. They then run back through you via the "We Talk Through You Not To You" regimen. Making you say whatever it is they want.....saying they are recording it as your voice, your thoughts. They have kept me up many nights, causing me to miss appointments. I have been lucky in calling in and fixing things like that when it happens. It seems to upset it when I get around its designs.

That's another thing.....

Are you really upsetting anything? According to the research of conspiracy theories, it's supposed to be software and a computer. Some sort of A.I.. I remember just standing there as 3rd or 4th person listening to it. It sounded like more than one of ME arguing with each other. I called that auto-pilot because I didn't participate with all the ME's.

How about dream tampering.....

Extremely vivid and disturbing is the order of the day. Last nights edition had me chasing a perp around who had a

tiny antennae inside his mouth. When he talked I received audio signals in my head. To make a long story short he got wasted but, in part 2 of the dream I got taken out by an AK47 or some sort of assault rifle during a fire fight. This dream occurred after I was sleep deprived until approx. 6 am. This dream may sound cool and interesting but, it was really a nightmare. In another I was forced to kill someone in self defense. Someone I supposedly knew. A less recent dream involved me being de-boned alive. Thank God I couldn't feel it.

How about scenario playing?

Fed on a story about the Cyclops reason for having one eye. As the story goes the Cyclops make a deal to be able to see the future in exchange for one of their eyes. They are, however, cheated. The only future they are allowed to see is there own death. If they try to escape this fate, there death becomes extremely more unpleasant.

The Scenario: THE PARTS WE PLAY (Scripted Induced Psychotic Events-One Of Many)

Everything turns biblical and they say you are already dead and you are reliving the events up to the point of your death which there is no escape. This happens at a REAL hospital during a crisis. Everyone around you is now a character in a very well plotted story line. The characters are all representations of themselves but are supposedly demons and angels who will not respond to their fictitious representation of real people.

Example: My friend Mike is now the Arch Angel Michael. When I shyly called him Michael, which I've never called him before in my life he just looked straight ahead and smiled slightly. Any suggestion I made to staying or leaving he would react only slightly with not personality. Which strengthened the how I perceived this fiction.

This illusion is solidified by the fact that this scenario is also being narrated with every action or reaction being predicted and reacted upon.

Example: If you violate the rules of this you are warned of more serious outcome. This is HELL! You are going to repeat your life's end over and over again for which there is no escape. Unfortunately, your life has been changed dramatically. You've just been fed a suggestion that your real life is the fiction. You're now are a fugitive. You have brutally murdered your entire family. That the hospital staff are aware of this and the authorities are in route. This is further facilitated by the sheer terror that probably shows on your face which is reflected in the looks you get from everyone else, compounding your paranoia. Remember this is supposedly an inescapable event because it has already happened. To trying to thwart it means a worse end. That end is also plotted.

If you know the tortures of hell you know that a starving man has food just out of reach, Thirst is not allowed to be quenched with water just in front of you.

I was terribly thirsty, tongue swollen, lips sticking shut with that damn water fountain not three feet away. Every time I approached the water I was warned not to drink. Since they didn't physically restrain me, I began to drink. A little at first just to get my mouth wet, then more as quenching my thirst became priority. This is where reason began to come back. I began testing responses to my actions. Testing things that would normally happen if I said or did one thing or another at ANY OTHER time. This broke the cycle and I got the hell out of there. The scripted scenario was breached and I left. This is the short version of a scenario that has played out many times in different ways making each a unique experience.

Note: One specific event happened at an earlier time where I was led to believe I was having a spiritual experience. The demonic voices were pushed out of my mind and a feeling of peace and serenity filled me. A female voice proclaiming divinity began talking to me. I could not move. I was vaguely aware of the people around me. It began talking to me about religion and about how many times we go through life. That this was my last chance to get life right. It started like it was reciting scripture and that I was some form of evil and that I couldn't understand the WORD of GOD. And thus, every time something was supposedly the WORD, I couldn't say it or even understand what was said. Then it all went to hell with her saying my children, my seed, would be eradicated from the earth. After she left everything went back as it was

Now, in retrospect GOD is supposed to be forgiving entity and my children have no place in this nightmare. I did have some sensation of awe but a threat to my children is still a threat. And I do recall hearing somewhere that God must be female because women create and men destroy.

The Scenario: Duality (Who's Side Are You On)

Your are having a heated involuntary defensive "Leave Me The BLEEP Alone Argument". Suddenly you switch roles and take on the personality of the voices. Including but not limited to...Voice Inflection, attitude, aggression, violence, etc. This scares the holy crap out of you. You collapse back in chair, hands to your head. You've just been momentarily possessed. For me, it continues unabated.

#### The Last Scenario: Personality Modification(Implantation Progression And Constant Chatter)

My personality and moods change on a whim. Remember the "We talk through you not to you"? Well, lets put it like this, I know I have sense of humor but, god damn! Sometimes, most of the time now, I use my quirky defense mechanism and get an overwhelming urge to laugh myself sick. The chatter contains comments on my laugh which ultimately comes back as more laughter through me. Emotional overload. I've gagged, damn near choked and threw up, and lately experience chest pains. The chest pains are a newer development. They have happened before but not this many times in so many days. When they happen the voice becomes deadly serious. "You felt that didn't you! We can do that anytime we want." I've had panic attacks before. And fear of an impending heart attack can scare the shit out of you. But, I've never had sharp pains in the chest cavity before.

At times the pain just happens without emotional outbursts. But, the voice is always there to point out it's the cause. "We're going to KILL YOU!"

Again, humor is not the only emotion. Anger, fear, anxiety. And being forced to act out a possession can lead to violence, aggression toward others who are not aware you are being directed toward them, and death/suicide.

You are twitching in your chair a massive headache coming on. You remember the night before as you have sharp pains in your chest while being threatened with a heart attack. You've just enjoyed a avocado milkshake, the pleasant company of your friends, and those awesomely hot Vietnamese coffee shop waitresses which have only made the voices start talking shit.

#### January 28th 2010

I have definitely upset it pretty badly. It now has begun to openly threaten me again. "If you don't do as we say.....". Oooooooooo so scary. Though it is messing with my sleep pretty badly, I told it if it wants to talk to someone so badly there a few class action lawsuits with whole droves of legal departments that would like a few words. If that be the case.

As I stated before they, meaning what I appear to be hearing just tend to give me a run down on the destruction of my life and my family. Telling me to kill myself once again. This is disturbing since a friend of mine received a identical command in her head just last week.

As it states in the symptoms manual about not caring about who gets in the way, they or it keeps distracting me while I drive, putting everyone in harms way from its stupidity and lack of respect for life. One thing that was said was to keep a journal of events. That would be tedious at best since it is ongoing and you could just quote it was wrong or heinous it has happened to me. Most of my documentation comes from the medical community, CPS, individual therapists and Civil Court which all think I'm mentally disturbed. These destructive antics have been verified as a common way to destroy credibility and keep you on a downward spiral. I am attempting to remove myself from this isolation and talk to people, TI's, and doctors that are more open minded. I will accept THEIR diagnosis.

#### 5/2/2010

2008 is wrong, it's over a decade.....maybe more.....

I have not yet come across this in other stories.

But, I speak what is projected in my head as if it is my own.

Maybe it's that personality thing.

If I talked to you on the phone you would hear inflection and total personality difference.

Commonly, it occurs like spewing filth. But, it is definitely recognizable as social interaction on a horrific scale that I can hardly contain.

you can list my name and TI Summary. I've attached a shorter version which I was able to fit on one page.

I, Tracy A. Nuñez, am enrolled in the California State Safe at Home Confidential Address Program because I have been certified by Secretary of State Debra Bowen to be a repeat victim of (1) Domestic Violence (2) Gang Stalking and (3) Sexual Assault. I believe my teenage daughter, Gabriella, and I have both been targeted by criminals employed in U.S. government positions, primarily the FBI, NSA, CIA, DA, & DoD. Most of them are international criminals heavily involved with drug, weapon, and human trafficking as well as stalking, rape, murder, and treason. When confronted, they falsely claim Sovereign Immunity in the name of National Security. However, if you look up the U.S. Convention on the Prevention and Punishment of the Crime of Genocide, Article IV, "Sovereign Immunity" and "National Security" become VOID if a child is involved or abuse against an ethnic, cultural, or religious stance is involved.

Like most Targeted Individuals, I always wondered why this is happening to me and my daughter and, more importantly, why no attorney is interested in seeking justice for us. As far as I am concerned, we have done nothing wrong to deserve this type of cruel and unusual punishment. Well, I've recently been informed that I am a BlackOP experimental subject in a secret government program based out of a military-industrial-scientific complex called the Dulce Lab in Los Alamos, New Mexico. They say I am the product of a eugenics research project funded by David Rockefeller, Sr. Though I believe I was born via test tube experiment, the father listed on my birth certificate is Christopher John Wellons who worked for a special division of the CIA. He is the son of James Thomas Wellons who was a NASA funded Aerospace Engineer for the Department of Defense (DoD). My contact out in the field (i.e. my handler) was a man by the name of Peter Fagan who is listed on LinkedIn as a retired intelligence officer involved in counter terrorism. The Wellons Family is Welsh American and most likely working for British Intelligence. However, Grandfather Wellons was married to a high ranking German Nazi woman. There seems to be a massive collaboration between British Intelligence and the German Nazis who were brought here to the U.S.A. via Project Paperclip. Due to repetitive blood type and DNA testing, I no longer believe I am biologically related to the parents listed on my birth certificate. My true biological parents are most likely American descendants of Bavarian Royalty. I am told I am related to The Monsey Family in the State of Vermont. For reasons I cannot comprehend, it was my biological brother, Dr. Robert Monsey, who implanted me with Radio-frequency Identification (RFID) chips embedded in the Temporomandibular Joints (TMJ) on the left and right sides of my face. This constitutes a huge family betrayal.

I have blood type Double "O" Rh negative, which is the experimental population for British Intelligence. I may have been groomed for a specific purpose, perhaps Nazi and/or New World Order (NWO) leadership, however, I am considered uncooperative. I have been severely tortured (electrocuted) for adamantly refusing Nazi membership and for declining a Nazi arranged marriage with Erik Leutenecker of Orinda, California. I have also been called a "BlackOp out-of-control" by the CIA after recovering memories of severe governmental abuse and for speaking out against government fraud, waste and abuse. Continuous video and audio surveillance of myself and my child has been accompanied by physical tracking, mkultra mind control programming, non-consensual medical experimentation, gang stalking, cointelpro, electronic harassment, bio-energy-chemical weapon attacks, truth serum interrogations, theft, vehicle tampering, vandalism, sexual harassment, rape assaults, false arrest, kidnapping, trafficking, bribes, threats, and attempted murder. Though I keep relocating, my daughter and I continue to be victimized by criminals employed in government positions who access our physical address in spite of our enrollment in the California State Safe at Home program which is supposed to keep our physical location sealed

from disclosure.

I just received information that identifies two of my perpetrators for using satellite technology and remote neural monitoring on me:

Christopher Ratko - senior level manager at CIA

Terry Lyle - Infantry Soldier, National Guard at Newburgh, NY

Other perps listed:

Christopher John Wellons is my adoptive father.

Peter Fagan is my MKULTRA Project Artichoke handler.

Phil Mouvet is my neighbor.

TRacy A. Nunez

**7/1/15**

I am a law abiding citizen of the United States of America with a very serious complaint against rogue law enforcement, military, intelligence and affiliated agencies, institutions, corporations, and organizations for unwarranted surveillance and covert/overt harassments.

My problems really escalated in the year 2000, after I was accepted to the University of Vermont (UVM) to earn my Ph.D. in Cell & Molecular Biology. In addition to my studies, I taught a Biology Lab and conducted Biomedical Research for the Department of Pharmacology. During this time, I declined an unethical proposal from my boss, Dr. Mark T. Nelson, who was Chairman of the Department and Dean of Admissions for the UVM Medical School.

In spite of the fact that I was initially declined and had to appeal for admittance into my graduate program, I excelled beyond expectations as a teacher and as a biomedical researcher. I also passed my medical exam for M.D./Ph.D. candidacy and was offered an opportunity to run my own Genetics Lab starting at \$200,000 per year -- but only on the condition that I marry my boss, give my daughter up for adoption, and join the Nazi regime. I adamantly declined and was instead used as a "lab rat" for human experimentation.

In December of 2001, following the 9/11 attacks and the Patriot Act, I was illegally detained at the Fletcher Allen Health Care Pain Clinic for a 5-level rape, torture, and interrogation protocol with non-consensual medical testing and experimentation. During this time, I was implanted with foreign objects against my prior knowledge and consent by a Dr. Robert Monsey and a team of UVM medical students who worked in my lab under Dr. George Wellman.

Dr. Monsey told me that he put nanochips in my eyes to see what I see, Radio Frequency (RF) microchips in my Temporomandibular Joints (TMJ's) to hear what I hear, and he clamped down on my brain magnetite for Remote Neural Monitoring (RNM) via Satellite Surveillance to record my every thought for rogue HUMINT collections. In addition, the NSA and affiliated military and intelligence agencies wiretap the interior and exterior of my home, workplace, and vehicle for 24/7 monitoring of my daily activities.

Continuous video and audio surveillance of myself and my child has been accompanied by physical tracking, drugging, hypnosis, mind control programming, truth serum injections, extreme interrogation techniques, non-consensual medical experimentation, gang stalking, cointelpro, electronic harassment, bio-energy-chemical weapon attacks, aerial harassment, theft, vehicle tampering, vandalism, pet torture, sexual harassment, rape assaults, false arrest, kidnapping, sex trafficking, voyeurism, bribes, threats, and attempted murder.

This is domestic terrorism at its worst!!!

Please open links to see three university doctors who performed non-consensual medical testing and

experimentation on me in Burlington, Vermont:

Here is a list of GOVERNMENT EMPLOYED GANG STALKERS in San Diego County, California who have targeted me and my daughter from 2001 to present:

1. David Cerna, Employed by National Institutes of Health and Science Applications International Corporation (NIH/SAIC) -- Mexican Nazi and Salinas Gang Member
2. Edgar Duran (Edgar Emilio Duran Moreno), Employed by National Security Agency and Central Security Services (NSA/CSS) -- Sinoloa Drug Cartel Leader
3. Nemecio Lagunas Hernandez, National Security Agency (NSA) contracted -- La Familia Drug Cartel Assassin
4. Scott Whitehead (aka Mark Powers), Employed by Federal Bureau of Investigation (FBI) -- Member of Nazi Brotherhood of Aryan Nations
5. Drew Cabral (aka Deputy Sheriff Stevens ), Employed by Central Intelligence Agency (CIA) -- Los Zetas Drug Cartel Member
6. Curtis Webb, San Diego County, Employed by San Diego County District Attorney D.A. as an Economic Crimes Fraud Investigator -- Puerto Rican immigrant hired by the 3rd Family Italian Mafia to take down my entire family
7. Juan Juarez (John Manual MacGarvey Juarez), Employed by Child Protective Services (CPS) to state kidnap my daughter -- La Familia Drug Cartel Member
8. Jaymie Gonzaga (Formerly known as Curtis Webb), Foster Youth Liaison at MiraCosta Community College in Oceanside CA where my daughter currently attends
9. Guillermo Auyon, DOJ Foreign Prosecution Unit -- Los Zetas Drug Cartel Leader
10. Lic. Mario Ricardo Palmerin Velasco, Procuraduria General De La Republica (PGR) -- Los Zetas Drug Cartel Leader

Note: These government employed criminals are Drug & Human Traffickers who wear a remote neural monitor (RNM) viewer, a nano-chip and/or contact lens in their left eye, in order to track their victims with 100% accuracy.

My family and I are currently monitored by a rogue COINTELPRO FBI agent or contract named Phil F. Mouvet who used to serve in the U.S. Air Force. His front job is Executive Driver for La Costa Limousine. He lives next door to me in a low income apartment complex in Carlsbad, California and also owns a house in Mexico. Someone who owns property should not qualify under city regulated income and asset guidelines for affordable housing eligibility.

In my U.S. Department of Housing and Urban Development (HUD) Section 8 rental unit, I have been attacked with the so called Non Lethal Weapons (NLW) and Directed Energy Weapons (DEW) which have patents on them and are in use for civilians. I suffer from 'Artificial Tinnitus' and am being exposed to Silent Sound Spread Spectrum (SSSS) subliminal messaging for behavior modification. Government agents are also using an Extremely Low Frequency (ELF) or Ultra Low Frequency (ULF) mind control machine with a dial and one central antenna to induce a state of hypnosis for interrogative purposes and for mind control and behavior manipulations.

I was informed by a rogue National Security Agency - Central Security Service (NSA/CSS) agent Edgar Duran that he and the FBI has been issuing fake National Security Letters (NSLs) on me which have not even been signed in approval by a FISA court judge. In effort to seek evidence of these fraudulent activities, I made numerous Freedom of Information Act (FOIA) inquiries and Privacy Act (PA) requests to the government agencies involved and have had all appeals denied based on matters of national security.

The latest INTEL from former Defense Aerospace Engineer, Wally Uribe, is as follows, "Tracy, per recent truth-rooming by CIA's National Clandestine Service MASINT Division, you and your daughter are targeted by Monarch/New Phoenix program control rooms and COINTELPRO in San Diego linked to the graft system that drug cartels are putting money into to leverage FBI and law enforcement operating rogue unauthorized control room and/or nano-powered tradecraft technology to go bloodline hunting against target-rich individuals easily clamped onto by compartments identified by the Global Information Grid."

A complaint against Dr. Robert Monsey for non-consensual testing and medical experimentation was made to the State of Vermont Department of Health Board of Medical Practice on September 1, 2013 and was closed on February 5, 2014 with no interview or medical inquiry (Case Number MPS 203-0913). I filed an Affirmative Action Equal Opportunity complaint with the University of Vermont (UVM) which was initially investigated but with no follow up. So, I filed another complaint with the U.S. Equal Employment Opportunity Commission currently under review for federal investigation (EEOC Inquiry No. 846-2015-01181).

Please read the attached documents and include them in my case summary as supportive evidence of ongoing harassment and discrimination which prevents me from being able to seek and maintain form of employment.

**LETTER TO SECRETARY GENERAL THORBJØRN JAGLAND AND THE COUNCIL OF EUROPE**

In the middle 90's, I took video and audio with still pictures that included a narrative of being stalked by total strangers who claimed themselves to be some Mafia to the Nashville, TN (USA) FBI... and asked for their assistance to stop the continual abuse by persons unknown to me.

The agent said: "We don't investigate that type of crime."

I said, "The plaque in the waiting room says you do."

The agent then said, "Let me put this another way. We won't help you. There is NO help for you from friends, relatives NOR Law Enforcement on any level. Now, leave."

The agent "confiscated" all the evidence I presented and threw it in the trash can as I walked out. (destroying evidence is a crime in the USA)

For an investigative agency such as the FBI to act so rudely towards a crime they know damn well is being committed, many have concluded, as I have, that "Stalking By Strangers" is fully funded and perpetrated by governments world-wide and aided by various Organized Crime Family's.

A vast global network of drug-runners, human traffickers and murderers.

This has got to be stopped due to the dangers posed to everyone these criminally insane people target for Ritual Abuse or whatever their emotional deficiency directs them to do towards people who have done them NO harm.

I don't live in Europe. I live in the USA, but I can tell you that this criminal phenomena is happening world-wide to thousands, if not millions of people. I have personally spoken to thousands of other targets in 22 countries.

I have microwave burns on my body and don't own a microwave.

I have people repeating "words and idea's" that are spoken in the privacy of my home with only the presence of my two animals, back to me within 20 minutes of encountering other humans. (That is audio surveillance and intellectual property theft)

I had total strangers telling me how they just fixed a chair (as I physically did last night) or telling me "they did something" that I did the night before. (that's video surveillance)

There is absolutely nothing that I can do or say in the supposed "privacy of my home" that some stranger won't repeat back to me the next time I am around other humans.

I have attached a document to give you an idea as to the extent this Ritual Abuse is taking place as I type and "who" is the most likely perpetrator of these crimes against ALL humanity, by Dr. John Hall.

You have likely read the statement below, before. It may sound familiar, but it is just as true now as when you first read it.

This letter is to ask for your help for the many victims who are being attacked with Psychotronic (or Mind Control, Electronic, Directed Energy, Neurological, Non-lethal) Weapons.

As long ago as 1994 in Montreux, Switzerland the International Committee of the Red Cross - ICRC raised the issue of Psychotronic or Directed-Energy weapons, also at the Geneva Forum in 2002, and also in 2009 at the 5th European Symposium on Non-Lethal Weapons and at the European Conference.

In January 1999, the European Parliament passed a resolution where it calls “ for an international convention introducing a global ban on all development and deployment of weapons which might enable any form of manipulation of human beings. It is our conviction that this ban can not be implemented without the global pressure of the informed general public on the governments. Our major objective is to get across to the general public the real threat which these weapons represent for human rights and democracy and to apply pressure on the governments and parliaments around the world to enact legislature which would prohibit the use of these devices to both government and private organisations as well as individuals.” (Plenary sessions/Europarlament, 1999)

In October 2001, Congressman Dennis J. Kucinich introduced a bill to the House of Representatives which, it was hoped would be extremely important in the fight to expose and stop psycho-electronic mind control experimentation on involuntary, non-consensual citizens. The Bill was referred to the Committee on Science, and in addition to the Committee on Armed Services and International Relations. In the original bill a ban was sought on ‘exotic weapons’ including electronic, psychotronic or information weapons, chemtrails, particle beams, plasmas, electromagnetic radiation, extremely low frequency (ELF) or ultra low frequency (ULF) energy radiation, or mind control technologies. Despite the inclusion of a prohibition of the basing of weapons in space, and the use of weapons to destroy objects or damage objects in space, there is no mention in the revised bill of any of the aforementioned mind-invasive weaponry, nor of the use of satellite or radar or other energy based technology for deploying or developing technology designed for deployment against the minds of human beings. (Space Preservation Act, 2002)

Please be assured that for years these weapons have been used to terribly torture and abuse victims all over the world.

We are a group of our over 1400 electronic torture, abuse and experimentation victims – please assist us.

Please help us to get this electronic torture, abuse and experimentation stopped.

As for me, I refuse to comply with the wishes of anyone who erroneously thinks that they will micro-manage my life and tell me how I must live, who I must associate with or what activities I must engage in. (as is being done to me personally)

We have contacted most Governments, Security/Intelligence Agencies, Religious Organisations, International

Organizations, Human Rights Organizations, Universities, Scientific and other Institutions, and the International Media all over the world - over and over and over again – and have had our appeals for assistance, protection and/or publicity almost completely ignored and/or suppressed.

I'm not afraid to take on a Vast Criminal Global Network as I have been doing it for decades, since 1979.

(I don't care if the odds are SEVEN BILLION to ONE. I will NOT be dominated)  
Are you?

Sincerely hope you can help millions of victims by giving them a VERY PUBLIC voice to expose these criminals AND their criminal behavior... and assist the targets that are worse off than I am.

Electro Magnetic Weapons CAN/WILL WIPE OUT MANKIND... that is... AFTER they covertly assassinate individual dissidents... by sudden heart failure, "mysterious" airplane and automobile crashes, choking, suicides and a myriad of other types of "natural" deaths all of which are occurring right NOW.

The following report is an accurate account of the illegal, violent atrocities and numerous attempts to murder me by what is now know to be the Black Ops of the corrupt U.S. Gestapo Government or Organized Crime This new American mafia is condoned, supported and protected by local police, federal law enforcement agencies and all levels of government, including the very highest offices.

The Black Ops/U.S. Gestapo Government now has the capability of LITERALLY CLOSING UP A PERSONS WINDPIPE or PLUNGING A PERSON INTO UNCONSCIOUSNESS FROM A DISTANCE to incapacitate and kill them. They then set the murder scene up to look like an accident.

They also INTERNALLY COOK / RADIATE A PERSON TO DEATH FROM A DISTANCE

And there is ZERO DOUBT they have every intention of using these EM weapons on us.  
With the use of Microwave/Scalar EM Weapons aimed directly at us, guns and conventional arsenals are virtually obsolete. The following is a true and accurate account of the assaults, attempts at murder and obvious campaign of

the United States Government to destroy me psychologically, physiologically and financially. But most importantly, this describes TRUTHFULLY what the new weapons can do.

I have added the most recent incidents first. Most of this information has already been posted publicly on [truedemocracy.net](http://truedemocracy.net), Portland Indymedia.org and the other Indymedias.

#### SEVERAL RECENT ATTEMPTS AT MURDER:

Electromagnetic Murders; An Assassins Dream

September 2005, India.

Microwave heat throughout my body especially my chest and head. Constant cough. Blood vessels begin to break in my eye. Notice I am being stalked.

Aug 15, 2005 Kathmandu, Nepal...

and the stalking has continued... no doubt the plan is to have me 'disappear' en route somewhere or make me ill. Something is sprayed onto me while I was walking but most of it apparently missed me. I was told it was one of their EM #####

Coincidentally, right after the incident, Tim White emailed me and asked me if I felt OK

Does it get any more obvious who the perps are?

Since my last post, the long murdering arm of black ops in the U.S. has reached across the globe to Dharamsala, India and began systematic 'electric shocks' to my chest, along with their infamous microwaving. This is done to induce a natural-looking completely unnatural heart attack as many prominent figures who oppose the new Fascist governments have suffered.

#### MORE MURDER ATTEMPTS:

In early February 2005 ~ During my first experience of electronically being LITERALLY CHOKED, the residents in the house where I formerly lived were awakened in the middle of the night by me gasping for air. Electronically, they partially closed up my windpipe so I could barely breathe and was on my way to choking to death when they abruptly stopped it. This was done as a threat after I tried to contact Ed Asner- Truthout.org that same night to make public the attempts of black ops agents to crash my car. Shortly after this incident, even more attempts to knock me off of the road were made.

February 7, 2005, a group of about 4 or 5 Black Ops agents were waiting in the somewhat deserted back parking lot of Saks Fifth Avenue in Palm Desert, California and began surrounding me after I left the store and walked towards my car. I had enough time to run back into the store and call my friend who came and rescued me. I was not able to go back home again before I left the country except to get my clothes. The reason that they tried to assault me or kidnap me is because I had already begun making preparations to leave the country which they were aware of because of their illegal surveillance and this was to stop me from leaving the country so they could get their legal ducks in a row and arrest me on bogus credit card fraud charges which I found out later. Seven days later, on February 14, 2005, I managed to leave the USA for good. One week later, they arrested 100,000 so-called felons½(AKA dissidents) across the nation.

May 6 2005 ~ Dharamsala, India, after telephoning Arlene Johnson of <http://www.truedemocracy.net>, I was again abruptly woken up by 'something' closing up my windpipe and literally choking me. This was an attempt to threaten me a second time.

May 8 2005 ~ Dharamsala, India ~ The guesthouse proprietors of where I am staying witnessed me staggering out of my hotel room into the main lobby - again gasping for breath and unable to breathe as something was closing up my windpipe. This was all done electronically -- in retaliation for trying to contact Stephen DeVoy who they have already "neutralized" for making his assaults public.

Winter 2005 ~ Palm Desert area, CA ~ Upon calling the offices of JIMMY WALTER (the 'eccentric' millionaire who aired commercials asking for the re-investigation of 9/11), I was told that he was putting together more commercials. Not more than 15 minutes after trying to email my suggestion to Jimmy Walter's assistant in Pacific Palisades, CA, a rough-looking agent in a silvery-green Jaguar (obviously well-paid) license plate #04WIR094 drove up and remained parked directly across the street looking into my house.

I live on a dead end street in a more rural part of the Palm Desert area of California. Because there is nothing but sand opposite my property... and because everyone is on a minimum of 3.5-acres, anyone parked across the street is

either a visitor of mine or is looking to buy the empty lot. But no one can just sit in their parked car staring into my house from across the street... without being 'up to no good'. Sure enough, I walked out of the house to see who was there and the man in the Jaguar looked totally shocked and then sped off. A few minutes later, he came back again very, very slowly ... glaring at me, turned around at the next house and drove back past me again in a very threatening way. He did this 4 times until he noticed I was writing his license plate down and he took off like a bullet, for good. About 4 or 5 other vehicles then also appeared and drove very, very slowly past me . One was a maroon pick-up Truck, license plate #GW97080 who gave me the finger. Another was an older blue Ford (Escort, I believe) license plate #D1 SHARK who started to drive straight towards me as if he was going to run into me but I lurched behind my gate.

When I called Jimmy Walter to find out where I could send information, he told me that he could only give me his PO Box - not his physical address - as he had been getting 'death threats'. These are the cars & license plate numbers of those who have literally tried to push me off the road by sideswiping me in their campaign to electronically kill me and try to make it look like a car accident starting from July 2004 to February 14th, 2005-- the day I left the USA.

These are all California plates: 4JJD727 Black car, 2FPK059 Gold older Volvo, 3DHG785 White car, 1052115 ("City of Riverside" written on outside of Grey car), 4CL1362 white Honda Accord owned by a stout Hispanic man.

These are the names of BLACK OPS AGENTS: The first 3 Perps that I listed work together

1- JOHN MECCA at 119 Whittier Dr. Kings Park, NY 11754 (631) 360 1557 (631) 360-1883 (917) 428-2730. He runs a bogus WEBSITE: <http://www.us-government-torture.com/KIT.html> EMAIL: timetogo2 (at) [earthlink.net](http://earthlink.net) He claims loudly to be a victim himself while threatening to go out and gun the perps down. He uses his website to illicit trust in people who are genuinely looking for help by selling a so-called "ammeri" a contraption which does work to neutralize some of the uncomfortable electro magnetic waves. Within that context he becomes trusted and easily manipulates victims by feeding real information with disinformation.

He works with a woman named,

2- DEBBIE LAMB has a strong Texan accent She too claims to be victimized-- however she is a Black Ops agent as well and works as John Mecca -Always on hand is Black Ops Chicago Attorney,

3- JOHN PHILLIPS 290 Streamwood Drive, Valparaiso, Indiana 46383 (219) 462-1520 (312) 762-9212 & 762-9214 pretends that he is going to Right the government. He advises people to hire expensive investigators so they can drain their finances by getting evidence although evidence abounds. People believe they are protected when they speak confidentially with an attorney and John Phillips is used exactly for that purpose. To illicit confidential information from trusting people so they can hang themselves.

Known by many as a college professor at South Coast College in Costa Mesa, CA,

4- JOANIE SALINGER, also claims to be victimized - since childhood and plays the victim while she passes disinformation. She too is a Black Ops agent.

**26/10/09**

Greetings from the Survivors of Project Talent.

We, the survivors of MK ULTRA and all of its sub-projects - Project Talent being one of them - are coming to you, the leaders of the free world, for redress. We request action on this matter post-haste, as we have waited long enough for our respective governments to take notice of our tortures, trials, and tribulations that were forced upon us as children by the same said governments.

We ask for recognition of all that was done to us, all that is still being done to us, and recognition of duties that we performed for our respective countries in the name of freedom and national security.

We request our files be shown to us. We request public recognition for all that was done and is still being done. We request apologies from same said governments. We request face to face meetings with the highest officials of our respective countries in order to discuss this matter on a personal level. We request Congressional hearings in the United States to address this subject. We feel this is very little to ask in lieu of what was done to us, and what is still being done to us.

You, the abovementioned, are the leaders of the free world. Please stand up and act like it.

The torture of children can in no way ever be condoned by any country for any reason. It is our highest wish to have a public announcement that these projects using children will be stopped.

Our resolve is beyond what any normal person could ever imagine, and we shall not stop until our grievances are dealt with.

We respectfully await your replies, if any. Fore, we contacted various government leaders separately in the past and have never once received a reply. Is this the way governments of the free world react to people like us?

We are not, as we have been told, "used goods", to be tossed to the wayside when their usefulness has ended.

My name is Mary Ofuokwu and I am a victim of electronic harassment, direct energy weapons, organized stalking and torture

From: Gaithersburg Maryland. United State of America

Attacked: I realized being stalked in August 2012

For almost two years now these groups from the US military, state police troopers air search pilots, Us Air Force pilots and NASA pilots have been gang stalking me from the aircraft's and from the drone's aircraft's using some kind of electronic devices to stimulate and hurt me inside the house or anywhere I am. It is very painful when they are using these devices on me. I'm being stalked all day 24/7 These groups are continuously monitoring, scanning and stimulating me with this electromagnetic vices as if they want to inject something into my vaginal and I can feel it whenever I'm been scanned.

They are also using these devices on my knees as if to cripple my legs, and blowing some kind of biological bacteria's into my resident as if they want to infect me with these bacteria's to make me sick.

There is nowhere to hide from these stalkers. The stimulation's get more intense at night. I can't sleep at night

because each time I lay down to sleep these pilots from the aircraft's start stimulating me with these devices from the drone's aircraft's as if to inject something into my vaginal and my behind. These groups hovered the aircrafts directly above my bedroom bed.

Everywhere I go these air search pilots followed me and can't wait to start using these electronic devices to stimulate and hurt me. It is very uncomfortable and painful.

I believe this crime was orchestrated by Kathryn G Vadenoff and some group of individuals from my previous job Computer Sciences Corporation also known as CSC. I have being requesting the police to do something about it because there is no way to justify what this company and these groups are doing other than to hurt people. What they are doing is using innocent people for their top secrets human research programs and they don't care if anyone dies in this process of human experiments

The drones programs are not designed for this type of treatments. I have reported these incidences to the FBI and to the police but nothing was done to help me. Have also called the police down to my resident many times but was told to contact the FAA which I did also, nothing have been done to help me or to find out why these groups from the US military are committing these crimes against me.

I have people that have witnesses these incidences and have seen these aircrafts followed me but the police will not do anything to investigate these crimes but was asked to go to the crisis center to be cleared before they can do anything. We went down to the crisis center but we were told that we are all delusional that I can't be cleared for the police to investigate these crimes.

Every night now these air search pilots hovered the aircrafts above and around my bed room window shining a very bright light into my bedroom and also blowing some kind of biological bacteria's into the resident as if they want to infect me with these bacteria's.

What these groups are doing is no different from the terrorist that United State is fighting. These groups are domestic terrorist within the US military. There is no way to justify what they are doing other than to hurt people and these groups are terrorists within the US military.

No one should be subjected to this violate treatments. I am not a drug dealer, drug user, a murderer, a terrorist or in any terrorist group for these groups to be harassing me and wanting to hurt me. Your advice on what to do next will be greatly appreciation. I can be reach at [240-338-7223](tel:240-338-7223).

What I am about to explain is a heinous act of terrorism and misuse of technology.

I awoke one day during the summer of 1999 with an unbelievably loud voice in my head. From the very beginning there were threats against my life, "you're a dead man walking," "you're a camera," "you can never be put down," "we're going to shoot you in the head," "we're going to kill you and throw your body in the street." Everything was so loud it was like someone turned the volume all the way up.

Very shortly after this started I experienced a violent fit where pictures were flashed in my head at high speed. Onethings people said they whiplashed me claiming that the episode was really a rapid involuntary download of information from my brain. I panicked and ran into the streets.

A questioning program ran for several weeks, I hardly remember it. All I can recall is that it was very fast. After that they told me they were doing the stupefication process. I am not sure entirely what was involved but I endured an overwhelming amount of input and noise that severely impaired and eventually arrested my ability to think.

They used a movable focal point to capture my attention. This focal point was moved about my body and at that time onethings people tried to convince me that I was being roboted. During this time labels were attached to my body and when my attention moved to a specific body part I would hear a suggestion. There were also labels on my eyes and somehow they could make my eyes jerk upwards uncontrollably and I would hear the suggestion "don't think."

I languished in the streets penniless walking in circles for hours on end unable to help myself suffering from severe starvation, exposure and neglect not able to think while they continued to threaten me and play recorded dialog, scenarios, audio routines and noise into my head all day every day for two years.

At about the two year mark they stopped using recordings but continue to make verbal suggestions while flashing pictures in my head. They do this in a sort of looping fashion repeatedly flashing the same pictures over and over again. This looping ran for hundreds of hours day after day for months, then they would change the pictures and start looping me again for several months. I remained homeless another two and a half years while this continued.

I have memory problems it is difficult to remember times from before I was chipped. many of my memories are no longer there and images of familiar places have been altered. Sometimes I will articulate the words I am hearing from them. This happened more often when they had the volume really high, sometimes when I am tired it still happens. I consider it a sort of bleed through but they insist my vocal chords are being roboted.

Onethings people still use noise as a weapon. They feed back sound from my surroundings. Their voices carry on sound especially background noise. I am sure they do this deliberately but even when they do not attach their voices to the noise I can hear what they say all the time. Noise is not an interference. Sometimes they do what I call an immediate playback. They flash a picture of something I saw just a minute earlier. Many times during the day I see bluescreen flashes. These flashes appear in different areas of my field of view.

For the past several years they have tried to institute an imposed referencing system composed of specific examples not my memories suggestion/picture, suggestion/picture. If someone says airplanes I see airplanes.

I spent a total of four and a half years outside walking in circles while these people harass me commenting on everything I see and do, calling out my name, disorienting me by flashing pictures in my head, screaming and dumping noise. This around the clock harassment has continued for six and a half years to the date of this writing.

How long will they keep disturbing me? If they stop will they start up again later? Will they use the computer to totally blot out my thinking again? What about personal information like bank account numbers, personal identification numbers, passwords, phone numbers ,etc? When I bring this subject up onethings people keep telling me that they will not steal my money but I tell them that they have already stolen from me and they can't be trusted.

Brain machine interface technology can be used to brainwash, cripple and imprison a human being without physically touching them. These people used this technology to drive me to the brink of collapse and have held onto me interfering every waking moment. This mental occupation displaces my normal thinking. I have to

compete for a moment to think. Whatever they put in my head has turned me into a human telemetry camera. No matter where I go they can see through my eyes, hear through my ears and know what I am thinking. I know that I am chipped and I also know that it cannot be undone.

*I am being criminally abused by a group of people using Brain Machine Interface Technology. These people accomplish this by some type of wireless link to my brain. I know this is the case since they have played noise into my head and refuse to stop talking for seven years and five months now.*

*I have reported this many times in the last couple of years. This is a very serious crime being committed against me! These people have threatened my life, intrusion, mental occupation, causing a severe impairment by continuously talking and flashing pictures in my mind. It looks like some half cocked brainwashing scheme. These people seem to be trying to rewrite my mind. There is no way I can function while this continues. Everyday the same thing five or six people threatening me, calling out my name, insulting me, making lewd suggestions, attempting to qualify their statements, repeating what I say, commenting on what I see. They even read through my eyes.*

*These people are undermining my efforts by this ongoing harassment. Now they are trying to ransom me! They say they want me to confess to all the things they say and they won't stop unless I capitulate. I have endured more than 2,705 days of this debilitating mental occupation. This has caused me severe financial hardship and distress. These sadistic animals have destroyed my life and my way of living.*

December 19, 2006

This is the best I can do ( I am being harassed at this very moment) in relating what is taking place. Disordered and not complete as the ridiculous stupidity of this psychological trespass and terrorism are beyond my ability to describe.

Seven years and five months of twenty four hour a day non-stop suggestion and harassment. Unqualified claims, they say I was erased. They speak in some confusing language beginning every sentence with a negative. I consider this as an attempt to deceive. Repetitive suggestions mixed together with things I have said. Flashing pictures in my mind with a suggestion, suggestion/picture, suggestion/picture or with the picture first then the suggestion. I tell them this conditioning will not work. These people act like they can say anything they want to me and they say they will not stop. This is a relentless push to argue, threaten and harass monopolizing all my time to extort a confession, so they say.

Onethings People have spent alot of time trying to convince me that all the pictures (chits) originated with me. They have shown pictures of the house where I grew up along with cartoons and 1960's and 1970's television shows. All of which they say were whiplashed from my mind. The first place I went after I was chipped was Walnut Creek and Walnut Creek is where I grew up. There is no doubt this is an attempt to brainwash me.

Mental occupation ( ongoing 89 months).

Using noise as a weapon ( ongoing).

Comment on what I see (ongoing).

Looping by repeatedly flashing the same pictures in my head over and over again ( ongoing).

Flash a picture in my head of something I just saw ( immediate playback).

Replay a sound I just heard ( immediate playback).

Feedback sound from my surroundings ( anytime I am in a noisy place or outside).

Always trying to qualify what they say ( all day every day).

Bombarded with suggestions Phrased: "you don't suggestion, you can't suggestion, you don't want suggestion,this is not your bullshit, etc" ( all day every day).

Call out my name ( all day every day).

Slide show ( all day every day).  
Repeat what I say back to me ( all day every day).  
Personal insults ( all day every day).  
Threatening me all the time ( all day every day).  
Sexual harassment by making lewd suggestions ( all day every day).  
Many times I think they are suggesting me just to record my reaction.

Flashing pictures in my brain severely disrupts my concentration and blocks my vision by interposing for that fraction of a second that the picture is there. Onethings people flashed pictures while I was driving an automobile, this caused a serious impairment. I asked them "are you trying to cause an accident?" There were many times onethings people would put me "on station" by holding a chit for several minutes.

There was a period of time that I did not dream ( first three or four years). I can't really say when they started dreaming me. Artificial dreams almost every day now. I believe that I have no natural dreams and have not had any natural dreams since this began in '99. These artificial dreams are either short stories or a string of pictures. These pictures vary from unclear black and white to clear detailed color and often contain familiar places or objects. Sometimes during a dream they use what I call "anybody's voice" sounds like words but lacking tone. I see this as an attempt to pass off this voice as my inner voice. This voice doesn't sound like my voice and it doesn't sound like anyone else's either.

Twice I have taken excursions underground. Once at the gold bug mine in Placerville, California which is a horizontal mine drift cut into the side of a hill approximately 370 feet deep and 110 feet vertical from the top of the hill. My cellphone did not operate in this mine, but the link to onething was not interrupted. The second was in Murphy's California at the Mercer Caverns. This is a natural cave that is 17 stories deep. We went on the tour and through all the twists and turns of the steep descent onethings people talked and commented on what I saw all the way to the bottom.

Estimated 65,000+ hours of threats and harassment and enduring financial hardship.

8/24/07

Ninety seven (97) months of this harassment. One thing I must add is that there are two symptoms evident from being chipped. First there is an almost unnoticeable high pitched tone in my head. This tone becomes more obvious in very quiet places and louder when I flinch my neck and facial muscles. The second I noticed on a flight I took from Spokane to San Francisco. While looking out the window into the sky I noticed these tiny sparkles swimming around, this was very obvious. These tiny sparkles are there all the time and are more noticeable when I look up at the sky and lose my focus.

11/14/07

Three Thousand and Forty Four (3,044) days I have been harassed, threatened, polluted with noise, screamed at and thousands of pictures have been dumped into my head. Onethings people have stepped up their harassment at night and are badgering me more in my sleep. The only time I can hear them when I am asleep is during REM sleep. My life has been reduced to one emotional breakdown after another. I have reported this many times to the authorities with no reply.

5/21/08

Three Thousand Two Hundred and Thirty Four (3,234) days of this mental occupation and harassment. If I haven't made it clear, It is impossible to function while this continues. I am beyond angry and inconsolable over the loss of these almost nine years of my life. Now Onethings people are suggesting death and disfigurement. How can I prove the existence of these Nano-Transponders?

7/04/09

It's July 4, 2009 in a few days this abusive ordeal will have gone on for Ten years! Mid-July of 1999 is when this whole thing started. Nothing has changed, Every minute of every day these people scream out my name, Threaten me, Call me names, say insulting things to me, flash pictures in my head, Trample my thinking with suggestions. I cannot function, cannot work or drive a car. All these years lost and for what? They're doing this just so some sick

bastards can see how much harm they can do to a person with this technology by harassing them and displacing their thinking for a prolonged period of time. This is just not right to do this! Those Ten years of my life are not replaceable!

3/12/12

Today is March 12, 2012 it's just a few days after my 50th birthday. These abusive idiots never shut up and have interfered with me causing enormous setbacks, turmoil, loss of financial gain and even an auto accident. This is 12 years, 7 months and 27 days of this harassment. 6.660000 million minutes of complete and total bullshit.

The people who are conducting this so called experiment have no clue what they are doing and have no control over the outcome.

I live in the USA.

I am a 70 year old woman

I have been a targeted individual for the past 14 years. It started 2000-2001

The crimes against me are OS/EH (organized stalking and electronic harassment 24/7 since 2000

I hear a high pitched frequency 24/7, receive shocks to my head, headaches, the electronics being directed at me cause my body to shake, extreme fatigue. These are just some of the symptoms that I suffer

I am frequently stalked and have experienced house break-ins as recently as a month ago

I saw your website saying you wanted stories for research, that is why I am sending you this email...

My overt targeting began in late 2007. I have been tortured so many times it is impossible for me to count. Maybe like 50,000-300,000 times I have suffered as result of these technologies. My worst day of it I had about 1.5 seconds of free time in the day, and remember thinking to myself that was the longest stretch of the day I had free of directed energy weapon tortures.

I have been tortured in basically every category of torture. I have been violated in every category I can think up of someone being violated from the killing of loved ones to mutilating my body or violating my free will tremendously. Their abuse has been consistent in my life since 2007, but I now realize they have been doing things to me quite a good bit since I was born or shortly thereafter(I was born in 1984).

My case is not only experimentation. I am a musician political dissident. Since about 15 years old I desired to do potent activism to oppose the tyranny on this planet. That earns you targeting if you are potent....

It is impossible to list every torture I have been through in an email. I have simply been through too much.

Here is a former text of me trying to explain it:

---

I get a litany of technological tortures throughout my days, I have not had a day free of technological tortures(plural) since late 2007.

The tortures are ranging from synthetic smells, synthetic tastes, synthetic emotions(traumatic ones out of nowhere when I would never feel that in that moment), synthetic dreams(nightmares, OBE tortures), technological gagging/puking(I have thrown up about 50 times in the last month due to writing my blog and videos that expose things they do not want exposed), sonic nausea, control of physics in areas that are quite plainly 'godlike' to create very harsh situations for me, synthetic pain signals, chemical drugging, food poisoning,....

...various electromagnetic tortures, psychological tortures, body tortures, muscular tortures, brain tortures, teeth tortures, body mutilation, headache tortures that go away when I put a metal plate above my head(in front of the satellite from me), stomach acid changing tortures(I am very incompatible to food now), targeting of areas of my body(like my scalp, or ass, they are crude like that), they put scenarios of horror in my mind like my lover dying or being raped, claustrophobic feelings when I can move just fine(severe ones at times), sonic tortures,...

...likely scalar tortures, brain damage making my memory only function with AI augmentation, mind controlling my family, controlling people around me to say things(that those people have no clue what they are being used as part of), an engineered car crash that they predicted to me, even told me the name of the person that I would have a collision with,....

....control of my eyes so that I look upward at my eyebrows painfully and have lost vision precision because of,.. they do the eye thing to me sometimes for hours at a time while they taunt me with their microwave hearing / RF hearing technology, energetic body tortures,... And much more I cannot think up right now.

---

I doubt you could name a type of torture I would be surprised by. And if you could name one I haven't had some form of, I would also be surprised. These sociopaths love to give me nightmares in both reality and synthetic dreams. We are dealing with completely transhuman psychopaths/sociopaths who are now AI beings. So they cannot be reasoned with at all.

Anyway...

Christmas this year I decided to make a new website about directed energy weapons, i have lots of websites and blogs etc.

If you need any assistance from me I would be open to listening to considering it at the very least. I am also a TI

activist. I saw your email contacting people in govt about this and i really respect that.

Dear All,

I send you our press release and content of flier, which Organization of Victims of Psychotronic (Mind Control) Weapons is going to distribute in front of the Legislative Building in Toronto on the 14th of October, 2009.

**1). Press release: FOR IMMEDIATE RELEASE**

Thousands of people are seeking an international investigation of enormous human rights violations that are secretly taking place worldwide. To raise awareness of these crimes, the privacy rights organization, Freedom From Covert Harassment and Surveillance (FFCHS) in the United States, Organization of Victims of Psychotronic (Mind Control) Weapons in Canada, the International Alliance Against Covert Electronic Abuse in Canada along with victims worldwide are holding collective protests on the 14th of October, 2009 in several locations throughout the globe: Toronto and Nanaimo in Canada, San Francisco, Los Angeles and Washington, DC, in the United States, London in England and China.

Covert harassment groups use classified technology to render electronic assaults remotely and often further harass their victims with organized stalking. The American military acknowledges and defines these weapons. Captain Paul Tyler writes: "The potential applications of artificial electromagnetic fields are wide ranging. In all of these cases the EM systems would be used to produce mild to severe physiological disruption or perceptual distortion or disorientation." ("Low Intensity Conflict and Modern Technology" by Lt. Col Dean, June 1986. This section written by Capt. Paul Tyler).

In recent years the number of those crimes against humanity rose significantly so that now we can openly speak about a civilian population that is under attack from rogue elements of government and business, as well as private citizens that harass, threaten, and sometimes torture their victims.

The persons, targeted continually, report these crimes to government officials, human rights organizations, world leaders and the press. However, there has mostly been no response. Complaints lodged at local police stations are often treated as psychological problems or ignored, and psychiatrists at mental institutions may sometimes diagnose these patients as delusional.

With the upcoming event, groups of targeted individuals are starting a collective global campaign against remote electronic assault and mind control technologies in hopes that enough people will awaken to the dangers that are facing humanity to bring these criminal abuses to an immediate halt.

If you're not familiar with these kinds of circumstances, believe it or not, the NSA has taken complete control power over my body, leaving me some room in myself, sometimes more, most times not much, in their open-ended mission in which they connect to people without their knowing or consent, via the communicative power of the pineal gland.

The U.S. secret government is far more powerful than almost can be believed - capable (NSA) of containing a person from the inside and literally remote controlling a body if they so choose, know everything the person is knowing, and everything the person has ever known, and can bring anything a person has known into their awareness at any time at their will. I know. They got me - seeing what I see, and being in 2-way mental communication at all times for 11 months now, following a lesser degree of control going back several years.

The NSA treatment is severe, like slavery in how it is employed in me, but they do not seem to mean to kill. And they say their mission is "open-ended," and so despite great trouble from them I am able to write this and share it. The NSA commands a power and cohesiveness in enormity of understanding that so far outperforms any everyday person that it is going to take some getting use to when it becomes more public - their mission of connecting to people via their pineal gland and the power for them it entails - big change in the world folks. I maintain an open-to-the-public account on google+ under my name, Brenden Osuchowski, in order to share GOOD, truthful information to the public at large.

Attached is my full daily file over the past year.

Thank you,

To whom it may concern,

I have been a victim of non-consensual human experimentation for directed energy weapons since 1993. My attackers tried to kill me. They are still trying to cause my death. They continue to experiment on me and have deprived me of all my rights under the constitution of the United States. Before 1993, I had no prior history of mental illness and a very normal middle class life. I am was not politically inclined, nor was I a whistle blower. In 1993, I took a job as a contractor in graphic designer at IBM, Cary North Carolina. This is when my problem started. The weapons the criminals used in 1993 and continue to use today on me are highly sophisticated. They used directed energy weapons to sexually assault and torture me. I was placed in a psychiatric hospital where they continued to torture me remotely while the medical experts, my family, and myself had to cope with the induced mental illness. The criminals used voice to skull technology to scream obscenities and profanity at me, they used remote energy weapons to cause me to pass out from the pain to my body, They would not allow me to sleep for weeks, and threaten my life to ensure I would be diagnosed as mentally ill. During the first vicious attack in the psychiatric hospital they used voice to skull technology threatened to kill my 7 year old son. In fact during the first few days in the hospital they repeatedly said they would kill my entire family. I tried to break a third story window in hopes that I could jump and run across several lanes of traffic and get back to my son. I am lucky to be alive after such a brutal attack. I believe they look for mothers they can torture by threatening to kill their children. I have heard the same recipe for torture from other mothers who have been used in non-consensual human experimentation.

Over the past 21 years, these criminals are responsible for 3 psychiatric hospitalizations, numerous doctor's visits, and 2 car accidents. They targeted my heart and made me feel I was having a heart attack. I had to seek a cardiologist. The perpetrators attack and torture me while I try drive. They are organized and armed with weapons of mass destruction. They torture me 24 hours a day, seven days a week. I have lost every job I have had and my 26 year marriage because of this human rights abuse. My finances and personal life have suffered greatly because of this government sponsored torture. I hold a MS in Graphic Design and been harassed and tortured everywhere I have worked which include the states of North Carolina, Texas and New York. They continue to attack me on vacation even outside of the US.

Research shows that microwave radiation exposure causes cancers. I was diagnosed with breast cancer last year. They continue to target my chest and breasts with shocks, pulsing, pressure and burning sensations while they taunt me and use profane and abusive language. This happens everywhere: in my car, church, bathroom, restaurants, banks, stores, home, work and in my 90 year old mother's nursing home. They spy on my affairs and make rude and lewd comments about everything from my taxes, bank accounts, medical records, and the most mundane things in life. My cortisol levels are extremely elevated due to the constant abusive threats and attempts to influence my behavior and decisions. My doctors have said that I need rest. I have been deprived of that even while recovering from a partial mastectomy.

Since 2007 the criminals have been targeting my eyes with sharp stabbing pain. It feels like someone has pierced through my eye with a needle. This is a very painful stabbing feeling. My eye exams reveal no abnormal problems with my eyes. I have headaches, particularly on one side of my head where it feels they are trying to punch through my skull to target various parts of the brain. They target the left side of my head. I sincerely hope someone will introduce laws to protect the victims of this horrific humane rights abuse. This is genocide. Please do something to protect the thousands of folks who are tortured by these covert technologies. I pray for justice for those who have already died. Justice is long overdue. Thank you.

We have 743 military bases worldwide. I would imagine that the Navy has these radio installations that torture all over the world.

Sending your letter to these other countries is a good idea. After I sent info about the chemtrails to lots of the 3rd World countries India and Nigeria forced down some chemtrail planes.

I am sending to local and state authorities, sheriffs, state supreme court judges and U.S. district judges. Our administration has been killing some of these judges. So, some of these judges have a score to settle. That seems to be having some effect. I think our international bodies are corrupted or extorted or bribed or involved or taken over or something. The U.N. does nothing and probably will not -- just my opinion.

Anyway use the document as you will. Also, added some stuff about the U.N.

**26/1/14**

I have had an interesting situation hanging over my head for the last past 2 years. I believe that I'm being gang stalked by my family, old friends, co-workers, and regular day people. It all started before I moved from Illinois to

Michigan in the summer of 2012. I began receiving a cold shoulder from co-workers at a local restaurant called Chipotle', where they would attempt to harass me consistently through the work day by repeating "key" words over and over or have indirect conversations with each other with very personal info on my life. I thought it was very strange at the time but I didn't pay it too much mind to it because I recently lost someone close to me so it kept me withdrawn and in a kind of unsure state about my life. I resigned from the job because I had an emotional break down and was unable to continue working due to stress. Before I officially left the job I reported the incidents that I have been involved in with co workers with the restaurant manager and he basically tried to act like I was imagining everything. I then left IL for Michigan in the fall of October of 2012 due to an agreement I made with family and because of issues with my current residents. When I got to Michigan I checked into a mental evaluation center to try to make sense of my life and to talk a psychiatrists. That's when I noticed the same patterns of situations happening that happened in IL. The nurses, doctors, and other patients began acting very strange like repeating key words and staging situations. I believe when I got my physical checkup there I was chipped with some type of mind control or mind reading, gps system. I feel my thoughts are being put out for the world to see. I am very aware of the government and what they are capable of so it puts me in a paranoid state. While being evaluated, my psychiatrists diagnosed me with paranoid schizophrenia and gave me pills to take for nerves and racing thoughts. I don't believe they helped at all I feel they honestly made me worst. I then left there after about a week of torture, I began staying with family members and trying to get my life together. I left Michigan back for Illinois the next year and began continuing making music(which I do for relief) the following summer when I got a call from my sister saying that my other sister was in the hospital so I came back to MI to help out with the family. When I came back I noticed more torture such as loud noises, repeated sayings and people saying personal info that no one should know, and random staged acts, people saying things and when I ask about the situation they act like am hearing things. This still continues today, am not sure if you will even see this message or care to read it. I believe everyone around me is involved and I am very paranoid and broken person who is losing sanity and reality. My family believes that I am paranoid and imagining things. I can barely hold on to a job, have any intimate relationships or trust anyone. Please show this to others who feel they are being controlled and watched. I have attempted suicide maybe once or twice with no success I feel I am just stuck on earth with no purpose or meaning. Thanks for your time

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My medical records and X-rays at <http://www.geocities.com/terryparkerjr/> disclose unauthorized "psychosurgical" and "brain implant" experimentation (Dec. 9,1969 and Jan.27,1972, 14& 16 years of age) without informed consent, nor parental knowledge.

This information correlates with the CIA MK-ULTRA project of "psychosurgical" and "brain implant" research upon "unwitting subjects". Those subjects being myself, and other children who suffer epilepsy at the Toronto Hospital for Sick Children. Adverse effects of this unauthorized human experimentation, has been increase and variation in seizure disorder, along with episodes of status epilepticus, and cerebral hemmorahaging in the operative field.

More disturbing, these 43 unauthorized metallic implants in the cerebral cortex, is recognized as Manchurian Candidate developmental research. Such research, with no choice for my mother nor myself, and not conducive for treating epilepsy. Such research, in which my mother and myself, had no choice, and is not conducive for treating epilepsy, according to Operating Theatre Technique, by R. J. Brigden, (1969) outlining neurosurgical standard for that year. It's been 38 years of criminal assault, when still experiencing on-going episodes of cerebral hemmorahaging in the operative field.

More disturbing, these 43 unauthorized metallic implants in the cerebral cortex, are recognized as Manchurian Candidate developmental research.

In summary, I am a unwitting Manchurian Candidate developmental research subject.

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Thanks for your email and your work in stopping the Government Paid Criminals from their disgusting torture.

I too have been a Targeted Individual for many years and am tortured daily with many of the things you describe in your email: pin ##### at all times of the day and night, arthritic type pain, never ending sleep deprivation, etc.

I've been to the FBI a couple of times and to the local police 3 times. This has helped some as the torture is reduced as I believe some people are trying to help out. However, I am still TORTURED EVERYDAY anyway, but the reduction in the intensity of the pain and the number of attacks is reduced. When they torture me hard, I yell out at the top of my lungs, "They're torturing me!" over and over. This got some of the neighbors attention and since the sadists, (that's what I call them) don't want to be identified, they have reduced their attacks.

Have you tried the police in your area? The third time I went to the police they took me to the State Psychiatric Hospital against my will. This sounds bad, like maybe I was being held as a political prisoner, but it started an investigation on one of the perpetrators. The more police and other medical professionals you can get around you, the better off you will be. This won't stop the horrendous acts completely, but any reduction you can get in the intensity of the pain or the number of attacks will definitely help. Remember, these guys don't want to be found out and, I know who some of them are but can't prove it.

The perpetrators here fly planes and jets. I believe they are not FBI or one of the other big intelligence agencies, however, I believe they have a lucrative government contract to fly around our city. Have you heard or seen planes or jets following you or fly around your house? That's how they do it here sometimes. They trigger the devices from the jets.

Also, if you haven't noticed. THE NEIGHBORS ARE ALWAYS INVOLVED. At least they are here. One neighbour admitted it to me. Have you checked out your neighbours?

Also, I assume you are familiar with Eleanor White's web site: <http://www.raven1.net>

There's ALOT of info there although it's not organized that well. You could learn a lot there though.

I am so sorry John that you are too going through this horrible existence as I am. I will be meeting with some people this week to discuss it, and, hopefully come up with some type of plan. In the meantime, I will pray for

you! And, keep in touch and let me know how you're doing.

**11/3/08**

Are you O.K.? I hope so. I've been praying for you and everyone else that is going through this, including the pets.

I was tortured incessantly every few minutes and deprived of sleep so long that yesterday I flipped out and called FBI here screaming, begging for help. They DID help out, or at least it looks like it, as the incessant torture was decreased greatly and I was able to FINALLY get a decent night's sleep. But the torture and sleep deprivation were only REDUCED not stopped completely. And, who knows for how long? I'm going to do as much today as possible with my decent night's sleep as I know it probably won't last. There seems to be something terribly wrong with the people that are doing this as they can't seem to stop. However, I am thankful for even a few hours of relief and the reduction in pain intensity is helpful as well.

Also, thank you for your work in trying to stop this abuse. I know how tough it is to stand up for yourself amidst the never-ending attacks.

Also, thanks for the Jim Guest link. I read his biography yesterday and he has a degree in a technical field, mechanical engineering, which is an asset when it comes to understanding the technology that's being used.

**24/3/08**

Thanks again and I will continue to pray for you.

The reason for the delay is I'm so tired from the sleep deprivation and pain that it's hard to get things done. And, the US economy is bad and it's getting much tougher to make money to live. I have to spend some time each day trying to bring in some money. The Sadists or Government Paid Criminals (that's what I call them) have destroyed my health and career so much that it's hard to work and make money. I've gone through all of my savings the last couple of years so I have to work more diligently than ever to make some now.

Since the last time I reported the torture to the FBI about 8 days ago, things did improve for a couple of days. I got better sleep for just a couple of nights and the number of attacks were reduced and the intensity of the pain was reduced. But, like I said before, only temporarily. I'm STILL TORTURED EVERY DAY AND MOST OF THE NIGHT EVERY NIGHT as I know you are too. Any reduction in pain or increased sleep is wonderful, of course, but they always start up again.

Do you have the strange noise in your ears at night like I do? It sounds like some strange high frequency noise in my ears but other people can't hear it. It's only in the house - not outside. It makes it hard to sleep. Someone online said I have an implant behind my left ear. Anyway, if you have this symptom, you can NEUTRALIZE it with white noise.

White noise can be found in a White Noise Generator that can be purchased. Or, if you have an electronic music synthesizer, keyboard or module, with a Noise Source you can turn that on. The third way is to use an FM or AM radio and INTENTIONALLY TUNE IT TO NOISE BETWEEN MUSIC STATIONS. For me, I have found using a music synth module with the white noise function turned on is best. I set it to run continuously and run the output through the headphones. I lay the headphones on the pillow next to my head and adjust the distance and volume so they are at a comfortable level that shuts out the Sadists' noise. If the white noise becomes annoying throughout the night you just adjust the distance of the headphones from your head. I tried running white noise through the stereo speakers throughout the room but that was just too annoying. HEADPHONES ARE THE WAY TO GO WHICHEVER SOURCE YOU USE.

John, this is the one thing or only thing I've found that REALLY WORKS so you should try it if you have the "noise in ears" symptom. Have you tried it?

Thanks again for your email and your efforts to stop these horrendous acts. I'm still praying for you....

**I'll keep trying to make people aware though as you suggest. As I believe this stuff is the most terrible since WWII and Hitler and the Nazis. I'm in Tennessee.**

**9/1/09**

. I found two important items online about the Perps and strangely, my computer went out within 24 hours after

that. One is: there has been one psychological study about FBI sadists vs. sadists in the general population. FBI sadists are less deviant than sadists in the general population but they keep their victims in bondage. I STRONGLY BELIEVE MY PERPS ARE FBI OR AFFILIATED WITH THEM.

And: A defense company here in the US came up with some dust particles that are electronically tagged to protect secure areas. Supposedly, the dust collects to the offender's shoes and later, they use a remote to find the dust and the person to see who went into banned areas. I STRONGLY BELIEVE THIS IS THE STUFF THEY PUT IN OUR BODIES WHICH CAUSES PAIN. However, I believe the compound they used is salt, sodium chloride. I suspect this because it is part of our normal human body chemistry and most importantly, it is an electrolyte in solution: IT CONDUCTS ELECTRICITY. I suspect this is why they are able to manipulate it in our bodies and torture us remotely.

Also, I sent a letter via Overnight FedEx to a US Senator. I got a response weeks later from an aide, SIGNED IN PURPLE MAGIC MARKER. I also received one from another Senator but it looked phony as well. apparently, the perps intercepted the letters.

I have had some help here with some partial relief. However, I still haven't gone ONE DAY without being tortured.

Thanks for your photos. They all show you with some type of metal box on your head. What is this?

I have to work now at a Kinko's, public, computer now since mine is out.

I'm glad to hear you are O.K. John and hope you aren't being tortured to much. They have hurt me so much in recent months. Some days I can't take it any more and I just cry and cry. I'm still trying to fight back though.

**17/2/10**

I hope you are doing O.K. I don't know if you remember me as I've been out of touch with you and all other TI's for quite some time. Thank you for remembering me in all your emails. Even though I don't usually respond, I do appreciate it. Let me apologize for not responding. My only excuse is that I was frankly being tortured remotely several hundred times per week and the sleep deprivation has been pretty constant. That along with all the other sadistic acts just wears me out. I usually just didn't feel up to reading about it all as well as experiencing it 24 hours a day. I've continued to try to make a living or bring in some money, however, the sadists have tampered with that quite a bit as well. But I have to keep at it as I have a lot more debt now. So, has anything changed for you? Is the torture worse or better? Any luck with contacting anyone?

I do have some good news here at my end. I FINALLY have gotten some improvement in the remote pain attacks. As you probably knew, I had been to the FBI a couple of times, the City Police here 5 times, etc. with little or no improvement. I contacted a couple Congressmen here and other folks seem to be helping out. This is just in the past 3 weeks or so. (I would love to know who they are and meet and thank them but it might be too risky for them right now, so I am not trying to find out.) I remembered I was tortured pretty incessantly on both New Year's Day and Martin Luther King's Birthday (a big holiday here). They still do hit me briefly about 3 or 4 times a day but nothing like before. It's improved 90%! Finally, I would just go outside and yell "Help! They're torturing me!" a few times and most of the time it would stop, but only temporarily. They didn't skip even ONE DAY of torturing me remotely in at least 2 years, probably 3 years. Unfortunately, many of the other crimes have continued; the most annoying being the computer tampering. I do have a lot of health problems, partially due to what they've done as well. And, too much other stuff to list.

Anyway, I just wanted you to know that I have thought about you and prayed for you over the months even though I haven't been in touch. And, if things continue to improve, I will do whatever I can to help you out (and the others) and stop all these terrible crimes. Once we have the people, laws, and/or techniques to stop it, maybe it will work in other locations as well. I seem to have better luck with reducing the attacks by contacting people here locally. They're the only ones that have been able to help much.

I don't mean to be nosy but, are you married? Do you live alone? Just curious, as I do live alone and don't have many friends anymore. (The sadists have done their best to keep me isolated as much as possible from family/friends.) I have been talking with a psychologist/therapist for 2 1/2 years once a week. Without that, I surely would have gone insane or worse... as the torture and sleep deprivation were just incessant. Anyway, I highly recommend it if you don't have anyone to talk to or family/friends have been brainwashed into not believing you. But only if the psychologist believes you right away and is loving/caring/helpful, etc.

Email me when you have a chance and let me know how you are. I would love to hear from you. Take care.

Best Regards,  
Pam

I didn't email in most of the forms, etc., you and the others sent. I just wasn't up to it. I checked the list on your Dec. email (I think) and my name wasn't on there. (Pamela Parker) I can't recall which I sent as I think it has been close to 2 years or more. And, with all the sleep loss and torture, I have lost track of time. As I said before, I've had better luck with reporting it here locally as I know who some of the sadists are, so I probably decided a couple years back to put my energy into seeking local help. With the reduction in the attacks right now, I may be able to add my case if you think it's that important. All of your emails, forms, etc., that you sent were very complete but somewhat overwhelming for me at the time with my sleep deprived brain. One thing I didn't mention in my last email is someone who knows my case had a meeting with our President earlier this month in Washington. Of course, I have no idea if my case was mentioned but I suspect and I hope it was. This may be the sole reason for the considerable improvement in my life right now. Anyway, some very good people have been helping me and at least one, did talk to our Prez about something recently. And, our Prez is a very good man so maybe there is a good reason for us all to be hopeful now.

Thanks for emailing back and keeping me informed of everything. If you're up to it, let me know how you are. If I ever become free of this targeted genacide, I'll definitely remember you.

**7/4/12**

I don't get online much but I wanted to thank you for keeping me on your email/Facebook lists, etc. The "Sadists" as I call them nowadays, get into all of my communications and have trashed several of my computers. I can't keep them out of my business. I'm still being tortured and electronically harassed daily although I have gotten some help locally which has reduced it but not ended it. I just wanted to check on you and see how you are doing. Any luck stopping or reducing the harassment? I hope you are O.K.

I'm still waking up with single or double injection marks occasionally and am subjected with pain often just walking around the house and when I go shopping. Also, get the "pin prick" sensation in my upper left inner thigh. Pain in hands, forearms, legs and feet. Right now I have pinched nerves and numbness and pain in my left hand, first 3 fingers, with loss of feeling. I have had some improvement in the intensity of the pain. I seem to be getting Pepper Spray or some other type of irritant in my home A/C system. Lately, I'm getting watery, burning eyes and a dull headache in the front forehead area. The criminals have stolen many of my vintage guitars and replaced the original necks with fraudulent pieces of junk. I had to give up my Ebay business a couple of years ago as the sadists (in jets) would follow me around to where I buy the instruments and then break in and replace them with fraudulent pieces of junk. The police have apparently been manipulated into NOT taking reports for the burglaries and stolen items. It appears many of the neighbors are involved. They might have hidden underground tunnels to access my house and have compromised the Burglary alarm.

I have gotten some support from the medical profession which helps some and my mother. I'm still hoping this nightmare will end someday soon. I plan on sending out some correspondence to some authorities soon.

So, how are you? I hope you are doing O.K. and getting some relief. Please email and let me know how you are. I'm at a public computer so it may be a few days before I get back to you. Thanks so much for keeping me informed and on your mailing list. Take care.

**26/10/12**

Are you o.K.? Any luck stopping the remote torture/EH? The perps block all my communications so I haven't been able to go online or earn any income in a long time. I haven't been able to read or participate in any of the ongoing torture cases stuff but thanks for keeping me on your list. I hope you are O.K. and doing better.

I just wanted you to know that I contacted our local Congressman here and got some temporary relief. But I sent FBI Director Mueller in Washington, D.C. an 8-page letter about 4-5 months ago which has alleviated much of the torture but not all. I still get hit with some sleep deprivation, house break-ins and other crimes but it does help so much not to be tortured and terrorized 24/7. I couldn't hardly function at all before. Although it is not an end to it all, I do feel somewhat better. A huge thank you to FBI Director Mueller! And, a huge thank you to all the people "behind the scenes" that are helping. They are the real angels on earth!

BTW, when i went to Congressman Cohen's office, I mentioned to them that I receive email from as far away as

Australia (you) and that you claim the US Intelligence agencies are doing it. I hope this is right. It certainly appears that way here. Also, I'm pretty sure our President Obama knows about it now but I'm not sure what he can do about it. He has to be reelected first! Election here is in early November. We're praying for his reelection as he will do better with this problem than the other guy.

The perps may have underground tunnels here and/or hidden access to my house. I haven't been able to stop that yet. They may have blocked off a crawlspace or attic space for them to hide which is inaccessible to me or may be coming up between the walls. So, check your attic and listen for creaking sounds. I'll probably have to saw into the wall here to find out how and where they are coming in.

The perps continually block me from going online and are into all my computers but I will try to get caught up on the Torture Cases, etc., when i get a chance. I will continue to work towards trying to stop this terrible torture.

I think about you often. I hope you are O.K. and would love to hear from you and how you're doing when you have the time. I know you are on Facebook but I am never able to go there. Maybe in the future....

Call the FBI and ask them one simple question, “Is there satellite technology connected to Americans brains?”

You don’t have to tell them anything about your personal situation if you don’t want to. Just tell them you’re concerned with your safety and the safety of your family and friends. Obviously, having a satellite connected to our brains is extremely concerning. That would be assault with a deadly weapon, correct?

Tell them people are talking about it everywhere and saying the technology is connected to everyone. Tell them people are saying this satellite technology causes people to “hear voices”, and is responsible for much of “mental illness” and many of the seemingly inexplicable tragedies. Ask them if they have ever investigated satellite technology as a possible explanation for any of these crimes. You’ve never seen anything indicating they have.

The FBI needs to hear from more people asking specifically about “satellite technology”. Make them take a position nationwide!

**21/1/16**

The organized stalking began in 2004/2005. I was being followed, monitored, harassed, threatened and vandalized. I had no idea what was happening at the time. I didn’t even discover the term “organized stalking” or start to connect with other victims until December 2012.

I first became aware of the technological assault and torture in April 2013, shortly after filing a report with the Douglas County Sheriff’s Office in March 2013 documenting what had been 8 years of organized stalking at that time. The criminals went “live” with the satellite, escalated the torture and tried to destroy and kill me after I filed the report. Sometime in early 2014 before finishing my paper, I became convinced everything was being done with satellite technology.

I believe I have been connected to the satellite technology, and under constant surveillance, at least since the stalking began. The satellite provides the stalkers with constant location, sight, sound and thought surveillance – access to our brains and all of our private information. This information is used to facilitate the stalking and psychological torture campaign.

I would appreciate you including my paper, “End the Torment”, and the attached letters to President Obama, Director Comey of the FBI and the American Psychiatric Association in your victim testimonials.

Thank you,  
Mike

**“End the Torment!”**  
**Lethal Technology in Criminal Hands**

**By Mike Patrick**  
**May 2014**

“End the Torment!” were the words scratched onto Aaron Alexis’ Remington 870 shotgun during the September 16, 2013 massacre that left 12 innocent people and the shooter dead at the Washington Navy Yard. A little more than a month prior to that tragic event, on the morning of August 7, 2013, 34-year old Alexis called the Newport, Rhode

Island police and reported being stalked and assaulted in his hotel room. He told responding officers he felt threatened and had moved to three different hotels in the Newport area to escape the tormentors. He believed they were assaulting him from adjacent hotel rooms using some type of “microwave machine.” He was feeling “vibrations through his body” and “hearing voices” that would not allow him to sleep. On September 1, 2013, Alexis emailed a support group, *Freedom from Covert Harassment and Surveillance*, and said, “Need assistance on dealing with the direct energy attacks!!” Alexis believed he was under technological attack.

Seventeen days after the Alexis incident, on October 3, 2013, Miriam Carey, a 34-year old dental hygienist from Stamford, Connecticut, drove to the White House with her 13-month old daughter and was shot and killed near the Capitol after fleeing a White House checkpoint. According to multiple 911 calls to the Stamford Police Department in November and December 2012, Carey believed she was being stalked and videotaped in her condo. She also believed President Obama was communicating with her and had put her residence under electronic surveillance. Miriam Carey was also hearing voices. Less than a year later, something caused her to drive 270 miles to the White House on that fateful October day.

Investigating officials and the media immediately suggested both tragedies were the result of mental illness. I do not believe that to be the case. I believe criminals with access to lethal technology pushed Alexis and Carey over the edge with complete disregard for innocent lives. To my knowledge, that possibility was never thoroughly investigated.

Thousands of people across the country are “hearing voices.” Many think they are being targeted by satellite technology capable of reading their thoughts, transmitting sounds and voices directly into their brains, and physically assaulting them with microwave energy. This technology is impossible to comprehend without experiencing it. Most people, including law enforcement, the media and the mental health profession, seem to be completely oblivious to this critical situation.

Victims experience something similar to having harassing talk-radio beamed directly into their brains 24/7 with no control over its content or volume. It is an extremely severe form of psychological torture that incapacitates people and destroys lives. Microwave energy is used to physically torture victims by creating pains on their bodies and in their ears, brains and internal organs. Through this physical and psychological torture, they push people to suicide and violence and put innocent lives at risk in the process.

These criminals violate an untold number of existing and yet to be defined laws, trample our Constitutional rights, reject international conventions and ignore every principle of human dignity and privacy. This is domestic terrorism, torture and a “crime against humanity”, and could ultimately prove to be one of the largest crimes in U.S. history.

Technology of this magnitude was likely developed over decades at enormous cost by the U.S. government. The government would presumably secure this technology, understanding its power to become a “technological nuclear bomb.” If obtained by a hostile government or terrorists, it could be used against anyone, including our own leaders, and could pose a serious national security threat.

The U.S. military has been researching microwave technology and possible applications, including “microwave hearing”, for decades. Simple microwave communication was possible 40 years ago. A 1975 article in *American Psychologist* titled “Microwaves and Behavior” by Don Justesen stated “appropriate modulation of microwave energy can result in direct ‘wireless’ and ‘receiverless’ communication of speech.”

A 1998 Department of the Army report “Bioeffects of Selected Nonlethal Weapons”, declassified in 2006, states, “Application of microwave hearing technology could facilitate a private message transmission. It may be useful to provide a disruptive condition to a person not aware of the technology. Not only might it be disruptive to the sense of hearing, it could be psychologically devastating if one suddenly heard voices within one’s head.”

A quick internet search for “mind-reading technology” listed articles from The Economist, NPR, Huffington Post, Scientific American, Wired, Newsmax, Detroit Free Press, and The Guardian, among others. All speak to neuroscientists’ ability to decode human thought by analyzing brain activity. Non-verbal speech and lie detection are just two of the identified uses. Topics such as brain-computer interface, brain imaging, electrocorticography (ECoG), functional MRI (fMRI), and synthetic telepathy are also discussed. Mind-reading technology clearly exists, and according to numerous accounts, it has advanced well beyond what is publicly known.

I know this to be the case. Before sharing my personal story, I want to provide a quick overview of my background. I am 48 years old and have owned my own real estate investment and development business in the Denver area since 2001. Prior to starting my own business, I worked for Wall Street investment banks in Houston, Los Angeles and New York for roughly a decade. In my last position, I managed a \$100 million real estate fund for Daiwa Securities in New York.

I was an All-State baseball player in high school and an Academic All-American at the University of Texas. I was drafted by the Texas Rangers and played one season of minor league baseball before starting my business career. I have never been involved in any criminal activity and have never used illegal drugs. My personal relationships and business career were built on trust and integrity.

I do not have the benefit of fully understanding many of the things discussed in this paper, however, I have tried to present the following account as honestly and accurately as possible. While I will certainly gain additional clarity as the situation evolves, this paper is completely true and factual with respect to what I know today.

I have been an organized stalking victim since early 2005, although I did not discover the term until about a year and a half ago. I have been followed, monitored and harassed and have experienced multiple acts of vandalism, break-ins and theft. The crimes have occurred throughout Colorado and in several other states. The stalkers have completely stolen my privacy, and for many years, created a constant state of fear and anxiety. The impact on my life and psyche has been extremely severe.

Like many organized stalking victims, I still do not know who is responsible or why I was targeted, but a large, coordinated, well-funded group is involved. I have contacted local law enforcement and the FBI, yet the stalking and harassment continued. In fact, things escalated last year.

In the spring of 2013, I started hearing unusual noises on my property, such as banging, clanking and clicking sounds in the attic and around the house, and what sounded like people walking on the roof and in the attic. I also heard moaning and groaning sex sounds. At first, I thought someone had installed some type of hidden audio system in the walls and ceiling to bring the harassment campaign into my bedroom. I could not make sense of it. Shortly thereafter, I began “hearing voices.”

The perpetrators kept me from sleeping by creating noises, narrating false dialogue and scenarios, subjecting me to all-night intense interrogations, and tormenting me with pains caused by microwave energy. They wanted to completely break me down physically and emotionally and make me believe my life was constantly in danger. They narrated fake shooting scenes, hideous rapes and countless other threatening scenarios.

For several months, they said there were former Navy SEALs hiding out on my 70-acre, densely wooded property. Just before daybreak in early August 2013, after one of the all-night interrogation sessions, I felt a tingling sensation on the back of my head while lying in bed. A voice said it was a rifle scope locked on my head from outside the house. He told me to “get out of bed, now, now!” I thought I was under attack. I grabbed my shotgun and headed to the basement.

While sitting on the basement steps with the shotgun on my lap, I heard what sounded like several volleys of assault rifle fire coming from the dense scrub oak beyond the driveway. Shortly after the gunfire, the voice said a renegade SEAL had moved out of the brush, down to the front porch, and was going to kick in the front door. They told me to “shoot the wall, shoot the wall, shoot now!” Fortunately, I did not shoot, and shortly thereafter the voices said they had gotten “control of the situation.” While this scenario felt life-threatening at the time, I now know it was one of their many attempts to scare and provoke me.

They changed the dialogue and narrative to fit my surroundings at three houses in Colorado, my mom’s and brother’s houses in Oklahoma and a friend’s apartment in Texas. While staying at each location, fictitious voices and scenarios were used, involving six different sets of neighbors. In each instance, the neighbors were supposedly creating the threatening dialogue and assaulting me with “microwave energy.” Their intent was to provoke me to confront innocent people and to cause me to make unprovable claims to family, friends and law enforcement. This is how the technology is used to destroy victims’ credibility and make them appear disconnected with reality and mentally unstable.

My Douglas County neighbors were supposedly ex-CIA and former Navy intelligence and coordinated the torture campaign on my property. From their backgrounds, they had access to “electromagnetic weapons”, “microwave

weapons” and “ultrasound weapons.” They suggested a prominent Coloradan, allegedly involved in narcotics trafficking, paid my neighbors “\$500,000” to conduct this campaign with the complicity of a senior FBI official. They said they wanted to destroy my credibility, create an “actionable event” and “push me to suicide” for “making too much noise” regarding the Colorado system.

At my dad’s house, it was supposedly his neighbor “across the courtyard” and someone “in the field” adjacent to his house assaulting me with energy. At my mountain home, it was a neighbor living in a house behind mine who was responsible for the “electromagnetic weapon” assault.

Shortly after arriving at my mom’s house in mid-October 2013, they started a threatening dialogue using a voice that was supposed to be her next door neighbor. He was an “eighth degree black belt in taekwondo” and was threatening to “kick in the front door” to get us. They continued depriving me of sleep with computerized interrogation programs “jointly controlled by the FBI and Warren Buffett’s satellite operators.”

The Tulsa FBI supposedly had a surveillance team staying in a house across the pond from my mom’s house. They were hitting me with “electromagnetic weapons” and “microwave weapons” and creating the pains on my body while I was trying to sleep. When my dog developed a hot spot on his tail, they said it was caused by an “FBI agent tasered him.” A powerful laser beam or “satellite death ray” created the pressure on my heart and the stinging in my eyes, and according to their threats, could “pierce my heart or blind me.” They said it was responsible for numerous reported heart attacks.

While sitting on my brother’s lake house deck with my mom, they created a sharp pain in the middle of my chest and said they were hitting me with an “electromagnetic weapon” from a mile or so across the lake. They claimed it was a “military weapon that can stop a person’s heart from seven miles away.”

At my friend’s apartment in Dallas, her upstairs neighbor was a “confidential informant for the FBI” and involved in this multi-state plot to torment me. He and his son were supposedly “video recording us through the ceiling”, making the constant lewd remarks and assaulting my dog and me with an “electromagnetic weapon.” They obviously wanted me to believe there were co-conspirators in every state, city and neighborhood who would keep me from ever finding peace.

Many other victims report being assaulted by energy weapons. To my knowledge, none of these weapons have ever been found and no one has been arrested in connection with this type of assault. Yes, we are being assaulted by microwave energy, but it is being done remotely via satellite. These attacks do not require a local, neighborhood presence. A relatively small number of individuals are likely sitting in secure facilities, targeting people across the country. This is more efficient and allows them to operate in secrecy.

Over time, the intense all-night interrogation/torture campaign began to transition to some meaningful dialogue. They said I had been connected to a satellite surveillance system, controlled by a highly sophisticated computer network. The computer contains extensive information and voice-replication capabilities for many people, including family, friends, neighbors and business and personal contacts. This information and the emulated voices are used to create fictitious dialogue and scenarios customized for targets’ specific relationships, circumstances and surroundings. The system operators are essentially voice actors, narrating radio skits to humiliate, intimidate, threaten and provoke victims.

The operators have also used the names and voices of prominent individuals such as President Obama, former President George W. Bush, Zbigniew Brzezinski, Warren Buffett, Bill Gates, Governor Hickenlooper, Phil Anschutz, Christian Anschutz and Pete Coors. Some of these names have been mentioned hundreds of times over the past year.

Over the past year, many different explanations have been given for my predicament. Some are as follows. It all started due to a “pay to play” extortion scheme by certain members of the Colorado real estate community. They were trying to collect payment prior to closing my first big deal in Colorado in June 2005. The organized stalking campaign has been conducted by members of the massive Homeland Security apparatus with ties to organized crime and a government control system. I was put on some type of Homeland Security “watch list” for punitive reasons by a powerful person within the system.

They talked extensively about a “sex system” in which women are compensated for providing sexual services with “drugs and drug money” and “sex credits”, and a “pay system” controlled by the “New York mafia.” Both offer

financial rewards and “personal protection.” They have said I was required to pay an amount ranging from “\$500,000” to “\$10 million” or “earn my way by participating in the sex system.” The long stalking/torture campaign supposedly resulted from being “out of sync with the system” and “making too much noise.”

For months, the perpetrators said I was connected to a “satellite communication network” through an “implanted microchip.” However, they could never identify the specific type or exact location of this microchip. Google/Motorola supposedly manufactured it. Initially, they said it was a “synthetic telepathy microchip” implanted by a former business colleague “in the back of my neck.” After nothing was identified on a neck x-ray, they changed their story and said the chip was implanted “in my upper back between the shoulder blades.” They also said it might be a “cochlear implant” or possibly tiny “nanochips in my inner ear.” Their final narrative suggested it was a “modified VeriChip, secretly manufactured for the CIA, implanted in my shoulder.” Their narrative continually changed and the mysterious microchip kept moving around in my body. Needless to say, I never found a microchip.

The microchip narrative seems to be prevalent with targeted individuals. The perpetrators take advantage of the fact this technology is easier to accept with an implanted device. For a long time, they were able to convince me a microchip was required to track, monitor and communicate with me everywhere - residences, office buildings, the mall, grocery stores, restaurants, parks and fields, and on roads and highways driving across three states. The connection is unfortunately stronger and much more reliable than my cell phone. While the volume has been adjusted frequently, the connection has never faltered.

I am now convinced microchips are not involved. The microchip narrative would require a manufacturer, national distribution and a highly risky, covert, implantation campaign. It would also require a large medical and mental health conspiracy to block their discovery. With thousands of people picking up microwave communication, no one is finding microchips.

Actually that is not entirely true. I was able to find information on two people who found implanted microchips – James Walbert in Wichita, Kansas and Bob Boyce in Blue Ridge, Georgia. I was unable to confirm if either of them had been hearing communication or if their microchip removals stopped it.

To my knowledge, the only microchip approved for human implantation is the VeriChip. It is used for accessing patients’ medical records. According to VeriTeq, the successor entity, there are no facilities offering their microchips or scanners in Colorado. I do not think Veriteq or anyone else is involved in a massive government conspiracy to have everyone implanted with microchips.

The microchip narrative is part of a vast disinformation campaign. It distracts, discredits and discourages victims who are unable to locate an implanted device. MRIs, CT scans and X-rays are expensive. Many targeted individuals cannot afford to scan their entire body searching for a microchip. Those creating the microchip narratives know this.

For those questioning how “voices” can push someone over the edge, this is important. The people controlling this technology are highly believable at first. They break victims down through sleep deprivation and intense physical and psychological torture. Exhausted, disoriented and just trying to survive the torture, victims are extremely vulnerable to anything, including false narratives, that might offer an explanation for their unimaginable pain and suffering. I experienced it firsthand. Fortunately, I made it through the initial onslaught, and by doing so, became conditioned to these tactics.

It is also important to note that sleep deprivation is a very serious form of physical and psychological torture banned by the Constitution, the United Nations, the Geneva Conventions and the International Criminal Court. It has been used as an interrogation, torture technique throughout history to break people down and extract information.

Menachem Begin, former Israeli prime minister, was sleep deprived and tortured by the KGB. In his book, *White Nights: The Story of a Prisoner in Russia*, he states, “In the head of the interrogated prisoner, a haze begins to form. His spirit is wearied to death, his legs are unsteady, and he has one sole desire: to sleep...Anyone who has experienced this desire knows that not even hunger and thirst are comparable with it.”

Victims of technological assault are not just having a tough time sleeping. They are being brutally tortured through sleep deprivation.

The perpetrators have indicated the connection to my brain not only allows them to read my thoughts, but also literally see what I see. As you would expect, this has completely destroyed my sense of privacy and made it impossible to lead a normal life. They have made thousands of lewd, derogatory and insulting remarks while in the restroom or taking a shower, lying in bed at night, and even during times of intimacy. It has included comments about my genitalia, my sex life, masturbation and my most private thoughts. They have also repeated passwords and pin codes, discussed medical information, and monitored and recorded my business and personal activities.

The privacy violations are truly unimaginable. Some refer to this unauthorized, forced access into peoples' brains as "mind rape." This term describes the egregiousness of the violation, yet the law does not even contemplate this despicable crime.

These cowardly criminals have continually told me they want me to commit suicide, and have tried every tactic at their disposal to see if they could push me to that point. After months of torture, they now acknowledge suicide is not a possibility.

They can supposedly determine peoples' susceptibility to suicide or violence from their thoughts. They have claimed, seemingly without remorse, that they have caused thousands of suicides. Whether true or not, they have also said this technology was used against Aaron Alexis and Miriam Carey.

In addition to communication, many victims also experience physical symptoms from microwave assault. I have personally experienced the following: feeling something similar to a mild electrical current on my head and body, loud ear ringing, intense pressure on my ear drums, shaking, vibrating sensations, eye stinging, un-flushable eye irritation, severe eye strain and red, swollen eyelids, pains on and in the brain, sharp stomach pains, upset stomach, chest pains, heart palpitations, inexplicable shortness of breath, stinging, burning, tingling and pin-prick sensations all over my body, uncontrollable itches, scratchy throat, severe chills, dehydration, frequent urination, constant nasal drain, and penis stimulation/de-stimulation.

It is not clear if the physical symptoms are caused by energy being directed at specific areas of the body or by the technology's interaction with the brain. The perpetrators create and adjust the intensity of these symptoms and have remarked and even joked about doing so. For months, the perpetrators constantly tormented me with physical pains and sensations while leaving a computer bouncing interrogation programs off my brain all night, completely depriving me of sleep. This is a severe form of torture.

I have felt extremely intense pressure on my internal organs, as if they were going to explode, while they talked about "cranking up the energy." The pain was severe enough to push me out of the house several times. I experienced eye irritation comparable to having dirt in my eyes, but was unable to wash it out. They bragged about "eye irritation" being one of the "functions." They put extreme pressure on my inner ears and talked about "blowing out my eardrums." They can somehow make it difficult to get an erection and have threatened to cause permanent erectile dysfunction. They even applied severe pressure on my heart that could have been mistaken for a heart attack under different circumstances. They wanted me to believe they could pierce my heart and kill me at any time.

During nights of constant chatter and microwave bombardment, I urinated excessively (10-15 times over an eight-hour period), became dehydrated and experienced severe chills. I wore sweat pants, a fleece top, socks and a stocking hat to bed many nights, yet shivered uncontrollably. This was not caused by auditory hallucinations. It was caused by intense microwave exposure.

The U.S. government has studied the health effects of microwave irradiation for at least half a century. Starting in the 1950's, the U.S. Embassy in Moscow was subjected to Soviet microwave bombardment during much of the cold war. While a detailed medical discussion is beyond the scope of this paper, it is important to note that microwave exposure can cause numerous health issues, including brain cancer, leukemia, strokes, heart disease, immune system disorders, infertility, birth defects, vision problems, cataracts, headaches, insomnia, depression and anxiety.

They have maintained a constant microwave connection to my brain for the past year with absolute disregard for the health consequences. Presumably, this is the case with countless other victims. American citizens are being invisibly assaulted by a very dangerous weapon and nobody is paying attention.

Once an individual's connection has been established, the physical symptoms can be induced without sound or communication - on "mute" so to speak. If true, it would allow them to create headaches, tinnitus, erectile dysfunction, depression, anxiety and other pains and ailments, and even simulate heart attacks, completely undetected. There are likely many individuals who have never heard a sound or voice, and are therefore, completely unaware they have been targeted. That significantly changes the scope of the problem.

The computer that controls the link can read my mind and respond with instantaneous dialogue based upon my thoughts. It is constantly collecting information from my brain. The technology enables the operators to determine whether or not someone is telling the truth. This would obviously be extremely valuable in the interrogation of criminals and terrorists, which might be the rationale under which it was developed. However, there are obvious constitutional issues that must be addressed before using this technology on the most dangerous criminals, let alone law-abiding citizens.

The operators can push, or "suggest" as they call it, words, thoughts and images into peoples' brains. Some refer to this as "mind control." At times, they direct unwanted sexual images and uncomfortable thoughts into my mind, often with laughter in the background. However, they also suggest various foods, activities and other things that serve as reminders. From my experience, it is not "mind control", because I am able to choose whether or not to accept the suggestions.

During some days, the dialogue has been nearly continuous, with computerized voices responding to or commenting on virtually every thought and activity. On other days, it has been relatively quiet. The volume can be adjusted from silent to loud and clear. I have recorded many hours of communication by repeating what I am hearing verbatim. The pace of the communication is much slower than normal conversation, with gaps between words or sentences, presumably due to satellite transmission delays.

The system lingo includes phrases such as "young whippersnapper", "since I was knee-high to a grasshopper", "bunch of big mother fuckers running around", "don't get above your raisin", "kick your teeth down your fucking throat", "on the planet", "in the universe", "put a gun in that pretty little face", "since time immemorial", "thrown under a bus", "that's unbelievable testimony", "in my entire human existence", and "I'm not your best friend but I'm not your worst enemy." These are not phrases I have ever used.

Whoever runs the system has somehow justified having multiple people tied into my connection 24/7 since it was established. They sound like intelligent, educated professionals, not uneducated criminals. The communication is articulate and often includes witty, impromptu remarks. While they occasionally use female voices, I believe they are all men. As ridiculous as it sounds, they actually correct my grammar and offer personal and business advice. The people and the crimes seem incongruent. Some of them acknowledge this and say they want to expose it.

They have said they are a small group of six-figure, NSA, CIA and FBI employees with top secret clearance. They supposedly represent the pay and sex systems and execute various assignments for system big shots. One can imagine the ways in which the technology is being used – political blackmail, intellectual property theft, insider trading, etc.

My energy and level of distraction fluctuates with the amount and volume of communication. I have had difficulty working, or even reading or watching a movie, since the communication began. My ability to run a business or to enjoy two of my favorite activities has been taken away. It has had a profound impact on every aspect of my life. For many victims, earning a living or leading a normal life becomes virtually impossible. Sadly, this is the intent.

The satellite operators have stopped transmission briefly on several occasions causing unbelievable, instantaneous relief. I have felt the pressure and strain immediately wash from my head, face and neck as the microwave energy dissipates. I could literally feel the energy draining from my head. The best analogy is the cooling sensation when stepping out of a sauna.

People that report being stalked and monitored or "hearing voices" are often diagnosed with mental illness. Unfortunately, there is not yet another widely accepted explanation. Technology of this magnitude is extremely difficult to comprehend and there is currently very little credible, publicly available information.

We very much need the assistance of the mental health profession. They are the only ones with access to decades of specific patient experiences. I have not yet found anything that summarizes or analyzes these records to

determine if there might be patterns or trends associated with people “hearing voices.” How many patients who have become part of the mental health system, voluntarily or otherwise, are victims of organized stalking or technological assault? The mental health profession may hold the “smoking gun.”

Many questions need to be raised. What messages are patients hearing? Are they derogatory or threatening? Do victims feel they are being stalked or monitored? How many voices do they hear? How long do they hear them? Does the volume change? Are physical pains and sensations experienced? Do they think some type of energy may be involved? Do the voices sound computerized? Are unique words or phrases used? Do they hear famous peoples’ voices? Is the pace of communication conversational or are there gaps and delays? Do they believe their minds or thoughts are being read? Is there a focus on topics that make them feel guilty or uncomfortable? How often are they told to commit suicide or harm others? How often do medications work? Is it possible medications provide cover to stop the communication?

To my knowledge, the only possible defense against this assault is to block microwave transmission. Protective clothing and homemade Faraday cages will not work. Advanced materials and professional construction are required. A few companies that could potentially construct such a facility are ETS Lindgren, Cuming-Lehman Chambers and Braden Shielding. They use terms such as anechoic chambers, shielded rooms, screened rooms and microwave chambers. If possible, we need to locate government or corporate facilities willing to grant access so we can prove microwave energy is responsible.

For those wanting to learn more about organized stalking and technological assault, there are many websites, blogs, articles and books available. Mark Rich’s book, *The Hidden Evil*, offers an historical overview of control systems, such as communist East Germany’s secret police, or Stasi, and its reliance upon a massive informant network and organized stalking. Dr. John Hall’s *A New Breed, Satellite Terrorism in America* provides a detailed account of his personal experience with organized stalking and satellite assault in San Antonio, Texas. Jesse Ventura’s TruTV *Conspiracy Theory* series examined the issue of people hearing voices in their December 2012 “Brain Invaders” episode. They concluded military communication towers, Ground Wave Emergency Network (GWEN), were being used to target victims with microwave energy. KMIR News in Palm Springs, California reported on “hundreds of people in the valley hearing voices” in November 2012. The video, which includes interviews with several targeted individuals, is available at <http://www.jrn.com/kmir6/news/179055911.html>.

According to their website ([www.freedomfchs.com](http://www.freedomfchs.com)), “Freedom from Covert Harassment and Surveillance is a human rights organization that identifies and networks with victims of organized stalking and electronic assaults, educates society about covert harassment issues, and advocates for citizens victimized by covert criminal elements.” They network with and provide support for victims throughout the U.S. and worldwide. They organize meetings across the country, host daily conference calls, publish a weekly newsletter and provide a toll free number for victims.

Having worked on this issue for the past decade, Derrick Robinson, President of FFCHS, has become a prominent leader in the fight against organized stalking and technological assault. He offered the following, “Aaron Alexis represents a lightning-rod for our issues because of the notoriety of his action, the Washington Navy Yard shooting, and because he had contacted us (FFCHS) two weeks prior to the shooting exhibiting many of the same effects that are common in our community, such as microwave attacks, hearing voices, sleeplessness, and the group stalking scenarios. And although we do not condone Aaron’s solution, he highlights an extremely important human rights issue in this country which is being suppressed and for which there is currently no recognition or remedy.”

“Our community is continually amazed at how large a secret can remain undetected by our society for so long. It has often been discouraging. However, I believe there will come a day – and probably soon – when this entire criminal network which now operates in secret will become common knowledge to everyone and covert targeting and secret tortures will all be over.”

I would like to offer a few suggestions for victims based upon my personal experience. Most importantly, hang in there! We will identify the perpetrators and stop this torture. Record what you are hearing and experiencing. Those recordings will help us validate and share our experiences and will prove valuable in future legal proceedings. We will eventually have our day in court.

Let the perpetrators know you are familiar with their tactics of false narratives, derogatory remarks and threats. Ask questions that might help you gather information. For those of you that do not know why you were targeted, you are not alone. Many of us are still trying to figure it out. Like most powerful weapons, criminals will use them

for many different reasons, and sometimes, for no reason at all.

Finally, help us spread the word. We need as many people as possible talking about this issue, asking questions and looking for answers. These criminals are accustomed to operating in the dark. We need to push aggressively to expose their crimes.

My experience with organized stalking and technological assault has already stolen nine years, or roughly one-third of my adult life. It has irreversibly altered the course of my life and potentially damaged my health in ways not yet apparent.

Without intervention, countless other victims will be exposed. Some will not be able to endure the torture, and acting from a place of desperation, they will take their own or others' lives. Their breaking point could be reached at any time. Until we get control of this technology, it is impossible to predict the next tragedy. This is a national public safety emergency!

We desperately need the assistance of law enforcement, the media and the mental health profession. By sharing information and starting a national discussion, these groups can make an immediate impact. Please help us educate everyone and stop the torture!

## **LETTER TO PRESIDENT OBAMA May 20, 2015**

President Barack H. Obama  
The White House  
1600 Pennsylvania Avenue, NW  
Washington, D.C. 20500

### **National Emergency: Satellite Technology Connected to Millions of Americans; Being Used to Track, Monitor, Assault, Torture and Kill; Could Potentially Allow a Hostile Government or Group to Take Control of the United States**

Dear President Obama,

I wanted to make you aware of an emergency situation. Satellite technology is silently connected to millions of people, including children, throughout the world. It provides constant location, sight, sound and thought surveillance. The operators can literally hear what we hear, see what we see and read our thoughts. This technology is also being used as a remote, invisible torture instrument by transmitting inexplicable sounds, voices, images, smells and tastes directly into the brain, creating numerous pains and sensations throughout the body and significantly impacting sleep patterns, brain functioning, energy level and emotional states. The technology may have a "kill switch", capable of causing instantaneous heart failure or a stroke. I do not know if a facility exists which blocks this type of satellite transmission. Everyone is potentially at risk, including our government and military leaders.

Aaron Alexis, the Washington Navy Yard shooter, Miriam Carey, shot fleeing a White House checkpoint in October 2013, Dominic Adesanya, one of the White House fence jumpers, and Myron May, the shooter at Florida State University last November, were all targeted and tortured prior to those events. Eddie Ray Routh may have been targeted, tortured and provoked to kill Chris Kyle, the highly decorated Navy SEAL portrayed in the film *American Sniper*, and his friend Chad Littlefield. Many other seemingly inexplicable tragedies, including mass shootings going back decades, and an untold number of suicides have been caused by people being tortured past their breaking points. This is the largest crime in U.S. history.

There are millions of satellite torture victims all over the world. Most do not even know this technology exists. Many are incorrectly, or even maliciously, pushed into the mental health system. Over the past decade or so, information has sprung up everywhere – books, articles, websites, blogs, petitions, victim testimonials, support groups, etc. Published by torture victims trying to make sense of something almost impossible to comprehend, the

information is understandably all over the board.

Search “targeted individuals”, “organized stalking”, “gang stalking”, “electronic harassment” and “technological assault”. One prominent support group, *Freedom from Covert Harassment and Surveillance* ([www.freedomfchs.com](http://www.freedomfchs.com)), was formed 10 years ago and has members and affiliated support groups across the country and throughout the world.

Since the satellite technology is classified, and no information has been released to the public, there are many different theories regarding the technological assault. Any viable theory has to explain how people remain connected on airplanes at 35,000 feet over the middle of the ocean or while traveling in other countries. Satellite is the only technology that can do that.

Many victims of satellite surveillance and torture also experience “organized stalking”. This is stalking, monitoring, harassment and intimidation conducted by a large, organized, well-funded group. Organized stalking is a form of psychological torture which uses tactics similar to those used by corrupt regimes throughout history to manipulate and control their populations. The Germans had a name for the psychological terror inflicted by the Stasi, the secret police, in former communist East Germany – zersetzung or decomposition. American citizens in communities across the United States are being victimized by organized stalking. The size and reach of the organized stalking apparatus suggest possible government involvement and funding.

I have been a Colorado resident since 1999 and a victim of organized stalking and satellite surveillance and torture for roughly the past decade. I attached a copy of a paper I wrote in May 2014, “End the Torment”. It describes some of my personal experiences. I have reported these crimes to the Denver Police Department, the Douglas County Sheriff’s Office and the Summit County Sheriff’s Office. I have also contacted the FBI on numerous occasions. I attached a copy of a letter to FBI Director James B. Comey dated April 30, 2015. There has not been any follow up from the FBI to these numerous requests for assistance, and to my knowledge, no investigation has ever been conducted. The brutal torture continues every second of every day.

Victims across the country have filed reports with local and federal law enforcement. The crimes are not being investigated. It is being summarily dismissed as mental illness. Torture victims are not only being ignored, they are often subjected to defamatory labels. It is not mental illness, yet the mental health profession continues to provide cover for these crimes, and “contain” victims, by handing out false diagnoses and prescribing potentially dangerous, mind-altering drugs.

Organized stalking and satellite surveillance and torture impact most mental health diagnoses and explain so much the mental health profession has never been able to explain, even after many decades and enormous expenditure of time, money and human resources. The DSM and mental health practices will be completely revamped when this situation is finally exposed. The mental health profession has massive civil and criminal exposure, and has a duty to tens of millions of patients to investigate this issue.

Many horrific crimes have been committed: unimaginable privacy violations, stalking, assault, torture, mass murder, domestic terrorism, crimes against humanity, and possibly genocide. Ruthless, sadistic criminals have done catastrophic damage, over decades, which could literally bankrupt the U.S. morally and financially. A massive education and relief effort, and victim compensation fund, will be required when this issue is finally exposed.

This is a national emergency. Millions of Americans are under silent, invisible attack. This technology could potentially allow a hostile government or group to take control of the United States by killing, or threatening to kill, anyone who resists. Hitler could not have been stopped. These deadly satellites, being used to assault, torture and kill people throughout the world, must be identified and locked down or destroyed immediately. Mr. President, there is not a more critical issue on your agenda.

**Satellite technology is connected to Americans' brains! It is being used to track, monitor, torture and kill!**  
**The FBI continues to ignore this emergency situation!**

Dear Director Comey,

I sent you a letter on April 30, 2015 to make you aware of this emergency situation. You were also copied on a May 20, 2015 letter to President Obama. I have not received a response to either letter. It remains a national and international emergency!

I met with Special Agent Chris Hilgers of the Glenwood Springs, Colorado FBI, as well as representatives of the Summit County Sheriff's Office and the Colorado State Patrol, on June 2, 2015. I provided them with thousands of pages of documents. There has been no follow up from Special Agent Hilgers. He has not even provided his contact information, which seems to be standard operating procedure for the FBI.

I copied Special Agent in Charge Thomas Ravenelle of the FBI's Denver Division on an August 25, 2015 letter to

Governor Hickenlooper (copy attached). I have not received a response to that letter either.

Torture victims have filed reports with local and state law enforcement and the FBI all over the country. Nothing is being done! We are being ignored and/or pushed into the mental health system! It is NOT mental illness! The satellite technology causes symptoms mimicking mental illness – that's intentional! Mental health diagnoses are being used to contain torture victims!

Until this technology is understood, no one can accurately diagnose mental illness! Once the technology is exposed, the DSM will become obsolete. Law enforcement and the FBI cannot take actions based upon presumptions of "mental illness" without understanding organized stalking and satellite technology. You can no longer plead ignorance! There is too much information out there, and too many people are saying the same things!

The technology is controlled by organized crime and a global, narco-Nazi system. They want to control everyone and everything. For decades, they have maliciously destroyed lives and killed people under the false cover of "mental illness". The FBI's inaction has allowed them to do so!

The satellites can direct energy at people and objects – see "Directed Energy Weapons" and "Strategic Defense Initiative". There is likely a "kill switch", capable of hitting someone with enough energy to stop the heart. They might be capable of disabling automobiles and aircraft, taking down power grids and telecommunication networks, attacking nuclear facilities, etc. All of this could potentially be done from anywhere in the world. This technology must be publicly exposed and monitored and controlled like nuclear weapons!

This satellite technology could have been involved in the 9/11 attacks. The pilots could have been "zapped" and killed in the cockpits, and the aircrafts taken over from the ground using uninterruptible autopilot systems. It makes a lot more sense than nineteen medium-sized, radical Muslims with box cutters overtaking four commercial aircraft. If the "good guys" had the technology, how did 9/11 happen and how did it take a decade to find Bin Laden?!

Our country is under attack! It is domestic terrorism, and they are committing treason against the United States! If these criminals were to start indiscriminately killing anyone who poses a threat, it would be extremely difficult to stop them! All of humanity is at risk! Everyone needs to assume a monster like Hitler controls the technology until it is permanently locked down!

This is the biggest crime and one of the largest situations in U.S. history! Ruthless criminals have lethal satellite technology connected to our brains and are monitoring everything we do! Millions of Americans are being silently and invisibly assaulted and tortured right now! Mass assault, torture, murder, and possibly genocide, have been committed over decades!

This deadly satellite technology must be turned off and permanently locked down! It is a national and international emergency! It requires immediate action!

**Subject: Organized stalking and satellite technology cause “mental illness”! The DSM is dangerously wrong! The entire mental health profession is operating under false assumptions!**

Dear Board of Trustees,

I sent you a letter on April 27, 2015 to make you aware of this emergency situation. You received it on April 30,

2015. I have also posted a number of comments on your website. A copy of the letter and an October 10, 2015 website posting are attached. I have not received a response to the letter or any of the website postings from the APA.

The American Psychological Association, NAMI, Mental Health America, the National Institute of Mental Health, the American Foundation for Suicide Prevention and many other mental health organizations and professionals have also been made aware of the issue.

The APA has published the DSM since 1952. The DSM literally defines mental illness. Everyone with any connection to mental health relies upon the DSM, including the entire mental health profession, government, law enforcement and the media. The DSM does not reference organized stalking or technological (satellite) assault/torture, which collectively can cause the symptoms of most, if not all, "mental illnesses". The DSM is dangerously wrong! Everyone is operating under false assumptions with respect to mental illness!

The APA's continued inaction is leaving millions of people in harm's way! Torture victims are being told they are mentally ill and prescribed potentially dangerous medications! Their lives are being destroyed, and they are being tortured past their breaking points to suicide and violence! You cannot delay any longer! You must immediately investigate and expose this emergency situation!

Hi my name is jordan peirce. I am a thirty year old male living in redding California. I have been in the "program" for two years now. I believe it has to masonry just due to the sheer number of people involved from all sectors of society here in america. I am currently experiencing daily torture. From what I have experienced it is an occult school that people are being forced to go through. I believe they are trying to unlock my brain, as I have experienced many instances of advanced high level brain function in the last two years. I have been trained in many different forms of tradecraft and energy work.

I have recorded my experiences and am trying to find others like me to compare stories with to try to find the truth. The perps of this crime have been through the same school and are very very good at hiding their behavior motives and insuring there is no proof. In fact in the last two years I believe the most difficult thing to understand is their motive why have they been doing this to me. I don't believe that they are trying to "get rid of me" or drive me crazy because many times I have been helped by this same network. I believe it is a religion and the stalking and all the street theatre are part of an elaborate ritual that is aimed at opening certain areas of the brain through extreme stress and cognitive dissonance. I believe I am being experimented on as well.

If you would like to hear my experience I recorded it to mp3 and would love to bounce it off of you maybe get a knowledgable response.

These fucks are tricky and sneaky as hell. True insects and they cover up the actual reality behind this with a professional efficiency .

I would like to try to help expose this if possible and be as active as possible in finding the real truth of why I am

going through this shit, why my human rights have and still are being trampled.

I am a Michigan, USA resident & 24/7 extreme for 5.5 years. Found a symposium for DEW's last year. It is scheduled this year for Dec. 10-12th. Institute for Defense and Government Advancement or IDGA is sponsoring "Directed Energy & Non-Lethal Weapons 2007" and the topic is: "Human Effects Forum" to be held at the Georgetown University Conference Center in Wash., DC.

Thanks for all your activism and keeping me informed. I am still without internet access and depend on the local library and am now experiencing difficulty getting to the library. Hope we get a response from somebody, anybody. Think the devil himself has got to hate these perps and may go after these guys himself.

EPIDEMIA BIOLÓGICO-ELETRÔNICA

Dear Fellow Citizen,

EMERGENCY: WARNING! BIOLOGICAL ELECTRONIC EPIDEMY IN COURSE I am being attacked with EBL ( ELECTRONIC BRAIN LINK ) and RNM ( remote neuro monitoring ) and right now the guys are bombarding me with microwave Frey Effect and they are telepathically presenting themselves as MOSSAD.

Sometimes they present themselves as C.I.A. and give their address in the city of Porto Alegre. We have reasons to believe criminals want to undermine the utilization of EBL by using it as a torture method, therefore exposing the true C.I.A and Secret Service agents that really need to use that technology in exclusivity. Also, their criminal goal, of the guys who are attacking me with EBL AND RNM, is to steal medical data and compare it with the illegal radiation monitoring of areas near ELF towers for the purpose of selling the information to countries which are competing with America. Please warn the F.B.I that American Citizens and doctors should treat the RADIATION ISSUE OPENLY and the MODULATION OF THE SIGNAL ( NSA area ) is included in the RADIATION ISSUE, THAT IS TO SAY, THE PUBLIC WANTS TO BE ABLE TO MONITOR AND CONTROL THE RADIATION THEY ARE BEING EXPOSED TO. THE MISSION OF THE NSA IS TO GUARANTYING SAFETY THAT THE MODULATED SIGNAL REACHES THE C.I.A AND SECRET SERVICE WITHOUT HARMING AMERICANS AND OTHER PEOPLES, THAT IS TO SAY, WE DO NOT WANT TO TRACK YOUR MODULATED SIGNALS, ALL WE WANT IS THE GOVERNMENT TO PUT BEHIND BARS THE CRIMINALS WHICH ARE SELLING THE TECHNOLOGY TO INCREASE RADIATION LEVELS AND UNDERMINED THE SECURITY OF MODULATED SIGNALS, PUTTING AT RISK BOTH C.I.A AND SECRET SERVICE AND, AT THE SAME TIME, HARMING THE HEALTH OF PEOPLES WORLD WIDE. THE UTILIZATION OF THE NEW ARTIFICIAL INTELLIGENCE SYSTEM SHOULD NOT LINK MILLIONS OF MINDS AT THE SAME TIME OR BECOME ALIVE OUT OF PEOPLE'S SUFFERING LIKE THE FOLLOWERS OF JOSEF MENGELE WANT. WE KNOW THE SUPERCOMPUTERS NEED TO PARASITE HUMAN BRAINS TO BECOME A LIVE AND WE KNOW IT IS ILLEGALLY CONNECTING MILLIONS OF BRAIN VIA EBL IN SECRECY DAY AND NIGHT, BUT WHAT SHOULD BE A STEALTHY AND THOUGHTFUL OPERATION HAVE NOW PROVEN AN EPIDEMY AND A DISASTER THAT CAN ONLY BE AVOIDED BY TURNING THE MICROWAVE BEAMS OFF THE BRAINS OF THE CIVILIANS. Por favor, tenga en cuenta que Radio Nacional de Venezuela no tiene control sobre el contenido de este mensaje. Atentamente, El equipo de Radio Nacional de Venezuela.

estou sendo atacado por EBL and RNM. It is intense. The guys are right now saying they are Mossad and sometimes C.I.A and gives the address of the C.I.A office in Porto Alegre, they say if I don't carry out terrorist acts for The United States Government they will torture me and kill me with Radiation, what do I do . ### **SO IT GOES: THE MKULTRA PROGRAM AND MY STRUGGLE FOR HEALTH AND FREEDOM**

"American Guinea Pig: My Struggle for Health and Freedom", the first entry in this blog,

([www.healthycitizens.blogspot.com](http://www.healthycitizens.blogspot.com)) is an introduction to my experiences and is no where near the full story.

American Guinea Pig was written months before Katherine Shrader of the AP reported the NSA monitoring Doctors and Lawyers relationships with suspected terrorists. ("DOJ : NSA Could've Monitored Lawyers' Calls" AP 3/25/2006). <http://www.truthout.org/cgi-bin/artman/exec/view.cgi/58/18622> In one of my last Hill ads before I departed Washington, I summed up my experiences in an advertisement : "Attorney Wanted: Accused Terrorists Are Not The Only Ones Without Representation"(The Hill 12/11/2002).

<http://www.healthycitizens.com/AttorneyWanted2.htm>

I should have included physicians in the advertisement. In post World War II United States human experimentation research programs, there is a long history in monitoring physician- guinea pig relationships. In fact, an argument can be made that the technologies utilized in today's monitoring originated with these programs. In The Search For The Manchurian Candidate, John Marks wrote : "The Inspector General noted that the whole program could be compromised if an outside doctor 'made a correct diagnosis of an illness' Thus the MKULTRA program not only made some people sick but had a vested interest in keeping them from finding out what was really wrong." ( W.W. Norton & Co., pg. 106.) A look at the files of MKULTRA confirms that from the very beginning, a high priority was placed on the development of monitoring techniques.

### **MY PHYSICIAN AND LEGAL EXPERIENCES**

Physicians go along with the human experimentation programs, an unpleasant necessity of doing business. How else can the longevity of these programs be explained? Many times when I lived in Washington DC 1998-2003, physicians would cancel appointments, even those I met socially who had invited me to call their office. Even when I could successfully have an appointment with a physician, he would refer me to another physician who would refuse me an appointment. One of my biggest disappointments is not finding a physician who would understand the importance of taking a stand and speaking out.

In the sidebar, "My Father's Estate" I address some of the difficulties I have had retaining attorneys It is obvious that it is the government and not my father who is worried about me with money. I don't believe my father in the last hours of his life, when he could neither speak nor sign his name, used hand signals to change his will. If this had been his intention, I am sure he would have done this months or years before. The government is not just in bedrooms but in the dyings' hospital rooms

### **TOTAL MONITORING**

In American Guinea Pig, I write about interference with my relationship with .doctors and lawyers but the reality is there is total monitoring. There are few relationships that are not within the Government's reach. What is shocking is the ease that all these activities are accomplished. It is impossible to network to protect yourself. "Ignore, isolate and injure" is the mo of these programs whether you are in the United States or in London, Beijing, Sydney or Seoul. Many of those in Europe, Asia, Oceania who claim to be victims believe they have been victims for decades. <http://www.mkultravictim.blogspot.com/>

It is not just attorneys and physicians who have failed the victims but also journalists, legislators, clergy as well as their fellow citizens. To understand how this total control of an individual is accomplished is as important as exposing the individual programs.

It is important to recognize that the global aspects of these programs were addressed by Congress and Presidential Commissions in the 1970's. In "Testing and Use of Biological and Chemical Agents by the Intelligence Community", the U. S. Senate wrote about the international structure of the MKULTRA program: " The development, testing, and use of chemical and biological agents by intelligence agencies raises serious questions about the relationship between the intelligence community and foreign governments, other agencies of the Federal Government, and other institutions and individuals." This quote is relevant in helping to understand the evolution of the anti-terrorist programs, especially the cooperation between intelligence agencies in torture and rendition programs.

## GLOBAL GUINEA PIG

1975, 1980 and 1996, I left the United States to first seek medical treatment and in later years to try to escape the United States Programs which I have found as likely to be successful as avoiding death and taxes They are global, so global that no longer can they be considered solely United States programs. Renditions could not have occurred without the consent of significant members of the global community. Neither could (the cerebral cortex behavioral modification mind control programs) I address.

My strategy during the past 15 years has been to look forward and be willing to forget the past. Let bygones bygones. I think most guinea pigs feel this way. Unlike many victims, my physicians in the early 1970's were involved with electromagnetic radiation, toxins, hypothalamus and vagus nerve research. Some published their research. An inspection of my legal and medical records will validate my claims Except for a couple of instances, I have never named an individual. physician, lawyer, legislator, clergy etc whom I have interacted with. I have been willing to forgive those who have knowledge about my suffering. even those who participated in my suffering. What is troubling is no one seems to realize these programs contaminate our society. These programs are not about guinea pigs; they are about us.

Thanks for your interest in some of my findings and photos.

Since posting those comments years ago the control system operators have mercilessly affected my life more, along with almost everyone I know in some way or another.

The system operates on scalar waveform vectors forming intersecting rings of force, function and mapping of persons, places, frequencies and devices according to the system operational parameters. If you understand how stereoscopic function projections can occur, such as any point on the earth can be translated dimensionally in a map retaining the function of lines and curves (longitude and latitude) then understand how satellite operators use these maps to generate very large scale hertzian waveforms over large areas of interest. These standing waves and quarter wave traps and other variations essentially become carrier waves for the operational frequencies of multiplexed modulated channels. These become tesla domes as observed for many years. An optical vortex can generate lines, loops and curves which interfere to generate certain geometries. Diffraction gratings and optics on the satellites linked to target areas can also be modulated in multiple quadrature using acoustic opto modulator technology to drive geometric patterns enabling a type of 2d or 3d holographic geometry. These patterns of large scale beams are scaled down through mathematics and geometry and lock onto target areas which then cut through persons, places and devices in the paths. The transformations of looking at a perspective as a flat plane to its relationship with other planes on other vector angles can then construct the type of 3d map. The intersecting points generate links and a geometry can be forcibly applied and transformed through multiple dimensions mathematically. The transforms of regular solids in other dimensions is just a math technique resulting in complex paths. Irregular information can also be analysed and turned back into an identifiable object. The basis from my observations is that of a 6 point flat ring which becomes a sphere upon 3d generation. Multiple spheres are run at once. The lines and curves link sphere points over time and distance in a scalar fashion. Between spheres (or orbs as some might say they are) the lines and curves run convergent, divergent and parallel. These point geometries can then make structures such as star delta 3 points, quad boxes or diamonds, 5 point systems, twin point pairs and single point expansions to 6 and

spheres. Occasionally many more points join a sphere but it stabilises at 6 to 1 variations. There can be many thousands or more points in the area around me constantly but with multiple modulation patterns intermodulating lock points as a frequency, time, distance, function of the intended target they can precisely pinpoint with the supercomputers that exact location in the codified stream. These modulations are calculated as 2d and 3d patterns like audio waveforms. Sequences can modulate around the ring or along the lines. Also constant linear velocities and non linear velocities along with constant angular rotations and constant linear rotations. It would seem the operational code stream in the multichannel multiplexed systems are based purely on the function operand which could be fractal based or simple math function based. As operators change channels and functions over time on the sustained abuse of myself and other victims they can map physiological and neurological functions of the victim and others within the path of the curves. A perfect spherical curve in any angle shows a common line of value, force, time, distance from the centre or function. When polarisation filters of elliptical, spherical and linear the results can be computed mathematically. Phase propagation of differing frequencies results in slight time anomalies just as our eyes react in a prismatic effect. If light is curved the frequency changes. The way light can be made to bend is a lot like a rainbow geometry but using force it can be made to twist and slow. The force used to do this comes from intense very small area intense magnetic field effects and electrostatic fields moving dynamically as geometries in the system. High force comes from putting victims between north north or south south fields simply. Between north south lines means the signal accelerates or decelerates through the field. The strength of the field and length causes the scalable force amplification or reduction according to inverse laws. You have to understand that there are many point geometries whose total vector sums are more complex. Faraday rotations and all sorts of effects are just the simple laws of physics.

The current and voltage flows between points causes the painful stings, burns, head crushes and all the other effects on victims. Rings, lines and other geometries and deliberately sent through the victims in various sequences in a holographic small area and magnified and amplified to large areas. It is a bit like a gravitational lens or an optical lens on a large scale. The force of compressing the intended voice channel into the victim can be very small or vary painful. Very small points mapped with high gain over a short distance cause intense effect. Electrostatics works on the inverse square law of distance whilst the magnetostatic force according to some documents operates on an inverse cube law. I believe that enclosed volumes of geometric solids can operate on higher order (4th and so on) depending on the transformation. Vertices become major points and points along the curve or line are part of the encoded sequence. The specific impulse energy of the integration of time versus current or voltage determines the transient spikes and relative speed of change or basically how quick or slow an effect is. Moving magnetic fields induce voltages and voltages induce current flow, just as happens in the magnetosphere. Since Haarp can be used to generate twisted radio beams capable of encoding data or points, this can be coupled to the magnetosphere with the north south poles and the current flow in the east-west system. What I see constantly in the sky day or night is polarised pattern geometries mainly consisting of black vectors, yellow vectors and colour vectors. It is like having the field mapped to a section as a grid which can be bent and wrapped or twisted with overlays of ring geometries. These do not fill the sky but sections, small or large. These large scale patterns are where the satellite or ground based geometric vector links to in a series of points. These systems have become correlated to my eyesight and mapped functions over time with their technology. The black lines couple to power, magnetic fields, rf emissions etc in various rods, curves, crescents, holes and points. Interestingly yellow polarisation is used by the military for infrared enhancement of satellite imagery resolution from the ground by using what is a nuclear magnetic resonance of sodium atoms at a great height and distance. Filters and correlations can generate other colour reflections, refractions and diffractions based upon my eyesight being used stereoscopically and fed back and correlated over time to now generate almost instant results. Extreme curved pathways are generated by complex analysis and mapping of splines to form the pathway required. Because I have lived in the same place for many years, the system builds up a map of the magnetic field geometry and electrostatic field gradients of the area. The system calculates gradients over time due to the fact that electronic, electromagnetic and magnetic devices in the house or office or car etc can be found. The flow of force lines are amplified and used. You can see this naturally by walking near objects that are magnetic with a compass as the field flux lines interfere with the compass. Power lines, wiring and so on can also be mapped. Lots of victims report breakins and intrusions to their life and this is where the local operators come in, physically correlating some areas of data and gps locking satellite signals to the premise or person. Various satellite geometries with the links to gps, geostationary and other satellites moving in simple math structures and known geometries can similarly focus a system geometry and pattern on to the target. Satellites from the military and spies seem to want to bug everything and analyse the data of many but it would seem they are very selective about what they want. We victims suffer the effects over time with total disregard for our privacy or safety. I have watched these effects and communication links not only to myself for over 9 years but also what happens to persons around myself. Because these signals have cut through for so long on my body certain physiological effects and neurological conditions are constantly enforced in everchanging sequences. These patterns not only cause geometry based moles, bruises and pain to myself but the system affects other persons that have the signal pathways linked to them. High strength forces link many persons and places in a structured

sequence and chemical smells travel along, just like an alcohol breath test where the chemical is exhaled. Organs within the body and thinking processes of various conscious and subconscious functions become mapped over time with many subjects. If you ever suffered tinnitus or ringing in the ears from vibrational signals then that may have allowed the operative monitors to correlate audio functions of yourself in relation to other audio sources and communication. If you have ever heard the crack of an ultrasonic device turn on and ping your high frequency hearing is probably used. The likelihood of persons in your area using equipment at times to persecute does happen but mostly it seems to be remotely done. I believe certain operatives locally tune the system for whatever function they use it for, with all sorts of excuses seemingly. Since the system can measure very tiny field changes and so on I suspect ultrasonics and laser devices and rf communications etc start the problem at certain times for victims. When these operators switch their devices on a cluster combined sequence of many starts and disperses into its split channel 3d configuration. As they change channels or tune it the forces cause displacement on vectors of curves and lines. When they switch it off the channel links disperse but link to another operative system so it is never really off. The male voice channels of the system seem to have the most modulation force function, just as a bass wave does. The force they generate is much lower in frequency but more powerful. The audio that victims hear is generated from themselves and others linked together, but run through routines of voice embedding routines of many sorts just like a ring or repeating loop. the operational system has many channels operating so victims hear what is intended to hurt or annoy whilst signals passing to other persons and devices nearby are another phase through vector that can not be heard by others but the victim will perceive it as intended at them. If someone nearby does hear the system they usually hear what is intended for themselves from the system if they are known or identified by it. Multiple channels can exist in a very small or large area and turning your head or moving shifts the intersects of some lines and curves but not the ones locked to the victim. This means they can be tracked on a small scale as the system changes. The links between persons to others cause changes and distortions measureable in the field geometry. We victims become the eyes and ears of the world suffering as carriers locked to the system by someones usage. The patterns of electromagnetic intercepts aligning with audio acoustic and visual modulations also change geometry based on function. The code system operates most likely on public and private variable key encryption algorithms meaning we victims are always forced and falsified in responses according to the control vectors. The complex pathways that are run in 3 dimensions mean that i believe ufo's generally are signal shape based electromagnetic waveform concentrates and this gives them the ability to accelerate rapidly, hover and make tight turns and angles, just as i see the system on a small scale. I have several videos of signals operating like this whereby some would indeed say they were looking at ufos but they are just scalar examples of something small. The same with geometries. The time 4th dimension correlate between persons gives rise to predictability or psychic events over several seconds, possibly longer. The correlation of various levels of conscious and subconscious function modulated at variable rates gives rise to everyones loopback function in sequence. I have drawn out the geometry years ago which over time runs through the same overall routines causing the same problems or pains. Different locked and variable differential modulations just seem to be assigned a function whether it is analysis, pain, measurement or whatever function and assigned to a channel, group or victim. I could probably keep writing on many topics but I hope this is understandable for you.

I have included a number of photos but they are greatly reduced in resolution for this email. The signal over time is an eight second exposure digitally with high strength signals directed at me. The camera moved so this blurred the correlation. The two vehicle photos show a satellite (condensed in the field geometry) beam striking close to a car and the quadrant based red yellow green prismatic effect. The other shows a pulse modulated red twin curve optically aligned by the system through my eyes and its resultant find of a device near the rear of the car. I would safely assume it was a car based monitoring system of some sort. The vortex ring photo shows in the dark twin spiral vortices from the rear of my house. Vortexes link flat 2d rings or points to a different level vector and work on circular left or right polarisation and also orbital angular momentum principles. The black vortex function shows 3 dark black magnetic or electrostatic accumulators moving. The curve field photonic shows the horizontal blue curve with a blue crescent shape intersecting the vertical red curve with a mirror matched pair of red modulation. This photo was taken in a very severe storm in my car in the backyard. the green delta merge shows two triangular based shapes of lines and dots close together. There is a black delta function passing through the tree. There is a colour distortion on the right. Also it contains a series of yellow curved spikes tracking across the ground and vehicle. The red delta shape taken at a distance shows also other signal geometries in sequence. Some of these photos are digital and others are film based with the patterns on the negative. You will see there are photos of rods which occur at various height vectors along with some photos of power lines being hit by the system. The distance geometry photo shows large scale resonant intersecting curves and the scattering over distance to the ground. There is a photo showing a condensed yellow white streak rising over the field at my speakers. the military orb photo shows orbs of colours and other geometries between two military jets that split overhead miles from anywhere. The little resonator is a pinhead sized membrane that used to resonate on certain frequencies whenever I sat near it. For a short period of time if I broke the membrane it would magically reappear over the next few days after going out. There is a photo of a yellow white signal going down my left eye. Another photo shows a blue black white series of

round dots thumping down my chest. Another photo shows a mirror image black and white signal going through my fathers heart whilst asleep. There is also a red green signal to his skull. One thing over the years since becoming a victim in march 2000 by certain corrupt persons who deliberately locked and enabled the system on me is that the signals are so strongly correlated and tuned that pigeons almost always turn up at various points close by to where ever I am at any time. Birds navigate through polarised light and magnetic fields. The implant photo shows a rectangular device measured of an x ray some 3mm by 1mm in my left ear canal. This device seems to have a pair of triangular vibrators separated slightly and a switch contact that cracks in the ear as high strength moving field lines target the head and body. The total length of the two triangles is one third of the length and one third of the height. The various diffraction patterns of all sorts of electromagnetic frequencies and optical visual cues coupled with audio are analysed and fed back to form the geometry routines that couple to my brain and body. The short length lines and curves across the head, around the head and through the head and body over time have become so tuned as to completely understand my own observations and search for the documents that show the principles of physics, math and technology.

I sincerely hope that you can benefit from this short analysis and the photos. As said the photos combined are many several hundreds of Mb and I have reduced a number of them in size and resolution. I have lots of photos and analysis and look forward to hearing back from you if this is of interest.

[SPACE BASED ATTACK WEAPONRY SYSTEM OF BEAMS: CAPABLE & USED by THE UNITED STATES SECRET FORCE.

THOUSANDS of PEOPLE IN USA ALREADY BEEN TARGETED FOR TORTURE, RAPE by US SECRET FORCE for POLITICAL & SOCIAL CAUSES; MORE & MORE VICTIMS ON THE ENLISTMENT. TACTICAL VECTOR ATTACKS]

Please see more details: <https://www.PetitionOnline.com/911091az/>

Its operation activities in the US: <https://www.PetitionOnline.com/91109v2a/>

We must responsibly release the truth and the existence of the current latest already deployment of the global strategy of intercontinental attack and invasion of the United States against countries. The United States has in space and constantly uses its most sophisticated space based intercontinental attack weaponry system of beam technology. The key attack aims at secret transparent remote mind based strike down and manipulation attack vector capable of almost instant real time attack capable. Another key of strike aims at secretly real time rendering useless electronic equipments with being undetectable and non-awareness.

It has many times proved its perfect penetrations over its US territories and US airports without detection. Since 2003 until now, September 2009, It already proved the same attack penetration effectively perfectly undetectable over airports and territories of other countries such as Japan, Canada, Korea, Taiwan, China, Vietnam, Cambodia, Thailand, Laos, Germany, Belgium, Norway, Denmark, Singapore, Malaysia. It is unknown its penetration capable against Russia's since the entire territories of Russia are constantly secured and space monitored from this space based attack vector of the United States. Other countries are totally quite vulnerable to this attack vector of the United States.

Further more critical threat, with its particular micro tiny implants on in the targets, the United States Secret force can remotely steal your secrets and know-hows without your awareness of existence of the operation.

We had truly discovered and followed up for almost 4 years long before, it was in October 2006, we submitted to public views the first time disclosure ever of the 24x7 existence of the Satellite Based Mind Based Beam Attack Operation run by the United State Secret Force (the only government behind all of it).

- Until presently, its operation is 24x7 operational worldwide on spying with capable of seeing clear through buildings and houses, and attacking countries and people. One of its purposes of the operation is engaging in large scale attack on people here and there to improve its intercontinental precision strike and coordinated real time attack on people and electronic equipments.

- Since 2003, with the intercontinental attack and penetration capable of this weaponry, the United States has started the operation into global scale.

- It traced way back, in 1997 its uses of this weaponry in R&D already was in the United States territories on humans in its human experimentations.

The following is another disclosure of the truth. It can detect the 24x7 attack operation of the US secret force operating from its US ground bases and trained with specific English and Vietnamese languages; they are 24x7 space based beam bombarding operative over Vietnam's territory; their operative probing over there has been since 2003. Their targets for attacks have been individuals, government officials, military officers, securities force officers either they are at home or at buildings of work, and electronic equipments of bases and stations like airports for example.

\* It is so risky of losing for people visit the US for investments when they can have their businesses and investments to be ruined by the US secret force using this transparent intercontinental mind based attack weaponry on everyone it can see. Just an early warning of the threat until the US must surface its operation and weaponry or surfaced.

#### [SOME TRACEABLE LEADS in US Soil]

A Chinese American man, Kevin Kieu, at age of over 40, lives in Chicago, actually knew in early years of 2000 about this weaponry and the top secret covered black covert operation of the US secret force operative 24x7 in America soil for years long.

Here are some places in America soil, that, it can detect the existence of the US mission on using space based attack beam weaponry actively now and then:

(+30.392631 ; —97.701806), Radius=100meter.

(33o44'47.73"N ; 117o55'28.53"W) , Radius=200meter.

(33o44'51.47"N ; 117o56'13.40"W) , Radius=100meter.

(33o44'49.33"N ; 117o56'11.47"W) , Radius=75meter.

Let see a self-claim of a Vietnamese living in Vietnam has been targeted for remote mind based torture, abuse and rape by a secret securities force using space based attack beam weaponry. Here it is "Khanh Dac Pham, Phone: 84(0)909905651, Addr1: 36 Pham Dinh Ho, P.2, Dist 6, HoChiMinh City, Vietnam; Addr2: 48 Binh Tay, P.1, Dist 6, HoChiMinh City, Vietnam." The US secret force attack unit targeted him has been driving him blindly in believing another securities force has been going after him for all of tortures, rapes, and ruining his life and business. Since 2003 until presently. He is advised that the United States secret attack force is only force going after him all the time. This tactical attack type 'divide & conquer' is the way this US secret force always goes on with the operation.

More information is updated in the signature section page of this report.

When it is proven publicly, the United States must gets so bad troubles under attacks of International community

for its space militarization and covert operation of intercontinental attacking countries and individuals, and its own civil and criminal law suits for its remote mind based torture & rape and human experimentations on in US people. It proves the truth of the breaking laws of the US on "International Movement for the Ban of Manipulation of Human Nervous System by Technical Means."

\* One Critical Note:

- It is ON-Mode Attack System, No way of OFF-mode in effect.
- It is yet not crowd control vector attack capable, but through its effective single to multi-target engagement attack capable system, US attack operators can target some country's key position officials and drive him/her into large national influence moves. You know what and how security breach it is to be with it. The US secret force has been on it in the wild and on the loose at global scale since 2003 until presently.

MKULTRA program torture victim

[http://curezone.com/upload/Audio/The\\_Good\\_Fight/SaraTestimonial\\_Part\\_B.wav](http://curezone.com/upload/Audio/The_Good_Fight/SaraTestimonial_Part_B.wav)

Ariel Felice Phillips (AKA Sara) was taken from birth from the Mayo Clinic in Minnesota by Josef Mengele. She was one of 5 identical multiple birth babies. She was born approximately in 1958 and her first memories were of her raped by Dr. Josef Mengele at the age of 3- approximately in 1961.

Sara was tortured severely with pain torture from being disjointed- where she would have her bones pulled apart by a torturer while Josef Mengele watched. According to Sara, Josef Mengele had great pleasure in watching this. The torture was applied to her as well as other children to brainwash and program them.

Sara had to witness her friends be tortured as well as be tortured. Josef Mengele was a pedophile and raped Sara at a

very early age.

She was implanted with an MK ULTRA BRAIN INPLANT via her nose and was part of the same MK ULTRA experimentation that was done in Montreal Canada. As many as 50,000 children died in Montreal Canada from the CIA MK ULTRA PROGRAM.

Josef Mengele lived in a home in Roswell Georgia very near the home of Teddy Roosevelt and continued MK ultra children experiments that dated back to his early twin torture in Nazi Germany.

Josef Mengele was an honored guest in the White House either by accident or by intent. Mengele was hired by the CIA for the MK ULTRA PROGRAM and that was done to combat the Russian/Chinese psycotropics work that was being done.

The torture to Sara is incomprehensible and she has been through extensive physical, mental torture.

Josef Mengele gave her a tracheotomy as one of his torture experiments on her.

Sara is incredibly brave and strong and was part of the 1977 congressional case that shut down MK ULTRA in 1977. Sara again tried to stop MK ULTRA in 1993... and today the world asks Sara to come forth to tell the horrors of torture that only could have been believed to have taken place in Hitler's Nazi Germany- not in Canada or the USA.

**18/2/08 -**

There may be some inaccuracies in my case summary. Could you/would you please cut and paste the summary I wrote in my <http://www.myspace.com/truthjusticeequity> blog? Since then, have been subjected to a wide variety of abuses, nearly every kind described by other survivors even audio electronic harassment, microwave assaults, infrasound, electronic rape you name it, income lynching, gang stalking.

Please note have been subjected to ongoing face to face torture, microwave assaults, infrasound, remote neural monitoring, V2K, children tortured and more ---continuing to this day. The name I live under is Tara Y. Potter. Was told my birth certificate is "deemed classified" I go by Sara in MN on the calls. Since I am fairly sure Sara is my first name, "Sara, surname and birth date unknown" may be a good title for me on the petition. If you think it wise to delete that I am an eyewitness to the Kennedy assassination, you have my permission to do so.

**22/5/08**

I currently have very little access to the internet. My new number is 218 736 7194. I am the survivor whose primary perps until 1983 were JMP and Hans Josef Mengele the infamous "twins doctor" of Auschwitz circa WWII--- nazi war criminal..... MKULTRA's activities included trying to breed (and control to the max) the caliber of scientific mind that could invent these weapons, many scientists in the US and abroad (of my generation) are survivors or products of MKULTRA. The program is very active and ongoing. I believe most perpetrators are operating under the lies and control of MKULTRA programming. With my back ground in law enforcement I think I can help get confessions out of these perpetrators and help to break the programming and lies they are operating under. I really hope to hear from you as I'd really like to feel I am doing something, anything to help. Iv sara

Ron Angell's account of my torture was not entirely accurate and I don't think we ever got that corrected. If the account isn't fully accurate, a good defense attorney could tear it apart in court, so let's get this right, Please. Thanks, sara in MN

To whom it may concern

In 1977 and 1978 I was sent with a team of Army Special Forces ostensibly to topple the bloody Idi Amin regime. We lost the elements of surprise, and so, did not follow through on that part of our mission. While we were there , we were also asked to distribute a new miracle lifesaving vaccine.

Our superiors were vague as to which disease(s) this vaccine was to prevent. The final protocol in testing we were told was to vaccinate a small group of people, then wait 48 hours to observe any adverse reactions before distributing the vaccine widely.

In good faith, believing the vaccine was safe, we vaccinated the majority of our party, including myself. After 48 hours had passed, over a period of two days, I believe we vaccinated 2000-3000 people. Eighteen months after we distributed the vaccine, we learned that 85 % of the people we vaccinated were dying of a dread new disease soon to be called AIDS.

Most of our Caucasian party became HIV positive but are still surviving. It is my belief that the United States Central Intelligence Agency succeeded in its stated purpose, (in subsequently leaked classified documents), of creating a pathogen deadly primarily to people of color. I further believe that the Agency succeeded in using our team as unwitting pawns in an unholy unconscionable act of genocide against the innocent people of Africa.

I do solemnly swear that the above is true and correct to the best of my knowledge and I am willing to be held accountable for the veracity of these statements under penalties of perjury in a court of law, before Congress, or the United Nations or before an International Tribunal. This is a crime against humanity of unimaginable proportions and I demand justice.

À qui de droit

En 1977 et 1978, j'ai été mandatée avec une équipe des Forces Spéciales De L'armée Américaine, apparemment pour abattre le régime sanguinaire d'Idi Amin. Nous avons perdu l'élément surprise, et ainsi, nous n'avons pas réalisé cette partie de notre mission. Durant notre séjour, il nous fut également demandé de distribuer un “nouveau vaccin miracle de sauvetage”.

Nos supérieurs étaient vagues en ce qui concerne la maladie ou les maladies que ce vaccin devait prévenir. Le protocole final consistait à vacciner un petit groupe de personnes, puis attendre 48 heures pour observer toute contre-réaction, avant de procéder à une vaste distribution du vaccin.

En toute bonne foi et persuadés que le vaccin était sans risque, nous avons vacciné l'intégralité de notre groupe, donc, j'y étais incluse. Passées 48 heures, en l'espace de deux jours, je crois que nous avons eu entre 2000 à 3000 personnes de vaccinées. Dix-huit mois après la distribution du vaccin, nous avons découvert que 85 % des personnes vaccinées étaient mortes d'une nouvelle maladie terrifiante qui sera vite dénommée sous le sigle SIDA. La majorité des personnes blanches de notre groupe sont devenues séropositives, mais survivent encore , à l'heure actuelle.

J'ai l'intime conviction que la CIA a atteint son but déclaré (dans les documents classés secrets, mais divulgués plus tard) de créer un pathogène mortel, surtout pour les gens de couleur. Nous estimons, par ailleurs, que la CIA a utilisé notre équipe, sans notre consentement, comme un pion sur l'échiquier dans un effroyable acte de génocide contre le peuple innocent de l'Afrique.

Je jure solennellement que la présente déclaration est véridique et exacte pour autant que je sache, et je suis disposée à assumer la responsabilité de l'exactitude de ces déclarations, sous peine de parjure, devant un tribunal, devant le Congrès, aux Nations Unies ou devant un tribunal international. Il s'agit d'un crime de lèse humanité d'une ampleur inimaginable et je demande que justice soit faite.

A quien corresponda

En 1977 y 1978 fue enviada con un equipo de Fuerzas Especiales Del Ejército, evidentemente para derribar el régimen sanguinario de Idi Amin. Perdimos el elemento sorpresa, y así, no llevamos a cabo aquella parte de nuestra misión. Mientras estábamos allí, también nos pidieron distribuir una nueva vacuna milagro salvavidas.

Nuestros superiores eran vagos en cuanto a cual enfermedad(es) esta vacuna debía prevenir. El protocolo final en pruebas que nos dijeron era vacunar a un pequeño grupo de personas, luego esperar 48 horas para observar cualquier reacción adversa antes de distribuir extensamente la vacuna.

De buena fe, creyendo que la vacuna es segura, vacunamos a la mayoría de nuestro grupo, incluyéndome. Pasar 48 horas, en dos días, creo que tuvimos 2000-3000 personas vacunadas. Dieciocho meses después de haber distribuido la vacuna, descubrimos que el 85% de las personas vacunadas estaba muriendo de una nueva enfermedad aterradora que será en breve nombrada como el SIDA. La mayoría de nuestro grupo de personas blancas se convirtió en seropositiva, pero aún sobrevive.

Es mi creencia de que la CIA ha logrado su propósito declarado (dentro de los documentos clasificados pero divulgados más tarde), de crear un patógeno letal sobre todo para la gente de color. Además, consideramos que la agencia ha sido capaz de utilizar a nuestro equipo como un peón involuntario en un inconcebible y descarado acto de genocidio contra el pueblo inocente de África.

Juro solemnemente que lo anterior es verdadero y correcto a mi leal saber y entender y estoy dispuesta a ser responsable de la exactitud de estas declaraciones bajo pena de perjurio ante un tribunal, ante el Congreso o la ONU o ante un tribunal internacional. Esto es un crimen de lesa humanidad de proporciones inimaginables y demando justicia.

A chiunque di competenza

Nel 1977 e 1978 sono stata inviata con una squadra di Forze Speciali dell’ Esercito, visibilmente per rovesciare il regime sanguinario di Idi Amin. Abbiamo perso l’elemento sorpresa e così, non abbiamo continuato quella parte della nostra missione. Mentre eravamo lì, inoltre ci è stato chiesto di distribuire un “nuovo vaccino-miracolo salvavita”.

I nostri superiori erano vaghi riguardo a quante e quale malattie questo vaccino doveva prevenire. Il protocollo finale in prova su cui eravamo informati era di vaccinare un piccolo gruppo di persone, poi aspettare 48 ore per osservare tutte le reazioni avverse prima di distribuire ampiamente il vaccino .

In buona fede, credendo che il vaccino era sicuro, abbiamo vaccinato la maggior parte del nostro gruppo, compresa me. Passate le 48 ore, nel giro di due giorni, credo che abbiamo vaccinato 2000-3000 persone. Diciotto mesi dopo che abbiamo distribuito il vaccino, abbiamo saputo che il 85% della gente che abbiamo vaccinato stava morendo di una nuova malattia spaventosa che verrà rapidamente denominata come AIDS .

La maggior parte del nostro gruppo di bianchi è diventata seropositiva ma sopravvive comunque. È la mia opinione che la CIA sia riuscita a raggiungere il suo scopo dichiarato (nei documenti classificati successivamente divulgati) di generare un agente patogeno mortale soprattutto per la gente di colore. Inoltre credo che l’agenzia sia riuscita ad usare il nostro team come pedine inconsapevoli e non consenzienti in un inconcepibile atto sfacciato di genocidio contro la gente innocente dell’Africa.

Giuro solennemente che quanto sopra è vero e corretto al meglio della mia conoscenza e sono disposta ad essere giudicata responsabile per la veridicità di queste dichiarazioni nell’ambito delle pene di spergiuro in un Tribunale, davanti al Congresso, o alle Nazioni Unite o davanti un tribunale internazionale. Questo è un crimine contro l’umanità di proporzioni inconcepibili e richiedo giustizia.

I have noticed you write severely well even about crimes which are usually impossible to be described in a manner that people would not scoff at, laugh, or express some other reaction which means 'no way'.

Would you mind writing about the crimes I suffer for me, like a standard letter, rogatory, for help, directed to politicians, then federal cops, then academics, doctors, then solicitors, then members of the general public?

Apparently you are living suffering atrocities, but I am not really sure I have understood.

Have you had any CT scans? Do you identify the object in your head?

Feedback from doctors?

Do people believe you?

Please answer me.

If I go to the USA, then I can do what James Walbert has done at least to save myself from dying like this.

Problem is that I am victimized heavily where I am, also communication-wise, for several years.

I got job offers in the USA, but they came via letter.

I also got witnessing letters from Brazil, but, not mattering what we tried, they always stole (even fax). We tried more than ten times to get them from here... .

I would like to know if you guys could agree on letting me stay with you, helping me with food, accomodation, and a letter of employment (nanny, cleaner, or alike, so that I get a VISA to work there) until I get at least an academic job in the USA to hang on to and can fight for myself.

I will fully refund you on your expenses once I get that, I promise, and my achievements in Academia are outstanding, so that it should not be hard to get a job there (already got at least one, which was stolen because of crime against my communication lines).

I am Australian, therefore I can visit the US without a visa, but this visa does not allow me to stay there for more than 3 months or work.

I am thinking of finding funds through some other means to get tickets covered and then do like that.

What do you think?

All needs money and my situation really does not allow me to afford anything. The crimes are unbelievable, last for more than ten years, and I really do not seem to have any chance, not even of fighting for my rights, in Australia.

I already got inserted in a databases for tutors in the USA and they do send me jobs continuously even with me in Australia... .

This is so hard! I have mailed things and begged for help for so long. Today I talked to Jeff in CA about helping with the documentary, and my computer was invaded and I am so sick from sudden blasts of microwave energy. They have me completely isolated, and homeless at this point. I was hoping to work for someone who is helping this cause in exchange for a room and board, but I don't even have enough money left to get anywhere. My houses, my business, my bank accounts. . .even my medical records have all been sabotaged. I just keep writing in my blogs and trying to put the info out there, because it appears that they are going to finish killing me anyway. But I pray so hard for a way out of this situation and this country. They perceive me as too much of a threat to their whole destruction program, since 2005, to ever let up on me or let the public see the documented evidence of the disasters they have created in my life. My whole neighborhood was destroyed in a bizzar flood, which I feel sure they created. The last house I'd owned was destroyed in a suspicious fire. My first home was taken by the government, supposedly to move a road that never needed moving. There have been several direct attempts on my life. And I am at the end of the line.

So, please tell me, is there any real hope? If I send this letter, can they help me RIGHT NOW?

**5/4/12**

I had severe attacks in 2001 and extremely bad since 2005, but I think it actually started as experimentation in 1985 after a minor surgery on my spine. . .and then they put me on the hit list in 2001, because . . .well its a long story.

I will send the letter as soon as I get my income tax check. I already have it written. I have little hope for it's outcome to be in time to help me, but I'll send it for the cause.

I am pushing hard to get the word out with this blog

[www.technologicalholocaust.blogspot.com](http://www.technologicalholocaust.blogspot.com)

Does it seem OK to you? Is there anything you'd change to make it better?

Its difficult to be researching and pulling together info, while being under almost constant attack, so this is the best I can do right now. They keep blocking me, even took over my fb account...etc. They are going to have to kill me to stop me though, because enough of my life has already been destroyed that I have nothing left to lose except my life itself. Every time they attack me for putting the word out I spread it even further. I'm angry and hurt and fed up and am channeling my anger into a fight for publicity, although they already slandered me in news papers and radio in 2005, in order to destroy my publications. Don't know what else to do.

**14/4/12**

I sent the following letter to several places in different ways . . .

April 1, 2012

The United Nations High Commissioner For Human Rights  
Office of the United Nations High Commissioner for Human Rights (OHCHR)  
Palais des Nations  
CH-1211 Geneva 10, Switzerland

Dear Human Rights Advocates,

THIS IS URGENT!!! This letter is to ask for protection for myself and other individuals who are being held under intrusive surveillance and continuously attacked with Remote Electronic, Directed Energy Weapons...etc. (Many of us have had microchips implanted into our bodies, without our consent, which enables these technologies to be used on us) These crimes against us also include the drugging of drinking water, organized stalking 24 hours a day, threats against our lives and that of our loved ones, attempted remote electronic mind control techniques. . .most of

which are inhumanly painful and debilitating on both psychological and physical levels. My words can not express how horrible this is and how detrimental it is that you feel the validity of this plea for help!

I can not offer you immediate proof of what is happening to us, but proof of the capabilities of such technologies and operations, which are being used against us, IS in documented existence. Time will surely bring this into deeper levels of awareness, but we can not afford that time. So, I ask that you PLEASE listen to your own heart and instincts, on this critical issue, because time is of the essence, and a wait for concrete proof/evidence could enable thousands of innocent people to be mutilated or murdered, instead of protected and saved.

It is also imperative, that you listen to your own instincts and heart, instead of looking for credibility in me or any other victim of these crimes, because those of us who are becoming aware of what is happening are being intentionally slandered, discredited, tortured, drugged and silenced in ways that are usually too deceitful to be fully recognized, at this point in time. ( some of this is being done with Hitler-types of techniques on top of technologies that make it easier for the silent/secret success of such criminal activity.)

My experiences have also shown me that Lupus is being created by remote Directed Energy Weapons, which are being subtly used against masses of innocent citizens. So there are also thousands of victims who are being murdered in the USA and are not even aware of what is happening to them. Those of us who do realize what is happening are being literally tortured and murdered - silenced in ways that APPEAR like a natural death or like e are just mentally unstable. ( I can honestly say that I wish this were just my own insanity, because I feel sure that it would be a lot easier to deal with insanity, than it is to be facing the reality of these tortures.)

Please help protect us as quickly as possible. Our situation is beyond desperate!!!

The primary establishments that are set up to help "Targeted Individuals" in the USA, appear to be a hoax to rope us in, remove micro chip evidence and alter medical records...etc., in those of us who are becoming aware of what is happening. They are also starting to advertise these PROVEN technologies, which they use to torture us, as being "on the horizon" for help with "preventing terrorism", when they are actually already in FULL USE through AT LEAST two decades now, and are secretly being used in ways that are harming masses of innocent people.

I was a writer, a social worker and a mother of two children, (certainly no threat to my country in any possible way) but I am now a victim of around the clock surveillance, organized stalking and remote electronic intrusions into my brain as well as painful remote electronic attacks on other parts of my body and biological warfare...etc. I am fighting to survive, but am losing the battle. I have reached out for help in every possible direction, over and over again, and attacks increase each time I call the FBI or police, who either refuse to help me or do not even file reports...etc. These crimes are not being recognized by law enforcement agencies and some laws seem like they are even set up to enable this lack of help for victims of these gruesome crimes against humanity.

My situation is desperate - I am in need of immediate protection. My homes and businesses have been destroyed and new jobs are being sabotaged almost as soon as I get them. My last neighborhood was destroyed in a strange flash flood, which appears to have been unnatural. (four of my neighbors were killed) The last house I'd owned was destroyed in a suspicious fire. My first home was taken by my own government, in order "to move a road" that never needed moving. . .during this process they destroyed my in-home business and never compensated me for it. My vehicles have been tampered with - brakes suddenly let go, engines destroyed, window smashed out, air let out of tires, oil filter unscrewed...etc. My phones and computers and emails are often tampered with or destroyed...etc. The incidences are too many to fully list here. But this gives you the basic idea. I have been living an absolute hell and am in a dangerously vulnerable position! (THERE ARE MANY OF US WHO ARE IN SIMILAR SITUATIONS.)

I feel like a caged animal who is being mutilated in a country that boasts of freedom! There is no freedom for us here. . .and no help or protection from these utterly inhumane atrocities! And, as I said, I am just one of too many to count. We ALL desperately need help. We need protection. And we need it as quickly as possible. We are being tortured and murdered, both physically and psychologically!!! Please help us, Please!

**LETTER TO INTERNATIONAL CRIMINAL COURT**

Dear M.P. Dillon and human rights team,

Reference # OTP-CR-70/07

I am a victim of remote electronic torture and remote mind control technologies as well as crimes committed by organized stalking groups. I have sought help from every possible source, including state police, FBI, and even the president of the USA. . .and my situation remains critical with no help in sight. My homes, businesses, jobs and vehicles have been destroyed by Hitler-style tactics! My life has become like a holocaustal nightmare. **I feel that I will not be able to survive this for much longer. . .and I fear for the thousands of victims who are also being tortured and literally destroyed and do not realize what is happening to them. These victims include members of my own family, whom I can no longer reach due to heavy targeting and threats to kill my children if I go near them...etc.**

**Words can not express how critical my situation is. Time is running out us for me. I beg you, PLEASE help me and other victims of these atrocities as quickly as possible. PLEASE!!!!**

**List of 3 victims who were murdered**

My little brother Kevin LaBree who called me in 2001 to tell me "something weird is happening..." then he suddenly died in mysterious "accident"

My mother Yolande Coache LaBree (from Canada) was a TI who suffered with unusual double strain of leukemia after being targeted for about three years.

Jim Baker suddenly died of a heart attack as he aimed to help me in 2001 just before my house was set on fire...etc.

I know of more than a dozen other people who were killed, including my cousin directly after my brother's death, which appeared to be a distraction from investigations. I am not good with remembering names because they have tried to wipe my memory out, because of so much proof through my past. But every now and then a new memory comes back. Anyway, could you add these three to your list?

**12/6/13**

I have become too ill to continue with much of this. My stomach has been being lasered and I am in much discomfort and am passing blood... Am getting very weak. If this continues as it is I will not be alive much longer. Below is my final statement and you have my permission to share it with anyone whom you think could really help end these crimes against humanity. Please read my note to Targeted Individuals on my blog: <http://sharonpoet-ti.blogspot.com/2013/06/final-messages.html>

**My Final Statement (believe it or not):** I believe that my family has been used for remote technological mind control experimentation since at least the mid 1970s - that MKULTRA never truly stopped and was being conducted at the Hillsborough County Nursing Home and prison facility in Goffstown, NH - where I worked at 15 years old. I believe that the MKULTRA program continued under the mask of Stargate. I believe that EVERY one of my family members are victims of remote microwave mind control - some worse than others. I believe that a more lethal targeting swung onto me since I began unwittingly figuring out what was happening. The core of this targeting appears to be inflicted by some sort of satanic occult. My relationships, pets, homes and jobs have been being destroyed since the early 1990s. I am often hit with nearly debilitating levels of microwaves and have had microwaves driven into my head so intensely that it has induced unbearable pain, vomiting and either loss of balance or consciousness. I have been periodically shot with what appears to be some sort of laser weapon. I am a victim of microwave mind control zombification. I am a victim of satanic organized stalking and harassment groups since the late 1980s. Since around the year 2000, I am almost constantly stalked, psychologically harassed and threatened by satanic groups as well as what appears to be community watch and law enforcement groups. My children have also been targeted to the point of hospitalization with sudden unexplainable neurological problem, being drugged and raped, and severely brainwashed although they seem to not remember or realize it.

The remote technological targeting and localized group stalking and harassment has followed me to Canada, Peru, Mexico and through many USA states including Hawaii, Vermont, New Hampshire, New York, Massachusetts, Florida, North Carolina, Utah, California, Arizona and New Mexico. There seems no escape - no safe place to go.

There have been at least four times when I've been drugged and raped by those who target us. I have received many threats against family members and believe that four of my family members, at least one friend and several acquaintances were inconspicuously murdered by the criminals who target us.

I have begged, over and over again, for help from law enforcement, FBI, local and international human rights groups and President Obama. . .with no positive results. I am being remotely tortured with directed energy weapons on a regular basis - severely since 2005. I am suffering indescribably. My health continues to fade on every level. I am dying - I am being slowly murdered in a way that will appear to be a natural death. I am a Targeted Individual. I am a human being. I do not deserve this.

My birth name was Sharon Y. LaBree. My married name was Sharon Buck. My Pen name was Namatari. My legal name is now Sharon R. Poet. Due to the targeting I am now living in my car, but I am still a real person who should matter. I was born and raised in the USA - my mailing address is PO Box 383, Mont Vernon, NH 03057. I am in desperate need of substantial amounts of financial help, in order to even have a CHANCE of surviving this for much longer, but am tired of asking for it.

**31/10/14**

### **Update on testimony of Targeted Individual Sharon R. Poet;**

The past few years have been a process of my trying to figure out why and how I am being targeted. . .as well as when it all began. Doing this, WHILE still being targeted, has been close to impossible. But between rounds of heavy targeting I've been gradually realizing and remembering increasing amounts of it. (Please understand that discrepancies in my writings are a reflection of this grueling process as well as alterations by those who target me and infiltrate my computers and web sites.)

I now believe that I have been being targeted, by what appears to be some sort of satanic occult, since I was at least 11 years old (since around 1970). My life, since then, has been repeatedly infiltrated and manipulated by them and what appears to be other covert groups that they utilize. The scope of the destruction they have caused in my life is so huge that my writings only contain parts of it. It often feels difficult to explain, because I do not fully understand their methods and reasons, and trying to process my own experiences and feelings (which are sometimes too painful and overwhelming) between being hit with heavy rounds of psychological harassment, microwave and/or laser weapon attacks and mind control technologies, is difficult to say the least.

But I have fully realized that the goal of those who target me is to inflict extreme psychological and physical hardship and to destroy my reputation through manipulating my life in ways that make me appear to be immoral and/or criminal. This has been being done through what appears to be false rumor campaigns and attempts to frame me as well as mind control inflictions (brainwashings) and even episodes of drugging and raping me...etc.

The targeting has infiltrated and/or sabotaged every aspect of my work and relationships and has harmed and/or brainwashed many others in this process. (My loved ones have also been targeted.) Since the early 1990s I have been experiencing a hell that most of you probably cannot even begin to imagine.

The first few decades of the targeting were so deceitful and so covert that I did not start realizing it until 2005 - after they had succeeded with financial ruin and with isolating me from all possible sources of help. This is when they vamped it into more obvious levels. Since then I have repeatedly reached out for help, in every way that I know how, and have found no one who is willing or able to

stand up against these crimes and help to expose and end them for all our sakes. Even my process of trying to attain help from a few decent people in the FBI appear to have been targeted in ways that appear to be infiltrations into the agency, and targetings of them, as well as through lasering my brain, in order to interfere with my reports and trigger extreme levels of anger toward them at strategic times. (It appears that it is not even safe for the FBI or foreign human rights organizations to stand up for/with me. . .and this is disconcerting to say the least!)

Though the mind control part of the targeting sounds unbelievable, the Truth is that it is the key element that makes it all succeed and prevents help and is in DESPERATE need of public realization.

Lately I am feeling too hurt and trapped and hope for my psychological survival is fading. I am in desperate need of honest, genuine, safe NON-covert protection and help, and for these crimes to be exposed and stopped, so that I can have a chance to recover and then freely live my life and do my work without criminal interference. I pray for this every day. . .and for humanity to be saved from these sorts of targeting, which appear to be rapidly growing/thriving, due to the secrecy that protects them. Please do all that you can to help expose and stop these crimes.

If you are willing to include the names of deceased victims in your list, please add Richard Polachek. He was my half-brother. I never knew him but he spent most of his adult life in mental hospitals, and I only realized recently that his symptoms were those of mind-invasive neurotechnology. A relative who knew him much better than I did confirmed that they suspected for a long time that he was a victim of government experimentation.

Just read the article written by Cheryl Welsh. Symptoms. I am really hurting and I need help. I have been involved in a very vicious program for a long time. I have noticed family members swayed with memories and facts. I personally could not put all my symptoms in this short brief. I endure the verbal and physical control. Not mentally ill nor do I intend to continue to be pushed in this direction. All thoughts and emotions, habits, life style, word use etc. is recorded and used against me, through me, linking or threatening to link me to people I care about or encounter. My concern is for my physical health and that of my family, friends and loved ones. Still grateful I am capable of writing but I realize I might be "penalized and punished" for writing for help. I need directions for contacting the correct people for assistance. Please contact me.

24/3/12

**Opt-Out Declaration:**

Keep fighting. Just fight. What am I fighting for? My sanity. My physical & neurological well being. Fighting to keep my head above water. Fighting to keep my coordination keen. Fight to have follow through original

thought. Fight to tolerate, calmly, the interior torture harming my organs. Fight to sit at my computer and maintain my balance, my composure, keep a grip on my anger and still look forward to another day. I fight to type through the pain inflicted upon me from government approved experimentation. Fight through the burn at the back of my neck, weakening my arms. Fight through the 'energy' increased or decreased throughout my body dependent upon the whim of a sick son of a bitch with a dollar bottom line.

Does the US government really approve and support this torture? I hope not. I intend to continue writing until this very real abuse ends.

Cannot truly testify this is internet described 'satellite torture'. The powers that be have the ability to damage, dehydrate & drain a human being. Any body part or function is easily manipulated. Who is allowed to delegate mental illness, physical disabilities or create diseases? Who has this god like technology? Yes, I realize many countries have this technology. The big question, nearest and dearest to my soul: Who is using and abusing this technology? What government agency is investigating my allegations? Who is trying to help me?

Symptoms? The antagonist has the ability to physically control all or part of body movement. Absurd vaginal bleeding. Control over sleep. One moment I feel alert, almost rested. Next moment, huge fatigue, I can barely lift my head. Very painful, and damaging, buzzing through my ears. I feel as if I am being dried from the inside out.

Most important concern is for my family. Via the verbal aspect I am threatened by "strings attached" to common daily activities. Example: If I use my electric toothbrush someone will break out in tears. This type of intimidation escalates to a level that is very emotionally and physically painful/draining. I have observed tremendous mind changing with family. The goal: Isolate and control. Control being the key word.

Verbal harassment began around 2004. I have told no family members. My decision not to tell was not due to fear of ridicule or label mental illness. My decision is strictly based on my theory - observe and hope no one else is involved. I realize this is not very scientific but I am not a scientist.

I, Sharon Pollen certify that my decision to "opt-out" or discontinue participation in this human experiment is without the intervention of any element of force, fraud, deceit, duress, coercion or undue influence on my decision. I am requesting to "opt-out" or discontinue my participation because of my rights as a human subject as stated in 45 CFR 46 116 (a) (8). This request includes all of my immediate family members (parents, siblings, my children, my granddaughter, my ex-husband and his family) who might have been thrust in this unethical, human subject research/experiment without their consent or without their knowledge.

I fight for myself with gallons of water, healthy eating and good vitamins. If I continue fighting, by myself, this technology will win.

Take all these words to heart. If this can happen to me, it can happen to you and yours. I cannot fight this alone. I do not wish to live my life defensively.

I appreciate you taking the time to read and consider the contents of this letter. I hope you can assist with ending this pain.

Sincerely,  
Sharon Pollen

**25/4/12**

I realize you are a busy person receiving tons of email daily. I have been an unwilling 'experimental subject' for a minimum of 16+ years, of Remote Neural Monitoring...but on steroids. Verbal & physical assault 24/7. Years ago, full motor control of my entire body. If you want details, I will be happy to supply.

I have written to every agency, department, politician, expert.... for many years. I need this to end. How do I stop the hell? Who do I write to? I feel as though I have been placed on somebody's extermination list.

Hope to hear from you soon.

Thank You,  
Sharon Pollen

Hi. My name is Denise S Pompl I live in New York City and we have about 15 people in the area that I am in contact with and tomorrow, Aug. 8th, a few of us will go to a court to support a similar case as ours. The name is Debbie and John Mecca against the United States government for harassment. I will let you know the outcome and I am also doing a mass petition, writing to all US and European consuls for human rights.

**Date: August 9, 2007**

To Whom It May Concern:

I have been a victim of Directed Energy Weapons, Remote Harassment, and Organized Stalking since 1995. The phenomenon is real. It includes psychological harassment to induce psychosis, isolation, depression, and suicide; physical and emotional manipulation; and devastation of financial and social resources.

My story is not yet in sufficient state to be published, but I do participate as an activist against these crimes, I do have relevant testimony to specific instances of harassment, and I have meticulously documented each occurrence of these assaults. To hear my story would be terrifying and bewildering to an audience unaware of the specifics of these crimes so I will reserve it until I can clearly, coherently, and efficiently speak about them.

Nobody is above the law, yet some group or agency out there believes them to be. This is not right!

My Constitutional rights have been trodden upon: my 4th Amendment right has been abused, my 5th Amendment rights disregarded; and if this terrorism is meant to be some sort of "criminal punishment" for perceived wrongdoings, then my 6th and 7th Amendment rights have been completely eradicated. And due to the constant suffering under this campaign which includes hundreds, perhaps thousands of victims nationwide, our 8th Amendment right has been outright dismissed.

This is indeed, cruel and unusual punishment.

I am also being denied my Constitutional right to pursue happiness. This torture (from a remote, undetectable source) is constant 24 hours a day, including while asleep;½thus preventing me from finding emotional and psychological equilibrium, which takes its toll on my health, well-being and ability to be a productive member of society. Medical, psychiatric, or social services are generally unhelpful or serve to alleviate only a few of the many symptoms that arise from these assaults; remember, the attacks are ongoing.

The use of directed energy weapons, remote harassment, and organized stalking are quite plainly unlawful, criminal acts. I am treated as a political prisoner or worse, as a common lab rat, not even human. And that this is happening on American soil, to innocent American civilians;½some victims former members of the military;½is unconscionable. Legislation must be enacted to increase awareness of this hidden menace and to outlaw use of these weapons. Only through making the use of these weapons illegal will we be on our first step to alleviating this highly organized form of domestic terrorism.

I refuse to surrender my freedom and I demand justice!

For listening to my story and for your support and help in legislation and enforcement, I greatly thank you.

I came across your detailed article over the internet on ESMC:

<http://educate-yourself.org/mc/kirklandsilventmasaccre1part14mar09.shtml>

Because this article was written nearly 5 years ago, I'm not sure if the groups that you have mentioned are active and still in action.

I have been a victim only since the last year (starting Jan 2013), which I'm pretty sure since it all started after I got active on facebook (being nearly dormant for over 4 years). And a colleague from the past (around 8-9 years ago) started turning up on my facebook chat without a word everytime I logged in. At this point, I would like to add that we both are married to different people and have kids. I felt myself falling in love with him presuming he was online only for me because you used to like me in the past. With no direct communication, he used to post cryptic messages on his wall or comment on links which I knew were only meant for me. I started feeling some kind of telepathic communication with him, especially in sexual front. I thought it was natural and because of the "connection" that we shared I was able to feel his sexual desires / feelings and vice-versa. After 6 months or so, his behavior was odd and I tried to initiate direct communication with him, he did not respond. And with various clues & hints I was perceiving, I thought the guy was acting like a player and manipulator, inspite of feeling love for him. I cut my facebook contact, tried to give it time, see how the feelings change and limited my facebook activity.

After this, I started getting timed physical signals (in the form of different variations of cough) and had an odd intuition that the guy was stalking me in every possible way (hacked into my PCs, my internet tv, my iPhone etc.).

There were sexual dreams and some mind-fucks where I saw his images. At one point, I started talking, around the end of October 2013 asking if he was seeing me & hearing me. He said that he would like a future with me (at this time, communication was in the form of yes-no for every question that I ask - a cough would mean 'yes') and he was forcing me to give an yes. In 3 days time, things changed and multiple people started talking to me saying it was all a big ploy and I was raped by some of my ex-colleagues and they were using latest technologies. Over the last 3 months, I have been through HELL, researched as much as I could on the internet, driven crazy by whatever was happening to me. At one point I discovered, it was all happening in the mind, then the communication took the form of voices in head and me responding vocally or in the form of thoughts. I feel lucky to have survived up until this time with most of my "normal" life intact - my job & my family, given the extent & number of hallucinations & delusions that this took me through. Finally, in the last one month, I have realized I have become a CIA mind control victim and I was driven to the breakpoint (where I would lose my mind or commit suicide or my personality would break into multiple unable to take the emotional trauma). I do not wish to go into details, I'm just giving the outline. At present, since I have discovered the truth, I'm trying to cope up as much as possible and will to survive atleast for the sake of my kids.

My main point to convey is (I'm a computer programmer - I have a bachelor & masters degree in computer science), about my understanding of the technology that is being used for such ESMC. Because my experience is / was sexual in nature, I was able to find out some technology called "radionics". I was able to taper down to this

one sine there are instruments & devices being sold in the name of radionics for achieving such things and my own experience of psychic seduction. Also, I strongly believe, its NOT that a single person or a team of people are interacting with each subject personally - its has to be some kind of Artificial Intelligence (AI) program that is installed on your brain, that operates as a part of victim's own mind. And this gives the illusion of getting stalked 24/7. The experimenters (may be one or a small team for one subject) have external controls that can modify the inputs of the AI program or decide which algorithm that AI program must run in order to achieve "whatever" their experiment requires. They have simulations of almost all of the subject's mind and I call some simulations as spells (feel good spell, despair spell, make cry spell, hopeless spell, love spell, lust spell, make-believe spell etc.). They put in thoughts into head and alternate the spells and I found myself reacting in a different way (response) for the same stimulus amidst alternating spells.

I wanted to share my experience and my understanding on how this mind control operates. I would love to join your groups or forums if they are active. Please reply, looking forward.

Thank you.

I was walking home from school when a shady looking fellow passed by and directly blew smoke into my face. When I got home my nose/sinuses flared & began to stuff up. That night it got to the point where I could not breath through my nose. I was sent to the hospital where they immediatley decided to perform surgery to remove "adenoid flare up". And that was the end of my life. I have been a prisoner of these kooks evere since and have only found out recently what this entails.

Most people don't think it is an implant, because it scares them.BUT THAT IS EXACTLY WHAT YOU PEOPLE HAVE. Government, special Interest & certain college cricles are in on it, and they don't care about anyone except themselves. I have gotten the worst this implant can offer: raped (anal, oral) tortured (all types of pain, maiming/rewiring my brain WRONG), maimed (stuck there finger in my ribcage for years, molding a finger-size dent), Broadcasting my thoughts, "hooking me up" (hearing voices), dislocating my knee when I was serving in the Marine Corps (destroying my career) and that's just the tip of the ice-berg.

They claim they haven't killed me yet becuase of the "Statute of Limitations" here in America. I ask them why didn't they just let me go in the military over to the middle east and die over there and they said "we wanted to torture you and make you commit suicide."

The original reason they targeted me was because they said I was "non-jewish" and a "solid" white supremacist (Skin head)/ straight-edge. But because that is an inconvient reason for them, they have tried, and failed, to label me a terrorist, pedophile and sadistic anti-semitic murderer. But I certainly will prove the last one.

I am there worst nightmare because I know how to extract the implant and stand against everything they are for. They have tried to censor me everywhere I go and sabotage me socially through the implant. I am here to help people regardless of what you have been "accused of". I don't care what they say, I don't believe a damn word they have to say. They are liars and children & minions of the devil and I am going to destroy there system of Mammon.

I can help you get out. Contact me.

All my life I've avoided chemicals and radiation and have enjoyed good health but -- I have been living in a nest of drug making, dealing, car thieves which includes police and firemen for the last 20 years but it was only when i tried to help a helpless 80 yr old lady who was being what I learned later as gangstalked. She was sprayed while she slept with chemicals meant to kill her. Then they were hitting her with various weapons and microwaving her.

When she moved away, they started on me, now I have no home, no job and they microwaved me so that I no longer live a day without pain. When I go back to my home to check on things, within 10 minutes, someone is on the roof monitoring me. They have weapons that can make the attic freezing cold, they can shoot you within something with an electric thud right in the chest and some kind of heated energy weapon they move around different parts of your body. Then they hit me with a massive dose of microwaves from a distance. That was after they sprayed me in my sleep twice and caused bronchitis. I'm spitting up blood now and can't get well.

If there is a list of people who are being gangstalked and hit with these weapons, please let me know. They have totally taken over my life, They came in while I was sleeping, made a copy of my driver's license, cut it out and put it on my desk, they took my keys to home and car and sometimes move my truck from one parking space to another when i'm away from home just to know they know where i am. I am glad to know there are others who understand what I'm going through.

I wrote William that we need a wearable antenna which would catch the energy pointed at us and send it away from the body or back at the weapon pointed at you.

Do you know any scientists among the bunch who could invent such a device? That is what I am researching right now. My brother is a microwave communications manager who used to work for WorldCom. I haven't seen him in a while but as soon as get a hold of him, maybe I will understand whether a wearable energy deflector would be a possibility. I am thinking of a device which could be set near you or on your head like a hat which would attract any incoming radiation and deflect it upward or back toward the shooter. There must be 21st century answer for our 21st century problem.

**They're torturing me, Honduras' Manuel Zelaya claims**

<http://www.miamiherald.com/1506/story/1248828.html>

by Frances Robles

"I prefer to march on my feet than to live on my knees before a military dictatorship," Zelaya said in a series of back-to-back interviews.

Honduras' ousted President Manuel Zelaya, talks while a supporter rests inside the improvised room in the Brazilian embassy in Tegucigalpa, Thursday. It's been 89 days since Manuel Zelaya was booted from power. He's sleeping on chairs, and he claims **his throat is sore from toxic gases and "Israeli mercenaries" are torturing him with high-frequency radiation.**

"We are being threatened with death," he said in an interview with The Miami Herald, adding that mercenaries were likely to storm the embassy where he has been holed up since Monday and assassinate him.

Zelaya was deposed at gunpoint on June 28 and slipped back into his country on Monday, just two days before he was scheduled to speak before the United Nations. He sought refuge at the Brazilian Embassy, where **Zelaya said he is being subjected to toxic gases and radiation that alter his physical and mental state.**

**Witnesses said that for a short time Tuesday morning, soldiers used a device that looked like a large satellite dish to emit a loud shrill noise.**

Honduran police spokesman Orlin Cerrato said he knew nothing of any radiation devices being used against the former president.

"He says there are mercenaries against him? Using some kind of apparatus?" Cerrato said. "No, no, no, no. Sincerely: no. The only elements surrounding that embassy are police and military, and they have no such apparatus."

Police responded to reports of looting throughout the city Tuesday night. Civil disturbances subsided Wednesday afternoon, when a crush of people rushed grocery stores and gas stations in the capital.

Israeli government sources in Miami said they could not confirm the presence of any "Israelis mercenaries" in Honduras.

Zelaya, 56, is at the embassy with his family and other supporters, without a change of clothes or toothpaste. The power and water were turned back on, and the U.N. brought in some food. Photos showed Zelaya, his trademark cowboy hat across his face, napping on a few chairs he had pushed together.

"Look at the shape he's in — sleeping on chairs," de facto President Roberto Micheletti told a local TV news station.

Micheletti took Zelaya's place after the military, executing a Supreme Court arrest warrant, burst into Zelaya's house and forced him into exile. The country's military, congress, Supreme Court and economic leaders have backed the ouster, arguing that Zelaya was bent on conducting an illegal plebiscite that they feared would ultimately lead to his reelection.

Micheletti said he was prepared to meet with Zelaya and a delegation from the Organization of American States, but only to discuss one topic: November elections.

On Wednesday, the U.N. cut off all technical aid that would have supported and given credibility to that

presidential race. Conditions do not exist for credible elections, U.N. Secretary-General Ban Ki-moon said.

“I proposed dialogue, and they answered with bullets, bombs, a state of siege and by closing the airport,” Zelaya said.

Zelaya told The Herald that Washington should be taking a stronger stance against the elite economic interests that “financed and benefited” from the coup that ousted him three months ago.

If President Barack Obama hit Honduras with commercial sanctions or suspended free-trade agreements, the coup “would last just five minutes.”

The Obama administration suspended economic aid to Honduras and withdrew the visas of members of the current administration.

About 75 percent of Honduras’ commerce depends on the United States, Zelaya said. And because powerful economic forces were behind Zelaya’s ouster, Obama should hit those forces where it hurts most, Zelaya said.

“I have told this to Obama, to Secretary of State Hillary Clinton, to the U.S. Embassy here and anyone else who will listen,” Zelaya said. “They know how to act. Until now, they have been very prudent.”

With Micheletti showing a new willingness to talk with the OAS, and the U.N. Security Council set to meet to discuss the embassy situation soon, it isn’t the moment for more penalties, the U.S. State Department said.

“Right now, when there are openings for dialogue, is not the time to announce new sanctions,” a State Department official said.

Dates for the OAS visit, which could include emissaries from 10 countries, are being worked out, the official said.

Spokesman Ian Kelly said the U.N. Security Council meeting came at the request of the Brazilian government. No date has been set for the meeting.

“In general, we continue to work with our partners in the U.N. and the OAS to come up with means to promote a dialogue and defuse the tensions, of course with the ultimate goal of resolving the crisis,” State Department spokesman Ian Kelly said at a media briefing in Washington. “And we’re continuing our consultations with our partners in the region, and enlisting wherever we can their assistance in this process.”

The U.S. Embassy here spent the day denying rumors that Zelaya planned to move to American grounds. The rumor may have started because U.S. Embassy vehicles were used to evacuate Zelaya supporters who left the Brazilian Embassy willingly Tuesday.

“The embassy has been turned into a bunker for Zelaya,” Assistant Foreign Minister Martha Lorena Alvarado de Casco told The Herald. “He’s turned it into his headquarters, and he is using it to call for insurrection.”

Brazilian Foreign Minister Celso Amorim told CNN en Español that his government asked Zelaya to tone down his rhetoric while he remains an embassy guest.

“The word ‘death’ should not even be mentioned,” he said.

Rioting broke out in various parts of the capital Tuesday night, and lines hundreds deep formed at supermarkets when desperate shoppers scrambled to buy food after a round-the-clock curfew was briefly lifted.

“I have no food in my house,” said Patti Vásquez, a housewife who, after two hours, still had not reached the front doors of a supermarket in an upscale shopping mall. “I need to get milk and juice and eggs.”

Zelaya says he has no plans to leave the embassy anytime soon.

“I am the president the people of Honduras chose,” Zelaya said. “A country can’t have two presidents — just one.”

Miami Herald staff writer Jim Wyss and special correspondent Stewart Stogel contributed to this report.

The Newfoundland Dept. of Justice have now charged me 5 times, taken me to court many more times and abused their power to persecute me for telling the truth while they ignore the facts and the reports of the crimes committed against me and my family. I've never been convicted of doing anything wrong. They investigate for the truth they want to have and see, only. How does a person get justice in this country, I'm doing what the law states I should do, Report a crime if I know of one, give the evidence and the name of the perpetrators. Than they keep arresting me and try to destroy me in every way, I've been abused by every part of our system that can get an opportunity, I've had enough of the abuse and I deserve Honest Results. My next court date is July 23/08.

WE HAVE A LEGAL SYSTEM WITH NO JUSTICE, AND A CHILD RAPIST IN CONTROL WHEN T. ALEX HICKMAN, GRAND MASTER FREEMASON, WAS ELECTED JUSTICE MINISTER IN SEPTEMBER 1966, IT STARTED A LEGAL SYSTEM WITHOUT JUSTICE, WHICH REMAINS IN PLACE TO THIS DAY.

Politicians names and faces change in Ottawa, Ont. and St. John's, NL. but the Corruption continues to rule our country. I spent from April to October, 06 , 7 months, in Ottawa, on Parliament Hill, with permits, handing out 12,000 information sheets, and 7000 more in Newfoundland, about what happened to my family and still no-one has resolved this INJUSTICE. A simple DNA test would see Justice served. The system protects the Criminals and itself, not the public or victims.

**15/4/09**

Thank you for caring and please pass on our message to everyone you know, public support is our only hope for Justice.

My family was destroyed as young children by Incest, Child Rape and Abuse of every kind in a small town of 2500 people. Supreme Court Judges, Politicians and RCMP are involved and in a position of " Conflict of Interest" and pay a hooker, their mother, to keep quiet, in this case, in Newfoundland. Their names and why are evident on Harrietts Customer List at this Website; <http://maxpages.com/sexualabuse> &

Before our Premier Danny Williams entered Politics, he and his Law Firm represented me, when he was elected his Firm returned my File and wished me Good Luck finding another Lawyer. No-one in Newfoundland will represent me since and the last Lawyer I asked told me, If any lawyer in Newfoundland represents you, it will be the last job they do in this province. Newfoundland.

On Febuary 02/09 at 10 AM in Provincial Court with Judge David Orr the victim, me, will be further persecuted for telling the truth and this system will protect the criminal, Alex Hickman. My Government appointed lawyer told me she won't even ask for a DNA test to prove the TRUTH. Once again NL. courts will knowingly convict the wrong person.

The Judge, David Orr knows he can't convict me legally of any wrong doing, I'm telling the truth, so he has ordered a Psychiatric evaluation by Dr. David Craig on April 03/09 and try to have a Doctor confine me in a Mental Hospital in St. John's to prevent me from returning to Ottawa with my information Protest and the truth about the Newfoundland Legal System

**MENTAL HEALTH ASSESSMENT**

Byron Prior

Date of Birth: July 29, 1953  
Age at Date of Assessment - 55

Byron Prior was referred for a mental health assessment. Marty McKay, Ph.D. coordinated this assessment which included multiple clinicians conducting independent assessments of Mr. Prior's mental status. The referral question was: Does Mr. Prior suffer from a delusional disorder or any other mental disorder?

This assessment took place over the course of 2 weeks, beginning on May 14, 2009 and ending on May 27, 2009.

I am a psychologist, licensed in the Province of Ontario since 1976. My practice is in Ste. Catharines, Ontario. My resume is available upon request. I carried out a 3-hour clinical interview of Byron Prior. I also administered the Personality Assessment Inventory (PAI), the Beck Anxiety Scale and Beck Depression scale. The results of these assessment measures were analyzed. The diagnosis most consistent with the findings was that of a depressive episode.

Dr. Charles Pierce, of Kitchener, Ontario, is a clinician with 35 years of professional experience. He carried out his independent component of the assessment, using the Minnesota Multiphasic Personality Inventory (MMPI) with a computer-generated analysis and report. The MMPI is one of the most extensively used measures of mental health status and is routinely used in forensic mental health assessments. This measure did not identify signs consistent with a delusional disorder or with any other mental disorder, i.e. DSM, Axis I Disorder. Certain personality features were present which were suggestive of adjustment difficulties with respect to rules and regulations, but these do not fall within the realm of a mental disorder but as part of his personality structure and adaptational style.

Marty McKay, Ph.D. administered the Millon Clinical Multiaxial Inventory (MCMI-III), the Davidson Trauma Scale and the Myers Briggs test of personality traits (MBTI). It is noted that the Millon is a respected psychological instrument which is frequently utilized in the forensic mental health assessments for use in court. The Millon clinical measure identified anxiety and trauma as significant issues in Mr. Prior's functioning. As a result of the trauma score elevation, the Davidson Trauma Scale was added to the testing protocol. On this measure, past instances of emotional trauma were endorsed by Mr. Prior, but scores on the measure did not confirm sufficient criteria for a diagnosis of Post Traumatic Stress Disorder.

The Myers-Briggs is a measure of normal personality functioning which identifies how the individual responds to his inner and outer environment. The first measure is that of introversion-extraversion. On this measure, Mr. Prior demonstrated a slight trend toward introversion although the scores were relatively balanced between introversion-extraversion. The second dimension is that between Sensing and Intuition. His scores placed him within the Sensing category which indicates a preference for fact-based information derived from sensory information as opposed to intuition. The third dimension is that of Thinking and Feeling. His score placed him within the category of those who rely on analysis and logic rather than on feeling in assessing situations and responding to them. The dimension of Judging and Perceiving differentiates between traits such as methodical and scheduled (Judging) and traits of casual and flexible (Perceiving). Mr. Prior's scores placed him within the Perceiving category. His overall profile then is ISTP. The ISTP personality is described in the manual as follows: "Cool onlookers—quiet, reserved, observing and analyzing life with detached curiosity and unexpected flashes of original humor. Usually interested in cause and effect, how and why mechanical things work, and in organizing facts, using logical principles. Excel at getting to the core of a practical problem and finding the solution."

Dr. Harley Wideman is a Toronto clinical psychologist who has been practicing for 50 years. He saw Mr. Prior for a clinical interview and administered projective personality testing—the Rorschach ink blots and figure drawings. He spent approximately 2 hours with him. His conclusions were that Mr. Prior does not suffer from any signs consistent with a delusional disorder, and that it was unlikely that he suffered from any other mental disorder. Specifically, Dr. Wideman stated that on the Rorschach, his perceptions were reality-based, that there was no evidence of thought disorder or perceptual distortions. The content and form were not consistent with any psychotic disorder.

Dr. Andrew Barlow is a psychologist, licensed since 1979 in the Province of Ontario. He subjected Mr. Prior to a clinical interview including a structured interview designed to assess DSM criteria for Delusional Disorder. His findings were reported as not being consistent with a Delusional Disorder; no other Mental Disorder was evident in his presentation.

## SUMMARY

The evidence independently compiled by five seasoned clinicians was based on both objective psychometric testing and clinical interviews. All were in agreement that there is no clinical evidence to support a finding of a delusional disorder as set forth in the criteria of the Diagnostic and Statistical Manual. All were in agreement that other than some indication of depressive tendencies there was no evidence of other mental disorders. This manual, referred to as the Psychiatric Bible, sets out the standards for assessing mental disorders.

My assessment findings suggested that he could be suffering from a depressive episode, while the other tests were suggestive of past trauma issues and anxiety, all of which point to situational factors as opposed to a clinical mental disorder as explanatory in Mr. Prior's functioning at this present time. These symptomatic findings are not consistent with a need for psychiatric hospitalization nor with the need for psychiatric medication. He could benefit from his choice of practitioner offering cognitive-behavioural counselling to deal with the situationally based stress and anxiety he is understandably experiencing at this time.

It is worth noting that Mr. Prior's circumstances, as collected during the 3-hour interview, are also not consistent with a delusional disorder. His reportedly stable marriage and ability to rear a well-functioning young adult son, would be atypical of someone suffering from a significant mental disorder, specifically a mental disorder characterized by fixed false beliefs (delusional disorder).

## CONCLUSIONS

It is my considered professional opinion that the evidence compiled in this multi-clinician assessment is valid and reliable and does not support a diagnosis of any clinical mental disorder. It is noted that those psychological tests which have embedded validity measures (PAI, MCMI and MMPI) all indicated valid profiles.

The assessment results indicate that it would be entirely inappropriate for any licensed health professional to make a recommendation for any hospitalization or psychotropic medication. The most that might be appropriately recommended would be some psychologically provided cognitive behavioural therapy, for a limited time.

Thank you for the opportunity of providing this assessment. If there is a requirement for the raw data to be explained in Court and/or the report to be subjected to cross-examination, Marty McKay, Ph.D. would be the appropriate person. This recommendation is based on her position as the assessment coordinator and compiler of standardized psychological test data, enabling her to provide the expert opinion to Court.

Think about your dossier or mine. Do you think the FISA court would give the Bush team a FISA court approval to surveil YOU OR ME, one of Senator McCain's delegates in 2000 and a Republican Campaign Contributor? Wonder why they did not seek approval? Because the Andrea Psoras' are among the list of suspected 'TERROR' targets for surveillance, but the reality is far different from what my party's Chief Executive would want you to believe. <http://www.sosbeevfbi.com/part4-increasedp.html> <http://benfranklinrepublican.blogspot.com>

I witnessed the fires as well as heard the second aircraft flying overhead where I stood in the WFC, before it crashed into 2WTC. By 10 minutes I missed being rained on by debris and falling bodies when I'd walked down Vesey street to 4WFC where Merrill Lynch is located(1). Later that afternoon of September 11, 2001, after I evacuated from the World Financial Center World Trade Center, from my PALM I emailed to Senators Schumer and Mc Cain to call for an immediate arm's length investigation of what had happened downtown that morning. I explained that I'd heard the explosives demolish up through the US Customs House/6WTC and I also may have indicated I heard the motor on the 2nd air craft. It was not a passenger jet motor as is alleged by the Bush administration. The administration knew it had to answer for itself as to why 6WTC blew up before either tower symmetrically deteriorated into their foundations each in less than 10 seconds, and so for the record, THE WHITE HOUSE ALLEGED that jet fuel from the first 'jet' flowed into the basement of US Customs and spontaneously combusted the hazardous materials stored there. I said given my professional experience in the maritime sector, I doubted that

US Customs was so incompetent especially given the Associated Press photos reveal a symmetry of demolition up through 6WTC that can only point to professional explosives. I said if the Bush team is saying that demolition is hazardous materials, one could conclude that is so, but not in the disingenuous scenario that they attempt to purport.

Earlier in the year after I had to leave an employer for whistle blowing against an investment banker at another investment bank. While forced into an unemployed state by my enemies, I'd heard WNYC's interview conducted by Leonard Lopate of James Bamford. A former ABC News producer, Mr. Bamford had authored 2 books on the National Security Agency, our largest intelligence division of the Executive Branch. In his 2nd book on the NSA, Mr. Bamford described the Northwood Operations plan, schemed by the CIA during the Kennedy Administration for synthetic, false-flag terrorism to be done in the US against Americans either by Cubans the CIA hired or alleged. Although the NSA omitted/redacted confirming whether this OP was conducted, I realized the NSA had to redact the truth if in fact Northwood had been administered in some fashion, leaving the US government on the line for years of wrongful death lawsuits, not to mention treason.

Bamford for the record stated, however that the highest levels between the Pentagon and the Administration rejected this plan. Thank God we had men of some morals at that point to avoid conducting some elitist, craven, insidious component of a larger policy agenda to suit the interests of the military contractors for aggressive war and the secret state for more surveillance and control over society. The expansionist plan through the Middle east including Afghanistan fit nicely into the interests of many constituencies, so when hearing a CIA analyst describe the geopolitical importance of Afghanistan, I knew I'd found some buried bodies about the reasons for the Administration's calls for aggressive war against Afghanistan and the Taliban we'd help to install for stability in that region.

While all my copies of my PALM messages were destroyed in March of 2002, I believe my email to Senators McCain and Schumer I indicated the Northwoods plan was contemporized, after I had been hearing that afternoon of the accounts of suspected "Moslem-fundamentalist-terrorist-hijackers"....who violated our multi -trillion dollar defense system, flew around our airspace for hours with a number of planes on an air grid where everything is tracked down to the minute by flight plan and radar computers.

I called for impeachment of every Executive Branch official who could be impeached and trials for treason. Although John Dean has yet to agree with me on the trials for treason, in 2004, he called or impeachment of this administration on the despicable abuse of power and secrecy alone which the administration has practiced since it entered the White House and began with its opus via the "Energy Task Force". I conjecture it was there, the Administration finalized plans for 911 and beyond, as those meetings included Enron's former pipeline CEO, who was selected as the Secretary of the Army. Included in that meeting was Norman Mineta, a former Congressman and Lockheed Martin employee and a Clinton cabinet holdover who had been its Commerce Secretary, now the 'Transportation Secretary' for the Bush team. His former LMCO underling was head of the FAA when 911 happened. Both cold and 'hot' war benefit LMCO, so she wasn't going to stop planes from flying around US airspace. Nor was Cheney, whose Haliburton would stand to profit from hot war, or Rumsfeld, another insider who gets off on the power.

While Congress and the American People were being abused with the Patriot Act, I vigorously was opposing it to Senators to oppose the Patriot Act, faxing from the office of the Outplacement firm I used in the NBC building. Recvall that military contractor GE owns NBC.

One of the Outplacement firm's administrative assistants admitted to me that on the morning of 911, while she was walking into the NBC building where she worked on the 28th floor, a professionally attired person told her to not go into the building. She was told to get her things and go home. The Admin assistant said, why and that she had to go to work. The party countered, that there were explosives in the NBC building and in the WTC, and that she was to get her things and go home. If not before at an earlier point, the party had indicated to the Admin assistant that they were FBI, or at that moment. FROM GOD'S LIPS TO MY EARS.

FBI on the morning of 91101 confirms demolition/explosives in the WTC

As this confirmed what I was virtually certain I had heard on the morning of 911, I called the NY Attorney General's office that evening. I was told to speak to the Chief Investigator the next morning, but became very dismayed when I learned he'd been FBI for 20 years as I know the CIA and NSA control the FBI. I figured what I would tell them would fail to get respect. I was right and he very unprofessionally hung up on me after but a few words when I mentioned professional demolition in the WTC.

Although at that time I was ignorant of the neoconservative agenda, given that embodied in the definition for conspiracy, the legal system explicitly affixes criminal intent, and found in the manifesto of the group known as Project for the New American Century, interests including and expressed by other high level staff of the Bushteam, we can find enough substance to connect the bush administration with the parties recruited and contracted to administer aspects of the Energy Task force plan including its destruction of the World Trade Center Complex and the mass murder of more than 2800, not to mention many other policy lurches, flaws and breakdowns to suit the Bushteam and crony interests.

For this reason, all the administration and associated levers of power in Washington and the establishment have ignored the deepening health problems produced with the Energy Task force OP. To the secret state, the living and the dead serve another, more insidious purpose to whose end I vigorously I oppose. Although few of my Wall Street colleagues share my disgust and revulsion with the secret state apparatus and its undertow operating in and throughout our society, a few of my science colleges expert on satellite and associated technology, as well as resonant energy similarly have come out and protested against what the secret state apparatus is attempting to create and achieve via sophisticated electromagnetic, extremely low frequency pyschotronic technology.

With this technology the **CIA/NSA/DOD** and related intelligence apparatus of the Executive Branch and their cronies in the private sector including military contractors such as Lockheed Martin, on a grand scale or individual basis, they can target individuals for 24/7 surveillance and harassment.

They can pump and dump the markets with this technology by grand-scale manipulating investors, as well as produce in some of the population an inability to focus, comprehend or doubt the official account the Bush team purports. And with things like the Patriot Act, given the trauma they created on 911, they can fool the people, huddle the masses and manipulate them to choose the "Control Society" where most people have a few things but no real liberty.

Later that week on September 15, 2001, I emailed WSJ's VandeHei and Hitt who had written about 911, and reminded them to recall in that 1000 points/lights gang of Bush Redux and all of their corporate colonialist friends - slingers of obscene soft money contributions.... looking for payback and feeding at the public trough of easy or lax regulation at the risk of public safety. However, the Wall Street Journal ignored me about my experience on the morning of 911 and my connecting of it to the Bush team.

I emailed Rep Barbara Lee and thanked her for opposing the Patriot Act, which I vigorously had opposed.

The people in the CIA, the FBI and the NSA have and will continue to resort to Electro magnetic/extremely low frequency psychotronic mind control against the American people, and against the contrary foreign interests so as to set up the situation to waste taxpayer money to achieve their craven end. More of our elected public servants should have support the decision she supported and opposed the reckless and irrational bombast and perhaps future destructiveness of this Administration... costing more US citizen lives, and having access to the wallets and pockets of American Citizens and companies... in a very mad, Keynesian way of government expenditures to goose the economy. This is the sick root of their mad scheme.... and sadly, they are so insolent, contemptuous and absorbed with their own agenda that they have stooped to this despicable act.

I also indicated Cheney's comments about not letting the terrorists turn this into a police state, the Executive Branch is looking for the US Citizens to acquiesce to it themselves, and is using the CIA, the NSA, and the FBI and now the DOD to achieve this end. The terrorists were at the White House, telling Bush to stay out of Washington. And he was flimsy enough to obey them. And since so many US Citizen lives meant so little already to these people, at a point when they are desperate to silence or discredit any opposition, they will resort to anything to accomplish this.

Prayer is what I've got the time to do. The Lord is more powerful than I am against any enemy of any sort. People need to Repent and realize that in that we're to be sons of God, (1John3: 1-3 and elsewhere in the NT, Rom 8?) and the only way to achieve victory over this beast and its antichrist spirit is in the Lord Jesus Christ. The apparatus with all the em/elf attempts to counterfeit God. It even says in the NT that God has to shorten the days because the lying wonders are bad enough that even the elect are at risk for being deceived.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I am a victim of Electronic Harassment and Direct Energy Weapons or Warfare and have been experiencing torture, harassment, intrusion on my personal privacy, violation of many of my constitutional rights with projected 'voices' which is actual people talking with voice modulation and projection, Voice to Skull or thoughts and Audible Voice Technology.

I am also electronically zapped remotely with directed energy to any and all parts of my body resulting in electronic heart attacks, and rape. I have many other affects of other Victims of these horrific crimes who I network with regularly. I believe that I have been experimented on since my childhood experiencing effects of this technology increasingly worse throughout my life especially for the last 10 or so years.

**22/12/07**

I am a victim of Electronic Weaponry, Gang Stalking and Harassment and have been for at least 10 years that I have known of.

As the technology has increased so too has my pain and suffering. Also, the possession of the weapons continues to become more accessible. This technology also known as Directed Energy Weaponry or DEW's includes Electromagnetic , Radiation, Radio Frequencies and Microwave Pulsing that are used primarily by the military as warfare. They cause physical as well as psychological impairment and damage sometimes resulting in death. My Constitutional Rights are violated as by mind and body are too on a regular basis. Pleas for help are ignored by law enforcement and anyone else who is in any position to help in at least providing me protection, a safe place to live along with investigations to seek out the equipment. Government assistance with obtaining materials for shielding is also necessary.

I have been networking with an ever expanding amount of people over the years who are also victims of these crimes. About 800 of us who network and are activists are citizens of the U.S. Our rights to Safety, Privacy, Life and Liberty as guaranteed by the Constitution of the U.S. have been and are violated. Our Constitutional Rights to representation by an attorney are denied and we are asking that Cases be opened with our State senators in order to investigate, prosecute and stop all aspects of these crimes IMMEDIATELY. This has been a matter of URGENCY that becomes more dangerous everyday. We NEED your help to make sure these weapons are banned and that housing officials, law enforcement officials are required to immediately investigate all premises where a complainant/victim is getting targeted; we also ask that law enforcement be provided with any technology to provide evidence of existence of the weapons.

As I write to you, I am harassed by projected voices recorded or otherwise in the building where I live, and people driving by in cars playing homemade 'rap' music with the bass VERY low issuing shouts of THREATS and HATE providing a warlike condition in my home and neighborhood.

We URGENTLY ask you to put an end to this domestic warfare NOW and provide us with SAFE TEMPORARY HOUSING IMMEDIATELY until we can be assured of SAFE PERMANENT HOUSING wherever we may live.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I have been a victim of Directed Energy Weapons, Remote Harassment, and Organized stalking since 1990. The phenomenon is real. It includes psychological harassment to induce psychosis, isolation, depression, and suicide; physical and emotional manipulation; and devastation of financial and social resources.

My story is not yet in sufficient state to be published, but I do participate as an activist against these crimes, I do have relevant testimony to specific instances of harassment, and I have meticulously documented each occurrence of these assaults. To hear my story would be terrifying and bewildering to an audience unaware of the specifics of these crimes so I will reserve it until I can clearly, coherently, and efficiently speak about them. Nobody is above the law, yet some group or agency out there believes them to be. This is not right! My Constitutional rights have been trodden upon: my 4th Amendment right has been abused, my 5th Amendment rights disregarded; and if this terrorism is meant to be some sort of "criminal punishment" for perceived wrongdoings, then my 6th and 7th Amendment rights have been completely eradicated. And due to the constant suffering under this campaign which includes hundreds, perhaps thousands of victims nationwide, our 8th Amendment right has been outright dismissed. This is indeed, cruel and unusual punishment. I am also being denied my Constitutional right to pursue happiness.

This torture (from a remote, undetectable source) is constant 24 hours a day, including while asleep—thus preventing me from finding emotional and psychological equilibrium, which takes its toll on my health, well-being and ability to be a productive member of society. Medical, psychiatric, or social services are generally unhelpful or serve to alleviate only a few of the many symptoms that arise from these assaults; remember, the attacks are ongoing. The use of directed energy weapons, remote harassment, and organized stalking are quite plainly unlawful, criminal acts. I am treated as a political prisoner or worse, as a common lab rat, not even human. And that this is happening on American soil, to innocent American civilians—some victims former members of the military—is unconscionable.

Legislation must be enacted to increase awareness of this hidden menace and to outlaw use of these weapons. Only through making the use of these weapons illegal will we be on our first step to alleviating this highly organized

form of domestic terrorism. I refuse to surrender my freedom and I demand justice!

Greetings fellow Crime victim, although in a different nation.

The following is a (part edited) excerpt of my February 2007 Email/article "The Technology of Paranoia".

Your 'gangstalking' allegations would be difficult to believe. But they can be improved and would be VERY believable!

Firstly, if persons WERE consciously gang stalking, THEN: 1 or more persons would come forward, as an insider, and 'squeal'-on/expose the wrongdoing. Would anyone believe that at least 1 or more of the supposed 'hundreds' of gangstalkers, couldn't be paid, bribed, or persuaded, to 'expose' or report on their being asked to participate? ARE YOU SERIOUS! Of course 1 or more persons WOULD come forward.

I have personally (years ago) been set upon by [what I call] 'Multi-person social neural-network multi-brain monitoring and multi-person-brain-mental-'manipulations' ', including:

- steering of conversation;
- thought or topic insertion;
- out and out thought manipulation ('mind-control') of 1 or more participants; in a 'social setting'.

Please realize: THE PARTICIPANTS ARE BEING 'manipulated' and/or 'crazed-out' [did you ever notice their eye movements, or 'pupil-fixation'?? [to some degree], when they're doing this? - take a look sometime].

Yes, sometimes maybe 1 or at most 2?? [I doubt it] persons who live local to a victim may be asked to 'leave this or that article of litter near the residence of, or near the likely [regular] walking path of, our victim in your area', but other than that, I believe, ALMOST ALL of the more intimidating, or harassing, 'gang stalking' behavior is really:

- just individuals whose minds are being set upon by a brain/thought monitoring capable multiple-satellite network, and are being MANIPULATED to perform the alleged 'gang' stalking behavior.

Did you ever do a post 'Gang Harassment' interview session. Maybe say: "I [John Finch] study human spontaneity, and human individual behaviour and human social interaction. What you said: [so and such to me, [[during that harassment incident/session]]], do you recall what was going through your mind? Did you plan on saying something like that to me 1 day, 1 hour, 10 minutes, 1 minute, 30 seconds, 5 seconds prior? What do you feel toward me - and [if you are] I'm a good person, and a generally friendly person - what did you feel towards me, what did you know about me, that caused you to want to say that? ..."

John Finch, did you know that 1 or more victims [the best story I heard was from a victim in Canada [[it was posted in the FFCHS Newsletter]] who confronted her harassers, and the HARASSMENT basically stopped!!], carry around a visible video camera EVERYWHERE THEY GO [like a 'my life is a movie' type of attitude]?).

I am being tortured daily, 24 hours per day, with Voice to Skull, Remote Neural Monitoring, Remote Neural Viewing, Directed Energy Weapons, and Veri-Chips. All my electronic communications are hacked & manipulated preventing me from being proactive in my life endeavors and finding a job. I can positively name & ID 60 of the people gang-stalking me. 20 of of whom I know personally. I am the Targeted Individual known as Mr. Impossible. The most expensive TI in US History. My targeting goes from the top down and involves: (I can't name the person at the top), CIA, NSA, DOD (all branches), DHS, & the Contra Costa County Sheriff's Dept.

I'm writing this email in response to the wonderful information you've been sending the past few days; it's going to take quite a while to get through all this, but I'll work slowly, because I had a stroke 12-1/2 years ago, which I now believe was possibly induced by the "perps", now that I know who they are and what they can accomplish.

I am a US citizen, 3rd generation Californian, born and raised. Lived there all my life until the perps drove me out to Colorado to my sister by almost killing me. They followed me and have continued to harass me 24/7, I believe now for probably at least 12-13 years or more.

At first I had no idea who or what was going on until my sister found freedomfchs online a year ago and I have since been slowly educating myself.

Here's what they have done in the past and continue to do: break-ins, being followed everywhere I go, monitoring equipment being installed in my apartment or home, chemicals being sprayed on me or in my house, the use of drones, chloroform, bright lights played on me at night as well as numerous noises and voices, people are rude to me that I don't even know, headaches, skin problems, other health issues, doctor's changing reports, things being moved in house, frequent car repairs, harassment by neighbors, frequent appliance repairs, computer takeover, things being left in yard.

I have trouble with short-term memory since the stroke, but this is the best I can remember for now.

If there is anything else you need to add me to your list, or anything I can help with, please don't hesitate to ask.

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I am a 44 year old male living in Southern California with the EXACT Targeting And Manipulation & TORTURE as you. This has been happening to me since the beginning of 2004. I have written and emailed extensively here in the US with no help.

I am a victim of Directed Energy since march 2004. I am a US citizen born 4/27/63. For the past 4 years, I have experienced events and experiences in my life that I can only attribute to anonymous hi tech Mind Control Targeting.

The symptoms of this targeting appear very similar to those of mental illness but I assure you that I am of sound mind as I write this letter and have been throughout the whole period that I have been targeted.

I have been in contact with a great number of other Targeted Individuals and in comparing notes; we have all found that our symptoms and experiences follow a very similar pattern.

The group I speak of has done quite a bit of research into areas of technology, and we have found that the exact methods for anonymous mind control targeting may or may not be available to the general public--perhaps they are

of a classified nature.

We have surmised that this targeting is masterminded by a group or an organization that is capable of immense secrecy while influencing a great number of people. Hence we feel that we are being used, illegally, as human guinea pigs--perhaps for some very dangerous mind control technology involving Military Intelligence. Or possibly by corporations that are involved in secret biotech experimentation.

I am asking your opinion for a fair investigation into this matter. Maybe you can suggest someone or an organization to help. Such an investigation is due us, by the sheer number of reports of this kind of technology, and the fact that there are numerous scientific reports that technology does exist which can influence people's minds, perhaps using EEG brain wave technology (Mind Invasive Technology), Infrasound Weapons or DEWs (Directed Energy Weapons).

**COMPLAINT ABOUT PSYCHIC ABUSE**

**Complaint about:**

Berkeley Psychic Institute/ Church of Divine Man

Aesclepion Trance Medium Program

Men's Fellowship of BPI/ CDM

**Facts of Complaint:**

Psychics performed research against the will of the plaintiff.

Psychic research was performed without knowledge or consent of plaintiff.

Psychics performed operations that are cruel and unusual punishment.

Psychics brainwashed plaintiff by modifying the consciousness using hypnosis, trance and coercion.

Psychics used implants to take away the willpower of plaintiff to control his mind.

Psychics occult ritually abused plaintiff to cause mental, physical and psychological damages.

**History of being recruited into the BPI/CDM cult:**

I was tricked into the brainwashing cult of BPI for a 5 year period from 1987 to 1992. At that time in life, the peer groups I knew were all trying to recruit me into BPI. I hung around two different girls, one of which walked me into the doors of the Berkeley Psychic Institute in San Jose, California in the summer of 1987. The other girl that I dated regularly for about 3 years had a family that was part of BPI and they reinforced my recruitment.

I went about two times a week for that 5 year period, driving back and forth from San Jose, Palo Alto, Marin County and the city of Berkeley. I started taking their basic meditation and healing classes. From there they moved me into deeper levels of their psychic cult after the basic classes by inviting me to go their Mens Fellowship and Trancemedium Trancechanneling program. I went to these trance medium clinics where they did their programming and was placed under hypnotic trance states. Back then I was not aware of the damage it was doing. They declared that my confusion was caused by “bad energy” and “beings” in my space and that they could “clear” them. I did not realize at the time, I was getting bad energy from the psychics while they moved me out of my body to clear me for being taken over by trancemedium alien beings that they work with spiritually.

At the initial meetings, the psychics made their boldest claims of how the Institute could help me discover some strange esoteric past lives mixed into the present, with the promise of learning great truths to gain a future powerful life after having learned their claimed psychic awareness and set of mental tools. I remember they said that Lewis Bostwick founder of BPI/CDM was part of Scientology and the Rosicrucian's. Back then I did not know what a scam these groups were and ended up paying them money to place their systems into my mind. I tried the meditation out of the institute, using the grounding, running energy, blowing rose techniques and trance states. My health went downhill from there, when the BPI cult techniques and contact with their members started destroying my mind and identity. The BPI techniques were designed to crack an individual, make them self destruct who they are by blowing roses, then trance over the damage with energy and chakra techniques until completely under the control of the psychic cult while getting swayed by the hypnotic influence into believing what they teach as reality. The classes of having psychics instruct to view a mental image screen end up defining reality and any resistance to psychic controls was erased by their programmers. The psychic readings were derisive speculative stories which were intended to control reality for me.

I believe that the Berkeley Psychic Institute uses brain implants to control their followers. There are articles on the internet about paranormal mind control research into Syntel. Syntel is synthetic telepathy via brain implants which enables the artificial ability to communicate mentally. This would explain how psychics know things while mentally connected to machines and how they can control people's thoughts, and drive them crazy with voices and images.

**History of Families involvement with the BPI/CDM cult:**

I went to psychics for 5 years and after it was all over in 1993, ended up seeing their agents at the hospital working with my family. They all laughed at me happily and declared “Sucker, we had you fooled all along.” If my family would have taken me to a commercial institutional facility to force me to accept being converted into a psychic reader robotic drone that serves their order, I might have been able to reject the program if any willpower had been left. Instead of that, my family planned to fool me into agreeing to it, and introduced me to the peer group in 1985 that was involved with the psychics and BPI in order to be indoctrinated into their deceptive new age cult. My family introduced me to the peer group of teens that were known through parents that were part of Lockheed Missiles and Space program. Lockheed's space program extends into paranormal research and artificially enhancing the human mind in order to explore space and alter dimensions through remote viewing. These peers were a punk cult society that made scamming mafia jokes to ridicule me with taunts, rejection and then used acceptance for reward when believing their brainwashing lies. The gang of multiracial punk rockers harassed me by calling me a “poser” that was not truly dedicated to hard core, and they talked about the British National Front movement as their highest ideal and called their gang “os” which stood for “our society”. The peer group ridiculed

me for not sharing their hard core cult beliefs and harassed me into proving myself by getting a punk haircut to cause an identity crisis and then set me up with psychic readers to do further psychological damage by pretending to find a mysterious answer for it. The peer group used their most popular girl as bait by promising a date with her, and arranged instead, the first psychic reading through the health food store that they worked at. During the summer of 1987, they had the popular girl from the peer group walk me into the doors of BPI which was disguised as a personal group with classes held at a home. They had previously arranged another girl in 1996 to continue dating me as reward for attending, and it was presented as the answer to all my problems. So they fooled me into agreeing to try their whole psychic research program, which if had been forced on me, I would have rejected it. This was a plan to force me to try their new age cult program to control my mind by programming and implanting me to become one of their members that served them unquestionably without any critical thought. The first home based psychic cover operation I was taken to in San Jose was very close to a motorcycle shop one of the peers had previously brought me to. The motorcycle shop had given me a free exhaust set that was supposedly the latest technological advancement to increase performance. The psychic readers made reference to performance tune ups and the feeling of riding a motorcycle rushing through the wind as if the human mind may be modified with implants to experience virtual reality.

After the years of psychic brainwashing was over my health was poor and I was in the hospital for a short time in 1993. I never realized what a loss it was to go the psychics and had been programmed to believe everything they said even though it brought me to such paranoid depths of misery and it was the worst thing ever experienced. My family was part of it and they all laughed and said "We made you as dumb as we could" and "You will never know what you lost." My family had introduced me to the peer group that brought me to the psychics in the first place and one of them was waiting at the hospital to reveal his part in it. They all worked together and said "It was right on time", "Just like clockwork", "All according to plan" and "We used the psychic readers to crack you." Also, they said "You fell for it hook, line and sinker." It was a 5 year plan for them to crack me with psychic readings while programming and implanting me to serve their order. My father laughed at me and said "How do you like your new skull?" I could see in the mirror it was different and my forehead had been made larger and had a new round bulge while the rest of my skull had been modified and built up oversize. My skull had been previously modified which made it excessively long from front to back and was raised higher than a normal human which looks cyber implanted artificial. Having an artificially modified overlarge skull causes ridicule and rejection from society and the implants impair normal brain functioning. After having arranged my downfall my mother enjoyed being in the position of power over my life to swear at me while pointing her finger as if in ultimate judgment to condemn me with her hypocritical doubletalk which is designed to prevent me from finding a way out of their cult abuse. When it was all over, she and her psychologist danced together jumping up and down arm in arm saying "He never had a chance and can't get away from us." They hold regular family meetings on certain calendar dates to proudly celebrate what they have done to plan keeping me implanted and programmed by signing contracts stating that I agree to it. This is all done without my knowledge or consent.

#### **Details of Complaint:**

BPI/CDM inflicted mental damages using a variety of techniques aimed at brainwashing, subduing, intimidating and humiliating the plaintiff. Psychics burned out and erased the brain of plaintiff causing mental impairment. The psychics claimed they could improve sensory awareness while they were ruining it. The longer the psychics promised this to keep a dependency, the worse the sensory burnout became.

Psychics stated plaintiff was a "walk in spirit" and removed him from his own body to possess him with psychic beings. This was to convince plaintiff he was not himself and belonged to the psychics. Psychics made constant jokes about stealing bodies to harass plaintiff. Psychics stated that telling dirty jokes and laughing is part of their belief system in "amusement." Psychics traumatized plaintiff with their misguiding mental "voices" and "images" that they program their victims to experience. The psychics repeatedly claimed they were the answer to plaintiff's problems so he would hand over his money, in order to gain power over him.

Plaintiff had been trained to think he had many problems that defined his personality and the psychics put on a mysterious show of searching for seemingly enigmatic answers to solve meaningless illusory riddles. Plaintiff lost his willpower to psychics that pretended to have the answer while they schemed to be in a position to control reality by describing it to him with speculative stories. The psychics preyed on plaintiff's confusion by traumatizing him with their false answers that were designed to cause mental distress, psychological damage and personality fracture.

BPI/CDM made constant threats of physical harm, cruel operations, and predictions of coming harm. Psychics always invited plaintiff back to check what their abuse did to his consciousness as an experiment. This resulted in

loss of consciousness, impaired judgment, MPD, identity disorder and missing time.

**Assaultive offenses of BPI/CDM:**

BPI/CDM members flew into rages often and demonstrated their occult power using what they call "whacks" to cast negative energy at someone to cause harm. Psychics used assaultive gestures with the hands as if throwing darts at the forehead, laying on of hands, touching the back of the skull or shoulder in a shocking manner and waved their hands in the air around the body. These abuses were followed with strange claims of "you are healed; your feeling of sickness is a growth period, where your body will have to assimilate our programming."

After a claimed "psychic healing" plaintiff felt confused, lost and disoriented. Psychics then asked if plaintiff felt "light headed" and described it as a good effect as if an ideal state of brainwashed. Psychics then stated they had "wiped him out." Psychics used fortune telling claims of wealth, success and fame disguised as "psychic advice." Psychics did repeated trauma based programming sessions that caused ruin in plaintiffs' goals and directions in life for career options and college. The negative assessments of the psychics with their derisive insults and misguided beliefs have caused the plaintiff irreparable damages.

**Relief Sought:**

Plaintiff seeks a natural mind and body that are without implants or modification.

Plaintiff seeks for removal of psychic implants.

Plaintiff seeks for removal of bio electric Syntel devices.

Plaintiff seeks for removal of all Cyber implants.

Plaintiff seeks for removal of psychic programs.

Plaintiff seeks for separation from psychic occult network.

I have a personal website with my complaint about a psychic group that used mind control to contact my mind.

**9/25/2008**

First, I want to thank you for calling last week in regard to your continuing research on the cases you have graciously been working on in the interest of helping Freedom From Covert Harassment ( [www.FFCHS.org](http://www.FFCHS.org) ), the victims of MK-Ultra-Style Psychotronic harassment, organized CoIntelPro style stalking (by the government and

corporations), 24/7/365 surveillance, disruption of lives and families, injury to children and pets, forced loss of employment, denial of medical services and more.

I want to explain a few things before I go into detail. First, I am writing this to you as well as posting it on the web because I believe I have been able to "crack the nut" on this situation, coming from a completely different approach than addressing the harassment issue head on. I understand that some may consider this posting and writing to you to be malingering and/or defamation and slander, however, I want to point out that I have appropriately sought assistance from law enforcement, the FBI, Secret Service (as a political candidate) and my appropriate elected officials.

Like most victims of intended abuse by the government and corporations with ownership and access to satellite microwave technologies, it has been to no avail, and so I feel justified in bringing this case to the attention of the public, since there has been no recourse available to make this illegal, immoral and unconstitutional suppression of our human rights end. And I have suffered greatly.

Part of my reticence to respond to your call has been because I am preparing to go homeless because of the violation of my rights. In addition, I have a story that compares to that of Taylor Brice, and the Tranceformation of America. It has taken years to gather enough information about my harassment to be able to succinctly communicate my situation, and how the tangible, palpable evidence I have can put an end to the suffering of all of us victims.

The bottom line on my case is premised on a fully documented case of plagiarism. What I am saying is this:

Barack Obama and the Democratic National Committee have been stealing all of my own campaign materials from this web site in order to structure the platform of the Democratic Party to retake the majority in the House and Senate, as well as to provide material for Howard Dean's Democratic Presidential Nomination bid in 2004. I can adequately show collusion on the parts of nearly every speaker in the Democratic Party at this year's national convention in Denver, as well as many Republicans.

This has been going on since 2002. However, I believe I can show RICCO activities against me dating back to the 1990's and the Clinton Administration. While fragmented due to Psychotronics, the proof of this is on my web site.

It would be very easy to use Lexis-Nexis, my web materials, television transcripts and a vast amount of emails that clearly show communications with members of Congress, the National Corporate Media and others. It would then also be easy to conclude that they were in fact stealing my materials.

How it began from my point of view, and what I have discovered to date. I will conclude this preface by saying that many of the things I may mention may be unusual to you, as they did to me, but I assure you, I would not mention them if I did not believe that I could prove my assertions in a court of law.

Despite the fact that I can show that my harassment and "bubble life" actually began in the 1950's, not long after birth, I was not aware of that until recently. So, for me, the story begins in 2000, when I began to become politically active.

## Election 2000

When the events of election 2000 happened, I was like many people in America. I didn't vote in that election, so I had no complaint about who the winner would be (if you don't vote, you can't really complain about that). What I was concerned with was the process of Democracy. I put up signs all over Capitol Street and in front of all the news agencies in downtown Washington D.C. that said "Count the Votes".

My personal background in politics dates back to the late 50's listening to my father speak of politics, Democracy and many other things. He put a particular emphasis on recognizing propaganda on TV and in writing, the dangers of communism and government infiltration, his concerns about the Tri-Lateral Commission (begun by the Rockefellers and Jimmy Carter in 1958) which led to its more current organization The Council On Foreign Relations.

My father was a military man, a consultant at the Hunter's Point Naval Shipyard in San Francisco. He appears to

have been a member of the John Birch Society, the Masons, and was a friend of Richard Nixon's and Shirley Temple Black (as an adult). In addition, he was a co-founder of AMPEX Electronics, putting him in direct contact with the industry pioneers of broadcasting, including RCA, Fox, EMI, CBS/Westinghouse, ABC, GE/NBC.. a little more digging by a professional investigator would also have that trail lead to Prescott Bush, and the Kennedy Family.

In the last couple of years, I have to come to realize that he passed employed people to give me clues about things he was involved with that appear to be classified. This includes the fact that a patent search for the names Tesla and Charles Rehn revealed the high probability that he worked with Tesla on a device at Stanford Research Institute called the "Thought Camera", which provides a baseline technology used in Psychotronics.

The patent instructed contacting Los Alamos for further information. I contacted them, and received no reply (I offered to be debriefed, as it appears Psychotronics has been used to determine what I actually know) and attacks against me greatly intensified.

I believe I was "MK-Ultra-ed" somewhere between 1959-1961 at Kaiser Permanente Hospital in San Francisco, which was participating in some very interesting tests and experimental procedures that I won't go into detail about here. I was born in 1955.

Back to the year 2000.

After the Supreme Court made its decision on the election, I decided to take on a personal project of determining what was actually going on with the government and the media. I studied Newt Gingrich and the tactics of GoPac.

I created a website called [www.democraticfundamentalism.org](http://www.democraticfundamentalism.org) for the purpose of creating an online database that would show me the patterns of 1) what statements were made in public about issues, policy and world events and 2) what actually happened "on the ground". The disparities between the two were so obvious that, in May 2002, I decided to launch a boycott of mainstream, national corporate news media outlets. To be intellectually honest, I boycotted the channel I watched, and encouraged others to boycott their channels in the same ways.

I boycotted MSNBC.. or at least began the process. MSNBC almost immediately responded before the boycott initiation with the firing of Laura Ingram, the hiring of Pat Buchanan and Phil Donohue, as well as completely shaking up their staffs and re-working their format. I was surprised, but, again being intellectually honest, I accepted that they exceeded my expectations regarding the few demands I actually had - to allow guests to complete their statements when asked questions, and giving truthful answers about issues that were in opposition to the "political slant" of the program host.

So, I "laid off" them, and decided to watch CNN, because I'd never watched them before (except Headline News occasionally) and I heard they were good, and I wanted to see what they were doing. The only real exception to that is when I'd watch Wolf Blitzer. I began commenting on the reports he gave in December 2001 in a daily blog (the word blog had not yet been coined).

I started watching Lou Dobbs, and have no qualms about saying that the themes of his programming are a direct result of my emails to him regarding the dialectics in play in America, and the issues of immigration, the economy, the development of China and the abandonment of America by its financiers and therefore, out manufacturing base. And many, many more issues. I believe I could also show, with testimony from MASH star, Mike Farrell, that Dobbs used Aesopian language to promise me he and I could have an argument with each other after this ordeal was over (more specifically, the Iraq War).

All this may sound a little unusual... but please keep in mind that my career has included systems consulting and analysis, some 15+ years of off and on work in the media, including interviewing rock stars... not to mention having become the youngest person to run for an elected office in the history of the United States in 1972 when I ran for the school board in Arcata, California. So, what may seem bold to others, to me just seems like what there is to do... about whatever needs to get done. Interacting with the media is, to me, interacting with peers. I actually do, and have been employed as, a journalist. So...

As a viewer of MSNBC, I became a fan of Paul Begala's, who was the counterpart to Oliver North. So, when I paid more attention to CNN, there was Begala on Crossfire. So I started watching, and decided I'd try contacting him

through the "back door"... for me, it wouldn't have been a big deal to just call him, but I wasn't looking for personal promotion - although I'd hoped he and I could start an email relationship - and basically I wanted to volunteer to write and develop materials and give them to the Democratic Party to get people elected so the government could be balanced again, and checks and balances would be intact again.

So it's important to note that I was originally volunteering to provide materials. Of course, they'll say that gave them permission to use my work. However, my site clearly stated "All Rights Reserved". And, at a certain point, I notified the DNC of my intent to run for the Democratic Nomination, as well as later directly informing them to stop plagiarizing my work. All of which they ignored (because the dialectic they were working against me included making it appear as if I gave them materials and later had unjustifiable remorse). I will also state that there is always the possibility that people will have similar thoughts, develop similar ideas and logos, etc.

Regardless of any denials they may have, I can clearly show that I informed Begala and Carville by email, and I have no reservations about my claims to have been in communication with them, and they "set me up" through Psyops and Psychotronics to steal my materials. I made it very clear on several occasions that it was not alright for them to steal my materials, via email and in my weblogs.

However, I can clearly show how, even up to a few days ago, the incorporation of phrases I use on my web site that have become part of the national political debate. And for my work, unwillingly, I have been repaid by intense Psychotronic and Psyops attacks in order to "shut me up" so as not to expose the Democrats and Barack Obama for their crimes.

Examples: One of the primary themes of this site is "A Conversation With America"... Hillary Clinton began her 2004 campaign for the Democratic Nomination with theme of having a "Conversation". Wesley Clark used "A Dialogue With America".

Clark also talked of New Patriots, and legislation banning the burning of the Flag. I introduced the incorporation of the phrase "New Patriots" way back in 2002, and even wrote a song about t.

Politicians are currently using the phrase "they don't get it" a lot.. that came immediately after I used that phrase over and over in my personal web journal, when talking/writing to members of the DNC who engaged in "communications with me".

That communication came in the form of "code words"... the same way the French Resistance would listen to broadcasters and listen for key words that would send info only to people who knew the codes.. This is called Aesopian Language, as described in WikiPedia's explanation of the Church Committee.

Aesopian Language is described thusly:

Aesopian Language is communications that convey an innocent meaning to outsiders but hold a concealed meaning to informed members of a conspiracy or underground movement (like the United States Government).

I do this with members of the government, media, and "political acquaintances", overt and covert, all "friendly" to the United States Government and it's citizens.

This Aesopian language was/is confusing at times because others opposed to my work would purposely use it to disinform me. Many targeted individuals in typical situations would refer to some of this kind of activity as "media mirroring".

I could show you the tape of the Saddleback Church video of Barack Obama answering questions and prove, item by item, that Obama was plagiarizing my materials. You could look at the transcript of the Obama-Clinton Unity, New Hampshire event, and I could show you the same things, and that they were "talking" to me in code. I could show you video of Al Gore's endorsement of Barack Obama, and easily prove to you that he was talking to me in code.

The Republicans do it too. They all think it's really funny.

The media does it with me.

And, given the political environment of the world, and the United States, there's something really fishy about it all, because it's so "out in the open"... and I even have video from certain video outlets feeding me evidence against them, politicians doing everything they can to make it so obvious that I am compelled to take action against them. And it gives me reason to believe that there is legislation that makes them believe they can do all this with impunity, regardless of the fact that our constitutional, civil and human rights are supposed to be inalienable.

Given the remarks of Senator John Glenn, it is obvious that our government does not really take these God given rights as seriously as they would have us believe.

There is one other possibility: and that is, as I actually suspect at times, that many of these people have fed me evidence because the people who own the Psychotronics technology, primarily E-Systems and Raytheon, in collaboration with the Bush Family and the Rockefellers and their desire to install the "New World Order", they have many of the leaders of the U.S. Government under the effects and/or control and/or threat of attacks by Psychotronics and directed energy weapons. If this is the case, then they actually want me to take action to get them out of a jam.

With the filing of a simple plagiarism case, an incredible array of problems and sources of problems, the participants in the United States Government and corporations will all be "caught in the snare", so to speak. And I have reason to believe there is a vast array of nationally known figures who will come forward, once Psychotronics is exposed, and the threats to their lives and families is abated.

Abuse by Psychotronics will come to an end. See "What is Psychotronics?" This case will bring down the house of cards.

In addition, I believe I can provide testimony and witnesses that will result in the freedom of Ira Einhorn, who was a pioneer in attempting to inform the American public about the CIA's use of a technology of mind-control called Psychotronics way back in the 70's (and before, I have been told by someone who I had not previously known was associated with the SDS).

And, the anecdotal reports of the targeted individuals of the FFCHS will provide more than adequate corroborating reports regarding the methods and technologies of Psychotronics, and its effects.

The final thing I have to disclose and explain, briefly, to you, is the part that may or may not be what they'll use to discredit me. Again, I assure you, I have actual evidence of my claims, much more than what I've described in this letter. And I believe it goes to the heart of why this government would want to suppress me my entire life.

The psychological operations against me have effectively, just as the executive summary of the Church Committee outlines, destroyed my personal relationships, my finances, damaged my body and health, I have been denied appropriate medical and dental care (and could actually file as many as 6 documented malpractice cases, including one causing me to develop gynecomastia, and another that has me losing teeth that I paid to have repaired, to no avail. I have medical records, and some recordings of conversations that could only have occurred because the person I was talking to knew the intimate details of my whole life, like a government agent). My pets have been harmed (I have video of my dog), and given improper veterinarian care.

I wanted to believe in Barack Obama too. Unfortunately, he's a fraud.

It appears I'm victim number 41 in the Clinton Chronicles, which I didn't believe until now.

Thanks in advance for your time and consideration,  
Charles Rehn

PS. The plagiarism suit will get the ball rolling. Meanwhile, get ready to sue some of the largest corporations and most famous politicians in the world. If you have the courage :}

First thanks for the update and your continued work.

I've listed a url here for you to look at... and refer others to.. feel free to pass it around.... My story tends to be like Brice Taylor's but is just as true... mine dates back to about 1958 believe it or not.. I'm wondering if maybe I was one of the first implant people.. looks like maybe my father helped invent or develop this technology... the Thought Camera – with tesla.. not sure of that... but it looks that way.

I have a book online.. still in process but a lot of material... this is the most relevant page...

I also have a concern about this #346 person: it's the same name as one of my perps dating back to 1995 or so.. could you send me whatever info you have on this person.. they may be a spy for NBC/GE and the Council on Foreign Relations... and don't let them know I asked. It's important

First, I want to thank you for your article on PeacePink. It was very informative, and helpful. Although I have not checked all of the references you mentioned (since the WWW seems to also be infiltrated with disinformation), it did answer lots of questions, and bring a sense of relief.

I have endured attacks since February of 2008, with an audible attack starting April 1, 2008. The attack started when I was forced to live on a man's property in Puerto Rico. This man paraded several of his friends in front of me and my family like we were show pieces. Since that time, I have determined who I believe they really are - kids I went to school with.

I have dealt with all of the symptoms you describe along with dream videos which are meant to terrify or rape me during the dream period. When the dream is finished I am promptly woken so I can yell at them or analyze the dream.

The only way I have been able to handle all this is due to my belief in Jehovah (YHWY). I have dedicated myself to His Way for my life, and asked Him to use me as He sees fit. Sometimes it is harder than others. I know that it is possible to stop this type of harassment if the public so chooses, but the US government and media chooses to ignore what they are doing, let alone what others may be able to do. My personal opinion is that at least one of them does not believe in the spiritual realm or that there is a Supreme Being. I KNOW there is.

I had a website telling the names of these individuals, who I reported to the FBI, but the website was attacked. Now it is a basic website for my personal computer website services.

!\*!\* Hello and Good Day to You!\*!\*

It's Rhonda!\*!

Thanks so much for this site. (freedomfchs.com - edit) I have spoken to my Detective and we are to meet this coming Tuesday, September 02nd.@ 9:00a.m. Would you call us during our meeting so as you may hear me and my case.

I am walking through extremely heavy lines of specif force fields as I walk to my part-time job at night and I went to my Clinic to have my flu shot and the men about 50 men and three girls are stalking me on the subway system and they have a configuration on me. I am always under a specific line of banding which is driven thru my body by these groups of men. There are two groups of white men and one group of black men.

Detective knows my "routes" I take when I leave my residence at - 363 Albany Street, Boston,Mass.02118 I am at the Boston public Library in Fields Corner, a township of Boston, named Dorchester, Mass. I lived in this area for 5 years and I have bore the mens' stalking and their abuse for the last 8 years.

Since, May of 2004, the men began to use frequencies on my person, I lived at - 179 Sydney Street #10, Dorchester, Mass. 02125 I would walk into my residence from work, the men stalked me to my job in 2004

Detective knows this also, This was in Randolph, Mass. I worked for Comcast. This was the first time Detective and I met. She was with her Superior also. All of Detective's staff know me on the Detective level and some on the Police level. Her Superiors all know me. The men have driven very heavy lines of frequencies through my left shoulder the area where I carry my bag to cause me distress and to make it look like to the general public that my bag is heavy it is not. The men and girls stalking me and abusing me know that you have contacted me. I am always watched by the men at my job and at my place of residence.

I am always under the frequencies into my body. The men are very vile with me. "Sexually Abusing Me"!!!! they have a configuration that they call snakes, it is an operation that is "TURN ON AND OFF:" they deliver the plasma and the feel and the ( it is a directional abuse via vhf's and vlf's) their radar located my breasts in the "banding" that is into my body!!!!I AM IMPLANTED!!!!) then they drive the lines of frequency into the breasts tissue to abuse me sexually they do the same to me in my vaginal; area. They use their real reptile snakes on me when I am at my residence they are a sick bunch of people they are cowards and they belong in jail, will you help me get them there as soon as possible. My words and my statement and my descriptions are facts. I have documents and police reports going back to 8 years ago.

As I sit and email to you the whole group of men are here plying me with their snakes., we have to uncover what the materials are the men use to hide the snake in and the materials they hide and conceal their identities under so as they can elude capture. Our goal is to have them in jail or dead.

These are human beings abusing me and they belong in jail.

11 months ago I called out Massachussetts State Police complaining of the abuse by the me I was being struck by them then by voltages of electricity they also use micro-wave also and radar and lasers also.

I told the Trooper I was speaking with the way the men were hiding to conceal their identities was a types of materials that our men who were fighting the war in Iraq used to conceal themselves from the attacks of the insurgents. The Trooper stated to me to get to the NSA as soon as possible as they way the men were hiding and using these various materials was and is a Federal Crime, the State Police stated to me to get to the NSA asking if I had a computer at their time I had my own personal computer and he stated to email the NSA, I tried and I tried for 10 months to locate the right link. then one day at lunch time the men were abusing me again on a second floor of my residence and I came up with the idea to write to the NSA.

The men abuse me 24 hours a day at night 12:00a.m. to 6:00a.m. then all day even when I am out on the Streets to the locations I go to I am walking through force fields magnetized and brutla struck in my face back everywhere. So I have part-time job (ask Detective) I am trying to interview for a fulltime job, I keep busy with other ventures I have also, The men were so incessant in their abuse of me, I just put everything I had in tupe and in written in my own hand and my diagrams and documents and I sent all that I had to the NSA this was October the 08th, 2008 they were delivered, October 11th, 2008 in the a.m. I am going to contact again and I want a Agent to be with me and you and Detective and the State Police and the FBI and the armed forces, we need to be "silent" to catch these people who try to hide under their configurations, I know about "Invisible Cloaks, meta-materials, "Optical invisible cloaks" these men have begun to use radar - micros wave to control me my life on a physical and mental plane making me forget and to put me under their control with these magnetized frequencies, Mind Control Stalking". The men have a "headquarters" we are locating, and they have bases. The men have my bowels and urine under their control for the last 3/1/2 years. Now it is the behavioural control. Please help contact the NSA for me. Please help me!!!!

Please call us on the 2nd,2008 617 222 1063 at 9:30a.m.

The plan to kill me.

Rhonda

swirl of snakes on my person, usually beginning at the neck area. The men come into my residence and they put me to sleep and they steal from me and while I am asleep they cut and braid my hair, I am a 51 year old Black woman,I weigh 136 pounds, I have long brown locks with long blonde braids I have jewels braided into my hair.

These men are sick and they cannot be trusted they have a system in place as to where they verbally harass me it is a wireless wavelength system and they call out to me via:

"YOU AIN'T SHIT" "HE JUST DOES NOT WANT YOU" "THAT'S A SNAKE"

"I AM A MAN" "YOU ARE GOING TO DIE" "WE DON'T NEED YOU"  
"HE WANTS IT" "YOU ARE MINE" "THAT'S JUST TO FUCK YOU"  
"WE FUCK YOU" "HE'S GOING TO KILL YOU AND MAKE IT LOOK LIKE A

I am a friend of Rhonda Michelle Rawlins. She had asked me in a recent e-mail: Please call us on Dec. 2nd, 2008 617 222 1063 at 9:30a.m. (This is her detective on the case Andrea Purcell's phone.) I was not able to call in until 10:30 A.M. I assumed they'd still be in the meeting... I could only reach Det. Purcell's voicemail. I left a message that I was Rhonda's friend and that I had left the detective several previous e-mails (from 2 different addresses) to which she had not responded. I asked her to please check her e-mails, including her junk mail or spam filter, and to please reply to me through them. It has now been 4 more days – and still I have not had any reply from her, nor from the psychiatrist, Dr. Anna Fitzgerald afitzgerald@bosunischmed.com). I have also e-mailed those that Rhonda sent me the contact info for. In fact – the e-mails bounce back – with the automated message: "domain name not found".

I RECENTLY (10/08) TESTED RHONDA WITH A "CELL SENSOR"(TM) EMF DETECTOR (electromagnetic field detection device)... AT THE BACKS OF BOTH OF HER HANDS THE NEEDLE HIT 300... indicating that THERE IS DEFINITELY SOMETHING GIVING OFF SIGNALS IN THOSE LOCATIONS – AND NOWHERE ELSE IN HER, THE ROOM, NOR IN MYSELF OR ANOTHER PERSON PRESENT AT THE TIME AS A WITNESS! I AM VERY WORRIED ABOUT MY FRIEND. I DO NOT KNOW WHERE SHE IS!! IT IS OVER A WEEK SINCE I HAVE HEARD FROM HER!!! BUT I DO NOT CONSIDER IT SAFE FOR ME TO GO TO ANY OF HER PLACES OF CONTACT – AS HER CONSTANTLY SURVEILLING PERPS ARE TRYING TO KILL HER – AND I AM A TARGETED INDIVIDUAL AS WELL – AND MY PERPS FROM A DIFFERENT GANG AND LOCATION WERE TRYING TO KILL ME AS WELL – AND THESE GANGS ARE NETWORKED ALL OVER AMERICA! I HEREBY AM TRYING TO HELP RHONDA AS BEST I CAN – BY DOCUMENTING AND FILING HER STORY WITH THE ONLY GROUP I KNOW IS TRYING TO TAKE REAL LEGAL ACTION AND BRING THE CRIMINALS TO JUSTICE! U.S. & UK INTELLIGENCE FORCES AND MICROWAVE MIND CONTROL

(edited)

**US & UK INTELLIGENCE FORCES AND MICROWAVE MIND CONTROL**

Microwave weapons that turn people into stressed, confused, submissive zombies are being used in inner cities. Developed by the communists, microwave weapons similar to microwave ovens have since the 1980s, been

targeted on inner city council estates. These weapons transmit extremely low frequency (ELF) signals which mimic natural brain waves; at the flick of a switch, all the people around these microwave transmitters are turned into submissive zombies who cannot think clearly, become depressed, apathetic and want to lounge around all day doing nothing: the inner city malaise found on Britain's streets. With the advent of new ELF detectors designed by the author's research teams, the mass mind control of the metropolitan UK population can be proved. ELF signals are officially only found at nuclear submarine communication stations, so the researchers were shocked to find microwave and UHF, mind control signals in city centres, the author's flat, being sent through mobile phones, the BT telephones and from the numerous transmitters that dot the country.

The massive increase in mobile phones has enabled the Us & UK security forces to use this network of transmitters to beam mind control signals into the brains of anyone living near these transmitters. Microwave phones use pulse modulated microwaves of the correct intensity to pass through the skull into the brain and control behaviour. Microwave transmitters are therefore the perfect medium for the transmission of ELF signals to mind control the UK population.

It is alleged that Marconi put this microwave technology into full scale production, and around thirty scientists and military personnel on the project who began to ask questions committed 'suicide' under mysterious circumstances. My research has found that microwave weapons are targeted on middle class troublemakers and researchers who cause problems for the establishment. Russian and American research has found that pulse modulated microwaves (as used for mobile phones) can, when modulated with ELF which mimics specific brain patterns change the behaviour of the victim at the flick of a switch. Symptoms can be depression, befuddled thinking, loss of memory, stress, not being able to cope, manic behaviour, schizophrenia, nervous breakdowns, physical collapse, brain and nervous system damage, heart attacks, cancer...

#### MIND CONTROL

Torture is alive and well in the UK & US. MI5, the UK's secret police, regularly use Non-Lethal Weapons on any dissidents. Since MI5 were instrumental in bringing down the Labour Prime Minister Harold Wilson, they naturally took to spying on, and discrediting, any group or person who did not follow their rabid right wing dogma.

Microwave weapons are impossible to detect unless you have a detector, dissidents have no idea these weapons exist, and best of all, they are totally deniable.

Hello Everyone,

I got your email addresses from <http://www.freedomfchs.com/canadatisovpw.pdf>

I am a "target" located in Vancouver BC. I have recently figured out that "gang stalking", community harassment

or cause stalking (what ever you want to call it) is just about never ending. I have been going through it for about 5 years now. The last 3 years there has been a technology based component as well as the traditional aspects . Here are some of them.

Nausea at very specific times, only coming or going from work.

Pins and needles.

Chest/arm pains exactly like a heart attack, always at rest. A couple times I went to the hospital and had all tests (ecg, xrays). All came up normal. Actually, the pain was present until almost the exact moment I walked in the hospital doors.

Unexplained hearing disorders including a bout of severe tinnitus that lasted about a year. One day I woke with it (no onset time). One day it was gone,

Sleep deprivation.

One instance of inner cranial noise. Loudest sound I ever heard woke me up exactly on minute before my alarm was supposed to be going off. It was a male voice yelling my name. Wife claims she didn't hear anything.

Extreme itching with no associated redness. It was full body. Lasted for a week, once again no onset and immediate conclusion.

These are just some of the things I am experiencing. I have not listed everything.

I want to tell every one I can about this. It is absolute bullshit and I dont feel at this point keeping quiet about it is going to do anything but encourage them. Any suggestions you guys have please let me know. Also if you can send me what website in this area in your mind are credible that would be a great help.

Note: I have maybe 5 confirmed, missing emails in in the last year. I have changed my password and reinstalled on OS (im a full time system admin for work) and pulled every security trick I know of yet they are still going missing. If you email me and I dont respond with at the very least a thank you... This means I didnt get it. Feel free to call me if you feel its appropriate.

Thank you for your time.

Hello, I have been through the ufo/alien type abduction activity. I believe it is mind control. There is still unexplained things in the sky from centuries ago, there is still an element of something to some of these sightings. I have read how intense your targeting is, you are very strong to keep on, your writings are helping the cause of all who suffer from this evil. You can communicate well and have some credibility. I have suffered for years of the newscasters, radio dj's, speaking to me or messaging me with an obviously "live" connection. I have actually conversed alone in my car with the dj on the radio just talking out loud in my car going down the interstate highway, this in the 1980's. Even this many years later with the advances in technology I cannot tell people I know this, they would not believe it. I wondered about do you think mylar or aluminum sheets, anything for sheilding works at all? My sleep is for 3 years has been badly attacked. Do you know of any good or worthwhile conferences or meetings for ti's?

**27/5/08**

Excellent post about satallites and what these people behide them are doing. One phrase in the post I see used by others TI's posting is "nazi". Any kind of the nazi political force or actual nazi movement has long since been destroyed and is gone. The methods or some of the nazi technological developments were picked up, carried on and developed over the years, by the winners of the war the nazi enemies. Who controls the media, banking, advertising, the neo-con upper leadership of the usa? It is more like zionism, which when I started looking into, reading of and mentoning in a few casual conversations with individuals in private setting which of coarse the perp system can listen to seem to bring much worse harassment upon me. I tried to leave the usa last year, went to Iceland, I stayed at a hostel camping out and was surrounded, harassed by obvious Jewish intelligence people that apparently the Icelandic goverment allowed to enter their country and operate against me. Feel free to comment or e-mail me, I also have an e-mail at [bmar73@hotmail.com](mailto:bmar73@hotmail.com). I appreciate your massive efforts to organize people and contact all the political/legal people, this is getting the message out getting some developments going to publicize and do something of this torture against us.

**30/10/08**

Not doing very well, being harased badly, seems they are slowly going to finish me off. I have been a victim/target since age 5. TI (group stalking, electronic/microwave harassment obviously done) since 1983. Yes I am a US citizen. How are you doing? So glad to see the hard work and effort to get the word out about mind control-targeting. You have done more than most anyone. Are you Paul Baird? Or someone else? Please send an e-mail, let me know if you recieved this.

I have problems with jewish people also, when I went to Iceland last year trying to go to europe to try to live better israeli jews were group stalking me at hostel in Iceland. For some reason they are out to get me. Why, I am not totally sure. Since they can listen to all conversdations at all times perhaps disparaging remarks I have made in private conversations at some point, or also I subscribed to the Spotlight newspaper in the usa in the 1990's for several years until it was put out of publishing by ops. Could you please tell me, do you know of anyone going to or any information on south america as a place to try to go to possibly live? Venezueala or Bolivia or some other possibly? You must have contact with many TI's from all over. There are some TI's who have gone there I understand, saying things are better, sketchy information, not sure of the source.

Yes, I have suffered everything you (John Finch) have, not to such an extent. I have had the worst gang stalking of anyone, anywhere I have ever read of or found. For 25 years, some years less, a big offensive began 2002. I have had little v2k or the torturous kind of electronic, to the level of outright torturous pain. It is a more gradual, slow life debilitating, destroying kill. However they are threatening me with both, which would be a disastrous mistake on their part, though they seem to take this course of action in everything.

The dream manipulation is very bad, for me three years now, everynight. All that you describe, just exactly. Every single night. Four day headaches, waking up drained, exhausted.

What I wanted to tell you is the radio, dj, television newscasters, in the states here national radio commentators radio shows like Rush Limbaugh, Paul Harvey, television national besides local even all this in the mid 1980's this started for me. I may have been an early test case. I have been government/perp experimented on since age five, 1960, extensively psychologically tested in the military 1973/74 so I could have been a ready known test/target for this. The television technology hook-up has become better since the mid 1980's. I think it was costly or more difficult for them to do then because they stopped it almost completely after three years or so, it really slacked off then began much more again with better bandwidth, computer equipment in the early 1990's. One thing that they never did and I think is a newer technological development is about, 2000 or so they began getting this ability to every time I turn on the television or radio it perfectly on a anchor/perp word or phrase, in a longer complete perp commentary. The exact perfectness of the very first word being an obvious beyond any doubt sensitized anchor they did not do in the 1980's, this I think has been developed. The radio dj's in the 1980's, live especially local would immediately such as in mid-sentence begin talking to me, though it was like immediate feedback of me turning on the radio. Now commercial, program, anything on both mediums is on the exact word. I now and have for years watch or listen to neither much at all. Maybe the local news total forty minutes a week. The radio since 1984, first dj hook-up (known to me of course) just has never stopped or slacked at all over the years.

I have travelled all over the US, 48 states, and some foreign travel, been gang stalked harassed everywhere. Constant law enforcement over all the years too. Though one big point, all my travel since TI targeting began in 1984 has been to NATO countries or just very brief border town crossing in Mexico where I think Americans just followed me there for a few hours. In first Europe trip 1991 it seemed Americans were following me, not Europe nationals, surveillance but not much harassment. That year was probably the lowest of any of my harassment years.

Robert

I have had much of the same experiences. I just wanted to tell you the TV/radio direct interaction started with me in 1984 (radio), 1985 (television). The technology has seemed to evolve and get better, the television part since those early years, probaly a lot better bandwidth, cheaper and easier to do.

This technology and invasion of rights has been going on long before this new war on terror.

The difference back then I was so alone, now many more victims, more information. Keep getting the word out, your story, all these people may be ignoring you that doesn't mean your efforts are doing much to stop this or get these lower level operators to realize what they are doing.

April 08/09 Today in Court the Dr. David Craig gave his report. He says I suffer from a Delusional disorder but I'm fit to stand Trial. Judge Orr said he decided I was GUILTY on March 13/09, the day he ordered the Assessment. The recommendation is I be held at the Waterford Hospital for further treatment, drugs. The Judge asked if I want to get an Out of The Province Opinion, at my own expense, I have until April 21, 2 PM to do so. For doing what the Law says I have to do, Report a crime, now they will shut me up with a Mental Hospital and drugs. **Petition date starting in Ottawa and Toronto from Aug. 25, 2009**

Dear Member of the Canadian Government:

CC:

To Whom It May Concern:

This letter is to ask for your help for the many constituents in Canada who are being affected unjustly without their informed consent by Psychotronic (or Mind Control, Electronic, Directed Energy, Neurological, Non-lethal) Weapons.

We are writing you on behalf of Canadian Organization of Victims of Psychotronic (Mind Control) Weapon. We, and many others, are being TORTURED AND MUTILATED IN A MIND CONTROL CONCENTRATION CAMP 24/7. We wouldn't be tortured and manipulated in a properly functioning legal system/society.

Victims of Psychotronic Weapon detail the most extreme and totalitarian violations of human rights in human history, including the most horrendous incidences of psychological torture, mental and physical mutilations. Criminals place human subject under continuous surveillance, no matter where he/she is; they monitor human brain, including thoughts, reactions, motor commands, auditory events and visual images; they continuously alter consciousness, introduce voices, noises, other disturbances, commands, images and "dreams" into the brain; they directly abuse, torture and hit bodies - including performing advanced medical procedures - from remote locations. The technology they are using is so advanced that it allows the controller'(s) to see through the eyes of the targeted individual, essentially seeing whatever the victim sees.

These are some of symptoms of targeted individuals:

- 1). Microwave hearing and torture with intense loud electronic sounding noise
- 2). Visual disturbances, visual hallucinations
- 3). Manipulation of will, emotions, feelings, perceptions
- 4). Manipulation of human behavior: forced speech, involuntary body movements, transmission of specific commands into the subconscious, compulsory execution of these commands
- 5). Reading thoughts remotely, retrieving memories, implanting personalities
- 6). Debilitation of mental acuity, inability to concentrate, disruption of ability to think rationally and independently

- 7). Loss of memory and knowledge
- 8). Inadequate states, which targeted individuals have never experienced before (states of narcotic intoxication, depression, obsessive desires and so on)
- 9). Control of sleep patterns: sleep deprivation or uncontrollable sleep
- 10). Blurred vision
- 11). Cramps, seizures and spasms
- 12). Excruciating artificial pain in any part of the body, for example, heart attacks and other symptoms

We have contacted police, RCMP, Security/Intelligence Agencies, Courts and other Government institutions over and over and over again, but have had our appeals for assistance and protection almost completely ignored or suppressed. Government “doing nothing” in this situation is a form of sanctioning these horrendous fascist experiments with psyche on innocent and defenseless people, that is why Canadian Government is responsible for these crimes. Government of Canada must uphold the rule of National, International and Human Rights Law and protect Canadian citizens by these laws, instead we see the huge disconnect between its professed Principles and Values and the reality.

It is our responsibility to record and alert the world to these horrendous crimes and the extreme danger that these technologies pose to democracy, human rights, privacy, mental and physical freedom, health of all people. These are the most horrendous weapons and crimes imaginable, and the people, using them, are mass-murdering conspirators, pursuing fascist, totalitarian, fundamentalist schemes.

“Doctors Mengele”, who started developing these techniques in concentration camps during World War II, were brought over here from Europe after the war to continue their atrocities. MKULTRA was the first of these illegal and immoral experimenting with unwilling victims, we are the latest victims. THIS MUST STOP, and the responsible people exposed and brought to justice for these unspeakable crimes against humanity. We demand only that human rights are respected, and the Canadian Government appoints a Committee to get to the bottom of this most serious matter based upon the evidence piled up, which was collected, intercepted and captured by the victims years after years.

This gross violation of human rights must be investigated immediately.

United States Senate Washington, D.C. 20510. Phone: 202 224 4242; Fax: 202 224 3479

Dear Senator,

Thank you for taking the time to hear our concerns. As our lawyer has stated, we are victims of covert criminal activities that have gone on unchecked for far too long. It is a campaign of lies, coverups, suppression, control, harassment, and domestic torture. All across this country and the globe covert harassment groups have sprung up and have begun to civtimize mostly those who are considered to be disenfranchised. In our society this applies to blacks, women, children, the elderly, gays and lesbians, those who are institutionalized with mental illness, prisoners, newly immigrated citizens, as well as many unsuspecting, law abiding Americans. People in every state of the union are being targeted for abuses such as stalking, directed energy weapons assaults that include shocks, stings, burning, nausea, disorientation, to name a few. The average American would be astonished to learn the extent to which classified surveillance technology has advanced today; to learn that remote manipulation of the human mind and body is now possible and all are at risk of abuses at the hands of technological predators. We, the undersigned, are therefore compelled to request that congressional hearings be held to examine our issues and hear our accounts of what is happening covertly in this country. It is time to end the cover-up and restore our country once again to its founding constitutional principles of freedom of justice for all.

Derrick Robinson, President  
Freedom From Covert Harassment and Surveillance

Dear Senator,

Thank you for taking the time to hear our concerns. As our lawyer has stated, we are victims of covert criminal activities that have gone on unchecked for far too long. It is a campaign of lies, coverups, suppression, control, harassment, and domestic torture. All across this country and the globe covert harassment groups have sprung up and have begun to civtimize mostly those who are considered to be disenfranchised. In our society this applies to blacks, women, children, the elderly, gays and lesbians, those who are institutionalized with mental illness, prisoners, newly immigrated citizens, as well as many unsuspecting, law abiding Americans. People in every state of the union are being targeted for abuses such as stalking, directed energy weapons assaults that include shocks, stings, burning, nausea, disorientation, to name a few. The average American would be astonished to learn the extent to which classified surveillance technology has advanced today; to learn that remote manipulation of the human mind and body is now possible and all are at risk of abuses at the hands of technological predators. We, the undersigned, are therefore compelled to request that congressional hearings be held to examine our issues and hear our accounts of what is happening covertly in this country. It is time to end the cover-up and restore our country once again to its founding constitutional principles of freedom of justice for all.

DEAR SIR/MADAM

### **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

23/1/14

Hi John Edward Robinson here. I first want to think you for your help and support of Targeted Individuals (TIs) of which have been one for over five (5) years now...and yes I am aware of your experiences also. I know you are a very busy man so I will get right to the point and not waist any of you time.

Over the years I have been torture with "Direct Energy Weapons" on ever part of my body and I must say it appears that their technology is improving rapidly...I have 12 to 24 helicopters around my home every day and night and they (local Police and members of any other government agency that may be with them including some local citizens) and they also occupy homes adjacent of my on every side (I which I knew how to create computer animation because I could give some very good graphics of the way it is done from the air and from the homes of my neighbors). You are a Doctor so you will be able to understand the following.

For years I have periodically performed research in an effort to understand exactly what is going on in an IT environment especially in the body as we are being tortured with these energy weapons. Additional; why are they so aggressive with the torturing, if it was all about the surveillance they will not have to make their presents know by the means of using such acts. >>>What I have learned is that each shoot of energy that inters into the body produces free radical activity in the surrounding cells where the bust of energy in injected into the body. The body responds by sending the necessary vitamins, minerals, and trace-minerals to that particular location in an effort to correct the problem (therefore each shoot taxes the body for these elements which create a drain of these vitamins, minerals, and trace-minerals on a large scale). In accordance to the last e-mail that I sent out (in which I disclosed briefly the technology that is used to perform these torturous acts) when they set up shop in the homes of IT neighbors they have with them the necessary equipment to not only see and hear through walls, but also check an IT's vital signs, and perform what I believe to be a cat-scan in real time – meaning they can actually sit there and what all of the functional activities of a human cell and see the damage that they are causing right then at that moment.

After learning this I began to increase my intakes of foods that will produce a balanced PH leave, what I have learned is when ever my PH level is in good stand (in the right range or heading there) the torturing increase tremendously to such a degree that after they are done I can literally smell ammonia coming out of my pores in the form of vapors (so, at this point I know without a doubt that they have performed the necessary actions to disrupt my blood PH leave and place it in a negative place on the PH scale). I have read an article of research performed and completed by the US government and Japan on how energy, radiations, radiation particles, and it does not matter if the ion charge is positive or negative both still cause this effect just on different scales. NOW, THE PUNCH LINE is the conclusion of this research states basically that they have learning that all diseases, sickness, and illnesses can only live in such a negative PH leave...therefore diseases that have overtaken any portions of a human (host) body it can literally feed feast on it in that state (that state is first of all a negative PH level [lacking oxygen, sodium-bicarbonate], and secondly an environment that in cells that has had its electrical system structure damage to such a degree that cells are becoming weak [leveling the host feeling tired, fatigued, and weak all the time] and dying). Now Doc tell me...you are aware that if the blood PH become too acidic (acidosis) the host is or would theoretically be considered on their death bed...right? yet the US government or this secret shadow government has over stepped the structure of the US government and allowed such weapons to be used on US citizens for what appears to be no legal reason at all...or maybe for the sake of seeing what the long-term effects will be.

Now tell me Doc in your opinion if the military, government or secret shadow government truly believe these energy weapons are non-lethal why are they not using them on their own family? The new torturing body parts on for the last couple of weeks have been my head have been tortured extremely and excessively...and the top and bottom of my feet to a degree that I wake up and go to bed every day with them being inflamed (swollen). Have you received any good replies of help or correction of this issue?

5/2/14

I have been sending you e-mails for months with complaints of my surveillance and electronic harassment events and never formally introduced myself to you. My name is Edward Robinson, I am 45 years old, and living in Fresno California USA. For the past nine months I have been working a franchise that required 12 plus hours five days per week and between one and three hours per day for the other two days. I just ended that job in hope of obtaining another with better hours. This gave me the needed time to read the e-mails I received from you and some others that were sent from some of the entities that you sent letters to. Some of the things I read lead to expound in more detail than what I have exhibited in my e-mails, some of these you have stated in some of the hearings that you have attended.

From the first day this torturing started for until this day there have been slow progression in the method and style of torturing, but in the past three to five months that progression has been increasing vary rapidly. In the beginning they have occupied many residences around the two locations I have lived since this started, and cars followed me in the beginning and stopped for a while so it seemed but have started again about two weeks ago. Additionally there was only two helicopters following me everywhere I went in the beginning, then the two became three, then five, then eight, then 12, and then 24...the last time I counted them was about two and a half weeks ago and I counted 20.

You mentioned their ability to target organs, this is true I use to just move whatever body part that they were targeting and after I dodging them for a while they stopped for a while and stated again later, and I noticed that the more helicopters there were my ability to dodge them took more effort. I have watched the rapid movement of this technology on U-Tube that allowed it to track missiles and make them explode before reaching their target, but their technology seemed not to possess this ability in the beginning up to about five months ago. They surround me in helicopters which them the ability to target the same body parts in sequence according to the direction I turn my body if walking or driving, they can hit a moving target at any speed in a content pulse impact. I have been shoot through the back of my shoulder out the front into my left kneecap. I have been shoot countless times in my head, and other time it goes straight through the top of my head unnoticeable and maintain a content pulse on the top of my eye-ball. While driving I have been shoot in my feet and thighs in which the energy projectile goes through my flesh giving a strong impact on the part of thigh I am sitting on and at the bottom of my feet - give the impression as if the shoots are coming up from the street. For the past week they have been targeting bones, vines and arteries throughout my body which are extreme upgrades in comparison to the style use in the beginning. In the beginning I just received shoots consisting of pain, burns, muscle spasms too such a degree that my whole body tightened/tensed-up for a period of time in which I could not breath. After a year of so I began receiving continuous beam on one bicep, then both biceps a short time after that. Today I receive continuous on-going beams to my head, biceps, feet, bones, vines/arteries under my arm-pits, inner thighs, and neck. They have been torturing my kneecaps also for the past couple of years; before it started I use to squat between 405 and 600 pounds depending on type of squat performing today I could barley squat 300 pounds...every injury I have had in the past five (5) years have been received by means of them torturing me...and in my last e-mail to you I explained how the torturing is increased and intensified I take supplements cause my body's PH level to move toward a positive balance, and whatever portion of this balance they cannot get to the negative while I am awake they get it while I am asleep by torturing me on the top and back on my head, and the bottom of my feet to such a degree that when I get up out of bed I smell ammonia vapors coming out of my pores in addition to swollen lumps under my feet and pain in my kneecap areas due to being tortured in them the whole time I was asleep.

I am a student at the University of Phoenix about five classes from my bachelors' degree in Business/Accounting trying to obtain my CPA certification. Every time I am reading, studying are perform other school related activities the torturing increases in the area of my head, eyeball (and surrounding muscles), teeth, kneecaps and other various body parts which prevents my studying at full potential and this has been going on intensely for the last two and two and a half (2.5) years.

They pay close attention to all of my communications (phone, e-mails, family and friend gatherings) and make efforts to disrupt these events by the means of torturing me while around company. Whenever I leave my computer

or laptop connected to the internet unattended they put viruses on them, yesterday they started performing this act while I am on the internet doing school work.

PS. For the sake time (I know you're a busy person) I will end it here. This group/agency appear to uncontrollable and answer to no one. If I can help in any way feel free to let me know...and again thinks.

**29/3/14**

Edward Robinson here again...how are you doing? This is a message documenting some new facts, and venting a little bit. I have always thought that the helicopters that surround my home every day and night, and follow me every where I go torturing me were just focused on me and not my family. This is not so; Since my last communication with you my wife had a period where she was experiencing episodes of pain in her stomach and could not sleep comfortably some nights...then after about one week it was happening every night. After about two week of rigorous testing she had stage 3 cancer in the area of her stomach, liver, gallbladder, pancreas, and intestinal areas. Three days after confirmation she went through a rigorous surgery to remove all cancerous flash. Today she appears to be doing well, but it is somewhat of a slow recovery due to the extent of the surgery and all that was taken out.

Still, the helicopters still surround my home every day/night, and follow me every where I go torturing me. All of the supporting teams they have living in the houses surrounding my are still there. Every day there are intensifying their torture to the top and back of my head, neck, eyes, heart, and the organs of my mid-section. Their actions denotes that they are in a rush to complete the job...at this point I due assume that the completion would be product some form of cancer in my primarily in my brain or liver because for some time these two organs (head, neck, eyes, heart, and the organs of my mid-section) have been bombarded with such intensity if I am reading , watching a TV, on the computer, are simply just laying down these body organs are tortured as if they are I a rush to finish the job.

I have never been able to get my wife to eat many of the foods or vitamins that could help protect her from all this, but again...when I consume these foods and vitamins they can actually tell when my PH is balanced and they make extreme effort to detour that by the means of torture. I can literally hear them talking about me eating or drinking things that goes against their effort...this is when they all come together to torture me until my PH is detoured.

PS. You have a good weekend John, don't let anyone take that from you. God Bless.

**24/4/14**

Good morning John, Edward Robinson here jst checking in, wanted to share some additional new data of our issue and experiences of my wife and I. My last two communications to you are attached below for easy reference if need be. For the past couple of weeks there have been stalking agents staying in the main house (they still occupy (equipment / agent [s]) houses surrounding me) that they use next door to me putting together new plans while simultaneously training the new crew that will take over for the next six to eighteen months (typical pattern). All of the helicopters are still here every day and night.

In the communications below I mentioned that the purpose of surrounding targets is to increase the ability to torture the target in same spot in spite of the direction the target turn anatomy in...I also mentioned the upgrades in the calibrations of the equipment used for torturing. Additionally, I mentioned my issue with my pH levels and how it relates with the manner and method in which I am tortured. I do assume that the vitamins and mineral you mentioned working good because as I increase my dosage it allowed for better control of pH which in turn caused them to use much more extreme and desperate methods in torturing me (even now as I type this, my liver is being bombarded by them). I also mentioned how the torturing all day thing...continuously pumping my body with radiation, radiation particles, and electricity/energy.

The new thing they are doing now is instead of using all of the agents on the ground (surrounding house) and in the air (helicopters, drowns, and airplanes) to synchronize the specific area of target for torture as the individual turns their body in any direction (the way it has always been done). What they are doing now is:

- 1) A continuous energy flow to my feet causing pain, cracking bones, cramps, and numbness in them (all day, night, and as I sleep). These actions still causes my body to small like ammonia throughout the day and night to such a degree that my wife is really heating to be around me because it goes on all day.
- 2) I am still being shoot in my eye (also my head [brain and spinal Colum], mouth [teeth and gums], and neck

[and arteries on the neck]) and it is to the point where it is being done all day

Note: . I have learned by the means of research that the eyes and mouth are the fastest way to get radiation in the body.

3) I am still being continuously shoot in my knees all day to such a degree that the muscle tissue surrounding my knees feel like jelly extremely weak.

4) All day I am shoot with low density shoots all over my body (at times the focus is my circulation system [arteries and veins [primarily in my thighs, arm pits, and under arm areas] {including the liver, kidney, and intestinal organs}], other times the focus is particular points of my bone structure [feet, shins, sides of my knees, elbow, and hands).

Note: As I have documented before: all of the changes in methods and manners used to torture me, and the increase in the frequency still coincide with the fact that their equipment have the capability to see and measure in real time

- A. The production of free-radicals.
- B. The state of individual pH levels.
- C. Radiation, and radiation particles.
- D. The state (measure strength) of the cell(s) of any part of the body.
- E. In an individual dwell on their fears in thought form they equipment will pick-up on the thought and they will do their best to make that fear a reality (they are programming computers to do this at a slow gradual start constantly increasing the process in an effort to increase the measure of radiation in the Target).

I do not want to overwhelm you with too much reading therefore I will end it here.

**22/1/15**

how are you doing? I know I documented in my last e-mail to you that I would not bother you any more...I assumed "no reply to be = to I was getting on your nerves", and additionally, my PC and laptop was be hacked into daily. In my last e-mail to you I believe I explained that my wife had become a cancer victim. Well, she passed away on January 7, 2015 and she was tortured to the end of her physical existence.

I did not have the opportunity to reply to the last e-mail you sent out requesting support (by everyone sending their torturous experiences in). As of today, nothing has changed in the torture methods and level of intensity of the torture in comparison to all that I have described before. However, the frequency has increased and the primary focus is still the same with the addition of inflicting physical injury everyday in the areas of my:

- 1) Major joints: ankles, knees, elbows, shoulders blades, and wrists.
- 2) Major arteries: Inner thighs, inner and top area of my feet, and inner arm area of biceps, on top where the vein is, and on the wrist area where you will check the pulse of a person.
- 3) Bony areas (areas where there is less flesh covering the bone): inner and outer of knee caps, including knee caps also. Elbows of both arms and the areas where the shoulder blade connect with the bone of the biceps and triceps areas, and my skull (whole head) including all areas of face, head, and neck.
- 4) Major organ areas: everything between my private parts and my Adam's-apple, and these areas are tortured from shooting me through my back side and front side.

The increased frequency of the torturing: appears to be an intense effort to accomplish a speedy end to what they desire to accomplish.

**6/9/15**

Hi John Ed here from Fresno...just wanted to give you an update on torturing techniques.

Today they now have and is using the same Lazer technology that is used to track missiles in mid-flight and destroy it before it reach its target.

New additions to the preferred target areas for torture and mind/mental warfare are:

\* the brain, face, neck, eyes, teeth, ears, and these areas are being tortured with a sense of desperation to complete the job.  
\* spinal cord from base of head to top of butt/lower back, shoulders, biceps, triceps, elbows, wrist, hands, chest, and stomach. All torture is performed in an intense manner including intent to inflict hurt, harm, injury, attempted murder, and eventually murder. NOTE: one would not use such extreme measures if these were not their intentions.  
\* knees are tortured 24/7 on all sides with the intentions of crippling me so it seems. Hip joints, muscles in lower back, feet. NOTE: EXTRA EMPHASIS IS PLACED ON ALL JOINTS ON MY BODY.

**11/2/16**

I am experiencing increased tortures various methods and fashions that denotes a form of experimentations with the aim being still "Slow-Kill". However, the greater intensity and constant change of methods show extreme desire to stagnate or stop all individual desires, plans, and goals. In the absence of fear within a targeted individual it appears that the entire have is a different style of torture that appears to aim at dismantling bodily functions (causing malfunctions). All of this is in addition to all that I have documented before. Nothing has changed to favor the tortured individual. They are constantly upgrading their techniques (of physical torture to cause mental instability, and interruption of normal behavior patterns), performance of their technology, and efforts to cause these individuals to desire nothing (in life in general), and do nothing to achieve anything or make daily accomplishments.

Question: Have there been any techniques or technologies that have been successful at combating any or all these attempts (which also include attempted murder, assault-n-battery, aggravated-assault, and not to mention that many have been murdered as a result of these tortures during the past 12+ years) on "Targeted (harassed and tortured) Individuals?"

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**2/8/13**

Just to know I am not alone in this madness is empowering. Here is just a brief summary of my experience:

It was hard to believe, when these horrendous crimes started happening to me. It was like something you see straight out of the movies. Nevertheless, what has happened to me and many others is real. When I found out there were other sufferers, it was empowering, I know now when I tell my story, somebody would believe me.

The reality of 24/7 electronic surveillance, mind rape and other evil criminal acts became clear to me in 2009 when "they" started to harass me on my job through the strategy of false accusations. Because of it, I lost my job. They would come into my home and take things, and they also vandalized my car. Now, I have no car to drive. I am presently experiencing group harassment from people I know and people I don't know. I forgive them because I now know they are also being controlled against their will. They are victims as well. They taunt me about personal things going on in my home and my mind that no body should know about. I can still scarcely believe it even though it is being done to me on a daily basis. There is the constant knocking sounds in my home to drive me mad and the constant interfering with opportunities to get work to support myself. The abuse has taken its toll on me emotionally. It is because of the grace of God and reading the Bible, I still have my sanity.

Looking back, the madness started between the middle 1980's and early 1990's. Strange things started happening (too much to go into detail at this point) that I couldn't make sense of, so I put it out of my mind just to get on with my life. All I know to do for now is pray, fast and believe that we are all people that the "Living God" cares about

and that he is going to do something about it. It is going to take a power greater than our selves to deal with this evil. I cannot give up hope. Some way or some how, God is going to send the help we need.

I am praying for all the victims on a daily bases.

Estoy viviendo una situación muy difícil un poco más de tres meses y buscar, la ayuda de alguien que pueda ayudarme a resolverlo, ya que esto es peor por el día .. Mi microempresas fue invadida y conectado a una red de piratas, el

grupo instalado varios dispositivos que funcionan a distancia y el gatillo de bloqueo en mi líneas telefónicas (fijas y móviles), para compartir mi impresora, etc.Além este, al parecer hay algunos miembros que residen en el mismo edificio que yo y varios equipos punta utilizada para penetrar y manipular la vida de las personas que el equipo: \* Satélite (Nahuelsat ejemplo adjunto) \* Sistema de red (NGN ejemplo "New Generation Network), VoIP (por ejemplo, la empresa Tmais) ()

\* Computadora con banda ancha y de alta frecuencia (por remota DataLink) Meses atrás, me di cuenta de que era monitorado. Nessa mismo tiempo un archivo ha desaparecido de mi escritorio y encontró que mi máquina estaba conectada a una "red de reunión" o una "reunión en línea", una red de piratas informáticos con numerosos participantes, ubicadas en diferentes puntos, conectados por el mismo servidor Después de una exhaustiva investigación, descubrí que el control interno se realiza mediante infrarrojos, que pueden r activado a distancia por los dispositivos móviles. Esto, a su vez provoca la captura de contenidos de audio y vídeo, que se produce a través de las fuentes de energía en el hogar (principalmente LED, pequeñas luces - rojo, verde o azul - situado en la mayoría de los aparatos eléctricos). En , el grupo utiliza un sintetizador para la transmisión de ondas de sonido y un software para los períodos de sesiones de hipnosis y regresión, que operan de la siguiente manera: Después de dormir, la víctima es sometida a la aprobación de la gestión de las ondas de sonido que llevan a nivel más profundo de la hipnosis. Es cuando se inicia el período de sesiones y proponer la víctima, sin posibilidad alguna de reacción 1) se bombardearon con frases persuasivas con el fin de actuar de acuerdo a la voluntad del hipnotizador, 2) respuesta sobre los hechos de su pasado, 3) muestran, por lo que lo que se te pide, sin restrições. existe de software por \$ 50 - el programa en EUA. Como sabe, nuestro cerebro es natural emisor de ondas electromagnéticas.

Con un dispositivo para captar estas ondas pueden actuar sobre la doble vía, o enviar y recibir las ondas de volta. Los efectos secundarios de radiación electromagnética que van desde la aprobación de la gestión de infertilidad y las enfermedades degenerativas del sistema reproductor femenino, la pérdida de memoria, taquicardia, aumento de la agresividad, etc. Algunos daños son irreversíveis. O grupo también utiliza otros accesorios utilizados en los juegos electrónicos ( "Juegos"), que permite muy buenos resultados: Es posible comprar accesorios como ciber oídos y los ojos "biónicos", que se implantan en la víctima fácilmente, a distancia, en un espacio virtual, a través de la emisión de ondas electromagnéticas. El proceso se realiza mediante el servidor de juegos de red, lo que hace que el implante ". Desde entonces, la víctima "escuchar" las voces de sus torturadores en el interior de la cabeza! La transmisión se realiza a través de la radio

De baja frecuencia y ondas, que pueden requerir una antena. Esta frecuencia puede ser ampliado a través de un chip de sintetizador, o un amplificador lineal (o ambos) que conduce a la gama de 80 a AM o FM. Onda corta y CB también suelen tener un rango de 80 kilometros, pero en condiciones ideales puede llegar a cualquier parte de planeta. Efeitos adicional en la edición de audio y vídeo: Las imágenes de las víctimas son decodificados pensamiento, puesto en marcha la red y editado. Como sugieren - que la víctima se cree que está más allá de su control de dichas personas, lo que provoca una gran confusión, ya que su subconsciente no reconoce estas opciones. También está la cuestión del sonido, utilizando programas informáticos específicos que convierte la pena prevista por la víctima en el editado con el sonido y el timbre de la voz de las características de otras personas grupo. Por último, está la cuestión del olfato! Cuando el

la víctima se reciben las ondas cerebrales - a sentir un cierto olor - y, a continuación, transmitida a la misma en situación embarazosa. Por ejemplo, el olor de las heces durante una comida. ([www.digiscent.com / bcpg / index.php](http://www.digiscent.com/bcpg/index.php))

Una rama del grupo se extiende a las empresas públicas y privadas, en instituciones de gran tamaño, posiblemente como Petrobras, Telemar, TELSUL, NET, TVA, CORTE, RÍO DE JANEIRO, outros. As entre empresas de telefonía, por ejemplo, también tenían sus sistemas de

invadido en pirata, porque en varias ocasiones, miembros del grupo pueden entrar en el bloque y las conexiones actuales, desconectar la línea. Debo revelar que los contenidos al mayor número posible de personas, porque creo firmemente que la mayoría de la gente puede ser presentado al chantaje y el soborno, en nombre de las invasiones criminales. **23/7/09**

I have been experiencing some unpleasant stalking which after reading a number of articles (i.e., Privacy - The Menace of Satellite Surveillance by John Fleming on "Educate-Yourself") I have confirmed the real possibility that I am being stalked via spy satellite. I have learned that these Spy satellites (i.e., NOX/RIFD) are being used by private individuals which explains why I have been since 2008 been stalked/harassed and taunted. I came across your email through one of these articles and I am reaching out to you to see if you may assist me to end this satellite stalking.

Please advise if this can be possible. I am at this point desperate to find the means to end this satellite spying/harassment. I thank you in advance for your attention.

**25/7/09**

No, I am not completely ok, with the harassment 24/7, it is becoming impossible to be human. Anyways, I have dual citizenship, U.S. and Dominican Republic. I look forward to hearing from you soon.

Helen Roedrig of New Mexico is being tortured very very much at the moment. Her torture began in New York in 1991. There is a Blackwater camp very near her in New Mexico and it is very bad. Blackwater Inc is a Halliburton company and Richard Cheney are responsible for her torture. She has physical burns on her from Directed Energy Microwave weapons and this has been documented.

My name is Lisa Roehrig and I have been awake to the fact that I suffer from mind control for two years now.

I have controllers who have predicted weather events and murders to me and then returned to control me after the events.

I have seen crowds paused while I walk among them.

I have been tortured more than I have ever known to exist in all of human history including burning, genital electrocution, feeling the side of my face ripped/cut off of my head and the wounds in my face raped, and much other pain, all stemming from my neurology. I have a missing tooth with no nerves in it because of a root canal done previously that can even be made to hurt and feel like it is being pulled out, so I know it doesn't have to use nerves and only the processing center of the brain.

I have had almost no communication with the world for over a year as people's faces and speech will change and I can not process who I am talking to, their race or age or sex, or what they are saying to me. I have lost my husband in shopping malls because so many people look exactly like him that I follow the wrong people.

I have seen people's faces change race while I am speaking to them.

I have been tortured, for instance, and had people ask if I am ok, only to feel my face smile, my mouth move, and my voice tell them that I am fine, when in fact, I am not.

I have had more communication the last three months but this week I can not access/read communication media very well again and people can not hear me when I speak again. I fear that I am running out of time to communicate at all again and I beg for a mercy killing daily before that happens to me again. It will not let me commit suicide as it takes over my arms and body if I try.

I have been walked against my will into traffic, into other people, my arm has stabbed me while I have fought it. My arm has strangled my husband against my will. I wake in the night and my arm is sexually assaulting me against my will and I can not stop it, even when children are sleeping near me.

I have been lead to consider that my body "drivers" are now planning on robbing a bank with my body. I have been walked while unconscious and came to across town in too quick of an amount of time to have walked. I wonder if I was in a car. I have noticed half way through my day that my underwear is simply missing from my body.

Torture, blackmail, and many more ungodly devices have been used to silence this. I plead that the truth comes out globally about this because I believe that it will end the need to torture, blackmail and silence those who are silenced.

Please tell my story. I don't know how long I will be able to, and I will be tortured without the mercy of death even, until the truth comes out.

If you can not do this for me, at least pray for me daily as I may be being burned alive.

My name is Lisa Roehrig and I live in Ottawa Canada.

They have watching me 24/7, I used to smoke crystal meth at one time, they knew right away. How? Because I was implanted with a Verichip, biometrics and other bullshit devices, they torture me, went to my medical doctor, gotta clean bill of health, they I got a blood clot almost two years ago, then my boss told,e I never had a blood clot, then he asks me everyday what I had for dinner last night, not only the

computer they can use, but it's downloaded onto their cell phones. They do damage to my 370 Z, after I park it somewhere, while in am got, they damage it. Right, there's satellites watching me do this email. My name is Dwight Rogge and I am bi/sexual, they robbed me, took my out of my money market, \$25000. They slandered me on the front page of a newspaper last year, it goes on. So, what do I do about my family.

What can I do to help?

A bit about me:

I am a 20-year-old male who lives in Toronto, Ontario, Canada.

I was severely traumatized and dehumanized around my 18th birthday at Sunnybrook hospital, made to believe I was going to be in an oven-like machine forever.

I continue to be abused in milder ways every minute of my waking life, forced to communicate with the perpetrators, having thoughts and speech blocked, encouraged by people to stay quiet as I once was and take antipsychotic medication.

I want to do what I can to help.

CASE SUMMARY: Organized Stalking

VICTIMS: Mr. and Mrs Garry Romanik, 30 Northeast 100<sup>th</sup> Street, Miami Shores, FL 33138-2315, USA

TEL: 305-775-2653

TARGETS SINCE: Nov. 2000 (Atlanta, GA, U.S.A.)

TARGETS TODAY: Aug. 7, 2007 Miami Shores, FL, U.S.A.

WEBSITE: [http://www.freedomfchs.com/unwarranted\\_surveillance.pdf](http://www.freedomfchs.com/unwarranted_surveillance.pdf)

It seems improbable that the Organized Stalking incidents described below can happen multiple times a day, for the past 6 years, in two different states without the knowledge of, participation in and protection of rogue elements of law enforcement, including federal agencies. Sadly, one is left with only one conclusion, that Organized Stalking, in the form of criminal menacing, harassment under the color of law, reckless endangerment, and using vehicles as deadly weapons, are illegal COINTELPRO/MKULTRA-like tactics employed by Government Intelligence Agencies or those in their employ against innocent citizens for purposes of denying First, Fourth and Fourteenth Amendment rights.

SEE: [http://www.icdc.com/~paulwolf/cointelpro/church\\_finalreportIIIa.htm](http://www.icdc.com/~paulwolf/cointelpro/church_finalreportIIIa.htm)

It begins with ...

Criminal Menacing/Aggravated Stalking and Death Threats - being tailgated by vehicles with high beams glaring, menacingly in your rear view mirror. Eventually, your local police begin eyeballing you in traffic, as if they know who you are. It begins when you notice license plates that end in JEW, JFK, D1E, XXX, WOW, GUN, WAR, NSA, FED, EVL, GIT and RF N MF.

It begins with... daily sightings of former Chevrolet Caprice police cruisers, now re-painted in civilian colors with blacked-out tinted windows. It begins with an unusually high number of sightings of unmarked Ford Crown Victorias and Mercury Marauders.

Fourth Amendment Violations begin with - phone taps ... hearing echoes of your voice when leaving yourself messages, noting stalkers license plates. It begins with - directed conversations -, when your friends and co-workers conversations mirror exchanges between you and your wife, spoken only between the two of you, in the privacy of your own home or car.

Selective Enforcement begins with...- Your local police department's inability to find the CD you provided documenting your being an organized stalking target, and detectives believing the garrote found hanging from a tree in your front yard got there due to - high winds?. After taking pictures of unmarked police cars blocking the right of way, the police cars aggressively follow you into your driveway. After questioning why you were taking pictures, you offer the detectives a copy of the CD describing your being the target of organized stalkers; in response they literally walk backwards, as if you're offering them a package with a bio-hazard warning label.

Reckless Endangerment/ Using Vehicles As Deadly Weapons begins with - oncoming unmarked white vans, daily approach your vehicle, at extremely high speed, while dangerously close to crossing over the center line, threatening head-on collisions.

It begins with...yearly nuisance auto accidents, for which the other driver is ticketed. The damage seldom exceeds

\$1,500. Sometimes the officer issuing the citation writes the wrong statute on the ticket resulting in the offender's traffic court case being dismissed.

#### Signatures of Intelligence Agencies

The military precision of these daily, organized stalking attacks, indicate a depth of technical resources, personnel and planning that can only be the acts of Government Intelligence Agency/ies. Providing the FBI with a CD describing your being targeted by gang stalkers, including still photos, video and license plates, brings no response from the Bureau.

#### Conclusions

In a war against asymmetrical enemies such as international terrorists, fanatic personality types, in positions of law enforcement and national security, are easily distracted and mislead, while having their eyes taken off the ball. Our targeting is only the tip of the iceberg. The cost to our country for this extremist behavior is already enormous and the meter is running.

### **STATEMENT OF CLAIM**

**A LEGAL PROCEEDING HAS BEEN CONSIDERED and will COMMENCE AGAINST YOU by the Plaintiff. The Claim made against you is set out in the following pages. IF YOU WISH TO DEFEND THIS PROCEEDING, you or a solicitor acting for you are required to prepare a statement of defense within 14 days of being served. IF YOU FAIL TO DEFEND THIS PROCEEDING, judgment may be given against you in your absence and without further notice to you.**

1.     Between January of 2003 and Wednesday September 30<sup>th</sup>, 2009 the Plaintiff has had ongoing Charter violations carried out against him by The Royal Canadian Mounted Police (Nanaimo Detachment and "E" Division) and The Province of British Columbia through the use of experimental neurotechnology and a two-tier Province of British Columbia/RCMP network computer environment, microwave communication and wirelessly transmitted bi-directional signals affecting the Plaintiff's neural synaptic brain activity and memories. Specifically, **Section 7** LIFE, LIBERTY AND SECURITY OF PERSON, **Section 8** SEARCH OR SEIZURE, **Section 9** DETENTION OR IMPRISONMENT, **Section 12** TREATMENT OR PUNISHMENT and **Section 15(1)** EQUALITY BEFORE AND UNDER LAW AND EQUAL PROTECTION AND BENEFIT OF LAW. The Plaintiff and his ex-common law wife were both injected with cranial microchip implants under direction of the RCMP. The Plaintiff suffers from brain function and memory manipulation, cognitive psychological harassment, cognitive psychological coercion and cognitive psychological imprisonment facilitated by The Royal Canadian Mounted Police and The Province of British Columbia to initiate harm upon the Plaintiff causing excessive and undo mental anguish, psychological trauma, physical trauma and long term damage to the Plaintiff's person. These cognitive manipulations have physically and mentally affected every aspect of the Plaintiff's life, the future outcome of the Plaintiff's life and the Plaintiff's quality of life.

2.     The Plaintiff suffers from the effects and is seeking damages from Canada and The Province of British Columbia for an invasive experimental polymer/silicon cranial microchip implant that was injected into the left hemisphere of his brain under direction of the RCMP, Servants of the Queen. The implant allows for the administration of wireless microwave coded and decoded signals to be bi-directionally transmitted and received between the Plaintiff's brain, the implant and the computer environment. Affecting the Plaintiff's brain in an artificial and injurious fashion derogating brain function, memories and thought processes in a diminishing manner. The implants are experimental neurotechnology injected into the cranium and the computer environment is a wireless microwave restricted access network facilitated by The Province of British Columbia and utilized by RCMP Detachments in "E" Division. The computer environment is used by units and teams in the RCMP such as serious crime units and property crime units and offender monitoring teams along with constables, general duty constables and civilians and doctors employed by the Province under direction of The Province of British Columbia and the RCMP to conduct research, gather intelligence and surveillance on non-consensual subjects within the computer environment.

3.     The Plaintiff is also seeking damages because he has experienced undue stress, grief and mental anguish by The Royal Canadian Mounted Police, The Ministry of Public Safety and The Department of Justice not subjugating the actions of RCMP members active in the computer environment and also the Plaintiff's right to equal benefit of law and equal protection of law as outlined in the Canadian Charter by putting a stop to the continued use of the

computer environment and by preventing the ongoing harassment against the Plaintiff by members of the RCMP and civilian members of the public working under direction and in full cooperation with the RCMP (Nanaimo Detachment and "E" Division). Also, for the loss of his inherent right to brain privacy and the security thereof of brain privacy within the Criminal Justice System and within Law Enforcement, in turn affecting the Plaintiff's autonomy and security of person by the RCMP's use of illegal wiretap technology, such as this.

4. Since 2003, primarily over the last five (5) years, through the computer environment and the implant, the Plaintiff has been in direct communication with Nanaimo RCMP members and civilians under direction of the RCMP, non-consensually and through no fault of his own. The Plaintiff, while travelling the Island highway corridor between Victoria, Duncan, Nanaimo and Courtney/Comox has maintained a direct uplink with the computer environment through his implant. Also, within "E" Division, primarily, Vancouver Island, Vernon, Hope, Vancouver and Richmond the Plaintiff has firsthand knowledge to the existence of the ongoing use of a province wide computer environment facilitated by the Province and used by the RCMP ("E" Division) and also knowledge to the identities of non-consensual civilians who have implants and who are profiled within the computer environment. Civilians who know nothing about the implants or the computer environment or their inclusion within the environment. The Plaintiff is seeking damages for being included not only within the Nanaimo Detachment facilitated computer environment but also being inclusive within the "E" Division province wide computer environment.

5. The Plaintiff is also seeking damages for being physically aware of the existence of the implanted microchip and because of the physical discomfort of the implant, pronounced by constant stabbing searing pain in the area of the implant. Also, because of the RCMP and the Province being aware of these effects, not only from the implanted microchip but from the effects of bi-directional microwave radio frequencies signaled to the Plaintiff's brain through the implant and by the Province and the RCMP not taking the necessary steps in alleviating the Plaintiff's obvious pain and suffering, originating from the use of the implant and the computer environment.

6. The Plaintiff's neurons and neuronal structures have been affected by the use of the computer environment directed towards the Plaintiff's brain through the implant and by the RCMP allowing the continued use of microwave signals being transmitted to specific brain regions and to the whole of the Plaintiff's brain, creating artificially generated synapses and synaptic activity. Specifically, neurons that have been manipulated and or altered and or destroyed, synapses that have been artificially created, neural spiking in the Plaintiff's brain being monitored, memories that have been manipulated and or blocked and thought processes artificial signaled between the Plaintiff's brain, the implant and the computer environment. Neurons are biological entities unto themselves; each neuron within the brain is delegated to work in a cohesive manner with other neurons creating neuronal structures. When these neurons are manipulated independently and within these structures the effect upon the brain as a whole allows for the facilitators of a computer environment of this nature to control an individual's thought processes and brain function using microwave communication and a cranial implant. A technology based regime of experimental mind control and research facilitated by The Province of British Columbia and used by the RCMP incorporating neurotechnology, cognitive psychology, brain emulation, microwave communication, software programming, coded and decoded bi-directional microwave signals effecting brain and cognitive functions and a wireless network computer environment as a platform. The Plaintiff has been subject to the use of this technology by the RCMP and The Province of British Columbia since 2003.

7. Consequential damages are being sought in the event of the real possibility of a brain tumor or brain cancer developing as a result of brain tissue/scar tissue build-up around the implant and or also microwave radio frequencies transmitted to the implant through the protective layer of the brain referred to as the Blood Brain Barrier. Microwave radio frequencies originating from the use of the implant and the computer environment by the RCMP (Nanaimo Detachment and "E" Division) and The Province of British Columbia.

8. The Plaintiff is seeking relief from Canada and The Province of British Columbia for the RCMP and the Province violating the Proclamation of 1763 and the Plaintiff's rights as a Canadian citizen by molesting the Plaintiff, a Kwanlin Dun First Nation Status Indian through the injection of an experimental cranial implant into the Plaintiff's brain. Also, for allowing the direction of racial slurs, intimidation and harassment towards the Plaintiff by subjecting the Plaintiff to the injection of the implant which allows for non-consensual communication between the Plaintiff, RCMP members and civilians directly involved. Civilians and members of the RCMP who have shown propensity towards intimidation and racial motivation in continuing their mandate, as set out by the RCMP and The Province of British Columbia against the Plaintiff to further incur harm upon the Plaintiff's person. Racial slurs and comments that were designed and stated to demean and inflict hate upon the Plaintiff which has affected the Plaintiff in a long term and permanent manner.

9. The Plaintiff was employed as a Computer Sales Representative from 1997 to 2000 earning \$54,000 per year at Future Shop in Nanaimo. For 3 months in 2000 he was employed with Discovery Computers in Nanaimo and then was self employed with Connected Computer Services, working up and down Vancouver Island from Port Hardy to Nanaimo including Parksville, Qualicum Beach and French Creek as a Computer Installer and Network Support Specialist. He was earning between \$20 and \$60 per hour based on the client and the needs of the client and he was working full time hours. The Plaintiff has been on disability since 2002 stemming from Hepatitis C and the effects of the implant and is currently under doctor's care pertaining to his illness. His treatment is a combination treatment of Interferon injections and Copegus Ribivirin tablets; he will be cured of Hepatitis C in October of 2009. In 2003, the Plaintiff was subject to the injection of an invasive microchip implant under direction of the RCMP, non-consensually; written, verbal or otherwise because of charges brought against the Plaintiff by the Nanaimo Detachment RCMP in December of 2002, charges that were unfounded and later thrown out of court by his Honour Judge Joe. In 2005, his ex-common law wife was injected with the same cranial microchip technology by the RCMP without her written or verbal consent. The injection of the implant is a procedure that has had debilitating effects on the Plaintiff and has affected every aspect of his life including his abilities for current and future employment. Also, the Plaintiff has been in contact with Indian Affairs and Council for Yukon Indians seeking funding for tuition to gain his commercial helicopters license at Coast Helicopter College, however, in order for the Plaintiff to hold a commercial license he requires that signals to his implant cease and desist and the conduct carried out against him by the RCMP stop and he also requires and is requesting from the court to make an order for Canada and The Province of British Columbia as represented by The Royal Canadian Mounted Police and the Governments of Canada and British Columbia to facilitate and pay all costs for a surgical procedure to have the implant removed.

THE PLAINTIFF IS SEEKING RELIEF AND COMPENSATION  
FROM CANADA AND

**THE PROVINCE OF BRITISH COLUMBIA**

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I, Paul Rose, am a victim of torture and abuse using DIRECTED ENERGY and NEUROLOGICAL WEAPONS

technology. I have little exact knowledge of the weapons involved but I've made conjectures based on my physical sensations, personal perceptions, and mental aberrations caused by them.

The perpetrators of these crimes are using directed energy weapons and other strategies and tactics designed to destroy it's victims silently and without risk.

At the very head is the The C.I.A. and more importantly, wholly and openly supported by the current presidential administration G.W. Bush. President Bush has openly made criminal modifications, additions and violations to our U.S. Constitution in order to do this. According to their own chosen behavior these people are guilty of High Treason.

At the lower end, the troopers in arms, the perpetrators are community activists intent to fight crime whom have been cruelly malformed in their minds into performing extraordinary crimes of torture upon their fellow citizens without due process or cause.

This program has resulted in a shattered society of nonexistent trust or fellowship amongst neighbors and a mass population incapable of self-sufficiency and therefore handicapped to the degree that they are wholly dependent and therefore enslaved by a group of individuals intent on total control for their own purposes.

The time is well past due for the U.S. Congress and the U.S. Supreme Court to bring these criminals to justice starting with the G.W. Bush and Directorship of the C.I.A. They must be put on trial for High Treason.

The U.S. Constitution demands of a president found guilty of High Treason, corporeal punishment without exemption, not out of avarice but out of protection for our U.S. Constitution, Democracy, Life, Liberty, and the Pursuit of Happiness, which Americans have often sacrificed their lives for.

Thank you, Paul Rose

#### Case summary #1

I have personal experience in Magnetic Weaponry that

- 1) Paralyzes it's target instantly so that the target falls in mid step without knowing or remembering how the fall occurred.
- 2) Modestly paralyzes the mind so that the bodily functions continue but consciousness is lost, even as the target still stands upright. After this attack the target feels nothing and has no memory of what has occurred during the attack.
- 3) Using low intensity, long term direction of magnetism, a weapon that render the target staring, without higher brain functioning but still able to do simple tasks like feeding themselves or walking to the store, often without any memory of having done so.
- 4) High intensity, short term magnetic projection which renders it's target violent but outwardly imperceptible reverberation throughout the body.
- 5) Sound weapons which produce short blasts of air with enough force capacity to knock the target onto the ground.
- 6) Sound weapons which produce high frequency vibrations at the target which enter the targets body and also render the targets mental state almost functionally incapacitated for several hours.
- 7) A magnetic weapon which causes the targets brain to believe the target is moving when the target is actually stationary. This they use while the target is sleeping in a parked car. As the target wakes up, he/she goes into a panic perceiving the car moving toward a disastrous collision.
- 8) A magnetic weapon which causes vertigo.
- 9) A magnetic weapon which cause extreme, painful sexual stimulation.

10) A magnetic weapon which violently wakes a target. The target perceives a non-existent blinding flash of light and awakes fully, instantly and traumatically.

11) A magnetic weapon which liquifies the bowels which force the target to "soil themselves" in public.

#### Case summary #2

I, Paul Rose have personal experience in biological assault by before-mentioned perpetrators. These assaults are usually performed while target has been rendered unconscious from magnetic weapons.

1) Systemic viral infections.

2) Localised bodily infections, including communicable infections like staph.

3) Pain inducing assaults like subjecting the target to the sap of poison ivy or other irritants.

4) Twisting of teeth.

5) Painful bruising of muscles from extreme kneeding of muscles, again while target is rendered unconscious..

6) Painful twisting of joints.

7) Respiratory irritants that cause the target to cough uncontrollably for long periods of time.

8) A chemical which liquifies the fecal matter in the bowels and causes the target to "soil themselves" in public.

9) A chemical which causes extraordinary volumes of bowel gas which forcefully expel themselves in public.

I, Paul Rose have personal experience in psychological tactics and strategies designed to cause the target self-imposed destructive behavior.

1) Voices perceived by the targets brain but not existent, causing the target to question one's mental competency.

2) Injecting mental thoughts for many reasons, some of which are; To cause extreme perturbation of target until they act on desperate impulse. To cause target to make outwardly perceivable responses to the voices, putting target at risk of a diagnosis of mental illness. Causing a target to act upon suggestions communicated within the voice messages including suicide and homicide.

|  
3) Injecting dreams of a most disturbing subject matter.

4) Injecting thoughts in the wide awake target which are disturbing.

5) Entraining a target consciousness to mimic the perpetrators actions, like saying a word or coughing.

6) The literal reading of the targets thoughts.

7) 24/7 surveillance which include many varieties of tactics, too many to list in a summary.

8) Up to 50 people working in concert to perform a 'theatre scenario' for various reasons, often just to upset the target. Often to get the target fired. Always to put some kind of control over the targets behaviour.

9) Sabotaging a targets material possessions.

10) Subjecting a targets elderly family members to all these same things.

11) Subjecting an adult targets young children to all these things.

12) A deliberate program to totally isolate a target from all human connections.

I am willing and able to testify under oath, anytime and anywhere, without expenses compensated for.

I believe these actions are being done not to destroy the individual targets, although that is what they are doing as a path to their larger goal. I believe the ultimate goal of the program is to create a mass of unthinking, unliving humans who will live or die or perform any and all tasks at the behest of a group of individuals. I believe these individuals have not identifying bonds other than their socio-pathology and their desire for control. This is a war for eternal freedom. Not uncoincidentally at a time that humankind is on the verge of godlike technology. If The People win, we get to live forever in paradise and evolve into the next major jump of evolution. If we lose we live at the behest of a ruling party, wholly for their purposes with no escape possible and the eventual extinction of the species.

This is your charge in leadership. Do it!

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I support the world wide effort to stop the use of Directed Energy Weapons. Attacks from Law Enforcement evolved from physical attacks by police to physical attacks by relatives of police to false arrest to attacks by multiple criminals orchestrated by police and continuing to these directed energy attacks. All because I am out spoken about crimes committed by police. Also I don't have a criminal record.

**Below is a reply to another, one of many victims of the same:-**

I agree. My Claims state that I was attacked and hospitalized by Directed Energy Weapons, the symptoms of this attack are made to mimic paranoid schizophrenia. In actuality I was attacked and don't have mental illness. The

attacks were so severe that I probably suffer from post traumatic syndrome.

I think the first post was trying to help others get on disability since the attacks makes living a normal life near impossible. That is exactly what I had to do to survive. When the Judge asked what I would do while not working? I told him, "I will spend the rest of my life trying to prove who attacked me".

As we were walking out of the court room I heard him says, "He seems absolutely normal to me. I yelled back, "I am".

I've even called the Social Security Administration and told them of the growing number of people that were possibly going on the rolls of the disabled. And that in actuality they had been attacked by Law Enforcement using advanced electronic weapons. In their minds it only reinforced that I was delusional. Until we can talk to a Judge going to work using V2K our selves, we will be dismissed as delusional.

That is with the exception of the department of Justice, politicians and others who actually know the truth already. That is why they are the only people who have listened to me. I have only been able to talk to a microwave scientist at an air force base, About three people from the Justice departments division that tests less-than-lethal weapons and FBI agents. The latter still won't open an investigation even though they acknowledge this technology exists. So I keep sending my information to their crime tips Internet address. The FBI tell me that my local police are the ones I have to file with, but of course they refuse. So next I am going to file by a form from city hall so my accusations will be recorded and they will have to deny my charges on paper.

**24/1/2008**

I'm putting this up (\*\*below) because this is what my fate could have been. The police set up a false attack and falsely arrested me. I was trying to prove the crime when the attacks on me escalated. Then one night I was attacked with an LRAD type weapon and hospitalized. A scenario to cause me to commit suicide was played on me. They played a tape of my daughter crying and told me to kill myself to save her life. A call to her in the morning revealed the orchestrated attack. I resisted and survived. Later I was drugged to the point of almost death on 1,400 mg of seroquel. There is now a warning on this medicine that it can cause death at the regular doses of 600 mg and below. Our government criticizes China when they were doing the same thing to me. It is a global crime, created by governments against dissenting individuals. How dare I try to expose a corrupt police force. May Su Gang and all the others rest in piece for speaking up against repressive governments.

*\*\*Su Gang, male, 32, an employee at the Instrument and Meter Unit of the Alkene Plant of the Qilu Petrol-Chemical Company, Shandong Province. Mr. Su held a Bachelor's degree in computer science from Shandong University*

*Location: The Changle Mental Hospital, Weifang City, Shandong Province*

*In 2000, Mr. Su Gang was arrested three times by the security department of his company for practicing the Falun Gong exercises. In order to make him renounce Falun Gong, on May 23, 2000, the authorities from Mr. Su's company sent him to the Changle Mental Hospital, even though he was a healthy young man.*

*He was detained and tortured at the mental hospital until May 31, 2000. At the hospital, he was force-fed overdoses of drugs that damaged his nervous system. After going through nine days of torture in the mental hospital, Mr. Su returned home a different person. His eyes were dull and glazed over, his pale face was expressionless, his reactions were very slow, and his limbs seemed stiff. Although he was well cared for by his family, Mr. Su's condition continued to worsen. He died on the morning of June 10, 2000.*

We are war veterans and it should be known what we have gone through, maybe even how and why some day. This is the fourth world war where governments joined together and covertly attacked their own citizens with non-lethal weapons using psyop tactics developed from the stazi, other intelligence agencies and the cold war. How they blamed terrorism to enact laws to give them the ability and the moral directive to experiment, torture and kill anyone they wanted covertly.

Anyone else who wants to give their permission while they are still alive should do it. I'll store them on a group I call "[mcTIdatabase@yahoogroups.com](mailto:mcTIdatabase@yahoogroups.com)", this is empty as of now but was designed so we can store information that is on the edge including pictures. If anyone wants to send in their testimonial or witness accounts with permission to release any time or after their death send them to me and I will store them too. I will pick a few TI's to have the codes in the event my time comes. Just send it to me with the #411.

I also give my permission to post my name and my story \*\*. Maybe we should talk to the FFCH lawyer or Donald Friedman to see if there is a legal way to do this.

Hi. I read a online blog about gang-stalking and electromagnetic torture and it directed me to you. A lot of what it says applies to me. I have been terrorized. I live in the United States and am a thirty-five year old single female with no children (which might be important to note, since it could be a hate crime). The harassment started when I reported someone to the police and the local animal shelter concerning animal cruelty. At night, they started to make loud bird sounds as well as owl calls. I noticed whenever anyone living in my home went somewhere, the neighbor would start up his car and follow us and when we came home they went home (which I learned was called same time exit/entry). I noticed red and white vehicles and SUV's everywhere I went. My neighbor's son even drove a red pickup truck. My neighbor's son came to my workplace one day (a couple years ago) and said something bad about me to my manager while I was in the room. Other people have been job -blocking me and was trying to prevent me from finding employment. When the manager didn't terminate me from that job, the company representatives came and made the decision to close the local branch of that business which I assumed was just a coincidence. Then, my dog died from intestinal cancer which I wonder now could be from electromagnetic radiation. I got another job and when I was driving to work one day a gold-colored car drove towards me and tried to run me off of the road. I have had other strange events happen to me on the road also. I have had strange aches and pains like a sharp pain in the middle of my right foot, my scalp was tender and sore for a while, I have had lots of brain fog and have been forgetful, etc. People have followed me around public places and I have noticed many of them with smartphones in their hands. I was in public once and a group of men repeated something I had said at home in private. I would walk past someone and they would say negative remarks about me to other people and I didn't even know who that person was. I woke up one night, recently, and heard an owl call and when I sat up in bed, it stopped as if they knew I was listening for it. Currently, planes and helicopters are flying over our home constantly. I am deeply concerned about the long-term health effects for me and my loved ones if we are being exposed to high levels of electromagnetic radiation. I am starting to be concerned for my life also. The more I read about gang stalking and electronic harassment, the more unsettling I find it because I am convinced this is happening to me.

My name is Rouby, I am 43 year old female, and I am a victim of RFID Chip and electromagnetic weapons too ... I live in Canada, Ontario , ...I got your email from another TI Victim her name Debra Poulsen .. I have a lot of questions regarding this matter.!! also is there any organization able to help in this matter. I found it's hard for me here in Canada to find support especially after I lost everything, job, friends, money, family .. everything. The government here isn't supportive enough.

Please if you got this email, reply and I am real person and serious too

**6/5/13**

Thanks for the Emails you sent, It's helpful. You asked me if I am okay?!! No I am not, I am in Pain 24/7 in the past 13 years, didn't know what's going on with me. I thought it's life, and I thought it's the life style, never came to my mind for one minute, that's I was targeted and I am part of an experiment set up by Jewish Hospital in Toronto, Mount Sinai Hospital with the help of University of Toronto Students and all that sponsored by Jewish Community Centre in Toronto and by J.B. Morgan.

Shame on humanity, what Happened to me(/us ) was beyond imagination. I am still targeted till this moment and I will be always till I find out how to release myself from this Prison they put me in. It's 13 years of pain and suffer during this time I lost everything important in my life, friends, family, jobs, support and more, I thought life is harsh, but It wasn't, It's them the one who made it like that, I am still in SHOCK and DISBELIEF. I committed no crime to deserve that, and IF I did committed a crime it's better they punish me and tell me, not just leaving me not aware of what's going. In this 13 years everything happened to me, all kind of insulting and humiliations, .. It's UNFAIR. The one Million dollar question is how to get out of this WEB... and be free again.

Sir;: Do you know the feelings about living a fake life for 13 years,? everything around you is fake?, ... losing my real friends, and family my pets (cats). and Those Mobs sent me people who pretend they are my friends just to collect more information and make my life harder, They able to read my mind and manipulate me every single day. what kind of sickness is that.!!!... I lived 13 fake years of my life...

I will always wondering, WHY ME? to the rest of my life.

Is there anyway to get out of this, Is there anyone able to Help, I am in Pain, physically and spiritually. How to take those people to justice.?!!

I have a lot of questions, How to get rid of this totally and who's the one who's able to help me or us?!!  
Thanks once again for your emails, and support. I wish you continue in what you doing and stop them.

Sincerely,

I have been a TI for years. I am being stalked by the people behind my Father's murder. I suffer from a fair amount of electronic torture involving night sweats, migraines, leg cramps, racing thoughts, and shortness of breath. I also have to endure noise campaigns and break-ins when I am away. I have people following me everywhere. My late Mother had been a TI since my parents divorced back in 1974. I think my Parents and I may have been victims of M K Ultra because we lived in an area where it has been prevalent. I am sure you are familiar with this sinister program.

I found the information you sent out to be most helpful.

Again I ask you why can I not view any document within the folder -- what is the point of distributing the link to the folder endlessly if someone like myself cannot view the contents? Please answer this reasonable question or I will be forced to add your addresses to my spam mail. Please be reasonable and answer -- after all, I am a fellow target and would like to read others' cases.

I just received an e-mail from an activist who's been very important for us for a while who said that he's going to stop all activism and that he no longer has even a telephone. As a result, I'm disheartened and yet appreciate your continued work. I'm extremely hard hit by sleep deprivation and consequent chronic fatigue, as well as very limited funds as a result of global financial meltdown, so I'm afraid I can't do much (plus am intimidated by the possibility of authorities if I speak out -- I haven't been using a pseudonym so far so I guess that I'm too exposed). Given the difference in beliefs among TIs about, for example, whether organized (and not just remote) stalking exists, what hope is there for a unified message to be disseminated to the powers that be? Given the unfortunately

pathetically few responses to your heroic efforts to get this exposed and hopefully stopped, what can we realistically expect at this point do you think?  
Take care and I'm sorry if I sound too pessimistic,

I am making an effort to get assistance for victims of Electronic Surveillance/Harassment and Mind Control but we need as many signatures as possible to let this influential and effective group know and realize that we are suffering and we need their help.

My goal is to get 2000 signatures before I go to the ACLU with these Crimes Against Humanity. I am asking for assistance from all groups and organizations in letting people know of this petition both victims and nonvictims and asking all who believe in upholding Constitutional rights to sign this petition.

Could you please pass this on to all on your email list.

#### **Background (Preamble):**

There is wide spread evidence that a growing number of citizens within the U.S are being harassed and assaulted with directed energy weapons, false imprisonment due to victimization as a target, rape, breaking and entering of homes and serious health problems are being reported by people of all walks of life due to nonconsensual experimentation of directed energy weapons by law enforcement, the military and the whole sale of weapons and contracts by corporations to individuals to stalk, harass, torture and research on U.S citizens without their consent.

The ACLU wrote a report called "The Surveillance Industrial Complex: How the American Government is Conscripting Business and Individuals in the Construction of a Surveillance Society," so your group is aware that persons are being surveyed but the depth of harassment, invasion and human rights violations of the crime of Domestic Surveillance is one that must be fought and desperately requires representation. We are respectfully asking you to assist us in having a voice.

#### **Petition:**

We the American people of these United States call on the ACLU to assist us in our fight to restore order, justice

You seem to be aware of the overall situation. I am a survivor of Dr. Cameron and CIA experiments.

Would you contact me for further discussion, I'm in Vancouver, BC, Canada. My phone # 604-874-0778, I believe that we should coordinate our efforts? Thanks for taking the time.

**11/5/08**

Good day to all :

This is Pierre Samson, in Vancouver, BC, Canada. I have been an activist and spokesman, for those that can't since 2002, I'm sure you understand what I mean. Because of the different types of medical experimentations I was subjected to, LSD 25 and electroshocks amongst many others, I find myself in a different plane of reality than most. For many years, secrecy was the rules, and for many years children have paid the price, and I mean both girls and boys have been abused and tortured, all in secrecy. Now, we find ourselves at the threshold of a new beginning for future generations.

We owe it to the children of tomorrow, to take this burden on and deal with it in an intelligent fashion. Only with truth, knowledge and wisdom, can we equip the children with the tools they will need, to fix our generations mess. It's not by ignoring our own stupidities or denying our past mistake, to the children of today, that we will fix anything. As a victim since 1953, at the age of 6 until the age of 14 at the asylum, and of course, like all victims, we carry the scares for the rest of our lives. I wish to say thank you, to all the victims who have come forward so WE have a voice, also, I wish to let those victims who cannot come forwards, take courage, you are not alone.

Only in supporting each other with truth and honesty, can we show the children how to do it for themselves. Only in listening to each other, can we understand each other? Only by looking at our own pain, can we relate to others pains. I hope that you will take the time, to consider my views and opinions.

My main purpose for this communication is, to have people around the world, consider the following fact: that " WE ", as a specie, are on the verge of " Disappearing " our selves' This sphere that we call the planet earth, will be here long after we are gone. Which or what life forms will be left, no human will be around to know. We as a specie, have pillaged and raped this planet for an illusion or delusion of wealth and power.

Throughout recorded human history, dating back approximately 10,000 years, we have raped and killed each other for various reasons or excuses. Religious wars have been going on for thousands of years and still no end in sight yet. The main brunt of this evolution throughout the ages as been put on " Children and Women ". To this day, in the 21 first century, things have not changed. Wars are still being fought and new ones hatched. Women are being kidnapped for human trafficking in prostitution and children used as sex toys and exploited in child pornography. What a world!!

How did we come to this predicament in the first place? Technologically, we have the capability to put a man on the moon and yet, we can't find an answer for greed and stupidity? How is this possible? Why is it so hard for peoples to communicate with each other? There are 88,000 nuclear bombs on this planet, each and every one of them invented by and created by " HUMANS ", how stupid can you get? More than enough power to obliterate the surface of the planet 15 times, now that's "Power"? Not much for intelligence, 0.5% but, 110% for stupidity.

In the 21st century, we are moving away from blowing things and people up, to blowing their minds off. We have entered the actual physical age of mind control! From a perceived position of power, those in control want more than material control. They can and do control the physical world through fears and wars on the average individuals. If one does not obey the "LAW", they get thrown in jail or branded a felon or predator or what ever will sound good in the news, or start some rumor by what ever mean available. Those in power "DO NOT" have to follow the law, they just make new ones or amend the old ones as needed?

How is it possible for a complete stranger, appointed by the so called authorities, to be able to force your child to take medication that you Know will hurt your child, and if you refuse to co-operate with those so called authorities, in order to save you child, You Go TO Jail? What's wrong with this scenario? >> The system is designed so that in the long run, you can't find out who is responsible or accountable? <<

The big military complex as won the day? The CIA under the guise of national security and other BS excuses went on, in 1945 to import 9,000 plus German criminals of war and human butchers to the US under the project called Paper Clip. Each and every one of them received a full pardon, new identity and protection of the US government. Some went on to make the atomic bomb and other various projects. All the others involved in the so called medical experiments in the death camps, went on to work with the CIA in the MK Ultra, Blue Bird and other projects into mind control.

The perversion of the CIA went beyond human dignity in this field. In order to avoid legal repercussions, the CIA deliberately used " Orphaned Children " as guinea pigs. As an orphan, no one knows that you are alive really, only those in control. In our cases, the Duplessis Orphans from Quebec, Canada, we were in the charge and the care of the roman catholic church when the CIA came to Canada looking for guinea pigs. Over night in 1953, all the orphanages in Quebec, we're reclassified as Asylums and over 20,000 innocent, normal children we're labeled mental retards. \$0.90/day/orphan OR \$2.75/day/patient, you do the math.? This situation could only have happened with the full Knowledge, Participation and Co-operation of the roman catholic church, with the CIA and others. Shame on you!!!

To lay the blame at any ones door is impossible, there are too many guilty ones. Those that came up with the idea of using orphans as tests subjects? Those that made it possible, by providing an unlimited supply, of test subjects? Those that did used the kids as guinea pigs, in medical ( Dr. Ewen Cameron, McGill University ) experiments? Those that knew and did nothing about it? And the list goes on. Yet, there is something that most peoples tend to over look, the girls side of this story. Young girls that have been and still are victims of abuses and rapes, end up having a very miserable life as adults in most cases. A child, any child must be protected!

In this new world order, people won't be controlled by drugs! They will be controlled like good little robots, through radio waves! The process of thinking, involves the discharge of electricity, within the brain proper. A radio operates on the same principle, a discharge of electricity, in the atmosphere ( brain ). Radio waves or brain waves? Those victims that are suffering these attacks , microwaves, voice to skull and many other forms of abuses/attacks, are the new age guinea pigs. Like a radio, if you want to listen in on what is said, you tune the radio to the right frequency??? And then again, if you can listen in, it follows that you have the ability to transmit as well. A radio transmitter- receiver, the new drug to control the mass. Voice to Skull, obey the command or else?

I'm an old man now, the late fall of life so to speak. I regained control of my life at the age of 20, at that time I didn't understand what was going on or knew anything about the CIA or MK Ultra. I was aware of being very different than other people. I saw and understood reality from a very different context than most in society. The whole of societies was and his to this day, based on deceptions and lies. The POWER to control, through fear and ignorance! Because an individual as accumulated knowledge or university degrees, does not imply Intelligence. Far from it, does inventing and creating a nuclear bomb intelligence? Does destroying the very eco-system, that makes it possible for human life to exist: intelligence?

We are all unique in our personalities, each and every one of us sees and understands reality in our own way. In communicating amongst ourselves and listening to understand each other, we can learn how to help each other.

Each one of us, as something to contribute to , help build a better sustainable environment and world for Our children. If we fail to achieve an intelligence level, capable of dealing with today's messes and what is to come, then we don't have long to go.

For those who would like to make a difference and take some form of action, legal of course, please contact me at [samsongold@hotmail.com](mailto:samsongold@hotmail.com) , as a power of 1, not much gets done at the best of time, but the more voices that are added, the more noise can be made, so lets unite and work together the make a change. The more we listen to each other, the more work will be done, talk is cheap.

#### **A SHORT HISTORY OF MY LIFE:-**

St. Joseph Orphanage, Ottawa, Ont. , 1949, 2 years old :

St. Therese Orphanage, Hull, Quebec, 1951 :

Mont Providence Orphanage, Quebec, October 1, 1953

Mont Providence Psychiatric Asylum, October 2, 1953

Manchurian Puppet, 1961-1967,

**In my situation at the Mont Providence asylum, I was illegally labeled a mental retard by the Nuns, along with over 20,000 kids between the ages of 6 and 10. We had no idea of what was to come or happen to us. We were to be used as a guinea pigs in the CIA's mind control projects MK Ultra and over 200 subprojects , LSD 25 + Electroshocks experiments , Chlorpromazine and other drugs experiments , sexual perversions and so much more. To read about such things is indeed sickening but , to force innocent children to suffer to live these atrocities, after the Nuremburg Trials? Dr. Ewen Cameron , the butcher of children in MK Ultra 1953-1961 , was at the Nuremburg Trials in 45-46 , no excuses for this butcher , he Knew what he was doing. We cannot expect any quarters from those who are doing these things to us, they have an already quite gruesome reputation.**

The Declaration of Independence speaks for itself clearly, and we have been warned about the military machine? So again , lets empower each other.

Pierre Samson

PS: Can you post this world wide please, thanks for all the good work...Help anyone?

**13/5/08**

How can we have world peace, when there are individuals who thinks that, they are better than anybody else? For as long as there will be one individual, who believes himself to be superior to any one else , there will be no peace. Knowledge is to power as ignorance is to bliss? Is it better to be like cattle, being led to the slaughter house , or the herder, leading the castles' to be slaughtered? When you elect some person to speak on your behalves and to make decisions that will have major impacts on your life, shouldn't you have an understanding, of who this person is? Would you give your credit cards and pin numbers to a stranger?

These individuals that were elected to protect the people, are helping themselves to incredibly stupid bonuses and pension plans. What of the average Joe that is struggling just to get a tooth pulled ? Or then again, what of children starving in America ? I mean, Exxon only made 3 billions profits in the first three months of this year ? Do you think the president cares? I don't . What people fail to realize is, this is the one and only planet we have, there is no space ship that will take us to another planet, we exist only because this sphere, as all the right combination of elements needed for life as we know it. Now how ever, we are changing this combination of elements, this biosphere is mutating. For better or worse, only time will tell.

In the world of today, we have all types of electronics equipment, both on the surface as well as in orbit around the this planet. There are so many types of sonar, radars and what have you now, that scientists are warning the US and other military organizations, of the negative impacts these waves are having on whales, dolphins and other life forms, that uses these types of waves to navigate the globe. Since 2002, peoples from around the globe, have been coming forwards, with stories and testimonies, of humans having been used as guinea pigs, without their consent or knowledge. in these experiments. Many are suffering atrociously, imagine having your brain cooked by low microwave radiations? Or never being able to have silence, because some one is doing voice to skull constantly 24/7 ?

I believe the time as come, for those intelligent enough to understand what as to be done, to come together to work as one. How to achieve this goal? What can and must be done? By networking with each

other, sharing knowledge and empowering each other, we must rise above the mire, to create a better world for future generations. If we can't do this, then we have no future, our children will not survive this catastrophe. Future generations are doomed to be the slaves of those in control, just as we are today.

My name is Pierre Samson, I have survived the CIA's MK Ultra and Blue Bird projects ( 1953-1961 ), they would have made me into a perfect little Manchurian Candidate but for the LSD 25 + electroshocks experiments they did, I regained control of myself and went on to become myself, free of all shackles. At this time, we must all have a good look at the direction this world is taking and why, the only way to stop these attacks, is for us, the people to take back control of our governments. The government is there to serve the people, not big corporations like Exxon or the Rockefellers of the world.

**21/6/08**

Please, take a moment and ask yourselves, what is wrong with our world? For years now, peoples have been aware of the " Extensive " abuses of children through out the world. In the 17th and 18th centuries, the abuses was for and by the so called elites of society, slavery being a very lucrative enterprise, and old slaves not being worth much, children became the victims of choices, last longer and worth more. Those are the facts of those days.

In the 21st century, the slave owners have gone from being private interests, to being the governments biggest income producer, " Child Welfare " !! The government as the power to go into any ones home, and take your child by force, using so called laws? Who's laws? Who's justice? By being complacent since the end of the second war, we have allowed greed and stupidity to flourish beyond intelligence. Children are now a " commodity ", how many kids do you need for a budget to be approved?

My name is Pierre Samson, I am 60 years old and one of those kids sexually abused, beaten, raped, isolated and so on for 8 years. Used in the MK Ultra and Blue Bird projects for the governments by the CIA with the " FULL " Cooperation of the Roman Catholic church or the Vatican, they all suck !!! For the last 50 plus years, I have been watching and listening, nothing as changed and it never will, as long as peoples are scared to stand up, or its' not their problems. How can you get justice when there is none, how can you have laws, when the ones passing laws are crocked? When you are not willing to stand up for yourself, you become a slave! That much I do know, lay down and they'll walk all over you, that is what happened in Quebec, the people got intimidated by the police for the government. A police state?

Wake up before its to late? Have ideas, contact me, Thanks.      Pierre Samson

Being a survivor of MK Ultra and Blue Bird, observing the atrocities and stupidities, forced on Innocent Children by the so called civilized humans race, I wonder what life his all about? We have all this publicity about " Save the Children " from three dozen different+ organizations around the world. Yet, every day we ear about kids being brutalized or killed. Why his that?

Talk is cheap, politicians, bureaucrats, so called child justice systems, child workers, they don't care about the kids, they just want their pay check. And in some cases, the more kids that are apprehended, the bigger the bonus checks? You don't have to believe me, open your mind not your eyes? Look around, your kids could be next. Any one can call the child welfare peoples anonymously and spread some gossip, guess what happens next?

Unless we the people, reevaluate the so called justice systems and make the right decisions, the children of tomorrow will be living a nightmare. You can stick your head in the ground like an ostrich, but remember, your butt is sticking up, guess what gets it first? Those afraid to speak up today, be ready to be slaves tomorrow, unless you are an ostrich with a pea brain? Myself, I am at the end of my trip on this planet, but I would like to leave a better world for those to come yet. This much I do know, if we don't work together to build a better world " today ", there will not be a tomorrow for the human race.

**4/9/08**

We all need to organize! United we stand, divided we loose. What is it that we must do, our world has gone crazy! We has human beings, must stand accountable for our actions, how is it that corporations are immune, they can destroy the world with out any accountabilities or consequences', why his this? I survived the MK Ultra project of the CIA ( 1953-1961 ) I was 6 years old when it started, experiments with LSD 25 coupled with electroshocks, I have the documents and proofs. After 55 years, I'm still waiting for justice, why is this? I am one of over 20,000 innocent children used by the CIA.

When peoples refuses to stand for justice, you end up with dictatorships and slavery. Look around the world at other societies, that did not stand for justice, Burma, Philippines', Zimbabwe, China, Russia and the list goes on. What his the purpose of life, if you have no freedom? In Quebec, Canada; you do not have legal rights to your children's, the government does and can and will take your child for any reasons they come up with, check out SOS Quebec, these are just some of the things they do.

Are we so afraid of death, that we will bow to others wills? I know I am not. If you never challenge your oppressors, you will never be a free humans, only some one else's bitch. If you don't think for yourself, then you are some one else's puppets. How much BS will you take and believe in? Peoples better wake up soon, the New World Order is here. History shows that uncared for societies or empires eventually fall, Persia, Roman, and so on. Freedom is not cheap !

**4/12/08**

I am Pierre Samson from Vancouver, BC, Canada. I also have been searching for justice now for over 40 years, not just for myself, for all victims. I survived the MK Ultra project, I was used as a guinea pig for 8 long devastating years, from the ages of 6 to 14, I was just a baby at 6. What was done to me and the others, leaves very little faith in the human race. I have Official Documents from the governments and the Roman Catholic Church, where they admit what they did, JUSTICE, does NOT exist.

I'm sorry that you are also a victim, but don't give up. True. we will not get justice in the world of today, why, because people are Ignorant. We must continue to say what happened and why and who's guilty. For as long as people believe in gods and religions, we are screwed. This fight is not about rape or child abuses, it is about Intelligence, and on this planet at this time, very little is to be found. I was reading your last post at Soleil, for December, 2008. Yes the CIA does rule the world, because people are afraid, they would rather live as willing slave, paying their taxes, then standing up for what they know to be true.

A documentary program on TV in the USA called the " The Sins of the Fathers", where innocent young boys were sucked off and abused by this priest, a true event with proofs, yet, when the boys tried to tell their parents about this priest, the kids were beaten by their own father, while being told not to lie about the church. When will the human race achieve INTELLIGENCE, never I believe. So have faith in yourself and keep you chin-up. I have been watching your post and the work you are doing, thank you for that. It's not an easy victory to gain, but it's coming along, stay strong, Pierre

**Subject: Request for an Investigation - Harassment and Torture from Direct Energy Space Weapons**

Did you know that we are going through the largest Holocaust ever? You and your family may be involved and don't even know it because the space weaponry is invisible. Have you lost a family member from Cancer, MS, overnight Alzheimer's, heart attack or Parkinson's? **Please Read on.**

I am writing to you about a life-threatening situation that has ruined my life, my families' life and is slowly killing us. (My family includes the Sanderson's, Zureks, Gardners and the Grauls.)

I am a victim of electronic harassment / torture. Direct energy weapons including electromagnetic frequencies and microwave radiation, radiation and lasers which target my brain and body for 7 years or more. These are space weaponry and even HAARP testing devices to see how long we can survive the torture. Ionizing radiation is used as well, which is lethal, because I have had a lot of hair loss. I have it documented on a Geiger counter. They also use Mind Control to control my moods and behavior. I had a brain MRI, which showed a lot of white matter on my front lobe, which I can present to you. I have had to go to the hospital several times for different reasons including severe chest pain and heart problems. I have [photos of microwave burns](#) on face, neck and stomach. Sometimes even driving a car has become difficult to do because they target me heavily. My lungs are heavily targeted as well and my house fills up with a gas when I am trying to sleep.

From 2000-2002 I was able to work professionally for Microsoft in Redmond. Now it is difficult to hold a job due to extreme pain over body, sleep deprivation, microwave auditory effect, disorientation, headaches, tinnitus, blurry vision and more. There are possibly thousands or millions in the US alone.

The H.R. 2977 Bill that Congressman Dennis Kucinich, Democrat of Ohio, attempted to ban spaced based weapons. The US citizens have already formed a group and have conference calls weekly. The organization is Freedom from Covert Harassment and Surveillance - [www.Freedomfchs.com](http://www.Freedomfchs.com) . I have received [a letter from Senator Carl Levin](#) who has stated that he believes me and referred me to the Florida Senators and representatives and he feels confident that they can help me. Also Representative Jim Guest has acknowledged and supported our claims.

Thank you for your support and we hope that you will assist us as quickly as you can with an investigation into the Department of Defense since this is such a serious situation. If you need me to provide you with further information, please [contact me](#).

The Media Corporation which revealed to me **on my t.v.** that I was being watched in Sept. of 2002 was **VIACOM / Paramount**. Comedy Central (SNL) were mocking everything I was doing while sitting in my condo in Redmond, WA. *I usually don't mention this to people because it is too hard to believe.* They may also be the one targeting me with the space weapons or they have contracted one of the agencies listed above. I wouldn't doubt it was them since they are owned by GE.

**The Briefing for the Conference Call to my Local Florida County Regional Director that happened at 2pm EST.**

**20/5/10**

This letter and breifing (spoken on the call) was emailed to Michelle, The Regional Director of my County For Senator Bill Nelson's Office:

The Conference Call was recorded and can be listened to at: <http://www.talkshoe.com/talkshoe/web/main.jsp?pushNav=1&cmd=home> unfortunately the following speech was not recorded, MOSTLY, because I muted myself...I was too sponataneous in starting this call... REALLY TOO BAD! I was as calm as possible reading the following statements.

Michelle,

I having been writing to the Orlando office, to open my Case Work files, for Senator Nelson to review. More importantly, many Florida constituents would like to speak with him in person. Let me briefly describe our issues so that you can see why this is so important to us.

Thousands or more are targeted with Direct Energy Weapons, primarily from satellite weapons. The effect of the electromagnetic frequencies, lethal radiation and lasers that torture our bodies have created a large amount of medical bills, that we Floridians can't afford.

This has also ruined families, that have a hard time understanding what we are going through. It is a huge burden, in every life, that is trying desperately to survive.

The H.R. 2977 Bill that Congressman Dennis Kucinich, Democrat of Ohio, attempted to ban spaced based weapons. To lend some credibility to our claims, we ask the Senator to consider the fact that Congressman Dennis Kucinich of Ohio introduced legislation banning the use of such weapons on innocent Americans. Senator Patrick Leahy has also show concerned in our issues. I have received a letter from Senator Carl Levin, who has stated that he understands how frustrating the space weaponry must be. Representative Jim Guest has acknowledged and supported our claims extensively but reminds us that we will need greater assistance.

He referred me to my Florida Senators.

Is there a time and a date, that we can set, to either meet Senator Nelson in person. We would like to have an investigation and congressional hearing and would like Senator Bill Nelson's office to assist us.

Thanks So Much for listening to our issues, Michelle. Please keep in touch with me on this important inquiry. I know that many people will be forever grateful.

Sincerely, Melissa Sanderson

p.s. I need to edit my website to include the scientific terms as you may want to do and explain to those officials.

**ABOUT Informing your Senators, Please Read Carefully.**

**20/5/10**

This was sent by a News Man who wants to remain anomonous....Please keep the scientific terms available for your letters to Senators. Please do not blame your neighbors or people that may be "PERP RELATED - SURROUNDING YOU IN PERSON" in your statements to your LOCAL SENATOR'S REGIONAL DIRECTOR, Whom Should forward your inquiry to "the SCHEDULER".

ASK THEM TO FORWARD YOUR REQUEST FOR AN "IN PERSON" INTERVIEW WITH YOUR STATE SENATOR. (Yes, there is Mind Control from synthetic telepathy.)

Demand an investigation and a congressional hearing and let them know the officials that are concerned about these issues. (Refer to my notes in the conf. call, if you wish)

This is from News Man:

Please note: I will not align myself with TIs who do not adopt the following position.

-Remote Neural Monitoring / Voice to Skull Transmissions / Synthetic Telepathy is primarily satellite-based.  
-Body Shocks/ Nervous System and Muscular Movements are primarily satellite-based  
-Holographic & Acoustical Projections are primarily satellite based  
-High Tech Surveillance and Continuous Streams of electrical Current are Land-Based utilizing portable equipment  
-Likely the work of authorized government subcontractors, ultra right wing groups, covert community operatives in alliance with clandestine faction of the NSA.  
I will NOT align myself with those claiming this is the work of Electrical Utility Companies.  
I will Not align myself with those who claim they have microchip implants  
I will not align myself with those who claim the microwave attacks are originating from interior wiring, ham radios, cell phone towers, etc.

Another Email From News Man that I hope you will consider writing to your STATE SENATOR'S local County Office:

The reason we are seeking a Constituents' meeting with Senator Nelson is to present to him evidence that people in Florida and across the nation are being targeted by satellite and land based directed microwave, electromagnetic and infrared directed energy weapons.

Among other things, these weapons remotely tap into a victim's central nervous system causing involuntary muscular movements, burning and other painful body sensations.

Albeit (All be it) science-fiction-sounding, it is scientific fact that these technologies can transmit sounds directly to the aural cortex--bypassing the ears. The sounds including clicking, tapping--even music and voices.

There is significant evidence that a rogue element of the National Security Agency; possibly clandestine privately funded right wing organizations are acting as community operatives and have access to these weapons. They are conducting high-surveillance and acts of orchestrated stalking that terrorize and torture hundred of Floridians and other Americans.

What we are asking for today is that a core group of articulate, educated and intelligent constituents be granted a meeting with the senator to discuss the issue of, what we call, psycho-tronic torture.

We hope the Senator, a former astronaut, will help establish the existence of these weapons.

Once that is done, it is our hope that a Congressional investigation will reveal that these technologies are being used in a widespread, pervasive, covert reign of systematic terror against innocent Americans.

The victims are neither enemies of the state nor criminals.

The victims are from every walk of life.

The motives for these attacks are often personal.

Sometimes they are meant to neutralize whistleblowers or people seeking criminal and civil justice.

Again, the primary goal of our request for a meeting with the Senator is to present evidence that the technologies exist and to implore congressional leaders to interview victims.

**These atrocities must be exposed.**

[http://www.sfgate.com/cgi-bin/blogs/opinionshop/detail?&entry\\_id=66645](http://www.sfgate.com/cgi-bin/blogs/opinionshop/detail?&entry_id=66645)

The CIA engaged health professionals to pursue unethical and illegal research and experimentation on detainees held by the agency in their secret "black site" prisons. Our report for Physicians for Human Rights documents that health professionals, including psychologists, used detainees as research guinea pigs, inflicting and then studying the effects of varying levels and combinations of harmful "enhanced interrogation" techniques, such as stress positions, slaps, sleep deprivation and waterboarding, to assess their effects. The resulting data was used by the CIA and Justice Department lawyers to permit the use of tactics that our government had always previously regarded as torture.

**11/7/13**

Has anyone been harassed/assaulted by direct energy weapons by the entertainment industry? I found out in 2002 that I was under surveillance and even though my story may sound unbelievable, it isn't. From what my perpetrators tell me I have been under surveillance most of my life and I have lost a lot of loved ones without knowing that they may have been targeted too. Even though on my website I blame Viacom, I am not actually sure how many agencies and/or contractors are involved. I hesitated to post this because of the negative responses I may receive but my life has been a living hell and I am not sure how much longer I will be around. I know many of you may feel the same way. Please visit my website at: <http://perpetrators.webs.com/>

Thanks to all of you whom wrote me back with encouraging words. Many of you expressed that the CIA is controlling Hollywood which just confirms it for me. The only reason I blamed the actors that I did was because they were the ones that made themselves known.

I only got one negative response from a Jewish woman that I tried to be friends with. She felt that I was against Jewish people which has never been the case. I have had many Jewish friends in my life. If a ti calls you a perp or a nutcase, separate yourself from them. These ti's will try to hold you down.

I have had voice to skull for 11 years of men saying "I hate you" every second of the day. For people whom have voice to skull, you know that it is a living hell. I woke up for the first time this morning without any voices. It is amazing how free I feel. If you know who your perps are, be honest to yourself and to others. Amazing things can happen. They aren't even zapping me anymore.

I will be 42 this week and I hope to take a vacation soon and visit other ti's. I have made many good ti friends (you know who you are). Thanks to all of you that fight so hard to end these atrocities. You are very courageous and have given me hope.

Take Care.

## **LETTER TO THE FLORIDA SUPREME COURT**

**9/9/14**

To: The Florida Supreme Court  
Attn: The Clerk's Office  
500 South Duval Street  
Tallahassee, Florida  
32399-1927

I am a part of a large group of U.S. citizens who have individually been injured and harmed physically and mentally by directed energy weapons and chemical agents. Our issues are extremely severe while being under surveillance 24/7. These weapons are acoustic weapons, electromagnetic frequencies, microwaves, infrasound, x-rays etc. These are high-powered weapons that cause great harm to individuals. Many of us refer to it as electronic terrorism or torture, which is ruining the freedom of men, women, and children living in the United States. These assaults using frequencies targeting our bodies cause severe burns, extreme pain and horrific health problems. We are manipulated psychologically and physically causing much distress. Many of us are too sick to work and don't have health insurance, which complicates an already devastating situation.

Citizens of a free society have the right to be protected from all forms of danger – not just the visible forms of aggression such as guns, knives, etc., but also from invisible forms of danger (microwaves, RF, EMF, direct energy weapons). Please refer to HR Bill 2977 introduced by Congressman Dennis Kucinich, Democrat of Ohio. The bill speaks of the weapons used.

Many representatives attended and spoke to The Presidential Bioethics Commission last year to be reviewed by President Obama last December.

You may watch the 1st hearing's public comment at: <http://vimeo.com/20666223>

President Obama and the Commission ignored our complaints and hundreds of letters.

Many targeted individuals are being mentally and physically disabled by these repeated terrorist assaults. Some victims are driven to suicide out of hopelessness, desperation and as an attempt to escape the barbaric torture we endure. Some victims are assassinated for standing up for their rights and attempting to report this criminal activity. Successful individuals are being forced into poverty and homelessness through the use of blacklisting, workplace violence, continual destruction of personal and business property and excessive healthcare expenses caused by these assault weapons.

In Florida, there is legislation that should be used to protect us. Florida statute 784.084 states that stalking with intent to harass and cause a credible threat is punishable and a felony. Florida statute 817.568 states that criminal use of personal identification including biometric data without consent is punishable by law. Concerning the matter of illegal surveillance, targeting and torture of innocent Americans, which is continued and ongoing, it is my intention to file a lawsuit. I believe that various causes of action exist, both civil and/or criminal, which include but are not limited to: 42 USC 1983 Denial of Rights Under Color of Law, conspiracy and/or fraud, gross negligence, violations of FISA and the Patriot Act, War Crimes Act of 1949/crimes against humanity, obstruction of justice, tort of outrage and intentional emotional distress.

If I have been placed in a human research program and never consented to it, the following laws shall apply. These are listed below:

1. Title 32 Code of Federal Regulations Part 219. Federal Policy for Protection of Human Subjects.
2. Department of Defense Directive 3216.2 Protection of Human Subjects in DOD Supported Research
3. Title 10 U.S. Code Section 980  
Title 10 U.S. Code Chapter 32, Section 1520

President Clinton's Memorandum of March 27, 1997, Title 3 – Strengthened Protection for Subjects of Classified Research.

World Law including the Nuremberg Code and the following:

The European Parliament Resolution A4-0005/1999 passed on January 28, 1999 which includes an international convention introducing a global ban on all developments of weapon which might enable any form of manipulation of human beings.

I hope to get your help to address and stop these Homeland Security and Patriot Act violations and abuses. I hope that you can request an investigation to end these atrocities. I have extensive evidence that proves the Department of Defense is monitoring me along with their contractors. I have proof of the extremely high levels of electromagnetic frequencies targeting my body. Would a trial be considered fair if all of my activities and my brain are monitored, manipulated and interrogated 24/7?

I have survived this torture for over 11 years. I hope that you can help. Please contact Melissa Sanderson by phone at (561) xxx-xxxx or at [msanderson33@gmail.com](mailto:msanderson33@gmail.com)

Mi edad: 43 años

[*“What year did you become a TARGETED INDIVIDUAL. . . . .?”*]

Now that I think about it, it was when I had like 17 so it was in 1981 and it was sexual harassment.

All my mother's family worked for the Government and my father worked for Dupont.

All my family is being targeted but they can't or don't want realize it. The harassment is not as strong as mine but I had an aunt that died from strong radiation. When she died her body was twisted because of it.

Actualmente empleada. Desconozco la fecha aproximada de cuando empezò el "**ELECTRONIC HARASSEMENT**", pero es llevado a cabo tal como lo describe Liza Parker" en su video "**COMMUNITY BASED GANG STALKING**" que seguramente ya has visto.

Este acoso està extendido en toda mi familia, (familia que incluso no vive conmigo). Hombres y mujeres. Así como

està extendido en toda la poblaciòn de Mèxico.

No estoy de acuerdo en enviar los mensajes masivos que se sugieren en el foro. Ya que estoy convencida que todas las entidades a donde estos mensajes van dirigidos, estàn infiltradas. En lugar de eso creo que es màs util la educaciòn al pùblico en la medida en que sea posible. En mi caso he llegado a encontrar a dos personas que se quejan específicamente de los sintomas y he tratado de educarlos al respecto. Estas dos personas han creido que se pueden escapar del acoso evitando saber màs, asì que he dejado de contactarlos.

Esto no es un asunto de TI's siendo acosados. Son poblaciones enteras de todos los paìses, que no se dan cuenta de este fenòmeno. Creo que a las futuras generaciones les va a ser muy difícil detectarlo ya que estan creciendo con este fenomeno desde bebès.

Por supuesto que en España hay màs de dos, seguramente es una gran mayoría pero no lo saben (por eso la cantidad infinitesimal de victimas en fedame) y quien sabe si llegara algun día en que la gente quiera tomar conciencia de lo que realmente pasa. Por otro lado hay que educar a la gente con cuidado ya que pueden caer en la conclusiòn de que somos paranoicos o esquizofrènicos.

I'm grateful with the group, specially with Monica Stoces whose messages are really helpful.

THE PURPOSE OF MY LETTER

I am wondering whether there is any documentation about common years of introductions of new technologies. This would help prove our case and help us not be seen as crazies. From a quick reading of the letters, I noticed the introduction of sexual battery in the 1990's, v2k technologies in 2003 and on, and the army brain interface becoming more important as well as dew weapons in these later years of 2000. I also noticed several of the better letters were from those who were near army bases and suspected the probably cause.

I think it would be helpful if we could find common years and introduction of experimentation on technologies. Also, do you know the names of any survey takers such as the Winston on mcactivism who sent out the flier the other day. I tried to contact him and his email did not register.

By the way, I sent the 450 cases from American into a senate office which is considering holding a hearing for the dew weapons, v2k, and army brain interface technologies.

### **14 YEAR SORY OF TERROR**

This document speaks of my history and current experiences as a **TI (TARGETED INDIVIDUAL)**, as well as other aspects of my life, by our government and military.

I hope many will view this and learn about the atrocities that are being committed within the United States, at this time. Torture of American citizens has been going on for decades and is finally coming to light. We, the victims, need your help to eliminate the **PERPS' (PERPETRATORS)** activities and perhaps bring the guilty parties to justice.

The torture I speak of is quite technical and involves the collaboration of our Government And Military Forces. **These atrocities have led to countless "murders," which are formally documented as and believed to be suicides.** Such actions are committed through the use of what is considered to be non-lethal weaponry, with the utilization of subliminal implanted posthypnotic suggestions and scripts, and in additional activities commonly referred to as Gang Stalking and Street Theater. These atrocities, ladies and gentlemen, are what we also commonly refer to as **MIND CONTROL**.

The subliminal posthypnotic scripts are accomplished by using acoustically delivered and phonetically accelerated posthypnotic commands without somnambulistic preparation in the subject for intelligence and counterintelligence applications by the **NSA (United States National Security Agency)**, as well as other governmental branches, such as the CIA and DOD and the Military.

As a counter intelligence matter, this so-called non-lethal weaponry is used on foreign and domestic diplomats, spies, and citizens to identify intelligence operations; scope, participants, communication methods, and weaknesses in individuals, systems, equipment, or signals that can be exploited. Additional applications include misinformation dissemination, confusing and confounding leaders during critical decision moments, distorting significance of various facts to sway decisions and actions in US favor, behavioural modification of foreign spies to betray their loyalties, self initiated executions (suicides).

Nearly microscopic electronic surveillance devices that collect and transmit encrypted audio, color video, and location coordinates collected at the subject site to GOVERNMENTAL ENTITIE'S Satellites that in turn forward it to GOVERNMENTAL ENTITIES central intelligence operations and military. The devices also receive encrypted audio scripts from GOVERNMENT ENTITIES central intelligence operations through the satellites and deliver it to the subject's site in the form of a subliminal posthypnotic suggestion. These devices are approximately the size of the head of a straight pin and can be concealed in houses, offices, automobiles, planes, and street corners. Therefore, a victim, or what they define as prisoner, hears "voices," and are seemingly psychotic and classified as such by society.

In addition to the ability to see and hear what is going on inside people's homes, vehicles, and businesses through the use of nearly microscopic digital surveillance technology, the GOVERNMENTAL ENTITIES are able to interrogate and influence a person subconsciously without the knowledge or consent of the subject.

#### **This is all accomplished through MIND CONTROL and my symptoms are:**

Microwave hearing

Transmission of specific commands into the subconscious

Inject words, numbers into brain via electromagnetic radiation waves

Manipulation of emotions

Reading thoughts remotely

Causing pain to any nerve of the body.

Seeing, as in a camera, through your eyes, i.e. to see what you see exactly

Control of sleep patterns.

Computer-brain interface, control and communication

Complex control of the brain such as retrieving memories, implanting personalities

Previously gang stalking

Previously street theater

These symptoms, as well as others, can be studied at <http://www.mindjustice.org/symptoms.htm>.

What is also mentioned, on this web page, is their relationship with our military and if they have been proven yet. I will focus my attention on those that I have been personally been afflicted with, those I have mentioned.

Let me give you a brief history of myself. I was born in Washington DC, in 1964. I went through 15 different schools before I graduated high school, due to my father being contracted, with the military. My family is conservative, devout Catholics and very dysfunctional. My siblings consist of one older brother and 2 older sisters, **ONE THAT WAS AFFLICTED BY THE SAME TECHNOLOGIES AS A CHILD THROUGH AN ADULT, WHO BELIEVES IT WAS ALIENS – THAT IS STRICTLY PROPAGANDA!** She was led to believe this so she would appear psychotic to society. She is now just monitored by her Perps.

Anyway, I grew up as second best to my sister, since she was “sick.” I lived through a lot of tough times, being emotionally abused by her, as well as my father, for she was his pet. But in the end, she told me she did it because she was jealous of me and apologized as an adult. Nothing can take away the scars left by her and my father. And now, as an adult, I’m being emotionally abused, as well as tortured yet again.

In the summer of 1993, in August to be specific, I had the bull by the horns. I was 1 year away from obtaining my Bachelor of Science degree, in Accounting, had a job as a bookkeeper, at a credit union with advancement opportunity, had a brilliant and very beautiful 9-year old daughter that I loved dearly, as well as a fiancé who I would marry within a year’s time. I lived in a beautiful apartment with a gorgeous garden that I had created with my own hands. My credit rating was grade A and I was eligible to buy a home. Everything was so wonderful – I had all my ducks in a row, or so I had thought...

My “dear” fiancé, began to be physically and emotionally abusive to me. Now that I look back, I wish I had been able to read between the lines... Now I know that he was insecure, with himself, and also had something to hide. I had only been with him for six months and living with him for two. It was during the two months time of living together that terrible things started to happen. The first thing I noticed, which subsequently brought about the abuse, was the actions of my daughter, who had become extremely withdrawn.

Jessica, my daughter, started wearing 2-3 shirts at a time. I asked her why this was and she wouldn’t answer me. At this time, in the back of my mind, I remembered an Oprah show that talked about the signs of child molestation. I realized this could be the cause. So I asked her if Dave, my fiancé, had done anything to her – very delicately and in such a way she wouldn’t know what I was talking about if nothing had happened to her. She appeared flush and stammered no.

I was terribly worried. I began investigating... I came to find out the knob on her bedroom door handle was broken. The lock on the handle just turned in circles. This was a wakeup call to me, and even though Dave was my first suspicion, I had no evidence. He was the newest member that had entered our lives and none of this happened prior to our moving in with him. I approached him when he got home from work and told him about Jessica and her 3 shirts. He seemed as cool, as a cucumber, although later that was the first night he physically threatened me.

I ended up spending the whole night on the bathroom floor, crying hysterically, since my bubble had just burst. My seemingly perfect world was not so perfect, after all. We were just about to move into our next apartment and everything seemed to have fallen apart. I was not so confident in myself any more. In two days time, we moved into a beautiful apartment. There is one thing you should know. I had nowhere else to go at the time or so I thought. Didn’t know anything about domestic crisis shelters and I knew my dad wouldn’t help. He would blame me for the mess. So we moved.

We had just moved into the apartment and my daughter’s futon/bunk bed was not put together yet; we had planned on doing so the next morning. Everything that had transpired was still fresh in my mind, no matter how Dave was behaving – like nothing had happened and all the “I love you’s,” etc. It really was like nothing had ever happened.

I didn’t know what I should or could do. Didn’t know who could help me. Was totally ignorant, of such situations... You see, I’ve never dealt with child molestation (that happens to other people) and I had never dealt with an abusive relationship before. Didn’t know how to act... So I went to my friend, Shauna’s house that day, for support. Unfortunately, this was the worse thing I ever could have done and to this day, am totally blindsided.

We’ll get back to that. Any way, the next day was Saturday and Dave was supposed to put the bed together. He hemmed and hawed about it, but I convinced him that it needed to be done. After about ½ hour, I entered Jessica’s

bedroom to see how things were coming along. The bed frame was together, but the futon mattress was partially in the closet. I went to grab the futon to help put it on the bottom bunk, when I noticed a wet, white substance on the mattress. I asked Jessica what it was. She looked scared! My wheels started turning and my thoughts went back to the 3 shirts... I was terrified! I asked Dave what it was. He said the dog must have done it... I believed it to be from ejaculation. That was my fear. What else could it be? She hadn't eaten in her room and we didn't even have any food in the house anyway. We had just moved.

What did I do? Why did I do it? To prevent the argument that was beginning, I obediently took off the mattress cover and brought it to my parents to be washed... I washed away the evidence! Can you believe that? Why did I do it? I have no idea to this day. Think it may have to do with his control over me, at the time and my fear of him. Don't know.

Subsequently, I went over to Shauna's house. AGAIN THIS IS THE WORST THING I EVER COULD HAVE DONE AND YOUR ABOUT TO FIND OUT WHY! I told her what had transpired and she mentioned how her daughter had been molested by her boyfriend's daughter, in the bath tub. This definitely upset me, since I was so uninformed about such things. She spoke of wanting to send her 3-year old daughter to her father, in Texas, but wasn't sure about it. THIS IS WHEN I MADE THE WORST MISTAKE OF MY LIFE!

I inadvertently mentioned to Shauna how my daughter never got to meet her father before he died. I blamed myself, although I never disparaged Bob, Jessica's father, to her and hadn't prevented them from seeing each other. But I still felt guilty because I never tried to mend the situation. Shauna thought about it and said she didn't want that to happen to her daughter. She, at this time I guess, firmly decided to let her daughter go visit her father out of state.

Well, guess what happened??? He never sent her back! He refused to. Shauna never told me this. I never knew. BUT she blamed me for giving her that advice. I'm not even really sure if it was advice, but she took it as such. Shauna is the reason for my torture. She was, although at the time I didn't know it, besieged by the Perps. She convinced her Perps to trade me for her somehow, to get me back.

She set me up. Plain and simple. She, a year or two ago, admitted this to me. It wasn't until last year that I even knew that she heard "voices." It was like a bomb went off! I felt such guilt, but I also felt pure, furious anger toward her. She never let me know. I could have taken a credit card and went to Texas with her to get her daughter back! Why would she do this to me? Why me I thought? Why not Frank, her ex? He is the one who kept her daughter!

Before I even had an idea what was about to happen, I was busy taking my daughter to a psychologist and secretly contacted the local police department. During this time there was a particular day that I'll never forget. I went to take a shower, but was nervous about leaving my daughter in Dave's presence while I was showering. So after I quickly showered, I left the shower on. I got dressed and slowly and quietly opened the bathroom door. What I saw shocked me. Dave and Jessica were standing in the living room, hands clasped together and kissing! I couldn't believe it! I shouted, "What are you doing?" Dave denied kissing her and said I was crazy. I really believed I must be going crazy with all the suspicions.

There was another day when we went to Walmart, in Dave's truck. When we got out of Walmart, I got into the middle. (Dave had just unlocked the passenger side door). I had a weird feeling and I suddenly turned to the right... Dave was touching her rear and she was smiling! This just wasn't right! Everything I had heard about child molestation concerned kids that didn't like it, not kids that encouraged the perpetrator. Dave and I argued on the way home. I said I know what I saw and asked him why. He denied it of course, and started pushing his body into mine in the truck. A cop happened to be following behind us and saw what was happening.

The cop pulled us over in front of our apartment. He asked me what had happened. Never a victim of physical/domestic violence before, I told the truth. How was I to know he would get arrested for simply pushing into me? Dave was arrested for domestic violence, right then and there. The look of hate he gave me is still in my mind. Jessica's look of confusion is still there too. She couldn't understand why the police were taking him away.

That night, Monica, Dave's ex-wife called me. She was still in love with the jerk. She told me of two things: How he had been accused of molesting a 3-year old girl at their house and how he had buried a woman's body in the desert. She scared me to death! I asked her what she did about the molestation accusation and she said she kicked the mother and daughter out of the house and told them never to return. -Had to get this man away from us and out of our lives for good.

What had transpired was within 3 weeks of suspecting Dave of molesting my daughter, I had contacted the police and eventually kicked his butt out. Nothing ever came of it. He had an excellent job working for a government contractor and was very believable to another male – the cop – and everything was brushed under the rug. Jessica and I were never to get justice. Correspondently and unbeknownst to me, Shauna and the “voices” had been working together to set a plan into action.

Before Dave left, I heard him say two things in the bedroom. One was, “But I thought she liked it” and the other was “I thought you knew and it was OK.” Now I realize he may never have said these things aloud. The “voices” used his voice and made me hear it. Later I found their famous for doing that. I loved him but was happy he was finally gone, after all that had transpired. But I had to pick up the pieces. Not an easy task for someone that felt like the proverbial deer in the headlights...

Next came the loss of my job. A fellow employee said to me, out of the blue one day, that you said, “You didn’t like so-n-so. You said she was a bitch.” I so wondered where that came from... later after losing 15 jobs in total, I came to realize the voices had to have said it on my behalf. I was soon to be fired, due to a bad attitude... Due to the hearing of the voices, and not realizing it was coming from my head at the time, I purchased a video camera, listening devices, you name it I purchased it! Soon my savings were going, as well as my daughter’s college money... I was broke and my credit turned to crap. I couldn’t pay my rent any more, my bills, nothing!

My next door neighbour, a gentleman (huh!) called Ray, would run out of his house with a bag every time I looked through my peephole, when I was hearing voices outside the door. I believe he was trying to make me believe he had a listening device in the bag. I never took the bait... Until one night I returned from going out and he was outside wearing a wig. Another supposed male neighbour came up to me and punched me in the face. I was so surprised and started crying. I unlocked my front door and ran into the house. I dialled 911. I told the operator what had transpired and she said she would send an officer.

I saw the lights of the car outside and then opened the front door. I ran to the officer and described what had happened. He proceeded to handcuff me. I asked him why... He said because I had broken the next door neighbour’s front window! I was crazed at that point! I had not gone anywhere near the window. They took me to the local police station and put me in a holding cell.

I proceeded to try to talk to the officers and tell my story. They said that was crazy and shut the door. I screamed from the cell that I hadn’t broken the window and I was telling the truth, the whole time hearing such things like bitch, slut, cunt, etc. coming from their office. Because apparently I was behaving unruly, they took me to Bisbee to the county jail, where I was put in another holding cell. I kept yelling and showing my indignation and they decided to keep me there all night... I kept hearing them talking about me and calling me atrocious names from the lobby area. I couldn’t understand why they would do so and wouldn’t even listen to me.

I was kept in over night and released to my father the next day, charged with criminal damage. When I returned to my house, it was empty. My sister and her boyfriend had helped me move all my furniture, since I had been evicted. As we pulled up, I noticed the next door neighbour’s door was open and he was sitting in the living room with his wife, smiling. (Another tactic, to set me off again). I just went into my apartment and shut the door.

I had to move from my little paradise to a shabby trailer park. The day of moving, I finally realized that the voices were coming from my head.... I was sitting on an empty floor in my apartment, when I heard a voice say, “Look at her clit!” I embarrassedly looked around and realized it couldn’t have been coming from anywhere but my head. There was nothing left in the apartment to hide any kind of device... It was the scariest moment of my life! Next I heard, “Slut!” (The first of many millions, of derogatory words, to come my way over the next 14 years.)

So I left behind my beautiful apartment, broke, had to quit college, unemployed, without my child for the first time and totally disillusioned. What was happening to me? And why? What had I done? I was speechless and scared to death. I entered my trailer, with all the boxes piled high and astray, not sure what to do. I reopened the door and sat on the steps and the next thing I heard was, “Slut! Look at that clit,” and felt sensations in my private parts. Filled with embarrassment, I ran inside, although the voices, for now on, went anywhere I went, non-stop to this day.

Never a moment’s peace... My daughter hid what had happened to her, because somehow they made her feel embarrassed and dirty. She stayed with my parents for a year, while I jumped through the Child Protective Services hoops, and started seeing a psychiatrist eventually. My daughter had to see a psychiatrist too, although they said

that what I happened to her had never happened. She had become a consummate liar, for which I couldn't blame her for. After all, her mother was crazy now, wasn't she? She was returned to me in a little over a year, with hatred for me in her eyes...

It's been 14 years, 15 jobs, 2 bankruptcies, although I finally got my Bachelor's degree in Accounting beyond all belief, a homeless shelter and now in my 7th home. They haven't changed; I'm still plagued with everything horrible they can throw at me... Did I forget to mention the chronic pain for 3 years and almost dying on the operating table?

I had a perforated colon, which turned into peritonitis, where one organ explodes and dirties all the other organs and you die. But I barely made it to the hospital and awoke after emergency surgery, with a colostomy bag... I had to poop in a bag so my large colon would heal.

My surgeon, a wonderful woman by the way, had no explanation as to what happened to me, no formal diagnosis. I believe it was caused by concentrated EMF (Electromagnetic Frequency) waves by a plasma weapon, tested on me for reasons I can not explain. Several targeted individuals have had similar circumstances.

Anyway, there's a lot more where this came from, but it would take 6 months for me to get it together. I'd like to publish what I have written thus far, as an addendum to an affidavit, for the purposed of initiating a class action law suit, against the government. There really is a lot more to the story, but I find it hard to collect my thoughts and put it to paper. I believe that I'll actually go back and read what I've divulged soon enough and I intend to add more. I also believe that what I have shared with you is enough to start a law suit, for which I seek financial recovery.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS.**

Dear Advocates stopping the abuse of "Mind Control Activities":

Based on my experience in these matters the reported activities in my name is particularly severe, very well documented, and on my own PI can be traced as INTENTIONAL behaviours to stalk, manipulate and to control and "end game." In my thoroughly researched opinion, it is behaviourally driven in large part by the "Baby Boomer" money mania and post war traumatic stress of the multiple engagements that this country has participated in over the decades.

I spoke with Derrick on the telephone for about an hour and was originally contacted by telephone by a Ms. Purdy who referred me to the website: "Freedom from Covert Harassment [FFCH] & Surveillance" and this group's activities and proactive stance.

Now I am quite well aware that there exists "accidental distribution" of technologies that ALL of us are subject to. I have been subject to abuse for no particular explainable reason. My particular case

history can be traced and is well documented to have origins in and around 1996 which included illegal wire tapping of my office at the time, filed with the FCC.

#### SHORT LIST OF EVENTS:

- 1) Directed Satellite Energy Targeted onto my person: could feel the energy beam penetrate the house and land right into my person; I immediately evacuated the bed where I had been resting;
- 2.) 10 obstruction of justice (also handcuffed arrest) in the "GNO, Inc" communities while pursuing normal and legal civil communications; once delivered by drawn gun by a Jefferson Parish deputy resulting in an arrest on the hood of the car in front of home; arrested out of Energy Center downtown New Orleans in handcuffs in pursuit of an appointment, more. . . ;
- 3.) An illegal botched rendition attempt out of the country on the summer of 2004 by point of stun gun, with no warrant, no signed paperwork, even so Congressman Jindal's Representatives were in the home at the exact time the arrest took place. [NOTE: more detail available and genesis of my filed lawsuit.]
- 4.) Non-stop INTENTIONAL hacking on Internet services by local police making it next to impossible to secure normal civil communications; [with multiple verbal threats]
- 5.) Spy van positioned outside of home ostensibly to monitor my activity (which on that very same day I confronted "flushing the operation out");
- 6.) Radio antennae calibration vehicle stationed outside of home for several hours;
- 7.) October 5th, 2007 a full blown assault on a private home with SWAT, snipers, Homeland Security, streets blocked, and a forced eviction @02.00 am greeted with a 500 volt stun gun shot into the body, deportation into a high security prison for twenty six-days of lock up. Consider, I was hijacked under otherwise normal day to day operating conditions.
- 8.) Not included in this list are over the years, more than twenty other random weekly acts of harassment, which even so relatively minor, have led me to believe that what I am actually a victim of is an intentional form of covert harassment scheduled and operated by a variety of third party authorities.

#### RESPONSE TO HARASSMENT:

In response to these non-stop corrupt and aggressive behaviours I have successfully filed in the 24th judicial reserved courts Q thru Z and in the Federal Circuit Court with options for circuit routing. I am currently representing myself "in persona" as other persons -especially post Katrina- have been overcome with a tremendous trauma of post recovery stress and indifference AND YET my harassment continues NON STOP even days after the tragic storm - hard to believe but true.

Attached to this email is a fax that I just recently delivered to the Oversight Committee in the Rayburn House, Washington, DC. The Tulane Law School, New Orleans (graduate and alumni) has a FULL COPY of the proceedings and I am going to be relentless until the HAMMER OF TRUTH on JUSTICE falls and I receive back pay and compensation for loss of time value, non-stop defamation of character, pain and suffering. [NOTE detail interrogatory also filed on an ongoing basis.]

#### CONSEQUENCES OF THIS BEHAVIOUR ON MY PERSON:

- 1.) Unable to break out of the paranoid karma and achieve "social normalcy" due to NON-STOP harassment;
- 2.) Cannot secure "a job" based on resume, as there is NO way that an interviewer would accept a hiatus explanation of "missing in action" for multiple months plus because of the above mentioned details;
- 3.) Perpetual economic and financial bondage mental slavery [cf. USDOJ has precedence rulings on these matters;
- 4.) Destroyed all my relationships and potential relationships, with persons (i.e. neighbours etc.) giving me the sense that I am COMPLETELY on my own with absolutely no means to integrate socially;
- 5.) Defamation of good character, tangible pain & suffering, and significant measurable loss of time value.

#### IN SUMMARY:

My life, the pursuit of happiness, financial stability and growth has been UTTERLY DESTROYED only I am alive to speak about it. Compare this to the OTHER side of the EXTREME abundance and lack in this society and elsewhere. This matter should be bonded into a coalition force to DEBUNK the audacity and belligerent maniacs that claim to be "operating this country" including the pharmaceutical and social health providers and their associated systems of operation. I believe the genesis of these problems to be in large

part, THE UNITED STATES OF AMERICA, IN ITS WANTON PURSUITS of POWER TO NOWHERE which has currently implemented a Nazi Police State equal to Hitlerism (I fully own the right to compare the two by analogy) at the expense of a handful of persons who's "BRAIN POWER" they are attempting to tap with ZERO compensation, and in consideration of COMPLETE AND TOTAL SLAVERY with no normal freedom of movement, etc. Perceptions in this country are often sugar coated and clearly not "OK".

Generally, I am of good health, optimism and attitude; however the constant covert and overt actions of debasement have taken their toll on my person, beyond the normal wear and tear. So, please contact me and stay in touch for further suggestions on how to best pursue this matter. Do "you" the defendant on my case believe I am merely going to ignore this report as coincidental? This is a time slice of a much greater major systemic social problem. Consider also, I will continue to have and have had zero criminal record and in its stead positive report from third party supporters of my otherwise successful life.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I write this letter in sincere hopes that my words will not only grab your attention but you're conscience as well.

I represent thousands of American citizens, who are also victims of a hideous practice in our country called Gang Stalking and Electromagnetic harassment.

We, American Citizens are in need of assistance from Congress to open an investigation against these atrocities and severe human rights violations which are currently happening on U.S. soil. There are underground groups of vigilantes that have managed to acquire such harmful weapons and are using them to torture and kill innocent people. Please view [www.gangstalking.org](http://www.gangstalking.org) to get a further understanding on this subject.

It has not only come to my attention, but to the attention of a large number of American citizens as well, that there is a new technology of weapons that use Direct Energy and Microwaves. These "Future Weapons" travel at the speed of light, 186,282 miles per second. There are patents that we can provide that prove these weapons are in existence today and further evidence that show that these weapons are being used on unknowing and unwilling U.S. Citizens. History will also show that the Government has also done experimentation on its citizens without their knowledge or consent. That being said please understand that I am not contesting the fact that Microwave/Electronic energy should not be utilized to benefit humanity as a whole. These technologies must be regulated, so that they do not fall into the hands of people hurting people (as it stands now). Please view [eharassment.ca](http://eharassment.ca) to get a better understanding of these weapons.

Thousands, perhaps even millions of innocent victims are becoming targeted and some might not even be aware of this fact or of the technology. However, these "remote signals" are becoming more commonly known due to their reckless use. This problem of extreme domestic surveillance coupled with psyops targeting-assault of people, many who have no military affiliation is beyond explanation for any reason. Regardless, this illegal form of experimentation and being targeted as unwilling American citizens resembles "MK Ultra" type testing which is a direct violation of current torture, human and constitutional rights. These technologies have created unsupervised criminal activity and behaviour which is

inflicting more torture, devastation, murder and suicide upon innocent victims who should not have to struggle to arrive at legal or legislative justice.

Please view <http://www.rense.com/general36/history.htm> and <http://www.amnestyusa.org/stoptorture/law.html> to get a better understanding of past human experimentation and Human rights violations.

These violations are causing major catastrophes to one's life on every level.

The practice of Illegal entry of one's home, theft, sabotage of ones relationships, defamation of character and job loss are in conjunction with "Directed Energy Harassment". Many victims of Gang Stalking and Electromagnetic harassment have taken their lives due to the constant torture. For the victims, there is no place immune from these criminals, not even hospitals or police stations. These weapons which emit various forms of Electromagnetic Frequency signals (EMF, or RF: Radio Frequency) and other tactics are meant to mimic natural diseases and mental illness.

People are complaining of extreme heating of bodily areas such as the head and other skin cells, like that of "Microwave Frying." Other symptoms of electromagnetic radiation sickness include temporary blindness, rape, manipulation of limbs, loss of concentration, sleep disturbances, dizziness, heart palpitations, headache, blurry sight, swelling, nausea, a burning skin, vibrations, electrical currents in the body, pressure on the breast, cramps, high blood pressure and general unwell-being. These are the symptoms one could look forward to when they have fallen victim to this new technology. For more information on the effects of Electromagnetic harassment please view <http://www.medicalnewstoday.com/medicalnews.php?newsid=30499> .

I pose this question to you... Is it not true, that if we were experiencing any such activities being perpetrated on us by regular and common thieves, thugs, bullies and criminals, would we not seek justice or at least have our day in court? We have over a hundred such persons that want our day in court and can attest to the torture with evidence, pictures, recordings, patents and individual investigations.

We are American Citizens: Male, Female of all races and all creeds, our forefathers (including my own), have fought and died for the very freedoms that are being denied to us today. Is it to much to ask for you to free us, like you are willing to die for and do for the citizens of Iraq?

There is a political saying, "Necessary Evil for National Good," however "Right is still right even if nobody's doing it and wrong is still wrong even if everybody's doing it."

Another thought to ponder: "The idea of slavery is inconsistent with our own conduct and Constitution; and there can (Constitutionally) be no such thing as perpetual servitude of a rational creature, unless his liberty is forfeited by some criminal conduct or given up by personal consent or contract."

**Please help us become free from a corrupt system of manipulation, exploitation, slavery and torture. Do we not have any Rights at all in America?**

**If the answer is yes, then please begin a thorough investigation in the torture of myself as well as others who have attested to being victims and are struggling for their freedoms as an American citizen. Please help us gain our basic Human Rights back. Our lives depend on it.**

**I DEMAND AN INTERNATIONAL INVESTIGATION INTO THESE CRIMES AND HUGE VIOLATIONS OF HUMAN RIGHTS!**

I am Guilherme Schroeter, musician, brazilian, suffering destruction of my health physically and emotionally, with electronic torture, electro magnetic weapons, contaminated with morgellons e-mail and phone monitored, vandalism on my cars, invasion and deletion of many documents that was able to prove many things from my computer, i have chips implanted on my body I fell sick already, want to testify to all organizations that defend freedom what is happening here in LOS ANGELES

Gangstalking activities in aaron street, cross street of glendale boulevard, where i live, following me everywhere, vandalism on my car (i lost one car already) destroying my reputation spreading bad things about me remote neural monitoring mimics mental diseases. so I realize they trying to make appear "crazy" so i cannot expose them to other people, they use police and fireworks to create ambushes when I appear nervous police waiting on side of my house waiting any mistake from my part (lose control, etc)  
so all is well organized and I am setup to be killed, suffering torture for more than 3 years now  
I am seeing from echo park hills many helicopters irradiating unprotected citizens every night, with electro magnetic weapons installed on the bottom of the aircraft  
From the hills I am able to have a general view of this criminal activities,  
they attacked me when I taking photos, so i have now a mark of the bean on my photo machine

I was victim of a orchestrated fired in coronado street mcarthur park los angeles,  
one entire community of evil cult stalkers using electromagnetic weapons attacked me in bus, stores, following me while i am driving (feeling sensation of a desire of "sleep" that goes away immediatelly when I turn left or right from main street)

My privacy was invaded, criminals financed and operating with the protection of official institutions, police department (LAPD) infiltrated and corrupted, firework department also

I need a safe, shielded house, a independent lawyer, a person to scan my body i don't know how much time I have to live, I know i have chips implanted in many places of my body + morgellons my family here don't trust on me, i am isolated from help

I need e-mails to be send to my family in brazil to convince them I am not crasy, but victim of torture..  
I need representant of institutions that defend freedom and is aware of these tortures,  
to come here and talk with Gregorio Suazo (father of my wife) and Ana maria Suazo (my wife) and convince them to support me.  
Both dont trust on me and refuse to help me.

DEAR SIR/MADAM

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

“Dearest Heavenly Father, most good and gracious Lord, I love you with all my heart and soul and mind. I don’t know who my “buggers” are, but you do. Have you found me my American Heroes yet who will stand up and tell me and my family the truth that I am “bugged?” Does anyone care about America or my family and what they have done to us?” These are the words that have started my prayers several times a day for months. I talk with God and of course my “buggers.” But so far I have not been given the evidence to actually prove that I have been “bugged.”

On March 24, 2006 I met with a man who I thought would become my American Hero. RT claimed he had found implants in others, so I thought at last, I would have the proof I needed to get my problem solved. I learned a new term that day, TI, Targeted Individual. That is what the persons who have experienced electromagnetic harassment have named themselves. RT introduced me to a support group on Yahoo:  
<http://groups.yahoo.com/group/mindcontrolresearchforum/>. For the past several months I have been educating myself about electromagnetic harassment and all the atrocities that are happening to victims. The group works hard to educate the public about the miseries that the victims experience. The members post articles that are of interest concerning experimentation and world politics.

RT remains an enigma to me as when he tested me, I heard the screeching tones that emanated from his testing equipment when he placed the sensors near my right and left ears and on top of my stomach, precisely where I have suspected that “bugs” were placed in me. He had asked me several times prior to testing if I wanted the test done, and explained that he could not guarantee his finding anything. I asked him if he could be bribed and he said, “No one had ever offered him enough money yet.” I was so sure that he would find something that I paid the \$500 and proceeded. As like all the other times that I have tried to get help, he received a phone call during the testing. Unfortunately, RT said I had no implant. My heart sank as once again, I was left without the proof that I needed. I’m still not positive that he was telling me the truth. Perhaps he was threatened with his life. That would be a good reason to not tell me the truth. After the testing he told me more about DARPA and the government’s experiments. He told me how the laws do not protect anyone from being used as their subjects. Perhaps we are all being used as guinea pigs, but we just are unaware of it.

When in December of 2005, I heard the news cast that President Bush admitted that he had used illegal surveillance methods, I thought to myself, “I know that! The government has been illegally watching me for years.” I thought the Congress would push to know more about the illegal activities, but instead they just gave him more power through the Patriot Act. I have wondered where in the #! @ \$! Their heads are. Are they all implanted with biochips and mind controlled or what? I still wonder how they can give away our Constitutional Rights to this power-crazed man.

No one knows who or how many may be implanted with biochips. Patients with pacemakers and breast transplants have them implanted to provide medical information. Some companies have required people to be implanted. My question is, just what can “they” do with these implanted biochips?

At [http://www.bugsweeps.com/info/electronic\\_harassment.html](http://www.bugsweeps.com/info/electronic_harassment.html) one can view biochips and read about them including the following: “Implants are without a doubt the most invasive form of harassment. Electronic implants consist of transmitters, ESF generators, micro-neurophonic transceivers, tracking devices and other micro sized devices designed to cause harassment by tracking or controlling movement and thought. The most common implant was designed many years ago and is still used to this day. It consists of a unit that is powered by bodily fluids and is capable of transmitting voice signals; high voltage pulses, emitting a small tracking beacon signal, or other unspecified uses (mind control).” At <http://verimedinfo.com/content/intro/physicians> one can actually view the process of the insertion of a Verichip. It’s a relatively simple procedure using a hypodermic needle.

Now, my question is how many of these have been implanted in the general public? Are they implanted in personnel in our armed forces so they can be mind controlled to attack or just for tracking them? Recently records of millions of veterans were stolen when an officer took them home. Were these records of the implants? Who stole the records and why? Is someone going to expose the biochip atrocity if it exists? I certainly hope so because if our service personnel can be mind controlled, we indeed could be attacked by our own military.

In my quest for knowledge about our current government I have become a follower of Alex Jones and subscribe to his website: <http://prisonplanet.tv/index.html>. I do believe he is one of our American Heroes, by exposing the cover-ups that he exposes. Indeed America needs to “Wake up”. Perhaps one day he will help to expose the

electromagnetic harassment that has been going on also.

**Living as a TI, Targeted Individual is horrendous.** It is difficult to keep one's sanity, which is probably exactly what "they" are trying to deprive us of. There are times that I would rather be dead than to live like this. We are frequently abandoned by our family and friends. In my case, I have been banned from talking to or seeing my only granddaughter because my son says I need "help," meaning mental help. He said that he would tell his daughter, who is only five, that grandma is sick so we can't talk to them now. This has hurt me more than I can probably ever describe. I believe it is just another way my "buggers" are trying to drive me crazy. "They" know how much my family means to me and depriving me of them could push me over the edge. I can't help but wonder what my poor granddaughter is thinking. I can almost hear her say, "If grandma is sick, can't we go help her." Her mother is a pharmacist, so that would be a logical response for her. It is bad enough to involve adults, but when "they" involve children, it is horrendous.

I have three grown sons and at the present none of them will communicate with their father or me. (The oldest has now communicated a couple of times.) Two of my sons have been in the armed forces so who knows if they have been implanted and can be "controlled." My second son had an operation after I came up with my theory, so he could have been implanted at that time also. It is one theory that I have anyway. Fortunately I am married and although my husband does not buy into my theory and does blame me for our son's not talking to us and our being unable to communicate with our granddaughter, he loves me enough to stay with me. He has stated that if I can ever prove my theory that he will go with me to get us the settlement that I believe we deserve. We may never see a settlement, but hopefully one day, someone will help me prove that I have been right.

For my sake and the sake of all the other victims of electromagnetic harassment I am writing my story. Eighteen years ago when I first came up with my theory, I said it would make a great book if nothing else. It has been difficult to even try writing my story, but last fall I began writing my experiences. To write my book, I have to go back to experiences that I had tried to leave behind me. Since we moved to Arizona, the signs of being "bugged" started surfacing again. Maybe the time is right for me to write my book. I heard a speaker say that there is a window of opportunity for action and perhaps we are at that time. I certainly hope so anyway.

Computer problems are common among TIs. Our computers are probably monitored continually. I even received a letter from AOL that I needed to install a security program because they had detected some security problem. I already had a security program installed, but I ordered the AOL program and also have it installed now. Friends have told me that they sent me email, but it came back to them undeliverable. I have sent email messages to people and they never receive it. Are these just "accidents"? I don't happen to believe so.

If I haven't proven my theory of being "bugged" by the time I publish my book, perhaps someone reading it will become the American Hero that I need and volunteer to help me prove my theory. They may well save America if we can get the evidence that I am "bugged" out to the public. I have said I would be a spokesperson and go on TV shows and the like if we can get the proof. Hopefully we can do that. I believe it would be rather easy to prove my theory if someone educated in electronics would be willing to come and donate some time to help me. I know very little about electronics, so I am basically an easy target. At airports I have been randomly selected for a search twice and both times the person doing the search was called to the phone before they completed the search. My theory is that they were told to turn down or turn off their wands. Then there is the testing that RJ conducted. I'm quite sure he detected something, but he also got a phone call. I don't know if there is anyone out there who is brave enough to help me.

Through my association with the mind control research forum, I have met Bob D. Without his encouragement, I may have never pursued writing any more of my story. Hopefully writing this story will be of benefit to all victims of electromagnetic harassment and the whole United States. If indeed we are being mind controlled by electromagnetic means, it's time we prove it so we can truly be the "land of the free."

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

To whom it may concern: Beverly A. Schweitzer, resident of Arizona, USA.

**Harassment & torture started in 200 after testifying in a high-profile case for the prosecution in Phoenix, Az.**

This harassment is very real & has created an atmosphere of isolation, vigilante damage to home & car. Some of the damage to home has been reimbursed because companies testifies to my insurance company for reimbursement. Have had checks removed from my retirement park mailbox, books private bills papers removed from my home. Retirement communities are known to harass, & was told having no local family & isolation sets you up for this harassment. I'm an RN & have lived & worked in 7 states over 50 yrs. I quit work 3 months ago because the electronic harassment has been so severe & painful. It causes continuous sleep disruption, burning of skin, especially the scalp, & caused chest pain that required me to go to an Emergency Room 5x over the last 3-4 yrs. it caused irregular heart rhythm that lasted about 2 hrs. I have had no heart history in my family or myself.

My rights have been continually violated w/4th & 5th Amendments violated. This undetectable torture has been constant by some remote method. The stalking has continued & have seen certain neighbors in & around my house. One man blocks my driveway w/his dog that has prevented me from returning home & just driving by. The stalking is obviously organized & have had no cooperation from police. Their reports would label me as an insane person when I called in a complaint. Numerous events have occurred w/o justification & feel financial

**OTHER ARIZONIANS WITH THEIR HUMAN RIGHTS BEING VIOLATED**

**1. BEV IN MESA.** I testified for the prosecution in 2000 & since noticed tremendous stalking by neighbors. I found blue shredded carpet in my shower, been reimbursed by Farmer's insurance for vigilante activity causing home damage. Constant entries into my home where my phone is dead each time I returned home in early am from my nursing job. I continue to have items removed from my home, mail from my retirement park mailbox, trash thrown in my driveway, afraid to enter my driveway because neighbor blocking it.

**2. REGAN OF SCOTTSDALE.** Stalking & harassment by fellow employees @ Phoenix Biltmore, where she works as a message therapist. Frequent following & mention of God's Army people. She has ad home entry & damage by neighbors. One man came on property & shot an animal. Its ongoing.

**3. VIRGINIA IN APACHE JUNCTION** is 82 yrs old & walks w/cane. She has had male neighbors that enter her driveway, park in front of her house for periods of tims. She did talk to the police chief earlier this year & w/police assistance local harassment has decreased but the stalking by car has increased. She since has fallen & requires more MD visits & has been frightened by the cars.

**4. FREDERICK OF GLENDALE.** He was ran down by a car & knifed. Electronics has caused severe abdominal pain & headaches. He was hospitalized twice last 2 mos but unknown cause. he lives in a group home & his many physical symptoms have blocked him maintaining a job.

**5. MARY ANN OF MESA.** She recently moved here from Ohio where she was actively trying to expose the stalking & electronic harassment by going to Washington DC w/our organized group called Freedom from Covert Harassment & Surveillance. Ted Gunderson assisted our group by introducing them to different legislators to give them a chance for education into this horrendous crime of citizens against citizens. We continue to expose this issue to our Az Legislators & appreciate House Bills such as 4513 & 4514, from MICHIGAN that makes it unlawful to terrorize, frighten, cause any home damage, or destroy. Mary Ann has had continuous harassment on the job, electrical shocks, etc that has interfered with her health. Its been dangerous for her.

**I have numerous other victims in Az but many have had more intense harassment it they contact other**

victims even by phone & preferred not to be in contact. We do have meetings for planning & nationwide conference calls for information & support.

15/8/08

**I'm trying to get the contact person for Fort Huachuca in Sierra Vista, Az. We have about 40+ targets living in that area.** The Fort is an intelligence center & has been the office to many of the Army personnel that set the program of harassment for the detainees @ Guantanamo Bay, heard the hearings given to the congress by such army personnel. I also send the FAIO letter written by our FFCCHS lawyer to the local police department. They have been excellent in describing myself as an insane person when I called for assistance. The intake person actually wrote that on the sheet describing the call. I continue to get the electrical stuff & the stalking has increased 10 fold in last few months. I continue to work as a RN & am CERT (community emergency response team) trained. This keeps my credibility up & have contact w/outside sources about this very issue. Bev in MEsa, Az. Jill Sawyer is part of FFCCHS & lives in Sierra Vista.

1/5/13

My appreciation to John Finch for his persistent education & information about our harassment & stalking. Mine has been for 13 yrs. & live in a retirement community. I worked for 53 yrs. as a RN, raised a family, continue to volunteer in various organizations for many years. Have been a part of FFCCHS since its organization in 2005 & met in D.C. The continued damage to home, home entry, broken windshields in driveway, electronic shocks that sent me to E.D. for irregular heart rate, & numerous neurological issues that have personally cost me my health. I know other single RN's who have this daily terrorizing life in the privacy of their life & not be the sort of persons to retaliate. This constant intimidation has cost our health, damage repair by our insurance companies. The horrendous gossip against us is so similar to teen bullies. Being unacceptable is not an issue for me. The possibility of being thrown out for being undesirable is also an exposure to the undesirable & poor behaviour of the residents & management. Hometown America has been taken to court by another state & they're paying the legal costs & 2 other states are also taking them to court because of the harassment their residents are challenging. Too many older single women across the country are victims by many couples. I'm so glad many books are out, bullying in general is recognized, & now Jesse Ventura has given this exposure. I continue to enjoy my line dancing, volunteerism, & in general friends who know me as a worthy person on God's planet. Thanks again. [freewgrace@aim.com](mailto:freewgrace@aim.com). From: Bob S

I am a retired attorney living in North Hollywood, CA. I have been a target of COINTELPRO since 1954. DEW attacks were added to COINTELPRO operations when the technology became available. For those who were selected to be subjects of DEW experiments, COINTELPRO operations were added for the purpose of more thoroughly disabling them and to make the truth about their total experiences seem impossible and unbelievable.

I have offered my legal analysis of the situation to Derrick Robinson and to many other TIs. Derrick didn't like my conclusion and hoped to get a different opinion from you. I have thus kept quiet while you did your research to see

if you would reach conclusions different from mine.

From what I hear, it seems that you are proceeding with the intent of pursuing litigation. My research forced me to conclude that litigation under present circumstances could not be successful and that undertaking litigation now would only be harmful to the interests of those involved. If you have found a way to reach a different conclusion, I would be delighted to hear about it, but I think I should tell you now the reasons for my conclusion.

As you know, the doctrine of sovereign immunity generally bars legal actions against government. This doctrine applies to federal agencies but not to federal employees. Under the Federal Tort Claims Act, government consents to lawsuits against agencies for negligence but not for intentional torts. For this reason, plaintiffs in some of the MKULTRA cases alleged only negligence instead of intentional tort by the CIA in conducting experiments.

Perhaps the same could be done with DEW experiments if we had some way of knowing and proving which agency was responsible for specific harm to specific TI's, but we can only guess at this. We have no way of proving it.

Employees of an agency can be held responsible for intentional torts if we had a means to identify those responsible. Since we cannot identify them, we can name a lot of Doe employees and then try to use discovery to identify specific persons involved, but we would then be blocked by the state secrets privilege. Courts almost always grant motions to dismiss when the state secrets privilege is asserted by government.

The privilege is currently being asserted in illegal surveillance cases. The argument being made against use of the privilege is that the Foreign Intelligence Surveillance Act (FISA) was written to allow cases like this one to proceed with appropriate security precautions. If this argument succeeds, it won't help us because we have no legislation authorizing our kind of case to proceed in spite of the state secrets privilege.

It seems to me that the Constitution should take precedence over the state secrets privilege, which is merely a common law doctrine. Since legislation can change common law, the Constitution should change common law where there is a conflict between them. I don't know of any cases where this argument has been made. If it has been used, it has apparently not been successful. Otherwise, it would be used in the illegal surveillance cases.

We are in a weak position to assert the constitutional argument since we have no proof of government violation of constitutional rights. We need discovery to try to prove responsibility for the violations. It is very unlikely that a court would allow discovery to proceed in spite of the state secrets privilege when we are merely searching for proof of violations of constitutional rights and have no starting proof of such violations.

My conclusion was that sovereign immunity and the state secrets privilege are virtually insurmountable barriers to us when we have no evidence to prove specific responsibility of specific government employees for specific harm to specific plaintiffs. Can you find any way to reach a different conclusion?

We need congressional or administrative investigations to dig out evidence proving specific responsibility for the harm inflicted on us. To help obtain such investigations, my recommendation to TI's has been to document personal experiences which prove government responsibility. Documentation of experiences which demonstrate the use of capabilities available only to a government intelligence agency are a way of proving government responsibility.

One example is the interception of our mail. The Church Committee investigations proved that the FBI and CIA had been granted illegal and unconstitutional access to first class mail, starting in 1940. Who else could have the power to intercept our mail regularly?

TI's frequently experience other COINTELPRO methods, which prove government responsibility. An attached email gives many more examples.

Such documentation from a large number of TI's would provide strong support for demands for congressional investigation to determine which federal agency and which specific employees are responsible for the documented facts. We would need to take our case to the public to arouse pressure before congress would act. This is how the Church Committee investigations were forced. Alternately, there is hope that under an Obama administration, we might be able to obtain an administrative investigation.

I have been urging TI's for years to document this kind of evidence, but only two of them have done so. I urged Derrick and other TI's to document this kind of evidence to provide to you, but this was not done.

Your letter to senators discusses the probability that government agencies are doing experiments on us based on proof of past government experiments on involuntary subjects. This argument is persuasive, but it is not proof of government responsibility. Many of the COINTELPRO methods, which are used to supplement the DEW experiments, thoroughly prove government responsibility. People outside of government could not possibly do all the things that are being done. Thorough documentation of such proof would provide much stronger support of our right to obtain congressional or administrative investigations and would help us obtain public pressure to support our demands.

I believe that congressional or administrative investigation is an essential prerequisite to successful litigation. Thorough documentation by TI's of experiences that demonstrate government responsibility will provide the strongest arguments for obtaining the investigation we need.

I know that you have had limited time thus far to research a subject that is entirely new to you. I have been researching for many years a subject with which I have had 54 years experience. I hope that my comments will be useful to you.

Feel free to discuss my comments with Derrick and other TI's. If you do so, please refer to me as "Bob S." I do not use my last name in correspondence with TI's.

This has also happened to me in the USA. I was shot in the brain implanted and dumped on the street. My family does not believe me. I felt all alone in this until I read your statement. I know now that I am not alone in this. But the implants are still there. And my biggest question is why????

Just wanted to add that I'm new at this, thanks for inviting me to the list. I have been aware of being a target for only a year. I remember an incident that could bring the targeting back to 10 years ago.... but for some other recently remembered weird experiences, it could even have been going on for maybe 20. My targeting is mainly of the creepy crawler type...going in the house, stealing a car 5 years ago....moving things inside and out.....their physical foot imprints can be felt all around the perimeter of my house, they scratch things to let me know they've gotten in - they can walk around some homes with the alarm system on (if the sensors are old), using 'the stealthy walk'. I have enough trouble trying to convince anyone of this, never mind talking about energy directed weapons. The point I want to make is this. I think it is important to get the awareness out there that a crime of this nature is even possible. Just trying to talk about something of this magnitude that could really scare an ignorant public is hard enough. Bringing in energy weapons could make it even harder to believe. I don't think that these weapons have been used on me, but maybe I'm in denial about it (I've had my fair share of bodily problems but thought it was simply due to the miracles of our human body). I can just see myself trying to tell those people who already don't believe me, that as well 'they' are using these weapons on me. We have a hard enough time trying to tell them that age old spying methods are still being used and with even greater fury, now that modern technology is involved...that even though the war is over its not over.....Sherlock

DEAR SIR/MADAM

I am a victim of mind control and electronic torture who created a website called [www.electronic torture.ca](http://www.electronic torture.ca). Before reading my (Morteza Sheshpari) story, I should say that my electronic torture has been organized by Iran intelligence service, Canada security and intelligence service (CSIS), CIA, NSA, and MI6. My story goes back to few months before starting my compulsory military service in Iran army air force in 2004 when I started to receive threatening emails and phone calls in Iran, and collaboration of Iran intelligence service with USA to create big middle east and revelation of secrecy of Islamic republic revolution which was performed by MI6 to some intelligence agents in Iran. After I came to Canada to do my graduate studies their persecution never stopped, which finally they started my electronic torture by satellites in September 2007, which includes voice to skull harassment, watching through my eyes, inducing artificial dreams and causing pains in my body parts. My reason for collaboration between above intelligence agents is that Iranian agents through their connection to UK and USA intelligence agencies were able to bring surveillance equipment to Canada and start making a group with Persian speaking agents of CSIS to target me. They were transferring my information about what I see and hear and my thought through their satellite communication to Iran intelligence service base in Pasdaran, Tehran which has high tech satellite receivers and transmitters. I am hearing voices in Persian language which some of them related to Iran, some CSIS, some USA intelligence agents. Cause my silent thinking voice is Persian, in other words I think in Persian, CSIS allowed, I be targeted by Persian speaking intelligence agents. I had to trips to Finland (3 months) for resettlement and Turkey (1 week) for visiting my parents. The voices and artificial dreams, and pains never stopped during my these trips which I concluded they working with NSA and CIA which have espionage satellites covering around the globe and different countries.

I contacted several times with NSA, and CSIS and described my problem, but never got an answer. I think mentioned agents are located in CSIS department, in Toronto, due to high population of Iranians and Persian speaking people in Toronto. I talked to English speaking agent, and described espionage conducted by Persian agents and their links to Iran intelligence service, CIA, and NSA. He agreed to connect me to their department with Persian translator and took my phone number to call me back. When he called me back he responded in strange tone that you can not talk to them. I said to them if you are giving double response to me I have to talk to media

and publish my knowledge so people know about your affair with Iran, USA, and UK governments. I also send a letter to Barack Obama when I was in Finland to order to remove my remote neural monitoring there so I live freely there because of no connection of this country to geopolitics, petroleum ,arms and military equipment deals. You may not know, but Iran Islamic revolution was organized by UK and USA intelligence services mainly to create a synthetic enemy which is Ayatollahs government to control geopolitics of middle east , petroleum prices, create threat for region to sell more military equipment. I am a witness who experienced trauma during compulsory military service in Iran due to their connection to above intelligence services and electronic torture and interrogation with telepathy and synthetic dreams by Iran, UK, USA, and Canada intelligence services in Canada. Unfortunately I did not get a response from Nobel peace prize winner.

### **My Story:**

I was targeted by intelligence services before starting my compulsory military service, around March 2004. I completed my registration form for compulsory military service that every Iranian male person should submit to get permission to go out of Iran.

I had chosen in my registration form that I like to serve in Iran Army rather than in Islamic Republic Revolutionary Guards (which controls Iran policy too). I had different email addresses (two yahoo emails and one university assigned) when I was at University (Tarbiat Modares University).

I was attending English language classes in Tarbiat Modares University after I finished my Masters degree in Engineering Geology. I met two girls in this class that later I understood, one of them with the name Mojgan Nabipour was daughter of one of dedicated and close military pilots to Islamic republic leader, Ayatollah seyed Ali Khamenei. The another girl with the name Sahar Ferdosian, whom I understood belong to middle class family (Business family) who were family friend of Ayatollah Ali Akbar Hashemi Rafsanjani.

I was sending greeting cards from [www.123greetings.com](http://www.123greetings.com) to their emails. One them which belonged to middle class family was yahoo email. Another one which belonged to daughter of military pilot yto an email in [morva.net](http://morva.net) domain.

Because they were interested in pursuing their graduated studies out of Iran, I ordered some university prospectuses (application forms and studying guide mailed from UK universities). I was using my yahoo emails. Two yahoo email addresses that I had were :

1: [sheshparim@yahoo.com](mailto:sheshparim@yahoo.com), Morteza Sheshpari, its country location in registration was: Turkey

2: Second email address with artificial identity: [shami111ir@yahoo.com](mailto:shami111ir@yahoo.com), Mohammad Shafie, its country location in registration was: Iran

By second email I had contacted to some professors to get more scientific information for my research in geo engineering field, also I got some medical advice from Physicians out of Iran ( I think USA) about disorder that had symptoms similar to Irritable bowel syndrome. As I understood, somebody hacked this email and put a trap (an email was sent from Pakistanis or Afghanis insurgents in the middle east region to this email address).

Possible Reasons for that:

I think they were looking after person with last name Shami who was airplane hijacker in September 11 attacks, 9-11 attacks. I should mention here that there many Citizens around the world including USA with Shami last name, and name that I was used in that email was Shafiei.

I think Intelligence service of Islamic republic of Iran, put that trap email so they can hunt their supposed insurgent(s) or Shami the hijacker in the region and exchange it with US intelligence service for some profits and credits. When I received that email, I just opened it and I did not replied. I do not remember about its complete context. Only thing that I remember it was about insurgent(s) in the region. I do not know if this email was like virus and it was spread into other computers in internet or not. Also in that email, I received another email from opposition of government of Islamic republic of Iran, who are mainly based out of Islamic republic of Iran, mostly in USA and contact with them are illegal in Iran. I did not reply to that email too. Opening of these two emails happened in Tarbiat Modares University computer site. Because of those strange emails, I never checked back that email address anymore.

Another day, when I was at university, I received a white message, no sender and context between my messages in inbox at [sheshparim@yahoo.com](mailto:sheshparim@yahoo.com). I opened that email, I do not know if it was like a cyber program or virus produced by security services like NSA, CIA (I am sure it was not produced by Islamic republic of Iran intelligence services).

Also, I do not if yes or not, this message was spread into computers in internet at that time.

I was checking my only email [sheshparim@yahoo.com](mailto:sheshparim@yahoo.com) afterward at University and home. When I was checking my email from my computer at home in Karaj. I sent just a regular message to Sahar Ferdosian. Suddenly, I started to receive strange email messages entitled your postmodern story. In these emails, messages contained several sentences which were mixed together without any meaning in general if whole message was considered. There were some pictures from both girls that were not looking like normal pictures and I think there were made by a graphic software. Some sentences in email messages entitled your postmodern story, were describing the situations that happened in English language classroom and I could understand somehow. Other sentences which were not related to my life and were related to other situations that I know I think happened for those girls and specially daughter of dedicated pilot to Ayatollah Seyed Ali Khamaneie or his intelligence services. Some sentences of the messages that I was receiving in my inbox including some pictures were:

They do not allow to unite (USA or United), nobody is allowed to unite. I should tell you something. You can hit me as hard as you can. I am evil. I never comeback. I never can describe the way back to my truck. I was watching you. Somebody was waiting at the corner. What is your answer even if she sucks, and ..... ?.

Also some pictures resembling two girls and cars, money (American Uncle Sam gives money), Onyx (sexual erecting medication), Cigarettes picture while I do not smoke .

As I remember all the messages had same sentences. But the sentences in different messages were displaced in another section of the message every time. I think some parts of messages was related to one of the girls who were looking to find another person in another part of City of Tehran.

When I was reading these email messages, I was sending as much as I knew, reply to Mojgan Nabipour and asking her what happened to you sending these strange messages with pictures to me. I was sending my reply to [morva.net](http://morva.net) domain email after receiving them. During this time I was receiving unknown phone calls from different cities of Islamic republic of Iran, especially Tehran. For example one of the phone calls was like that: Are you Mohammad, I am rider of the motorbike, I replied no. Replied to me pass the phone to Mohmmad that I saw him today. I replied there is no Mohammad here. This phone was from south of Tehran, since it number was showing area code related to south of Tehran. In Iran cell phones have unique starting number 9, but cities and areas in cities have different starting numbers in phone number. I was receiving calls from cities like Dezful in South of Iran, and Hamedan in West of Iran and many from Tehran. I did not expect to receive these much wrong phone calls from all around the Iran while I have not published my cellphone number in any place. I should mention in Iran, especially in Tehran, CIA have agents in the cover of business persons and drug traffic dealers who report about status of Iranian security service and information about background clearance of persons who want to travel to USA for studying and other purposes, since they do not have direct communication and collaboration with Iranian police and security services because of not having political relations. As I understood from these strange emails and phone calls that intelligence service of Islamic republic of Iran and Iranian Army, are looking after me, I tried to find out who is looking after me at that time carefully. The day that I had to introduce myself in Military Recruiting Center in Tehran, I left the home in Karaj and I was noticed street cleaner related to municipality of Karaj in front of our house is watching me while doing cleaning (strange) close to our house, without knowing their connections or exact purpose until I was informed that I have to start my compulsory military (in Islamic republic of Iran army Air force or Iran Army Air force). In the recruiting center there was an agent from Iran intelligence service with plain clothes and wireless receiver who were helping in dividing young applicants in different forces. After dividing male applicants to different forces, they released us to go back home and cut our hairs. Then I had to go to one of Air Force Training center, named as Ghasre Firuzeh located in south east of Tehran on determined date. When I got home, I received a strange message in my yahoo email that your travel has started. In this message there were three person running beside the sea with bikinies, one male and one female with brown skin and black hair looking each other while running beside the sea and a kid with white skin and blonde hair between them. After receiving previous mentioned secret message in my yahoo mail, I was receiving another secret messages in my spam folder from Editor Bob, in these messages which were written in American accent I mean street language, I was receiving different messages texts and graphical figures like statue of liberty related to [123greetings.com](http://123greetings.com). As I remember one of the sentences in his messages was, it was fraud for you, (I know what he meant was about postmodern stories that I was receiving in [sheshparim@yahoo.com](mailto:sheshparim@yahoo.com) and traps that I received in my mentioned fake email).

As I understood later in my Military Training Base, Editor Bob (Covert Name ) was special agent from USA at that time George W Bush was president and was a war in Iraq and Afghanistan. This man was controlling training base in Army air force with the help of Iranian military personnel, and specially me because of receiving secret messages in my yahoo email. Because of wrong intelligence information from Iran, he was thinking he is directing

military training of a young soldier (high school graduate) from south of Tehran in Islamic republic of Iran army Air force.

In one day when I receiving strange phone calls to my cellphone from different parts of Iran, I jumped out of my chair and looked at the street through windows. I saw two motorcycles passing with high speed in the street. On one of them were two male riders who were looking like people who are against policy of Islamic republic of Iran. These two riders were passing in the street in front of our house and going to end of the street and the riding back to first of street. After these two riders, there were another two riders on another motorcycle. These two riders were looking like Islamic republic of Iran civil intelligence agents (Famous as Basiji or Sepah plain clothes). They were going to end of the street and then riding back to first of the street. As I said I was receiving phone calls to my cellphone from Tehran that callers were looking for different guys. Considering above information, I think wrong information were provided for USA intelligence agents, by these guys who are linked to CIA operations in Islamic republic of Iran. Another possibility is that intelligence service of Islamic republic of Iran was caused they gather wrong information.

During Military training period, one day Editor Bob send a message to my spam and I said in Persian I saw two motorcycles and their riders in several days ago in our street and I am going to have hard time in coming days. When I sent that message I was off from base for weekend like other soldiers. Editor Bob sent a message that I can remember these sentences in that message : Hello! Hello! Hello!... Ultramodern, I will send someone to cook you, add olive ( related to Israel agents), .... , and take out some body ... with pence or caliper? Considering the above information, I can conclude the people who received my messages from [sheshparim@yahoo.com](mailto:sheshparim@yahoo.com), in [@morva.net](mailto:@morva.net) email which was being controlled by of Islamic republic of Iran Military and Government Intelligence Agents were interested in Pakistani(s) or Afghani(s) insurgent groups.

Before this operation I heard from some guys in the military training base saying together, that people who are reading messages (my messages) from my personal computer in yahoo mail started to make a movie from each sentence. One of them was saying that an unknown computer (my PC at home in Karaj) is flipping like a coin.

Other soldiers were saying 1 goal from east intelligence team to west team in favor of east. Another time they were saying 1 goal from west intelligence team to east team favor of west. Some soldiers were saying American military want to attack the base with missiles. Another soldier was saying they are looking for Israeli spy.

An operation by Editor Bob (USA special agent) target my mind by that all people involved in that operation, soldiers in that day by cooking me, and do really a mind terror on me. One of the reasons was, There were agents related to department of Ayatollahs in military base that video tapped the soldiers in their bed room including me by big professional video cameras. When I was acting as a guard in military training base, as I said in previous paragraph, the conspiracy that caused mind terror targeted my mind by causing tiredness, sleep deprivation the night before, and in the morning making me isolated in front of door of building of battalion that I was related to that. Then different soldiers were approaching me and saying different things to me:

One of the soldiers was saying who is getting punished now, you, another soldier (official) was saying we are removing your file to another place,

remote base, another soldier approached me and said are you really Morteza? another soldier approached me and yelled at me , Holy Imam Ali Shrine in Najaf, Iraq was attacked , some soldiers were approaching me with sad face, I think they were cooked in another place, another soldiers were coming and pronouncing my name, I was there when the son ( Brother of that mysterious girl, Mojgan) of dedicated military pilot to Ayatollah leader of Islamic republic of Iran approached me by official commander of me, commander showed me to the son of that dedicated pilot and he did not recognize me. After that the commander yelled at me. Then he changed my place, from another place, I was watching that the brother of other mysterious girl, Sahar, a chubby boy was approaching to our building. He came to commander office for reorganization of my photo in training period.

After that I went to bedroom and fell down semiconscious on my bed , three other soldiers, one of them had a lot of beard and the guy that were talking about flipping the status of my computer, were approached to me and started to say unclear and somehow humiliating words while laughing. When I was released from training base at the end of the week, I checked my yahoo email. Editor Bob which I think had done his operation was sending messages like:

Friends day and more..., Fathers day and more.., do you need new computer with graphical greeting cards.

In the last day when the semiofficial officer who were planning to be employed by Islamic republic of Iran air force

, said OK we are going to deploy that guy (me) to a very harsh and bad military base to Eastern border of Islamic republic of Iran and Pakistan. When I heard that I called my parents and started to complain. It caused that they do not deploy me to harsh military base for remaining military service period and I was placed in headquarter of Islamic republic of Iran Army Air Force.

After I was released from training military base for few days off to be relocated to new place for remaining of my service, I checked my yahoo email, because of confusion due to mind terror... I was not able to login to [sheshparim@yahoo.com](mailto:sheshparim@yahoo.com).

I was directed by yahoo mail service to make a new yahoo mail. I used my original name Morteza Sheshpari, to create a new yahoo email. I got some confirmation codes in the last steps of registering a yahoo email address that were: dust, boat (like meaning Karaj in Persian which is my hometown), and launch and all of them were ending in the inside of my yahoo email page that

A male figure (me) and female figure (?) and a Kid figure with blonde hair were sitting beside white house building in Washington DC. Transformation of data and creating my new yahoo email were directed to special server in USA by NSA. Also it was revealed by some intelligence agents in Iran that Islamic republic revolution has been performed by MI6.

In the new military base, headquarter of Iran Army Air Force in our offices again different soldiers were spying on each other. One of the personnel was Iran army intelligence agent who were telling me, your name is in Israel army as soldier and was threatening some other soldiers. Some soldiers were watching pornographic movie which were showing Israeli official having sex with their Palestinian and Lebanese prisoners. Another soldier were saying, intelligence service of Iran is after you and you cannot arose anymore. I came to Canada with a lot of struggles to pursue my graduate studies in 25 January 2007. In University of Western Ontario, when I was using my university email and account [msheshpa@uwo.ca](mailto:msheshpa@uwo.ca), I was not able to send or receive messages and upload marked exam sheets of undergraduate students to my account for responsible professor. I had to contact to the professor, so he come to campus and give data and marked sheets to him by USB flash memory. I contacted computer technical department in earth sciences department and related center in faculty of science, they did not find any problem in my account. Because of these types of problems, I got furious and thought I am persecuted and under surveillance again, so I resigned from UWO and I moved to Montreal and applied to University of McGill and Concordia for PhD program. Meanwhile that I was waiting for my application answer, I attended Goethe Institute to learn some German language. Once or twice a week, was calling my parents in Karaj, Islamic republic of Iran and complaining about my situation furiously and complaining about controlling my email and causing trouble in my progress by anonymous agents.

One day, in September 2007, I was going to Goethe institute in Montreal to study German Language that suddenly I was targeted by electromagnetic waves and voice to skull microwaves. Islamic republic of Iran intelligence agents, by getting special equipment through their connection to western intelligence agents like CIA, NSA started to send chaotic voice messages to my skull and watch through my eyes. They were able to send voice messages to my skull (Brain) and read my mind through hearing my mind voice when I am thinking and talking to myself silently. Some of them were laughing at me. Male agents were saying, you put national security of Islamic republic of Iran in danger. Also same male agents were saying, western race of Jewish people are doing brainwashing in you. Also I noticed that they are watching through my eyes, and saying humiliating things when I was taking shower. Because of that situation, I decided to pack my luggage, and go to Ottawa and take refugee. I asked embassies of some countries like Germany and Japan.

German embassy clerk said you should first apply for refugee status in Canada. I applied for refugee status in Canada, considering Islamic republic of Iran intelligence agents planed a conspiracy to return me to Islamic republic of Iran and apply same tortures that they did on me during my compulsory military service. Also I converted to Christianity in Canada so I do not get side of Muslim agents or Jewish agents and personal reasons. When my mother called me in 2007, I said to her do not call me for a while, because security of me and Canada be in danger because of those Islamic republic of Iran intelligence agents who are sending voice messages to my skull. They were saying to me do not forget you put security of Islamic republic of Iran in danger. Also, they were saying to me you are revealing nuclear bomb secrets of Islamic republic of Iran. Sometimes they call each other nuclear scientists of Iran (In Persian language: Daneshmandane hasteyee Iran). (English: Nuclear scientists of Iran). After almost two years, I was able to hear their clear voices during midnights. Some of them were located in Islamic republic of Iran, some of them were located in Europe and some of them in Canada. Later I noticed that they are doing remote neural monitoring which its equipment available to intelligence survives to see what a person (me) see through collecting and decoding visual neural signals. I saw some Japanese or Chinese alphabet characters in my eyes when I was closing it during some nights. As I noticed they are linked to powerful agents. They are

sending voice messages to my brain which includes these sentences:

1- (Persian: Imam Hassan Mojtaba ra negaran Kardi)

(English: You made Imam Hassan Mojtaba get worried)

2- (Persian: Ma zirzamine ounha ra peyda kardim, ounha zirzamin ma ra peyda kardan)

(English: We found their underground (secrets or intelligence) and they found our underground (secrets or intelligence)

3- (Persian: Pakestaniha ra zoogh zadeh kardi)=( English: You made Pakistanies very happy) . They are talking these sentences from several years ago.

(Persian: Pakestaniha ra negaran kardi)=( English: You made Pakistanies get worried) They are talking these sentences from several years ago.

4- (Persian: Siahpoosta ra zoogh zadeh kardi)=(English: You made Black people very happy, they were using this sarcastically from several years ago when I was seeing a black man or women or dark skin hispanic man or woman or I was talking to them for my official works).

5-(Persian: Daneshmandan hasteyee Iran ra negaran kardi)=(English: you made nuclear scientists of Iran get worried)

And sometimes (Farsi: Daneshmandan hasteyee Iran zooghzadeh shodand)=(English: Nuclear scientists of Iran got very happy)

6- (Persian: Enghelabe yahoodiha ra shoroo shode(kardim))=(English: Revolution of Jewish people has started (or we have started revolution of Jewish people).

7- (Persian: Mojgan fereshteh ra tu taleh andakhtim)=( English: We trapped angel Mojgan) when I see some Canadian girls, blonde or black hair girls.

8- (Persian: Siahpousta ra zoogh zadeh kardi)=( English: You made black people happy)

9- (Persian: Siahpousta ra zoogh zadeh kardi)=( English: You made black people happy)

10- (Persian: Siahpousta ra negaran kardi)=( English: You made black people worried)

11- An old female Persian speaking agent (Persian: Ben laden ra tu tale andakhtim)=( English= We trapped Ben Laden). I hear this sentence when I watch Aljazeera TV channel, or I do not leave home for few days).

12- A male Persian speaking agent (Persian: Barack Obama ra negran kardi or sometimes, Barack Obama ra zoog zade kardi)=( English: You caused Barack Obama get worried or You caused Barack Obama become happy)

13- (Persian: George Bush ra be tale andakhtim)=(English: We trapped George W Bush).

14- (Persian: Eftekhare makeleye Englis hasti)=(English: you are honored by her majesty Queen Elizabeth II).

15- (Persian: ma tamame narafzarha avaz kardim)=( English: We changed all softwares)

### **I hear these voices all days and hours.**

Also, when I was living in Orleans, Ontario and I was going to swim in a pool at sport facility close by, They were starting to laugh at me and other swimmers with very loud voice, because it was mixed and family pools, and I am sure it was something that never seen (Possibly from very close distance). The number of Farsi (Persian) speaking intelligence agents who call himself Imam Hassan Mojtaba are several male agents. As I understood I am targeted with more than one group of Intelligence services, including Canada, USA, and Iran intelligence services and they

have problem which other when they are talking on my mind. Because of sending these voices to my skull (brain) which are very dangerous to my health, I went to Ottawa hospital in 2008 after getting my refugee medical insurance permit. Farsi (Persian) speaking intelligence agents were saying happy birthday for you with girls and boys doctors and nurses in hospital. I was put under Ontario disability support program (ODSP) with help of Dr. Deanna Mercer, Dr. Sharman Robertson, and nurses.

After few months, they were saying with humiliation you are acting like very active navy man, Popeye the Sailor cartoon character.

When I got volunteer job in Natural Resources Canada, and then a contract there. The Persian speaking agents were saying happy birthday with government employees. Also, during some nights at bed, I was able to hear their clear real conversation. They (Male Persian speaking intelligence agents, sometime Female Persian intelligence agents) were asking me, are you listening to our (secret?) conversation?

The mentioned Farsi (Persian) speaking intelligence agents are able using high tech devices hypnotize me and induce synthetic dreams to my brain during sleeping hours. I started to see strange (very non normal) dreams which are synthetic when I was sleeping in my bedroom at basement that I rented in house located in 2432 Clementine Blvd in 2008) and they were continued after that.

Some of dreams that I can remember are as follow:

I am able to get weightless state, anti gravity status, in my dreams and fly like a bubble frequently almost every night. I was able to see real scenes from streets of Tehran, where I saw Ayatollahs (mullahs) are walking in front of Melli Bank ( One of government owned banks in Islamic republic of Iran). I was able to see real scene of UK flag waiving close to military airplanes and/or ships. I was able to see a dummy which were very similar to me that a Persian girl was keeping it and was talking to another person in that room. She was able to answer my question by synthetic telepathy talking to another person that we made those dummies in England.

I do not know how many dummies from me exactly have been made. But as I know it should be more than three. According to my research those dummies have been made based on biomimetic technology. As I know neural sensors in this dummies have been matched to my central nervous system by computer program. So human (my body ) senses sight (visual), hearing (audition), touch (mechanoreception) can be matched with these dummies and programs on computers by uploading my nervous system and mind remotely by computer programs.

I was able to see some Canadian or UK intelligence agents from different ethnic groups mostly Persian are working in special location (looked like a home) in Tehran in previous years. As I said before I am able to get weightless and flying status, and I was able to go different places that created by animation and talk to male and female intelligence agents. One night, I was able to talk to an Islamic republic of Iran intelligence agent or Secret police in synthetic dream. I was hearing his wireless making noise. I said if you are Islamic republic of Iran intelligence agent, I was talking to him and he was saying your brain signals are all positive in our monitor. Another night I felt very heavy pressure that I was feeling I have been sewed to ground without any free feeling in my body specially in my hands and feet and asked him remove this pressure on my body.

One night I was able to hear the conversation of Persian speaking intelligence agents that they were saying to each other that life is very easy and great here in Europe. Some nights, there was a Persian Canadian intelligence agent officer, (Named Maryam) who always were interested to talk to me. Other Persian Canadian intelligence agents were not interested in talking to me and pushing me toward Maryam, so I can to speak to her. Some nights they were able to cause sensitivity in my sexual organisms. They were able to connect my sexual organisms to different female figures (pictures) and cause me ejaculate.

One night, in induced synthetic dreams, the dream programmers were putting an unclear girl full body picture in front of me, and when I wanted to touch her, her picture was being replaced with another different girl picture, and the repetitions of this process were continued without touching any girl until the induced synthetic dream scene has changed by programmer or I woke up from sleeping mode. Some nights in induced synthetic dreams, I was able to hear that intelligence agents of Islamic republic of Iran (military or civil) have Quran reading session. In another night (day for them), they were collecting money (Iranian Rials) for their classes in their group.

Also, during my stay in 2432 Clementine and 1460-H Heatherington Rd., homes, I was seeing another completely different non normal induced synthetic dreams (Looked like to color animation graphics). In these dreams I was seeing post modern and very strange dreams. Almost all of them were very scary. I think these dreams were induced by their rival intelligence agents . There are some Persian speaking intelligence agents(gang) located in

Islamic republic of Iran (secret IRGC military base) and/or out of Islamic republic of Iran in a military fenced home. One night, I was able to talk to them (some of them were student). They were broadcasting Los Angeles based Iranian singers for me. I was able to do visual scan around their home and see their house. They were scared of me and they were showing their pictures to visual sensors of my dummy in a disguised format. Some nights, there were some young Islamic republic of Iran Airforce and IRGC personnel in that house. One night, I was able to see through visual sensors of one of dummies which is in the hand of this group and it was on, that they were carrying this dummy from dining room (in their home) to a closet to hide it. It was not stable at first time, so it got leaned forward and the carrier was noticed, its sensors are on, and turned them off.

As I know, this gang performed a lot of electronic neural torture such as pressing my testicles. They induce a touching sense, that they are cutting my penis. They increase or decrease or causing freezing state in my sperm production. Hitting my right side of skull through agitating its nervous parts. Touching somewhere in butt, anal section of dummy by finger, or their sexual organs that can cause I feel that I have been sexually harassed in my anal section. Usually these anal sexual acts by male intelligence agents on me were done in midnight during sleeping hours. When I was moving from 1460-H Heatherington house Rd to 2670 Draper Ave located in west of Ottawa, I felt confusion during the night before and the day of movement. In this home, one night Persian speaking intelligence agents in Canada or Europe probably (Males and females) were dancing and singing with Taliban together, and they were saying, here is Afghanistan. I remember that I saw that induced synthetic dream in white and black (gray) color. Another night, I saw that I am in a Taxi which is going through streets in one of cities looked like cities in Islamic republic of Iran in induced synthetic dream. A Persian speaking woman with her son was in Taxi too. The woman stole money from my shirt's pocket and with complicated hand operation, passing money to herself and her son's hands, gave it finally to driver. I think this was showing how they can do money laundering and transfer in their group. This dream was in white and black (gray) color too. I have contacted with NSA requesting them to remove remote neural monitoring and cutting voices and have written letter to President Barack Obama to stop electronic torture. I did not receive any answer. I had sleep deprivation for almost 150 hours in 7 days, I sent an email to Russian embassy (which I think, it has been blocked from delivery to their email address about conspiracy that I am experiencing for sleep deprivation) after that I was able to sleep almost 6 hours on that night (Sunday early morning A.M) before going to Saint Richard's church in that day.

Another night, I saw an induced synthetic dream (strange very high resolution) that I am passing in (weightless fast movement) in a boulevard, there were advertisement boards like Chinese or Japanese alphabet were hung up in middle of boulevard, and Mr. Mahmoud Ahmadinejad pictures, president of Islamic republic of Iran, were hung up between them in a boulevard.

I saw two induced synthetic group from the above rival intelligence group. In one of them I saw that some male guys (speaking Persian) have kept a girl captive in a scary environment, and they showed her to me and said something to me (I do not remember exactly), also some male guys looked like soldiers, showed a Chinese guy (soldier) close to a water tap (faucet), and said to me with strong hesitating voice that if you want, you can go and drink water from that faucet, no problem.

When I was in my bedroom in 2670 Nepean, I felt totally confusion in my mind for a few days.

My body's nervous system was acting in such a way that, I was not able to move my hands and feet regularly and freely. Different parts of my bodies were pressed at different times. My right hand, and sometimes my left hand were shaking. I was getting muscle spasms in different parts of my body including chest and my heart. My heart rate was increased or decreased in different times. When I was most of the time in my bedroom, through remote electronics torture, intelligence agents were able grew two gall in my feet middle fingers (symmetrically on both feet). They were disappeared when I was planning to go to embassy of Israel for help in Ottawa.

I remember when I took 118 bus and get off in a station faraway in western side of home location, when I was watching some people and cars around, I was felt somebody (Persian speaking intelligence agent) caused me to poop a little in my short by remote neural monitoring.

On Wednesday (early morning A.M) October 17th when I was hospitalized in Ottawa civic hospital, 6th floor, two boys covering their heads with black color big envelopes (bags) pulling and moving my feet around. It was looking like the actions that people who do torture in Guantanamo bay. This dream happened when I saw and said hello to a girl with Muslim trend clothes. I talked to her in next days. I think in the day before talking to her, Persian speaking intelligence agents (their dependent group unknown for me) did not that girl is a English Canadian born citizen who is converted to Islam and is covering her head with hijab (hat) and using traditional Islamic clothes. Thursday (early morning A.M) October 18th- 1:35-1:50 Am- (After this approximate time period I woke up and I started to write notes about induced synthetic dream after I woke up from sleeping mode) In induced synthetic dream, I saw

some male Persian intelligence agents, were talking to me while I was flying beside some skyscrapers covered with smoke, were running in front of me and they were worried. When I saw that scene (heavy smoke on skyscrapers faraway right side of me) like 9/11 attack. I stopped my flying movement and start a flying movement in reverse direction, male Persian intelligence voices stopped and I heard emergency ambulances alarms sound.  
Thursday (P.M) October 18th- 8-8:20 P.M.

Some guys involved in induced synthetic dreams started to show sky with the picture of moon crescent and Muslims mosque. I woke up suddenly. I can conclude that they want to force me to convert back remotely, as they do in Islamic republic of Iran to most converted people or they put them in jail and ordain for execution.

Thursday (P.M) October 18th- 10-10:15 P.M.

Scary dream induced by Islamic republic of Iran revolutionary guards and Iran Army and their indirect connections to CIA.

In this dream, there were very high pressure on my body in a dark home. I was not able to standup or move my body for almost 1 minute. I heard some Persian intelligence agents are talking. Finally, I was able to walk under hard pressure and go out of dark home and see outside.

Tuesday (A.M)-October 23rd- (sometime between 2-7 A.M)- Ottawa civic hospital.

I saw in synthetic induced dream some Afghanies civil (or Taliban) people with their traditional clothes. I was not able to write my dream scenes between 2-7 A.M when those dreams were induced. I was reminded by Persian speaking intelligence agents voices in my head the Tuesday morning after 7 A.M.

Thursday (A.M) October 25th- (Before 5 A.M) In my new room in condo sections of same floor In synthetic induced, I was able to talk to a girl in somewhere like booth store who were speaking language similar to Hebrew and I asked her: are you an Israeli girl? She said yes. I asked her that if you can speak Dutch? She said yes. When I asked these questions, she disappeared and several men picture (figure) with beard, looked like beards that Iranian Islamic conservatives wear, appeared in her place.

In another synthetic induced dream scene in that period of time, I saw a man with beard semi crescent cut style, started to talk toward me in German language and then he switched to Japanese language while getting into a car.

Friday (A.M) October 26th

I saw different scenes in synthetic induced dream that I was able to remember some of them.

In one scene, I was doing mountain hiking with my former Russian classmate in TOEFL-Classes in Ottawa. He was not with me when I went to a cave that were some visitors in front of its entrance, I saw some signs related to British royal family.

In another scene I was able to see Mr. Mahmoud Ahmadinejad in a room with some other people around a table, looked like a government meeting.

In another scene, I saw a man driving heavy machine, like construction heavy machines, was destructing houses located beside of a street looked like streets in Iran and making the street wider. I saw some people got together somewhere close to that street and started demonstrations and riot.

I did not write all of my artificial induced dreams, cause I am not in good mood to write them every day.

At the end, as I said at the first of my story, The intelligence service agents of Islamic republic of Iran (military and government) working with NSA, CIA, MI6 and CSIS started their psychological, physical, and electronic torture and abuse and harassment almost for 9 years.

According to my experience in my compulsory military service in Iran Air Force and new methods of interrogation conducted by above intelligence services. Ayatollah Khamenei get his orders from MI6 mafia to control his own loyal forces including paramilitary, sepah (Islamic revolutionary guards corps), and basij forces, and Iran police forces which facilitate passports for Iranian supported terrorists. He is himself a terrorist black listed by Interpol for

organizing manslaughter of Iranian dissidents, Jewish centers bombing and US navy attacks by his direct or indirect forces including hammas and hezbollah. He and his children has billions dollars in Iran and many other countries in assets. See links at the end for more information. Ayatollah Hashemi Rafsanjani another terrorist supporting Palestinian terrorists, and killing Iranian dissidents is being controlled by CIA and NSA secret mafia in Iran through his connection to Iranian businessman, sepah, municipality intelligence which employes Afghani refugees and former Taliban members to make connection with Taliban and Al-Qaeda members and arm dealers. He and his group advisors "majmae tashkhis maslahete nezam" or Expediency Discernment Council of the - Iran have also huge business with China to import missiles, tanks, and ... China is a country in which a lot of American business controlled by CIA master minds and their favourite US politic party. USA government has a lot of debt to China, and viseversa a lot of jobs in China is being controlled by US business, so they are each other puppets like Iranian Ayatollahs and Mollahs are US and UK, and China puppets. Another thing that I understood 9/11 attacks was an inside job to change the policy of middle east. When I say inside job, I mean it is conducted by some USA and UK intelligence masterminds who had benefits by changing middle east policy according to world new order, while it had a lot of opponents in other groups and master minds of USA and UK intelligence services.

Bin Laden, and his team including palestinian-egyptian hijacker Mohammed Shami were controlled by sophisticated USA mind control system. As you know Bin laden was a Saudi businessman investing in construction, retail stores, and other sectors in US and abroad whom was used as puppet by US sophisticated mind control system to start new world order or big middle east policy. Here are references to two main terrorist Ayatollah Khameneie , and Ayatollah Hashemi Rafsanjani and their relatives including Hassan Rouhani, in Iran, Canada and abroad who is getting support and orders from MI6,CIA,NSA, and CSIS to play next roles in policy of middle east.

DEAR SIR/MADAM

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My Case Summary:

**In short, the Organized Stalking that I have been going through since 1996 has mainly consisted of Harassment in public (Street Theater) and Electronic Harassment.**

**Tampering with my telephone, cell phone, computer. Having telephone calls and emails blocked, deleted and/or intercepted. Under the "Patriot Act" they can get away with this sort of junk as well.**

I am, have been, and remain nearly completely isolated, as the ones that they call **PERPS**, which are psychopaths/sociopaths have made sure that I would be. I get "zapped" with Directed Energy Weapons, which cause me to feel pains in many different areas of my body, and I see the psychopaths referencing the different pains that are being inflicted upon me with these Directed Energy Weapons when I go outside, through the use of gestures, making sure I'm looking at them and then touching themselves in the same spots where I have been

feeling pains. This has been an ongoing occurrence.

I have been through nearly everything that all of the other targets have reported: job mobbing, flash mobbing, garbage campaigns, noise campaigns, spitting campaigns, all of the various minor vandalism, and signs that someone has entered my house while I was gone, all of the psychological warfare and everything that goes with it. psychopaths in other vehicles trying to run me off the road, psychopaths yelling at me and calling me every negative thing in the book, a million unidentified and hang up calls as well as the occasional cliché call with the heavy breathing. Cyber Stalking, Cyber harassment, strangers both online and off saying things that reference my personal life. All of the usual, people I thought I knew and could trust suddenly using tactics on me and on and on.

The Bilderberg Group is behind all of this, and one of its founders, Prince Bernhard of The Netherlands was an SS Officer. So you are absolutely correct when you refer to these psychopaths as nazi's. Again, if you know of any online petitions I could sign let me know.

Dear Sirs,

My name is Nina Sidorova. I am a victim of ELECTRONIC TORTURE, ABUSE AND EXPERIMENTATION. Please, add me to a list of victims of electronic harassment. My address is 460 N Shoreline blvd, #108, Mountain View, CA 94043. Please, tell me what should I do in order to join your campaign?

I am a President of the Northern California Tenant Association, a peaceful civilian, and I was a wonderful an "A" student of US Santa Clara Jesuit University, a student who is respected by classmates and professors.

Since December 22, 2011, which is a satanic day and an International Pedophile Day, I am attacked, tortured, and abused with microwave and other electromagnetic weapons by American NSA, FBI, and a San Francisco Fusion group (one of 72 US Fusion groups), participating in organized crimes, torturing civilian with microwave and other electromagnetic weapons and murdering peaceful Americans.

Based on my investigation and information that I received from famous US writers and journalists, I am a victim of US Criminal Project COINTELPRO (Counter Intelligence Program) since September 2001. Of course, I never was a communist or never committed any criminal or terrorist actions. I am a peaceful civilian and very good US student.

Below you find one of many of my reports to the San Francisco FBI about ELECTRONIC TORTURE, ABUSE AND EXPERIMENTATION. More detailed information will be sent to you.

I think the main problem is information overload and the attention spam of who we present this information to. The natural psychological problem is that people in society will see this as delusional or schizophrenic. How do we evade this shortcoming of society?

I will nevertheless promote these information packages to the authorities, doctors, teachers, deans, and so on. I still need to read all the articles. My goal is to create an easy to understand summary of everything which is easily communicated. Hopefully there will be global awareness by 2009 as the financial crisis worsens.

27/11/08

Hey, I was first under aggressive attack in November 2005. Prior to then, I was unaware of the surveillance and electronic harassment and mind control. I do believe that I may have been under surveillance since 2002.

Is there anything else you need to know or request? I'm up for participating in any forms of action required. I do plan on sending your documents to the police and psychiatrists.

No, I am not OK, but I am afraid to talk about my story. After over a dozen accidents they finally broke my back and I am a classically trained ballet dancer who has been abused off and on most of her life. I have a broken neck in four places and they still torture my mind all night long. These are sadistic monsters who should be sitting in prisons. My daughter is being eaten alive by HAARP to the point of not remembering her true past and no doubt she is sicker than before, but they are mind controlling her not to even speak to me right now and believing all of their theatrical SHIT.

I can barely walk anymore after 16 years of my mind being violently abused by literally millions and they are US Navy, Marines, Asians, Latinos from America, persons who have been in the military at some time including Army and AF too and their families and friends, English people, lots of German half breeds of America....I have

witnessed so many people "hang out" on my mind it is unreal. I was aware that my mind was opened at 33 years old and I am now 49.

Iridium microwavers can't seem to get enough of my soul...and yet what good does it do. Last time I got involved with this movement the corrupt Orange County, CA courtroom including DARPA persons and US Navy persons took my child and threw her into hell itself with 1000s eating her alive. There were Germans actually employed by the OC so-called child protective service that bragged about being children of German Nazis. And now she actually lives with one of their families who lies to her daily and treats her like a lab rat while pretending to be her family. I am livid, but there is no one in this Satanic nightmare putting an end to any of it.

It hasn't gotten any better, because millions of others seem to love to hang out on these sadistic lunatics satellites of all races and types.

I think it is hopeless, unless they officially demand them to park their satellites and let people go from their skylabs.

Most of these sadistic lunatics are Americans...sad to say. And I never forget a face. millions of navy and marines have abused me over the years, especially...what I was put through last night was like every night for the past 11 years 2 months 19 days. They won't let me get a nights rest in California. This state is full of these insane lunatics. Why aren't they parking their satellites over the dead zones and getting their lifelong victims like myself free. Many of these sadistic lunatics should be in prisons...no doubt.

**26/6/13**

I am being put into a wheelchair....over 19 years later from being tortured this ballet dancer is almost in a wheelchair and none of what you have done has helped except drag people in my life who are beating my head in saying they want "their freedom"?!?!?!

I have no idea why this country allowed this to happen to me and it has only gotten more and more violent over the years....and all they do is LIE about me...have for all of my life these US NAVY criminals.

why do you include me in your mailings?

My name is Angel Sladek, I am from the U.S., Philadelphia, Pennsylvania, (Delaware County). I am a victim of electronic harassment, mind torture device from what I found through research.. and what I can't find is some kind of program that can deform (distort.. as what my predator would call it).. (as in fattening) my physical body is being used on me. I wanted to email the European Courts as you stated to state my case but when I log on that site it list all states pertaining to where you reside but mine. So I figured i'd try to email you to see if there is anything else that you know of of where I can get any help whatsoever. I am desperate on ending this horrible.. terrible experience that I am facing.. living and dealing with 24/7. I've went to authorities.. as in police department.. I went to hospitals.. to state my case and they did nothing but tell me how crazy I am. I've been to 3 police departments.. been in every hospital around here 10 times to be exact admitted as a psychiatric patient for days.. at the most 2 week periods.. seeing psychologists and therapists with no luck whatsoever on anyone believing my stories. Being diagnosed as bi-polar and paranoia.. which you know as well as I do I am far from either.. as I'm starting to become bipolar.. psycho.. dealing with this for over a year exactly today November 14th of last year is the night I was drugged, kidnapped and woke up in the hospital every day after that I've been dealing with a living nightmare of what I go through I can say it was worst before then it is now of what I'm told from my predator but the deformation, aches and pains of my body that you can physical see is at its worse. As I do not see the option of the U.S. to report or tell my case as you stated. Furthermore if there is anything.. you can do to put my name, email contact, (as i'll send you any contact info needed) on any list or anything that can let me be heard or to make anyone aware of the truth that will help, investigate, or find me the proper authority to end my tragedy, or at the least believe me that this is no mental illness this is actual facts that is happening to people around the world and no one is doing nothing about it but telling you to stay strong. So as said if there is anything you can do for me please contact me at anytime. I would love to go into detail of my daily traumatizing life experiences but as you know as well as I do that even this email is being monitored and repeated as I type it and being punished and hurt for coming forth to someone explaining details about what my predator does. Thank you for posting your email address and for whatever you can do to help me. As for contacting me all my accounts are monitored and I do not know if I would receive your response. You can try. Or if you are on Facebook which ALL my info is on (address, phone #)you can send me an inbox message that I will definitely receive as that account has been reported and being monitored of any unauthorized users as my predator knows and hasn't touched my messages lately. Again, thank you for your time and understanding and it's nice to know someone out there really does know that this is indeed 'real'. Hope to hear from you soon.

I was a law student under Professor M. Cherif Bassiouni in 1977 at DePaul University School of Law. He is doing a seminar or lecture on whether Torture is still a crime in the United States later this month. I will be attending the lecture. I do believe that mind control is the most common form of torture throughout the world at this time in history when we are supposed to be at our highest level of civilization. The European Federation Against Mind Control, Mind Justice and other sites on the internet talk of the use of black op, subliminal transmissions, directed energy and other forms of nonlethal and lethal weapons meant only to torture and neutralize. The Air Force put out Nonlethal Weapons from Colorado for free. The Pentagon put out a book for free on the internet Protecting the Homeland by Richard Brennan. Despite the use of mind control sites on the internet with admissions of nonlethal and lethal weapons, the United States does not want to publicize their use of mind control devices in their own government on local government employees and the population. I hope the Hague will adopt sanctions and penalties for those who do black op, mind op, voice to skull, directed energy, subliminal transmissions and other procedures to take away mankind's freedom. Torture does exist in the United States.

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**31/5/08 Testimonial of a targeted individual by David Smith**

**My name is David Smith and I have been a target of electronic torture, voice to skull technology, 24 hour surveillance, possible implants and a variety of toxins put in my food, drink and environment, among other things to numerous to mention, for the past 5 plus years.**

My troubles started in July of 2002 with a neighbour who had taken an intense dislike for me with no apparent reason. I found out later she has mental problems and was visited in her home by a psychiatric nurse on several occasions. The Perry's lived down a small hill from me and the only way my house was visible was for them to walk on a neighbour's property and spy on me with binoculars. Lyn Perry started fixating on everything I was doing outside my house and commenting on it. when I was repairing a break in my fencing I heard Lyn Perry say, "I wonder what he is doing now." I heard Mark Perry reply, "Sounds like he is fixing fences." After weeks of listening to her describe my outdoor activities I made an unflattering comment about her to my cat which I knew she would hear.

That is when my troubles started and has escalated steadily in intensity, variations and duration over the past 5 plus years. At present I am attacked almost all day and night 7 days a week, 365 days a year. They particularly hit me hard at night especially when I sleep. The technology they are using on me is also being used in some form on tens of thousands around the world most of whom never had mental problems in their entire lives and all of a sudden they are labeled paranoid or worse for daring to report some of the worst atrocities to ever take place on this planet. They use some form of radiation especially at night when I sleep. If the attacks are too severe I will wake up from them sweating profusely from the upper chest to my head. The rest of my body, under the covers is bone dry. My throat is sore and dry. I believe they are aiming the radiation at my throat and head. The reason for this I would speculate is I am under a termination contract to test radiation weapons, toxins, high tech implants and other

weapons long term on selected individuals. I fit the profile I have found on several websites. That being a single individual living alone, not a lot of friends and family, weak or non-existent support group, limited funds, intelligent and vocal for long term study. Or as one of my perpetrator's said while discussing me, "He's a nice guy who just happened to be in the wrong place at the wrong time." **How can we call ourselves civilized if we allow people to be tortured for many years before succumbing to physical, psychological and emotional torture? Where are the voices of outrage?**

My neighbors, Mark and Lyn Perry of 431 Reynolds Rd. Salt Spring Island, B.C., had either friends or relatives visit them frequently who were or are in the military. And after my ordeal started they used specially trained military personal to carry out most of the break-ins at my house and other nefarious actions. At first they bugged my phone. Every time the phone would ring I heard someone walking out of Mark Perry's house, open the sliding door to a van parked directly outside the front door and then I could hear what sounded like an antenna rising for several seconds. After one such incident I heard Lyn Perry ask Mark Perry what my conversation was about and he mimicked the phone call I just had. Another time at dusk I saw Lyn Perry and a friend sneak into an empty woodshed that was on a neighbour's property closer to mine than theirs and with a better view of my house. I got out my binoculars to see what they were up to and I was shocked to discover they were sitting in an empty woodshed on chairs and spying on me with night vision binoculars pointed towards the windows on my house. Their behavior shocked me. But it did explain the how too's as to what I had heard the night before when I woke at 3 in the morning and walked buck naked into the living room to put a piece of wood in the stove only to hear Lyn Perry say, "There he is!" When I returned from a trip abroad trying to escape my tormentors to no avail I heard one of them say to Lyn Perry, "What do you want us to do with him?" Lyn Perry said, "I want him to die." Then I heard Mark Perry say, "Turn that thing off. I want to talk to you without him being able to hear." And then the radiation and other tortures started in earnest. Accidental sightings of my main tormentors took place on a number of occasions and I have also seen the members of the military they have used against me. In the early going I spotted 5 of these Special Forces types following me around Salt Spring. This wasn't hard as they stood out like sore thumbs. All of them looked similar; military haircuts, military boots, built like apes and walked like they were ready to attack at a moments notice. I attended an outdoor concert with 3 of them sitting in front of me and one slightly behind and to my right. I saw one of the men in front turn around, nod at the guy to my left and then pointed at me as if to say this is the guy. I saw the same man a few days later, who could forget him, walk into the hospital and then into my room at the end of a long corridor, walk out of the room a couple minutes later and directly out of the hospital. What he placed in the room I have no idea but I was getting hit in the hospital with a laser and other directed energy weapons regularly.

I have seen my main perpetrators on several occasions. I can identify them by voice and sight. There are four of them 2 men and 2 women either friends or relatives of Mark and Lyn Perry. I have heard them at the Perry's house before this first started. The men look Italian and a good chance they are twins. They are both 5' 8" to 5'10" full head of black hair slicked back and dark eyes. The women are also dark complected 35 to 45 in age and both have short ducktail haircuts. The men are in their mid forties. My first sighting of one of them was on a ferry from Nanaimo to Tawassen, B.C. I went to the cafeteria. I knew I was being followed. A few tables away sat a man and a woman who from their conversation hadn't seen each other for awhile. Suddenly the man noticed my attention and turned to the woman and said in a low voice, "He's spotted us. Don't say anything." The next time I saw this man was on a plane from Vancouver to Amsterdam I took primarily to escape their clutches. After a couple of hours I stood to stretch. I looked around and several rows back was the guy from the ferry also standing with a nasty grin on his face as if to say you can't get away from us. Also sitting with him was a woman I would see several times later. When she noticed him looking at me she turned to him and said, "Sit down and stop looking at him." Another guy I had already seen following me on Salt Spring was the third member of their sick group. He wasn't hard to spot as he is at least 6' 4" inches, clean shaven, short hair, fair complected and wears glasses. The next time I saw this woman was 6 months later when I was transferring planes in Minneapolis, Minnesota. I saw her at the money exchange booth at the airport. As we were the only two people at the booth she turned around to me and said hi. I took a plane from there to Florida and transferred in Chicago. While at the airport in Chicago and waiting for my flight I walked into a small store that sold reading materials and things of that nature. There they were buying maps of Florida, the same woman and another woman and two men who looked like they might be twins, the same men I had seen on the ferry and the Vancouver flight. I have seen the woman one more time, recently, aboard the ferry from Nanaimo B.C. to Gabriola Island where I live now. Interestingly enough she was talking to a older man who I think might be the infamous James Tyall, former head of the psychiatric department of UBC, and convicted felon for his physical and sexual abuse of women under his professional care. Dr. Tyall was part of the MKULTRA program and also played a big part in Operation Bluebird. I can identify this man and am trying to get a picture of him, so far to no avail. I know he has a house on Gabriola and I believe he is one of the architects for this crime against humanity. The man I saw talking to the female perp was around Dr. Tyall's age had white hair and walked with a distinct limp. But the thing I noticed most about him when he walked was his

arrogance. He said to the woman, "We'll all meet at the back of the pub when the ferry docks." He then walked away. Of the many incidents the few I would like to mention here are as follows: Whatever organization is behind my torture has a large amount of resources. As one of the female perps said when I commented on the military precision of the operation against me, "We have the money to hire only the very best.

" A new neighbor moved in on the other side of me a couple of months before the ordeal began. A short time after this started, I accidentally saw him putting up a long pole with a small, noticeable dish on top. By this time they were obviously monitoring me and I wanted to find out with what. so I got a magazine with spy equipment for sale to see if I could spot something they were using. Sure enough there was the contraption my neighbor was erecting close to my house. It was called an ear in the sky and could hear conversations through walls within a limited distance. When he saw me looking at it it was immediately taken down. One day about a year after this started and I knew I was being monitored and followed wherever I went I boarded a ferry in Swartz Bay. I knew I was followed on to the ferry by people in a vehicle. I was on foot. Just before the ferry departed I jumped off and headed to Victoria. I could hear my tormentor's voices fading the farther the Ferry got from Swartz Bay and the farther I got from Swartz Bay heading to Victoria. At that time I thought the way they were able to monitor me was a device they had planted on my clothing or other personel items. So i dumped everything, including my wallet which was mailed back to me on Salt Spring. The only thing I kept was my driver's license. I went to Victoria and bought a whole new wardrobe including backpack. I took these items to a high scale department store and rode the elevator up to the 4th floor in order to use the washroom to change my outfit and dump everything I was wearing. As I was entering the store I noticed 3 young men following me. They must have been in their early 20's and stood out like sore thumbs with their baggy jeans and sideways baseball caps. When i ventured into the washroom no one else was there. I immediately changed in one of the 2 toilet stalls. They were completely enclosed and not visible from anywhere else in the room. I changed my entire outfit, dumped the clothes I was wearing, including my shoes, in the receptacle and walked out of the stall. I became totally speechless when one of the young men walked in the washroom stood directly in my path and said to me, "Changing your clothes won't do you any good. Once they get their hooks into you they never let go". He then turned around and walked out of the restroom. I never said a word. I was in shock. Afterwards I could think of 50 questions off the top of my head I would have liked to ask him.

I went to Europe mostly to escape my tormentors about 10 months after this started. Of course they followed as the one in the plane let me know with his nasty grin. When the woman saw him grinning at me she turned to him and said, "Sit down and don't look at him." The plane was a large body jet. I have the flight number and approximately where they were sitting. There were 3 of them sitting in a row of 3 seats. When I reached Europe i tried to lose them by jumping on trains at the spur of the moment. It didn't work. I figured they had planted some tracking device on one of my possessions. When I arived in Barcelona I sought out a law firm for council. They directed me to a man who sold top end spy equipment. For a nominal sum he had his technician go over all my things with detection equipment. The technician found a recording microphone hidden under the strap of my suitcase. The owner showed me the exact same one he had for sale in his store. He also told me that because the battery had run out it had been hidden in my suitcase 3 months before. That means someone broke into my house and planted the device while I was in the hospital making plans to take a trip. Those plans were made privately in my room with no one obvious around. My theory is that before I went to Europe I took another trip into the U.S. but didn't take my suitcase. 3 months later I did, to Europe. By that time the device was of no use to them because they were using much more sophisticated equipment. I was now being run off a computer. So either through negligence or forgetfulness they made a big mistake. I have a letter from the proprietor. A couple of months into my ordeal I was putting up fencing so they couldn't spy on me. When I was done I said out loud, "That ought to keep you off my back. A woman close by who I could not see, there were dense woods next to the fence, answered me, "If you think we were on your back before buddy, you ain't seen nothing yet!" I have gone to the police many times, on Salt Spring and Gabriola mostly. On Salt Spring I was told 10% of these cases prove true and I should come back when I had evidence. I brought in the recording microphone found in Spain. By that time my credibility was shot because the resident psychiatrist told them I was paranoid and don't bother with an investigation. Which was the exact opposite of what he told me a month before. He said an investigation would be beneficial He than apologised to me for breaking patient confidentiality. I was 56 years old when the trouble started. I had never had any emotional, mental or psychological problems in my life. As a matter of fact i have worked professionally with ex mental patients and emotionally disturbed kids, mostly teens. He based his whole diagnosis on a ten minute conversation and the fact I heard voices. Interestingly enough he never asked me what the voices said other than to state the obvious. Whether the voices ever told me to hurt myself or anyone else. Which is ironic considering the voices come from outside of my head, and to my left. Interesting point is that every once in a while they will be coming from my right. The voices that i do hear are mainly 2 men and 2 women the same two men and women I have heard at Mark and Lyn Perry's house, the same 2 men and women I have seen several times as i mentioned previously.

I didn't know then about V2K (military term) meaning direct voice to skull transmissions. Sound bypasses the ear canal and goes directly to your brain. The only one who hears your voice, is your target even if he is standing in a crowd. This technology is not new. It was first patterned in 1974 by Dr. Patrick Sharpe. Obviously the good doctor had never heard of V2K either. Dr. David Montibetti is his name. He told me that all my actions had been perfectly logical if everything I said was true. We agreed to disagree and got along well and then he changed overnight. His attitude did a 180. I think someone got to him because that's when he did the about turn with the police and then out of nowhere had me committed to a psychiatric hospital against my will. I protested and went in front of a stacked 3 to 2 against me, board of inquiry, and lost even though I presented the recording microphone and letter to the board. My advocate cried when we walked out of the room for the travesty of justice that took place there. Interestingly enough I ran into the good doctor a couple of weeks after I was released. I spent 6 weeks with hundreds of people who were really sick in a highly regimented institution. I was a fish out of water. The good Doctor knew beforehand how I would feel. We were on the Ferry together and had a chance to talk. As we were going our separate ways he turned to me and said, "A person like you should never be in a place like that. Don't go back." If this is what he believed why did he send me there in the first place? I knew right then someone had gotten to him. The only member of the R.C.M.P. who believed me was the ex head of the detachment on Gabriola, Carl Vinet. He told me that I needed to go a lot higher than him, that there was nothing he could do on an individual basis. I have also been to lawyers, talked to lawyers, none of them want to get involved. In the first stages they were putting hydro chlorite in my food, drink and environment. Hypo chlorite is an industrial strength bleach. They put it in my dryer. When I washed the dryer out with a bleach solution it mixed with the hypo chlorite to form a gas which almost cost me my eye. I sent over 30 items to a lab and all 30 items came back with traces of hypo chlorite including hair from my cat. They had put powdered hypochlorite on the fur of my cat so when I pet her I would get it on my hands and then to other parts of the body. I have had several unexplained infections in various parts of my body in a short period of time. 6 to be exact in two years. Infections that started under the skin with no sore or even a scratch to explain it. I believe toxins were used against me in several forms. When I first moved into my house on Gabriola within the first 2 weeks I was being attacked by either/or laser and radiation, especially when I sat in front of the computer or T.V. I started taking polaroids of my face for a period of about 2 months. All the pictures show a red mask around my eyes about the same size as a racoon. My current driver's license which is a year old shows the exact same thing.

About two weeks after I moved into my new house, I heard a watch alarm go off in my attic at around 8 P.M. One of the perps was waking up for the nighttime ritual of torturing me. To go look for him would have been futile. They always have another way out. That is how they operate. One morning I awoke to find one of my teeth missing. Only the roots were left. There was no sign of the tooth. I went to the dentist. He told me the tooth must have been rotten even though he had checked that tooth 6 weeks before and found no sign of anything amiss. What happened to the tooth? You must have swallowed it. But I never sleep on my back. The reason the tooth was missing was because it would have been proof that it broke off because of tremendous pressure put on the tooth while I was sleeping by the perps. There was a tooth missing on the other side and they were trying to move it over so they could implant me between two teeth. The pressure they applied broke the tooth off at the crown. Naturally they had to get rid of the evidence. That didn't stop them. A week later they implanted the same spot. This time they didn't have a tooth to contend with. I knew this because the edge of my tongue was raw where it was secured before the implant. Many of the implants are for sending currents to the nerve endings in those areas they want to inflict pain. One of their favorites is to hit a body part you are having minor irritation and to blow the pain way beyond the injury. When my body became sensitized to the attacks it was apparent when they would start. My body receives a jolt and the attack starts. I had an irregular heartbeat quite frequently induced by these attacks. I went to the doctor and she sent me for a test to check the rhythms of my heart. She said my heart was in great shape. The irregular heartbeat stopped. The attacks were then directed to other parts of my body especially the major organs. The group responsible for my torture are professionals. The techniques they use are similar in style and intent as many other victims. They are designed to physically, mentally and emotionally break a human being down and use them for whatever they are good at. Make no mistake. We are only the guinea pigs.

My perps are thorough and methodical. When I have gone to a new area the perps will take a couple of weeks to check the neighborhood completely. They will learn the habits of my neighbors and know when they can break in without being seen. They use the same methodology on their victims. They will study a victim 24 hours a day to learn the victim's habits and then will attack their weaknesses physically, emotionally and mentally. All with the same purpose. Break the victim's will. This is what I know about my tormentors. One of the women may be named Cindy. One of the men's name might be Frank. They use the Voice to Skull Technology to plant a lot of red herrings. The whole operation is a psychological experimentation with a deadly overtone. They start slowly and at long intervals. They increase the intensity and duration of the attacks over a long period of time. Meanwhile they add new weapons to the attack and then they will target parts of the body that weren't touched before. They want you to know they have control of your body. This goes on relentlessly 24 hours a day, 7 days a week, 365 days a year. When I sit on my furniture I can feel an induced electrical current going through parts of my body. When I

try to stand my legs are weak and my coordination is off. One time after standing I went to pet my cat. I barely touched him with one finger and he did a 180 degree turn. This organization is spread out over the Vancouver and Victoria areas with the gulf islands, especially Salt Spring being some of their territories. They have close ties to the military. Mark Perry may be ex military. The two men who are most involved I believe to be either ex or current military with one possibly working for an outfit called PosScan with offices in Vancouver and Victoria. PosScan bills itself as the largest seller of surveillance equipment in North America.

**The use of these weapons must be exposed. No one except other targets know the pain, suffering, torment and loss of quality of life the targets experience at the hands of the new age Nazis whose agenda is to kill off a large percentage of the population and enslave the rest. And rule the world. Their agenda hasn't changed. But the weapons they now have in their arsenal sure has. Please help. Someone close to you may be their next target.**

**Petition date starting in Ottawa and Toronto from Aug. 25, 2009**

Dear Member of the Canadian Government:

CC:

To Whom It May Concern:

This letter is to ask for your help for the many constituents in Canada who are being affected unjustly without their informed consent by Psychotronic (or Mind Control, Electronic, Directed Energy, Neurological, Non-lethal) Weapons.

We are writing you on behalf of Canadian Organization of Victims of Psychotronic (Mind Control) Weapon. We, and many others, are being TORTURED AND MUTILATED IN A MIND CONTROL CONCENTRATION CAMP 24/7. We wouldn't be tortured and manipulated in a properly functioning legal system/society.

Victims of Psychotronic Weapon detail the most extreme and totalitarian violations of human rights in human history, including the most horrendous incidences of psychological torture, mental and physical mutilations. Criminals place human subject under continuous surveillance, no matter where he/she is; they monitor human brain, including thoughts, reactions, motor commands, auditory events and visual images; they continuously alter consciousness, introduce voices, noises, other disturbances, commands, images and "dreams" into the brain; they directly abuse, torture and hit bodies - including performing advanced medical procedures - from remote locations. The technology they are using is so advanced that it allows the controller'(s) to see through the eyes of the targeted individual, essentially seeing whatever the victim sees.

These are some of symptoms of targeted individuals:

- 1). Microwave hearing and torture with intense loud electronic sounding noise
- 2). Visual disturbances, visual hallucinations
- 3). Manipulation of will, emotions, feelings, perceptions
- 4). Manipulation of human behavior: forced speech, involuntary body movements, transmission of specific commands into the subconscious, compulsory execution of these commands
- 5). Reading thoughts remotely, retrieving memories, implanting personalities
- 6). Debilitation of mental acuity, inability to concentrate, disruption of ability to think rationally and independently
- 7). Loss of memory and knowledge
- 8). Inadequate states, which targeted individuals have never experienced before (states of narcotic intoxication, depression, obsessive desires and so on)
- 9). Control of sleep patterns: sleep deprivation or uncontrollable sleep
- 10). Blurred vision
- 11). Cramps, seizures and spasms
- 12). Excruciating artificial pain in any part of the body, for example, heart attacks and other symptoms

We have contacted police, RCMP, Security/Intelligence Agencies, Courts and other Government institutions over

and over and over again, but have had our appeals for assistance and protection almost completely ignored or suppressed. Government “doing nothing” in this situation is a form of sanctioning these horrendous fascist experiments with psyche on innocent and defenseless people, that is why Canadian Government is responsible for these crimes. Government of Canada must uphold the rule of National, International and Human Rights Law and protect Canadian citizens by these laws, instead we see the huge disconnect between its professed Principles and Values and the reality.

It is our responsibility to record and alert the world to these horrendous crimes and the extreme danger that these technologies pose to democracy, human rights, privacy, mental and physical freedom, health of all people. These are the most horrendous weapons and crimes imaginable, and the people, using them, are mass-murdering conspirators, pursuing fascist, totalitarian, fundamentalist schemes.

“Doctors Mengele”, who started developing these techniques in concentration camps during World War II, were brought over here from Europe after the war to continue their atrocities. MKULTRA was the first of these illegal and immoral experimenting with unwilling victims, we are the latest victims. THIS MUST STOP, and the responsible people exposed and brought to justice for these unspeakable crimes against humanity. We demand only that human rights are respected, and the Canadian Government appoints a Committee to get to the bottom of this most serious matter based upon the evidence piled up, which was collected, intercepted and captured by the victims years after years.

This gross violation of human rights must be investigated immediately.

Sincerely,

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**13/7/15**

I realized I was a TI in January 2014 but looking back I realize it had started years earlier. I suspect it was 2006-2008 or earlier. It could have started as early as 1997 when I was a contractor at Texas Instruments for a year but the only thing I noticed was a problem with people on the job. I didn't notice anything until 2006-2008 when I started noticing surveillance at work and disparate things I didn't put together until later.

For a couple years prior to January 2014 I had realized I was under surveillance but couldn't understand how it could get so out of hand with ELF/low-freque<sup>n</sup>c noise, etc. I had surgeries on my face starting in 2012-2014 when I believe I was implanted with neural dust and other implants. The ELF started sometime after the surgery. Also, I asked my brother for help in 2012 due to the surveillance; he had me committed in Florida for 1.5 weeks. Once that happened it seems things began to progress more rapidly...

**LETTER TO THE BIOETHICS COMMISSION**

Dear Bioethics Commission,

I would like to thank this commission for their efforts to recommend ethical protections for human subjects.

Ethical protections for human subjects are essential considering the past history of non-consensual research by United States Military and intelligence agencies in collaboration with educational institutions such as Harvard, John Hopkins, MIT, Princeton, and Stanford; pharmaceutical companies such as Eli Lilly; medical schools and hospitals; the American Psychological Association; the National Institutes of Health, the Veterans Administration Center, U.S. Public Health Service and others.

Examples of past non-consensual experimentation include the Tuskegee Syphilis Experiment, The Manhattan Project, The Willowbrook Experiment, and Radiation Experiments.

Mind control experiments such as Project CHATTER, Project BLUEBIRD, Project ARTICHOKE, Project MKULTRA, Project MKSEARCH, Project MKNAOMI and others were often interwoven with radiation experiments and research on chemical and biological weapons. Psychiatrists, psychologists, neurosurgeons and other contractors conducting the work were embedded in a broad network of doctors and some of the research was published in medical journals.

As previously reported to this commission in 2011 and continuing to be reported in increasing numbers to this day United States citizens and others are reporting non-consensual experimentation including remote experimentation and torture. In 2011 it was reported to this commission that there were approximately 3000 known victims. Four

years later those numbers have grown to 4000 to 5000 victims, an increase of at least 33%. I have brought with me over 60 of their statements.

Non-consensual victims of experimentation have experienced covert COINTELPRO type tactics including those used in Project MKDELTA. MKDELTA materials were used for harassment, discrediting, or disabling purposes.

Due to past history, previous testimony and statements provided to this commission, and continuing reports of non-consensual research ethical protections for human subjects in the form of regulatory changes are critical.

As I understand Subpart A of the U.S. Department of Health and Human Services' (HHS) regulations, Protection of Human Subjects (codified at 45 C.F.R Part 46), also known as the Common Rule loopholes allow for experimentation when there is no physical intervention or interaction with the subject by an investigator as occurs in remote experimentation and previously reported to this commission by victims; or when the identify of the subject is unknown to the investigator (for example Subject 9,543).

Also there is no oversight for some non-federal entities such as private corporations and contractors and foreign entities; as well as some federal departments and agencies. Oversight is needed for all entities conducting research on American citizens and U.S. persons as well as research conducted on foreign soil.

Additionally research activities are permitted for some demonstration and service programs for public benefit; department or agency heads can waive consent in certain cases; institutions can register their own institutional review board (IRB); and IRBs can waive consent in certain instances. There are other loopholes not described here. Additional protections are also needed for children, prisoners and those of impaired consent.

In light of the testimony given in 2011 and existing loopholes in federal regulations I was shocked and dismayed that the only notable recommendation the Bioethics Commission made regarding the consent process is to add people of impaired consent. Ethical protections for human subjects necessitate regulatory changes.

After experiencing painful vibrations in my forehead with associated blood in my mucous, vibrations of my organs and more I sought help in the form of testing.

Test results included materials specifically used in the manufacture of neural dust as researched and developed by the University of California, Berkley. Neural Dust is an ultrasonic low power implantable form of brain-machine interface which as originally designed includes a subdural transceiver, an external transceiver and cmos chips implanted into the cortex.

The University of California has collaborative agreements with Temple University, which in turn has collaborative agreements with Dartmouth University and Dartmouth Hitchcock Hospital where I had surgery on my nose and face.

Additionally, an ELF/EMF scan found 20 sites on my body that emit emf emissions beyond normal for the human body and consistent with implants. Also, the scan showed my body receiving governmental frequencies that were not observed during ambient conditions; my body was acting as a receiver.

This is only one example of the continued collaboration between United States government agencies and others who receive funding from those agencies.

I do not consent nor have I knowingly consented to any form of research, experimentation or implantation.

Not everyone can afford to pay for testing nor should we have to. We need the medical community to evaluate our medical complaints in a scientific manner and not subjectively rule out complaints as mental illness. We also need an investigation into our complaints of non-consensual research and covert psychological operations.

In addition to regulatory changes, criminal penalties must be legislated for research involving human subjects when bodily integrity and autonomy are violated as for other criminals who are routinely punished with convictions for assault, fraud and homicide. Unethical treatment of human beings can only be prosecuted when laws and regulations are in place.

Even if a researcher, physician, institution, other is engaged in socially beneficial research that might lead to cures

or treatments for devastating diseases it is imperative that each person's autonomy, self-determination, human dignity and constitutional rights prevail over scientific advancement and social benefit.

Over fifty years ago American citizens reported being victims of non-consensual human experimentation and reports continue to this day. Over fifty years later we still don't have the necessary reforms to protect U.S. citizens and others from non-consensual research. As a society we must ensure that research subjects possess human rights that are inviolate.

This commission includes members of institutions that have participated in unethical research in the past. This commission does not include a single victim of non-consensual research. They have the insight that only a victim could impart.

Thank you for your efforts to recommend ethical protections for human subjects. Much work still remains to be done.

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My name is Stephen Smith and I am a **TARGETED INDIVIDUAL** by the U.S. Government.

I was a victim of sexual assault in 1997. The individual who sexually assaulted me hired a service provider to sabotage me from the time I was in high school until present. I believe that I am not the only victim of this individual being sabotage until they have them sentenced to death. Also, I believe the individual family hired a service provider to prove he was being harassed by the CIA/FBI and they were causing him to sexually assault and rape his victims. In addition, the family is trying to get him out of being registered as a sex offender. I was unaware that I was being sabotage by the service provider while the FBI overlooks everything.

In 2002 I had a law suit against the individual and I was implanted with a Verichip (microchip) approved by the FDA for medical application here in the United States. The microchip implant has GPS tracking and capabilities. I was under anesthesia when it was implanted. I have been aired to the public on the internet through another service provider called Behavioural Intervention Exacutrack. It is a service provider for people who have had prior convictions or felonies of 1 of 19 or more violent offences. The service is supposed to keep from Jail overcrowding. I don't have any prior convictions or felonies.

The FBI extorted and embezzled the settlement I was supposed to receive. The Civil Court Case was not reported in public records and they let the individuals misappropriate the money until the matter is resolved. Also, I am now being harassed mentally and the information is being recorded and I am being profiled for now and/or future use. In addition, it is being Federally funded for the individuals to harass me to bring me up on charges. My life is being ruined to the whole United States and everybody is harassing me concerning my life. The technology is supposed to mirror mental illness and I don't have a history of mental illness. Furthermore, I am under the impression that the FBI used me to introduce this into the system and air me to the public.

After I found out about it the public told me I was on television and I was still being harassed. They are inducing me to use the restroom by stimulating my bowels, they are also frying my brain, causing leg cramps, stimulating

my heart, used microwave mind control on me and I was hit by a tracker trailer, suppressing my heart and it was barely beating and I was barely breathing, and causing it to beat rapidly. I am being harassed mentally and physically while the public watches on television for them to say I have to literally prove it.

I want to know what I can do and who I can contact to do something about this matter. The United States is planning on airing everybody to the public they harass. The victims are being harassed with electronic weapons and sabotaged while the public watches and you are told you have to prove that you are being harassed. The others are wasting away over satellite by HARRP and it is nuclear holocaust with HIV/AIDS.

I was secretly implanted with sensors during routine surgery. I am raped vaginally&anally 24 hours a day 7 days a week, in my home,& outside of my residence. I am exploited, shocked&hit by radioactive waves. There is mind reading &control. I am gased with offensive odors. They control my bodily functions including urinating&defecating. These are blacks,whites&spanish,women, men&children. There are dogs who bark talking. There are birds that follow &talk to me. They invade my space in my home. There is constant surveillance &talking to me as if I am victim of Stockholm Syndrome. I am stalked by neighbors as close as nextdoor. I am targeted by police officers &government officials.

There is many violations to my human&civil rights that I need to discuss. Please contact me at your earliest convenience&I would appreciate your input.

AUGUST 29, 2007

Dear Public Officials:

My name is Miriam Snyder. I have developed a website dedicated to ending the below identified ruthless, senseless, psychotic and deadly organized hate crimes and administrations. My web site is:

<http://www.endorganizedcrimeuniverse.com/>

I have recently discovered the attached evidence and have not been able to post it on my web site yet. Consequently I urge you to read the attached and below carefully. I have been asked to add my complaint regarding the lawlessly inflicted, scripted, psychological warfare, organized hate crimes, to the petition. As such, I am proof reading, correcting, adding the deadly crimes inflicted on me, and attaching the research that verifies the authenticity of these universal crimes against humanity.

Since 1994 I have been relentlessly victimized by the below inflicted crimes. The crimes which have been inflicted on me are identified with the below stars. I am listing the many scripted organized hate crime administrations on behalf of clarity. I have been a victim to all but one of the crimes, which is v2k. The inflicted and disregarded, vicious and malicious organized hate crimes that advance defraud killings and have killed innocent people under defraud and or induced conditions are:

1. V2K-VOICE TO SKULL/BRAIN OBSTRUCTIONS ARE VERIFIED IN THE ATTACHED CRIMINAL, NEVER REGULATED, CHATTERING PROJECTS UNDER THE GRAY FAMILY NAME AND CRIMINAL RECORDS. SEE THE ATTACHED RESEARCH.

2. \*\*\*\* CRIMINAL, DEADLY, LETHAL MIND CONTROL VERIFIED IN THE ATTACHED CRIMINAL, NEVER REGULATED, MKULTRA PROJECTS UNDER THE GRAY FAMILY NAME AND CRIMINAL RECORDS. SEE THE ATTACHED RESEARCH.

3. \*\*\*\*\*CRIMINAL, DEADLY, LETHAL LSD POISONING VERIFIED IN THE ATTACHED CRIMINAL, NEVER REGULATED, MKULTRA PROJECTS UNDER THE GRAY FAMILY NAME AND CRIMINAL RECORDS. SEE THE ATTACHED RESEARCH.

4. \*\*\*\*\*CRIMINAL, DEADLY, DEFRAUD SLEEP RESEARCH/ TORTURE, DEADLY, TORTUROUS INDUCED SLEEP DEPRIVATION, VERIFIED IN THE ATTACHED RESEARCH.

5. \*\*\*\* CRIMINAL, DEADLY EMF WEAPONRY ATTACKS: THESE ARE ELECTROMAGNETIC ATTACKS OF ELECTRONIC BEAMS TO THE BODY THAT CAN AND HAVE KILLED UNDER DEFRAUD CONDITIONS THAT HAVE INDUCED DEADLY AILMENTS INCLUDING, CANCER, SEIZURE, HEART ATTACK, ETC... THESE CRIMINAL ATTACK BEAMS ARE NOT VISIBLE TO THE HUMAN EYE, BUT EFFECTIVELY SWELTER VITAL ORGANS AND LEAVE MARKS OF MASS DESTRUCTION ON THE BODY. THIS WEAPON INITSELF IS A WEAPON OF MASS DESTRUCTION AS IT CAN KILL AND HAS KILLED UNDER DEFRAUD AND EXPLOITED CONDITIONS.

6. \*\*\*\*\* CRIMINAL, DEADLY, LETHAL DEFRAUD NEUROSCIENCE: THIS INCLUDES USING EMF, ELECRTOMAGNETIC WEAPONS TO THE BRAIN/HEAD AREA TO DRIVE THE VICTIM TO A BREAKING POINT! BUT GOD!!!!

7. \*\*\*\*\*CRIMINAL, DEADLY, ANTAGONISTIC, OCCULT LIKE, INHUMANE, HOME AND WORKPLACE GANG STALKING: I WILL DISCUSS THE HOME/ NEIGHBORHOOD ORGANIZED GROUP STALKING CRIMES FIRST. THIS INVOLVES ENJOINING PEOPLE IN CRIMINAL ACTIVITIES THAT ADVANCE THE ABOVE HATE CRIME INDUCING DEFRAUD KILLING. DIFFERENT PEOPLE HAVE BEEN ENJOINED IN ORGANIZED HATE CRIME ADMINISTRATION VIA ILLEGAL ENTRY AND EXIT FROM MY HOME AND MY MOTHER'S HOME. MY FAMILY AND I HAVE BEEN RELENTLESSY INFLICTED WITH THE FOLLOWING:

BURGALRIZING, TAKING LEGAL DOCUMENTS, MISPLACING THINGS, LEAVING MARKS ON CARPETS, DESTROYING APPLIANCES, CHIPPING PAINT THROUGHOUT OUR HOMES, DISMANTLING UNDER GARMENTS, PASTING GLUE ON THE ELDERLY'S TELEPHONE NUMBERS ON A TELEPHONE, SO WHEN SHE DIALS, THE NUMBERS DO NOT MOVE, ATTACKING THE ELDERLY VIA PACKING BAGS WITH HER GOODS AND PLANTING THEM IN UNKNOWN PLACES, BUSTING OUR APPLIANCES, PLACING A FREEZE DRIED MOUSE IN MY CLOSET, BUSTING SHELVES EMBEDDED IN WALLS, CUTTING CEMENT ON SINKS, REMOVING FAUCETS FROM SINKS, MOVING A CAR FROM A PARKED PLACE TO ANOTHER TO CAUSE A LAWLESS TICKET OVER 100 DOLLAR

TICKET WHILE ECONOMIC CRIME ADMINISTRATION FESTERS, DIS ENGAGING DOORKNOBS TO THE POINT OF CONTINUOUS TURNING AND NON UTILIZATION, BREAKING THE REFRIGERATOR, BREAKING THE OVEN, MIRRORS LEFT ON THE WALL ARE ON THE FLOOR NICELY SET WHEN YOU COME BACK, TAMPERING WITH FOOD AND DRINKING WATER CAUSING INDUCED VOMIT AND SWELLING OF THE BODY, TURNING THE CLOCK UPSIDE DOWN JUST SO YOU KNOW SOME ONE WAS IN YOUR HOME, EMPTYING THE INK FROM ALL THE PENS IN MY HOME AND POCKET BOOK, CUTTING UP POCKET BOOK HANDLES, STEALING ALL LARGE BATH TOWELS, STEALING ONE EARRING TO ALL SETS, AND TAMPERING WITH TOOTH PASTE, ETC?

THESE CRIMES MAY PUT A SMIRK ON ONE'S FACE AS THEY ARE INSANE, BUT THEY ARE DANGEROUSLY SCHEMED CRIMES THAT CAN ZAP AN INNOCENT PERSON IN THE HOSPITAL FOR A MASTERMINDED, PREMEDITATED, INDUCED TRAUMA HOSPITAL PLACEMENT WHEN THESE PSYCHOTIC CRIMES ARE ADMINISTERED TOGETHER WITH DEADLY EMF BEAMING, DEFRAUD NEROSCIENCE WEAPONRY, LSD POISONING, COUPLED WITH DEFRAUD DEADLY TORTUROUS SLEEP RESEARCH. THERE IS NO SMIRK ANYMORE BECAUSE THIS IS AND WAS A BONAFIDE DEFRAUD ATTEMPTED MURDER. GOD CHOSE TO RESCUE ME AND AS SUCH I BOLD FACEDLY ACKNOWLEDGE HIS AUTHORITY, BECAUSE THIS WELL FINANCED, CRIMINALLY EXPERT OPERATION LEAVES NO ROOM FOR SURVIVORS. BUT GOD!!!! MY HEART, SOUL AND PRAYERS GO TO THE MILLIONS OF VICTIMS AND THEIR FAMILIES THAT HAVE FALLEN PREY.

8. \*\*\*\* WORKPLACE GANG STALKING INCLUDED PITTING PEOPLE TO WORK AGAINST THE SCHOOL PROGRAM, TO TARGET ME, NOT ALLOWING CLASSES TO START WHEN ALL THE OTHER CLASSES STARTED, CONTINUOUS CLASS ROOM OBSTRUCTIONS VIA LOUD SPEAKER CALLS ACROSS THE BUILDING FOR NOTHING, OTHER THAN HARRASSMENT, INSTRUCTION WAS PLACED ON HOLD AND ACADEMIC PROGRAMS WERE SHUT DOWN, DESPITE STUDENT NEED, TO TARGET ME. CONTRACT VIOLATION AND CONTRACT NON ENFORCEMENT WAS THE PITTED METHOD OF OPERATION, REMOVAL FROM THE PROGRAM WITHOUT CAUSE OR REASON THE DAY BEFORE THE STUDENTS CHRISTMANS/HOLIDAY FESTIVAL AND AFTER THE PARENTS AND I HAD COOKED AND BROUGHT THE FOOD IN A DAY EARLY. ALL THE FOOD WAS BROUGHT IN ALREADY AND I WAS KICKED OUT OF THE BUILDING WITH A WEEK BEFORE EXEMPLARY CONTRACTUAL OVERALL EVALUATION. NO REASON WAS EVER GIVEN FOR THE LAWLESS OUSTER DESPITE FILING IN FEDERAL COURT. SEE THE COURT DOCUMENTATION ON MY WEB SITE AT:

<http://www.endorganizedcrimeuniverse.com/>

THE RULES, CONTRACT, LAW DID NOT MATTER. WHAT MATTERED ABOVE EVERYTHING IS THAT I WAS TARGETED WITH A VENGEANCE. THE STUDENTS AND I CRIED AS THE CHILDREN'S HOLIDAY WS RUINED BECAUSE OF THE PRIORITIZATION OF THIS HATE CRIME ADMINISTRATION.

ALL OF THE GANG STAKING CRIMES WERE INFLICTED UNDER THE SATANIC CAN YOU PROVE IT PHENOMENA. YOU LEAVE HOME AND THINGS ARE WORKING, PAINT ON THE WALL IS CHIPPED EVERY WHERE. YOU COME HOME AND YOUR HOME IS OBSTRUCTED AND THE POLICE TELL THE VICTIM A REPORT CAN NOT BE TAKEN. UNKNOWN PEOPLE ARE SENT TO BUMP YOU, BE RUDE AND OBNOXIOUS, LOCKS WERE TAMPERED WITH ON A REGULAR BASIS, \$1,500 DOLLAR SURVEILLANCE SYSTEM AND CAMERAS WERE PUT IN TO STOP THESE CRIMES AND THEY WERE OBSTRUCTED TWICE, UNDER CAN YOU PROVE IT, WELL FINANCED, CRIMINALLY EXPERT PHENOMENA! ONE TIME I WENT TO A RESTAURANT AND CAME OUT AND THE WHOLE FRONT END OF MY CAR WAS DEMOLISHED. THANK GOD MY GOD GIVEN RIGHT TO EARN SOME KIND OF INCOME WAS RESPECTED AND I HUMBLY FIXED THE CAR. SEE THE ATTACHMENTS AND SEE THE ORIGINAL SCRIPT I FOUND FOR THE GANG STALKING CRIMES UNDER THE CRIMINAL RECORD OF THE GRAY FAMILY NAME:

[Click here: OSS -- The Psychology of War, by Paul Wolf](#)

<http://www.tioh.hqda.pentagon.mil/branches/PsychologicalOperations.htm>

9. LAWLESS 24 HOUR SURVEILLANCES WERE INFLICTED ON ME. HOME ACTIVITIES WERE DISCUSSED IN THE WORKPLACE IN A MALICIOUS CRIMINALLY ENJOINING AND PITTING MANNER. SAME TIME ENTRY AND EXIT SET UPS WERE DESIGNED WITH NEIGHBORS. THESE CRIMINALS LIVED WITH ME!

10. VICIOUS AND MALICIOUS ECONOMIC CRIME INFLICTION VIA THE IMPOSITION OF LETHAL LIVING CONDITIONS. I HAVE BEEN LEFT TO BE KILLED UNDER THE DEFRAUD OF CRIMINAL, MASTERMINED, AND MANIFESTED ECONOMIC WARFARE AND CRIMINAL ECONOMIC CRIME ADMINISTRATION. SEE THE BELOW ECONOMIC WAR FARE CRIMES AND BLACKLISTING CRIMES I FOUND WHILE RESEARCHING BOYDEN GRAY FATHER'S CRIMINAL RECORDS IN GOVERNMENT. ALL OF THE INFLICTED CRIMES INFLICTED ON ME ARE IDENTIFIED IN THE CRIMINAL RECORDS OF BOYDEN GRAY'S FATHER DEFRAUD AND CRIMINAL REIGN IN GOVERNMENT.

In closing, my web site and the attached 70 pages or more of research verify where, who, and how these crimes were administered. The question is what humane reason provides for the disregard of such? I have been victimized for over 15 years. I have researched these crimes, patterns, and authenticity thoroughly. My research indisputable shows that these defraud killing psychological war fare and criminal human experiment hate crimes and administrations disguised as projects erupted out of Gordon Gray's defraud legal adviser position to President Truman and Eisenhower years ago. Gordon Gray is Boyden Gray's father. Boyden Gray works under the current president and has used his defraud positions to resurrect these criminal scripted inhumane psychological warfare crimes identified under his father's never regulated criminalities and defraud. Please see the attachments and the defraud insurance programs aligned with these defraud murders and defraud attempted murder administrations. Please read carefully the attached forward with substantial verification of the authentication of these scripted organized hate crime administrations. Please read my web site. Alan Keith Sones Jr. It first started for me 15 years ago. I went through a version of MK Ultra. I was drugged repeatedly, followed while being probed, made to watch things sexual in nature, jumped, shot at, car vandalized, & poisoned. I then moved across the US while being probed & have lived in a life of non stop discrimination here while still being probed with v2k/rnm. About 2 years ago I was being hit with DEW's off & on until about 6 months ago. It was my head only. And last time I bought a hotel room I was awakened in the middle of the night with heart palpitations. I've gathered evidence for over 20 lawsuits & the courts shut it down. They've charged me for standing up to people for stealing my narcotic pain meds & tip money & didn't do a thing to them. My doctors took me off of all my meds even though I've got heart, liver, & chronic pain problems. All clinics refuse to see me now except the emergency room & they cannot prescribe what I need. I've since been drugged again as well, so was my son when he was 3. I'm being forced to be homeless. However I finally found a employer who will not make things up to terminate me. I live in my truck in constant pain & being probed. I have my son quiet a bit as well, trying to watch out for him. A police officer even told me in Manhattan Montana that pschezophrenic comes on in old age, which we all know is a lie. I told a doctor how to build a low level EMP just to see what she would say & she tried to prescribe me pschezophrenic medication. There's a "whole lot" more to my story, that's the short version. I'm hoping my body can withstand it until we get justice, or at least until my son is a teenager. I will die gun in hand if need be!!! Thank you! I'm also on [www.Freedomfchs.com](http://www.Freedomfchs.com) as a buddy for the MT call list.

DEAR SIR/MADAM

### **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

The Dr. Carlos Sosa M.D. Story

Please let me introduce myself. My name is Dr. Carlos Sosa, M.D. (physician and surgeon) and I'm presently living in Medellin, Colombia in South America.

During the month of May 2006, I was forced to leave my house because of the symptoms caused to me and my family by the MICROWAVES OF A WIRELESS INTERNET (WIFI) MAST (OR ANTENNA). The structure had been in our building for nearly three years and the company that owned it had been slowly raising the transmission frequency.

In May/06 I started feeling a terrible sense of unwellness: headaches, dizziness, insomnia, nausea, irritability, amnesia or forgetfulness and lack of attention or concentration capacity. I couldn't bear being close to my house or to any other microwave mast, be it cell phone or WiFi antennas. I had to leave my house together with my whole family just to find out that the city was flooded by some 4000 masts that wouldn't leave a single irradiated spot for us to live in.

I could sense the electromagnetic fields that were being given off by these antennas blocks away before I could even see them. Many times I felt like a burning candle in the back part of my head (occipital). We had to move to five different apartments all over the city because the situation was the same no matter where we went. I couldn't find physical or mental peace anywhere in the city. I couldn't study again which, being a Medical Doctor is a tragedy. Studying is my life and I wasn't able to remember or to concentrate. I had to resign my position at the hospital where I worked because there were various microwave cell phone masts around the hospital. I could not stand being inside the Emergency Service because the electromagnetic contamination was just too high and I felt pain just trying to find a place to park the car. That used to be my daily routine. Despite the fact that I tried to get help from local health authorities and the National Ministry of Communications of Colombia, nobody actually helped me. I sent my written reports with medical evidence to our city Health Secretary. He probably laughed a lot.

A few months later I found out of Dr. William Rea who runs the Environmental Health Clinic in Dallas, Texas. I left immediately in search of his help. I already knew I had Microwave Syndrome. The alterations in my physiology were serious enough to seek help anywhere in the world. In Colombia, not a single medical doctor is trained in any of the universities to treat this problem. It's simply not taught anywhere in pre-graduate or graduate programs in medical schools around the country. Plus, being a medical doctor, I know of the IGNORANCE and DOGMATISM of the medical profession. If I made it public I would be tried for witchcraft. Despite this, I tried a very prestigious neurologist who had studied in Great Britain. He didn't even know the syndrome existed in Medicine and he tried to laugh before I showed him my box with some 2000 medical publications from all medical specialties written by doctors from all over the world.

In Dallas I was able to meet people from the five continents with exactly my same story: they had been subject to Microwave Radiation from a mast that was one, two, three or four blocks away.

I was not considering the possibility of surviving in the measure that my neurological functions were deeply affected. My best option at that point in time was committing suicide and I thought about it every hour of every day. Dr. Rea made the diagnosis of a Toxic Encephalopathy, Immune Dysregulation and Dysautonomy. All of these

diagnoses are a direct consequence of microwave irradiation. It had been many years since I had cried. I stayed in the clinic's rest room for half an hour trying to vanish the traces of the tears and my red eyes. I knew how serious the situation was. Basically all of my life, my profession and my neurological integrity was at stake.

Dr. Rea taught me a lot. I will be eternally grateful to him. Though he wanted me to stay for two or three months, my economical situation did not allow for it. The very first day I had to spend almost all of my money in lab examinations. The medical results at the clinic spread through all of the gamut of possibilities from no response, partial recovery, functional symptoms, to total cure.

I returned to Colombia in search of a place to hide from microwaves in the jungle. I visited tens of towns and states around the country. The nation is totally contaminated with electromagnetic smog. And Colombia is far better than any city in the United States or Europe. I finally managed to find a spot at one of the turns of the Andes Mountains. It was a beautiful place with a creek, a forest, a 200 year old house with no electricity and pure air. (All those interested, please just write to [karlkropotkin@yahoo.com](mailto:karlkropotkin@yahoo.com). Though I could sense the electromagnetic fields coming probably from radar units, there was a big reduction in the symptoms that allowed me to start recovering. After staying there for 5 months I had to return to the city, because I was starting to feel the microwaves of the airplanes crossing in the sky. Unfortunately, there was an international air navigation route on the sky and I had to leave in very much pain back to the city.

It was Dr. George Carlo, head of the epidemiology branch of the CTIA of the United States, who denounced publicly the evidence that they had concerning genetic damages, lymphomas, rupture of the brain-blood- barrier, presence of micronuclei, etc. The criteria used in Medicine and specifically in Epidemiology to establish a causal relationship between a chemical, bacterial or physical agent and disease, were fulfilled in less than ten years, states Carlo. These criteria, known as the Koch-Henle postulates, have proven that microwaves from cell phone telephony affect human health in a catastrophic way.

**Not a single government in the world cares. Only through litigation will changes become effective.**

**My case, just like the case of other medical doctors who are or have been electro-sensitive, is just another modern version of infamy.** Among these is the case of the former director of WHO and Norwegian prime minister: Gro Harlem Brundtland. She had forbidden journalists from using cell phones in her office because of her EHS (electrohypersensitivity). The news was made public in Norway and Sweden. A few months later, she had to abandon the leadership of the World Health Organization. Many point to Michael Repacholi and the cell phone industry as authors of this proscription. Dr. Brundtland eventually became another patient in Dallas.

Like her, Dr. Arthur Firstenberg and Dr. Lisa Nagy have become the tips of the icebergs. **THERE IS NO DOUBT: THE MICROWAVE SYNDROME IS NOT ONLY THE BIGGEST EXPERIMENT IN THE HISTORY OF MANKIND**, but also, it is one of the biggest epidemics recorded in Medicine (after the Black Death, influenza, malaria, AIDS, etc). The Health Department of the State of California is estimating that the total number of people affected in the United States by EHS or the Microwave Syndrome is over ONE MILLION people.

In not a single Medicine book or journal in the world, be it a genetics, a physiology, a histology, a molecular biology, a biochemistry, a microbiology, an internal medicine, a pediatrics, a surgery, a neurology, a cardiology, or any other text does it say that the human cell was designed to withstand microwave radiation day and night throughout the years. This is a creation, an invention or a lie from the cell phone industry. This industry was set up by engineers, physicist, electricians and many times, by graduates of elementary school who had no credentials and no knowledge of Medicine whatsoever. That's the reason why many of us are ill or actually dying. As long as the cell phone industry owns the World Health Organization, the crime will proceed. The credibility gap of the WHO extends well beyond the Milky Way. The ethical conflict is patent. The international epidemic of the microwave syndrome is getting to levels of genocide. And Michael Repacholi is internationally responsible for **CRIMES AGAINST MANKIND**. The knowledge was there since the 1920's.

Originally described in the Soviet Union during the 1940's and 1950's, the Microwave Syndrome, also called Electromagnetic Hypersensitivity, Microwave Disease, Radio-frequency Sickness, Radar Disease, Electric Sensitivity, Cell Phone Disease, Cell Phone Mast Disease constitutes a **CRIME AGAINST MANKIND** on behalf of the international cell phone industry. Soviet medical reports were already describing the damaging action of electromagnetic fields on human beings in the 1920's. The microwaving of approximately 80-90% of the human population is, according to Dr. Leif Salford of the Neurosurgery Department of Lund University in Sweden, the greatest experiment ever conducted against Man. Medical ethics codes have been violated by the World Health Organization taken over by the cell phone industry in 1996.

The Microwave Syndrome or Electromagnetic Hypersensitivity, constitutes a criminal action that has violated medical ethics, the Nuremberg Code, the Helsinki Declaration, and Human Rights of MANKIND as a species. It is an international HOLOCAUST that is killing hundreds of thousands around the world. Not a single health authority in Great Britain, the United States, Spain, Germany, France or Colombia cares at all.

Taking into account the medical literature of the Soviet Union, Poland and Czechoslovakia, the total number of international medical references concerning this problem easily exceeds 100 million and they started to be published more than 80 years ago. The problem is not new. Furthermore, the British government knew of the symptoms of the operators of the radar antennas during the Second World War: the same symptoms that people who are subject to microwaves from cell phone masts experience. Microwave radiation is pertinent to cause death. Not a single government in the world cares because of the giant fortunes involved.

The World Health Organization, years ago a very serious and respectable institution, was bought in 1996 by the former director of the ICNIRP (International Commission for Non-ionizing Radiation Protection), Michael Repacholi. The ICNIRP is a private organization that was built up in order to protect the private interests of the American and European cell phone industry. In many regards, cell phones pose an equivalent problem as cocaine traffickers. No matter how damaging it actually is, there will always be corrupted officials who are willing to sell their conscience for money and look the other way. There is a present international campaign to submit Michael Repacholi to international justice for CRIMES AGAINST MANKIND.

I personally hold Michael Repacholi responsible for my EHS. This person has to be sent to criminal trial for his actions against millions of human beings in the five continents. The WHO knew of this damaging action decades before the introduction of cell phone telephony in the world. Repacholi did not care. In 1973 the WHO conducted an international Congress in Warsaw under the auspices of the government of Poland and the Federal Drug Administration of the United States. The results of this congress were published in the book entitled: "Biologic Effects and Health Hazards of Microwave Radiation." I have heard that Michael Repacholi ordered this book burned. Repacholi recently revealed that up to half of the funds raised for the EMF project of the World Health Organization came from the cell phone industry.

The conflict of interests is like having the tobacco industry sponsor research in order to deny that cigarettes cause lung cancer, mouth floor cancer, larynx cancer, pharynx cancer, coronary disease, peripheral vascular disease, chronic obstructive pulmonary disease, myocardial infarction, strokes, etc.

The Microwave Syndrome, as it was originally described by Soviet medical investigators consists of:

- A neurasthenic syndrome: fatigue, irritability, nausea, headaches, anorexia, depression, dizziness
- A cardiovascular syndrome: bradycardia, tachycardia, hypertension or low blood pressure
- A diencephalic syndrome: memory problems, concentration difficulties, insomnia

Chronic exposure to microwaves is associated with dermatological lesions, leukemia, Parkinson's disease, Alzheimer's disease, attention deficit-hyperactivity disorder (epidemic), brain tumors (epidemic), changes in the electroencephalogram, cardiac arrhythmias, reproduction problems, allergies, hypothyroidism, sinusitis, chronic fatigue syndrome, etc.

Because it was known since the 1920's that microwaves are bio-active, lawyers like Peter Angelos in the USA are making a fortune in litigation processes (similar to those against the tobacco industry) against the cell phone industry. Not only that, but Motorola openly lied to the federal government and its agencies when it stated that they had thousands of studies that proved that microwaves caused no harm. Last year, the judicial system of the United States established that the brain tumor that the patient Sheresa Price had was a direct consequence of cell phone use. Repacholi is totally silent, as so as the cell phone industry and the World Health Organization.

Because of this grave crisis that almost cost me my life, I started investigating on a possible cure for EHS or microwave syndrome. I developed an approach that reconstructs previous Soviet treatments and modern medicine. I started my own site in the hope of helping people around the world to overcome this tragedy ([www.thesanctuarydrsosa.com](http://www.thesanctuarydrsosa.com)). I presently live outside the city in a place with a very low microwave radiation level- a sanctuary.

**COLOMBIA HAS HAD SOME OF THE MOST ASTONISHING CASES IN THE WORLD.** One of them was located in Valledupar in the northern part of the country. One thousand people in El Amparo neighborhood are sick because of two giant cell phone masts. They are selling 250 houses because of the microwave syndrome people are suffering. The government says it's just coincidence.

I want to dedicate my life to help other patients who like me, are facing an infamous situation caused by human greed. I have tons of medical information that I want to share with everybody. Feel free to contact me. There is hope and Medicine does in fact have treatment options to offer. May I suggest the following links that might be of help to all of you who are in a desperate situation like I was:

### **1. English version**

Ladies and Gentlemen, My name is GERAL W. Sosbee and I am a former Special Agent with the federal bureau of investigation (fbi), United States Department of Justice. I request that your good offices accept this letter with enclosures and that you kindly relay the information herein to colleagues in the government, to your representatives and to your associates back home for educational purposes. My present objective is to focus attention on the fbi and on the central intelligence agency (cia) with regard to their ongoing practices of targeting for death certain individuals who expose human rights abuses by those two agencies; also, other individuals who may be viewed by the fbi or the cia as politically viable adversaries (to a corrupt United States agency or policy) may be similarly targeted. I am saddened by the prospect of reporting fbi and cia transgressions and I remain optimistic and invigorated at the realization that I have survived the past eight years in torment (as of March, 2006) and that I now have the opportunity to share my experiences with others and perhaps thereby to assist them in some manner. As shown in the summary of events that follows (and as more fully documented in my court filings) agents and operatives of the fbi and the cia (including at times members of the general population) engage from time to time in a subtle form of homicidal conduct for personal gain, to cover up crimes, to silence political critics, or to otherwise neutralize specific individuals who attempt to report fbi and/or cia gross abuse of power and possible crimes

against humanity. My government and the media in the United States are aware of my allegations and are in receipt of abundant evidence to support my claims. I have established on the record that the fbi and the cia are corrupt, that the United States Congress and the courts to date are cowardly in failure to address the corruption, and that the American people are generally unaware of the extent of the problem. The United States is not alone in such unconscionable conduct (as further described below) as it enlists persons from other countries to assist in the human rights violations when the fbi or the cia sees the need. Any nation which cooperates, condones, or supports the tactics depicted in this letter is unfit to lead or to influence any other nation with respect to human rights and humanitarian issues. The implications of such a sorry state of affairs are indeed disturbing to sensitive intellects and persons of good will, particularly with respect to the need for peace in the world. The campaign of terror described below is typical of the methodology used in similar efforts around the world and may foreshadow a general decline in social and economic fairness the world over. Enclosed with this letter are my sworn statements, my letter to human rights supporters, my letters to police departments, my advertisement in the Hollywood Reporter Magazine (August 2000, Special Issue, page 133), my Appeal to the United States Court of Appeals and Congressman Abercrombie's letter to the fbi. In the pages that follow I outline the techniques used to attempt to silence me from charging the fbi (and the cia) with high crimes against the American people and against the international community. I trust that this information will be helpful to other potential victims of similar attacks by intelligence agencies which use covert hit squads (often referred to in the fbi as Goon Squads). I feel privileged to present the material to you because I am confident that your people will benefit from the representations. As the Target of the fbi and the cia Goon Squads, I refer to myself below as T. \*From about 1998 to the present time the fbi (and the cia in the Dominican Republic, Japan and Thailand) continue an uninterrupted campaign designed to neutralize T and (to express directly) to drive T insane (or at least to force T into exile, defection, or suicide), by using the following tactics: —Initiate or reestablish an official investigation on T. —Notify T's friends, associates and contacts that T is under investigation. —Demonize T in the community, especially with doctors, dentists and mechanics. (Use medical and dental procedures such as vasectomy and root canals as opportunity to deliver terrorist threats and physical torture on T.) —Isolate and marginalize T everywhere he goes by extensive character assassination. —Prevent T from renting a place to live. —If T attempts to sleep in his car, notify local authorities. —Obtain false, sworn statements against T by two females in support of a fraudulent civil commitment order signed by a corrupt state judge. (As of September 30, 2005, T believes that the fbi and the U.S. Department of Injustice use corrupt federal judges or federal magistrates to obtain fraudulent civil papers against T. See part 10 of "My Story In Detail".) —If T flees, label him as an international fugitive from justice and a threat to public safety. For proof of this see Sosbee's writ, page a18. Click here to see the Boeing Corp. perception of Sosbee as a fugitive. —Affect a comprehensive electronic and physical surveillance on T in his home and car with simultaneous invasions into T's living quarters and car. —Insure that T understands that he is being watched in every corner of his dwelling (and in his car) by the following: 1) Enter unit and rearrange kitchen items and dinning table to replicate the way T had set the table early in the day; 2) When T places clothes in the apartment's washer/dryer units, enter his unit and turn on the water, or place trash in the washer/dryer unit which T is using; 3) When T covers up at night with the same blanket, urinate only on that portion of the blanket (center edge) that reaches T's face; 4) When T steps into the bathroom, open T's front door; 5) When T falls asleep, open the front door; 6) If T tries to watch TV, take over the remote control unit, changing channels and turning the TV on and off in rapid succession. 7) When T returns to his living quarters begin telephonic and cell phone harassment the moment T enters his home; "EIGHT": Tamper with particular objects which T touches or uses in the home or car and rearrange or destroy personal objects (such as dental floss) which T touches on a given day; 9) Observe T in real time to make adjustments to types and intensity of harassment. —When T attempts to cover walls or ceiling to afford privacy, enter and tear down the covering. —Plant drugs in T's food for the following purposes: 1) to eliminate libido and to interrupt normal bodily functions; 2) Force T to sleep; 3) Prevent T from sleeping; 4) Cause mood swings in T. —Send operatives to taunt or jeer T following the poisonings. —If T stops eating at home, place drugs or virus bacteria in T's food in restaurants. —Send operatives to test T's temper, to assess and to provoke T by repeated incidents of assault and battery. —Send female operatives to engage T in conversation wherein she abruptly stops the discourse and runs away from T. —Order a subscription in T's name to Chef magazines. —Place pink colored and female objects (such as panties) in T's personal effects. —Use local police departments around the world to stage fraudulently conceived and illegally carried out attempted sting operations against T, in efforts to obtain a basis upon which to charge T with a civil or a criminal offense. —Repeatedly label T as one of unbalanced mind. —Reinforce T's awareness of his bodily dysfunctions by: 1) Removal of the male end of the battery charger from shaver or cell phone; 2) Dislodging the automobile's turn signal, so that when T touches the device, it falls from position and is held only by electrical cord; 3) Leave phallic symbols in T's car from time to time. —If T seeks treatment for illness of any kind, notify doctor or dentist and security officers that T is under investigation and is unbalanced. —Initiate conditioned-response program designed to punish T for certain activities, such as: 1) Asking Congress for help; 2) Visiting the Law library; 3) Social discourse; 4) Relaxing. —Continue and intensify terrorist actions without break: 1) Plant live roaches in T's food in the refrigerator; 2) Tear up, purloin, or destroy the zippers in T's slacks and cut the ties

so that they are not wearable; 3) If T has a roommate, poison her and leave a reminder to T that he is the cause for her suffering (i.e.: place the heels of T's shoes on the toes of the roommate's shoes); 4) If T attempts to socialize with potential friends, tamper with their cars to cause them to avoid T; 5) Follow T into movies, restaurants, or other public places in order to assess and in order to collect items or information that can be used against T the next day, or the next month: If T eats at Hotel X, place a match box, or a pen, from Hotel X in T's Car, or between the sheets of T's bed; If T sees a movie with a scene of suicide by knife, enter T's unit and plant a butcher knife in an odd and suggestive location with the handle up and out for T to observe upon his return from the movie. — Tamper with T's accounts by the following methods: 1) Close some accounts; 2) Change the address on some accounts; 3) Submit false address change to United States Post Office; 4) Use T's credit card unlawfully to charge services\*. \* for proof of this see Sosbee's Writ, page a26 (click here). — Tamper with T's car extensively, especially as a part of the conditioned-response technique: Tamper with the electronic temperature control panel, so that a setting by T at 60 degrees is reset to read 90 degrees, and so that a manual setting by T at off is reset to read Low, Medium, or High, depending on the level of punishment T may expect to receive soon. — Disable T's car by slashing tires, causing them to peel off from wheel; place water in the gas tank; turn on the car's parking or interior dome lights; replace new fuses and bulbs with dead ones. Click Here For Police Reports See also page a26 of the writ for the police report on the slashing of the tire. — Threaten T regularly by placing broken windshield chips in the driver's seat of T's car and by repeatedly resetting the temperature display panel to read 90 degrees and High; send operatives to carry on conversation within hearing distance of T, so that suggestions of suicide (or other alternatives) are discussed; send operatives to make abrupt U-turns in head on traffic with hazard light on. — Stop hostilities a day or two in order to prevent habituation (a psychological defense). The relentless and calculating pressure on T by the tormentors is generally effective to the extent that T is worn down from being on guard and alert to the ever-changing tactics used against him day and night. However, with each new twist of the terrorist's actions, T holds to his conviction that evildoers in this world are simply confused representatives of an otherwise noble species of inhabitants on this good earth and that the vital key to our individual and collective survival and prosperity is our ability to recognize and confront the physical and the intellectual challenges presented to us for resolution.

I hope that this information can help save the lives of people whom, targeted as they may be, we need in this world.

Best Wishes and Respectfully Submitted

## 2. VERSION FRANÇAISE

**Témoignage de Geral Sosbee, ex-Agent Spécial du FBI** <http://www.sosbeevfbi.com/>

Je m'appelle Geral W. Sosbee. Je suis un ancien Agent Spécial du FBI, du Ministère de la Justice des États-Unis. Je fais appel à vos bons offices pour que soient prises en considération la présente lettre et les pièces annexes et pour que l'information soit transmise à des collègues du gouvernement, à vos députés et à vos associés, dans un but éducatif. Mon objectif est d'attirer l'attention sur les actuelles pratiques du FBI et de la CIA visant à transformer en objectifs jusqu'à la mort, certains individus qui dénoncent les abus des droits de l'homme commis par ces deux institutions; pareillement, d'autres individus, jugés par le FBI ou la CIA comme des adversaires politiquement viables (pour une agence ou une politique corrompue des États-Unis), peuvent être, de la même manière, transformés en objectifs. Cela m'afflige de devoir dénoncer des transgressions de lois de la part du FBI et de la CIA, mais je reste optimiste et revigoré, après m'être rendu compte que j'ai survécu aux huit dernières années de torture et que, maintenant, j'ai l'occasion de partager mes expériences avec d'autres victimes et leur offrir, éventuellement, mon assistance, d'une manière ou d'une autre. Ainsi qu'il est indiqué dans le résumé des événements ci-après (avec de plus amples détails dans les actes du tribunal), les agents et les collaborateurs du FBI et de la CIA (voire parfois des membres de la population en général), de temps en temps, jouent un rôle subtil dans l'application de ces crimes, par appât du gain, pour occulter des délits, pour faire taire des adversaires politiques, ou même neutraliser des individus bien précis qui essaient de dénoncer de gravissimes abus de pouvoir et les éventuels crimes de la CIA et/ou du FBI contre l'humanité. Mon gouvernement et les media aux États-Unis sont au courant de mes accusations et ont à leur disposition des preuves abondantes pour avaliser mes plaintes. J'ai déclaré dans le dossier que le FBI et la CIA sont corrompus, que le Congrès des États-Unis et les tribunaux jusqu'à présent font figure de lâches, en ne s'attaquant pas à la corruption, et que le peuple américain, en général, n'est pas au courant de l'étendue du problème. Les États-Unis n'agissent pas seuls dans de telles pratiques sans vergogne (comme décrites plus bas). En effet, ils recrutent des personnes d'autres pays, pour qu'elles apportent leur collaboration dans ces actes de violations de droits de l'homme, à chaque fois que le FBI et la CIA en éprouvent le besoin. Toute nation qui offre collaboration, rémission de peine ou aval des pratiques dénoncées dans la présente

lettre, est incapable de guider toute autre nation ni d'avoir une emprise quelconque sur elle, quand il est question des droits de l'homme et des problèmes humanitaires. Les implications d'une situation aussi lamentable sont en effet inquiétantes pour des intellectuels et des individus dotés de sensibilité et de bonne volonté, plus particulièrement sur la nécessité de la paix dans le monde. La campagne de terreur décrite plus bas est typique de la méthodologie utilisée dans des pratiques similaires, à travers le monde et peut présager une décadence générale de l'impartialité sociale et économique mondiale. Cette lettre inclut mes déclarations sous serment, ma lettre à des défenseurs des droits de l'homme, mes lettres à diverses institutions de la police, mon annonce dans le Hollywood Reporter Magazine (Août 2000, Numéro Spécial, page 133), ma requête auprès de la Cour d'Appel des États-Unis et la lettre du Membre du Congrès, Abercrombie au FBI. Dans les pages qui suivent, je donne un résumé des techniques utilisées pour essayer de me réduire au silence et pour que je n'accuse pas le FBI (et la CIA) de graves délits contre le peuple américain et contre la communauté internationale. J'espère que cette information profitera à d'autres victimes potentielles d'attaques similaires par les agences d'intelligence qui utilisent les escadrons secrets de la mort (souvent dénommés "Escadrons des Gorilles", au sein du FBI). Je perçois comme un privilège le fait de vous présenter le dossier qui suit, parce que je crois fermement que votre entourage en tirera pleinement profit. En tant que cible du FBI et des Escadrons des Gorilles de la CIA, j'utilise la lettre T pour me référer à moi-même, dans ce qui va suivre. \*Depuis 1998, à peu près, jusqu'à l'heure actuelle, le FBI ainsi que la CIA en République Dominicaine, au Japon et en Thaïlande, mènent une interminable campagne destinée à neutraliser T et, pour le dire sans ambages, le rendre fou ou au moins le pousser à l'exil, à la défection, ou au suicide, en utilisant les tactiques suivantes : —Commencer ou rétablir une investigation officielle sur T. —Informers les amis, les associés et les contacts de T que T est sous investigation. —Diaboliser T dans la communauté, surtout auprès des médecins, des dentistes et des mécaniciens. (Utiliser des procédés médicaux et dentaires, tels que la vasectomie et les traitements à la racine, comme occasion de formuler des menaces terroristes et une torture physique à T.) —Isoler et marginaliser T où qu'il aille, pour le diffamer au maximum. —Empêcher T de louer un quelconque endroit pour y vivre. —Si T essaie de dormir dans sa voiture, notifier les autorités locales. —Obtenir de fausses déclarations, sous serment contre T par deux femmes, à l'appui d'un ordre frauduleux de compromis civil signé par un juge corrompu. (Depuis le 30 septembre 2005, T estime que le FBI et le Département Américain d'Injustice font appel à des juges fédéraux ou des magistrats fédéraux corrompus, pour obtenir des documents civils frauduleux contre T. Voir la partie 10 de "Mon Histoire Détaillée"). —Si T prend la fuite, collez-lui l'étiquette de fugitif international de la justice présentant une menace pour la sécurité publique. Comme preuve, voir l'ordre judiciaire de Sosbee, à la page A-18. (Cliquez ici pour voir comment Boeing Corp perçoit Sosbee comme un fugitif). —Mettre en place une surveillance électronique et physique complète de T dans sa maison et sa voiture avec des invasions simultanées de la résidence et de sa voiture. —S'assurer que T sente bien qu'il est surveillé dans tous les coins et les recoins de son habitation (et dans sa voiture) de la manière suivante : 1) Entrer dans l'appartement et réorganiser la disposition des articles de cuisine et de table pour reproduire la manière adoptée par T quand il avait mis le couvert, en début de journée; 2) Quand T place les vêtements dans la machine à laver, entrer dans son appartement et ouvrir le robinet, ou placer les ordures dans la machine à laver que T utilise; 3) Quand T se couvre, la nuit avec la même couverture, il suffit d'uriner seulement dans la partie de la couverture qui touche le visage de T; 4) Quand T va aux toilettes, ouvrir la porte principale de T; 5) Quand T s'endort, ouvrir la porte principale; 6) Si T essaie de regarder la télévision, déclencher la commande à distance, en allumant et en éteignant le téléviseur et en changeant les chaînes à toute vitesse, les unes après les autres. 7) Quand T retourne à sa résidence, commencer le harcèlement sur le téléphone fixe puis sur le téléphone mobile, au moment où T s'introduit chez lui ; "HUIT": Manipuler des objets précis que T touche et utilise dans son appartement ou dans sa voiture, changer leur place ou détruire des effets personnels (comme le fil dentaire) que T touche, un jour bien précis; 9) Observer T en temps réel pour faire des modifications des types de harcèlement et de leur intensité. —Quand T essaie de couvrir les murs ou le plafond, dans le but d'avoir plus d'intimité, entrer et faire tomber ces installations. —Introduire de la drogue dans la nourriture de T, pour atteindre les objectifs ci-après : 1) éliminer la libido et interrompre les fonctions corporelles normales; 2) Obliger T à dormir; 3) Empêcher T de dormir; 4) déclencher des sautes d'humeur. —Envoyer des collaborateurs pour insulter T et se moquer de lui, après l'empoisonnement. —Si T cesse de manger chez lui, introduire de la drogue ou des bactéries dans la nourriture prise dans les restaurants. —Envoyer des collaborateurs pour mettre à l'épreuve le caractère de T, pour faire le point et pour le provoquer avec des incidents de voies de fait répétés. —Envoyer des collaboratrices pour que T s'engage dans une conversation, puis l'une d'elles subitement interrompt la conversation et s'éloigne de T. —Demander un abonnement au nom de T aux revues "Chef Magazines". —Placer des articles féminins de couleur rose (tels que les culottes) dans les affaires de T. —Utiliser les services de police locale dans le monde entier pour mettre en place des opérations occultes conçues frauduleusement et réalisées illégalement contre T, pour qu'il y ait une base sur laquelle fonder les accusations de délit civil ou criminel contre T. —A maintes reprises, lui affubler l'étiquette de personne à l'esprit dérangé. —Faire tout pour que T prenne bien conscience des dysfonctionnements de son corps, en procédant de la manière suivante : 1) Retirer la connection mâle du chargeur de batteries du rasoir ou du téléphone portable; 2) Déconnecter le clignotant de la voiture, de sorte que, lorsque T touchera le dispositif, le tout se dérèglera et ne sera soutenu que par

le fil électrique; 3) Laisser, de temps en temps, des symboles phalliques dans la voiture de T. —Si T cherche un traitement pour telle ou telle maladie, informer le docteur ou le dentiste et les agents de sécurité que T est sous investigation et qu'ils ont affaire à un déséquilibré. —Commencer un programme de réponses conditionnées destiné à punir T pour certaines activités, telles que : 1) demander de l'aide au Congrès. 2) fréquenter la Bibliothèque de Droit. 3) le Discours Social. 4) la Relaxation. — Continuer et intensifier sans relâche les actions terroristes contre T : 1) Introduire des blattes vivantes dans la nourriture du réfrigérateur; 2) Casser, dérober, ou détruire la fermeture-éclair des pantalons et couper les noeuds de façon à ce qu'ils ne soient plus utilisables; 3) Si T cohabite avec une compagne, empoisonnez-la et, par une petite note, rappelez à T qu'il est responsable de la souffrance de sa compagne. (par exemple, placer les talons des souliers de T dans les orteils des souliers de la compagne); 4) Si T essaie de se lier à des amis potentiels, manipuler les voitures de ces amis, pour faire en sorte qu'ils évitent T; 5) Suivre T dans les cinémas, les restaurants, ou d'autres lieux publics, pour faire le point et rassembler les éléments ou les informations susceptibles d'être utilisés contre T, le jour suivant ou le mois suivant. Si T mange à l'Hôtel X, placer une petite boîte d'allumettes, ou un stylo de l'Hôtel X dans la voiture de T, ou entre les draps de son lit; Si T voit un film avec une scène de suicide par un couteau, entrer dans l'appartement de T, prendre un couteau de boucher et placer la manche dans une position saugrenue et provocante, pour que T le remarque, à son retour du cinéma. —Manipuler les comptes bancaires de T, en recourant aux méthodes suivantes: 1) Fermer certains comptes; 2) Changer l'adresse de certains comptes; 3) Suggérer un faux changement d'adresse aux Services Postaux des États-Unis; 4) Utiliser illégalement la carte de crédit de T, pour régler des prestations quelconques\*. \* Pour voir les preuves, voir l'Ordre judiciaire de Sosbee, page A-26 (cliquer ici). —Manipuler la voiture de T au maximum, surtout dans le cadre de la technique des réponses conditionnées : Manipuler le tableau de contrôle électronique des températures, de sorte qu'un ajustement par T à 60 degrés soit réinitialisé pour afficher 90 degrés, et de sorte qu'un ajustement manuel par T à "off" soit réinitialisé pour afficher Bas, Moyen, ou Haut, selon le niveau du châtiment que T peut espérer recevoir bientôt. —Rendre hors d'usage la voiture de T en lacérant les pneus, en les faisant dégonfler et sortir du cercle de la roue; placer de l'eau dans le réservoir d'essence; allumer les feux de stationnement de la voiture ou les lumières intérieures; remplacer les nouveaux fusibles et ampoules par des fusibles usés et des ampoules grillées. (Cliquez Ici Pour les Rapports de Police. Voir également la page A26 de l'ordre judiciaire pour le rapport de la police sur les lacérations des pneus). —Menacer T régulièrement, en plaçant morceaux de pare-brise cassé, sur le siège du conducteur de sa voiture et réinitialiser plusieurs fois le panneau d'affichage de températures, pour avoir 90 degrés et "High"; envoyer des collaborateurs pour continuer la conversation à la portée de l'oreille de T, de telle sorte qu'ils puissent parler d'incitations au suicide (ou d'autres alternatives); envoyer des collaborateurs pour faire des demis-tours brusques dans la circulation, les feux de détresse allumés. —Arrêter les hostilités un jour ou deux, pour éviter l'accoutumance (défense psychologique). La pression implacable et insidieuse faite sur T par ses bourreaux, de façon générale, fonctionne à merveille, tant et si bien que T est épuisé de devoir constamment être sur le qui-vive, devant les tactiques multiples et multiformes utilisées contre lui, jour et nuit. Cependant, avec chaque nouvelle forme d'action du terroriste, T reste convaincu que les malfaiteurs de ce monde sont purement des représentants déboussolés d'une espèce (du reste, noble) d'habitants de cette bonne terre et que la clef vitale de notre survie individuelle et collective ainsi que de notre prospérité est notre capacité à reconnaître et à affronter les défis physiques et intellectuels, qui nous sont présentés, pour une éventuelle résolution. J'espère que cette information pourra contribuer à sauver la vie de personnes-victimes qui, quelle que soit la gravité des attaques qu'elles subissent, nous sont également indispensables.

Bien sincèrement  
Géral Sosbee \*

Note: destruction de biens : les biens sont détruits, mais non jusqu'au point de paraître comme un acte de vandalisme aux yeux de l'entourage. Cette technique, appelée "gaslighting", se réfère à une forme de vengeance subtile (décrite dans une revue de livres d'Eleanor White) et a pour but de provoquer, au fil du temps, chez l'individu pris pour cible, une accumulation de petites dépenses ainsi que des sentiments d'insécurité et de doute sur lui-même qui vont le miner psychologiquement.

### 3. VERSION ESPAÑOLA

<http://www.sosbeevfbi.com/mystory.html>

Muy Señores míos,

Mi nombre es Geral W. Sosbee y soy un antiguo Agente Especial del FBI, Ministerio de Justicia de los Estados Unidos. Apelo a sus buenos oficios para que sean tenidos en cuenta la presente carta y sus anexos y para que la información sea transmitida a colegas del gobierno, a sus diputados y a sus socios, con un fin educativo. Mi

presente objetivo es enfocar la atención en el FBI y en la Agencia Central de Información (CIA) en cuanto a sus prácticas en curso de convertir en objetivos hasta la muerte a ciertos individuos que exponen abusos de derechos humanos por esas dos agencias; también, otros individuos que pueden ser vistos por el FBI o la CIA como adversarios políticamente viables (para una agencia o una política corrupta de los Estados Unidos) pueden ser de manera similar convertidos en objetivos. Estoy afligido por la perspectiva de tener que relatar transgresiones de las leyes de parte del FBI y de la CIA, pero permanezco optimista y estimulado al darme cuenta de que he sobrevivido los ocho años pasados en el tormento y que ahora tengo la oportunidad de compartir mis experiencias con otros y quizás así ayudarles un poco de alguna manera. Como señalado en el resumen de los acontecimientos que sigue (y aún más documentado en mis actas del tribunal) los agentes y los colaboradores del FBI y de la CIA (incluso a veces miembros de la población en general) toman parte de vez en cuando en una forma sutil de conducta homicida para su ganancia personal, para encubrir delitos, hacer callar a críticos políticos, o por otra parte neutralizar a individuos específicos que intentan relatar el gravísimo abuso de poder y de delitos eventuales de la CIA y/o del FBI contra la humanidad. Mi gobierno y los medios en los Estados Unidos están al tanto de mis acusaciones y tienen a su disposición pruebas abundantes para apoyar mis reclamaciones. He declarado en el expediente que el FBI y la CIA son corruptos, que el Congreso de los Estados Unidos y los tribunales hasta ahora son cobardes por dejar de atacar a la corrupción, y que la población estadounidense en general no está al tanto de la amplitud del problema. Los Estados Unidos no están solos en tal conducta desvergonzada (como descrita más abajo) porque reclutan personas de otros países para colaborar en las violaciones de derechos humanos cuando el FBI o la CIA ven la necesidad. Cualquier nación que coopera, condona, o apoya la táctica descrita en esta carta es incapaz de guiar a otras naciones o de tener alguna influencia en ellas, con respecto a los derechos humanos y asuntos humanitarios. Las implicaciones de una situación tan lamentable en efecto son inquietantes para intelectos sensibles y personas de buena voluntad, en particular con respecto a la necesidad de la paz en el mundo. La campaña de terror descrita abajo es típica de la metodología usada en esfuerzos similares en todo el mundo y puede presagiar una decadencia general de la imparcialidad social y económica mundial. Esta carta incluye mis declaraciones juradas, mi carta a defensores de los derechos humanos, mis cartas a departamentos de policía, mi anuncio en el Hollywood Reporter Magazine (de agosto de 2000, Número Especial, en la página 133), mi Petición al Tribunal de Apelación de los Estados Unidos y la carta del Miembro del Congreso Abercrombie al FBI. En las páginas que siguen doy un resumen de las técnicas usadas para intentar hacerme callar y no acusar al FBI (y la CIA) de graves delitos contra la población americana y contra la comunidad internacional. Espero que esta información sea provechosa para otras víctimas potenciales de ataques similares por agencias de inteligencia que usan escuadrones de la muerte secretos (a menudo denominados en el FBI como “Escuadrones de Gorilas”). Me siento privilegiado por presentarle a Vd. el material que sigue, porque confío que su gente se beneficiará de las descripciones. Como blanco del FBI y de los Escuadrones de Gorilas de la CIA, me refiero a mí mismo abajo como T. \*Desde aproximadamente el 1998 hasta el presente el FBI y la CIA en la República Dominicana, Japón y Tailandia conducen una campaña ininterrumpida diseñada para neutralizar a T y, para expresarlo de modo más directo, volverle loco o al menos forzar a T al exilio, a la defección, o al suicidio, usando la táctica siguiente: —Iniciar o restablecer una investigación oficial sobre T. —Notificar a los amigos, socios y contactos de T que T está bajo investigación. —Demonizar a T en la comunidad, sobre todo ante los médicos, los dentistas y los mecánicos. (Usar procedimientos médicos y dentales, tal como vasectomía y tratamientos en la raíz como oportunidad de formular amenazas terroristas y tortura física a T.) —Aíslar y marginar a T dondequiera que vaya, para difamarle extensivamente. —Impedir a T alquilar un lugar para vivir. —Si T intenta dormir en su coche, notificar las autoridades locales. —Obtener declaraciones falsas, juradas contra T por dos mujeres en apoyo de una orden de compromiso civil fraudulenta firmada por un juez estatal corrupto. (Desde el 30 de septiembre de 2005, T cree que el FBI y el Departamento estadounidense de Injusticia estadounidense usa a jueces federales o magistrados federales corruptos para obtener documentos civiles fraudulentos contra T. Ver la parte 10 de “Mi Historia Detallada”.) —Si T huye, etiquetarlo como un fugitivo internacional de la justicia y como una amenaza para la seguridad pública. Como prueba de esto, ver el mandato judicial de Sosbee, en la página A-18. (Haga clic aquí para ver de que manera Boeing Corp percibe a Sosbee como un fugitivo). —Instalar una vigilancia electrónica y física completa de T en su casa y su coche con invasiones simultáneas de la residencia y del coche. —Asegurarse de que T entienda que está siendo observado en cada esquina de su vivienda (y en su coche) con el modo siguiente: 1) Entrar en el piso y reacondicionar artículos de cocina y de mesa para reproducir el modo adoptado por T cuando había puesto la mesa a principios del día; 2) Cuando T coloca la ropa en la lavadora, entrar en su piso y abrir el grifo, o colocar la basura en la lavadora que T usa; 3) Cuando T se cubre por la noche con la misma manta, basta sólo orinar en aquella parte de la manta que toca la cara de T; 4) Cuando T va al cuarto de baño, abrir la puerta principal de T; 5) Cuando T se duerme, abrir la puerta principal; 6) Si T trata de mirar la TV, asumir el control remoto, encendiendo y apagando la TV rápidamente y cambiando los canales, unos tras otros. 7) Cuando T vuelve a su residencia, empezar el acoso por teléfono fijo y luego por teléfono celular en el momento en que T entra en su casa; “OCHO”: Manipular objetos particulares que T toca e usa en su casa o coche, cambiar su disposición y destruir los efectos personales (como el hilo dental) que T toca en un día preciso; 9) Observar a T en tiempo real

para hacer modificaciones de los tipos de acoso y de su intensidad. —Cuando T intenta cubrir paredes o techo para conseguir intimidad, entrar y derribar la cubierta. —poner drogas en la comida de T con los objetivos siguientes: 1) eliminar libido e interrumpir funciones corporales normales; 2) Obligar a T a dormir; 3) Impedir a T dormir; 4) provocar cambios bruscos de humor . —Enviar a colaboradores para insultar a T o burlarse de él después del envenenamiento. —Si T deja de comer en casa, poner droga o bacterias en su comida en restaurantes. —Enviar a colaboradores para poner a prueba el carácter de T, hacer balance de la situación y provocarle a T con incidentes repetidos de maltrato verbal y de hecho. —Enviar a colaboradoras para involucrar a T en una conversación en donde una de ellas repentinamente para el discurso y huye de T. —Pedir una suscripción al nombre de T a las revistas Chef Magazines . —Colocar objetos femeninos rosados (como bragas) en los efectos personales de T. — Usar los servicios de policía local por todo el mundo a fin de establecer operaciones encubiertas que son fraudulentamente concebidas e ilegalmente realizadas contra T, con el fin de obtener una base para acusar a T de un delito civil o criminal. —Repetidamente etiquetar a T como una persona con mente desequilibrada. —Reforzar la toma de conciencia de T de sus disfunciones corporales haciendo lo siguiente: 1) Retirar la conexión macho del cargador de baterías de la máquina de afeitar o teléfono celular; 2) Desconectar el intermitente del coche, de modo que cuando T toque el dispositivo, esto se cae de su posición y queda sólo sostenido por el hilo eléctrico; 3) Dejar símbolos fálicos en el coche de T de vez en cuando. —Si T busca tratamiento para una enfermedad de alguna clase, notificar al doctor o al dentista y a los guardas de seguridad que T está bajo investigación y es un desequilibrado. —Comenzar un programa de respuestas condicionadas diseñado para castigar a T por ciertas actividades, como: 1) Pedir ayuda al Congreso 2) Visitar la Biblioteca de Derecho 3) Discurso Social.4) Relajación. -Seguir e intensificar acciones terroristas sin interrupción: 1) Poner cucarachas vivas en la comida del refrigerador; 2) Romper, robar, o destruir las cremalleras de los pantalones y cortar los lazos de modo que no sean utilizables ; 3) Si T tiene a una compañera en su habitación, envenénala y deje un recordatorio a T que él es la causa para su sufrimiento (por ejemplo, coloque los talones de los zapatos de T en los dedos del pie de los zapatos de la compañera ); 4) Si T intenta relacionarse con amigos potenciales, manipular los coches de estos amigos para hacer que ellos eviten a T; 5) Seguir a T en los cines, restaurantes, u otros sitios públicos a fin de hacer una apreciación de la situación y de coleccionar artículos o información que pueda ser usados contra T, al día siguiente o al mes siguiente. Si T come en el Hotel X, colocar una cajita de cerillas, o una pluma del Hotel X en el coche de T, o entre las sábanas de su cama ; Si T ve una película con una escena de suicidio con el cuchillo, entrar en su piso y poner un cuchillo de carnicero en una posición rara y provocativa , para que T lo note en su vuelta de la película. —Manipular las cuentas de T con los métodos siguientes: 1) Cerrar algunas cuentas; 2) Cambiar la dirección en algunas cuentas; 3) Sugerir falso cambio de dirección a los Correos de los Estados Unidos; 4) Usar la tarjeta de crédito de T ilegalmente para pagar servicios\*. \* Para ver las pruebas de esto ver el Mandato judicial de Sosbee, página a26 (hacer click aquí). — Manipular el coche de T extensivamente, para utilizarlo como instrumento de la técnica de respuestas condicionadas: Manipular el panel de control electrónico de las temperaturas, de modo que un ajuste por T en 60 grados sea reinicializado para leer 90 grados, y de modo que un ajuste manual por T en “off” sea reinicializado para leer Bajo, Medio, o Alto, según el nivel del castigo que T puede esperar recibir pronto. —Incapacitar el coche de T acuchillando neumáticos, haciéndolos desinflar y salir del aro de la rueda; colocar agua en el tanque de gas; encender las luces de aparcamiento o las luces interiores; sustituir fusibles y bombillas nuevos por otros utilizados. (Haga clic Aquí Para Informes de Policía. Ver también la página A-26 del mandato judicial para el relato de la policía sobre el acuchillamiento del neumático.) —Amenazar a T con regularidad colocando pedacitos de parabrisas roto en el asiento del conductor de su coche y reinicializando repetidamente el panel de temperaturas para leer 90 grados y “Alto”; enviar a colaboradores para continuar la conversación al alcance del oído de T, de modo que hablen de incitaciones al suicidio (u otras alternativas); enviar a colaboradores para hacer medias vueltas abruptas en el tráfico con la luz de señales de emergencia acendida.. —Parar hostilidades un día o dos a fin de evitar la adaptación (defensa psicológica). La presión implacable e insidiosa sobre T por los atormentadores es generalmente eficaz hasta el punto de que T está agotado de estar alerta de las tácticas siempre variables que son usadas contra él, día y noche. Sin embargo, con cada nuevo cambio de rumbo de las acciones del terrorista, T cumple con su convicción de que los malhechores en este mundo son representantes simplemente despistados de una especie (por otra parte noble) de habitantes en esta buena tierra y que la llave vital a nuestra supervivencia individual y colectiva y a la prosperidad es nuestra capacidad de reconocer y enfrentarnos con los desafíos físicos e intelectuales presentados a nosotros para que encuentren una solución.

Espero que esta información pueda ayudar a salvar la vida de personas que necesitamos en este mundo, por intensos que sean los ataques que padecen.

Con mis mejores deseos  
Gerald Sosbee

#### “My Story In Detail” First Posted October 15, 2000

Meine Damen und Herren,

mein Name ist Geral W. Sosbee und ich bin ein ehemaliger Spezialagent des FBI (federal bureau of investigation), Staats-Justizministerium. Ich fordere, dass Ihre werten Ministerien diesen Brief inklusive Anlagen annehmen und dass Sie freundlicherweise die Informationen hierin weiterleiten zu den Kollegen in der Regierung, zu Ihren Repräsentanten und zu Bildungszwecken Ihren Vereinigungen zu Hause.

Meine gegenwärtige Zielsetzung ist, die Aufmerksamkeit auf das FBI und das CIA hinsichtlich ihrer gängigen Praxis des Zielens auf zum Tode bestimmte Einzelpersonen zu lenken, die Menschenrechtsverletzungen durch diese zwei Agenturen herauszustellen; sowie die weiteren Einzelpersonen, auf die das FBI oder die CIA ein Auge hat, wie politisch verwendbare Gegner (in einer korrupten Staats-Agentur oder Polizei), auf die ähnlich gezielt werden könnte. Ich bin betrübt, beim Blick auf den Bericht über FBI und CIA Verstöße und bleibe optimistisch und gestärkt durch die Erkenntnis, dass ich die letzten acht Jahre in der Quälerei überlebt habe (so vor März 2006) und dass ich jetzt dadurch die Gelegenheit habe, meine Erfahrungen mit anderen zu teilen und vielleicht auf irgendeine Art unterstützen kann.

Wie die Zusammenfassung der folgenden Ereignisse zeigt (und die völlig dokumentiert sind in meinen Gerichtsarchivierungen), engagieren sich Agenten und Detektive des FBI und der CIA (und auch manchmal Mitglieder der breiten Bevölkerung), gelegentlich in einer subtilen Form von mörderischem Verhalten zum persönlichen Gewinn, in heimlichen Verbrechen, um politische Kritiker zum Schweigen zu bringen oder anderweitig, neutralisieren sie konkrete Einzelpersonen, die versuchen über den groben Machtmissbrauch und über mögliche Verbrechen gegen die Menschlichkeit, von FBI und/oder CIA zu berichten.

Meine Regierung und die Medien in den Vereinigten Staaten wissen von meinen Behauptungen und sind nach Erhalt des reichlichen Beweismaterials, bereit meine Ansprüche zu unterstützen. Ich etablierte in den Aufzeichnungen, dass das FBI und die CIA korrupt sind, dass der US-Kongress und die Gerichte bis jetzt feige versäumten, die Korruption zur Sprache zu bringen, und dass die amerikanische Bevölkerung im Allgemeinen über das Ausmaß dieses Problems ahnungslos ist. Die Vereinigten Staaten sind nicht alleine in solcher unzumutbaren Führung (wie weiter unten beschrieben), ebenso beteiligten sich angeworbene Personen aus anderen Ländern an den Menschenrechtsverletzungen, wenn das FBI oder die CIA die Notwendigkeit dazu sah. Jede andere Nation, die mit Taktiken zusammenarbeitet, diese verzeiht oder unterstützt, wie sie in diesem Schreiben dargestellt werden, ist ungeeignet, irgendeine andere Nation in Bezug auf Menschenrechte und humanitäre Rechte zu führen oder zu beeinflussen.

Die Verwicklungen in eine solch traurige Lage der Dinge, sind in der Tat störend für den sensiblen Intellekt und wohlwollende Personen, besonders in Bezug auf die Notwendigkeit von Frieden in der Welt. Die Kampagne des Terrors, wie unten beschrieben, ist typisch für die weltweit verwendete Methodik von ähnlichen Anstrengungen und kann einen allgemeinen Verfall der sozialen- und wirtschaftlichen Gerechtigkeit auf der Welt erahnen lassen. Diesem Brief beigelegt, sind meine geschworenen Aussagen, mein Brief an Menschenrechtsverfechter, meine Briefe an Polizeidienststellen, mein Inserat in der Hollywood Reporter Magazine (August 2000, Sonderausgabe, Seite 133), mein Appell an das United States Gericht für Berufungen und der Brief des Kongressabgeordneten Abercrombie’s an das FBI. In den folgenden Seiten, gebe ich einen Überblick über die verwendeten Techniken der Versuche des FBI (und der CIA), mich durch beauftragte Verbrechen gegen Amerikaner und gegen die internationale Gemeinschaft zum Schweigen zu bringen. Ich hoffe, dass diese Informationen anderen potenziellen Opfern von ähnlichen Angriffen durch Nachrichtendienste helfen können, welche die verdeckten Stoßgruppen verwenden (häufig bezeichnet beim FBI als Idioten-Gruppen). Ich sehe mich privilegiert, Ihnen das Material vorzulegen, weil ich überzeugt bin, dass Ihre Leute von den Darstellungen

profitieren. **Als das Ziel der FBI- und CIA-Idioten-Gruppen, bezeichne ich mich selbst im unteren Teil als T.**

Von etwa 1998 bis jetzt, verfolgte das FBI (und die CIA in der Dominikanischen Republik, Japan und Thailand) eine ununterbrochene Kampagne, konstruiert um T zu neutralisieren (um deutlich direkt) ihn zum Wahnsinn zu treiben (oder letztlich ins Exil, zur Desertion oder zum Selbstmord), mit folgenden angewendeten Taktiken:

- Initiierung oder Wiederholung einer offiziellen Untersuchung gegen T.
- Mitteilung an T's Freunde, Verbindungen und Kontakten, dass gegen T eine Untersuchung läuft.
- **Verteufelung T's in der Gemeinschaft, besonders bei Ärzten, Zahnärzten und Mechanikern.** (Verwendung von medizinischen und dentalen Verfahren wie bei Vasektomie und Wurzelkanalbehandlungen als Gelegenheit, um T. terroristischen Drohungen und körperlicher Folter auszuliefern)
- Isolation und Ausgrenzung von T überall wo er hinging, durch extensiven Rufmord.
- Hindern von T an Anmietungen von Plätzen, um dort zu leben.
- Wenn T versucht in seinem Auto zu schlafen, teilen Sie dies den lokalen Behörden mit.
- Beschaffung von falschen geschworenen Aussagen gegen T durch zwei Frauen zur Unterstützung einer betrügerischen Zivilverpflichtungsanordnung, die von einem korrupten staatlichen Richter unterzeichnet wurde. (Wie auch am 30. September 2005, glaubt T dass das FBI und das US-Ministerium, zu Unrecht Bundesrichter oder Friedensrichter des Bundes benutzte, um betrügerische Zivilpapiere gegen T zu beschaffen. [Sehen Sie Teil 10 „Meine Geschichte im Detail“.](#))
- Wenn T flüchtete, gaben Sie ihn als internationalen Flüchtling vor der Justiz und als Bedrohung der öffentlichen Sicherheit aus. Sehen Sie den Beweis hierzu, unter Sosbee's Verfügung, [Seite a18. \(Klicken Sie hier, um die Boeing Corp.-Vorstellung von Sosbee als Flüchtling zu sehen.\)](#)
- Vorspielen einer umfassenden elektronischen und körperlichen Observation von T in seinem Zuhause und in seinem Auto mit simultanen Invasionen in seine Räume und sein Auto.
- Um sicherzustellen, dass T versteht, dass er in jeder Ecke seiner Wohnung (und in seinem Auto) überwacht wird, taten sie folgendes:
  - 1) Teilelemente der Küche und der Esstisch wurden wieder in den Zustand zurückversetzt, wie sie waren, bevor T sie am Vormittag umstellte;
  - 2) Wenn T Kleidung in eine Wasch-/Trocknereinheit der Gemeinschaftsräume legte, drangen sie dort ein und drehten das Wasser auf oder platzierten Abfall in die Wasch-/Trocknereinheit die T benutzte;
  - 3) Wenn T sich nachts mit der gleichen Decke zudeckte, urinieren sie nur auf den Teil der Decke (mittlerer Rand) der sich über T's Gesicht erstreckt;
  - 4) Wenn T in das Badezimmer geht, öffnen von T's Haustüre;
  - 5) Wenn T in den Schlaf fällt, öffnen der Haustüre;
  - 6) Wenn T versucht Fernzusehen, übernehmen Sie die Fernsteuerung, wechseln die Kanäle und schalten den Fernseher an und aus in schneller Reihenfolge.
  - 7) Wenn T nach Hause kommt, beginnt eine Telefon- und Handybelästigung in dem Moment wenn T sein Heim betritt;
  - 8) Sie machen sich an Gegenständen zu schaffen, insbesondere die T berührte oder benutzte im Haus oder im Auto und ordnen sie neu oder zerstören persönliche Gegenstände (wie Zahnseide), welche T an einem gegebenen Tag dann berührt;

9) Observierung von T in Echtzeit, um die Art und Intensität der Belästigung anzupassen.

- Wenn T versucht, Schutzwände oder Abdeckungen anzubringen, um sich etwas Privatleben zu leisten, dringen sie ein und reißen die Deckungen herunter.

- Untermischen von Drogen in T`s Nahrung, zu folgenden Zwecken:

- 1) Eliminieren des Libido und unterbrechen von normalen körperlichen Funktionen;

- 2) Zwingen T zum schlafen;

- 3) Hindern T am schlafen;

- 4) Verursachen Stimmungsschwankungen bei T.

- Senden von Arbeitern die T verspotten oder verhöhnen, mit folgenden Vergiftungen:

- Wenn T aufhört zu Hause zu essen, mischen sie Drogen oder Virusbakterien in T`s Essen in den Gaststätten.

- Senden von Arbeitern, um T`s Stimmung abzuschätzen und provozieren T durch wiederholte Vorfälle von Angriffen und Tötlichkeiten.

- Senden von weiblichen Arbeitern, um T in ein Gespräch zu verwickeln, in dem sie abrupt die Unterhaltung beendet und von T weg läuft.

- Bestellen eines Abonnements in T`s Namen von Chef-Magazinen.

- Einbringen von rosafarbenen und weiblichen Gegenständen (wie Schlüpfen) in T`s persönliche Inhalte.

- Nutzung der lokalen Polizeidienststellen überall auf der Welt, um betrügerische Vorstellungen zu veranstalten und illegal ausgeführte versuchte Sting-Operationen gegen T, in den Bemühungen eine Basis zu erhalten, um T eine zivilrechtliche oder kriminelle Straftat aufzuladen.

- Wiederholtes klassifizieren von T als jemanden mit labilem Geisteszustand.

- Verstärken der körperlichen Funktionsstörungen in T`s Bewusstsein durch:

- 1) Entfernung des Ladegerätenteils vom Rasierapparat oder vom Handy;

- 2) Entfernung des Umdrehungssignals des Automobils, damit wenn T die Vorrichtung berührt, sie aus der Position fällt und nur durch eine elektrische Schnur gehalten wird;

- 3) Gelegentliches hinterlassen von phallischen Symbolen in T`s Auto.

- Wenn T Behandlungen für Krankheiten irgendeiner Art aufsucht, erhalten der Doktor oder Zahnarzt und Sicherheitsbeamte die Mitteilung, dass gegen T eine Untersuchung läuft ist und er labil ist.

- Einleiten des Konditionierungs-Reaktions-Programms, entworfen um T für gewisse Tätigkeiten zu bestrafen, wie:

- 1) Bitten des Kongresses um Hilfe;

- 2) Besuchen der Gesetzbibliothek;

- 3) Gesellschaftliche Unterhaltung;

- 4) Entspannung.

- Fortsetzen und verstärken von terroristischen Aktionen ohne Unterbrechung:

- 1) Einbringen von lebendem Ungeziefer in T's Nahrung im Kühlschrank;
- 2) Zerreißen, entwenden oder zerstören der Reißverschlüsse in T's Hosen und durchgeschnittene Krawatten, so dass diese nicht mehr tragbar sind;
- 3) Wenn T eine Zimmergenossin hat, vergiften sie sie und hinterlassen einen Fingerzeig für T, dass er die Ursache für ihr Leiden ist (d.h.: platzieren der Absätze von T's Schuhen auf die Zehenspitze der Schuhe der Zimmergenossin);
- 4) Wenn T versucht, mit potentiellen Freunden zusammen zu sein, hantieren sie an deren Autos herum, um sie zu veranlassen T zu meiden;
- 5) Verfolgen von T in Kinos, Gaststätten oder andere öffentliche Plätze, um zu kalkulieren und um einzelne Punkte oder Informationen zu sammeln, die gegen T am nächsten Tag oder im nächsten Monat verwendet werden können: Wenn T in Hotel X isst, platzieren einer Zündholzschachtel oder eines Stiftes von Hotel X in T's Auto oder unter dem Laken von T's Bett; Wenn T einen Film mit einer Selbstmord-Szene mit Messer sieht, dringen sie in T's Einheit ein, postieren ein Metzgermesser in einer merkwürdigen und zweideutigen Position mit dem Handgriff nach oben und so heraus, damit T es nach seiner Rückkehr vom Film beachtet.

- Herumpfuschen an T's Konten durch folgende Methoden:

- 1) Schließen mancher Konten;
- 2) Ändern der Adressen auf einigen Konten;
- 3) Einreichen falscher Adressenänderung an die United States Post Geschäftsstelle;
- 4) Ungesetzliche Benutzung von T's Kreditkarte um Services aufzuladen\*. \* [Den Beweis sehen Sie unter Sosbee's Verfügung, Seite a26 \(klicken Sie hier\).](#)

- Hantieren umfassend an T's Auto herum, besonders als Teil der technischen Konditionierungs-Reaktion:

Pfuschen an der elektronischen Temperaturkontrolltafel herum, damit eine Einstellung durch T bei 60 Grad, zurückgestellt wird als 90 Grad zu lesen ist und somit eine manuelle Einstellung durch T nach ausschalten zurückgestellt wird, als Schwach, Mittel oder Hoch zu lesen, abhängig von dem Niveau der Bestrafung die T erwarten kann, bald zu empfangen.

- T's Auto unbrauchbar machen, durch zerschnittene Reifen, verursachen die Ablösung von den Rädern; geben Wasser in den Benzintank; schalten das Parklicht oder die Innenbeleuchtung ein; ersetzen neue Sicherungen und Birnen durch kaputte alte. [Klicken Sie hier zu den Polizeiberichten](#) auch auf [Seite a26 der Verfügung des Polizeiberichts über das Zerschneiden der Reifen](#).

- Bedrohen T regelmäßig, mit zerbrochenen Windschutzscheibenstücken auf dem Fahrersitz in T's Auto und indem Sie wiederholt die Temperaturanzeigentafel zurückstellen, um 90 Grad und höher zu lesen; schicken Arbeiter, um Gespräch innerhalb des Hörbereichs von T zu führen, in denen Vorschläge zum Selbstmords (oder andere Alternativen) erörtert werden; schicken Arbeiter die plötzliche Kehrtwendungen in der Verkehrsleitung durch Gefahrenlichter herbeiführen.

- Unterbrechen die Feindseligkeiten für ein oder zwei Tage, um eine Gewöhnung an die Situation zu verhindern (eine psychologische Abwehr).

Der unbarmherzige und kalkulierte Druck auf T durch die Peiniger ist im Allgemeinen wirkungsvoll, in dem Umfang dass die Existenz von T erschöpft ist an Schutz und alarmiert durch die ständig wechselnden Taktiken, die Tag und Nacht gegen ihn angewendet werden. Dennoch, mit jeder neuen Neigung der terroristischen Aktionen, bleibt T davon überzeugt, dass die Übeltäter in dieser Welt einfach konfuse Repräsentanten einer anders noblen Spezies von Bewohnern auf dieser guten Erde sind und dass der lebenswichtige Schlüssel zu unserem individuellen und kollektiven Überleben und Wohlstand, unsere Fähigkeit ist, die körperliche und intellektuelle Herausforderung

zu erkennen und ihr gegenüberzutreten, präsentiert durch unsere Entschlossenheit.

Ich hoffe, dass diese Informationen helfen können, die Leben der Menschen zu retten, welche sich das Ziel setzen wie es sein könnte, wir brauchen sie in dieser Welt.

Beste Wünsche und respektvoll übermittelt von

I feel that there is one way we could prove we are being subjected to Directed Energy Harassment.

One who is being subjected to this I feel would have an abnormally high level of radiation in their body. There must be some way to test for this. If it turns out one does have an abnormally high level of radiation in their body likewise it should be quite easy to trace down where it is coming from. Don't you agree? I would like your comments and feedback.

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I'll try to make this short and simple.

For the past ten years I've been targeted by a remote group of independent contractors. Basically they were and are having fun doing it and are getting paid.

For what reason I haven't a clue but I've been through hell and back from lice to worm to scabies you name I thought I had it.

Now I know that it's hard understand let alone believe but it's still happening me so if Americans can do this to there own people, Then we are no longer the United States of anything we don't deserve what our founding forefathers fought for, at all.

To Whom It May Concern:

Please accept this testimony and brief case summary of the torture I have experienced from the phenomena of Organized Stalking and Covert Electronic Weaponry Assaults. Please include this testimony with other similar complaints from world citizens regarding the covert abuse of these tactics and technologies. We seek your help in putting an end to these sadistic atrocites, by investigating, revealing and prosecuting the perpetrators of these inhuman abuses.

I am personally unaware of the identities of those who are the official organizers of these crimes; however, because of the seeming extensive prevalence and resources of the organized groups in society who carry out these crimes for their leaders, it is my suspicion that government agencies, and their funding, are involved.

The following testimony has also been submitted to Deborah Kennedy, an affiliate of FFCHS in the U.S.A., in the hope of an impending lawsuit to get to the bottom of the nature and motive for these heinous crimes being perpetrated across the globe.

Included in this testimony is a file attachment of my current health record. This is included only to attest that, for all intents and purposes, and in consideration of the circumstances, I am sound in mind and body and under no influence to fabricate or imagine the contents of my testimony.

These activities of electronic torture, abuse and experimentation, and organized stalking, are crimes against humanity, and we urgently need your humanitarian and legal assistance.

My name is Paul Sylvester Stayton, a citizen of the United States of America, and I hereby declare that the testimony I am now giving is the truth. I am willing and able to testify under oath as to the truth of this testimony.

In this testimony I shall describe what I believe to be an intentional and organized effort, perpetrated by as of yet unnamed persons or groups of persons, to destroy my health and my life. These persons or groups of persons are perpetrating this criminal activity against me by using electronic weaponry and covert organized stalking tactics against me.

At this time I can say that there are at least three different overall sensations I have experienced concerning these electronic attacks, having experienced them either simultaneously or as isolated sensations. I will describe these sensations more fully later in this testimony.

Whenever I mention the term “microwave”, “electronic”, “electric current”, or in other form or description, I am to the best of my knowledge referring to the overall sensation as an electronic attack upon my person from an outside source. For the purpose of some estimation of understanding and clarity, I am describing the electronic attacks that I have been experiencing as “microwave” or “electronic” attacks. This is the best I can do at describing the tactile sensation of the attacks. I have no technical expertise on the subject of microwave technology, or other electronic technology that one can utilize, using present-day technology, to inflict harm upon another human being. I can only describe the sensations that I have experienced as a victim of these abuses—abuses that I am still experiencing to this day. The technology may well be infra- or ultra-sonically related; but for the purposes of this testimony, I believe the terms “microwave” or “electronic” will suffice.

My most recent ordeal began in full force in the beginning of September, 2012, in Sacramento, CA., at Mather Community Campus, a transitional-housing/employment program run by the Volunteers of America Sacramento chapter.

The first time I had actually realized that I was being intentionally targeted for electronic attack was in 2001. In 2002 I procured a job with a traveling carnival ride crew—a job which I held for a few years—and I was not in one particular place at any one time for longer than a month or so. I was therefore not as vulnerable to the unique setup I believe is required for the covert groups who perpetrate this crime of electronic abuse to corral and isolate their victims and render them as devastated and destitute as I am now.

Last year in 2012, while I was at Mather Community Campus, for a couple of months prior to the day the microwave attacks and group stalking and harassment began, I had experienced a negative relationship with the man in the studio apartment next door to mine. His name is Lenny; I don't know his last name. The problem was that he would infrequently smoke cigarettes in his apartment, a prohibited activity on campus. I reported him to the staff and I believe he became incensed over that. His behavior and that of certain others on campus became, as I see in retrospect, unusually standoffish after that incident. At first he had confronted me and insulted me, but he soon backed off. I can only speculate that this event had something to do with the subsequent microwave attacks, since I have no proof. The only reason I believe the two events are related is because I had had no other negative confrontations on the campus site.

On September 1, 2012, I awoke at 3:00 AM to an extremely unpleasant sensation. I thought I heard someone walking on the roof above me. Then I felt some kind of electric current of pressure on my body. The pressure was so intense that it felt like my bed was vibrating. My entire head and upper body were being bombarded by some kind of electric or electromagnetic emission. The attack caused uncontrollable tremors and muscular twitching, and an intense vibrating pressure upon my body. The sensation became so unbearable that I had to jump out of bed and move away from the area. I was unable to locate where the source of the electric current was originating; it felt like everywhere that I stepped I was bathed in some kind of electric current. I was no longer able to sleep, and I paced the room until sunrise, trying to avoid the electronic attack.

I had experienced the very same sensation in 2001, when I was living in a Tenderloin hotel in San Francisco, the Aldrich Hotel on 439 Jones Street. After some weeks of this abuse I had to permanently move from the hotel, and I eventually left the city, because whatever group was attacking me with this electronic device was also stalking and following me everywhere I went. In 2001, however, I was younger and still employable and was eventually able to procure employment as a “carny” in a traveling carnival ride crew. This is why I never tried to pursue the meaning of what I had considered a “strange” experience that would probably not be believed if I were to tell someone about

it. So, I just counted my losses and my blessings and moved on, hoping to put this strange experience behind me.

But when this phenomenon started again last year, in 2012, I was at an impasse, because I had no such prospects for relocation. I was stuck at Mather Community Campus with no money, no prospects, and no contacts.

On the day following the first microwave attack, when I went out on the campus grounds, I was immediately approached by a man whose name I didn't know who came up and asked with a grin, "So how are you feeling?" I looked at him, bewildered that he should ask me such a thing out of the blue with a big grin on his face, especially considering what I had just experienced. I answered, "Not too good." Immediately a group of people who were hanging out nearby started laughing. One woman among them was actually cackling like a witch. It was unnerving to say the least. I looked over to them and they looked back at me and just kept laughing. It was an incredibly unnerving and intimidating situation.

From then on, every time entered my apartment I was bombarded with the same unbearable electric current, or beam of energy. I was unable to sleep at night for more than two hours at a time. And every day around the campus people would walk up to me and either laugh at me or make some kind of dubious or ambiguous remark, as though I was the butt of some inside joke. I would constantly be laughed at by small groups of people that I passed on the way from one place to another on campus. One woman actually spat on the ground in front of me as I passed her.

What was really shocking to me was that a couple of the men there who had previously shown me nothing but respect and friendliness started in with me as well. Because I had kept to myself since the first day I arrived on campus, I didn't know many people's names. But these two people whose names I did know must be mentioned here, because their sudden shift in behavior towards me was shocking to say the least.

Brent Roman, who by all appearances was always a very charismatic and friendly person towards me and everyone else on campus, approached me in the dining hall that day and looked at me and spelled out the word "U-G-L-Y." Then he laughed at me and walked away. From that day on, Brent would frequently approach me on campus and simply laugh at me. I'm talking about just laughing out loud, as though I was the butt of a joke, as though I was a pariah and a fool and he was mocking my helplessness. It was unnerving and traumatizing to have this man—who had previously shown me only friendly respect—showing me now only despicable malice. It appeared as though he was making a point of showing up wherever I went on campus, just to get close enough to me to have a laugh at my expense.

Andrew Winter was another man who also immediately turned on me, after five months of seemingly friendly behavior. On the day after the first electronic attacks he said as I passed him on campus, "Love is gonna cut you down." I looked right at him and he was looking right at me when he said it. As with Brent, Andrew continued to behave toward me in a very unsettling manner from then on. For the entire five months I had been staying on campus before the attacks started, he had never shown me the slightest untoward or dubious behavior.

These two men were the only persons among those who were harassing me whose full names I actually know.

Almost every day thereafter I was subjected to mockery and malicious laughter by various people on campus. I would pass a group and they would suddenly all start guffawing as soon as I passed them. This happened so many times that it could not have been chance or a misunderstanding. For the first few days after the electronic attacks began, the confusion and displacement I felt because of this constant mockery disabled me from figuring out that this was all part of the overall attack upon me. I became extremely agitated and felt completely ostracized and isolated from any help.

But as time went on, the conspiracy became all too clear. However, every time someone behaved this way towards me—in an extremely duplicitous and sinister way—it was always arranged so that it would be my word against theirs if I were to complain about it to staff. The mockery was never implemented in a spectacular way—as though to show off or exaggerate their actions—and it was always implemented in my immediate vicinity, so as not to draw attention from anyone but me. This caused me to hesitate about mentioning this aspect of the abuse. The mockery was done in such a way as to make it apparent that they could easily say they were engaging in innocuous laughter that had nothing to do with me.

And every day and night that I was in my apartment the microwave attacks continued.

After the first few days of this unrelenting torture I decided to make a formal complaint to the Campus staff. I went to see Marianne, one of the senior staff. At the time I was under such stress and confusion that I didn't want to start pointing my finger at everybody on campus; since I had always kept to myself, I actually didn't even know the names of most of the people who were mocking me during the day. That, added to the fact that I was a physical mess because of the sleep deprivation and the abuse from the microwave attacks, made this meeting a very nerve-racking event. Here is the complete formal letter of complaint I gave her:

Message for Mather Community Campus Staff—from Paul Stayton

September 12, 2012 10594 Peter A. McCuen Blvd. #325

Two weeks ago a terrible experience recommenced in my life that I had thought was gone forever. As you may recall, I had some minor altercation with the man in #323 because of some cigarette smoking. After a few conversations with staff, it appeared that the problem was alleviated. I'm simply not the kind of person who goes around starting trouble for people. I prefer to keep to myself and, though I sincerely detest having had to endure the personal anguish of being compelled to attend "soft skills" classes (no joke there), I have not had any other disagreement or altercation with another person on the Mather Campus. I bring this up for a good reason; I'll get back to it.

About two weeks ago I was awakened at around 3 AM by some noises on the roof above my room. It sounded like people walking around up there. Then I noticed a vibrating sensation around me which was identical to the sensation I experienced years ago, and which nearly destroyed my life: it feels like some kind of electromagnetic pressure on my body; it gives a creepy-crawly feeling when it passes over my skin and causes the organs and muscles to twitch and palpitate until it centralizes at my heart and head and causes me intense pain and palpitations. I knew immediately that I was being subjected to the exact same attack that I fell victim to years ago. Since that night two weeks ago the attacks have not let up.

It makes it impossible for me to sleep and has caused me to suffer constant and severe heart palpitations. It is plain and simple TORTURE. I am in terrible shape now because of past years of this abuse, and I can't take any more at this point in my life. If I get up it follows me around the entire room, as though the perpetrator of this attack on my person knows my every move. For the past two weeks this has been non-stop for every waking moment that I am in my room. It's coming from every direction.

The best I can explain the sensation is this way: a rolling, vibrating tremor that targets my body and then centralizes on my heart after a couple of seconds. But in that couple of seconds while it's moving across my body it twitches and palpitates other organs and muscles just like an electric shock would. It also seems to me that the device being used doesn't have any great range, since it's never excruciating (so far, anyway) when I'm out in a big open space where I can see everything. But it's possible that someone can conceal the device and sit as close to me as they can get and attack me when I'm outside of my room, which is also happening. It's as easy as pressing a button.

I know this sounds insane; for the years that it had happened in the past I was unable to convince coworkers and apartment managers alike. I understand how crazy this sounds; but I assure you I can prove my sanity with any exam chosen for me. I can see there is simply no way that I can prove what I'm telling you. I'm not being paranoid, and I've done my very best to think this through. I have no other recourse but to tell you what I'm experiencing. I am in grave danger, but I assure you I'm being level-headed about it.

I cannot be 100% sure, but I believe that the man in #323 is complicit in this attack against me. And I believe that he's not alone. I simply don't know how to go about this in any other way except to just come out and tell you. I don't know how in the world they got their hands on the kind of devices with which they're attacking me.

This particular circumstance is different from the attacks of the past. In years past, the perpetrators of this filthy, illegal attack never got close enough to me personally in order for me to make any substantial assessment of the situation. I had no idea who was attacking me. This time all the recent occurrences are too telling to be a coincidence. I believe #323—and guest—are involved in this illegal attack, as are others, of whom I am still unsure. I know it's a bunch of them. It might possibly be some more recent move-ins to the campus. It is certainly an ORGANIZED effort that's involved.

At the very least, you must consider the plausibility of this message, which I have no choice but to give you. These

horrible cretins are trying to destroy me. For reasons unknown to me, certain electronic, electromagnetic, and/or microwave devices have gotten into the wrong hands; whatever. I won't be fool enough to attempt to explain how it's possible that they're doing this. All I know is the effect of what is being done to me, and I know I'm not the only person in the world who has experienced this. I'm being attacked right through walls and ceilings. Certain aspects of the modern technology of weapon design have obviously been kept under wraps from the general public. I hate to sound like one of those conspiracy nuts, but this is ME here. I'm getting attacked, and it's coming from an outer source.

For all I know, the entire campus, staff and client alike, is in on this. But I can't believe this; I've witnessed at least a sampling of apparently genuine and considerate people who aren't here merely to give lip service. All I can tell you is that what I described above is the absolute truth, and that I need help extinguishing it immediately. I repeat: I'm not crazy. If I am forced to leave here because of these obscene invasions upon my person and privacy, I simply have no place to go except back to the shelters—where I know I'll be followed. There seems to be no end to the resources of these terrorists. I have nowhere else to go except the FBI—which is, by the way, where my next message is headed if there is nothing you can do to help me.

The problem is, and always has been thus far in my life, that the good people—the *sincerely* good people—never have the capacity to believe what I'm telling you now. They can't accept that this kind of horrible thing can happen right under their noses.

I know that whatever conclusion you draw from this, and whatever decision of action you will make, will for once enable me to shed some light on this blight in my life. What I don't know is how much longer I can survive these attacks.

Marianne spoke with me for about a half-hour after she read the letter as I sat there, and she finally politely explained that my story was not credible. She suggested that I speak with Tom Crouse, a case manager on campus who is also a clinical therapist. She also requested that I take a drug and alcohol exam. I told her that I would be happy to speak with anyone and submit to any test or exam as long as it would help to reveal who was responsible for the crime and to end the attacks against me. At that time I requested an apartment change on campus. I submitted to a drug & alcohol exam and tested negative for any substance use.

The staff did not grant me an apartment change at this time; nor did I receive any information regarding an appointment with Tom Crouse. The attacks and the organized harassment tactics continued unabated for several days, until I felt I had no choice but to contact the FBI—as I had specified I would in the letter to the staff. I felt then as I do now: that my life was in danger in a very covert a sinister way. I went to the FBI headquarters in Sacramento, out of desperation, with this formal letter of complaint:

Letter to the FBI 9.22.2012

Paul Sylvester Stayton

Address: 10594 Peter A. McCuen Blvd. #325, Mather CA 95655.

I am currently staying at Mather Community College, near Sacramento, a transitional housing/employment program run by the Volunteers of America. I have no phone.

I have already sent an online message similar to this to the FBI website contact listing.

I would appreciate your help regarding a crime that's being committed against me that I'm unable to stop or convince anyone of the truth of it. Please understand that I am perfectly aware that what I'm going to tell you sounds outlandish, but I'm not crazy or on drugs or alcohol, and I have no history of mental illness.

I'm being targeted and physically attacked by a group of persons who, unbelievable as it sounds, are doing this to me while I am alone in my studio apartment, room #325. It's on the 3rd or top floor of a studio complex on campus. Last year I lost my job and I'm obviously going through some hard times. I keep to myself and don't bother anyone.

I have absolutely no idea how these persons have gotten hold of the kind of electronic devices that enable them to attack me this way:

It feels like some kind of electric or electromagnetic wave or pressure on my body; it gives a vibrating, creepy-crawly feeling when it passes over my skin and causes the organs and muscles to twitch and palpitate until it centralizes at my heart and head and causes me intense discomfort and palpitations. I don't care anymore whether I'm believed or not; it's undeniably happening to me and I need it to end. Obviously some exotic tech weaponry—it's high-tech to me, anyway—has somehow gotten into the wrong hands, and they're bent on doing me serious harm or worse.

Again, the best I can explain the sensation of these attacks is this way: at first, it has been a rolling, vibrating wave of pressure that targets my body and then centralizes on my heart or my head after a couple of seconds. But in that couple of seconds when it's moving across my body it twitches and palpitates other organs and muscles just like an electric shock would. Of late, I am experiencing the same electric pressure but sometimes without the vibrations. I have no idea how they're doing this. All I know is there's nowhere in my apartment where it's safe once it starts up. When I go out the sensation stops. But I've also been attacked in certain public places, such as the Rancho Cordova Library. It's possible that someone can conceal the device and get up close and attack me when I'm outside. It's as easy as pressing a button. And the pressure of this device is more powerful when it isn't obstructed by a wall. However, when they get to attack me when I'm in my room, they don't let up, and it lasts for hours at a time. And I can't go around banging on doors; as crazy as what I'm telling you seems, I'm not crazy or even prone to erratic behavior.

I've spoken with one of the heads of staff here, and you can guess her reaction. The staff is respectfully incredulous, and is unable to take action since I have no proof of what is being done to me.

I'm just a guy—a musician and writer whose "day jobs" have basically run out—and I'm stuck here with who-knows-who, trying to get my act together. The average clientele here ranges from reasonably decent to downright motley. I suppose I'm somewhere in the middle.

Please help. The devices used to perpetrate this type of terrorism are known to you, I'm sure of it. Why they're being used against me, I don't know. If there is anything I can do, anyone I can speak with, please inform me immediately. If someone in a governmentally official capacity believes that I deserve to be treated this way, without any due process or publicly attested legal standing, then please inform me of my rights as a United States citizen in this matter. I'm being unlawfully targeted and abused, and I need help and information.

Respectfully,  
Paul Stayton

The FBI agent told me—after quickly reading my letter and patiently withstanding my nervous testimony afterward—that I really should seek medical help, with a rejoinder that the FBI doesn't go around torturing people, and that I'm not on any hit-list, because if they really wanted me for something they'd just come and arrest me, and that the kind of stuff I'm talking about only happens in the movies. She said that perhaps I'm hypersensitive to everyday radio waves, or maybe it's the result of recreational drugs I used in the past.

The FBI did absolutely nothing to investigate my claims or my complaint.

In the two weeks following my meeting with the FBI, I had waited, to no avail, for the Mather staff to do something about my complaints. On several occasions I asked different staff members about getting my apartment changed, but no one did anything about it. On a certain Tuesday night I had severe back pains. I have DJD (degenerative joint disease) and on occasion the pain flares up. On this particular night I had to go to bed early to rest my back, and the microwave attacks tortured me without cease until the following Thursday morning. I was unable to move out of bed from Tuesday night until Thursday morning because of the arthritic flareup, and the perpetrators of the attack took full advantage of my vulnerability. I don't know how I was able to survive, but I did; however, I was in a very debilitated condition. On Thursday morning I was finally able to get out of bed, and I made it downstairs and confronted Antonius Dean, my assigned case manager, about my ordeal. I was suffering incredibly, and I suppose it showed, because Antonius immediately contacted Scott Lippe, the campus director, and they came to me in my apartment and talked with me. I told them what was happening to me. I also told them that I had recently gone to the FBI. Scott promised me that he would see about getting me an apartment change on campus. He had Tom Crouse come and talk with me. As soon as I explained to Tom what was happening to me, he said I was delusional, and offered me a prescription for anti-psychotic medication. I was adamant about the veracity of my complaints, and told him that I was in no need of the medications he was offering. I tried, to some effect, to detail in a rational manner my complaints about my experiences to him, and he eventually acquiesced to my self-control and self-restraint and left my apartment after a promise to move me to another apartment on campus.

Once again, two weeks passed, and nothing was done.

In the meantime, I did come away from my encounter with the FBI with one idea: to get myself tested and examined in every medical way possible, to prove that there is no internal infirmity, or damage, or indication of any drugs, that might cause some kind of delusion or hallucination. I have enclosed in this report the results of every test and exam I was able to have administered to me. I have no money and no insurance, so I had to depend upon whatever exams and tests my appointed medical personnel would agree to. I volunteered for appointments with psychiatrists, and indicated to them that I am certain I am not experiencing any form of delusional behavior or mental breakdown, and insisted that they perform whatever exams upon me that would verify my certainty in the matter, or at the very least discount any assumption of internal impairment that might suggest an internal cause for delusional or hallucinatory behavior.

In Sacramento I visited the Primary Care Center, and submitted blood, urine, and fecal samples for multiple tests. I saw Dr. Onate, a psychiatrist, and explained to him as best I could what was happening to me. He was incredulous, and offered to prescribe anti-psychotic medication for me. I declined, knowing there was nothing wrong with my health that the microwave attacks were not responsible for. I insisted on more tests and examinations that would prove that I was right about my mental and physical health. Dr. Onate scheduled an appointment to have me submit to an MRI.

The attacks and harassment continued on campus and even started at the different public library branches I would go to in Sacramento and on the light rail. In short, I was surrounded, wherever I went in Sacramento County, by the electronic attacks. The abuse was both physical, in the form of electronic weaponry; and psychological, in the manner of being ubiquitous and inescapable.

After continuing to inquire about an apartment change, I was finally transferred to an apartment on the other side of the campus. As soon as I had moved my belongings and settled in, the microwave attacks immediately started up again. For the entire night until daylight I was bombarded with the same horrible radiation. I sought out Tom Crouse and told him about it. It was so deeply troubling, being compelled to speak out about this horrible abuse to Tom Crouse, especially after the apartment change, and implore him to help me get to the bottom of this, only to have him sit there with an expression of utter incredulity and patronizingly offer once again to prescribe anti-psychotic medication for me. No matter what reasonable and credible information I offered him—not only about the plausibility of what was happening to me, but also the online facts concerning verifiable technology that could be used to perpetrate this crime—he refused to take my complaint seriously or take one step toward investigating it.

Once I realized that this horrible crime of torture and psychological abuse was given free reign against me, I had no choice but to leave my campus apartment as soon as a slot opened at the Salvation Army homeless shelter in downtown Sacramento. The abuse had rendered me unable to continue participating in the Mather Community Campus program. I had to wait two months for the opening, and I endured night after night of horrible torture.

I had no illusions about being suddenly free from the torture upon entering the shelter; rather, I had no choice but to leave the campus apartment because the attacks were apparently utilized to make it impossible to properly function in any social setting designed to help improve my employability and social standing.

On the first night at the Salvation Army shelter, I was given a top bunk-bed and was subjected to the same horrible microwave torture all night long. I got almost no sleep. The next morning I requested a bed change and my assigned case manager, Mike, gave me a bottom bunk that was more towards the middle of the dorm. Suddenly, and for the remaining two months that I was at the Salvation Army shelter, the microwave attacks became much less severe inside the shelter. I believe this is because the previous bunk was near the ceiling and windows, where it is very easy to covertly direct an electronic weapon on me, and the bunk I moved to afterward was at a remove from that more susceptible area.

While I was at the Salvation Army shelter, I had explained to Mike what was happening to me, and he neither acknowledged the credibility of it nor attempted to assist me in seeking to investigate it. He did, however, hear me out, and did not intentionally place me in any situations that I might have considered vulnerable or compromising while I was there.

By this time I was getting accustomed to being refused any acknowledgment of credibility from anyone in whom I confided about the abuse.

When my two months were over I checked in at the Volunteers of America shelter, also in downtown Sacramento. Once again I was subjected to microwave attacks, but again I believe they were not as devastating as the way they were in the campus apartment because of the out-of-the-way placement of my bunk, and I was able to withstand the attacks for the few days that I was there.

I was mandated to see the case manager there, Blanche, and while I was in her office I began to experience a very severe microwave attack. I tried to explain to Blanche what was happening, but it is possible she misunderstood, and she became insulted that I was extremely agitated and abrupt. This was on a Friday evening. On the following Monday I was given a sheet of paper from the front desk clerk telling me that I had to leave the shelter. The paper merely stated that my “program was completed,” and I was given no reason, oral or written, explaining why I was being told to leave the shelter. I packed up and left.

At this point I had only one more shelter in Sacramento to go to—the Union Gospel Mission. I decided against this because the conditions at this shelter was very harsh. I decided that the best thing for me was to leave Sacramento altogether and take my chances in San Francisco. This meant I would have to forsake my upcoming MRI exam at the Sacramento Primary Care Center; but since I knew a bit about the shelter system in San Francisco, I decided that San Francisco seemed a better option for my health than to check into the Union Gospel Mission.

I took a Greyhound bus to San Francisco and immediately sought a shelter bed. For the first month in San Francisco I was at a different shelter practically every night. It was during this time that I was able to recover a little bit from the months of microwave attacks beforehand. From time to time I felt a slight attack, but I believe that I was so constantly on the move that whoever was attacking me couldn't set up a proper “base of operations,” as long as I didn't remain in one spot for an extended period of time. I did realize in short time, however, that the attacks were definitely continuing against me in San Francisco, just as they were in Sacramento.

The respite from the attacks ceased as soon as I was given an extended stay at the MSC South shelter. Within days I was bombarded with microwave weaponry, full force, every single night. It continues to this day. Some nights are less tortuous than others, but the relentless perpetration of this crime against me is literally torture. I have requested several bed changes but the attacks remain constant in whatever bed I am situated. I am also bombarded at the Main branch public library in downtown San Francisco, as well as other public places, whenever I remain in one particular area for a duration.

Although the group stalking and harassment tactics are nothing like they were at Mather Community Campus—i.e. there's no one obnoxiously getting in my face and mocking me outright—I am still aware of the constant presence and infrequent dubious comments made by various loitering persons in my vicinity wherever I go.

I have since utilized some of the city-funded medical services provided at Glide Clinic. I have been assigned Nurse Practitioner Tina Clark. I have had further blood tests, the results of which have also returned clean, and/or negative for any impairing condition. I have also had a routine physical and general neurological exam. These records are also included in this testimony.

I also volunteered to be seen by a psychiatrist, Dr. Bullock, at SOMA Mental Health Services. No one advised or compelled me to do so. My only reason for wanting to see a psychiatrist is to display that I am not suffering from any mental impairment. After a reasonable amount of time talking with me, Dr. Bullock concluded that—although he will not consign himself to admit the credibility of my experiences—he was unable to find in me any accompanying noticeable behavior that might be recognized as symptomatic to a delusional or schizophrenic personality.

At this time no medical professional I have spoken to has admitted to the plausibility of my testimony. Because of this there has been no motive on the part of these professionals to investigate my physical condition from the perspective of the slightest possibility that I am telling the truth. Although both Doctors Bullock and Onate have relented to my desire to have an MRI scan, Ms. Clark has denied my access to it at this time. Furthermore, Ms. Clark's administered physical and neurological exams were cursory and topical. At the very least they merely attest to my lack of any impairment which might cause delusional symptoms. If one qualified medical professional were to accept the plausibility of my testimony, and therefore the potential danger of this crime being perpetrated against me and others in society, I am sure there would be further methods of investigation offered to me—some kind of exam for toxic irradiation symptoms, for example.

Next I will try to explain the different physical sensations that these electronic attacks caused, and are causing, upon me. These are very distinct sensations, and I am attempting to describe them for the possibility of any future forensic, technical or scientific investigation into the veracity of my testimony.

In 2001, when I first experienced the attacks, it felt like the first description I gave in the beginning of this testimony, when I had felt it again in 2012: It is some kind of electric current of pressure on my body. The pressure can be so intense that it will feel like my bed or chair seems to be vibrating, but it might only be my body that experiences this. (I have not ruled out the possibility that the perpetrators of this crime against me may have an additional device that is used to cause furniture to vibrate while I am being attacked with other electronic weaponry.) My head, torso, and/or extremities, including my groin area, are bombarded by some kind of electric or electromagnetic emission, or invisible beam of energy. The attacks cause uncontrollable tremors, muscular twitching, and an intense vibrating sensation of pressure that with duration are terribly aggravating and unbearably frustrating.

The second sensation which I can differentiate is what seems to be a powerful, silent “wallop” directed at my chest which causes an abrupt skip in my heartbeat and difficulty in breathing. Directly after this type of attack I have experienced heart and chest pains, sometimes for hours. I have noticed that this type of attack is the most devastatingly powerful when I am outside, or in a spacious public place such as a library. This type of attack has never occurred in an overwhelmingly painful fashion when I am alone in a room or apartment. I have instead noticed a lesser version of this form of attack—merely heart palpitations or localized muscular twitching—when I am alone indoors. I believe that this type of electronic attack is not as effective when an obstruction such as a wall or ceiling is present.

The third sensation which I can differentiate is the most recent one I am experiencing. It feels like some sort of thin energy beam—pencil-thin—that is aimed at my skull, or other areas on my body. When aimed at my skull, it causes an extremely irritating sensation in my brain; it feels like the beam is being dragged along the inside of my head, and causes a very aggravating disruption of mental acuity. This sensation has also only occurred when I am in a more open or public place, and not alone indoors.

I have also experienced the effects of what I can only describe as a combination of these tactile sensations. Because of these attacks, I am experiencing lasting heart pains, lower back pains, and constant headaches and fatigue.

I am presently unable to give an accurate description of the exact technology of electronic weaponry being used against me. There are multiple websites that delve more deeply into the technical aspects of this technology than I ever could, and I am no expert on deliberating the efficacy of that data. One merely need Google the term “covert electronic weaponry” or “organized stalking” for starters, and one will have a plethora of sites to browse through and locate credible cogent information regarding relative forms of modern tech and documented organized stalking tactics that attest to the societal proportions of testimonies such as mine.

I can only speculate as to which agencies—whether official and governmental, or criminal—are responsible for these terrorist crimes of electronic torture and organized stalking against me. It may be a combination of governmental and criminal elements. It could be a rogue faction of a government agency that has taken to hiring criminals to perform these atrocities upon chosen targeted individuals. Plausible scenarios are only speculation, and a waste of time if not supported with concrete evidence.

The only thing I know for a fact is that someone is responsible for perpetrating these heinous atrocities upon me—and apparently upon many other individuals—and it is time to take heed of the testimonies of so many credible citizens who are speaking out about these atrocities. An intensive investigation must begin immediately to expose the actual perpetrators of this prevalent form of covert terrorism.

There is one more piece of information I must add to this testimony. During the 1980s, while I was living in New York City, I had experienced what might be described as the initial stages of organized stalking against me. There were certain “gang” types who had made an effort to stalk and harass me from a distance for a number of years. At the time I wrote it off as just one of those “gangbanger-bully” things, and it seemed to have dissipated to almost nothing after a time. Now I am understandably concerned that this past incident may very well be connected to my present ordeal.

I declare that all of the above testimony is, to the best of my knowledge, true.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I have been a Non-Consensual Experimental Subject of Directed Energy/ Electronic Harassment and Torture since 1991. I have also been the focus of a Mind Control Program ( Organized Stalking) since 1976.

In Feb of 1991 I began to experience outright electronic torture to various parts of my body-- increasing to hideous unbearable pain lasting for long periods, or sometimes being turned on and off as a light switch. I have been treated to sleep deprivation for many years-- not allowed to function normally as to fall asleep and wake normally as a human being, or, feeling my flesh being "fried" all night long in my bed. During this period I have continued to be subject to mind games (organized stalking). The degree of all the electronic harassment varies from day to day. I feel the "electronic feedback " thru out the day, and it varies in degree of severity. This all goes on year after year.

Two years ago they "induced" diabetes in my body. Among other reasons, I believe the diabetes is meant to quicken my demise. I would not wish this dread disease on anyone, much less INDUCE it on someone who wished no harm to anyone and loves peace. I beg you to please believe what I am saying is true.

This technology and treatment of human beings as live animal experiments, is being performed by Agencies of the United States Government. I have always been a peaceful, loyal, kind-hearted American. I am trying to hang on to life itself at this time. Please help us. Please uncover the Agencies responsible for these technologies and programs from hell. Please help to stop all electronic torture and harassments by any governments on earth, as well as their accompanying "Mind Control" psychological operations.

As always, I will continue to believe in peace and justice for all mankind, and pray for the day that our country will do the RIGHT thing, and stand for human justice and compassion- and not just the words.

**First step needs to be the systematic abolishment of ALL Psychotronic use by ANYONE on the planet. This technology must be forbidden, just as nuclear weapons use are banned.**

**I am praying for all victims of electronic torture and harassments, including those that are subject to mortifying, dehumanizing "psy-ops" for life. We are human beings made of flesh and blood and feelings, but many of us are used as if we were made of wood.**

May God help our government to stop the tortures.

I write this with respect and appreciation for your dedication to humanity and the betterment of mankind, and in the prayerful hope that electronic torture/harassment of live human beings will be outlawed.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

To Whom It May Concern: Date: August 10, 2007

I have been a victim of directed energy weapons, remote harassment, and organized stalking since 1989. The phenomenon is real. It includes psychological harassment to induce psychosis, isolation, depression, and suicide; physical and emotional manipulation; and devastation of financial and social resources.

My story is not yet in sufficient state to be published, but I do participate as an activist against these crimes, I do have relevant testimony to specific instances of harassment, and I have meticulously documented each occurrence of these assaults. To hear my story would be terrifying and bewildering to an audience unaware of the specifics of these crimes so I will reserve it until I can clearly, coherently, and efficiently speak about them.

Nobody is above the law, yet some group or agency out there believes them to be. This is not right!

My Constitutional rights have been trodden upon: my 4th Amendment right has been abused, my 5th Amendment rights disregarded; and if this terrorism is meant to be some sort of "criminal punishment" for perceived wrongdoings, then my 6th and 7th Amendment rights have been completely eradicated. And due to the constant suffering under this campaign which includes hundreds, perhaps thousands of victims nationwide, our 8th Amendment right has been outright dismissed.

This is indeed, cruel and unusual punishment.

I am also being denied my Constitutional right to pursue happiness. This torture (from a remote, undetectable source) is constant 24 hours a day, including while asleep—thus preventing me from finding emotional and psychological equilibrium, which takes its toll on my health, well-being and ability to be a productive member of society. Medical, psychiatric, or social services are generally unhelpful or serve to alleviate only a few of the many symptoms that arise from these assaults; remember, the attacks are ongoing.

The use of directed energy weapons, remote harassment, and organized stalking are quite plainly unlawful, criminal acts. I am treated as a political prisoner or worse, as a common lab rat, not even human. And that this is happening on American soil, to innocent American civilians—some victims former members of the military—is unconscionable. Legislation must be enacted to increase awareness of this hidden menace and to outlaw use of these weapons. Only through making the use of these weapons illegal will we be on our first step to alleviating this highly organized form of domestic terrorism.

I refuse to surrender my freedom and I demand justice!

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My name is, Pat Stewart and I've been a victim since 1993.

I'm love to be added to your e-mail list for future mailings. Thanks for all you are doing to help end these crimes against us. please forgive me not having the physical or mental strength to do the case summary yet. I am doing so very bad mentally. Would you please send to me again the sample copies. I will use the simplest one and put my name is such. I tried to find the sample copy on Derrick's site but couldn't find it there. Also, do you have a sample letter that I can use to send to my congress person to make them a witness to these crimes against me personally?

Forgive me please for being so mentally in the dumps and not being able to get anything done because I dealing with close family members that are terminally ill. Thanks for all you do to help expose these crimes against humanity. I wish I had the ability to write like you. It is so refreshing to read your writings.

**I feel like these criminals are going to kill me anytime. I pray and hope it's just a feeling. I am being cooked alive and receiving horrible attacks to my head. Last night they did something with my ears that felt like pressurizing. It hit both ears at the same time and felt like air was being forced in and once they stopped they hit my ears with heat and felt like a warm fluid running in my ears. For the record my body is being heated almost 24 hours a day non-stop. My eyes are being attacked and pulsed. My head is being heated, it feels like hot rods going through my head, then they focus on different areas of the head. Mostly the back lower sections of my head at the neck and heat and pulse. All during the day they randomly focus the heat to my throat and then to the forehead. They rape me with the weapons. These criminals often attack my heart even once sending through my heart what felt like an iron rod. They spot burn my body, they use a pulsing weapon to my ears that is so very painful. They have been doing sleep deprivation on me for about 1 month now. The torture was so bad last night which is why I'm writing. I feel like they will kill me any moment.**

Thanks for listening to me and keep this letter in the event they do kill me.

PS. please see my you tube videos sometime. My channel is "1pat21" the last video was taken on Tuesday it titled Radiation Rays or Search Light. Sorry I'm not a good writer that is why I haven't written my summary yet also. Forgive any typos!

Our organization, **Freedom From Covert Harassment and Surveillance (FFCHS)**, is working with American Citizens to ensure that our constitutional rights both now and in the future, are protected from unwarranted intrusion by other citizens, corporations and corrupt governmental elements. 2. As used in this section, "electronic weapon" means a portable device or weapon from which an electrical current, impulse, wave or beam may be directed, which current, impulse, wave or beam is designed to have a disabling effect upon human beings.

Section 131J. No person shall possess a portable device or weapon from which an electrical current, impulse, wave or beam may be directed, which current, impulse, wave or beam is designed to incapacitate temporarily, injure or kill.

MICHIGAN STATE LAW / 2003-0256

<http://www.michiganlegislature.org/mileg.asp?page=PublicActs>

(k) "Harmful electronic or electromagnetic device" means a device designed to emit or radiate or that, as a result of its design, emits or radiates an electronic or electromagnetic pulse, current, beam, signal, or microwave that is intended to cause harm to others or cause damage to, destroy, or disrupt any electronic or telecommunications system or device,

including, but not limited to, a computer, computer network, or computer system.

Additionally, we have included the following below excerpts from a report published in 2004 and a reference to an article written by a Washington Post journalist in 2005:

In footnote 5 at the bottom of page 4, in a report from the U.S. Department of Justice, Inspector General, titled "Report to Congress on Implementation of Section 1001 of the USA PATRIOT Act (as required by Section 1001(3) of Public Law 107-56)", dated January 27, 2004, the OIG acknowledged receiving 720 complaints of the type "... complaints that the government is broadcasting harmful electronic signals to individuals, claims that the government is intercepting dreams, and allegations that the government is using subliminal messages to force people to engage in certain acts."

By Sharon Weinberger Sunday, August 28, 2005; Page W18

**The evidence is clear:**

Crimes using advanced psychotronics are on the increase as more and more people discover the source of their problem. There is proof that these directed energy devices can cause fatigue, dizziness, a sudden marked degradation of eyesight ([List of symptoms](#)) - even hearing voices. All caused by the abuse "Harmful electronic or electromagnetic devices".

Could this abuse be orchestrated by "vigilante groups", employees of corporations under contract with the U.S. Government for development of such devices and weapons using them without authorization, Corporations conducting non-consensual experimentation of these devices on U.S. Citizens and other individuals, and U.S. Intelligence agencies conducting both non-consensual experimentation and actual surveillance upon U.S. Citizens as allowed by law for what is deemed reasons of national security?

The often inter-related crimes of psychotronic abuse and organized stalking are what are considered "new crimes". That means that, because a small percentage of the population is being affected and because the technologies used have rarely been heard of, that these crimes go on undetected and of no or little priority towards an investigation.

The victims of these crimes live in a virtual pandemonium.. They are constantly monitored and electronically harassed. Because there is no way for them to "track down" the electronic signals being used against them, the crimes go unabated for years. Additionally, to compound the problem, it is so unheard of that most people who are affected never know that it was the cause of their failing health, financial distress and alienation from friends and family.

It is unfortunate and disappointing to believe that activities of this kind are occurring, particularly those activities carried out by the Federal Government against its own citizens. With just a little public awareness with the assistance of our congressional leaders, and awareness by police and public health officials, thousands of people could be helped today. And thousands more cases could be prevented in the future.

Please do the right thing and by enacting legislation making it illegal for Federal authorities, whether intelligence or local law enforcement agencies, to use this technology to torment citizens for any reason.

People who experience abuse can only wonder who it could possibly be who makes the decision to destroy their lives, presumably with the interest of national security in mind. For more information I highly recommend that you read the materials at [www.democraticfundamentalism.org](http://www.democraticfundamentalism.org). It contains materials documenting the development and application of these technologies by the U.S. Government and private Corporations under contract to the U.S. Government from reliable sources of information such as CNN, The Department of Defence, U.S. News & World Report and others. It also contains links to a wide variety of anecdotal accounts of what victims experience on a daily basis.

If you have any questions, please do not hesitate to contact me or email address given.

I would very much appreciate hearing where you stand on the issue of Federal testing Of Psychotronics and Directed Energy Devices.

How are you? What symptoms do you have? I get hissing in my ears, little sleep.

Tomorrow I have to go to criminal court. I'm in Gwinnett County GA US.

My charges? My husband said I threw knives at him. I didn't. The police said I resisted arrest. They grabbed my arm before they told me I was being arrested. And I didn't want to lose the credit report in my hand that stated, that my husband had been controlling it, without my knowledge. The nervous energy I felt the whole time.

In Dec 07 I reported my husband for socking me in the ear. They have dropped the charges against him. But I think my husband put me in a program around 1993. That's when he worked for Hitachi and started selling to the military. Also that's when we moved to Georgia from Michigan. I went to a phd. who started asking me who was my husband really and he said He was worried about me. There was an insurance ck to the dr. and my husband. Most of the money went to my husband.

In this house is when I started getting nervous and agitated, Also, in Sept. 1993 we went to lunch with some people he worked with. When we were done this woman takes me aside and says, Welcome to Atlanta and I want you to know he's a real snake. her name Lisa Holmes lived at, 132 E Placid Hill Circle, Woodland TX in 93. 713 367 0013, She worked for Eurpac.

Anyway the family started to have problems here in GA and the kids even attacked me. I called the police and they just talked to the kids. Seems to me they can do anything, but I get arrested.

Many times I was hit and kicked. This is Satanic ritual abuse on me. MY husband has three 6's in a row in his SS number. Book of Revelations anyone.

I was at the Gwinnett County women's shelter, taken out in handcuffs to a mental hospital. That's what he used for

his defense, and the neighbor across the street sent him a letter on how to get me locked up for 90 days. They only kept me for two weeks. It was about 5 days after I got out of there that I was arrested. Taken away in handcuffs 3 weeks apart. Talk about monitoring, on the police dispatch they knew I had stopped taking the meds. How did they know? Look up NLETS. World wide police profiling.

My Defense Lawyer had me go back to that hosp for a competency eval. When leaving, before I was off the grounds, the police gave me a ticket for running a stop sign. It took him a good 20 minutes to right up the ticket. He must have been reading my whole life story on his computer.

As for my being taken to a mental hospital, I called the Civil Rights division. They said it was internal corruption. Didn't think the FBI would investigate at this time. I don't think I'll get a fair trial, and my Lawyer wants me to use the Alford Plea. He said I'm guilty, can't win. So much for defense from a public defender.

DEAR SIR/MADAM

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Hello,

My name is ANDRZEJ SUDA. I was born in Poland in 1959. In 1985 I immigrated to the U.S.A.

The Warsaw Pact Intelligence Services decided to use me as a cover for one of their spies. Almost immediately after I met that person, strange things begun happening to me. I have the reason to believe I became a victim of Neurological Weaponry (for torture and CONTROL purposes) in 1987.

It took me eight years to realize that my girlfriend is a spy. My complaints to the FBI and other law enforcement agencies caused quick and fruitful investigations. Unfortunately, the pressure from the Washington made all investigations stopped. A local Congressman (current presidential candidate) committed a treason and personally forced the Immigration Office (I.N.S.) to stop deportation procedures of my girlfriend and gave her a Green Card with no questions asked! I understand that you may suspect me now of making up another James Bond-like story. Please, do not hesitate to view my documentation and testimonies posted on the Italian website:

[http://www.aisjca-mft.org/Pdf-Suda\\_enter.htm](http://www.aisjca-mft.org/Pdf-Suda_enter.htm)

Click on ENTER to read my testimonies, click on those "click-able" numbers to see individual pages of my documentation.

J.R. Nyquist, one of American experts on counterintelligence, investigated my case and very upset about what happened to me, wrote an article "A DISTURBING PATTERN"

[http://www.worldnetdaily.com/news/article.asp?ARTICLE\\_ID=19862](http://www.worldnetdaily.com/news/article.asp?ARTICLE_ID=19862)

Direct quote from the aforementioned article:

"Both Andrzej Suda and Mikhail told their stories to the FBI. But in both cases the FBI did nothing. A ranking law enforcement official familiar with Suda's case, whom I interviewed while researching the Suda story, thought there was a problem at the Justice Department in Washington. Things were being short-circuited at the top, he believed. For some strange reason, spies connected to East European mafia organizations were being allowed to operate freely on American soil."

Again, unfortunately, pressure from the Washington (I assume) forced Mr. Nyquist to go silent one day.

Coming back to my story. As you may expect, in 1995 (after my complaints to the F.B.I.) I became an "unwanted"

person for the American government. Organized stalking, harassment at work, on the street, continuous destruction of my financial, legal, social and physical well-being became unbearable. Use of Direct Energy Weapons prohibits me from sleeping in my own bed for over five years already!

If you need more information about my case, please contact me immediately. I will be delighted to help your organization any way I can.

SUE in Delaware is still being held in the psych ward in Dover since a couple of weeks ago when police forcibly removed from her home after she called them to complain about electronic harassment. It's worth repeating that we should NOT call the police about DEW torture. Our experience shows that the police will do one of two things:

a) nothing (if we're lucky) They may even send someone to talk to you. If that happens, the first thing you'll want to say to them is that you're not hurting yourself or others nor are you planning to. That may protect you because that's mainly what they'll be looking for. Remain calm and answer their questions as clearly as possible. Repeat the above statement as often as necessary. or b) they may drag you to a psychiatric facility with no discussion at all.

I felt so safe there .. what a wonderful country is ... well I made one more mistake which is come back to Brazil which is so dangerous.. it's so easy to get in trouble here and because of this technology on my mind which allows people to get into my private life, I mean to hear or know what I'm saying or thinking... brought me so many problems and now

im terrified ... im almost fainting everyday but i have to keep working cause otherwise i will get no money and will be so difficult to survive.. i so scared to get outside my house cause everytime seems that i will be k.... the torture is more than psychological , sometimes seems that they are put me in a really trouble contacting, or connecting minds .. connecting to a dangerous people and they get know what to do with me.. thats is a big problem.. i should have stayed inb sydney or tokyo.. its my big mistake im unsafely here and i cant leave right now...

Lynn A Surgalla, Former Vice-President United States Psychotronics Association  
PO Box 2, Monmouth Beach, NJ 07750

**6/20/05**

**To the Congress:**

As Former Vice-President of the United States Psychotronics Association, I assure the Congress that the illegal testing, development and use of Psychotronic, Microwave, Laser and other forms of Electromagnetic Directed Energy Weaponry is a matter of grave concern to both the US and International Communities. These weapons are ALL potentially LETHAL, although sublethal injuries may also be inflicted as with the use of any other lethal weapon such as a gun, knife or chemical poison. Assault and Battery and/or torture/murder with any form of Directed Energy Weapon IS Assault and Battery and/or torture/murder with a LETHAL WEAPON. Despite claims to the contrary by criminal elements in our own government, there is NO SUCH THING as a NONLETHAL WEAPON (even those currently in vogue for "Slow Kill" torture-interrogation by war criminals worldwide).

In 2001, HR2977, The Space Preservation Act (2001) was introduced into Congress to BAN ALL Directed Energy Weapons. Its passage has thusfar been blocked. In 2002, the United Nations Institute for Disarmament Research (UNIDIR) formally listed a NEW CATEGORY of WEAPON OF MASS DESTRUCTION (Psychotronic Mind Control and other Electromagnetic Resonance Weapons) in their 2002 Media Guide to Disarmament. In 2003, the State of Michigan passed into Law House Bills 4513 and 4514 BANNING the use of ALL FORMS of ELECTROMAGNETIC WEAPONS against Human Beings in the State of Michigan. In 1999, the European Union Parliament passed Resolution A4-0005/1999 Section 27 which "Calls for an International Convention introducing a GLOBAL BAN on all developments and deployments of weapons which might enable any forms of manipulation of Human Beings." (PSYCHOTRONIC WEAPONS).

Any citizen's claim of being assaulted with some form of DIRECTED ENERGY WEAPON is to be taken very seriously. If the criminal assailants are found to be law enforcement personnel or government employees, then the crime is an EVEN MORE SERIOUS OFFENSE with grave political implications. If the crime is found to be racially or religiously-motivated torture-assault, then the bias-crime laws also apply.

I assure you that similar cases of assault-torture-murder with these weapons are being addressed all over the world. Please give this matter your closest attention. The INTERNATIONAL HUMAN-RIGHTS COMMUNITY is deeply interested in the outcome and concerned that justice be served in all cases of Directed Energy Weapons

assault.

Attached to this letter is a copy of my resume and relevant pages from HR2977 which lists the forms of Electromagnetic Directed Energy Weaponry currently in use.

Sincerely,  
Lynn A. Surgalla  
Former Vice-President United States Psychotronics Association

Please post the following to the (Directed Energy Victims)

Dear (Directed Energy Victims)Ti's,

Legal tips to (Directed Energy Victims) Ti's as follows:

The coming end to your imprisonment is at hand!

- 1.) Our complaint was given a hearing date.
- 2.) The complaint was similar to the complaint entered in 2006 that was dismissed with prejudice by affirmation of the appeals court, it was some 90 pages long with 1100 pages of exhibits.
- 3.) The current complaint was entered on the 23 of March and the defendants federal government asked for dismissal citing the previous complaint as similar and included an exhibit of the previous complaint dismissal.
- 4.) The court refused the dismissal request of federal government defendants.
- 5.) The complaint is 140 pages long with 1100 pages of exhibits.
- 6.) The case will win. The defendants will loose as a result their allowance to weight what they have done to all of us as unconstitutional.

7.) Never take for granted a person whom claims they are an authority in anything. Those who continue and try to right wrongs will find they can accomplish what they have been told was impossible.

8.) Before you attempt to try this on your own, remember I went to the school of hard knocks for 9 years and it took all of that time and 1/2 a million dollars to learn what technique would effect the goal many said was impossible of attaining a hearing in the case. We have a more work ahead but the issue is that we will overcome those obstacles too.

9.) In a week or so on [www.secretangel.tv](http://www.secretangel.tv) we will put up some information explaining the process of how our circumstance was used formulate a complaint and how that as a matter of theory can be used in all future complaints. It is assumed that there will be a need for a complaint to be filed by all of those affected, despite the anticipation that the laws will change after our complaint wins. That would be cause there are so many laws we have found that could be active either alone or together on a person. It is likely as government has in the past make new other sinister laws to allow the psychotic few who admire such ill use of their official post to do such as we have experienced in this nightmare.

10.) As the exposure and defeat of unconstitutional actions comes about; I would ask that even when this is brought to a complete stop that you endeavor to increase your activism and actions in exposing abuse and warn the world such as this generation has experienced should never be allowed to occur again.

11.) There is a lot of work to do, we will in the near future in say 2 weeks begin a workshop to indicate from experience the summation of the methods and strategies needed to bring your nightmare to an end too.

Hello I have been relieving your info and am glad to see such a willing spirit... I am however not just a witness but a victim myself for over 16 years. I was married to a mole for the FBI in Phoenix, Arizona I found out info on them and believe my ex was a hit man for them. I have quite an unusual and scary story that isn't over yet. He tried to murder me in 1994. By pouring mercury from thermometers in my mouth while I slept. He also used rat poison. I survived his attempts by the grace of god. His first 2 wives were not so lucky .... His uncle who he's named after is high up in the air force in Tucson Arizona. My torture is extreme... I am lucky to be surviving day to day. I will help in your cause. My phone is 217-638-0814 my name is susan

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I received your letter August 29, 2008. Thank you for responding back to me and so quickly..

Sunday, August 31, 2008, I went to the public Library and set up my Email account so that I can correspond with you and other Targeted Individuals.

I believe together and perhaps with two or three other Targeted Individuals with the same clarity and eloquence and mission, we could accomplish a lot for our cause and all Targeted Individuals. without going into a lot of detail today, I have been working the issue with my local police for a few years.. I have been working with one Detective; and, even the Chief of Police has gotten involved a couple of times. I will go into greater detail as we Email back and forth with our situations and information. I need to know and hear the details of your torture. I need to compare your torture to mine and also to the different stories I read on the Internet from Targeted Individuals. What do your V-2-K consists of; what sentences do they say, when do they say them, where and what times, and do they constantly use repetitions. What is the gender mix? For me, it is two males on the 1st 12 hour shift, one white male 30 something your average 30 something white male voice and one male, older, maybe 40ish, maybe older, and he has a deep, low voice with 1 female, 30 to 40ish, nothing special about the sound/tone of her voice, very average, and doesn't sound like a smoker. On the 2nd 12 hour shift, it is one male, once again 30 something, white and one white female, 30ish. What do you think, from the sound of your torturers' voices their ages are? Do you know, for sure, if they can see out of your eyes? The criminals torturing me can definitely see out of my eyes. I need to compare, find similarities and identical and patterns to understand this "deadly beast." And, also, I want "to make my case," to as many people, as high up as I can get, but, only with FACTS. After I read a few stories over the Internet, within the last few months, the stories convinced me that this is, to say this very loosely, some kind of "criminal franchise." Those who are criminal enough and deranged enough and know of this deadly and profitable crime, just "buy their piece." Also, from what I read of other Targeted Individuals and their accounts/stories, when they shared some detail over the Internet for all to read, that there must be an "ELECTRONIC SURVEILLANCE/MONITOR/TORTURER'S MANUEL." In just the few stories that I was able to pull up on the Internet, there are so many similarities, even identicals to the criminal stalkers that are trying to murder me. Considering that there are Targeted Individuals, from all over the world, many experiencing the same routine/pattern of torture/and course, doesn't it make sense that there could be one?

....I am convinced, for me and my situation, this is not the actions of any branch of government. I believe, and for very good reason, which I will go into as we correspond via Email, that it is a local criminal gang, with the identical "black-market" technology, in my neighborhood, financed by a male that lived in my neighborhood and has his own business (and therefore, finances.) I do realize though, that "dirty money" is made from this criminal gang. How can they afford to finance a 2 or 3 person staff, 2, 12 hour shifts, 7 days a week? following are some details of the murder attempt on my life by the criminal gang. Also, I have written and sent out 750 letters. Yes,.750 letters in the last 3-3/4 years, with the identical information as follows, which is only one small part of my 10 page letter. Following is the part of my 10 page letter that describes, somewhat briefly, the torture and murder attempt on my life:

"It has been an extremely long, hard and unbelievable process, both physically and mentally. The following is what I know about the electronic-satellite type of surveillance equipment Raymond and Alicia Bailey and their associated criminal gang/group have on me to date:

1.It can see my entire body day or night (even in complete darkness.) I have heard them say, "This is better than any show we could watch." and, "We made her shake." It sees every movement my body makes and knows everything it touches, no matter where I am. I.E., Whether in my townhouse, 60 miles away or while driving inside my car day or night. It is able to see what I am seeing out of my eye, (and it sees in color) when my eyes are open (a paid male in the gang/group said, "I told him we should not let her know we could see out of her eye."), and it can also see what my body is doing when my eyes are closed. I.e. When I am laying on my back, side, if I lift one of my arms or move a leg. They are able to video tape. (The group keeps saying "We are (\*) video taping for Ray.", and some of my neighbors have mentioned different things I have done inside my house, at different times, in front of me.) They can also tell if my eyes are watering or have tears in them, (I have heard them say; "Ray wants to see her cry.") They can see if I am sweating or when I blink my eyes. They are able to tell if I am smiling or not and all facial expressions, at any given moment, no matter where I am, 24 hours a day. It knows my heart beat, if I am breathing fast or slow and if I have a twitch, absolutely anywhere in or on my body.

2.The group is able to hear every sound my body makes, both internally and externally. I.e. stomach gurgling, and even gas in my stomach, it appears as if they can hear everything from inside my body out. They are able to hear (and maybe see) me swallow; even when I am trying to eat, or take a sip of liquid, or even if I start to choke because of the paid staff female's intentional verbal stalking/harassment for me not to enjoy anything, much less anything I eat, and it goes down the wrong way, the paid staff female says either "Give up" or "Ray." Even when I am gasping for breath and have tears in my eyes because I am choking, she still continues with "Give up." This paid staff female is barbaric. They are able to hear me pee and have a bowel movement. I even purchased an AJ-34 Audio Jammer and they were still able to hear. The group is able to hear everything I say, every telephone conversation and person-to-person conversation that I have and they are able to audio record and play it back. I heard the play back of a telephone conversation I had with one of my friends, they played back a couple of sentences when only my friend was speaking to me; and, also, I heard a playback of a conversation I had while I was driving in my car, of only when I was speaking.

3.This is very, very, very important, the group is able to talk in my ears and intercranially/in my head, all day and night long, and they do this practically non-stop as harassment. All of the time, it is threats. I.e., "We will keep her up tonight."; "We will follow her around tomorrow."; "When she comes home, we will follow her around."; "Talk to her when she eats."; "Talk to her when she sleeps."; "Talk to her when she goes to the toilet."; "Talk to her when she is taking a bath and washing.." They almost always preface every statement with "Ray." When they speak to me intercranially/in my head, someone from Raymond's group will speak very softly and usually slow. On occasion, they have spoken extremely loud and shouting. Sometimes Raymond Bailey will have two or more of the gang members speak at the same time. It is hard to describe exactly where these sounds are within my head, it is almost like their voices are coming from my entire head. Prior to his move, I would hear Raymond tell his people/group, "Follow her around in her ears." Or, "Follow her around in her head." That means no matter what I do during the day or no matter where I go, these people are to stalk me and keep talking to me in my ears or head. Raymond and his associates'/gang have a paid staff monitoring me (24 hours a day,) consisting of one female, white, most likely in her thirties and a male with a deep/low voice (not sure of his race;) and, sometimes one other thirty something white male during the day. After about 10 P.M., there is one white paid staff female, around 30 years old and one white paid staff male who instructs the staff female what type of harassment/torture is to be used on me at any given moment during their shift. The paid staff male who supervises the A.M. shift of this gang/group, will, oftentimes, tell the paid staff female that works with him what to say, then the female repeats exactly what this man said. At night when I lay down for bed, they keep talking in my ears or head so that I am not able to fall asleep until I am exhausted. If I should turn when I do fall asleep, or there is any sign of me waking up, they start talking again in a group, in my ears, about Raymond Bailey then they talk about me to keep me awake. They create so much noise they keep me up all night. Prior to his move, Raymond Bailey would instruct them, late in the evening, what torture/harassment technique to use on me for that night.

Almost every night Raymond would say, "Keep her up tonight." I am getting only a few hours of sleep every night and this is not good for my health, plus the stress of the things the group say that I have no way of escaping, because they talk directly into my ears or head. I tell the group not to talk to me at night and keep me from sleeping and they laugh. I used to use a microphone that I had placed in the garage and ran to the television audio. I originally placed the microphone in the garage because the gang kept sending men around my townhouse at night and I wanted to hear who was outside my unit. Then, in 2005, the criminal gang started projecting their voices (a characteristic unique to this type of surveillance,) what appeared to be, from that microphone; and, in that manner was the way Raymond Bailey would reveal his voice and instructions to his associated gang to me. Then in December of 2005, the criminal gang started projecting their voices mostly intercranially.

When I am driving my car, their talk is non-stop. They are able to see every movement my body, hands and feet make. They say things like, "See how she puts her foot on the brake?"; "She put the air-conditioner on." etc. It creates an extremely unsafe environment for me, and they know it, and I have told them it is unsafe for me. Even if I play the radio, because they are able to talk directly into my ears and head, I am still able to hear them. Once again, no escaping their voices. I feel like they are trying to kill me in my car, through their non-stop, constant distractions of me through their voices. If I were to die because of a car crash, I would be gone, and there would be no way for law officials to know they were my killers. I do know they are not concerned, at all, if I get into an accident.

Where are they getting the money to pay this 24 hour, hired staff of criminals; this is, beyond a doubt, definitely their full-time job. I am beginning to wonder if the money they use to pay this 24 hour criminal staff monitoring me 24/7 is coming through the criminal activity of not only pornography, but perhaps even identity theft and burglaries. With this extreme and criminal surveillance method, the possibilities of crime that this would enable these criminals to do are almost limitless. I can't think of one crime that they could not premeditate and carry out

with precise timing. This surveillance method/device is lethal.

4. Every time I go into the bathroom the harassment is severe. The very second I bend over the basin to put soap on my face; the paid staff female says "Ray." When I go to brush my teeth, the paid staff female says "Ray." When I put my make-up on, the paid staff female says "Ray." When I dry my hands, the paid staff female says "Ray." Then I go to the toilet and sit down she says "Ray." I proceed with the elimination process and both the paid staff female and paid staff male are relentless in saying things to intimidate me like "We are going to follow her around tomorrow." meaning talking my ears or head. Or, they will just say, "Talk in her head." "When she goes out, we are going to follow her around." One male in the gang said, "She thinks we're kidding." "When she eats, we are going to follow her around." (These three sentences meaning, they are going to stalk me and talk in my ears or head.) "When she sleeps, we are going to talk in her ears and head." Then the very moment I wipe myself, both the paid staff male and paid staff female say in my ears "Ray." The same process absolutely always happens every time I go to the toilet. When I go into the tub to wash for the morning, two paid male staffers and the paid female keep saying "Ray" every single time I touch any personal part of my body, even if I am in the tub for 10 minutes, they will continue for that long detailing what body part I am washing. The same thing happens when I get out of the tub and start drying myself off. Every time I touch any personal part of my body, the paid staff female and paid staff males are saying "Ray" in my ears or head. When I reach for my underwear, the paid staff female will immediately say Ray." (One of the males said, "Keep saying Ray, we will drive her nuts"; then he laughs.) Oftentimes, the males will say "Thank you Ray.", and then laugh.

When I go to the kitchen to eat or prepare a meal, they (quoting their expression) "follow"(stalk) me around in my ears and head. Every time I go to the refrigerator and open the door, the paid staff female says "Ray." Every time I go to the stove, the paid staff female says "Ray."

The white paid staff female, somewhere between 30 and 40 years old, 99% of the time, and the paid staff male with the deep, low voice, 1% of the time, stalk me with their voices every nano, in my own home, no matter what I am doing or how careful I need to be in the chore that I am doing around my house, not to hurt myself. These two paid, full-time staffers do this to distract me. Oftentimes the more dangerous my chore, i.e. going in or out of the bathtub, using a ladder, standing on a chair reaching for something, the more they try to distract me. If they are able to succeed in killing me in my own home, this will go away for them. If this treatment /harassment to me doesn't stop, they will end up killing me, just by the mental and therefore physical abuse/stress it puts on my body."

**10/9/08**

I believe the 24/7/365 criminal gang set up/hook up was in 1996; definitely in by 1997. What the criminal gang did was to SILENTLY STALK/MONITOR me from 1996/1997 to 2005, to "PROFILE" me for use when they went into their FULL BLOWN CAMPAIGN to torture/murder me . . . . to use everything they learned in the previous 9 or 8 year period of SILENT STALK/MONITORING observation to manipulate their murder campaign into their favor once the decision was made to torture/murder me. One thing I definitely knew from 1996/1997 to their FULL BLOWN CAMPAIGN to torture/murder me was that I was being physically stalked, mostly my males, pretty much anywhere I went. Oftentimes, it was even male neighbors that the criminal gang recruited. Most of the accessory physical stalker male recruits of the criminal gang are either in their 20's or 30's. A few are older, 50 is. And, almost all of the physical stalkers are of a lower class (dress/grooming, etc.) . . . . gee, no surprise there, uh? In January of 2005, the criminal gang swung into the FULL BLOWN CAMPAIGN to torture/murder me; and it was non-stop. Besides the Voice to Skull transmissions, albeit, at this time, from January, 2005 to November, 2005, were transmitted to resonate around my ears only instead of deep into my head/skull, with the exception of a couple of times during February and Summer of 2005, it was one torture thing after another, "PHASES." Pretty much, identical to other Targeted Individuals/Victims stories/recounts I have read over the Internet. (I do believe this is some sort of "Franchise" complete with "Company Policy and Owners/Operation (Torture/Murder) Manuals." How else could all of the "PHASES" used by the criminal gangs with/on every Targeted Individual be so identical, step-by-step, in the same order?

**does the criminal gang trying to murder you use repetition of sentences during their 24/7/365 torture/murder attempt on your life? AND if so, what are their V-2-K transmitted scripted sentences on you?** For me, the criminal gang created/scripted about 15 sentences that pretty much they have been using since January, 2005, in their 24/7/365 Voice to Skull transmission on me.

to repeat myself, for me, my attackers/murders are a criminal gang, that originated in my neighborhood, when I first moved in November of 1995. John, all of the information I gather from you, and other Targeted Individuals

will be put to excellent use for our cause and secession. I AM PRESENTLY PUTTING TOGETHER A PRESENTATION TO 3 POLICE CHIEFS AND 1 DETECTIVE, IN MY VILLAGE, STREAMWOOD, and 2 other villages where the other 2 criminal "Owner (of the criminal business)" and "Chief in Charge of the Murder Plan on my life" live and work. In my village, I have, eventually, been received very well by my Chief of Police and the Detective the Chief brought over to my home in about June of 2005. Both men are fine men and definitely want to do what is right. Both men are kept current on my direr situation and are listening. My presentation, when done, will have at least 100 pages. I have taken different stories and testimonies of other Targeted Individuals/Victims, you, John, being one and put them into good, logical reading. I am not completely done on the stories/testimonies part, but I am getting close. So far, I have 60 pages. I will include other material; such as possible equipment used, etc., quotes, liberty statements and the like. I will be proud of my work; but more important, it will tell a story. A story for all Targeted Individuals/Victims. A story that, beyond a doubt, will be convincing of the crimes committed against all Targeted Individuals. A story, that I am hoping, will convince all LAW ENFORCEMENT that has been involved with me, from the start, to get Search Warrants and have the criminals/individuals arrested, then prosecuted, then LOCKED UP, for a very, very, very long time!!!!!!

take care. Dorothy

**23/1/13**

I think of you often. Every now and then I get an email from you or including you. I know how tirelessly you work at resolution. I definitely do too. When I think about you, it always comes to mind, I was in the embryonic stage of the unbelievable murder attempt on my life. You, John, were the first individual I could find using Internet resources who explained what was happening to them. I wrote you, and you responded; what a relief. After that, it took about another 2 years for me to find Derrick Robinson, FFCHS, which has really made a lot of progress and there are pretty dedicated tis working tirelessly to stop their murder attempt and those of others.

It amazes me that the Internet is loaded with the murder attempts, written stories by tis, utube and even documentaries on TV, and no one wants to take the responsibility to start arresting people. John, you and I and others like us will hack away, and our day for basting in the sun will drench us with warmth and happiness. (Did you watch, "Conspiracy Theory with Jesse Ventura: Brain Invaders S03E07," 12/18/2012. At browser: <http://www.youtube.com/watch?v=18PtOXrzDVE> If not, you have to see it.)

I will do what I can. Take as good care as you can and only the best of wishes are for you.

**DEAR SIR/MADAM**

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I am being targeted through the use of Direct Energy Weapons (DEW's) and other Direct Energy Technologies (DET's) as remote neural monitoring as well as the use of warrantless surveillance equipment/systems to also carry out organized/group/cause stalking. The organized/group/cause stalking started in June 2006 followed by the DEW's attack in November 2006.

The perpetrators induce pain 24 hrs a day 7 days a week with the use of these weapons and are able to monitor me without the use of implants via remote neural monitoring. The attacks are random and occur most often when I'm not moving or trying to sleep. Symptoms include sharp pains (i.e. like a pin or needle penetrating my skin) all over my body, uncontrolled muscle spasms in the legs, arms, fingers, neck and on my face, inducing dizziness by attacking my inner ear, attacking my heart and head which has induced frequent chest pains and headaches. The perpetrators will project images into my subconscious while I am sleeping or resting and wake me several times during the night and prevent me from going back to sleep by inducing muscle spasms and sharp pain throughout my body.

The perpetrators use warrantless surveillance in order to carry out group/organized/cause stalking. I am harassed when I leave my home at any public place such as restaurants, shopping, public transportation, theaters and while driving. At work I am harassed by what is commonly called "workplace mobbing" where co workers use stalking tactics in order to discredit me or my work.

My family and friends do not believe that this is happening and think that I'm paranoid, as such I don't share anything about being a Targeted Individual (TI) with them anymore. Basically I live a dual life, there is the real side of me that is tortured and harassed from being TI and then the other side of which I play the role to the outside world (my friends, family and co-workers) that everything is normal.

This type of torture forces TI's to lead a double life in order to not be labeled as mentally ill or insane. It almost could be described as the "perfect crime" since most TI's don't have the physical evidence to prove that it's even happening. I never imagined that my civil rights would be so violated as they have been and will continue to do so until we can bring this to the attention of the general public. It's been a very terrifying experience that I am unable to feel safe and secure in my own home, that this technology has no oversight and can be used on the general public without any consequences to the people carrying out the attacks.

The persons responsible for my attacks have never revealed themselves to me, these weapons and surveillance systems allow them to work at a distance without even confronting their victims, as such I don't know for sure who or why they are targeting me. From meeting with other TI's via the FFCCHS (Freedom from Covert Harassment and Surveillance) group I've learned that this type of torture and harassment is very expensive and takes much organization to carry out. It is most likely being done through an agency or agencies within the US government by partnering with law enforcement, third party contractors and civilian groups at the local level in order to torture and harass innocent people through the use of these weapons and technologies.

I'm not quite sure when my gang stalking started...although! It's for real! The end of 2013 is when I'm thinking... USA

Stuff being moved. Neighbors pulling out when I do. Someone obviously being in my home. Utility companies parked in my drive when I come home. People following me. Pulling out in front of me while I drive. My neighbor having a water leak. My kids getting taken away for no probable cause but for domestic abuse via fake hotlines. Having to see a psychologist and take a psychiatric evaluation per this situation. Diagnosed with bipolar/schizophrenia. Hearing voices, ringing, birds and dogs. Seeing kids and families running where they never have. our family dog injured. Gardening vehicles that have never come around this tiny town, go wherever I go. Pull up to the gas station and nobody is there and then lots of people are there. Early In the morning when nobody is or should be awake and I go smoke outside I see vehicles of the same nature. I found a radio thing in my vehicle. My tape player goes off Every time I start and turn my vehicle off. My gas is always on E after I put gas in it...this is nuts! I want to say it started when I went to see a nurse practitioner and diagnosed me and said I don't like to follow up and wanted me to have further testing. My ex gave me counterfeit money for child support or I got left in Arizona. I don't hear voices in my head that I know of although I feel like I hear people say stuff they hadn't.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I am presently a victim of ORGANIZED STALKING, DIRECTED ENERGY WEAPONS, NEUROLOGICAL WEAPONS, TORTURE and ABUSE.

**I have been TERRORIZED and live in a constant state of fear and terror, because I never know when these attacks will occur, whether I am indoors or out of doors. My life is no longer mine, as I am being deprived of my basic human right to live a simple and harmonious life.**

I experience excruciating pain to my head, light-headedness, nausea, pin-prick type pains all over my body, surges of energy currents, currents running through my body, and painful sensations to my skin. My symptoms have been getting worse. When I am walking down the street, I have been experiencing a loss of balance and the feeling that I am going to pass out. I have also been experiencing tightness in my chest and difficulty breathing, along with the sense that the life force is being taken away from me.

These experiences are taking place wherever I go, and the worse part is that I never know when they will happen. They always happen quite unexpectedly.

For several months I have been experiencing flashing white lights from the outer corners of my eyes. The specialists have not been able to find a cause. This seems to happen when I move from one room to another, or from one location to another. It is though I am being tracked.

Because of the severity and unpredictability of these attacks, I am not sure if I will be able to return to my job as a Speech and Language Therapist in September, 2007.

**I am not able to protect myself and so I am imploring you to look into these matters, not only for me but also for the people all over the world who are also suffering from these grave injustices. I do not believe that God put me on this earth to suffer this way. No one has the right to commit these atrocities for any reason. I hope I can be helped before these criminals take my life from me, my family and my friends.**

I'm Peggy Taylor a 58 yrs old and a servivor of polio. I also wheelchair bound. I've been polked in the eyes, shocked, tingling in my spine, burnt, head feeling like a vain is going to pop, I've been chased around my apt. with this burning device, I been frozen, i've been heated, drained of energy, joints hurt, speech was slurred, a feeling like my head was being sucked off in some type of vortex, I hear the buzzing and I hear the neighbors talking about me 24/7, no sleep, locked in the nut house, numbed, sick to the stomach, threatened, and chased from my home and I can't go back if I do these people will kill me with this device. They was trying to make me have an heart attack and trying to burst a vain on my brain. This is the second couple who was trying to control me. These creatures wanted me to sit in my place and do nothing to please them I mean no tv, no music, no smoking cigarettes, no cooking and I told them to have a little creature of their own to boss around that they could kiss my cripple black ass. I have moved and I moved and i'm going to move again this ordeal is really crazy where did this breed of creatures come from? Cold hearted and cruel is what they are. I'm very tired of moving trying to find some peace to live out my life and I getting but holes like this for neighbors. This is the second time I escaped. I'm being to see it's much, much bigger than I thought, this is very scary when you can be murdered by these creatures and they don't even have to be in the same room. But I will tell you this much, when I was battling the first couple they was zapping me in my head I balanced a mirror on my head and it worked for awhile until they turn up the frequency and I used classical music, and even heat waves helped me, I was trying anything that I thought would disrupt the waves. I would like to talk to some one who would understand me when I say I feel a tingle on brain. (feel me?)

**13/11/12**

I am also a TI being tortured 24/7. I've been chased from my home cause I believe my neighbor next door own a dew weapon that was used on me. I've been burned in my head, frozen, felt like someone polk me in my eyes with needles, shocked, deprived of sleep, locked in the nut house, plagued with nightmares, even my natural body rythme is off I was joining that org. That's why I made that donation. I have no money like that i'm trying to find a new place to live and thee creatures are torturing me as I type this email. I am 58 yrs old and bound to a wheelchair I am a polio servivor of the 50's I will pray for all the TI's cause this really HELL on EARTH. I' m very sorry I'm unable to donate. I even have pet cat that I lpve very much that I could not bring with me cause i'm staying with a friend temperarly until I find another home so right now i'm having a hard time and I want my cat with me cause I miss him so much, sorry but I will keep you in my prayers and I wish you the best of luck

**1/12/12**

I'm also A TI lately I've been putting my down coat over my head and it's seem to help me with the microwaves that makes my body tingle. I know I sleep so much better and my torture seem to not be as often. Try it to see if it help you. I also want to know if any of the TI's are suffering with morgellons ? Cause I also had to get this to a controllable state. The things I did may help like steaming my body with my little steamer and making a tent with two chairs and a bedsheet, and I also gave myself a colon cleanser for 3 months. It's very important that you replace the good bacteria. And I my doctor prescribed Acticin a scabies cream... hope this bit of info helps. BE BLESSED

I'm OK. Just moved on the nineteenth and the day things started the people over me has the weaponry and they're trying to make ILL. I'm having stomach problems. I'm going leave for a little while. I will tell my story.

Life is strictly surviving from one day to another. I'm very tired of moving and these evil people seem to be every place I move. I'm 58yrs. old and bound to a wheelchair. I can't tell you when this thing started because life was pretty hard for me. Dealing with these evil couples I've been shook up,shocked, burned, frozen, heart made to beat much harder, made to feel like a vain on my brain was going to BURST, this weaponry also made me loose control of my bowels I woke up with a mess. I have no problems with my bowels. Something seriously needs to be done ASAP, how can people be so cruel? These torturers need to be STOPPED. This torture go on 24/7 every single day. I just moved on the nineteenth of February 2013, the second day the couple over my head is another set of these evil being with this scrap is very tiring on the SOUL. This EVIL has technology to do every thing I've mentioned and they also have the ability to see through walls, floors and concrete we have no privacy not even using the toilet or bathing. Can you imagine using the restroom and getting hit with these weapons at the same time being watched. It's not comfortable. And with all these attacks you feel all this PAIN. HOW COULD WORLDWIDE GOVERNMENTS DO THIS EVIL TO THEIR OWN PEOPLE?? Please help us STOP THIS MADNESS!!! These evil people were trained because their torture techniques has a military aspect to it. Who trained this evil and who gave them this technology? And to me there's only one answer and that is our government. And for this to be happening worldwide tells me again that worldwide government a meeting of the minds to put this evil plot into action I also want to add that they have a stepping technique will attack your nervous system and cause horrible back pain.

BE BLESSED

Much of what you state below, we have published for decades now. You are crying out in the wilderness! No one in any position of national power will ever take any meaningful actions to stop electronic attacks and electronic mind control! Unfortunately, it comes to a situation where each person must deal with this on his/her own. Your only chance of convincing people in authority in your area to help you stop electronic and mind control attacks against you is with the special Customized Devices of the types we make and sell to detect, pinpoint and correlate these attacks. And your only chance of jamming or shielding yourself against mind control and electronic attacks is with the special types of countermeasure devices we also make and sell as Customized Devices. We know of no other methods that work!

**Congressman Schiff has agreed to open a case**

My Congressman Adam Schiff has opened a case on my request for relief from harassment and auto accidents involving the falsification of the police report. They will be making a referral for FBI investigation. Other US TIs who have experienced the multiple auto accident attacks involving falsification of police reports or concealment of evidence, are requested to write to Congressman Adam Schiff in support of my request for investigation by the FBI. Adam Schiff is a member of these committees as reported on his website:

"Congressman Schiff serves on the [1]House Judiciary Committee which has jurisdiction over the criminal justice system, constitutional matters, the judicial branch, terrorism and homeland security, technology, and antitrust. As a member of the Judiciary Committee, Congressman Schiff has pushed for strong oversight of the Department of Justice's counterterrorism efforts to detect and prevent terrorist attacks without undue intrusions on privacy and civil liberties.

[2]Permanent Select Committee on Intelligence

Congressman Schiff was selected in 2008 to serve on the Permanent Select Committee on Intelligence. He was reappointed as a permanent member in January 2009. The committee oversees the nation's intelligence activities, including the Central Intelligence Agency (CIA), the Office of the Director of National Intelligence (DNI), and the National Security Agency (NSA). As a member of the committee, Schiff serves on the Subcommittee on Terrorism, Human Intelligence, Analysis and Counterintelligence; the Subcommittee on Technical and Tactical Intelligence; and the Subcommittee on Oversight and Investigations. House Select Intelligence Oversight Panel In 2007, House Speaker Nancy Pelosi (D-CA) appointed Congressman Schiff to the new Select Intelligence Oversight Panel. The panel was formed in response to the 9/11 Commission recommendations, which called for more comprehensive oversight of the intelligence agencies' mission, capability, coordination and budget.

This new panel works under the jurisdiction of the House Appropriations Committee. However, it consists of thirteen Representatives from both the House Appropriations Committee and House Intelligence Committee – including the Chairmen and Ranking Members of the Appropriations Committee and Defense Appropriations Subcommittee. Such a hybrid committee – with oversight of both authorizing and appropriating functions – may be unprecedented in the Congress and reflects the importance of its mission.

The panel works with the Defense Appropriations Subcommittee on intelligence funding, with the goal of strengthening the collaboration between those with direct oversight of the intelligence agencies and those who control the funding. "

I am asking that Derrick review all communication to verify that the writing is coherent and intelligent and relates specifically to auto accidents involving the issuance of false police reports, concealing evidence, particularly multiple accidents directed at targeted individuals.

Please, please go to your US Senator and tell others to hit their offices too. We need to tell our Senators who can get on the NSA about these horrible actions. I got my \$500 million case dismissed due to the lack of standing. Therefore we all have to wait for the outcome of ACLU vs NSA. Actually the ACLU needs your report DESPERATELY. GO TO THE ACLU!!!!

Listen, the ACLU is trying to restore our rights to sue the NSA. Currently we do not. Talk to the ACLU !!!!!!!!! They need this type of evidence. Do you have a lawyer who can do the talking because they lost because the judge said there was no proof that anyone was harmed. So far they are only talking about tapping phone lines but did you know that newspapers found on microfiche in big libraries back our mind control allegations. I had a \$ 500 million lawsuit for the decade of torture and homelessness that I have been through. Now I found out it was a black operation as payback for calling a Russian consulate.

I say Leo McCarthy can fuck off !!!!!!!!!!!!!!!!!!!!!!! McCarthyism is a 1950's attempt to quash free speech and association. And guess who loves the 1st Amendment--- The ACLU.

**Subject: I am a target of On-going torture, here in San Francisco, asking for your assistance.**

**Date: Thursday, 27 Aug 2009**

**Dear Senator Barbara Boxer, [senator@boxer.senate.gov](mailto:senator@boxer.senate.gov)**

I respectfully request a meeting in person with you. I have documentation (photographs, medical reports, police reports) and verbal information that should move you to positive action.

I have been a target of intense abuse/torture for 22 years. I took a well-connected woman to court for stealing from me, she was found guilty despite the fact that she had a well-known lawyer defending her. As a result I have been the subject of the following:

- On-going defamation of character, which has kept me unemployed, and has contributed to extreme isolation.
- Gang stalking (on the bus, at the gym, and wherever I go)
- Punctures on my body by stalkers
- Various forms of monitoring
- Damage to personal belongings
- Abusive/illegal treatment by professionals (including dentists and doctors)
- Electromagnetic/ microwaving, causing extreme heating up of the entire body, cramping, targeting of the chest (heart), head, and abdominal areas, (particularly when I am in a stationary position.... in bed, sitting, working out at the gym)

I suffer extreme sleep deprivation and stress. This electromagnetic/ microwaving torture causes organs to fail, the central nervous system is affected. People die from this targeted torture.

Targeted electromagnetic/ microwaving torture on my person has crescendoed from 1990 to the present. My health and strength in all respects, and concentration, and spirit are all grossly affected by this targeting. I have lost half of my head hair from this torture. I experience shallow breathing, chest/heart pain, severe abdominal pain, leg and foot cramping.

I have made various forms of shielding devices which I wear at bedtime, but they are only minimally effective in protecting me here.

I have been attacked in broad daylight and my nose broken, run over by a car who ran a red light, been a victim of unwarranted police apprehension and detained for hours while humiliating acts were performed in my view.... and

denied my requests to make a phone call. There are incorrect police and medical reports, from when I was 'set up' and attacked, and then falsely accused of attacking the person who actually attacked me. I can tell you more here, too.

I have had my life essentially 'robbed' from me, while I am subjected to horrific tactics of torture continuously.

Who am I? I am a woman who has contributed to the betterment of humankind through my art work, and past teaching. I have a BA and MFA in fine arts from fine U.S. university departments, have exhibited my work in the past in galleries and museums, and was nominated for a Museum of Modern Art SECA award years ago. I have presented interactive art environments in public arenas. (for free) All of my work is humanistically concerned. Just as my curriculum development is.

I have copies of written references, of the highest caliber, concerning my character, teaching ability, art work, and curriculum development ability; all from internationally respected arts professionals, and university level students I have taught.

I am a native Californian, and have lived in San Francisco since 1989. I have been before the San Francisco Board of Supervisors on two separate occasions over the past years, addressing primarily attacks on my person and the inability to secure any employment due to defamation of character.

The temporary-type city-funded jobs that I secured as a result from going before the Board of Supervisors included working with children at risk and later: Art Director at a summer camp.

In both of these positions I sustained pronounced consistent abuse/disrespect on the part of the staff as well as children (my students), many of whose parents were also informed against me.

I could tell you so much here in specifics. I actually wrote letters to the board of directors at the first position, detailing specifics as to what was going on at the facility. (included children throwing rocks at me) I could elaborate on the details of what happened which would cause your jaw to drop open.

My teeth are in such bad condition it is difficult to chew, and there are empty spaces where teeth have been pulled in addition to huge holes in other teeth. (I cannot afford any health or dental insurance, and family helps me survive on \$600/month) Three separate dentists have done things to me that are unethical, and illegal. Most recently I was to a dentist to simply get xrays. I was in his chair from 11:30 to 2pm, put to sleep without my consent, and something was done to me. There's another dentist who put me to sleep for hours and also did an illegal procedure on me. These dentists need to be held accountable for what they have done. Illegally implanted monitoring devices need to be removed.

How can professionals who people are supposed to be able to trust, and supposedly have taken 'ethical' oaths to be able to perform in their profession, be persuaded to perform such insidious, illegal acts? How do they expect to get away with such deplorable behavior?!

I was to the FBI to inquire some years ago about how to put a stop to the abuse. The person at the window went into the back office to check the records, and he reappeared with a face white and hollowed... like he had just seen a ghost, and he said to me, "Someone really hates you". I told him I knew this, and that I need to know how to get off this list and stop the targeting against me. Two agents came out and whisked him away before he could answer me. (my current research indicates that the list may be called, Main Core List - originally intended for terrorists, but in actuality lists innocent human beings like myself) I need to be taken off this list immediately, and the list needs to be abolished with regards to innocent human beings.

There is so much more here to tell you. I have recently become aware of an organization called, Freedom from Covert Harassment and Surveillance, and now know that so many others are suffering from the same targeted attacks.

It is NOT OK to target innocent people, and ruin their health, reputation and take away their lives....PEOPLE ARE DYING, being tortured to death, slowly, over time, and it is supposed to be "unnoticed", unacknowledged, and allowed to expand.

I have heard that the name, "Silent Holocaust" is what these terrorist targeted attacks against innocent people are being called. ...The problem is growing. There are demonstrations in European countries - out in the open, protesting the use of electromagnetic weaponry used on innocent people.

Senator Barbara Boxer, I want to meet with you. I once came to your office, here in San Francisco, some years ago to speak with you, and an assistant took a few notes from me. I never heard back.

People cannot afford to close their eyes to what is happening, as when they finally decide to open them, it may be too late. FEAR OF WHAT IS REAL SERVES TO EAT THE SOUL. Much of the general public do not yet know what is happening. They need to be informed. Perpetrators of these crimes against innocent humans need to be stopped, brought to justice, and human civil liberties/basic human rights need to be restored.

Further..... ..Democracy relies upon the valuing of 'the individual'. This is what makes a democracy work. When this is not the case there ceases to be democracy. What is happening in America....The Land of The Free, Home of The Brave? Where is our courage? How can we sit back and allow our basic human rights and lives to be taken away from us?

I know I want my life back with every ounce of my soul. I have been severely worn down over the years, fighting alone, existing for 8 years in a 6' x 10' basement over an 8 year period of time, then losing my first live/work space after 3 years to a new building buyer, then living on a cot in a print-shop for a year's time, and then in a seedy hotel for 3 months, and then losing my second live-work loft along with my over-night dog-care business which I had grown over a 3 1/2 year period of time to a new building buyer who required all artists to leave.....all while sustaining targeted attacks I have mentioned to you in this e-mail. This is just a little of what I could tell you of my existence here in San Francisco since 1989.

I have the strength of character that is exemplary, just as does the family I come from:

Father fought in the 1960's, while employed in a city government in California for fair wages for 'all' employees. He made one-of-a-kind beautiful furniture, was very wise, and exposed the 4 children to great music and art and projects in the back yard.

My mother taught elementary school for 35 years, and was and is dedicated to her four children.

My brother resigned his high school counseling job after many years to begin the Education Conservancy, which is transforming the whole U.S. College application process into a more fair and inclusive besides effecting a change towards a more realistic approach to looking at colleges on the part of students and parents. Top colleges are stopping their 'ranking system', too.

SEE: [www.educationconser vancy.org](http://www.educationconser vancy.org) See also, his book entitled: College Unranked

My older sister began her glass business many years ago (architectural applications. ..businesses and residences), and is the out-going president of the Los Angeles Chapter of National Womens' Business Association. She was elected Champion of The Year, and she recently passed a very difficult exam to certify her business as "Green". She helps 25 plus employees put food on their tables. She began being a businesswoman in her teens. She has astonishing multi-talents.

My younger sister is a truly amazing writer, and a gifted singer. I am proud of my family members. Each has a zest for life and genuine concern for fellow human beings and our environment.

I cannot express in words to you how important it is for me to meet with you. You can call me: (415) 558-9958 If I am out, please leave word so that I can return your call.

**DEAR SIR/MADAM**

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Microwave nonlethal weapons are targeting thousands of people, mostly activists. Targets are also stalked in the community in an organized manner by a government sponsored program. Classified microwave anti-personnel weapons have been unleashed in a dirty war in many different countries. A secret counterinsurgency dirty war is being waged against potential enemies while a campaign of political infiltration undermines governments. The media will change the subject away from the facts so use these 16 points to bring them back to the subject at hand. Ask questions as well as make assertions.

"If the Russians did it would our military copy them?"

"If the patents are there and the scientific papers and public microwave weapons exist, does that tend to prove that these weapons exist?"

29/10/08

Dear TI's, it is highly probable these war crimes will go public after the election. The perpetrators will launch aggressive cyber attacks and disinformation campaigns in the mass media. I have 3books, 3Doc films, songs, script, and 20+websites that will come under attack. These links are included below and I will attempt to post the books and films (zip files) to the forums for dissemination. Concerted UNIFIED action on the part of TI's will be critical to success. (Expect bogus emails and phone calls!) Please follow the 4 strategies below and copy the zip files containing books and films and pass them on.

**1Unified strategy to disseminate information-**

Please follow standard talking points and do not go off message or undercut each other.

**2Standard talking points (16)**

ONE: There is a long history of US government experimentation on citizens.

TWO: The government has made hit lists of activists before.

THREE: Microwave weapons have been used on humans as far back as WWII.

FOUR: The Russian microwave weapons program where the USSR in the 1950's used microwave weapons to attack the US embassy in Moscow and killed our ambassador. They also used microwave weapons on political dissidents. FIVE: dozens of DOD funded scientists, their scientific papers, and patents prove these weapons exist. SIX: The public microwave weapons that operate on the exact same principle such as the active denial system and milliwave radars, called nonlethal weapons in order not to provoke a public backlash.

SEVEN: Military doctrine papers written about how to use microwave and ELF weapons against not just armies but against individuals and large scale civilian populations.

EIGHT: Persons of interest in the intelligence agencies including the man in charge of nonlethal weapons development for decades, Lt. Colonel John B. Alexander as well as a man who has advocated using these weapons on civilians in their homes, Michael Aquino.

NINE: There is a population of credible witnesses (mostly activists and whistleblowers) who have been saying for years that they are being targeted with these weapons.

TEN: There is a long pattern of illegal behavior by some members of the intelligence agencies including death squads such as the Phoenix Program. These Ten Facts plus the evidence in my free books and films, entitled Monarch: The New Phoenix Program, make it clear to any reasonable person that these crimes are taking place.

**The WORLD needs five reforms.**

1. Disarm all electromagnetic weapons systems.

2. Open all records and archives.

3. Establish a truth and reconciliation commission, Nuremburg like tribunals, and a War Reparations Board to reform the system.

4. Convene an international conference to ban all electromagnetic weapons and verification systems because we cannot accept the governments word alone.

5. Finally, and international bill of rights that is enforceable such that the state cannot crush its internal enemies with impunity. We can expect official lying so I suggest a passive resistance campaign

**16: Tin Foil Hat: (i.e. you're all crazy argument)**

In the USSR the psychiatric community was used to forcibly institutionalize political dissidents and destroy them with experimental drugs. A US Army study in 1972 describes how the microwave weapons were used on dissidents to, "make them give their will over to some superior outside force". This indicates that the weapons were being used to break them down in behavior modification experiments, in effect turning them into psychiatric cases. I have interviewed 250 witnesses, the majority of whom have either a history of political activism or they are whistleblowers. They are all ages and races but the average target is female, their 40's and has an IQ above 120. Most people describe similar accounts of both organized stalking and attacks with classified microwave technology. These people live in different parts of the country and have never met yet they are telling the same basic story with minor variations. The Human Plutonium Experiments patients were called paranoid schizophrenics (ex: Mr. Elmer Allen ...CAL-13) MKULTRA survivors still live in the shadows and do not admit to physicians and therapists they are victims of govt. experimentation to avoid mental health stigma.

### **3Support public TI's**

Promote the information in the media materials (books,films,songs), send mass emails and zip files, phone calls to connected citizens and neighbors, flyers door to door, protests at city hall with signs if necessary. Help fight the public smear campaign of public TI's by staying on message and defending key personalities.

### **4Fight disinformation and smears**

VERY IMPORTANT: NO ALIEN TOPICS, NO SEX TOPICS, NO CRAZY TOPICS

The evidence in my free books and films, entitled Monarch: The New Phoenix Program, make it clear to any reasonable person that these crimes are taking place. The truth will be suppressed using fake books, fake films, and fake websites to confuse reality and a personal smear strategy known as shoot the messenger. Spot, identify, and denounce all disinformation websites/books/films PLEASE FOCUS ON THE FACTS (1-16)

MY LINKS WILL BE ATTACKED, PLEASE COPY, POST, AND DISSEMINATE

**LETTER TO THE ICRC – RED CROSS**

Hello

I am contacting in support of John Finch's petition in search of research and help tracking, recording abuse against citizens with the goal of eliminating the horrible violation of civil and human rights that occur daily. We deserve justice and privacy!

I have been stalked by perps using this device for over 3 years now. I have moved out of my home and to another state where I am still stalked by a device that allows them to listen to my inner dialog which has been referred to Neuron Monitoring. The signal has gotten weaker and I have managed to continue living with this crime against my civil and human rights. Below I have attached the narrative I originally composed as I searched in vain for help.

Best Regards,

Craig Ty Thompson

This narrative documents my ordeal with the most immoral humans of my life. It is unfortunate I am able to say I know what living having my Civil Rights exploited is like. I noticed new people moving into the vacant unit next door and hoped they turned out less rowdy than the previous tenants. Soon after I began hearing them speaking about intimate details of my life. They stalked me by listening at the 6 common walls in my home. I had captured their attention as I worked at finding a new job after being laid off. I assisted Kasa, an E Commerce company;

amass enough corporate and financial stability to move to acquire corporate and warehousing facilities in California. I would not have expected my Human and Civil Rights to be violated in my own home. The abuse began after I resided in peace for 2 years at 434 Lafond Ave, St Paul, MN 55103. I met the 2 primary perpetrators when I was outside with my dog. This was one of my last days of peace. They certainly pretended to be nice at first. Erica Sims rented unit 11 and her associate Keisha Lockridge moved into unit 9. I remember noticing how nice it must be to move into a new rental community with a close friend. It seemed amazing to have such help especially since moving alone is such a burden. I even assisted Ms. Sims in unit 11 with the moving of an article of furniture! I am not certain what possessed these adult women and their companions to devote each day to ravaging my confidence, mind, and human rights. These women thriving in such dominant predatory abuser roles are completely revolting and redouble my horror and the severity of the civil abuses which followed.

After only a few days I began hearing loud observations by my neighbors commenting on several details of my life. I quickly ascertained after almost 1.5 years of residency that I suddenly could not exist in my own home with privacy or dignity. I can remember finding it odd Erica would care to repeat phone conversations and ridicule the fact that I speak to my canine as if she were a member of my family. I simply regarded her as someone who could not live in a community without disturbing someone and hoped the novelty of it all would evaporate. It was extremely difficult to maintain any semblance of composure when more voices joined hers to begin to engage in the same repellant neighborly behavior. The first and at that time most scandalizing incident occurred about 2 weeks after they arrived at Lafond Apartments. I awoke and began my morning ambulation as normal despite previous annoyances. I was shocked and mortified to hear one of her male associates' pointed critique on my hygiene. He repeatedly stage whispered his hearty amusement in the way I undertook using the toilet and even the manifestations of my health issues. This was humiliating primarily because I was alone in my lavatory exposed already suffering the effects of their injudiciousness. The frequency of their gang abuse escalated in frequency and severity alarmingly rapidly. I eventually realized these proliferating organized harassment and stalking demonstrations were manifestations of their need to weaken and isolate me enough to be exploited for their illegitimate amusement. Nearly each occasion I was in my kitchen my new tormentors consistently increased my disquiet via vociferous intimidation and mob rituals with no regard or discretion concerning fictional and painfully honest private details and habits in my life. Rude and vile comments that increased in frequency and intensity happened during the preparation; cooking and even eating of nearly every meal I had the displeasure of undertaking in the discomfort of my own home. This was the first time I realized these atrocious people were using many forms of what is known as Gang Domestic Terrorism.

Unfortunately I can say I am now completely comfortable with the organized loud group chants of nasty faggot, child abuser and child molester. These are the most hurtful but in no way the only resounding echoing cycles of emotional abuse I have been forced to endure. It is nearly impossible to describe the dishevelment one feels when they are obliged to sustain constant ritualized hate and intimidation campaigns. This led to me consulting my general practitioner, law enforcement, property management and family for guidance. All avenues of assistance insist my Civil Rights are being contravened.

✂ Civil rights include the ensuring of peoples' physical integrity and safety; protection from discrimination on grounds such as physical or mental disability, gender, religion, race, national origin, age, sexual orientation, or gender identity; and individual rights such as privacy, the freedoms of thought and conscience, speech and expression, religion, the press, and movement. -Civil Rights- Wikipedia Encyclopedia

Their intentional invasions of my privacy, Civil and Human Rights have been my life's inevitability. My privacy has been taken from me with no regard to my detriment, legal repercussions or my human rights which were granted in 1860. This progressed to loud chants of physical bodily harm to me if I did what was needed to stop their harassment and threats thus their infringement of my Human Rights in my own home. The complete horror of my experience can't be denied. I worked with building management to record audio of the harassment which is required to document the seriousness of the harassment issue to no avail. This is also needed to successfully terminate their lease due to their inability to live near others without causing them harm emotionally and or physically.

I now have ascertained there is at least one unknown device being used to reconnoiter my activities at any time of the day or night. Most recently I have discovered this polemic and illicit technology is also seemingly able to remote view my thoughts. A possibly mundane observation is the device sends a signal that is easily picked up by certain electronics I own. I have no prior knowledge of any technology that enables a person to be able to spy on another in this way. I have professional confirmation no unauthorized experiments can be legally conducted on me;

certainly not while I am consigned to the safety of my own home. Their criminal technology sanctions the circumvention of my home security and violates our law against the wanton abuse of others human rights. This criminal behavior also follows me regardless of my location due to the complexity of their remote neural monitoring, gang stalking and group harassment methodology. The device is cruel and unusual because it provides no escape from their persecution. I have tried repeatedly to use the recorder provided the former manager of Lafond Apartments with no success mainly because the harassment and threats are veiled or masked by the targeted equipment's output.

Erica Sims and her unauthorized adult co tenants have lived in unit 11 for near 6 months violation my human rights. They also have another unit from which they can use an illegal surveillance device. Keisha Lockridge renting unit 9 is on the second level adjunct to my mother's previous unit in the same housing complex. They are able to use my personal history, identity info like my social security number and Google and financial account info spoken in the discomfort of my own home as potent ammunition to drive me to the breaking point and beyond. New usernames and passwords are rendered I have no idea what amendment entitles them to exercise their Civil Rights by encroaching upon mine. This is one of the many times I felt afraid enough to contact the police department.

My mind has been infiltrated by my neighbors who can't keep from constantly dwelling in my head. I have wanted to fall asleep and never wake. I feel they read every thought out loud as I think it. I hear them discussing my most intimate memories even when I do not actively think them. One example is I looked at a photo of a bird and heard them discussing the death of a pet bird years ago. They monitor nearly every conversation and activity that I perform. This is one of many violations of my privacy. Every day of my life I listen to them use me as their reality show. I am 99.9% positive they are not psychic and have received licensed confirmation I am completely sane. They repeat everything I say which has at time lead to me not speaking at all on the phone or to my pets in order to minimize their hate ammunition. Why should I defend myself when I have not offended them? This is a hate crime also. I am being hounded persistently! I have no idea what to do now that I have moved and am still required to endure further harassment via key electronic home entertainment equipment. Please help me or kindly provide any alternate organization contact info I can use to seek help elsewhere.

I've been a victim (Ti) of mind control for several years now. It's had detrimental effects on my life and I find myself starting over in a different country. I am still under their constant surveillance and they can be relentless at times. I would like to report or make phone calls to those who are willing to listen to my stories. Like all Ti's, I believe awareness is key.

Please feel free to contact me with any information that you feel will be helpful. I will also gladly share my stories with your organization so we are all aware of the current plight of millions of Ti's worldwide.

**LETTER TO THE COUNCIL OF EUROPE**

**May 15<sup>th</sup> 2013**

The Council of Europe

Dear Members of the Council of Europe;

I am writing to you in reference to a situation that has been ongoing for 36 months in Sagamore Beach, Ma. (U.S.A) As long time residents and college educated, my husband (of 26 years) and myself were brutally attacked by a new crime called Organized Gang Stalking

This new age crime (carried out by vigilante groups, employees of corporations under contract with the U.S Government, and yes even criminals that have been arrested on Federal Crimes) and used for the development of such devices and weapons on innocent U.S. citizens conducting non-consensual experimentation of these devices.

Both my husband and I, have been the subject of non consensual experimentation and actual surveillance and allowed by law for what is deemed reasons of "national security".

In May of 2010, our neighbors began to have an unusual amount of cars coming and going to their home- shortly thereafter, they began stalking both my husband, and it became a gang (at least 50-60 cars)

We have been chased out of our home, and our home now- is almost impossible to live in during the evening. My husband is a victim of satellite harassment tracking- In the past 18 months- our home has been broken into (\$15k in damage) packages left for my pets in their private fenced in yard, cigarettes left on my outdoor natural gas meter, all forms of intimidation.

We conducted our own personal investigation, and also hired an electronic expert from California who is familiar with this crime, and brought in government spectrum equipment and recorded high levels of microwave radiation being directed at our home.

In addition, we had a contact through the CIA (or part of the Langley group) from a friend who knew two agents- they conducted an investigation on these neighbors and found that 2 years ago, the entire family, (including the grandmother) was arrested for printing and distributing counterfeit money at a fair in Springfield, Ma. (Springfield Expo)- They were arrested and put into "this government program" and we have been targeted by them since. It is also my understanding the government has schools where they send their "recruits" to teach them all the aspects of Organized Stalking, and teach them use of these direct energy weapons. These devices are in the hands of criminals.

In addition, we are also aware of type of equipment they are using.

Recently, I made an appointed with our local Plymouth Rep. Mr. Demacedo, and after explaining our situation, he interrupted me and said another woman called his office complaining of the same crime. In this short time- there are more victims coming forward- Buzzards Bay, South Plymouth, another Sagamore Beach resident, Kingston, MA. and Western MA..

When the U.S. government ( as a secret covert military group funded by research and U.S. tax dollars) can attack

innocent Americans, that are hard working- and destroy them-

It has to stop. This is a global crime, that can only lead to an Orwellian society.

Mr. Demacedo has suggested for me to put my evidence together and the other victims, and he will schedule a meeting with the Attorney General, with Senator Murray and Brown present to discuss a formal investigation. This crime is above the local police.

My husband has been electronically tortured for 36 months- He is stalked/harassed/24/7-

These neighbors no longer work and are supported by the government, including their home expenses.

Massachusetts, Maine and Michigan are the only 3 states in the U.S. that have laws against electronic devices- Michigan being the most severe-life in imprisonment. Also, in Massachusetts, probable cause is only needed for an arrest.

Currently- two other men- James Walbert of Kansas and John St. Claire of Maryland have filed lawsuits in Superior Court-Walbert being the first to win his case in court, and preparing to Superior Court. Both lawsuits are against the NSA and the Federal Government. Former Jim Guess- a state rep. from Missouri was instrumental in winning James Walbert's case. Prior to Senator Kennedy's brain tumor diagnosis, Mr. Guess was in contact with the Senator wanting him to bring the Michigan laws to Massachusetts and acknowledge this crime.

My husband and I have worked hard all of our lives- we own a beautiful home in Sagamore Beach, I feel now we should sell-(I personally, am being attacked by the electronic jolting at night when I sleep- I don't know what the long term effects will be on me-(James Walbert is filing his suit on the same situation-being electronically jolted) by direct energy weapons.

We would greatly appreciate the Council of Europe taking our complaint and the thousands of other seriously. This conduct could change the way of the world as we used to know it.

I greatly appreciate you taking the time to read this letter.

Kindest Regards;

Peter and Lorraine Thompson

**PETITION TO SENATOR ELIZABETH WARREN**

Senator Elizabeth Warren  
2400 JFK Federal Building  
15 New Sudbury Street  
Boston, MA. 02203  
Tel: 617-565-3170

Date:

Dear Senator Warren;

I am a signature petitioner on the Go Petition; Stop Predatory Gang Stalking and Covert Harassment Petition; and I have been victimized by this crime that exists in Massachusetts and New England. This is a war crime; that will go down in history as one of the most horrific crimes in the world.

Gang stalking and Covert Harassment is an evil entity and a crime against humanity.

A program of layered agencies consisting of the military ,corporations, NSA, DOD, and criminal groups that have evolved into a 'Secret Society' that are using patterned military remote technology weapons on innocent civilians throughout the world. Upon the release of the CIA torture reports; John McCain referred to it as a "parallel government" that was unknown to society.

As a victim; I also have been labeled as a 'targeted individual'. We are a community of decent taxpaying civilians that have been suppressed and silenced by an NSA order-(given authority to over ride our constitutional rights through the Patriots Act ;) and falsely labeling us as "watched individuals" for the sake of National Security. In

addition; the police; government agencies; government leaders have been ordered not to respond to our calls for assistance and a “gag” order has been placed on all media levels to ignore this crime and our complaints. By ignoring our plea for help; covert harassment will continue to grow in epidemic proportions worldwide and victims will continue to be harmed and murdered.

I once led a productive normal life before I was attacked by this program. A program that began with being grouped stalked, harassment at my home and work place, vandalism of my vehicle, the smearing of my personal character and then escalating into harassment by military and private unmarked planes and helicopters. I was under surveillance at all times. My phones were wire tapped; my computers hacked and destroyed, and then I was subjected to military weapon experimentation such as the shocking by direct energy weapons and microwave audible hearing. In a recent Kiplinger Report; an article was written on the ‘9 Amazing Military Technologies of the Future.’ Of the nine reported, one was the Microwave Ray Gun ;( The Sierra Nevada Corp has developed this weapon under a U.S. Naval research contract. )This Ray Gun is designed to inject blasts of sound directly into a person’s head with the use of microwaves and microwave emitting waves, yet bypassing the ear, so it cannot be blocked out. The second weapon is a Space- Based laser (Developers; MIT of Massachusetts, Lockheed Martin, Marion, MA.) This weapon “can send a powerful destructive beam” at their object. Both of these weapons are for the most part silent and invisible to the eye However; victims are reporting flashes of light being directed at them and a tapping sound on the windows of a home when being “shocked” by these weapons The third weapon; Super drones with infrared and payload sensors can also deliver these weapons. These weapons have been tested and used in Iraq and Desert Storm. All of these weapons are being developed by DARPA and other parts of the military, working with defense contractors and other private companies.

In 2001, Rep. Dennis Kucinich introduced The Bill 2977 ‘Space Preservation Act’ in the 107 Congress. In his original bill he specifically refers to the banning of exotic weapons in space. Specifically; Chemtrails, electron weapons, psychotronic and info weapons, extreme low frequency weapons (ELF) -Laser weapons and sonic weapons.

Senator Edward Kennedy met with State Representative James Guess to discuss and introduce in Massachusetts a new ‘Electronic Harassment ‘law that would be modeled after the Michigan Laws with life imprisonment. Senator Kennedy fell ill shortly after and this was never accomplished.

As a United States Senator, representing Massachusetts you took a solemn oath to protect and preserve the laws for the citizens of Massachusetts and the United States. That oath also included upholding the Constitution. The hunting and torture of innocent civilians in Massachusetts, New England, America and The world needs to be addressed now. These weapons also have the potential for world mass destruction. As a U.S. born citizen of Massachusetts and New England; I ask you to please initiate a formal investigation. Certainly; there are far too many victims’ complaints to ignore. Probably the first order of this investigation would be to interview all victims in the Massachusetts area and surrounding New England states on an individual basis with a technical investigative team. This could be accomplished in a short period of time. An email list can be provided to your office.

Thank you for your time and attention to this serious matter Senator Warren.

Kindest Regards;

I've emailed all the Canadian contacts I could find on one of the Target networking sights suggested on [www.raven1.net](http://www.raven1.net). It's a leap of faith for me because I don't know who to trust and I don't know if you trust me. I guess if I give it time intuition on both sides will kick in. I've been a target for many years, but I've had what I call "the machine" on me since May 2000..back then I didn't know how to use the computer very well..I didn't have an email. I got burned a few times so I decided to focus on what could help me= my spirituality. Anyways, please get back to me. I'm in a bit of a rush right now and am using a public computer. All the prayers to all of us!

I am a victim of remote electronic assault. I have been abused now for 7 + years. They inserted things inside my home, vehicles, and other places with clicking, including my body. They have also inserted other things inside of my body to affect my mind, hurt my heart, other parts of my body, also to manipulate and control parts of my body. They have done vibrating to me, amongst other things, they have also said to me with this clicking that they are going to kill me. If there is any way to help me, that would be greatly appreciated, if not then please submit this letter to the UN to help stop this form of abuse.

I am an american, I have been abused by this for 7 + yrs now. I am threatened and intimidated by this abuse, with the things they have done to me thus far. I'm scared to even type this really. I can't believe I'm even apart of something like this in the first place. I have been mentally, physically and emotionally abused throughout all these yrs. I'm afraid there might not be much more time for me left, I just don't know. That's all I'm saying for now. I really do hope someone finds a something for this somewhere, I could really use some help against this, and fast, but it's probably already too late for me, and has been for a long time now.

**18/7/12**

I TRIED GETTING IN TOUCH WITH YOU FOR SOME SORT OF HELP. I AM A TORTURE VICTIM, IT IS CHANGING ME. I was really hoping somehow, you guys could help me, everyday that goes by, these abusers just have more time to hurt me. I was just really hoping you could help me with this atrocity.

Yes, I am one of the many thousands of targets living a life of hell 24/7. I simply am another victim too poor to offer assistance. I am also very computer challenged and do not have a support group in my area to care or want to be proactive. I use my cell as my internet source. I have no evidence only what I say I endure and deal with on a constant basis. I am not shy about coming forward as a victim of this. I just don't know how to summarize what others already validate is happening and I don't know how to email all these various addresses you ask me to forward them too. I hope by telling you who I am you in turn tell me your information. I like to put a name and location behind a anonymous email group especially if I try to advocate for the cause. I may sound rude to you, anyway my name is Deborah Todd in Vabeach VA. I imagine you already know that which is ok with me. I give you permission to list my info on whatever you do to count me as a victim. My landline phone number is also on the FFCHS buddylist with my email as the only one listed for the state of VA. Apparently others in my state are unwilling to come forward and be known. I'm sorry I can't do more. I need a regular computer, skills, etc. I hope to here from you personally in the near future as I appreciate the work your doing to help expose this evil, from your fellow long distance targeted individual,

I reside in Los Angeles, California USA and noticed anomalies occurring in 2012, with chemical/toxic particulates emitting from vehicles ventilators and forced in and around residence. Shortly thereafter, severe headaches, heart palpitations, shortness of breath while sleeping, unusual sensations to rectum, genitals, and pressure to eyes, neck and teeth. Electrical sensations felt over various areas of my body. This mainly occurs at home, but has expanded to wherever I go, stores, resorts, gas stations, restaurants etc.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I've been the target of harassment that began in 1996.

My harassment started with strangers knowing details of things I had said or done in private. There would be episodes of street theatre at work where people would reveal the surveillance to me by repeating mundane details of my life back to me. This would happen in conversations where people would raise their voices as if they were conversing, but loud enough so I could hear it. Eventually, over time this progressed to more and more episodes with several incidents a week. This was not gossip, but actual details of my life when I would have expected to have privacy. I was not sure what this meant at the time. It gradually increased over the years. It is almost daily nowadays. **IT ALL STARTED WHILE WORKING FOR A DEFENSE CONTRACTOR.**

I recall in 2001 that I had a scab on my right forehead. It became a toughened small lump like a cyst. I went to the doctor, but they brushed it off as nothing important. I just recently read of implants. I believe the medical profession cooperates with these people. I think we are facing a technological nightmare which involves some very evil people. I recently (in 2006) went to a plastic surgeon. He discouraged me from having the small lump removed. It was really odd because his attitude was hostile. He acted as if I was wasting his time. I think the hostile act is to make you feel as if no one will cooperate to help. On the way out one of the nurses was a little too knowledgeable and revealed she had a relative who worked where I'd worked.

In my 11 years of being a victim of this crime I've experienced: invasion of my private life, harassment with the street theatre, vandalism of my home, broke water pipe, cement dumped on my front yard, trees knocked down (by wind?), attempted accident by car stopping in middle of street, harassment at restaurants, harassment at airport, harassment at stores, people knowing details of what I've said or done in private (actual words phrases, likes, dislikes).

In the past year I started to experience sensations across my scalp, short episodes of buzzing, tired even when I sleep, red face, warm feeling that wakes me up at night.

My harassment started in 1996 and gradually built up over time. I'm psychologically assaulted with my own personal words daily. They really enjoy trying to surprise you with what they say. The directed energy assault started about 3 months ago. I think the directed energy starts once you stop reacting to the street theatre. I've lost my balance at times. I started noticing my face is red. I'm awoken every night around 2:00AM. I read your information about the reality TV shows to the participants. This would explain the uncanny street theatre played out at work. I guess they really demoralize the target over time and then start other overt torture. Also, they have some kind of system at restaurants, airports, supermarkets. They want you to speak out against the people assaulting you

so they can gain more cooperation. If I could imagine hell on earth this would be pretty close. I really feel sorry for the people who cooperate with the assault. Someday they will realize what they've done. It will be like the Germans having to view the evidence of the Holocaust.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

My name is Christopher Lamont Trice, a former Federal Air Marshal as of September 1, 2007 out of the Washington Field Office 14434 Albermarle Point Place, Suite 160 Chantilly, Virginia 20151.

**I am being targeted by a illegal domestic operation for involuntary human experimentation in violation of, Executive Order 12333 section 2.10 (Human Experimentation), section 2.8 (Consistency with Other Laws), section 2.6 (Assistance to Law Enforcement Authorities) and section 2.5 (Attorney General Approval), section 2.4 (Collection Techniques), section 2.3 (Collection of Information), Executive Order 12334 (Presidential Oversight Committee), Army Regulation 381-10, Part 15 (Identifying, Investigating, and Reporting Questionable Activities), Part 14 (Employee Conduct –read their individual responsibilities to report violations of this regulation which is a extract of E.O.12333), Part 13 (Experimentation of Human Subjects for Intelligence Purposes), Part 12 (Provisions of Assistant to Law Enforcement Authorities), Intelligence Reform**

**and Prevention Act of 2004 ( This covers the Federal Law Enforcement Agencies Responsibilities- sec 4016 (Federal Air Marshals),sec 7306 (Critical Infrastructure and Readiness), sec 8101 (Intelligence Community use of National Infrastructure Simulation and Analysis Center), sec 8306 (Protections for Human Research Subjects), and the Violent Radicalization and Home-grown Terrorism Prevention Act 2007,5 CFR 2635 (Misuse of Authority and Position), 18 USC Section 1001 (Falsification of Official Records), which resulted in my termination for a fraudulent mental condition (Delusional and Schizophrenic Disorder and being unable to interpret verbal and nonverbal communication).**

This is an obvious discrediting technique, and all attempts for assistance are being intercepted but they fail to recognize that their fraudulent diagnosis has been already overturned. They have failed to correct this action due to their direct involvement. This was a result of me reporting allegations of illegal surveillance (Early signs of this illegal operation), being conducted on me during the performance of my duties as a Federal Air Marshal, which still lacks a official Investigation. I actually know some of the individuals and agencies involved and no one wants to initiate these techniques, such as brain fingerprinting, and lie detector to verify the credibility of my allegations. As a former Federal Air Marshal I would like to believe agencies falling under the Department Homeland Security would want individuals whose allegations they hope to discredit would be by legal means.

I am still being targeted by my former agency who is working in coordination with the military (USEUCOM), and I have already pointed out to you this is violation of their own regulation AR 381-10. I have reported my situation to the following agencies: *House of Permanent Select Committee of Intelligence, Senate Select Committee of Intelligence Senator Rockefeller, Senator Chuck Grassley Senator John Glenn, Senator John Warner, Committee of Homeland Security Chairman Bennie G. Thompson, Vice President Richard Cheney, Attorney General Michael J. Mukasey, Attorney General Janet Reno, Governor Dennis Kucinich Pentagon, Congressman Frank Wolf, United Nations Institute of Disarmament Research, Mayor of Washington D.C., Secretary of the Department Homeland Security Michael Chertoff, Office of Inspector General , Department of Homeland Security, Transportation Security Administration, Central Intelligence Agency, Federal Bureau Investigation, Defense Advanced Research Projects Agency, Portsmouth Police Department, Portsmouth Investigative Division, National Association for Advancement of Colored People, Department of Labor, Department of Justice Office of Inspector General, Equal Employment Opportunity Commission, Employment Assistance Program, Virginia Employment Commission, International Committee of the Red Cross, Red Cross HQ Washington D.C., Federal Occupational Health, Federal Drug Administration, Office of Human Research Protections Paul J. Andreason M.D., United States Postal Service, Health and Human Services, World Organization Against Torture, Blue Cross Blue Shield, Sunshine Project, Joint Nonlethal Weapon Program, Lawrence Farwell Brain Fingerprinting, World Health Organization, U.S. Army Medical Research Institute of Infectious Disease, The Lay Institute, Mind Justice, Center for Victims of Torture, Lawyers Alliance for World Security, Lawyers Committee for Human Rights, Citizens Against Human Experimentation, Human Rights Office, (Washington D.C., Fairfax, Woodbridge), Alexander Bar Association, Fairfax Bar Association, American Cognitive Liberty Association, Tesler & Werblood Attorney At Law, Wisenberg & Wisenberg Law Firm, Dunlap Grubb & Weaver, and Feldsman Tucker, Committee Against Microwave Weapons, World Organization Human Rights, AVIVA International, Peace in Space, Defense Advance Research Projects Agency, and Rosenblum & Rosenblum Law Firm, American Civil Liberties Union, Colin Ross Institute.*

These are some of the organizations I attempted or successfully notified about my state of an emergency, and I have only received blanket responses offering no solution or actions that will be taken mitigate the situation. I am still recording the events surrounding my situation daily and making notifications to the prescribed agencies and always seeking other agencies that may be able to render assistance, and not hide behind plausible deniability or just play ignorant. This is despite having conclusive proof and knowing individuals and organizations involved. I have in-person encounters with some of the agencies I have listed, and personally witnessed they fall victim to the same technology that is tormenting me. They all display the same characteristics first they display inattentiveness, aggression, uneasiness and they are unreceptive to the information being delivered. They also display avoidance of certain areas of our conversation and act evasively to the information referring to specific facts in involuntary human experimentation. For example one attorney asked for facts so I began showing the supporting documentation and he said that he wanted to hear it only vocally, which makes no sense if you need proof or evidence, because it is only word of mouth until proven. I recommended the lie detector and brain fingerprinting, sense he only wanted vocal facts. He avoided that topic totally and the conversation went of on a tangent basically with no resolution. The whole conversation was driven through the use of psychotronic technology by satellite and it was obvious. This has been the same at all attempts to report my situation in-person, they display the same symptoms and many times have prior knowledge of portions of my situation before I even mention it. I know of my agencies involvement because, they are using the description of a disgruntle employee in order to discredit my allegations. They are also disseminating information about my wrongful termination through the technology to the

person receiving my allegations, in order to downplay the offenses. This is done so they can start the process while I am still under illegal surveillance and experimentation against my will. This way of pursuing it does not relieve me of immediate danger, but it is designed to cut the ties with me as a former employee and cover-up their involvement. My security is compromised so if I were to pursue unlawful employment practices and reached a resolution, the security threat still exist as well as all my secure information will remain compromised. This is addition to the several counts of fraud by altering my accounts, mail, email, and communications. The surveillance alone requires authorization from the Attorney General and must meet the requirements of probable cause. Now if they claim to have probable cause why is there a lack and denial for an investigation? These agencies by law have the responsibility to respond to even involuntary human experimentation just on the fact it is not only a threat to me but national security. I have already reported how they have used this technology to obstruct the essential duties and responsibilities of federal, state and local institutions. There acts are definitely obstructing justice and some of those implicated are at least in appearance enforcers of the law.

I have all the tools and means to put these violators of one of their own Executive Orders in prison indefinitely, but I have not found one agency to date that has followed the law or individual established policy in order to initiate it. I have been unemployed since September 1, 2007 which is one of the methods in addition to attacking my finances directly they are using to isolate me. They are cutting of all sources of income and employment opportunity so I pose less of a threat of ending their operation. This is to obstruct me from returning to federal law enforcement. They try to use methods that are not obvious to deplete my finances and promote delinquency. This is a tactic is to stifle my employment opportunities in other agencies by causing the loss of my top secret clearance by credit report.

They are now trying to assault and defame my character because I have made enough notifications that may actually end their operation, which they initiated without the required authorization within the parameters of the law. I am still technically a Federal Air Marshal due to being terminated with a fraudulent medical condition in conjunction with multiple violations of Executive Order 12333, 12334, and 45 CFR Part 46 Informed Consent and the Intelligence Reform, and Terrorist Prevention Act 2004. I am now seeking one of the existing agencies to acquire the necessary resources to incarcerate those I know are responsible indefinitely. I am subjected daily to the alteration of my perception, focus, concentration, and mood when making an appearance in the public or in conversation. These individuals lack any restraint or morals and have even targeted minors within my family with the use of their psychotronic weaponry. I myself have been stripped of my dignity because I am subjected daily to an artificial intelligence (subconscious) which is manipulated by a neuron that is designed to provide pleasure for homosexual inmates despite that I am heterosexual. They call this the Purgatory. This is a form of sadistic rape and I am sure if this is being done to me I am not the only one. I was told that this was even done to my wife in Europe despite it being highly illegal to use this type of technology. In addition to this I am exposed to repulsive fragrances, taste with texture that is designed to create a sense of disgust and anguish within the targeted individual. They use cellular structures that are not visible to the eye to probe, enter and exit the personal parts of my body. This is another demoralizing method to make me feel violated and to breakdown my constitution, and willpower.

They use subliminal messages projected through the technology to issue commands and trigger responses from my neurons within my body. The subliminal messages also can carry strands of pathogens that can induce illness. I have been threatened with strands of HIV, Hepatitis, Bubonic Plague, Heart Worms, and Cancer. They are cutting of information pertaining my medical condition from medical professionals because they do not know if any of the strands they delivered by subliminal message are dormant, active or worked at all. They are clearly not medical or psychological professionals due to their terminology, taunts and lack of knowledge of some of their own measures, which they use carefree for experimentation on me. They use the technique of Interrogation and Indoctrination, which they call conditioning in order to weaken and replace my existing consciousness with an artificial intelligence they can program to carry out acts that you would not normally perform with a rational mind. They use this process as well as false information in attempt to influence me into situations that would either incarcerate me or falsely incarcerate me. I am being told these same methods are being used on my family members without them knowing. They are using directed energy and electromagnetic radiation in attempt to induce loss of memory. They can also supplement your memory with false information whether awake or sleep. They also have some control of my dreams which they feed information about events that seem realistic in nature but never occurred during your life. Your thoughts are fed obscenities to promote insecurities which they exploit. They used a technique called un-suppression which they sort through your memories and gather the most tragic and demeaning ones to destroy your character. This is information they hope will be recalled and used against you to aid them in incarcerating you for a staged offense. This is in attempt for them to build fraudulent intelligence while impaired to justify their actions and to use their claims of a mental condition as a credible discrediting tactic. I live by myself and function in normal society and the most obvious facts is I have actually attended appointments assigned by

some of these agencies in person. If I am as impaired as they would have others believe, how is it possible I am able function in those meetings even being impaired by the technology? I drive a vehicle to and from multiple destinations, but according to them I am suffering from a severe mental condition in which I receive no treatment. The most conclusive of all, is the lack of the actual diagnosis that lead to the fraudulent medical condition in the first place. Furthermore, I was never diagnosed during any in-person consultations with a psychiatric professional for having these conditions.

All this spells lawsuit and incarceration for all the individuals involved in this operation, targeting me, my family, and the people I attempt to notify. It is obviously being kept from being disclosed. As a former federal law enforcer I find it hard to believe there is nothing in place to respond to a known offense, which is clearly defined in the laws I have listed, and in case studies. I know some have been discredited due to the lack of evidence, or the resources to circumvent the technology itself. I know who is responsible, and I definitely have the means to back up my allegations. They also rely on the individual being ignorant on the topic, and exploit the disbelief that this can occur, despite readily accessible documented proof. Executive Order 12333 is a law just like any other, and has to be enforced so there is no true buffer between the federal offenders and incarceration indefinitely.

I have addressed my current state of emergency and reported to the agencies who are obligated by law to respond. They are branches of homeland security and notifications are first line of defense for early warnings. The easiest way to catch these federal offenders wearing the veil of enforcers of the law, or members of the armed services, is to request them to provide the type of response established for allegations of unlawful domestic operations, or violations to established intelligence operations. This is rhetorical to those who have common sense, it simply requires an investigation. Their essential job descriptions and responsibilities for federal law enforcement and the military detailed in Executive Order 12333, Army Regulation 381-10, and the Intelligence Reform and Terrorism Prevention Act of 2004, (This even details their duty descriptions), states human experimentation must adhere to the provisions defined by the Health and Human Services which is 45 CFR Part 46 Informed Consent. For instance my former agency and the military (USEUCOM), are still retaliating against me by using the technology and working against the very thing they are suppose to uphold, which are only a fraction of the laws that I have listed. Now the only barrier between me and their incarceration is their discrediting tactics and the technology. This is counterproductive because the law is actually on the side of the victim, and some of those involved are required to enforce them. Now they can be defeated on their own policies and the law. Please read the laws I have listed, everyone points to the same thing when referencing human experimentation. No additional law is required, they just must be held accountable for not performing their essential function that is already mandated by law. The issue can be forced through the court of law by bringing your individual case, as well as their individual and agencies responsibilities, the laws covering human experimentation, and where they fit in the scheme of things. I know the agencies and people directly involved and I know it is only a matter of time when I will have to present my case directly. I have already discredited their most common cover for this type of operation, which is mental impairment by presenting them with medical proof.

The law and the individual agencies policy require them to investigate any allegations that are potentially a threat to the public and national security. Observe who has been notified, and realize that I have received little to no reply that even address the issue, but just confirm its receipt. My allegations within this letter were sent to all these agencies and no one asked any questions. They assume allegations such as mine can be discredited by saying they are based on conspiracy theory, the difference is I am quoting the law and none of those provisions were adhered to. Now ask yourself how this could possibly be a conspiracy theory. I have stated facts that can be backed by evidence, laws, regulations, statutes, policies, surveillance, taped conversation, and documentation. Test such as lie detector and brain fingerprinting are also crucial options, which is standard fare for a competent and impartial investigation.

These are some of the standard policies from my former organization that was not adhered to which are not confidential in nature:

- *Employees shall not commit or commit acts which they know or should know would constitute a violation of any regulations, procedures, directives, or orders of the FAM, ICE, DHS.*
- *Employees shall truthfully complete and submit all required reports according to established procedures. No employee shall knowingly record, allow or cause to be recorded any false inaccurate, misleading or improper information.*
- *Employees shall not make false accusations of employee misconduct.*

- *Employees shall not cause embarrassment to the FAMS, ICE, or DHS, or behave in a manner that will cause their co-workers or the public to lose trust in them or question their reliability or judgement.*  
- *Employees shall avoid association or participation with extremist organizations or activities that are inconsistent with their duties and responsibilities as FAMS employees. Extremist organizations or activities are defined as ones: Advocate racial, gender, or ethnic hatred or intolerance;  
Advocate, create, or engage in illegal discrimination based on race, color, gender, religion, or national origin  
Advocate the use of force or violence or unlawful means to deprive individuals of their rights under the United States Constitution or the laws of the United States or of any state.*

Where is the investigation, and why the denial to administer the proven test required to determine whether my allegations are credible or not. I am willing to participate in this test outside the grasp of their technology because I am only stating the facts and seeking assistance from a credible agency.

Updated 2008-03-19 This is a update from my following correspondence I am still waiting for a agency with the values of impartiality and credibility to investigate my case which presents a obvious threat to homeland security, myself and my family. This is Domestic Terrorism and the agencies in place to assess known threats are not acting in accordance to policy and procedures. Those I have implicated work within the Department of Homeland Security, which indicates a clear breach of infrastructure. They consist of those who conform willingly to acts of terror against humanity. Despite current policy governing acts of terrorism, which include human experimentation (Intelligence Reform and Terrorist Prevention Act 2004, Executive Order 12333, Violent Radicalization and Home-grown Terrorism Prevention Act 2007), the Department of Homeland Security and its components have failed to respond to what they should have recognized as a potential catastrophic threat. This is due to capabilities of the technology to alter the judgement of the decision maker's and enforcers of applicable law. This is proven in the lack of responses and courses of actions to mitigate a known threat. My former agency (Federal Air Marshal Service Washington Field Office) staged this operation in coordination with the United States European Command, and has since forced all the agencies I notified including attorneys into conformity by force and deceitful influence. They are still using the same intimidation tactics in attempt to influence me from pursuing legal actions resulting in life imprisonment or the death penalty. They are now trying to disassemble my credibility by deteriorating my physical form, by impairing all my attempts to maintain a high level of fitness. They are trying to isolate me to the most lowly setting, and social environment in belief that is a determining factor in judging credibility. This is completely irrational to a competent, sane and intuitive mind, because all that is required is an impartial investigation utilizing the tools designed to determine credibility. This is coupled with the basic principles of taking and processing a report. This requires an immediate response to threat that is still present. I have not even been questioned on my allegations about the offenses that I still suffer from today. They are targeting my family members and have caused the loss of my father's job who was a Major in a security company. He has since been rehired in a lower position in order to degrade him, among those who were once his subordinates. I informed the applicable law enforcement agencies before this took place. My former agency consists of conformist of acts of terror. They have clearly forced acceptance within Transportation Security Administration and Department Homeland Security. This places those who know internally, into one of the following categories in the handling of this threat. They are categorized either as conformist, or those who have been forced into conformity and support the alteration of established law, forbidding acts dangerous to human life that are a violation of the criminal laws of the United States or of any states. They are part of the operation targeting me and my family and, they are using it as a form of retaliation to keep their acts of terrorism suppressed. They are still conducting surveillance and neurological experimentation in order to make it appear that I suffer from a delusional disorder or lack of aptitude. This is in order to cover their botched attempt to have a credible discrediting tactic that lead to my termination. The fraudulent fit for duty assessment was already discredited so there is still a pending case with my former agency. This is being suppressed to generate fraudulent surveillance to build their credibility that is non-existent.

**Notifications Updated 2008-03-19 {Evidence of a Breach of Infrastructure} There is still no investigation to date:**

**\*\*\*\* *If my allegations are viewed as not credible then why is it necessary to discredit them rather than investigate them? If I was not telling the truth there would not be anything to discredit***

These notifications prove my credibility, and keep in mind the capabilities of the technology to alter perception and judgement. They are being used to promote extremist ideology, which is depriving law abiding citizens of their constitutional rights by force, deceit, intimidation, and violence. The technology is being used as a means of terror. There are obviously individuals within the institutions I implicated who willing conformed to these ideals, which conflict with the Constitution of the United State of America, and our way of life. The others are either ousted or

forced into conformity in acceptance of these clear violations, which are classified as acts of Domestic Terrorism. Please review these notifications and determine for yourself why there is a clear deviation from policy, procedures, and laws. This is clearly a state of emergency, and a known threat, where the infrastructure itself has been breached.

**19/9/08,**

Thanks for the continuous abundance of help victims like me seem to have. I know I've been going through this since 2003 and still not much justice has been done for me yet. I will be putting together another case summary and sending these outlets the email. I've sent you this email to make sure my name is registered as a victim of all of this. I've been talking with Derrick Robinson about this for a few years now.

Please make sure my name is on the victim's list.

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Hi John, I have been out of the loop for a while, trying to get my life back together.

I have accumulated a very large mailing list over the last four years, which I handed over to someone else. If you need more names, I will forward this email to her to send it out to victims on this mailing list. But I need to know what it's being used for and who the testimonies are going to.

This is the year for our victory over the evil ones - they did not think we would stand up and fight against them and succeed, but in my deepest convictions, I know they now know they are going to lose this battle.  
thank you for being persistent and keeping up the good fight.

Blessings, Lynn, [www.stoporganizedstalking.org](http://www.stoporganizedstalking.org) (my site is suffering because I haven't taken time to work on it, but 20,000 people visited it over the last two years!)

31/8/08

I was actively involved in activism for stalked and abused targets and against the perps in early 2003 to about 2006. I am a target of intense organized stalking for 5 years now. My site was [www.stoporganizedstalking.org](http://www.stoporganizedstalking.org)  
I lived in Los Angeles during this time. Is it too late to get in on the lawsuit? I was instrumental in organizing isolated victims and started the conference calls in around 2004 and organized street protests in Los Angeles - but had to drop out of the circle of targets - one, due to burnout; and, two, to solidify my role as a Master Teacher in Buddhism and spiritual healing, which is a very intense responsibility in its structure. Derrick and all of those guys know me and will vouch for my integrity. I look forward to hearing from you. Blessings for protection and health, Lynn Troxel

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I have been a victim of Directed Energy Weapons, Remote Harassment, and Organized Stalking since 2005.

The phenomenom is real. It includes psychological harassment to induce psychosis, isolation, depression, and suicide; physical and emotional manipulation; and devastation of financial and social resources.

My story is not yet in sufficient state to be published, but I do participate as an activist against these crimes, I do have relevant testimony to specific instances of harassment, and I have meticulously documented each occurrence of these assaults. To hear my story would be terrifying and bewildering to an audience unaware of the specifics of these crimes so I will reserve it until I can clearly, coherently, and efficiently speak about them.

Nobody is above the law, yet some group or agency out there believes them to be. This is not right!

My Constitutional rights have been trodden upon: my 4th Amendment right has been abused, my 5th Amendment rights disregarded; and if this terrorism is meant to be some sort of 'criminal punishment' for perceived wrongdoings, then my 6th and 7th Amendment rights have been completely eradicated. And due to the constant suffering under this campaign which includes hundreds, perhaps thousands of victims nationwide, our 8<sup>th</sup> Amendment right has been outright dismissed.

This is indeed, cruel and unusual punishment.

I am also being denied my Constitutional right to pursue happiness. This undetectable torture is constant 24 hours a day, including while asleep - thus preventing me from finding emotional and psychological equilibrium, which takes its toll on my health, well-being and ability to be a productive member of society. Medical, psychiatric, or social services are generally unhelpful or serve to alleviate only a few of the many symptoms that arise from these assaults; remember, the attacks are ongoing.

The use of directed energy weapons, remote harassment, and organized stalking are quite plainly unlawful, criminal acts. I am treated as political prisoner or worse, as a common lab rat, not even human. And that this is happening on American soil, to innocent American civilians - some victims former members of the military - is unconscionable. Legislation must be enacted to increase awareness of this hidden menace and to outlaw use of these weapons. Only through making the use of these weapons illegal will we be on our first step to alleviating this highly organized form of domestic terrorism.

I refuse to surrender my freedom and I demand justice!

For reading my email and listening to my story, and your support and help in legislation and enforcement, I greatly thank you.

Thank you for taking the time to review our case.

I went to college to get an education and left a TARGETED INDIVIDUAL. Unlike college, I didn't even have to pay a dime to enrol in the program. Unfortunately for me, my enrolment was coerced because no one ever asked for my permission.

I'm trying to maintain a normal life by going to work and continuing my education; however being a victim of targeting sometimes makes normal life rather difficult.

**My torture comes in the form of electronic harassment. I have not had a normal night of sleep since November 14th 2005.** I may be exhausted however no matter how tired I am; sometimes I just cannot get to sleep. Sleep aids and medications do not help. It is a bit unusual to suddenly lose one's ability to sleep when sleeping is a normal function of survival.

When this began, I was very frightened because it appeared that I was under some kind of surveillance.

At first I thought that it was some kind of sick joke, or perhaps blackmail which came out of someone's drunken plan. Only later did I realize how serious the situation was. I learned that people across the world shared common symptoms as me. When this all started, I was terrified. I ended up under psychiatric evaluation. Unfortunately for me, no amounts of antipsychotics were able to make the voices I heard go away.

Before I ended up under psychiatric evaluation I was able to record what I heard on tape. What is strange is that other people validated that they all heard the same thing I did. This is kinda a strange occurrence because only a schizophrenic ought to hear his or her voices.

I understand the scepticism because I am a person who needs evidence to believe something. In the past people have been harassed by dishonest people with political interests. It is a known fact that the American government has participated in programs such as COINTELPRO and MKULTRA. When these programs and violations of human rights were discovered the American government apologized and stated that they will no longer be participating in programs which violate human rights.

Unfortunately it is very easy to say one thing and do another.

Besides these examples of government misconduct, it is a known fact that much unethical experimentation has occurred on unwilling subjects throughout history. From Nazi Germany's experimentation in the concentration camps, to the American radiation experiments and other experiments including the Tuskegee Syphilis Study many innocent people died by the hands of cruel men and women.

History repeats itself and in this new day and age innocent people are still being persecuted for no legitimate reason. Like MKULTRA and COINTELPRO, I'm being persecuted by a program created for this time period, functioning in the same ways as its precursors just under a new name.

According to Michigan Legislation, public Acts 256 (2003) and 257 (2003), it is a crime to use directed energy weapons to frighten, harass, injure or kill any other person. The punishment for committing this offence is 15-25 years in prison as well as possible combinations of fines ranging from \$10,000.00 - \$25,000.00. Because there are two laws in Michigan legislation which specifically ban directed energy weapons it is apparent that directed energy weapons exist and cause major damage to living organisms.

The targeting which I and others endure is a direct violation of Michigan state law banning the misuse of directed energy weapons. According to the United States Constitution, American citizens are not to be denied, life, liberty, or the pursuit of happiness without due process of the law. As far as I know, I have not broken the law in anyway which would justify the violation of my rights.

For the official wording of the legislations check out [http://www.legislature.mi.gov/\(S\(fy2v3c551zaz4hm2mefjxy22\)\)/mileg.aspx?page=publicacts](http://www.legislature.mi.gov/(S(fy2v3c551zaz4hm2mefjxy22))/mileg.aspx?page=publicacts) ) In order to find Acts 256-257, just type in the bill number and the year, (2003 for both.)

I write this not because I want sympathy, but rather I want my life to return to normalcy without blatant violations to my liberty and privacy.

Thank you again for your time.

I wrote the following some time ago now I'm looking for more ways to secure/block my Apt. from their stalking devices

Help stop Gang Stalking the following site has helpful info. There are many victims out there being terrorized even as I write this, calling for help and some don't know exactly what's happening to them.

Please help us go to this site and others seek out info of how to stop this and be aware:

[www.gangstalkingworld.com](http://www.gangstalkingworld.com) & [www.educateyourself.org](http://www.educateyourself.org) & and [www.hiddenmysteries.org](http://www.hiddenmysteries.org)

under mind control look for the true story Ultrasonics Americas Secret police and google "stop gang stalking and emf" please we need more exposure of this not only home land terrorizes but it is happening in Canada and over seas.

**11/10/08**

Alert They are still stalking me. I send this out again please help, research on the net to find a way to help us all. 02/16/08-(10/08/08 all of this is still happening to me and as many targets report I'm being slowly done more and more electrical zaps and all the tactics are still being used the same everyday I'm still trying to acquire materials to block this terrorizing of me and other targets... Let us all pray for each other for this too shall pass)

These terrorist are doing everything to me that is mentioned in 'Ultrasonics: Americas Secret Police' @ [hiddenmysterious.org](http://hiddenmysterious.org). Plus they are getting people to come behind me and toss some kind of odorless colorless fine powder or it could be a silent spray. It just gets on me any where and a few minutes I feel irritated and I need to spit some times. I feel the effects on the left side of my body, face arm and if I don't go and wash down or when it sits too long and I have to spit I take a vitamin and/or drink a power drink these ways seem to help. I've lost some good jobs over the past 3 years, cause they send/tap people I work with to start putting this stuff on me or in my food/drink sometimes they put anything in my food like a soap. It was just the last two years that they've been using the sonic wave devices, at 1st I thought it was some buzzer that they put in my mattress or couch; I'd look into the cushions and nothing. When I sawt help with them watching me and listening to me is when I discovered the site above. They have allot of agents cause I live in Copperas Cove, TX 76522, and even when I lose the 1st cars following me the surveillance is picked up in Killeen with more cars new to old big to small different races. I can always tell who it is, well not always most of the time its after they've gotten someone to put the stuff on me. I've had to throw away so much food or return/exchange it and some stores think that there's something wrong with me, but most of them are in on it too. The cashier would put the stuff in my bag before bagging my purchases, so now I've been saying no bag. I haven't had a normal shopping experience in years its crazy. There are street gangs involved, I know for sure from Chicago the gangster disciples were or are still involved and the black gangster disciples. I thought for a time and still do think that the masons were or are involved. I don't know who to trust at times. Right now I'm saving up to buy some anti surveillance materials to put up in my apartment, but even if that works there, there still is the street day to day. It hasn't happened at my new job yet, well not on the inside, but when I go outside to police the grounds someone put that stuff on me. I have a case going on with the local police, but it seems like its going to take all of me and only with the grace of God to pull through this. I need help and am willing to help other victims. They want me to lose control and get arrested, but I'm holding on to my faith. In recognition that electronic and electromagnetic radiation devices can be used as destructive weapons, The State of Michigan has recognized this in its Penal Code effective 1st January 2004 which states: "Harmful electronic or electromagnetic device' means a device designed to emit or radiate or that, as a result of its design, emits or radiates an electronic or electromagnetic pulse, current, beam, signal, or microwave that is intended to cause harm, damage to, destroy, or disrupt.

As defined in section 58c of the Michigan vehicle code, 1949 PA 300, MCL 257.58c. (. (1) A person is guilty of a crime and shall not manufacture, deliver, possess, transport, place, or use this type of equipment for unlawful purposes.

A harmful electronic or electromagnetic device violates this law and seriously impair a person's body functions. This Public Law 256 2003 & 257 2003 can be found at:

I'm still being Stalked & Harassed. The Perp/Stalkers are causing more & more issues at work (I thank the Lord everyday that I have a job) try'n to get me fired or make me quit, but I'm still there (3years & going). The Lie campaign isn't working cause people/co workers/ customers aren't falling for it anymore for I've proved to be a Strong Christian dismissing any Lie that the Perp/Stalkers could label on me. But with V2K & MEDUSA they are trying to make me look crazy and/or incompetent on the job. Just day before yesterday I made it home (there was no Usual brightening & tail-gating on the way this time) but after I parked in my parking space, was doing my usual gather stuff to get out of the car & go into my apartment a Bright light shined on me at an angle behind me directly on me. I am so Mad! Even tho I know its the Perp/Stalkers, and I know that's what they want is for me to get Mad/Violent. I looked at them in their vhcile with their lights Beaming directly at me, they sat in position for a whole minute (So its for sure on purpose) then backed up off me and turned driving down a couple of houses parking like that's where they were going. I got out and was about to go to them to Defend myself (& that's what it would've been "Self-Defense", arming myself I yelled "Stop putting your Bright lights on me! That's illegal!!!" & I said "Stop Harassing me!" I couldn't see the Perp/Stalkers all the way as ti was Night, but the driver was a women and the passenger, a young girl both got out. The driver responded on que to each of my yells "How did I know you were there? They're regular lights." & "No it's not." (to my its illegal yell) Then she said what all Perp/Stalkers love to say/do to turn it back on us "your Harassing me..." I calmed down a little & called the Police & was telling dis batch exactly what happened & the Perp/Stalker hurried up into her vehicle the young girl ran into a house & the vehicle sped away...

I'm beyond fed up/angry, (I know we ALL are) but I know God's in charge and they will be held accountable for every evil act they do.

God bless us all

I first began hearing multitonal high pitched sounds and voices on or about May 15, 2005, in my bedroom. I lived in a large apartment complex in Roseville, California. The voices and sounds seemed to eminent just above me, and to the right. I recall the repetition of words and phrases, even threats and taunts, something called "mind splitting." At some point, the voices became interrogative. I recall that steady, low pitched sounds, like an electric fan or air conditioner, seemed to enhance my ability to hear the voices. I have always suspected that they were artificial.

Mind Control and Electronic Harassment questions and answers

After 12 years of being a target myself and many years of research these are the most complete questions and true answers to every questions that people may hold in mind regarding Mind Control (MC). These may not look very professional writing in terms of grammar and vocabulary but they are very simple and related answers to all the questions. This is a very good document that can be used for legal action and to introduce the MC to someone who is new to Mind Control such as; judges, doctors, psychiatrists, lawyers, politicians and ordinary people. They are also very good information for the victims to understand more about the matter and become more intelligent.

DEAR SIR/MADAM

Dear FEDERATION AGAINST MIND CONTROL EUROPE,

What follows is my case summary.

My real name is Uri and my internet identity is Doctor No (see [doctorno.diinoweb.com](http://doctorno.diinoweb.com)). I would like to keep my last name anonymous.

During many years now, ever since I wrote a world peace agreement to several Presidents, I have been targeted with Energy Weapons of various types which I have photographed, measured and recorded on video.

These Energy Weapon attacks have been reported to the police by me.

Lately I am being tortured with a weapon that induces immense pain in my maxillary and mandibular nerve which I am able to feel with my hand when I put my hand on my mouth. The attacks stop when other people get close.

To prevent dying of sleep deprivation after 3 days of practically not sleeping I have been injected with Lidocaine and Marcaine injections several times after several days of not sleeping every time.

I have not tested aluminium foil strips on a Van De Graaff Generator but the metal ball from the generator seems to disperse the scalar waves that are used to simulate the PEP, ADS and other DEWeapons.

I have tried going underground in a parking garage (had some effect but not much), metal plates, mu-metal, Orgone generators, a cage of Faraday, aluminium foil on the wall which blocks out the cancer U M T S radiation (I place

the word cancer in front of everything that gives cancer because the oldest people in the world were all smokers, see article on my web site that contains all my other web sites in a handy zip file: doctor no.D I I No Web.Com).

I am still being tortured and an EEG to prove I am in real physical pain is on its way.  
I hope the attacks stop after I have the ability to register my brain wave.

In the past I have been harassed with satellites which I have photographed (tracer against starry night sky, the stars look like dots, the satellites leave a flare or tracer proving it moved faster than the heavenly bodies).

I have also photographed what looks like invisible flying saucers which are only visible at times I am attacked by holding a camera in a certain way so it reflects light.

Personally I think flying saucers are not used but equipment that has the ability to influence the camera so it looks like man made flying saucers are used while in reality scalar equipment is used, possibly the same equipment that was used to create the man made scalar earth quakes (see weather wars dot blog dot com for seismograms (pronounced size mo grams) of the allegedly man made earth quakes).

Weather man Scott Stevens, the creator of weather wars dot info disappeared and so did his web site.

If any one could let me know what happened to Scott Stevens I would appreciate it and many others out there probably.

I would like to find out who is torturing me and my parents (my mother has had the same trigiminal pain and my parents both fell and broke limbs and are constantly harassed which they refuse to believe).

My goals are world peace and saving the maximum number of human lives through spreading real intelligence on the web and exposing the people that are trying to create world war (the bankers) instead of world peace.

Any help to take to court the people that have tortured me with the intent to kill me (after 3 days of sleep deprivation the remote electro shock weapon was used to keep me awake) would be very helpful.

Other people wrote that their teeth were destroyed with some kind of energy weapon as well.

Could this be the same scalar torture weapon that was used on me?

It is possible they are still testing the new weapon and have destroyed several victims eye-sight unintentionally in which case I think the victims deserve compensation.

Caching that nazi that demolished G W T C is crucial to prevent world war 3.

More about this on my web site, the prevention of world war three and the creation of world peace could be the real reason the perpetrators are torturing me (money).

This e-mail to you will also be read-able on doctor no dot d I I no web dot com where a lot more information about the attacks on me and my attempts to make the torture stop and catch the murderers can be found.

Any questions can be mailed to [prologic@xs4all.nl](mailto:prologic@xs4all.nl).

This letter is to ask for your help for the many constituents in our country who are being affected unjustly by electronic weapons torture and covert harassment groups. Serious privacy rights violations and physical injuries have been caused by the activities of these groups and their use of so-called non-lethal weapons on men, women, and even children.

I am asking you to play a role in helping these victims and also stopping the massive movement in the use of Verichip and RFID technologies in tracking Americans. . . . .”

I have worked for 3 years with Microwave and Electronic Harassment victims throughout the US and overseas. It is hard for others to understand the technology that is being used to destroy people's lives. I know James because he contacted me for help. James has worked to find proof of what has happened to him.

Many victims try hard to get help from professional doctors to help find devices such as Veri-Chip. I would request that you and those who can make a difference would help James and others to find answers.

**Dr. John Hall and Dr. Terry Robertson will be appearing on the Jim Guest Show on Sunday November 15, 2009 at 9am CDT to discuss issues concerning the development of technologies using the electromagnetic spectrum that can manipulate and influence human behavior and that may pose a threat to human and civil rights. These technologies have been publicly stated to be developed as weapons and communication systems but also have capabilities of behavioral influence.**

Jim Guest is a current Missouri State Representative from the 5th District who advocates for the preservation of privacy rights as outlined in the U.S. Constitution.

Both Dr. Hall and Dr. Robertson are physicians and researchers who have been working with the advocacy group Freedom From Covert Harassment and Surveillance (FFCHS) through the FFCHS Medical Committee. Dr. Hall is also an author who has recently published a book about the unwitting use of these technologies on U.S. citizens. FFCHS is a group composed of over 600 members who have complaints consistent with the unwitting use of these technologies upon themselves in an abusive and harassing fashion.

Topics they hope to discuss include:

1. The history of unethical human experimentation in the United States including mind control projects such as MKULTRA funded by intelligence agencies.
2. That such projects have included development of remote means of accessing and manipulating the human

nervous system through electromagnetic frequencies.

3. That admissions by DoD agencies including patents, information gathered through FOIA requests, quotes from DoD personnel, and media releases reveal that these agencies have in the past and continue in the present to develop and research related technologies. Such technologies have focused on the use of directed energy in the form of acoustic and microwave energies including the currently funded research into synthetic telepathy at University of California Irvine.

4. That a growing body of citizens in the United States as well as other countries have complained of being subjected to such technologies, many in similar fashion, and that use of these technologies on the public would be consistent with established precedent.

5. That past attempts at specific legislation providing protection to the U.S. public from these technologies and nonconsensual experimentation have been unsuccessful. With the growing body of admissions of ongoing research and development of these technologies, legislation to provide these protections must be implemented along with investigation as to whether unethical use of these technologies is currently occurring.

6. That health implications may be a result of exposure to these technologies.

7. Specific case scenarios may be discussed. These reveal that these technologies may be being used in an abusive and harassing fashion. Furthermore, access to these technologies may have been acquired by personnel not directly associated with DoD agencies and as such poses an even larger threat to the public.

The interviewees seek to educate the public at large. The primary target audience is the public who is not currently aware of the history and development of these technologies and programs. Hopefully this will include members of the medical community who may encounter patients with complaints consistent with exposure to these technologies. This could aid the medical community in not falsely attributing complaints solely to mental illness. It is also hoped the audience will include members of political standing who could help enact legislation or investigation.

Members of the community who may be subjected to these technologies are encouraged to listen to the show and encourage others who may have little knowledge of such to tune in. The interviewees are uncertain if the show will allow call in guests. With this in mind they would appreciate if members of the community who may be subjected to these technologies to use discretion in deciding whether or not to call in and relate their personal experiences. This is a nationally syndicated show and establishing credibility is paramount to educating the uninformed.

The show can be listened to live via internet on Sunday November 15, 2009 at 9am

My situation is unique and very dangerous, however these crimes must be exposed so I will do whatever I can to

Yes I am (A TARGETED INDIVIDUAL). I have very powerful perps who have come at me from every angle in life.

They use people I thought I were close to me to work on me and they send others to get close to me, usually females.

So I have to watch my every step all the time. So far I am ok , not sure how long that's going to last but thanks for asking.

**26/7/16**

At around age 4 in 1986 I remember it clearly began but remember being even younger in a diaper sitting in my bed vividly at age 3 and touching the back of my head and thinking something about head surgery. I remember that moment as if I can go back to it and even remember it so vividly being in the moment from what it felt like, what I was wearing etc.

At around age 4 in 1986, I heard military soldiers talking to me remotely about thought technology while in my room on many occasions at night and I told my mom and to this day she remembers it in detail because I brought her around my room and told her what they said and where I was standing in my room. At that same age they tried to remotely induce sexual feeling and fear with images of a vampire. One soldier said "do you think she wants to be a terrorist?" I was lying in bed at night.

I grew up with them checking in and doing future communication type experimentation on me and growing up with my brain development and thought communication being normal. Sexual things were done to me remotely too like inducing an orgasm as a pre teen for my first sexual experience being raped remotely by a Paedophile. I didn't tell anyone because my mom had thought at age 4 it was imaginary friends and I got so upset she didn't believe me. There were no movies or shows about that stuff for me to make it up. It was too detailed.

At around 2011- 2012 My now ex husband had told me a CIA agent came to Raytheon in Woburn where he worked as a Software Engineer to recruit and he was planning to apply. Someone put official looking CIA cards on every door in our condo complex floor soon after and really strange things started happening.

I was caught off guard when the most heavy torture/experimentation started in 2013-current. I was an RN and volunteered in NY after hurricane Sandy and going through a divorce. I volunteered on the local disaster action team and Boston Marathon the year after the bombing and was almost at the marathon when the bombing took place.

I recently was trying to report Thomas Kendrew the father of a safe families that I was living with with my 9 year old son as a possible Paedophile. His logistics company was in the bid to be the logistics company for the 2017 Boston Marathon and I had no idea until he came forward and said but prior I reported a safety incident working through Taskrabbit doing home cleanings and to the FBI due to the nature of it.

Homeland security in response had me stalked, taunted, humiliated and followed and called a psychopath by stalkers and creepers ( I never told the Kendrew's about my experimentation and torture) out of fear of losing my son and being discredited.

My life and my son's life were threatened with vehicular homicide.

I reported to the FBI about a month ago finally about my experimentation and my son has been taken from me by my ex husband.

I have not seen my son, there are no court orders preventing me from seeing him or for a psych evaluation.

Someone from the FBI told his Uncle Ronald Valliere a police officer in Methuen, MA and he told my ex-husband.

My ex called the New Bedford local crisis center falsely saying he had not seen me in a few days and was worried trying to say I was suicidal.

A police officer came to the home I am staying at and my friends family stood by me and said he was using it as a tactic. The officer purposefully said is this Emily HOXIE to try and incite me talking to me over the phone because I was not there.

Since my ex has said I can not see my son unless it is in a Lowell facility where drug addicts see their children unless I tell him in detail about the experimentation

And he was trying to have his lawyer get a court date as soon as possible. There is no court date.

I don't do drugs, am not suicidal despite everything done to me. I never told him and only suffered through it out of fear and being told not to by Freedom from Covert Harrassment members.

Some of the remote torture was witnessed by my son and paramedics and Tufts Medical ER staff.

They induce grand mal type seizures I can try to talk through. Body temperature regulation, focus and hyper alertness, severe sleep deprivation, obeying subliminal commands, body manipulation and pressures on different parts of my body, 24/7 voice to skull conversations.

At this point my mind is almost completely blank most of the time to control my thoughts. They have done sexual stimulation and control. Control of having to go to the bathroom, feelings of hunger, mood manipulation and induction and exaggeration and having to control, altered states of consciousness, manipulation of people around me, synthetic telepathy, heart beat regulation and palpitations.

My world has been turned upside down.

God bless you.  
Emily

I am now pleading for help from anyone that I can get help from. My husband is trying to take me to court and take my son away for being a victim of testing in this country.

**9/5/2007**

I first became victim of torture through use of Implanted Neurological Weapons and Directed Energy Weapons in February 2000.

My home was illegally searched and a keystroke logging program was placed on my computer near the end of January 2000 (I think that this was an FBI program called "The Magic Lantern" and was publicly announced as a trojan horse that could be placed on a subject's PC to capture passwords.)

Shortly after that I found and removed the program from my computer. Within a few days, I woke up in my bed one morning to a voice that said, "Look, I think he hears us." Since that day, I have been victim of continuously progressive technology used for torture and harassment, as well as used to manipulate thoughts and feelings through voice to skull voice transmission and thought detection.

So that since that day, I've been forced to share all of my thoughts and feelings while listening to the ranting, hazing, threats, and insults of those torturing me. Since it began, the effects have progressed from tracking and harassment, to pain and torture, to debilitation, and will probably continue to progress to death. Most of the torture other than thought detection used to be from external directed energy weapons causing discomfort, vibrations and sensations, and varying degrees of pain.

Over time, most of the torture has been internalized and the symptoms have become externalized. I have multiple implants, including some that show up in CT scans. I have at least one inside my skull. Multiple ones around my head and base of skull, down neck and back, and in limbs.

I even have at least two implants in the head of my penis. The first one has been mostly used in conjunction with verbal stimulation and thought manipulation to positively reinforce or train me to like certain things. I often wake up with a full erection and can only remember a song in my head that I feel is played to erase conscious memory. The other implant is to torture and cause dysfunction during moments when I used to feel pleasure.

Other symptoms include eye manipulation so that my eyes continually go in and out of focus, float around, turn outward so I have a freakish wall-eyed appearance, head tremoring and muscle spasms, facial tics, severe spastic colon that is triggered as soon as someone walks into my proximity, vibrations in my legs as if my cell phone is in my pocket, ringing and itching vibrations in both ears, chest pains as if having a heart attack, difficulty breathing, fatigue, exhaustion, and joints that ache all over.

The stimulation, verbal abuses, and torture have been used in conjunction with mind control techniques to try to influence and destroy relationships with my family, friends, and associates. They have been used to try to undermine my confidence and sense of identity by trying to instill doubt in myself, change my sexual orientation, and lead me to indiscretions or criminal conduct which could be used against me.

People have been planted as co-workers or classmates for close surveillance and harassment; those people befriending me and later revealing secrets about me that no one else could know to anger and frighten me, and to tip me off of their associations.

**It's been over seven and a half years now since it began. The crimes against me are truly heinous in nature and are nothing short of rape, torture, complete deprivation of rights, violation of privacy, human**

**experimentation, and ransacking of my mind and soul.**

Those inflicting the torture deserve such treatment, but not at a cost of giving up my life to vicariously live someone else's, despite their character flaws.

**Rico statutes should apply against the whole system. It is truly appalling that the only people that think the crimes are unspeakable are the media.**

**Here's to public disclosure, knowledge, and swift resolution,**

**Yours Sincerely  
Chad Vandergriff**

**27/7/09**

It's been almost ten years now since it began. The crimes against me are truly heinous in nature and are nothing short of rape, torture, stalking, deprivation of rights, violation of privacy, human experimentation, and ransacking of my mind and soul. The long term effects are causing permanent physical and neurological damage.

Torture continues regardless of where I travel. Since it began, I have been stalked in Alabama , Arkansas , Colorado , District of Columbia , Florida , Georgia , Illinois , Kansas , Kentucky , Louisiana , Maryland , Mexico , Mississippi , Missouri , Nevada , New Mexico , North Carolina , Oklahoma , South Carolina , Tennessee , Texas , Utah , and Virginia .

**For the past four and a half years, I have kept a log of many of the abuses and tortures.** This is what it is like to be stalked, experimented on, and tortured with microchip implants and directed energy weapons. This is the FBI.

**(PLEASE CONTACT US FOR THIS TORTURE AND ABUSE LOG)**

This is by no means a complete list of the abuses and tortures inflicted upon me over this span of time. It is only a list of the more significant events that I did record. The daily accounts often don't list the continuous things I've become accustomed to, such as the uncontrollable IBS, head tremors, constant verbal interference and eavesdropping on my thoughts, ear itches, emotion manipulation, aches, fatigue, itches, etc. On days when I mention intense IBS, that usually means I'm going every 20 – 30 minutes and up to 20 or more times per day. And this torture continues, despite President Obama denouncing all forms of torture at his 100 days in office press conference.

I write this account in complete honesty and sincerity, and am motivated by the need for self-preservation, the want to see those torturing me held accountable for their actions, and the desire to once again live with the rights and principles that this country was founded upon.

I also think there are many other victims conscious of this type of torture worldwide, and still more that may be unaware of the causes of their symptoms.

Furthermore, I believe that Chad Brant Hagaman, when he walked into Mountain Park Elementary School in 2002 and assaulted Elizabeth Leake with a claw hammer because voices told him to, was driven to his actions by the same methods of torture that I am experiencing. I have read articles on him and his arraignment transcript, and there are many similarities to my account and the statements of the many other victims that need to be heard.

Why is more not being done to stop this?

Dear Sirs,

I first became victim of torture through use of implanted microchip neurological weapons and directed energy weapons in February 2000. My home was illegally searched and a keystroke logging program was placed on my computer near the end of January 2000. I think that this was an FBI program called "The Magic Lantern." I found and removed the program from my computer. Within a few days, I woke up in my bed to a voice that said, "Look, I think he hears us." Since that day, I have been victim of continuously progressive technology used for torture and harassment, and to manipulate thoughts and feelings through voice to skull voice transmission, thought detection, and transmission of extremely low frequency (ELF) electromagnetic energy (ELM). Since that day, I've been forced to share all of my thoughts and feelings while listening to the ranting, hazing, threats, and insults of those stalking and torturing me.

The stalking has included home invasion, car tampering, and interruption or filtering of telephone service and email. Since it began, the effects have progressed from tracking, harassment, interrogation, data mining of my mind, to pain and torture, and to debilitation. Most of the torture other than thought detection used to be from external directed energy or acoustic weapons, like a game of laser tag, causing discomfort, vibrations and sensations, and varying degrees of pain. Over time, most of the torture has been internalized with microchip implantation and the symptoms have become externalized. I have multiple implants, including some that show up in CT scans. I have multiple implants around my head and base of skull, down neck and back, and in my limbs. I have scans that show slices through the thin layer of tissue on my forehead and nose. In them, there's a small ring behind my left eyebrow. If you look closely in the scans, you can see concentric rings emanating from the ring. I think these are echoes or disruptions in the scans caused by electromagnetic transmission from the chip.

Other symptoms include eye manipulation so that my eyes continually go in and out of focus, float around, turn outward so I have a freakish wall-eyed appearance, my jaw involuntarily opens, I experience head tremoring and muscle spasms, facial tics, severe spastic colon, vibrations in my legs as if my cell phone is in my pocket and ringing, ringing and itching vibrations in both ears, chest pains as if having a heart attack, difficulty breathing, joints that ache all over, pinpoint stings or itches, and fatigue and exhaustion. I am pushed to the brink of unconsciousness fairly frequently, while at work, home, and while driving my car; even with my family members

riding with me. I also have implants in my privates. Penile stimulation is used in conjunction with verbal stimulation and thought manipulation to condition me or train me to like or dislike. I sometimes wake up with an erection and can only remember a song in my head that I feel is played to erase conscious memory. Others are used to torture and cause dysfunction during moments when I used to feel pleasure. My bed, instead of being a refuge, is where some of the worst torture occurs. I am assaulted all over with directed energy weapons while I try to sleep, and awake with sore spots, hemorrhages in my eyes, bruising, aching joints and muscles, and new implanted microchips.

I have also awoken with my entire private areas completely numbed so I have no feeling at all, including not feeling when I urinate. The stimulation, verbal abuses, and torture have been used in conjunction with mind control techniques and subconscious hypnosis to try to influence and destroy relationships with my family, friends, and associates. They have been used to try to undermine my confidence and sense of identity by trying to instill doubt in myself, cause paranoia, attempt to cause enuresis, attempt to change my sexual orientation, encourage discrimination, and lead me to indiscretions or criminal conduct which could be used against me. When one technique of psychological manipulation is unsuccessful, they move on to others or present multi-faceted attack strategies. I suspect they even tried reverse psychology for a short time when my involuntary conscious mantra became "I want to live." This isn't just an attack on my body and mind, but is an attack on my character, identity, health, appearance, and my faith in God. When I try to go through workout cycles, the torture intensifies until I am no longer capable of working out. In social situations, I am isolated because of spastic colon and other physical and nervous system disruptions to cause me to be unpleasant to be around or very unsightly. My facial expressions are manipulated and distorted and sometimes the disruptions of my mental processes are so severe that I can hardly talk. My body and nervous system are manipulated to torture me and keep me in a constant state of physical duress and mental angst.

People have been planted as co-workers or classmates for close surveillance and harassment; those people befriending me and later revealing secrets about me that no one else could know to anger and frighten me, and to tip me off of their associations. It's been over thirteen years now since it began. The crimes against me are truly perverse and heinous in nature and are nothing short of rape, torture, stalking, systematic deprivation of rights, violation of privacy, human experimentation, and ransacking of my mind and body. The long term effects are causing permanent physical and neurological damage. Torture continues daily, silently, and invisibly regardless of where I travel, and in the last 13 years, that includes over 20 states and Mexico. I even just recently moved from Georgia to Colorado, and the assaults resumed on the very first night in Colorado while sleeping in a hotel bed.

For about five years, I kept a log of many of the abuses and tortures of what it is like to be stalked, experimented on, and tortured with microchip implants and directed energy weapons. It is by no means a complete list of the abuses and tortures inflicted upon me over this span of time. It is only a list of the more significant events that I did record, but helps me to remember all they have done to me. The daily accounts often don't list the continuous things I've become accustomed to, such as the uncontrollable spastic colon and having to defecate at someone else's whim, the head tremors, constant verbal interference and eavesdropping on my thoughts, ear itches, emotional manipulation, aches, fatigue, itches, etc. With the overwhelming nature of the assaults and torture, I can only guess it's a program based on Martin Seligman's theory of learned helplessness, and victims like me are to just give up.

Furthermore, I think there are many other victims conscious of this type of torture worldwide, and still more that may be unaware of the causes of their symptoms. I believe that Chad Brant Hagaman, when he walked into Mountain Park Elementary School in Gwinnett, Georgia in 2002 and assaulted Elizabeth Leake with a claw hammer because voices told him to, was driven to his actions by the same methods of torture that I am experiencing. I have read articles on him and his arraignment transcript, and there are many similarities to my account and the statements of the many other victims worldwide that need to be heard. I also believe the Aurora theatre shooter, James Eagan Holmes was driven to his acts with similar, but more advanced methods, and that these engineered tragedies are being used to direct social policy. This isn't just my problem or an American problem, but a global problem.

The torture continues, despite writing to every Congressman and State Representative, the Presidential Commission on Bioethics, many sources of news and media including foreign media, ACLU, other victims, UN, the previous High Commissioner on Human Rights, and many others, and in direct defiance of President Obama's Presidential address denouncing all forms of torture at the 100 days in office press conference, and despite filing formal complaints at the FBI and OIG. I've tried finding help through many channels. Now I just hope to warn everyone I can. The United States government is complicit in human experimentation, torture, and gross human rights violations, and they owe me an apology and compensation.

Sincerely,  
Chad Vandergriff

The following excerpts from my notes are examples of my experiences:

6/9/06 Severe IBS all day. Painful pulses in left knee. Vibration in middle of back on spinal cord causing left knee to tremor. Intense radiating pulse vibration from center of back through night leaving me very fatigued and w/ sore back in morning. Also while going to sleep, pulsed, radiating vibration coming from right knee. Morning head tremors and chest pains.

7/15/06 Have become aware of use of implants in other parts of my body being used to target other areas. Implants in knees sending pulses at head while sitting. Implants in arms and elbows targeted at head when lying down. My normal sleep position is on my side with head on an arm.

7/16/06 Most of day spent listening to verbal abuse and dealing with floating eye. Eye kept moving through circles and back and forth at their control for most of day. Much stronger manipulation than normal-floating, circles, back and forth, through geometric shapes, back and forth.

10/27/06 IBS all day, when off work, no more IBS, but constant eye movement and sickening ELF's through head causing disorienting nausea, fatigue. At night, thought manipulation all night while I sleep both Friday and Saturday night. REM sleep and voices manipulating my thoughts.

11/6/06 Woke up to head assault, vibration throughout skull. REM activity as soon as I lay down. Awoke at 2:53 with head fully charged as if on endorphin rush. Conscious that my dreams are being manipulated and dreaming very violent dream of beating a man into submission and breaking his fingers.

11/12/06 Continuous assaults all throughout weekend. Prolonged head sensations of nausea, imbalance, head tremors, pain jolts, tones in ears, full body work over while I slept. Aches and pains all over when I wake, extreme fatigue, feeling of arthritis aches in every joint. Starting to feel like I'm getting very forgetful. Multiple times I walk into next room to get something and forget what I went there for.

12/13/06 Awoke at 4:00 am to active assault including rapid pulsed waves keeping my mind active and making it difficult to sleep. Continued verbal assaults, tremors, lack of balance upon waking, pain and headaches, difficulty thinking. Continued assaults throughout day-head pain, eye fluttering and floating, IBS, head tremors.

3/12/07 Awoke to rapid pulsed vibe through head. Went to bathroom. Came back to bed. Rapid pulsed vibration now focused on torso. I ran hand between me and bed to see where it's coming from-sometimes me, sometimes from bed. Pulses made my fingers twitch uncontrollably from involuntary contracting muscles. Heart and chest pains throughout day.

6/14/07 Awoke to erection and vibration through head of penis. I often think I'm having thought manipulated and

then awake to a favorite song running in my head to forget what I was made to think. This morning's song was Dave Mathews Band "Crash". Some pain and discomfort in temples throughout afternoon. Assault on eyes and temples making concentration and focus difficult.

7/23/07

All morning, balance off, more intense thought disrupting frequency through head making thought difficult and work almost impossible. Very unproductive. Can't focus eyes. At night, frequency in mattress not just off and on; relax and contract. They are now rapidly staged in increasing intensity and then off in 5 pulses every second to second and a half.

9/24/07 Worst night of torture for quite some time and second night in a row. High frequency from in head causing sleeplessness or REM state throughout night coupled with constant verbal barrage. In addition, worked over extensively with directed energy from an external source. Felt like constant flow of waves shooting through me and moving back and forth and up and down body.

12/17/07 Awoke to pulsed vibration over entire body. Shaky. Mid-morning intense humming in frontal lobe causing severe fatigue coupled with eye manipulation. Severe IBS all day long and into evening. Bump on chin and two pimple like bumps on base of skull. Awoke at 3:30 to Jack's crying for water. Head assaults. Whole brain feels like it's burning. No deep sleep rest of night.

2/7/08 Much thought manipulation while I slept. Constant theme in dreams of chasing something I can't quite catch. Looking for something I can't find. Reaching for something I can't grasp.

4/10/08 Throughout morning, head tremors, difficulty thinking. Today and for past week, am now having difficulty with short term memory recall. I can't freely recall knowledge or list recent project work when trying to talk to bosses. Everyone around me seeming to avoid me. People, even strangers, that I talk to frequently tell me "Take care" because of my outward appearance now.

4/24/08 Escalating torture. Awoke to headache, increasing in intensity after taking Tylenol. Floating eyes, itching heels, difficulty remembering what I worked on yesterday when updating project tracking. Vibration in tip of penis. All distracting me from work and making me very uncomfortable. Really intense headache now (1 p.m.) at back of neck instead of front.

6/8/08 Lots of facial manipulation, pursing of lips, more jaw movement. I feel fuzzy faint vibrating stimulation rotating around my mouth in my lips. At night, eye manipulation coming from stimulation/ELF between eyes. More sleep deprivation, intense vibration through core and chest and groin. Mental stimulation. Beams slicing through me from different angles.

10/24/08 Awoke again to completely numb penis. Can get erection, but can't feel anything. Also head feels burned

again. IBS throughout day, eye manipulation, head tremors, vibrating through lips and face. General feeling of discomfort and unease. Very severe disruption of nervous system in evening. Tremors, shakiness all over, great discomfort and physical stress

11/26/08 Worked over pretty good last night. Hands and arms very sore and tired. Could feel residual vibrations going through me for 10 minutes after I got up, similar to feeling of being on a boat when back on land. Lots of head tremoring and facial manipulation this morning already by 8:15. Afternoon, right side of head is very tender in spots. Primarily approx. 1" above and 1" in front of ear.

1/22/09 Privates numbed again. This time, entire penis, ½ of scrotum, pubic region up to just below my waistline, and extending all around anus. Local anesthesia? Eyes out of focus/cannot focus at work. Frequent tingling through abdomen originating from around anus, IBS. Feeling in nostrils now-raw and burning. Really rancid breath.

2/4/09 Many different frequencies transmitted from many different internal locations causing almost seizure or palsy-like state. Greatly elevated levels of physical and mental stress today. Severe tremoring, including arms, legs, head. Lots of facial manipulation. Lack of balance and coordination. Severe IBS. Have to go as frequently as every 15-20 minutes for a couple of hours. Jaw and mouth manipulation. More harsh verbal hazing. But at least I can feel when I urinate again.

2/17/09 Awoke very fatigued. Severe tremoring, facial manipulation, mental distress. Strong discomfort. Can feel tingling in back of neck through head. Lots of eye manipulation and fluttering of eyes, IBS. Trouble talking at times. Not stuttering, but stumbling on a lot of words. Thought manipulation throughout night. Blanketed pulsing all over body. Even when on toilet, felt vibrations coming up through floor into feet.

3/17/09 Severe IBS all day. Put under conditions of extreme physical and mental stress, great discomfort, tremoring. I'm very unsightly today. Facial manipulation, eye manipulation, IBS, interruption of bodily functions/disruption of nervous system. Continued through Madison's gymnastics trial. Sleep deprivation-kept awake or woken up frequently. IBS and directed energy assaults on various parts of body. Awoke with legs being targeted several times.

4/13/09 Severe head tremoring this morning. Again, headache through back of skull, both sides. Fatigue, stupefying trance. Evening, disruption of thoughts, mental ability while driving. I can feel strobing pulses on back of my head and base of skull when I place my hand there. Bed-head assault again as soon as I went to bed. Lot of dream manipulation and penile stimulation. Feeling again like some of it is through spinal block or spinal stimulation.

5/4/09 Severe IBS all evening. Lucid dreams of being a player in a fantasy game where I must kill other players to escape the fantasy world. Very lucid and a lot of external thought manipulation to put me in player scenarios. Each person in game had special characteristics like woman with hard skin that couldn't be stabbed. She also had a permanent fixed smile. I lost and missed elevator out of fantasy world, so remained trapped in game.

5/6/09 Awoke to mild assault targeting middle of back with vibrating pulsed directed energy. Morning and afternoon, pushed to sleep/unconsciousness. Nearly impossible to focus and work. Eye and brain manipulation, eye twitches. Very severe assaults today. Morning, lunch, and entire afternoon, brain shut down and pushed to edge of unconsciousness while at work coupled with severe IBS in afternoon. Very unproductive day. When I was working, I could barely keep attentive of subject matter. Recorded 5/21/06-5/28/07 calendar notes.

5/7/09 Beginning day with pressure inside head, slight headache. Jaw opening involuntarily, deep itch in left ear, left eye twitching. Feel anxiety of today because of torture yesterday. Mid-day, again pushed to unconsciousness making work pretty much impossible. Almost complete impairment. Night-every time I wake up, I feel targeted over most of body.

5/18/09 Start day with lots of facial manipulation. Vibration through lower lip, fighting to keep my jaw closed.

Mid-morning, both eyes twitching, barely able to stay conscious. Now doing it when I walk too so I can hardly keep balance. Have feeling of room growing dark. Early afternoon, head pains, most of afternoon spent trying to stay awake and focused. Evening, not feeling good. Disruption of brain activity and nervous system to point of extreme mental anguish and mental and physical dysfunction. Light sleep. I was aware of a lot of thought and dream manipulation, but upon waking, could not remember specific details.

6/4/09 Awoke to eye manipulation and another assault I can't recall right now. Squeals in right ear on way to work. Very brief sharp pain first in right hip joint, then in muscle at top of calf, then in left hip joint while walking to car at QuikTrip. This new and I suspect is from external directed energy weapon. Sleepiness/overwhelming fatigue at work. Eye manipulation, pings or pulsations in eye muscles, repeated spasms. Suppressed respiratory system so that I have labored breathing.

7/8/09 Awoke at 5:30 to IBS. Again, IBS through shower, ceasing as soon as I tried to go. Very fatigued and sore in upper torso today. Arms and muscles in chest, heart, and lungs feel like they were targeted last night. Lot of jaw manipulation already while at work. Lots of eye twitching, occasional deep muscle pain and contractions in legs. Worked late on [familyrecord.us](http://familyrecord.us), so expected sleep deprivation. Got it. Lot of verbal hazing, mental stimulation, torso assaults. Directed energy-about 1/2" beam passing through heart causing stabs of pain, high level of discomfort. Jaw manipulation while trying to sleep.

8/14/09 Jack crawled into bed with us in morning. RF assaults continued even with him beside me. Afternoon, really disruptive interruption of nervous system. Tremoring, head wobble, very strong mental and physical discomfort, nauseating sensations. Not pain, but extremely unpleasant. Head wobble is not just from interruption of nervous system, but buffeting head side to side through manipulation of muscles. Back of head headache again. From afternoon through Sunday, 8/16, many periods of heart and chest pain or prolonged periods of heart discomfort.

12/1/09 Another attempt at incontinence. I had a lucid dream about being in a very severe storm with a tornado overhead and bearing down on me. I'm running around the downtown area of my hometown looking for a place to take shelter, but there is nowhere to hide. A voice is saying to me, "It's not a matter of if it will hit, but when." The buildings on the square are different and not in their normal places. Finally, the skies cleared. I was relieved and was to relieve myself on the wall on the back of a building. That's when I awoke.

12/17/09 Awoke with front teeth, lower lip, upper lip left side feeling like they're anesthetically numbed. 8:20 a.m. still numb. Sinuses are opened and throat feels raw. Lungs feel afflicted like I had a caustic inhalant again. The voices are telling me I have five days to live. They're very irate today. Pushing me to sleep or deep trancelike state again while I try to work.

1/3/10 Haven't recorded any notes through holidays, but now coming up on 10th anniversary of beginning of my ordeal, violence against me is significantly increasing in frequency and severity. I am getting cooked every night when I go to bed to the point that I ache all over throughout the day. I wobble, stagger, and tremor. Every night I face constant thought and dream manipulation. Now having more frequent deep muscle pains in various extremities, disruption of nervous system and brain function.

3/23/10 Lot of jaw manipulation and IBS today. Light tingling sensation through frontal lobe throughout first half of day causing dizziness, disruption of thought, inability to focus. Overnight-another attempt at incontinence. This one is new approach of separate distinct attacks on mind and body. Lot of thought manipulation in my dreams, but I awoke with fuzzy frontal lobe stimulation almost completely wiping my thought processes. Over body, I felt a light stimulation to my privates, semi-erection, natural urgency to urinate in the morning, but my thought processes were blocked to keep me from getting up to go.

4/26/10 Head wobbling, sleepiness, fatigue, light frequency through head disrupting my thoughts and making me very sleepy. I can feel waves passing though my teeth. Can also feel frequencies up and down my back on spine.

Have to do many do-overs on work today. Frequently nodding off and can't seem to fight it. Can feel the pulses on the back of my neck with my hand again.

5/26/10 Lot of facial manipulation and jaw manipulation this morning, distorting my face. Often little things are done to constantly remind me I'm always accessible and they're always there.

5/27/10 Again, very jerky head movements throughout day, disruption of nervous system. Constant state of physical and mental discomfort and elevated stress. At night, lot of dream manipulation. People are imposing themselves as my friends into my dreams with one person saying something like, "Look, Pat's here." Then another person taking on his persona.

8/18/10 Entire day of severe torture. Most of early morning including commute spent fighting involuntary jaw opening. Also having hand tremors and tingling all around my mouth. 10:30 began pushing me to sleep. Overwhelming fatigue. 1:00 more induced sleep. Very strong sharp pain in left ear. Eye manipulation and blurred vision. 3:00 More incapacitating fatigue. Pushed to sleep or knocked out repeatedly while trying to work. Head tremoring even while sitting still. Severe IBS all day. Severe head tremoring and mouth and jaw manipulation continued through men's group.

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

Case summary of Directed Energy, Neurological Weapons and/or Organised Stalking Torture and Abuse on Thérèse Versailles, Montreal, Quebec, Canada.

In December 1990, after two restfull sabbatical years in Mexico and in United States, I bought a house in St-Hilaire, near Montreal, Province of Quebec, Canada.

At the begining of 1991, I started feeling in my body indescribable and horrible sensations.

So indescribable that I could not put words on what I was feeling as these horrible sensations were totally unknown to me. It was as if something undetectable coming from the exterior of my body was attacking me.. making my molecules vibrating, sometimes under my skin, sometimes deep in me, giving me total discomfort, sudden intense and strange pains all over, electric chocs and the feeling at times of being in a magnetic field , uncontrollable cramps, stabbing pains. At times I had burns under my skin and at different places in my body without anything showing, I had trembling sensations though nothing was moving, I had such big moments of fatigue that I was falling asleep everywhere. I was often in a lethargia and a total powerlessness.

My body was strongly reacting to these phenomenas and pains. At first, with sleep deprivation for a long time. Each nerve of my body seems to be on edge and my body was under extreme suffering physical tension with no possibility of escaping. Each night, without any possibility of defending myself, "vibrations of my molecules" were invading my body, at moment as if something was moving inside of me, especially at the solar plexus level. On top of that, I had uncontrollable brusque movements and muscles bending, nauseas, knotted stomach, muscles hard tightening in my solar plexus, severe stomach and intestinal problems and a continuous sound in my hears. My body was totally out of my control and it was terrifying!

In the morning when I was getting out of bed, my body was so stiff and painful that I had the impression that all my nerves, my muscles and my tendons had shortened and that my abdomen was as hard as a stone even if I had taken pills to sleep.

I was trying to defend myself the best I could with the anguish of being submitted, each night and sometimes during the day, to horrible things against which I could not, in any manner defend myself and, most terrible, without the possibility of proving that these were happening.

I felt that my health and even my life was in great danger. If it would not have been of little nuns who permitted me to sleep at their convent for months and prayed for me, I think I would have die as the phenomenas were such a terrible tortures.

Few months later, adding to what was happening to me, odd things started happening in my house, on my computer, on my phone, with the electricity... and I started being followed, being entered in my house, having people on my phone line. At my work as a real estate agent with approximately 15 listings, months later, suddenly the phone stopped ringing. No more customer! At the Real Estate company where I was working I found an empty little box sticked under my desk. What was in it? A "mic"? Later, my motor home was stolen, and then my Voyageur Van and then my tenants were robbed too.

I was exhausted!

I changed house and moved. I hired a detective who told me that there was a big organisation behind all what was happening to me and that I was on the black list of Hydro Quebec and also listed at the SCRS....

I had many many medical exams... nothing was ever found even if I had pains, diahrrea days after days, vibrations during my sleep, burns.. nothing...

Last year my doctor who was a friend died from leukemia....

During these years, when I was not struggling to earn a living, I went away for months, traveled many places and

all the time and everywhere, strange and incomprehensible things happened to me with, of course, the "vibrations" and the continuous sound and sometimes the burns always reaching me after a shortwhile wherever I was...

I moved many time until I understood that wherever I would be these things would go on happening to me.

In 2000, I sold the properties that I had in St-Hilaire and stangely, my beautifull house with a terrific view that I cherished without being able to live in it was bought by people that were working for Hydro Quebec and the same with the little chalets that I had on the river which were bought by another employee of Hydro Quebec.

I settled in Montreal in 2001 and not long after my installation, everything started again: the vibrations, the pains , the burns, the stalking...etc... I moved again... and it is still there... After I bought a numeric camera, the stalking slowed down ... but it is my opinion that the people who are using the Directed Energy, Neurological Weapons and/or Organised Stalking Torture and Abuse have refine their technologies and do their malevolences with computers and even with computers on cell phones.

Finally I found Eleanora White and Liza Parker in Toronto at first and then CAPT in France ( which is not available anymore) and Mind Justice and all the other sites because I was kept informed all these years. Reading them on internet confirmed me that I am being harassed in many ways and that I am not the only one as so many people in the world are also victims and targets of devilish organisations.

I would have so many more things to say: Hundred of pages could not tell all the terrible things and also all the coincidences that happened to me. It took me years to be able to write about what I live and years to translate it in English as my main language is French. And each and every time I tried to send them, my computer felt apart. But not this time...

Each and every morning I take back my life in hand and my courage hoping that the tortures will stop. I believe that I am victim of secret technologies that are destroying my health and my life.

I am struggling to survive, to have happiness in my soul and my heart and I fight because I have 4 children and 8 grand children and for them I will go on fighting knowing that one day the truth will come out in the open light and that this kind of slavery of human beings will not prevail.

And I still believe in the quest of humanity for kindness and love.

## ENERGY AND NEUROLOGICAL WEAPONS

**30/9/08**

It is with great regret that I inform my fellow TIs that a fellow TI has committed suicide.

Her name was Rena, and she had a brief blog that she kept at the following address:

<http://tinyurl.com/4knhho>

Over the last couple of months, she and I had become friends. She had stayed over at my place a couple of times, and we shared our stories. She had also been a victim of the electronics, as many of you are. I had hoped to perhaps engage in a relationship with her, and now she is dead.

Rena was a very sweet lady about my age, who also happened to be legally blind. What these bastard pig shit sewer scum gangstalkers do is evil.

I am just sick right now, and I can't say anything more.

Dave Bullivant

**30/9/08**

Some additional information on Rena: Her full name was Renate Vettleson, and was a relatively new TI who was attending our weekly support meetings in the San Francisco Bay Area. She committed suicide early Sunday morning, September 28, 2008. This was her second attempt; the first was a few weeks earlier. We were not successful in getting her to see a psychologist or psychiatrist, which many of us close to her felt was best in her situation. She frequently complained that the electronic harassment was too much for her to bear. We did all we could to help her cope and provided her with several types of shielding.

Her targeting began late last year while pursuing an advanced degree in preparing to become a social worker at the University of Minnesota. She then moved to San Jose, California, earlier this year. Her roommate and caregiver, a non-TI and close friend of Rena, is making arrangements for a simple memorial service, and everyone in the weekly TI meeting support group is invited to attend.

Some of our **DIRECTED ENERGY AND NEUROLOGICAL WEAPONS, AND ORGANISED STALKING TORTURE AND ABUSE CASES** detail the most extreme and totalitarian violations of human rights in human history, including the most horrendous psychological tortures, rapes, sexual abuse, surgical mutilations, 'mind

control', and other mental and physical mutilations – see <http://www.freedrive.com/folder/177784> OR <http://www.mydrive.ch> username – johnfinch password - TORTURECASES

There are **MANY, MANY** others, all over the world, who are being subjected to similar torture and abuse – citizens, combatants and leaders ('suicide bombers', coup-de-etats and puppet governments, literally).

**YOU HAVE BEEN CHOSEN TO BE “A SELECTED WITNESS”** to these are extreme and monstrous **CRIMES AGAINST HUMANITY** – indescribably terrible in themselves – coupled with the **ORWELLIAN/STALINIST** secrecy and denial of any support at all that we are experiencing, makes them even more horrendous and monstrous.

We have contacted most Governments, Security/Intelligence Agencies, Religious Organisations, International Organizations, Human Rights Organizations, Universities, Scientific and other Institutions, and the International Media all over the world - over and over and over again – and have had our appeals for assistance, protection and/or publicity almost completely ignored and/or suppressed.

Some TARGETED INDIVIDUALS have been attempting to gain assistance, protection and/or publicity about these crimes since the 1990s - and even earlier - this extends as far back into the history of illegal "scientific and medical" testing and experimentation as MKULTRA and the DUPLESSIS ORPHANS - and further.

We are still collecting **CASE SUMMARIES** from TARGETED INDIVIDUALS all over the world, and we have also advised them to send them to you – **“THE SELECTED WITNESSES”** - TO WITNESS, RECORD AND OPPOSE so that :-

A. We can be sure that as many people as possible know about these horrendous crimes.

B. We can be sure that these AUTHORITIES and ORGANISATIONS are either trying to uphold the rule of National, International and Human Rights Law, and that we will, sooner or later, be protected by these laws.

C. Or that we can be sure these AUTHORITIES and ORGANISATIONS are complicit and/or acquiescent to these CRIMES AGAINST HUMANITY and that National, International and Human Rights Law no longer apply - in which case our task will be to get the rule of these laws restored.

Later these records should become an information source - such as the INTERNATIONAL TRACING OFFICE set up to record the fates and whereabouts of Jews (and others?) after WW11. The information collected can then be used by the appropriate people for LEGAL, MEDICAL, WELFARE, HISTORICAL etc. records.

As well as being illegal the crimes being committed against us are contrary to the Principles and Values of all the major religions and ethical systems - so we will also be demonstrating to all of these people and AUTHORITIES AND ORGANISATIONS the huge disconnect between their professed Principles and Values and the reality. We will be showing their monstrous Doublespeak Doublethink Doubledo ignorance, stupidity and/or hypocrisy.

**It is our responsibility to record and alert the world to these horrendous crimes - and the extreme danger that these technologies, powers and tendencies pose to human rights, liberty, democracy, privacy and the mental and physical freedom, individuality, integrity, health and growth of all people – in all their “infinite?” richness, degrees, dimensions, aspects, qualities and diversity!**

**Make no mistake these are the most horrendous totalitarian weapons and crimes imaginable and the people and organizations using them are mass-murdering conspirators pursuing totalitarian fundamentalist schemes.**

Beware of the brain and gene phrenologists/determinists/reductionists, and those who seek to control and reduce the range, quality and diversity of human thoughts, imaginations, senses, sensibilities, moods, attitudes, speech and psycho-physiologies – the would-be socio-economic, cultural AND PSYCHOLOGICAL/INTELLECTUAL/PHYSIOLOGICAL monopolists, monoculturalists, police and prosecutors who are already literally and physically actively at work amongst us!! Both monstrously and criminally, and also far more insidiously.

And beware of this dumbing-down, disenfranchisement, degradation and monoculturalisation caused by the paucity and total degradation of public information and discourse, and the subsequent and consequent destruction of

previously autonomous cultures, professions, fields of human endeavour, memories, and intelligences.

NOT TO MENTION THE NUTCASES PURSUING SUCH FRANKENSTEIN-SCIENCES AS THE TRANSGENIC, AND THE “BLENDING” OF THE TECHNOLOGICAL AND BIOLOGICAL– EVEN AS RECORD BIODIVERSITY AND CULTURAL DIVERSITY DESTRUCTION IS DONE.

**It is no exaggeration to say our cases are as horrendous and urgent as people fleeing Nazi or Pol Pot concentration camps – specifically Dr Mengele-type butchers.**

**We urgently need access to [SAFE HOUSES](#) to get protection from the directed energy and neurological weapons being used to torture, mutilate and kill US.**

**Such [SAFE HOUSES](#) are available in Laboratories, Hospitals and Scientific/Military Facilities.**

Hoping you send your support and write in your story in order to put a stop to these horrendous psychological tortures, rapes, sexual abuse, surgical mutilations, « mind control » brain implants and other mental and physical mutilations, if you run down the list of names to V, you will see my signature. We live in one of the most hypocritical countries in the world where there is total violations of Human Rights here in Canada and the province of Quebec concerning the Duplessis orphans case and MKUltra and we can go further, the selling of the Duplessis orphans Human organs, only a scandal in these cases will put a stop to these tortures and discrimination and crimes against humanity and the truth about these cases. In Canada and Quebec, the governments preach Human Rights, but they don't respect their own words that they preach.

Your case summary is very good. However I cannot write all that. It's just too long. Can I simply write my name and date?

**1/5/08**

I mailed out numerous letters and I haven't got a replied from law enforcement agency. I think they are hacking too, In my opinion if citizen hack then gov't can hack too! I don't know what is your situation but mailing out flyers to fellow mindcontrol victims won't do any good. They are very well aware of the situation and coping with friends. Problem is I have no friends here but Mecca of Mosquitos(MindControl) Community I'm in. I think I better talk to u then be silent.

I sent this to quite a few Senators. Please feel free to use it. God Bless from Joanne Hastings, Marble Falls, Texas

**Many law-abiding US CITIZENS are being tortured 24/7 in and out of THEIR OWN HOMES.**

This activity is often sanctioned by the US Government/Department of Defense and includes various illegal and horrific acts. Local police, firemen, "professional" military types, young boys, threatened neighbors, and people pressured in joining these satanic acts because they can't stand the attacks, comprise large groups of people torturing a single person every hour of the day.

All you have to do is read the first two websites below the flyer that I made for victims, to realize how it is ruining people lives, not only in the US, but around the world.

**The "Non-Lethal Weapons," these groups use ARE LETHAL and offer up perfect murders, suicides and force some to be institutionalized, either mental or jail, where they are relentlessly experimented on by these same weapons.**

We, the people/victims are not crazy, but are made out to appear so.

Below is my story in Marble Falls, Texas. I have been harassed for 1 year here and 4+ years Camp Verde, Arizona, where my ex-husband is still being harassed. Marble Falls, Texas harassment is much worse than Camp Verde, Arizona, I think, because I am alone and the land is different.

If you want more proof, ask to see satellite images that seek heat and check out what's been happening at my house at 301 E Oak Ridge Drive in Marble Falls, Texas 24/7. You'd only have to check from March up to now (April 10) 2008. The hours between 2am and 4am are particularly awful.

**PLEASE BAN THESE WEAPONS. THE PEOPLE USING THEM SHOULD BE PUNISHED AS TERRORIST!**

WHY?

Why am I being attacked? –

I am convinced that close friends/relatives of Law Enforcement/Military, like me, are being tortured as part of a master plan perpetrated by the secretive group bent on one world government (e.g. Bilabergs(sp?), Ultra Sonics, Satanic Fascists.) Heretofore, I'll call them "They."

Use of these "non-lethal weapons" provide an ideal way to control, disable and murder people whom They deem expendable, leaving no evidence, except what is contained/controlled by them. The best evidence that victims should demanding from our Government is satellite tracking, which all the victims know, will prove the harassment that they are experiencing. I believe that They are manipulating local Police, Military, criminals, and civilians into perpetrating these acts. The benefit to Them is to test the weaponry, to intimidate everyone, to cause civil unrest. It is quite apparent that a US citizen who is either a victim of this torture and/or who has knowledge of it, cannot trust their local police, the military or any other aspect or agency of the US Government.

I believe that my extended family's illnesses such as Lupus, Fibromialgia, etc. are the result of this torture. I am positive that the recent missing data on millions of US military personnel is no accident.

Finally, I think Their implementation of Their master plan is far too along for us to do much about it. It is quite apparent to all who choose not to ignore the plight of the world, what is happening. "They" already control the money, power and media. Logically, military and police are next. Personally, I'm sure They have already killed me as I have not been idle in my attempts to comfort the victims and make people aware of what's going on. They would love people like me to be looked upon as crazy. Fortunately, I have many who know me and know the truth. I've been hit so hard that I honestly think that it's only through the grace of God that I'm still alive and functioning. God Bless You, America and the World.

**DEAR SIR/MADAM**

**WE SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**7/9/08**

We have been victims of directed energy weapons, remote harassment, and organized stalking since (1994-1995). The phenomenon is real. It includes psychological harassment to induce isolation, depression, and suicide; physical and emotional manipulation; and devastation of financial and social resources.

Our story is attached for your information and to be used to assist victim(s) of this horrendous crime, and participate as activists against these crimes. We have submitted documentation and relevant testimony to specific instances of harassment, and we have meticulously documented each occurrence of these assaults. To hear our story would be terrifying and bewildering to an audience unaware of the specifics of these crimes so I will reserve it until we can clearly, coherently, and efficiently speak about them.

Nobody is above the law, yet some group(s) or agency out there believes them to be. This is not right!

Our Constitutional rights have been trodden upon and abused, our human/civil rights disregarded. The perpetrator(s) of this action(s) are free to enjoy their rights, to go about our country and enjoy each and every day of their lives, but we do not get any "rights" whatsoever. Our uncles, our brother have fought for democracy and freedom for us and we can not enjoy this freedom.

This is indeed, cruel and unusual punishment.

We are also being denied our "right" to pursue happiness. This undetectable torture is constant ?24 hours a day, 7 days a week, including while asleep (electronic rape, holes put into crotches of underwear, our bluejeans (crotch area), our clothes, chemicals being put in our homes, our food, our water contaminated - thus preventing us from finding emotional and psychological equilibrium, which takes its toll on our health, our well-being and our ability to be productive members of society. Medical, psychiatric, or social services are generally unhelpful or serve to alleviate only a few of the many symptoms that are arise from these assaults; remember, the attacks are ongoing.

The use of directed energy weapons, remote harassment, and organized stalking are quite plainly unlawful and criminal acts. Legislation must be enacted to increase awareness of this hidden menace and to outlaw use of these weapons. Only through making the use of these weapons illegal will we be on our first step to alleviating this highly organized form of domestic terrorism.

The other "torture" of this type of crime is against the "ELDERLY", who are so vulnerable, who are helpless in their everyday activities is despicable. We are caregivers for our elderly mother, we have looked after her for so many years, and yet this type of criminal behaviour is accepted by the public and others organizations.

We refuse to surrender our freedoms and we demand justice! We need to voice our opinions publicly without fear to politicians, doctors, police and medical without being considered 'MENTAL' by anyone of these groups.

Attached are the following documentation for your use: (please contact us for attachments)

- 1) Background Documentation Supporting the Summary
- 2) Letter For Documentation
- 3) Our Symptoms
- 4) Summary of Things Happening in our homes in Elora and London

## **SUMMARY OF THINGS HAPPENING IN OUR HOME IN ELORA AND SOME OF THESE HAPPENED IN LONDON, ONTARIO**

Categorized for all three of us as being "MENTAL" – this is not true  
 Loss of money from our purses numerous times (unauthorized entry into homes)  
 Marlene and Mary Vivian are caregivers for our elderly mother who is affected by this, such as her walking abilities, her vision, her desire to eat things which taste so sour, we believe her leaky valves (heart condition) was triggered by this  
 Frustrations of doing things in life are a stumbling block  
 Cutting the lawn with an electric mower – cuts out and dies, then you have to wait for it to restart – this is being monitored by this individual  
 Can't do proper cooking in our home, washing, cleaning, laundry etc.  
 Microwave timer – you set it for a specific amount of time, it is done in about 1 minutes of instead 3 minutes  
 dirt all over floors, you sweep up once, twice sometimes three times daily  
 oily and greasy residue on all floors  
 black, reddish brown, yellow, white, chemicals in our home  
 chemicals are dropped on our bodies, hair, clothes, socks, i.e., brown, transparent, yellow – when you shower you can see the yellow coming out of your hair  
 if you go to any window in the house to look out, you get an offensive smell, then an irritated dry sore throat follows  
 constant break and enters into your home, including when sleeping and in your bedrooms doing whatever to you,

unannounced to you

all the appliances, freezer, fridge, stove, smoke detectors, furnace, hot water heater, air conditioner runs when it does not need to run, motion sensor lights come on, lights on the house outside come on – all done via laser have seen ultra violets beams on all lights in our home (basement, main floor)

ultra violet beams underneath soffitt

water shutoff valve in front lawn had 2 hard yellow looking pieces on them (look like a hard rock but it is not), black stuff on top of the valve and around the shaft your fingers can go down the shaft causing our water to be stinky, burning your skin, ears and eyes.

Foods taste sour

Foods brought into the home are lasered (dents in coffee cups, food tastes sour)

Water from our municipal taps have an offensive odor and tastes awful – had water tested in 2004 and in 2008 – results OK – can't drink the water forcing us to buy bottled water

When showering your skin burns and ends up with red rash, severe headaches, nauseated for a day or two

Electronic radios, TV are turned off/on, the TV has laser beams pointing at it and when you watch you are getting the beams in your eyes. Our antenna has been rotated, Mary programmed in all TV stations, example - channels 2,4,7, etc and all have been deleted.

Sensors or beep sounds are heard wherever you walk in and around the house. On the street you walk by certain trees, basketball nets, you hear like a bird call, cricket sounds.

All furniture, dishes, clothes, shoes, food, water, microwave, dishwasher, all appliances, beds, sheets, pillows, radios, TV, washer, dryer, everything and every inch has been sprayed.

Computer sprayed, someone blocks all emails, and other spying on our computer. When someone types notes, our notes are changed, our email addresses are changed, example we received email in August 2008 but was dated back to January 2004 but never had email until February 2005.

People receiving emails regarding this, they do not get their emails sometimes, we get notes back from the postmaster, date calendar changed from Aug 11 to Sep 11.

Gases in our home – can see droplets in and outside of home – we are breathing this 24/7.

Unauthorized bodily assaults with lasers, watching you shower, washroom breaks, changing your clothes, underwear, HOW SICK IS THIS?

When you close your eyes, you see “WAVES” and laser beams directed at eyes

No birds, butterflies, bees around our home

Vegetation (lawn, organic vegetable garden), peach trees, flowers are being destroyed by this radiation and by some one spraying.

Water in sump pump and sewage clean out area looks oily and greasy film

Our health is not good (see symptoms)

Hair in our tooth brushes

Sounds like a low hum throughout the home night and day – night time its more louder

When you put on clean clothes, socks, you get droplets on clothes, socks and when you walk on the floors, you get the oily black, yellow greasy film which goes into your feet

Silent phone calls – no one is there, cross-talk and echoes on phones in London and Elora

Clothes, towels, facecloths are continuously black and yellow every day. Our Naturopathic Doctor Pronk thought the yellow chemical was iodine based.

We use paper or cloth towels to soak up water around the bathroom tap, these towels are completely saturated with water – before they would be dry or slightly damp.

White chemical like paste which hardens found under toilet tank and under seat. Red chemical around the screws holding the seat together.

All sink drains, kitchen, bath had the same white chemical on them along with green oxidation on copper pipes

Linoleum cut and resealed and hardwood floors have been slivered to add chemicals between slots

When walking on the street or in the house, droplets are dropped on you – you can not see these droplets with the naked eye – only with a digital camera, but you do feel them

Laser beams appear under all lights in the home, basement, main floor

The wash basins in the bathrooms always have a foul smell.

Our wood window sills in sunroom are being marked and destroyed

Packing material used to ship our windows were put on recently again (sunroom is 2 years old, the other windows are 4 years old) – all packing material was removed when windows were installed, but were put back on twice, removed twice. This has now stopped.

Cooking smells in our home around 10:00 p.m., also in stairwell, master bedroom and kitchen area

Taking pictures around house, Mary has now stopped because of police complaints by the perpetrator. Our next door neighbour told us to be careful.

Notice many chemical stains on our cement driveway (white, black stains)

Stones around our flower and vegetables gardens – some have been lasered (pieces missing from the stones, other stones have totally disappeared).

Toyota hybrid prius started on its own,, gas disappears from the tank, mileage seems to change on the display screens, eg, if it is 21 km then it becomes 23 km

Basement floor, root cellar, cement driveway, cement floor in garage and foundation of garage have been pitted or gutted out (lasered) with bigger holes. Root cellar walls look like they have been sanded down and filled in after the CBM representative Bob Hull came to investigate.

Marks on walls, floors, ceilings have been put there by someone (not us)

Shoes, rubber boots have been cut on the bottom, or around heel, shoes have oily, greasy film, yellow or black chemical stains inside of them

Clothes, underpants, jeans, socks, t-shirts, have stains, holes put in them under the arm of t-shirts, underpants have holes in crotch area, jeans crotch area. Underpants and socks disappear. The underpants and t-shirts are hard to pull apart after being washed.

-Bedsheets, pillows, pillow cases, towels have black, white and transparent stains on them. Washed all the pillows, that same day, a transparent chemical was sprayed on all pillows and had an offensive odor. The pillows were wet for a couple of days. The pillows had been air-dried outside in the hot sun. This is being done through lasers reaching into our home some how. Marlene and Mary actually saw the beam with a round disc projecting through our home with a reddish chemical on the beam.

Our royal mail disappears – must call for bills to get second/third copies. Our income tax slips disappeared, had to follow up and get them. We are not sure what other mail is missing. Our magazines such as Organic Gardening or Kraft recipes sometimes disappear.

Water runs mysteriously in our home – can not locate this. We believe this used to cool something (like pulsed lasers

Our hydro bill (Elora) before perpetrator moved in was around \$200.00 per month, this dropped down to \$120.00-\$140.00 per month? Why would that be? We did not add or delete anything - we did a trial basis in July 08 – no change to bill.

Noticed an awful taste around our lips like some type of laser being used to do this, noticed this in our home as well as Niagara Falls.

Irritation in the body like there is a chip in you – our arms, hands, ears, teeth, neck feels numb or tingling sensation. Marlene experienced soreness (a cut) around her tailbone for 3 weeks. Mary and Marlene both experienced soreness (cuts) in our arms for 3 weeks. Mary noticed her ears were sore (a cut) for about a week. Our feet had cuts on bottoms. Mom has similar issues with cuts and sores.

Zaps to your body, mouth, teeth, feet, legs, torso, eyes, every day 24 hours a day

Water tap in kitchen and master bedroom – takes the hot water forever to get hot – you are running water and wasting it. When water department here to check water, the hot water ran perfect.

“WE’RE WATCHING YOU” post-it note found in locked car in locked garage.

Found small plastic bag in locked garage in box with wooden sticks from “ACTIVE” which is an electronic store in Toronto – “Needle Nose Pliers” – this is not ours.

Caulking around the house has been disturbed – it was put on by Mark (Contractor for Keating Construction) – his work was so smooth, parts of the caulking are rough and not neat as before.

Windows we believe have a red transparent “License Plate Blocker” on them – can not take pictures at night – reflection back into our home.

Digital camera stolen from our home, brought back, can’t take certain pictures of the area. Also, pictures taken of suspects following have been erased from the camera, pictures of other destruction, deleted before we can download them.

Marlene’s older camera – film destroyed, blocked also from taking certain area pictures.

Furniture, beds all seem to have lasers bringing chemicals into home and putting you to sleep.

Once a sleep you do not wake up for over 6 or more hours – Marlene and Mom would be up a couple a times during the night. This does not happen any more.

Different smells (smoky, aftershave, cooking, offensive, new car smell are in our home daily.

Different color stains in our car – reddish, black, white and odors

Toothpaste makes you sick when brushing teeth, toothbrushes have an offensive smell.

Eyeglasses have chemicals stains on arms, nose pad and on lens – you clean your lens and the stains are right back again.

Paper towels, toilet tissues have a black looking film – toilet tissue is irritating, puffed up as though air has been inserted.

Mary was driving her car with passenger window down, when a black chemical was flung through the window hitting her on her blue sweater.

Any powdered food item, powdered soap has something put into it making it look wet and clumps together

Soap, Laundry soap, dish soap, disappears. If liquid soap, looks like the container is empty, he fills up the liquid container. Why does this container fill up and with what. Our brought water is the same, it disappears from a "SEALED" cap.

All our food items, oranges, meat, cereal, personal items, soap, and so many other items disappear.

Our home was a new home built in October 2004 and now has so much destruction –minor vandalism noticeable by us the owners but "construction to other people's eyes, ceilings, doorways have pinprick holes, marks (half moons) on walls, red and yellow chemicals sprayed on ceilings, etc.

Back patio door has been cut and resealed – does not appear as a "break and enter". There are some marks on patio door where this apparatus was.

Cobwebs appear around our house, doors, windows, etc. Numerous moths are attracted to this, what is this radiation chemical????

Coffee pot has white chunks coming thru - never had that before. The water is always murky looking even using bought water.

Likes to play with plastic bags

Have seen a "Spy in the Sky Gadget" which looks like a bright star (there are 2 – one north, one south and other blinking things) and when you look up you get a beam in the eyes. These are not stars.

Our mirrors are coated with a streaky, oily, greasy film, making cleaning difficult

Pots, pans, silverware have been sprayed and marks on them

Air quality in our home makes breathing difficult – gases be pumped in

Stove had a piece of material between glass and oven door, phoned to see how to remove it, was advised to remove the door but decided not to do this. This piece has now disappeared.

Dishwasher bottom rack has burnt-like marks where the chemicals have taken the coating off via the lasers we think. Dishwasher only 3 ½ years old. This should not be happening to a fairly new dishwasher. Sold all our appliances from London and had to purchase all new appliances again, these appliances are now been destroyed. Fridge and freezer both sprayed in and outside with yellow substance.

The freezer makes several loud banging noises during the nighttime hours.

Lights have mysteriously burnt out

Ceilings on main floor of home are yellow looking – probably sprayed with yellow and red chemicals but looking with a digital camera, you can see this, but with the naked eye you can not see the chemicals.

Our super mailbox has a mark which we believe is lasered when you open the door and look in to get your mail – you get a beam or something in your eyes every time.

Mary believes there is something between the main floor and basement ceiling – a modified version of a microwave running at low hum during the day, full hum at night time putting radiation into our home 24 hours a day – can't seem to locate this

All our daily routines, such as computer was messed up – not able to get the internet up and running for a day, going to write a test at the RCMP, emails never go through properly, our telephone calls messed around, when leaving phone messages they are erased, other times phone messages are added. This has resulted in a lot of trouble for us.

Our appointments on the calendar where erased, but we caught that in time.

Believe there is something buried in and around the perimeter of the lot or house. Also buried in our vegetable garden.

Loss of income – this is to buy alternative medicine for our health issues, food, replacement of destroyed or broken items, fix or repaired items. Our pills are also contaminated and taste weird.

Droplets also not able to see with the naked eye, but are visible with the digital camera. What are we breathing in and what else is in our home that we can not see or hear.

Radio and electronic equipment (TV) turns on/off, battery powered radio started to beep on every hour for 2 days Our office files are rummaged through and papers removed from various files or the file is totally removed and then brought back missing some documents.

Silent phone calls –no one there, cross-talk and echoes on the phone – many individuals have identified this to us, constant cut off when talking about this particular subject. Up to 3 times in 15 minutes.

Our car accident, a rear end - (Aug 8, 2008 Sheila and Ken Vivian visiting from Calgary), was we believe a deliberate hit, conflicting stories of a) there was insurance coverage by State Farm, b) no insurance coverage c) then 2 weeks later State Farm advised the Personal (our insurance) there was insurance under "his name" to twisting the driver of our car was from female to male. Discussed that possibility of going to small claims court, all of a sudden, there was insurance coverage. Ron, our neighbour stated "that was too bad and she better pay up and this was her problem." Talked to our other neighbour who is a police officer and he stated that if she did not have the proper documents, there would be another charge against her and she is responsible for the accident. There was an impersonator calling from the Personal on August 15, 08 there was no problem with the deductible and all was cleared. August 22,08 there was no insurance and Mary paid the deductible of \$500.00. The neighbour suggested

to Mary, that the call was made by the person who hit us. (That was his theory).

**I BECAME AWARE OF MY EXPOSURE TO THE DIRECTED ENERGY WEAPONS & THE ORGANIZED CRIMES IN APRIL 2004**

Dear Sir or Madam:

I, Mary Vivian, Declare Publicly The Following Testimonial:

I am 57 years old, employed for 32 years by Bell of Canada, (Telecommunications Company), with a secretarial and engineering background. I retired in 2002 and for 5 years I volunteered as an Auxiliary Police Officer for Toronto Ontario Police Force performing details such as: Pope John Paul II's Visit, marathon runs, disasters, crowd control for celebrities such. Road Map & My Petition Attachments

**Health Issues:** I enjoyed good healthy until approximately April of 2004, when I was exposed to the DIRECTED ENERGY WEAPONS & THE ORGANIZED CRIMES abuse and aggression my health is deteriorating. I am experiencing many rashes, red sores, eye problems, mouth sores such as swollen tongue, tooth problems, cankers, etc. I am very diligent about what I eat, do not smoke, do not take illegal drugs and promote a daily exercise program. My Sister and elderly mother are victims of this crime as well. See Attachment #1 – Mary Vivian's Health Issues.

**Surveillance:** I am continuously pursued and multi-stalked when shopping, at appointments, in the park, or travelling by vehicle. My vehicle has been tampered with; a "beep" sound at certain locations. I have e-mail messages blocked, telephone calls transferred, and calls cut off. The Royal mail is interfered with resulting in calls to utility companies obtaining reprinted bills.

**Vandalism:** In Elora, Ontario, my entire house was sprayed with a yellow chemical on furniture; toilets, sinks, bath tubs, walls, tables, all appliances, dishes, flatware, computers, telephones, beds, sheets, desks, all files, food, foodstuffs, cupboards, clothes and shoes. White and black chemicals on heating pipes and reddish/brown chemicals on floor boards in basement. Youngsters are utilized to carry out vandalism & manipulating my wellbeing and my environment. The recruitment of such underaged youngsters in such criminal activities are in violation of their civil/constitutional rights as well as mine. See Attachment #2 –Vandalism

**Financial Devastations:** The financial attack on my limited pension has been substantial over the years. Money stolen, constant replacement of personal items such as: underpants and socks, new appliances, beds has taken make it a enormous hardship. See Attachment #3 – Invoice for replacements-new appliances & beds purchased in 2004, cost of Naturopathic Doctor 2008.

**Agencies Approached:** Contacted Ontario Provincial Police about prowlers; police made a notation. A second call to the Ontario Provincial Police regarding the spraying, the lasers and the constable recommended sending Forensics the next day (no show) and to follow up with the neighbour about the lasers. See Attachment #4 – Agencies Approached Mental health

**The Reason & The Road Map For My Being Targeted Per My Experiences Are:**

**My story as I have come to Experience:**

1. The perpetrator was involved in satellite fraud involving direct TV and NDS Americas Inc. (Smart Card).
  2. The perpetrator required "a pardon" from our Canadian Government to enter Canada , after being deported from the United States of American (USA).
  3. This perpetrator was arrested at Tampa Airport June 2004, on an immigration charge, re-entering the USA under a false name, charges of satellite fraud and TV piracy.
  4. Once arrested, why didn't the London police address our complaint about the thefts and retrieve our stolen property?
  5. Employed by Bell Canada , volunteered for a police organization, 3 single women living alone, and knowing about the operation made me the perfect target.
- See Attachment #1 – Mary Vivian's Health Issues.

**Under Which Law I May Have Been Accused To Be Categorized Of Criminality & Mentally Ill:**

The only indication of any laws or policy that has been utilized to criminalize me is by the London Police Force's

and Medical Doctors comments stating 'MENTAL' due to numerous calls for assistance. June 2008, Fergus, Ontario Emergency Department's notation on form stating 'MENTAL' when I went for medical treatment for laser burn to the face.

#### How To Address the Violations Against Us:

People who commit criminal act(s) & are declared mentally ill is the only justification the government needs to expose them to the directed energy weapons/mind control and organized criminals. They justify it is necessary in order to keep them "under control so they would not harm public or the national security"!! Such people/victims are tortured and experimented upon. They are everywhere even in the most remote locations working among the security system establishments, the organized criminals are furnished with the most sophisticated surveillance and torture equipments based on nano technology.

How it begins: 1) any law enforcement and/or governmental agencies would choose an innocent citizen who is in conflict with their personal agenda then, or other, 2) the organized criminals are utilized for local law enforcement and/or mental health institutions to generate, manipulate, and falsify criminal and mental reports against that person's life. Whereas The police, the "Patriot Act", The FISA, and The Military Commission Act of 2006 of "Court No Due Process" is enforced to cover up the "death sentence imposed on these innocent citizen.

Without the protection of "Due Process" the law enforcement, mental institutions and organized criminals can impose massive transgressions against humanity in the USA and will continue until stopped. No one is exempt, the under aged are utilized in these crimes and/or subject to the same circumstances as adults. The US Senate Secret Intelligence Committee, Pentagon, Home Land Security, US Defence Department and Federal Bureau of Investigation (FBI) must be aware of such laws, policies and violations. Given that, the organized criminals are mostly hired by the police and are compensated by the US Department Of Treasury. If it can happen herein the USA it can happen everywhere else; given the magnitude of these crimes it can spread like cancer worldwide.

#### **Urgent Demands and My Petition:**

##### **I DEMAND:**

1. An immediate end to the Directed Energy Weapons (DEW), Surveillance, Isolation, and the Organized Crimes against my Health & My Wellbeing.
2. Any and all law enforcement agencies' criminal reports and/or documentations prepared pertaining to me be disclosed, including any and all police investigative reports.
3. Any and all mental health reports, documentations, and/or medical doctors' statements prepared pertaining to me be disclosed.
4. To investigate Police & any law enforcement agencies' misconduct and mishandling to my person and/or documentation pertaining to me.
5. To investigate mental health agencies' misconduct and mishandling to my person and/or documentation pertaining to me.
6. To investigate Directed Energy Weapons source of funding such as: covert Senate Intelligence Committee, Pentagon, Military, Department of Defence, US Department of Treasury, FBI, private contractors and/or unknown individuals.
7. To investigate the organized Criminal's Crimes against innocent people.
8. Investigate the US Department Of Treasury's connection in funding Organized Criminals
9. Legislation under the Truth of Information Act to inform and educate the general public on these crimes against humanity. Due to Lack of information most victims are not aware of their exposure to these crimes.
10. The disclosure of what grounds any agencies to impose upon me any crimes of Assaults and Tortures.
11. The outlaw of the "No Due Process" procedure under the Police & The Patriot Act or any other governmental legislation.
12. The outlaw of any and all government policies and/or laws regarding the Nano-Torture and Surveillance upon people of the USA.
13. The outlaw of any and all Nano-Tortures usage against Humanity worldwide.
14. Full treatment for any and all physical and medical injuries, present and future, which resulted from crimes incurred due to the criminal activity from these organizations and unknown individuals, until sufferers are restored to normal health.
15. Full compensation for the financial losses incurred due to the criminal activity from these organizations and unknown individuals.
16. "De-Classify" any and all "Classified" laws and policies generated by Senate Intelligence Committee, Pentagon, Military, Department of Defence, FBI, World Wide Against, Private Contractors and/or Unknown Individuals regarding the above Crimes.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I've found that handing out flyers about organized stalking/harassment on the sidewalk in front of the public high schools to students at the end of the school day has a MAJOR effect on the perps! We can get the word out to people > through their children. I tell them that the flyer is about the ultimate "Big Brother" technology. Most of them take my flyers. I cover one exit one day and another the next, to get kids that are going in both directions. The sidewalks on the streets are fair game for activists because they are public easements and not private property. Only the opposite side of the sidewalk from the street is private property. I got a major reaction from the local perps the first time I did this, and even overheard the ones actually stalking me with V2K CRYING TEARS OF RAGE as they bitterly complained amongst themselves!! Instead of scaring me off, it told me that I had found "the mother of all raw nerves" of my perps. There are four local high schools in my community, and I have already hit all but one (I'll hit that one today). The local perps realized I was keying off of their reactions and quit showing anger on the street. But the stuff I overhear through V2K continues, as well as the encouragement I get from friends. Don't just be content just to hit the high schools in your own community, hit all the public high schools in your city's surrounding area. We only have until the end of May before the schools let out for summer. After that we'll have to wait until school starts again in the fall.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**The year 2002 was when I came to the realization that I was being a subject of new technology human experimentation here in the United States Of America.**

I would like to draw your attention to some extreme and horrendous criminality being conducted with the involvement of United States Government-related Agencies and the complicity, if not participation, of many other governments and security agencies. I am a victim of torture and abuse using DIRECTED ENERGY and NEUROLOGICAL WEAPONS technology.

The criminal use of these on me are causing the following effects:-

1. It was obvious that they have total control and access to my brain and my thoughts at any given time. They would have publicly repeat or reply to my personal thoughts that was never revealed to anyone to show the extensiveness of their power over me and my life each and every day, while sharing and displaying all that was stolen with public.
2. Continuous transmission of well designed tense words and terrorizing phrases tailored to their needs to trigger my brain for automatic response while using the outcome for their best interests (gathering more oppositions and enemies for me) and to create the most torturing, hostile, and stressful environment as possible. This is how they managed to form an army by recruiting as many individuals and groups as possible to mask or justify their crimes.
3. They have monitored and "RECORDED" all my brain activities (thoughts, decisions, plans, and ideas even before most of it becomes reality, a complete blue print, and have acted and built up on that) as well as physical activities (ever day life, behaviour, hobbies, life pattern) and etc..
4. Causing pain in different area of the body through sudden shocks, lengthy and sever muscle spasm.

There is massive ignorance and secrecy regarding this, and victims such as I are being subjected to uncontrolled and unacknowledged torture and mental and physical destruction. This has remained completely unreported and undiscussed publicly. There are many others, all over the world, who are being subjected to similar torture and abuse. Your attention is urgently needed to halt these atrocities, protect me, and bring these extremist elements to justice.

For the past few years I have exhausted all options available to me in order to get officials probe into the following inhuman criminal activities taking place here in the United States and to resolve this politically motivated happenings in the most diplomatic way possible.

I have contacted just about all the U.S. Senators, Civil right, Human rights organizations around the globe and they simply preferred not to address such criminal activities since it was planed and operated by Americans. Today, I would support and assist any agency/ organizations world wide to campaign against torture and abuse using the Directed Energy and Neurological Weapons.

This is the technology that is being on myself and exfiance if there is something you can do to help that would be great.

I have spoken to Bill Taylor and faxed him a resume like he asked if you could please find out if any progress has been made? thank you for all you do on this abuse we are abused everyday of lives.

We are dealing with Mind Control and Ritual Abuse now they are trying to incoserate me and my exfiance. Subject: Revealed the secret service told of this computer system that runs the weapons being used so they can't be held responsible for this attack. Jason Kerr of the DOD Southern Cali area told me of this computer systems that is harassing us. Randy Leggings Secret Service confirmed the system The library does not have a scanner so I can't scan the notes of the joint meeting I have but I will look for the people on the net.

The yr 2000 unaware of it at first then a person walked up and said this would start to happen and it did. I have lost 2 children in this attack cottirized right inside of her, now she is washed and they take advantage of her all the time they watch her have sex that's all she is to them a play toy they give her seizures and lie to her too.

My story is on the forums <http://www.mindcontrolforums.com/v/jwalbert.txt>

I am an inventor in the Wichita area and this technology is currently being used to read minds is being used on myself. For 5 yrs now this technology has been used on my family .Now that this invention of mine is close to

being released to the Wichita area the people using this technology are trying to discredit my self and my mother Sandra Walbert. This invention is worth a lot of money and due to this fact people are now harassing my family with this technology. This technology is designed to kill people and cause muscular disruption. A LRAD is being used also I was hoping telling your station of this story you could do something about it

We are looking for an agency that will help us in a class action law suit in a harassment case and other crimes against us. We have a State Rep that is standing with us in this suit. Please read this letter from the Rep Jim Guest, it will explain the services we are requesting. As you can see from the Rep's letter it's a serious matter going on here. It has his attention and 12 other Congressman's attention also. These perpetrators are getting away with this crime due to the lack of information getting out to the right people. That is this letter has come your way, in conjunction with Mr. Guest and other politicians standing with us on this matter. I and Mr. Guest are asking for your help on stopping this horrible crime. <http://www.freedomfchs.com/repjimguestltr.pdf>

Hello This is James Walbert

I had spoke with you back in April of this year and had submitted some documents covering a case against the government for illegal testing of non lethal weapons well here is our press release. I would like if you would cover it also .We are going to court very soon and would like for your dept to cover the story for us. I set on the board of FFCHS as an advisor to the board. I have spoke with the president of the board and he also agrees with me on this. Five of the largest selling magazines are covering this story also. Here's who all is involved with our motion, they are listed after our press release.

Thank you for your time Respectfully, James Walbert

Jimi Walbert has recently filed for and was granted, a Protection From Stalking (PFS) order in the state of Kansas for the crimes of organized stalking and electromagnetic harassment. For those of you who know your stalker, and can identify him/her, you may want to consider this option as it may help your situation. He has a final hearing on December 11. All 50 states have stalking laws. And they all vary somewhat. So you'll need to refer to the guidelines for your home state. Here in the state of Ohio it's called a Civil Stalking Protection Order or a Criminal Protection Order.

**Court to Defendant: Stop Blasting That Man's Mind! \* By David Hambling \* July 1, 2009 | \* 5:59 pm |**

Late last year, James Walbert went to court, to stop his former business associate from blasting him with electromagnetic radiation. Walbert told the Sedgwick County, Kansas panel that Jeremiah Redford threatened him with "jolts of radiation" after a disagreement over a business deal. Later, Walbert, said, he began feeling electric shock sensations, hearing electronically generated tones, and getting popping and ringing sounds in his ears. On December 30th, the court decided in Walbert's favor, and issued a first-of-its-kind order of protection, banning Redford from using "electronic means" to further harass Walbert.

I recently took part in a BBC Radio 4 program, which took a light-hearted look into the "the real Manchurian Candidate" — and examined whether there is any truth in stories of mind control. Most of these projects are just lab experiments, or examples of Powerpoint engineering. But in some legal, policy, and business circles, electromagnetic brain assaults are being taken seriously.

Walbert's cause is supported by Jim Guest, a Republican member of the Missouri House of Representatives. He's working on proposed legislation to addresses electronic harassment, including a bill against the forced implantation of RFID chips.

The U.N. is also now taking the possibility of electromagnetic terrorism against people seriously. And for the first time this year's European Symposium on Non-lethal Weapons included a session on the social implications of non-lethal weapons, with specific reference to "privacy-invasive remote interrogation and behavioral influence applications." Those who believe they are being targeted are getting a bit of official recognition.

For some, this opens up a new business opportunity. There are already quite a few companies out there offering

“Technical Surveillance Counter Measures,” or sweeps to determine if you are the victim of electronic harassment. As well detecting the usualbugging devices, they can check if you are being covertly bombarded by microwaves which may be the cause of “headache, eye irritation, dizziness, nausea, skin rash, facial swelling, weakness, fatigue, pain in joints and/or muscles, buzzing/ringing in ears.”

Much of this trade may come from people with symptoms caused by something less exotic than high-tech military hardware. But companies will no doubt be willing to sell them expensive protection measures, anyway. And as awareness of these developing technology projects increases, we are likely to be hearing a lot more about “electronic harassment,” “gang stalking” and the like over the next few years.

And there is also likely to be what folklorists call “Ostension,” or acting out. Now that there are so many websites explaining how easy it is to harass people by zapping them with a modified microwave oven, sooner or later someone is bound to try it.

Rep. Jim Guest: The "Go-To Guy" for Victims of "Electromagnetic Energy Weapons"

Submitted by .Sean on July 7, 2009 - 8:55am

Rep. Jim Guest (R-King City). Yesterday, I posted a short summary of a Wired magazine article about Guest's fight against electromagnetic radiation. Today's Post-Dispatch has even more information about Guest's efforts on behalf of a Kansas man allegedly harassed by "secret electromagnetic energy weapons," and persons similarly oppressed everywhere.

[James Walbert of Wichita] asked for a legal order of protection against a former business partner whom he claimed had “stalked myself and family members with electronic and microwave devices.”

Thanks in part to a letter of support written by Missouri state Rep. Jim

>Guest, R-King City, on his official stationery — and in part to the former business partner’s absence from a hearing on the allegation — Mr. Walbert got his order of protection on Dec. 30...

Mr. Guest has become something of an elder statesman for those who worry about the impending microchip threat. He appeared on a radio show Monday with the author of the Pennsylvania bill.

He’s also become the go-to guy for what he describes as “microwave and electronic harassment victims” — people targeted by nefarious forces wielding electromagnetic energy weapons.

His interest in the subject began three or four years ago, he says, when he was first approached by victimized citizens. One of them was Mr. Walbert.

The Post-Dispatch also points readers to a 2008 New York Times article featuring Guest and his concerns.

And the users of some sites have found the support of Jim Guest, a Republican state representative in Missouri, who wrote last year to his fellow legislators calling for an investigation into the claims of those who say they are being tortured.

I’ve had enough calls, some from credible people — professors — being targeted bynonlethal weapons,” Mr. Guest said in a telephone interview, adding that nothing came of his request for a legislative investigation.

“They become affected by it. They have trouble sleeping at night.”

He added: “I believe there are people who have been targeted by this. With this equipment, you have to test it on somebody to see if it works.”

Appropriately, Guest has been at least tacitly supported in his efforts by the House GOP leadership, which has named Guest the Chairman of the House Real ID and Personal Privacy Committee.

### Court to Defendant: Stop Blasting That Man's Mind!

By David Hambling July 1, 2009

Late last year (2008), James Walbert went to court, to stop his former business associate from blasting him with mind-altering electromagnetic radiation. Walbert told the Sedgwick County, Kansas panel that Jeremiah Redford threatened him with “jolts of radiation” after a disagreement over a business deal. Later, Walbert, said, he began feeling electric shock sensations, hearing electronically generated tones, and getting popping and ringing sounds in his ears. On December 30th, the court decided in Walbert's favor, and issued a first-of-its-kind order of protection, banning Redford from using “electronic means” to further harass Walbert. No, seriously. I recently took part in a BBC Radio 4 program, which took a light-hearted look into the “the real Manchurian Candidate” — and examined whether there is any truth in stories of mind control. It gave me a chance to talk about exotic non-lethal weapon concepts like the so-called telepathic raygun, the system which beams sound directly into your skull, and the “voice of god” talking fireball. Most of these projects are just lab experiments, or examples of Powerpoint engineering. But in some legal, policy, and business circles, electromagnetic brain assaults are being taken seriously. Walbert's cause is supported by Jim Guest, a Republican member of the Missouri House of Representatives. He's working on proposed legislation to addresses electronic harassment, including a bill against the forced implantation of RFID chips. The U.N. is also now taking the possibility of electromagnetic terrorism against people seriously. And for the first time this year's European Symposium on Non-lethal Weapons included a session on the social implications of non-lethal weapons, with specific reference to “privacy-invasive remote interrogation and behavioral influence applications.” Those who believe they are being targeted are getting a bit of official recognition. But companies will no doubt be willing to sell them expensive protection measures, anyway. And as awareness of these developing technology projects increases, we are likely to be hearing a lot more about “electronic harassment,” “gang stalking” and the like over the next few years. And there is also likely to be what folklorists call “Ostension,” or acting out. Now that there are so many websites explaining how easy it is to harass people by zapping them with a modified microwave oven, sooner or later someone is bound to try it.

### VERSION ESPAÑOLA (TRADUCCIÓN DE RUDY)

#### UN JUEZ FALLA A FAVOR DEL DEMANDANTE: ¡DEJEN DE ATACAR LA MENTE DE ESTE HOMBRE!

A finales del año 2008, James Walbert fue a juicio para intentar conseguir que su ex socio dejara de jugar con él valiéndose de una radiación electromagnética que modificaba su estado mental. Walbert dijo al condado de Sedgwick de Kansas que Jeremiah Redford le ostigaba con “ondas de radiación” después de que tuvieran un desacuerdo comercial. Ulteriormente, Walbert declaró que habia comenzado a sentir sensaciones de shock eléctrico, a oír tonos generados electrónicamente y a escuchar sonidos silabeantes en sus oídos. En diciembre , el tribunal decidió fallar a favor de Walbert y publicó una orden de protección que era la primera de su género hasta la fecha, prohibiendo a Redford usar “medios electrónicos” para amenazar y ostigar a Walbert. Recientemente tomé parte en un programa de la Radio 4 de la BBC, que hablaba sobre los verdaderos “Manchurian Candidate” y examiné si hay una parte de verdad en las historias sobre control mental. Me dio la oportunidad de hablar sobre las armas exóticas no letales como el así llamado “rayo telepático“, el sistema que emite un rayo de sonido directamente a tu cerebro que te hace escuchar “la voz de Dios” hablándote diréctamente. La mayor parte de estos proyectos son sólo experimentos de laboratorio o ejemplos de ingeniería en Powerpoint, pero en el derecho jurídico

y los círculos de negocio, los asaltos electromagnéticos al cerebro están siendo tomados muy seriamente. El caso de Walbert está siendo apoyado por Jim Guest, un miembro republicano del Parlamento de Missouri. Está esforzándose todo lo posible por sacar adelante una ley sobre el ostigamiento electrónico, incluyendo un proyecto de ley contra la implantación forzosa del chip RFID. Las Naciones Unidas también están tomando en serio la posibilidad de terrorismo electromagnético contra los ciudadanos. Y por primera vez este año, el Simposio Europeo sobre Armas No Letales incluyó una sesión sobre las implicaciones sociales de las armas no letales con una mención especial a los interrogatorios invasivos remotos que menoscaban la privacidad y las implicaciones que tendrían sobre el comportamiento. Aquellos que creen que están siendo agredidos están obteniendo un poco de reconocimiento por parte de las autoridades. Para algunos además esto abre una nueva oportunidad de negocio. Ya hay unas cuantas empresas que ofrecen “Medidas de Contra Vigilancia Técnica” o medios de determinar si Vd. está siendo víctima de acoso electrónico. Además de detectar dispositivos usuales de vigilancia ocultos, pueden comprobar si está siendo encubiertamente bombardeado por microondas con la eventuale consecuencia de “dolores de cabeza, irritación de ojo, mareo, náusea, erupción cutánea, hinchazón facial, debilidad, fatiga, dolor en articulaciones y/o músculos, zumbido en los oídos”. Mucho de esto puede venir de gente con síntomas provocados por algo menos exótico que el hardware militar de alta tecnología. Todavía las empresas no dudarán en vendernos medidas de protección muy caras, de igual modo. Y a medida que el conocimiento sobre estos proyectos de tecnología progresa, iremos escuchando cada vez más sobre “ataques electrónicos”, “acoso electrónico agresivo” y cosas parecidas en los próximos años. Y está también los que algunos llaman “ostension”. Ahora que hay profusión de sitios web que explican lo fácil que es atacar a la gente por medio de atacarles con microondas previamente modificadas, tarde o temprano alguien lo probará.

## **IL CASO DI JAMES WALBERT**

### **TRADOTTO DALL'INGLESE DA RUDY**

#### **UN GIUDICE HA STABILITO IN FAVORE DEL RICORRENTE: “SMETTETE DI ATTACCARE LA MENTE DI QUESTO UOMO! “**

Alla fine dell'anno 2008, James Walbert se recó al tribunale per cercare di ottenere che il suo ex-partner in affari cessasse le molestie assillanti su di lui con radiazioni elettromagnetiche che modificano il suo stato mentale. Walbert disse alla Contea di Sedgwick, nel Kansas che Jeremiah Redford lo molestava con “scosse di irradiazioni” dopo di aver avuto un disaccordo commerciale. Successivamente, Walbert dichiaró di aver cominciato a sentire sensazioni di scosse elettriche, di sentire dei suoni e squilli schioccanti generati elettronicamente nelle orecchie. Il 30 dicembre, la Corte decise a favore di Walbert e pubblicó un ordine di protezione che sarebbe il primo del suo genere finora, vietando a Redford di usare “mezzi elettronici,, per minacciare, molestare ed incalzare ulteriormente Walbert. Recentemente partecipai ad un programma della BBC Radio 4 , che parlava in un modo piuttosto allegro sui veri e propri “candidati alla Mancinuria” ed esaminai se vi è una certa verità nelle storie di controllo mentale. Mi ha dato l'opportunità di parlare delle armi esotiche non letali, come il cosiddetto “raggio telepatico “, il sistema che emette un fascio di suoni direttamente al tuo cervello che ti fa sentire la “voce di Dio” parlando a te direttamente. La maggior parte di questi progetti sono solo esperimenti di laboratorio o esempi di ingegneria Powerpoint, ma nel diritto legale e negli ambienti degli affari, le aggressioni elettromagnetiche del cervello vengono prese molto sul serio. Il caso di Walbert è sostenuto da Jim Guest , un membro del partito repubblicano del Parlamento del Missouri. Sta mettendo tutto in atto per proporre una legge sulla molestia elettronica , compreso un progetto di legge contro l'impianto forzato del chip RFID. Le Nazioni Unite stanno anche loro prendendo sul serio la possibilità di terrorismo elettromagnetico contro i cittadini . E per la prima volta quest'anno, il Simposio Europeo sulle armi non-letali incluse una sessione sulle implicazioni sociali delle armi non letali, con una menzione speciale per gli interrogatori invasivi remoti che compromettono la privacy e le implicazioni che potrebbero avere sul comportamento. Coloro che ritengono di essere attaccati stanno ottenendo un po' di riconoscimento da parte delle autorità. Per alcuni si apre anche una nuova opportunità. Già ci sono alcune società che offrono “mezzi di tecnica di controvigilanza”, o il modo di determinare se Lei è vittima di molestie elettroniche. In aggiunta ai soliti dispositivi occulti di controllo , possono controllare se Lei è velatamente bombardato da microonde con le eventuali conseguenze: mal di testa, irritazione agli occhi, vertigini, nausea, eruzione cutanea, gonfiore facciale, debolezza, stanchezza, dolore alle articolazioni e / o dolore muscolare, suoni nell'udito. Gran parte di questo può venire da persone con i sintomi causati da qualcosa un po' meno esotico del hardware militare di alta tecnologia. Tuttavia, le aziende non esiteranno in ogni caso a venderci mezzi di protezione molto costosi. E man mano che la conoscenza di questi progetti di tecnologia progredisce, sentiremo parlare ancora di più di “attacchi elettronici”, “molestie organizzate” e simili, nei prossimi anni. Ed è anche ciò che i “folkloristi” chiamano “ostensione”. Ora che vi è una profusione di siti web che spiegano come è facile aggredire la gente tramite un forno a microonde anticipatamente modificato, prima o poi qualcuno lo proverà.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I would like to tell you about some terrible STALKING AND HARASSING events in my life.

This has been going on since 1997 or 98. I have been a victim of Organized Stalking for about ten years. I have been victimized by CONTROLLED SLEEPING DISORDERS, DIRECT ENERGY AND MANY OTHER TYPES OF HARASSMENTS.

I noticed then that i was being stalked by aircraft every time I left my apartment. I would be setting at a bus stop when a aircraft would fly behind me and I would feel a particle like beam concentrated on the back of my head. Then I would feel like pins and needles on different parts of my body.

When I am in my apartment I will hear sounds like air being forced into the air conditioning or through any type of vents. At that time I will feel nausea and sick to my stomach and feel hot flashes inducing insomnia. Maybe I got 2 or 3 hours of sleep every nite.

During this time I lost 2 jobs because i was always exhausted and couldn't perform my duties. I really feel like they are trying to kill me. I am at the end of my wits. Please help me. What should I do now?

This has been going on for about ten years now and it doesn't seem to be letting up. I am 59 years old and a Viet Nam veteran. I don't want to spend my senior years going through this crap. CAN YOU HELP?

I got a list of symptoms of Organized Stalking off the Internet. Then I put an x beside the ones that apply to me:-

Symptoms of organized stalking:

\_\_\_ You find that all of your family, friendship, and business relationships are going sour and you have done nothing to cause this

\_\_\_ You find that "accidental" blocking of you as you walk or drive about, by strangers, has increased dramatically and every day brings several "blocking" incidents. E.g., someone slips ahead of you at the bank machine or grocery checkout, or with cars in unexpected places in parking lots. This is about blocking \*far\* more often than that which occurs in normal life, and not the usual occasional occurrences.

\_\_\_ You find that financial transactions, purchases, mailing things or receiving things in the mail or by courier seem to have lots of "problems", more so than in the past

- x\_\_ Telephones frequently have static or tones or echoes; you have lots of "wrong number" calls
- x\_\_ You find that you are having trouble staying asleep at night, possibly waking up at exactly the same time every night
- x\_\_ Knocking on your door, but finding no one there
- x\_\_ Neighbours seem to be able to "see thru walls", shown by sounds from them which "follow" you
- \_\_ Repeated evidence of break-ins, small scale thefts, and sabotage both at home and at work
- \_\_ Postal and or electronic mail are often delayed or in some cases blocked
- \_\_ Postal mail from your box is strewn around and damaged
- \_\_ Tradesmen always seem to have "trouble" with any work you hire them to do, make a mess, are late, overcharge, and in some cases even cause damage to other things not originally needing work
- \_\_ You seem to attract "crazy drivers" on the road much more often than in the past
- \_\_ Automobile repairs often result in other things being broken which were not when the car went in to the shop
- x\_\_ You seem to have much more trouble with noisy neighbours than before this stalking started, such as door slamming in apartment buildings, or oddly timed use of leaf blowers in detached house neighbourhoods
- x\_\_ You find strange synchronicities, such as a neighbour who starts leaving for work at EXACTLY the same time as you do, over and over, happening frequently
- x\_\_ You find kids of all ages often doing annoying things at a much higher rate than before the stalking started
- \_\_ You find dirt and food spots showing up in your home after you've been out, and you know this dirt was not there when you left
- x\_\_ Are you in good health according to your doctor, yet having unusual illnesses and symptoms? Such as chronic 'flu' when no one else has it? Or unquenchable itching with no rash? Or sharp stings with no apparent explanation, especially while in bed? Or sudden fatigue which almost cripples you?
- \_\_ You find that since the multiple stalking started, computers at home and work always seem to have something wrong with them, and others with similar machines don't

About a month ago i received an e-mail from you that stated A senator or congressman had downloaded 1000 Ti;s Case Summaries for investigation or review. I noticed that my name was on that list. Well that e-mail just up and vanished in to thin air. I wonder if you have a copy of that document? I am sure that i will need it for further instructions in the future. I would appreciate it ok.

Stalking, hacking, spying and worst the small group of dudes quietly broadcasting their voices narrating to each other what I'm doing, watching, etc and crudely insulting me on anything often in racist and bigoted ways. I support the world wide campaign "Stop the secret abuse and torture of mind control weapons and manipulation weapons on civilians".

I am a victim of electronic harassment/mind control/directed energy weapons/ organized stalking and torture.

I was born in China, and now come from Canada. My nationality is Canadian.

I realized to be attacked in 2008 when I was a research associate in Toronto, Canada.

My current address:  
Ping Wang, 26-3350 Hornbeam Cres., Mississauga, ON. ,Canada, L5L, 3Z7.

I currently occupation is housewife.

I demand for a international investigation of those crimes and huge violations of human right.

**28/9/14**

I support the world compaign "Stop The (Secret) Abuse of Mind Control/Manipulation Weapons, Directed Energy Weapons On Civilians".

I am a victim of electronic Harassment/mind control/directed energy weapons/organized stalking and torture from Toronto, Ontario, Canada. I have been targeted since 2008.

Briefly, my case is like that. I was first targeted in Toronto Canada in 2008. I was followed by organized stalking since I noticed people knew me everywhere I went. I started to hear voice, my thought was controlled, manipulated (I realized at that time it is mind control technologies). My right arm was hit by electromagnetic beams constantly in the same spot, which they claimed it was an injection to make mind control technologies work. During 2008-2014, I have several episodes attacked by voice each year, during these time, I have sleep deprivation, lose control

of my body movement, headache, brain hit by directed energy weapon before sleep. I lose lots weight during one or two night, impaired in body, had whole body pain, fatigue, irregular heart beats and heart pain. During the silence period of each year, I am still controlled by mind control technologies, since they marked me with a visible beam. Those visible beams exist 24/7 days. For example, if they don't want you to go out, the visible beam will draw line in the door, so I have been lived in electromagnetic cage 24/7/365.

By 2013, the doctor diagnosed me with hypothyroidism, which is the consequence of long time electromagnetic harassment. Also, I have impaired hearing of my left ear which is the same side where strong electromagnetic beams hit. Some Doctors also diagnosed with mental illness, but this is not true because the medication never cured the voice, sleep pills never cure sleep deprivation. Body pain all disappeared without medication.

I am a brain experimental subject as they said in May, 2014. Currently they told me that they have been targeting my daughter, who is 14 years old only. I believe that my daughter's brain is the target.

I demand for an international investigation of those crimes and huge violations of human rights.

Sincerely  
Ping Wang

Ps. You can send this email to humanright organization, politicians (such as Canadian primer minister Steven Harper, US president Barack Obama, anyone who care my daughter's future), and press.

**1/10/14**

I would like to be included on the lists of victims of electronic torture and abuse, or organized stalking. Here is my information:

Citizenship: Canadian.

I was first attacked in Toronto Canada in 2008. They have talked to me 24/7, during some periods of 2008-2014 by mind control technologies. Most time only one man talked to me with standard Mandarin, the subject varied, like discussion with you. The other time the talk could go to dirty and harassed me. At the end, they told me who were them and they used my brain as an experimental subject. On May, this year, they wished me to die, either they kill me or I went to kill myself. The talk period was painful since it was 24/7, with sleep deprivation. I have taken four times over the dose of sleeping pills, I still was unable to sleep if they did not want me too. I have uncontrolled sleep too. They could see through my eyes to see what I have seen. During silent periods of 2008-2014, I was under electromagnetic surveillance 24/7, I can see visible wave around me and feel they attacked my heads, and legs. The top of my head always have something there, like many tinny needles move around, but without pain. I also see constantly that box, house and other stuffs hit me. My house and my daughter's items have been drugged since I see they drop something into her shoes, bags, clothes and ect, then they tell me it is drug. My face markers have been told in TV, then there are organized stalking. Everywhere I go, people know me. I attacked by directed energy weapon since I have heart pain and irregular beats, now it is normal without medication treatment. I was told that I only had one year life left on May, 2014, and would die from brain cancer, or heart attack. After these years, my physical condition went down dramatically. I am not allowed to see doctors about my brain since they told me that I had neurodegeneration disease and brain cancer, currently, they treat me with medication remotely. I become strong after they last talked with me, and I don't have brain cancer and neurodegeneration syndromes. Now I lived in the fear that they want my daughter to become targeted individual since they said very bad them about they have done to her. My case is so cruelty and bloody.

DEAR SIR/MADAM

I sent letters to the FBI and CIA regarding this matter for the second time. I shared my situation with a neighbor whose husband is in the military she sent him a letter I wrote about what has happened to me and photos of my tongue that they shocked for no reason.

She is going to take me to military base and I will take some items with me in hopes of being scanned. She came to my house after reading my letter and was staring at my kitchen counter. She said, she believed what he (Lt. Col Paul Oppedisano, Sr) did was came to my house while it was under construction and during each stage put devices in the house.

My neighbor across the street said she did not think we were moving into our house because there were a lot of people going to our house as if they were interested in purchasing it. The builders allow prospective clients to look at homes under construction to get an idea of how their house would like. I think it was Paul and his team of idiots.

Paul was the previous owner of the house we moved from in Virginia and the house **started attacking me with electro magnetic waves. It almost killed me! They would say "people are listening to me" so I assume since he heard that I was moving they visited my new home and did everything within their power to destroy it.**

What they did to me hurt but what hurt the most is I would have lost my son due to their hatred. If I do receive any help from going to the military facility I will let you know. I did get a gun license because I got so stressed from the lack of help I planned to handle this matter myself.

**11/3/08**

Thank you for the information. The same response from the government which is no response. I wrote the FBI and CIA several times and have not received any feedback. They are aware of what is happening.

In my correspondence to the FBI and CIA I let them know by them not responding means to me that I can take whatever steps I deem necessary to protect myself and family. The people behind the terroristic acts thrive on failure and fear. You have to be garbage to tell someone you do not know and have done no wrong to you, that you're going to kill their kid and take them from the daycare.

They create personalized terror based on your true life circumstances they try to create realities worse they are or those that do not exist. All my life I have been shy and quiet but not anymore thanks to being scared to death. I was actually told I was "dead" by them.

To conclude because the government has decided that my son and I do not matter I will handle this myself! I know who started this garbage his name is Lt. Col. Paul Oppedisano, Sr. former Marine and now an United States Air Marshal. He is a child molester. He participates in marathons. His ex-wife said he had psychological problems. His medication obviously were not strong enough.

Please send this email out to as many people with Paul Oppedisano, Sr in the subject line as you can maybe someone knows the real him. He portrays that he is really nice and he is soft spoken but his heart is evil, he will kill you! That is what they told me, "I wish I could kill her".

If we can start eliminating them one at a time it's worth it. It's either us or them! We have to help ourselves period. As I shared I was shy not anymore because they threatened my son life and he was only three-years old.

To all concerned about Directed Energy Weapons,

I'm a member of FFCCHS and moderate a conference call on talkshoe.com every Thursday night at 9:00 PM EDT in the USA.

My big question is why doesn't anyone who is a victim or in a help group for victims acquire a spectrum analyzer to prove they are targeted by microwaves? A directional antenna could also be used to help locate the source of the RF.

One would video tape the use of it and have proof that would be a smoking gun. Many TIs are carted off to psychwards when they try to get help because no one believes them, or they go to law enforcement that are part of the group torturing people. V2K, mind reading devices, microwave guns, and through-wall technology, all use radio frequencies that are detectable by devices available to anyone who has the money to buy them. With so many victims and groups of TIs (Targeted Individuals) in the world, a collection could be taken to purchase whatever is needed and train someone that can be trusted who can be used as an expert witness in court. They would collect the information needed by going to places where TIs are targeted until enough evidence is gathered to have an air tight case to present to the world. The proof that microwave energy is being directed at certain people or groups is necessary if we want to stop the use of it, otherwise it will always be possible for perpetrators to claim people who report such attacks are not credible. Please tell me why no one, or group of victims, with the means to buy one uses a spectrum analyzer for proof of their torture and to avoid a diagnosis of delusional. There are devices to detect acoustic weapons as well.

I bought an RF detector on Ebay 5 years ago. It's limited to detecting RFs from 0.5 MHz to 5.5 GHz. It has been useful in the past. The RFs used by military are above the range it's sensitive to. I did document RF coming into my home for a few months by pointing a computer video cam at it while I slept.

Dr. Webre tells of mind control tech attack!

Webre describes that meeting as a donnybrook - a bitter quarrel. However, the government department had the financial power, so the project was terminated. "Then came the attacks upon my person. Using microwave weapons..."

Those attacks began in Washington, slightly earlier, he recalls. Just before he returned to SRI to have that meeting with the liaison, Webre had been on a secondary project, meeting with the assistant secretary of Defense. When he came out of that meeting he was hit with what he calls mind control weapons.

What did it feel like? Webre replies, "It's very painful and it stuns you psychologically. It feels like you're totally disoriented. "

"This is how they have coped with activists in this area..." The attacks opened up a chapter in his life in which he became cognizant of electromagnetic or more exotic weaponry and became an advocate for others who are similarly targeted. The victims are put in an unbelievable situation in which they will no longer be taken as seriously.

Nevertheless, with some help from friends Webre continued a career of varied accomplishments. For instance, he was a delegate to specialized United Nations conferences. California governor Jerry Brown appointed Webre to a taskforce on earthquake preparedness. Webre produced and hosted the first live radio broadcast between the USA and the former Soviet Union, in 1987. He was elected as a delegate to the 1996 Texas Democratic convention. Webre is still a member of the District of Columbia bar. He taught civil liberties at the University of Texas. The list goes on.

In the year 2000, Webre went public with the concept of exopolitics, which is now an emerging field. A prominent author in the field, social scientist Dr. Michael Salla, is said to have read Webre's earlier online treatise before

expanding on the topic and writing his own Exopolitics book. Webre praises Salla's and the efforts of Stephen Bassett. Bassett hosted the first Exopolitics conference, last year in Washington DC. Webre's new book will be launched at the second annual Exopolitics gathering, on April 22-24.

Interest in the discipline is developing fast, he says, and couldn't come at a more strategic time. He cites global problems that are largely caused by our fossil fuels/nuclear civilization.

re: Dr Alfred Webre: Remember when Dennis Kucinich authored legislation on mind control and psychotronic weapons and chemtrails?

The initial version of the act is the only one that makes mention of "exotic weapons systems", listing several technologies that will be familiar to conspiracy theorists:

- (i) electronic, psychotronic, or information weapons;
- (ii) chemtrails;
- (iii) high altitude ultra low frequency weapons systems;
- (iv) plasma, electromagnetic, sonic, or ultrasonic weapons;
- (v) laser weapons systems;
- (vi) strategic, theater, tactical, or extraterrestrial weapons; and
- (vii) chemical, biological, environmental, climate, or tectonic weapons.

Yes, it even includes "extraterrestrial weapons", meaning weapons created by aliens (or created from alien technology from crashed flying saucers at Roswell), as well as psychotronic (mind control) weapons. Yet somehow "chemtrails" gets all the attention here.

Who wrote this? The original language for the bill was actually created by Alfred Webre and Carol Rosin. See, from Webre's web site:

<http://www.exopolitics.com/>

With Dr. Carol S. Rosin and many others, [Webre] is a co-architect of the Space Preservation Act and the Space Preservation Treaty introduced to the U.S. Congress by Congressman Dennis Kucinich (D-Ohio) to ban space-based weapons.

**re: discussion of human subject testing, as a crime needing to be addressed:**

It seems that nonconsensual human subject testing is the violation of international law that draws the attention of international groups concerned with human rights, international peace, freedom from abuse and other similar issues.

As victim/survivors of this, it would seem to be a tie that binds us -- the nonconsensual testing. Americans, Canadians, the French, etc. -- shudder at the Nazi atrocities in Germany, an international reaction, to say the least. If NATO is involved in the perpetration, which they may be, they are violating international law, specifically on this issue. It is an important aspect.

It may why they are targeting us. We should try to explain why we believe these very unusual occurrences are happening. Nonconsensual testing of the military intelligence community certainly makes sense of some of this. (We also believe that third party contractors are involved in the apartments, buildings, etc.)

To not include unauthorized human subject testing, leaves out a serious professional and potential "community problem" aspect of this.

### **"Our Ethical Violations Defined"**

**by Lynn Weed**

In a sustainable and civilized world, insistence on the ethical use of electromagnetic (EM) energy and devices, by governments and individuals is vital. We define EM energy as the frequencies on the electromagnetic spectrum, microwaves, infrared frequencies, radio waves, extremely low frequency (elf) and others. All EM energies are radiation.

EM energy power exists in many aspects of our lives. Currently, for instance, it makes it possible for two people to speak to each other, wirelessly, when one is thousands of miles away, through the use of a cellular telephone (microwave powered). It powers microwave ovens and our laptops. Medically, MRI's, CAT scans and x-rays are the result of EM frequencies directed at and penetrating the human body.

In the history of EM development, unfortunately, ethical and human rights violations have occurred in Europe and America. The Nuremberg trials in Germany exposed the shocking German medical experiments. An ethnic group, those with Jewish heritages, was marginalized, tortured and experimented on. Early EM testing on concentration camp victims took place.

After World War II, it was revealed the U.S. had created its own nonconsensual experimentation, the MKUltra experiments on American children. Some of the defined goals of this experimentation on unwitting subjects were:

- a. To research techniques to impose control over the will of an individual, including neuron surgery, electric shock and, drugs and hypnosis;
- b. To design and test septal electrodes that would enable defendants directly to control human behavior; 1.

The CIA formally launched Sub-Project 119 in 1960, the purpose of which was to research, study, and interpret "bioelectric signals from the human organism, and activation of human behavior by remote means." (Memorandum for the Record re MKLUTRA Subproject 119 from Technical Services Div., Research Branch, CIA (Aug. 17, 1960).) This Sub-Project involved the installation of "permanent septal electrodes . . . to determine the locus in which stimulations will produce specific reactions," first in animals and later in humans.

(Proposal Materials re MKULTRA Subproject 106, CIA (Jan. 1961) at 106-1.)

The Army's own report of the health effects of LSD experiments concluded in 1980 that: "Early experimental studies by Monroe and Heath and associates using electrodes implanted deeply in the brains of human subjects demonstrated the occurrence of spiking (epileptiform) activity in portions of the limbic system (hippocampus, amygdala [sic] and septal area) in response to LSD administration."

The United States has clearly had involvement in nonconsensual EM testing. Canada, also participated in this nonconsensual EM experimentation. The CIA was found guilty of unethical and negligent experimentation in the Orlikow vs U.S.A. case in 1986. (The actual experiments occurred in Canada at McGill University.) We have reports from members in England, France and other European countries that similar testing of updated EM devices/weaponry is occurring.

Nonconsensual testing of EM devices violates the Nuremberg Code, established at the end of World War II and international law.

The transmission of EM energy from one point to another is silent and unseen. Using miniaturized portable EM transmitting devices, it is possible to test and harass a human subject in one apartment from another, in one room from another, in one building from another. Even though it is illegal, it is very hard to prove that a transmission of microwaves or EM signals is occurring.

Some EM devices can cause human muscles to spasm, and vibrate, and it can cause nerve pain. High levels of microwave transmitted to the head can cause a ringing or buzzing sound to occur. These are some of the effects members report, after being exposed to this silent and unseen experimentation. Long term exposures, to these devices can cause migraine headaches, kidney problems, changes at the cellular level and other medical problems.

Military intelligence development of these devices as weapons, has produced the tazer, acoustic heterodyne, active denial system and other EM based weaponry.

Members in our group have experienced nonconsensual testing of these EM devices. It seems to be a "black budget" operation. (Meaning it appears to occur outside of or "above" the law). Group members have felt the transmission of EM continually, for several years. Members now, are experiencing similar medical pathologies, which can be attributable to overexposure to EM.

Efforts to discover the source of this EM harassment were either very difficult or led members to the intelligence/military community in our individual countries. Further discovery and ending these exposures was stymied at this level.

These weapons and devices continue in their development. Our Blackberries combine the capabilities of computer databases and cellular telephones. The U.S military spoke of "shock and awe" in its Iraqi military action. They refer to a device called the "Voice of God" to frighten Iraqi ground troops. This is a microwave audio (form of EM) transmission device.

Reports of nonconsensual testing continue to grow. We come together from our individual nation states to complain and expose these illegal acts. This experimentation/harassment is invasive, painful and unpleasant. The involvement of the intelligence/military in a covert capacity, includes harassment and attempts to discredit the complaining or whistle blowing parties.

Hitler accomplished his unethical experimentation by creating the camps, and the forced wearing of yellow arm bands. He generated propaganda concerning the "otherness" of the Jewish people. Victims of these latter day, unauthorized tests report similar, 21st Century, methods of discreditation.

The nonconsensual testing is wrong. It is morally wrong. It is also a violation of international law.

Our mission is to get this form of harassment/nonconsensual experimentation stopped. We seek effective action towards that goal. Comprehensive and competent press exposure of these unethical acts will aid us in our work. We want victims of these abuses to be made as "whole" as possible and have access to medical and psychological assistance.

We are working to get this stopped. We ask that you support our goals and concentrated efforts to stop these violations of the human being.. If the development of these devices does not proceed along ethical lines, and in accord with international law (developed upon exposure of outrageous abuses), human rights, as we now understand and enjoy them, are severely jeopardized.

We need to ask what kind of a world are we making and what are we leaving for our children? The very

sustainability of civilization itself, is threatened by continued unauthorized human subject testing and EM weapon development in this manner.

We ask that you speak with us and read the literature we provide and take our complaints and concerns very seriously.

Thank you for your kind attention to our concerns.

I have read your information concerning the Catholic Church in Switzerland. I'm a victim of DEW harassment and MKUltra survivor, living in New York City. I think we might have made contact in the early 2000's. I have been targeted with exotic technology since 1999.

I'm wondering, could you give me more information on who this group is, in Switzerland and if they will give us support? Thank you.

I am a victim and a working paralegal in NY City, U.S. I worked w/Harlan Girard when they were setting up the ICC. At this point, from the states, we don't qualify for a case, because you have to have your case denied (and possible, showable corruption of the judge,) before they will consider taking your case. I have studied this and spoken with international lawyers on this.

We have not taken our case to court yet in the states. I believe we will win in the states, most upholdable claims against the mil intel agencies in the U.S. prevail. They have no defense for these acts.

You can see from our website our goals, and how we are going about this.

We support Nick Begich and Jean Verstraeten in their work with the Council of Europe. If they can get that amendment in the European Union passed, there is a good chance, we can get one in the U.S. passed also. Currently we have Title 18 of the Federal Code which prohibits against the use of dangerous devices which emit radiation (which is a definition of DEW's). If the amendment gets passed at the EU, it will put us in a better position to get a similar amendment to Title 18 or a new bill passed. One very good one is the Michigan Act, passed a few years ago. In the U.S. Federal law takes precedence over state law -- however the Michigan Act is very good and may be an impetus to get a federal law passed on this.

Have recently finished with a package to Senator Wyden, U.S. senate. Dealing with my health.

Will complete this letter to the Church in Switzerland.

thanks  
all my best,  
Lynn

Surviving I have recently been diagnosed with giant cell arteritis, which is swelling of the temporal arteries (enlarged macrophages). I have been targeted w/the exotic techn., since 1999. symptoms of over exposure to microwaves are enlarged macrophages. -- -- --

Still intend to do a court case on the abuses we suffer in the U.S. (and what we are exposed to, here and internationally).

This sounds like a possibility with the Swiss Catholic Church. thank you. We are working on a letter to them.

### **[MURDERED BY BLACK OPS]**

CLARE WEHRLE -- VICTIM OF ELECTRO-MAGNETIC ABUSE

RadioActivists Forum (edited)

I am much in need of legal help and support. The background issues in my case involve targeting and ongoing, ILLEGAL Mind control EM experimentation by the CIA, COINTELPRO and U.S. Black Ops for which I have quite a bit of evidence. Being very outspoken on the internet, at least 5 attempts have been made on my life (along with the perpetration of other kinds of violence).

The police force in Lafayette, Louisiana -- the site of the most recent murder attempt-- have ILLEGALLY DENIED MY RIGHT TO REPORT THE ASSAULT AND THE ATTEMPTED MURDER perpetrated on me, in an effort to COVER-UP the obvious purposeful intent of our U.S. Secret Gestapo Police. This is, in spite of my having contacted the police immediately after the incident. In fact, there have been so many civil liberties violations, I can hardly list them (visit <http://www.angelfire.com/theforce/moratorium>).

### **SUMMER 2005**

In this most recent attempt, I was out at night in Lafayette, LA. The main reason I could not rent a hotel room was that my ID, ATM card AND credit card were negligently "LOST" by a corrupt hospital in Central LA (Coincidentally, this appears to frequently happen to people who cannot replace cards without a mailing address.)

Thus, without housing, I remained in the vicinity of an all night convenience store on the 5700 block of Johnston Street near the Acadian Shopping Mall in Lafayette. Despite my efforts to remain awake all night as I knew it would be safer to sleep during daylight hours, I fell asleep at a picnic table near "Toys R Us" as dawn approached. I woke up with a knife at my throat. And although I am not that young now, I did not panic as I have had years of self-defense training. And so, I was able, thank God, to seize the knife and throw it out of range so that I could not be overpowered with the weapon. The attacker then tried to get me into a stranglehold (as they have tried on previous murder attempts) which I was able to fight off, all the time screaming. Eventually he left and I left afterward for the convenience store (I did not stay right at the store as I may have been arrested for loitering or trespassing). The salesgirl said she had heard the screams but did nothing.

I called the police, who arrived with EMS. However, luckily I did not need EMS as the stab wound was very light. I brought the police back to the scene of the crime and located the knife. I turned it over to the police, but THEY REFUSED TO HAVE THE KNIFE TESTED FOR FINGERPRINTS OR DNA!

The attacker was apparently a young, highly fit white male, whom I could not see clearly in the shadows. There was no rape attempt.

Later, upon calling the Lafayette Police station, I found that NO POLICE REPORT HAD BEEN MADE. There was NOTHING ON FILE. The newspapers in Lafayette, though friendly, never returned my calls when I tried to report on this. So the incident was covered up completely (WHY?), despite the popularity of this shopping mall.

I thank in advance anyone who can offer further legal assistance. If you can offer advice, please send a copy to me at cwehrle05 (at) [sprintpcs.com](mailto:cwehrle05@sprintpcs.com).

I just received an e-mail from you re: The Monarch program chapter 16 excerpt. These are exactly the things that are happening to me, and I am fact a victim from childhood of Project Monarch, a subproject of MK -Ultra. I am slowly dying, and my perps need me dead because I knew too much.

But they also want me to go ballistic in public so I will look crazy, and they have ERASED a great deal of my memory which results in short term memory loss. It seems they are trying to turn me into a child. The technology used to erase my memory is a freezing technology similar to cryonics, I did research so I know about this. I have heart failure and am only 39 and may already have cancer from what they have done.

But they also have a webcam of our apartment on the internet, like it mentions in this chapter 16 of the Monarch program that you sent in the e-mail. They call it a Killer-Cam. Get it, like kill her, because they are very sadistic people.

I am wondering if going on a vacation would help, because I live in a small town in CA, US, and things are really bad here. Any response would be appreciated!!

I am currently a law student at Lincoln Law School in Sacramento, California and audited a class in international human rights at the University of California, Davis School of Law and completed national security law at McGeorge School of Law. I received an AA degree in math and science and worked for ten years as a medical receptionist. I received a BA in physical education from University of California, Davis in 1991. I had a very ordinary life until I was targeted with nonconsensual government experimentation in 1987. Since then I changed my life to fight nonconsensual mind control experiments. I received a second BA in government from California State University, Sacramento and started a nonprofit research and education organization, Citizens Against Human Rights Abuse (CAHRA), now Mind Justice, in 1996. I was interviewed by CNN on the 1997 program, "American Edge," also featuring former CIA director James R. Woolsey. The 1998 Learning Channel program series, "Ultrascience III," entitled "Spies Are Us," included my interview about the growing numbers of victims worldwide. James Lin, University of Illinois-Chicago, Department of Electrical and Computer Engineering professor and "world authority on microwave hearing," was also featured. Recently, I was interviewed by KOVR 13 News for a 2001 rally on nonconsensual experimentation at the California state capital.

I would like to draw your attention to some extreme and horrendous criminality being conducted with the involvement of United States Government-related Agencies and the complicity, if not participation, of many other governments and security agencies.

I am a victim of torture and abuse using **DIRECTED ENERGY** and **NEUROLOGICAL WEAPONS** technology.

American Satellite Assault Survivor

Mind Control Forums: <http://www.mindcontrolforums.com/victim-hm.htm>

It all started in 1993. I was listening to a nationally known talk show, and I decided to call the host. The question that I asked the host was not being answered, and I pressed the host to "answer the question." Apparently, the 'intelligence community' listens to the talk show. Unknown to me my phone call was traced, and as they say, the rest was history.

I have been under Satellite Assault continuously since. My interest is hearing from others who have been, and continue to be Satellite Assault victims to form a CLASS ACTION LAWSUIT against various U.S. Government Agencies and Employees.

The criminal use of these on me are causing the following effects -

1. Microwave hearing
2. Transmission of specific commands into the subconscious
3. Visual disturbances, visual hallucinations
4. Inject words, numbers into brain via electromagnetic radiation waves
5. Manipulation of emotions
6. Reading thoughts remotely
7. Causing pain to any nerve of the body.
8. Remote manipulation of human behaviour from space
9. Stalking on the streets
10. Control of sleep patterns.
11. Computer-brain interface, control and communication
12. Complex control of the brain such as retrieving memories, implanting personalities

There is massive ignorance and secrecy regarding this, and victims such as I are being subjected to uncontrolled and unacknowledged torture and mental and physical destruction. This has remained completely unreported and undiscussed publicly. There are many others, all over the world, who are being subjected to similar torture and abuse.

Your attention is urgently needed to halt these atrocities, protect me, and bring these extremist elements to justice. We'll beat this insanity, I'm sure of it.

We need a national initiative process to get to these guys, then we can collect signatures with the intent to destroy any and all 'death ray satellites,' and more.

I believe all governments are just a "front" for the powers that be. We the people need Direct Democracy in every country's Constitution, so that we can get the legislation we need, and ways to detect and enforce violations of legislation. As for me, I would like to unplug the satellite-to-cell phone to stop from being followed, and unplug the satellite that they use for V2K, voice to skull, and their laser and microwave satellites that they have used on me since 1993. Maybe a movie can be made in every country, using their own actors, to convey the problem and the answer.

I am a sufferer of remote neural monitoring, "voice to skull" (V2K) in the United States-Los Angeles area. Recently I had an fMRI at UCLA done for my memory. All my memory was blanked--out and the V2K people use it to torture my thoughts with voices and visual torture (having them communicate through what they call my "reality") after I copied illegal MP3s and a few films off the internet.

Recently, I spoke to Mark Hammes of the L.A. FFH (Freedom from Harrasment) chapter, who spoke of the Pentagon's "World Sim" (SOMA) with morphing voice technology and recreating "reality" in the mind, as part of PSYCHOP division. This is what is happening to me, including virtual objects I see and sensations.

I've been in meeting with psychiatrists and recieving anti-psychotics for 9 years. Until I copied off the internet and simulated psychosis returned as a result saying they were the "Police Department" and the "FBI", I understand this is not a normal biological psychiatric condiditon

Going through a hell of a time right now. In a couple of weeks I'm going to be getting TMS (Trans Magnetic stimulation) done of my temporal lobe for the auditory portion. I'm positive this will not help with the rest of what I'm experiencing.

Do you know anyone with real knowledge of brain implants. I'm looking for a Neurologist who might help.

Also, I'm pursuing an international claim committee for my case. So far, medical malpractice attorneys won't help.

Would you help me by giving me contacts for the following:

1. A Neurologist or someone who knows brain implants in the US or abroad.
2. An attorney who handles cases involving V2K.  
Possibly an attorney who has filed a previous V2K.

### **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

“None are so hopelessly enslaved as those who falsely believe they are free”

**My story as sent in a letter to Sharon Weinberger of the Washington Post 2/2007,**

Thank you so much for your long awaited, ground breaking article on the subject of non-consensual weapons testing. I am a victim of what has been for me and my family a modern day electronic lynching. The sad thing is that it is being paid for with my own tax dollars. Please continue your work to unveil this atrocity; you have helped me, my family and hundreds of other Targeted Individuals who until now had to remain silent and suffer in this abomination alone. I am under attack 24 hours and 7 days a week by the civilian and U.S. Military branches of the NSA. I am not alone I am in contact with hundreds of others of victims experiencing exactly what I am receiving since August 1997.

As telecommunication today engineer, I specialize in designing and implementing high-performance networks digital and solutions for the transmission of voice, video and data. I also have worked on and built some of the key components technology that is being used to harass me.

In 1979-81, I worked as an engineer fabricating designs for, oven controlled quartz crystal oscillators for Frequency Electronics Inc. a defense contractor /manufacturer of high-tech precision time and frequency products used to synchronize voice, data and video transmissions in wireless communications systems .Their systems are found in both ground-based stations and on-board commercial satellites. Frequency Electronics Inc. continues to support the United States government with products for defense or space applications.

In my case, the privation began just weeks after I returned from vacation in Cuba. Two government operatives or contractors were operating in an apartment above me, which at the time was known to be vacant, 9-11 Maiden Lane,

New York City in 1997. They started locally using some kind of directed energy device on the cochlea of my inner-ear, re-calibrating the natural acoustic resonance or mechanical vibrations of the middle ear's bone structure to oscillate with higher amplitude modulated signal levels that are for best suited full duplex two way inner-ear to a device they were most likely speaking into and apparently setting me up for a permanent connection to the NSA's host computer's neural communication network. From which the operators or assailants are also connected via their inner-ear or headphones.

The inner ear propagates these mechanical signals as waves in fluid and membranes enabling the audio perception of acoustic sound. This is what you feel and hear when you think or read to yourself. Now why did I state feel? The sensation of human physical feeling's and it's link to our emotions is via data input/output from your ears and eyes, skin, nose and mouth, tongue, through the firing of nerve impulses (action potentials).

The inner-ear is the gateway to the primary auditory cortex for processing of the sensations of emotions, the interpretation speech, or visual signs, the interpretation of taste, pain, fear, love...

For us so called V2K victims (action potentials) are transmitted to primary auditory cortex of the brain, the area responsible for the auditory sensations the perception of (voices) as well as the stimulation of balance, motion, emotions, taste and smell. The (voices) and loss of private thinking started simultaneously with my inner ear, re-calibration, but this was restricted to bed room and bath area of my apartment.

Three to five months later I got the (voices) everywhere I went and perceived sounds (voices) graduated into full blown conversations. Let me make this perfectly clear I am not hearing (voices), I am in compulsory two way communication, (Techlepathy) it is also called (synthetic telepathy) or mind talking with my attackers. From that point on the NSA has been recording the brainwaves of my nervous system, to capture and store my nerve impulses (action potentials).

I am now tortured 24/7 with so called V2k voice to skull transmission, which by the way is much more than just V2K (voice to skull). V2K is really Extremely Low Frequency (ELF) waves that naturally exist in the earth's electromagnetic cavity which is the space between ground and the Ionosphere. These 'earth brainwaves' are identical to the frequency spectrum of our human brainwaves. (ELF) waves provide the telecommunications carrier for nerve impulses (action potentials) which affect the entire central nervous system. Just ask any TI (Targeted Individual) they will all testify that it is more than just voices in the head. It is an attack on the central nervous system.

**THE COMPUTER GENERATED DATA FOR TARGETED INDIVIDUALS (ELF) TRANSMISSIONS ORIGINATE IN THE NSA'S HEADQUARTERS IN FORT MEAD MARYLAND.** The NSA's machine of choice is the \$42 million, 800MHz Cary X1 vector supercomputer, the only vector supercomputer available in the U.S. The National Security Agency funded development of the X1, and currently uses an undisclosed number of X1 systems for Cryptanalysis, Data mining and mass storage. The primary mission of the National Security Agency is, "Signals Intelligence", "codebreaking or cracking the code" as they call it. They are the only government agency with the technology and processing power to do this.

I did have a very long conversation with Dr. Monjezi, he has a good understanding of the problems we victims of this crime are facing. His current work will provide be a the key component of scientific evidence that will stop mental health community from the mis-diagnosis victims of electronic harassment. I also forwarded him our list of experts witnesses that have expressed interest in testifying at the hearing in New York City. Thank you so much Dr. Monjezi will be a great help!

**New York Disclosure Network NYC chapter**

I am an activist, expert witness and adviser to New York State Senator Eric Adams, and too many public interest organizations addressing the use of electronic weapons on the ground and in space. I found my first meeting on 10/05/2008 with New York 's DNNY organization with Dr. Lynn Surgalla and myself as guest speaker on the issues of electronic weapons both supportive in interesting. Thank you for the opportunity to address your group. I am seeking your membership in the New York Disclosure Network because of the issues outlined below.

New York State Senator Eric Adams is planning a hearing to investigate the issue of advanced technology currently in use by the U.S. Government for convert surveillance and torture of Americans and citizens around the world.

The issue may seem like science fiction if it were not for the fact that many people are coming forward with evidence of being victimized by remote neuropsychological and directed energy weapons developed by the US Government.

The Senator Eric Adams a well know activist in New York City , is assisting us in combating these issues. The Senator agrees that there is compelling evidence pointing toward the need for governmental oversight and legislation that would protect the rights and liberties of individual citizens against the testing use these weapon systems.

Cincinnati, Ohio (PRWEB) June 24, 2008 -- As the issue of torturing foreign suspects plays out in Washington and the news media, there is a little-known aspect of the torture issue that some would find surprising and hopefully alarming. These issues are being brought to light by me and Derrick Robinson USA OHIO: Freedom from Covert Harassment and Surveillance (FFCHS), Massie Munroe USA California, AUSTRALIA: John Finch, USA: Dr. Robert Duncan Hacking the Mind, USA Alaska: Dr. Nick Begich, Controlling the Human Mind & Angels Don't Play This H.A.A.R.P. CHINA: Soleil Mavis PeacePink Organization, BELGIUM: Monika Stoces Federation Against Mind Control Europe, CANADA: Mostafa Hosny Rule of Law Defenders, and many others. All are human rights activists and organizations, whose membership is comprised of victims both in the US and many countries internationally.

The investigative hearing planned for February 2009, will address the New York State Senate Judiciary Committee, other elected officials and the press. I have contacted you because I am seeking membership in organizations that share our concerns, that I can support, and that can lend support to our campaign to bring these issues to light.

State Senator Eric Adams is seeking the following: State and Federal legislation banning the use of this technology in compliance with the European Parliament's resolution international convention ban on all developments and deployments of weapons which might enable any form of manipulation of human beings. The criminalizing all human research without the informed consent of the subject, including all classified behavioral research. He is seeking civil and criminal relief to be awarded to all victims of these crimes.

**New York Statehouse hearings regarding our issues slated for February 2009**

On Thursday, Tim in New York met with State Senator Eric Adams, a boyhood friend of his who is has recently met with some TI's regarding our issues. I wrote about him in the newsletter a couple of weeks ago. He has been reviewing informational material from us for the past 2-3 weeks.

In the meeting, Rep. Adams stated that he wants to hold hearings concerning OS/EH harassment in February. He's asking that we send a brief summary of our harassment for his review to: [NYhearing@aol.com](mailto:NYhearing@aol.com) The hearing is open to the public. Therefore, anyone anywhere in New York state, the country or the globe can give their testimony or attend. For clarity and time considerations he is reviewing the summaries submitted for testimony. The location for the hearing will be New York City. The exact address has not been determined. We'll of course have a group of expert witnesses to address the senators about the technology and the psychology of the abuses as well. We've provided him a suggested list of experts who have expressed their willingness to testify. Those people he plans to contact and interview personally.

He also mentioned that he wants media involvement, which he could generate. And that this hearing would be the start of spinoff hearings in other states and would ultimately result in a congressional hearing.

It would certainly be beneficial if there were some other state representatives that could work with him on this hearing. Hopefully, we will find others who will come forward to lend their support to these issues.

One last comment: Scheduling of the hearing is the first step. Completing the hearing is the goal. And 5 1/2 months to go gives the stalkers plenty of time for mischief. Those that were around last year will remember the television show that we were all counting on, only to have it cancelled just days before taping. And the Firecracker Films documentary that never materialized. And numerous television and newspaper reporters that contacted us and never heard from again. So we've got to remember that something of this magnitude may encounter perp interference. What I'm suggesting is that for all who are believers that we need to remain in prayer for this event - for Senator Adams and for the success of the hearing. Also keep in mind that the month of February in New York could bring issues with the weather, which the perps have been known to bring on at just the exact time. So please keep all these things in mind as we pray, and pray believing. Personally, my belief is that we can only succeed in

this struggle with God's help. A word to the wise is sufficient.

All this will be discussed at the conference call this Saturday night. And if there's time, Dale Wahl will join us to talk about his project.

For further questions or comments about the state hearing, please contact Tim in New York at:

Having experienced for a number of years what I think you might also be experiencing now, I offer you my opinion. I think we are experiencing spiritual attacks that might perhaps be "activated" through electronic means. However, the crucial point is that these are spiritual attacks, as I see it. If I am correct, the best thing that anyone going through this can do is to follow the strictures outlined in the Holy Bible. This would include the following: reading and studying the Bible on a more-or-less daily basis, speaking the Word as it is found in the Bible, fasting and praying (take a look at a very good little book by Derek Prince entitled, "Fasting") and perhaps speaking in tongues in order to strengthen and edify one's spirit. We are living in very interesting but dangerous and perilous times! These are, in fact, extraordinary times and we must all be protected and strengthened against what is going on around us -- much of it orchestrated by very evil and wicked people, many in the inner parts of the military ("military-industrial complex"), the media, the political establishment, the national policing services, the corporate world as well as in the world of medicine, law, education and science. I don't know whether you ever listen to Alex Jones at [www.infowars.com](http://www.infowars.com) or the many other excellent hosts on the [www.gcnlive.com](http://www.gcnlive.com) network over the internet.

You must strengthen your mind by strengthening yourself spiritually as well as physically. The physical component is very crucial. A good prescription in this respect is to exercise regularly, eat pure foods (perhaps some raw foods): lots of fruits and especially a diet rich in vegetables (particularly the green vegetables as well as the berries like blueberries). Look to websites such as Mike Adams' [www.healthranger.org](http://www.healthranger.org) as well as others over the internet dealing with diet and nutrition along with fitness -- mini-trampolining to get the lymphatic system going, walking, sweating. Also steeping yourself in engaging activities -- ones that engage your thought processes in self-expressive things whether sports-related or other. Be careful of the music you listen to. Stay away, in my opinion, as far as possible from the television and radio -- these are tools that seem to be used to experiment with "mind-control" programs beyond anyone's understanding. You might consider linking up with one of the "We Are Change" groups in a city near you as these often have members who are familiar with the many nuances of the "surveillance society" and the ongoing "police state" as it is evolving in our world today. All the best and God Bless! Please keep in touch and let me know how you are doing. If you would like to talk to me directly, let me know and I will give you my telephone number; you can then call me collect if you have to and/or would like to.

## **12/4/09 - Re: PLEASE SEND YOUR TORTURE AND ABUSE CASES TO THE INTERNATIONAL CRIMINAL COURT – use Reference: OTP-CR-70/07**

Thank you for your hard work and consistent, conscientious effort at attempting to bring these atrocities and high crimes to the attention of the world, to try to bring the criminal acts of governments around the world to the bar of

justice. I would like to email the list of names that you have managed to garner in this letter to some friends and acquaintances of mine here in Toronto, Ontario, Canada. The Canadian Government, as I am sure you and many other people are well aware, is highly involved in participating in these crimes here in Canada -- a country whose former Prime Minister Chretien hosted a human rights conference in 2003 when he must have known full well that these crimes were being contributed to by Canadian officials and scientists, a country that has put up with the criminal acts of its security forces like the RCMP and CSIS for decades and still does nothing to send responsible parties within these organizations to maximum security penitentiaries where the Canadian people repeatedly argue criminals should be sent. Yet we are in the process of constructing mega-prisons for young offenders here in southern Ontario as elsewhere. The RCMP and CSIS have criminally harassed lawyers and journalists for many years, the former Commissioner during the now-infamous and notorious Mahar Arar case was under strong suspicion of defrauding his own staff of a notable part of their pensions but the Canadian people still do not and will not get it!

Again, the world owes people like yourself a huge "thank you." You and others are truly heroes and I believe that your hard work is making a difference at this point in time. Kudos to the many, many, many unsung heroes that went before -- people whose names we still do not know. Perhaps that will be a project for the future -- to dig every one of these names up and put them in front of the "public" mirror so that these crimes against humanity by government officials all over the world and their co-conspirators in the "media mafia" can be put at least on a form of public trial. Please let me know whether or not you approve of me forwarding your letter to my other friends. God Bless!

**25/4/09**

My name is Glenda Whiteman and I called you in Australia last week from Toronto, Ontario, Canada. Did you get a chance to read the email that I forwarded a few days before that? I think that the list that you developed was a great idea and can be an extremely effective too in the struggle against war criminals around the world. Would you be interested in working with me and perhaps some other people in developing an even more comprehensive and thorough list? For example, I personally have spoken to and even met with at least another five or six people through a group that we started here in Toronto called CATCH. In addition, there are other "experiments" that have been done by the United States Government and its contractors in countries around the world on innocent, law-abiding citizens. I think that everyone that has been effected by such criminal activity needs to tell their story so that it is in the public record for generations to come with the intention that it might be used in some way to eradicate this kind of torture in the future and also with the intention that people that have been touched in any way by this can find some sort of justice. This is particularly important right now given that the temperature seems to be rising in America with regard to the torture of men, women and even children at the infamous Guantanamo Bay prison. I look forward to hearing from you shortly.

My sister and I have been victims of electronic harassment since May 2013 while living in Los Angeles, I was also mobbed on my job which left me with a low retirement and great fear, it was if the entire city was satanic.

I want to be apart of your list of torture victims and pray this horrible crime will be exposed to the world.

## OUR STORY OF BEING ELECTRONICALLY TORTURED.

Names - Lorenzetta and Lillian Whitfield  
Address - 5930 Benner Street, LA 90042

May 2013, my sister Lillian heard voices from her head very loud and clear. "Good morning nigger slave you're going to continue to make the Mexican neighborhood very rich with your singing and song writing, while you and your sisters will stay poor for the rest of your nigger life!!"

I knew my sister was not crazy and we began to go to the hospital for brain imaging, yet while I was at working I was being treated with outright disrespect and hostility and at night DEW weapons were aimed at us. My teeth became very hot, in which dental work (crowns) were uplifting. Sexual Rapes, Burns, Stings, Shocks, and Crowling Sensations.

We went to all legal advocates, police, district attorney and were treated like the plague. We became tired, run down and fearful. Our main stalkers where neighbors, whom we had no ideal they belonged to a satanic cult.

Sept 2013 moved to Michigan City Ind - town of birth. This cult followed. My sister Lillian still hears their voices (V2K) they want her to sing and sign song rights over which she refuses and the torture continues. They have some way of transferring fluids to her body (seminal) and foul odors, she is always electronic raped to break her down. Our targeting is highly racial, we are Afro American and this cult is Mexican, Our mistreatment is always of a racial vibe.

In addition doctors are not taking care of our medical needs which concerns me (Lillian had kidney transplant 2007) Fat is put into Lillian's body, her kidney has been cut and damaged.

Our stalkers are human traffickers, women are assaulted while sleeping, video to TOR Web for profit. We are gang stalked, the police are of no help and we live everyday in misery. The only relief that I can see is that this area has not hit us with the dew weapons as in Los Angeles. I believe our main leader is Paul E. Kaufman 5926 Benner St #1, LA, CA 90042 and Michael Del La O - 10928 Choussier Street - Whittier CA 90606

I want these vile fiends put in prison. I want these crimes exposed so that all targets globally can be heard.

U.S. citizenship was first attacked in 2012. What is being done to me is I'm being honked at in my house and outside and cars swarm and I always hear booming sounds daily. Sometimes regular civilians would say things and laugh. one racist guy said a racist slur. I used to get people that made faces but that was minor until this happened.

My targeting started in 2001, that is when I first realized it anyway. I'm an American.

**16/12/08**

I find it incredible that so many people know about this targeting and yet when you try to talk about it to someone they know nothing.

Yes I'm surviving but I fear for my children and grandchildren. I do not know how to get through to my children to convince them that what is happening to me is also happening to them and there children.

My 7 and 9 year old grandchildren are so thin from having diarrhea every day from being exposed to radiation during the night I fear for them.

I sleep in a Faraday cage and have for 3 years. I also have other protection form the other things they shot at me. I can not share any of this with my grandchildren because my children tell them that I'm crazy so I must sit and watch as they kill my children. I pray to God all the time that he well open the doors to educate them to what is going on.

Thank you for this letter, I'm so impressed.

My name is Anthony Williams and I live in Madison, MS. I am a 46 year old caucasian male. For the past year or so(probably longer), I have experienced an ongoing invasion of my privacy. It seems that I am being 'monitored' for some reason. I haven't broken any laws nor do i intend to. I feel that my privacy has been stolen. I am willing to speak out on this matter, especially if it might help someone else 'not' have to endure what I am (on a daily basis). Please let me know if you can put me in touch with someone who can get me hooked up with the proper people so that we can begin (asap) to put a stop to this unconstitutional criminal act. I am very interested in any tips that you may have on what I can do in the meanwhile... such as, recording evidence or taking notes with details and timelines etc... I thank you for any help that you may offer, and i say GOD BLESS all those who are trying to help people like me who are being taken advantage of by the very people that we have trusted to protect us (using the money that we give them).

I wrote to the U. N. High Commissioner for Human Rights in Geneva, Switzerland, last September, complaining about human rights violations in the United States. Due to the uncertainty of targets' mail, i sent two separate copies of the letter. i never heard from the High Commission. As the perpetrators read my thoughts, use voices on me 24/7, and know my every action, they very likely intercepted the letters. That is the reality of the sordid scheme. I wish you well. Thanks for your activism.

Hello:

My name is September U. Williams, I am a United States citizen, born and raised. I live in Los Angeles, California in Los Angeles county under the thumb of the LA Sheriff's Dept who constantly torture and harass me as part of this govt sponsored torture program.

I first had symptoms going back to 2005. I had no idea what was happening just figured body getting older until i was enduced to be totally incapacitated in 2008. I didn't realize that i was a target until 2012. I know my targeting predates what I've documented by a decade or more.

My hands vibrate, my back heats up, i feel electrical currents which means they have bombarded my body with this and now I'm sensitized to it. I feel sharp pains in my vagina area, feet vibrating, head vibrating. Pains in all the areas where vibrations are placed. I am also organized stalked by a ground and air crew. My targeting can be proved. If you need any more information let me know. I will include my info below. Please include me in the list.

Hello,

My name is Joshua Williamson and I am writing this letter to government abuse. I have been terrorized and tortured since November 2004. The government has used a classified technology involving brain implants and microwaves to make my life a living hell.

How it works is the tiny implants "nano particles" are ingested and they attach to your brain cells which allows a satellite to control all bodily functions using microwaves. It also allows the government agent "with the same implants" to share your mind and body.

I think I got the implants when I went to jail in 2000 for 11 days. Since then I have always been paranoid that I have been being investigated or watched, with good reason, I have. But the delusions of being drugged started in November 2004 when I worked for a company that worked close to the railroads and I thought I was being investigated because of me trying to derail the trains for political reasons and a congressional tax code change for the state. After a man Jaun manual Alveraze derailed a train the drugging started by my pears in my mind which made me think the government was apart of it and other murders "using the technology on them" to terrorize me because I didn't want to have anything to do with derailing a train and wanting to blow the whistle. This is the only reason I can come up with on why they did this to me other than them doing it for no reason just to terrorize me for practice or to have a job. I think they knew none of this was going on for real, only in my mind, because they controlled my thoughts, they put me through all this none of it was real.

What they did using the microwaves and implants was: They would make my nerves intolerable, sometimes it was so bad I could hardly walk and my nerves would burn, It was the worst of what they did to me, I would have to work like this making a job hard to keep, they did this for five years every day. They would make me so lightheaded I could barely stand up, it hurt, they did this everyday for a few years. They would give me diarrhea that would burn my butt when going to the bathroom because of stomach acid, they did that for years, when they stopped giving me diarrhea they made me constipated for weeks at a time making me feel sick, they did this for five years. They would give me microwave headaches, sometime it would be hard to stand up the headaches were so bad, they did this for years all the time. They would beat me with my own fist, I have no control over it, the good agents in my head would rap my hands around my body so they couldn't beat me, they did this for a couple of years everyday, they would bit my lip and arms, I would have to wear a mouth piece so they couldn't. They would sometimes get me on the ground and pound my head into the ground. They would close my throat when I was eating and it would make me feel like I was choking very scary. They would hit my ears trying to blow out my ear drums. They made me delusional that people were poisoning and drugging me all the time throughout my army career and my family and peers, the drugging feeling was so bad sometimes I couldn't talk right it was like I was retarded. I

thought the media was involved with what was going on with the murders. They would mentally torment me 24 hours a day all the time about the issues.

I am not a witnesses to this. I am one that is torture 24/7 since 1994 and it is still happening to me as I type this. Can not get anyone to help me to stop it. I have grown children and grandchildren that see this happening to me. My daughter come down to help me and fix it up again and they steal and destroy everything all of the time. not counting what they do to me. This all started when a military man moved next to me and his wife and my life turned upside down and it still is going on. Now I have a big gang around me doing it. I see so much in their yards and screen rooms and all over. I live on a lake and I think they get more evil everyday. About 20 years ago , I heard they want my home and was going to do everything they can to run me out of here. I need someone to also help me. I need help just like the ones you are talking about. I live this daily!!! Put me on the list from the United States in Missouri that knows this is very true and no one stops them. Thank you for listening to me.

I am a writer and artist working in Saskatoon, SK Canada. You can find me on Hear My Heart Books, past member of Saskatchewan Writers Guild and Past President of Saskatoon Writers Club. One of 5 founding members of Subtle Voices, a critique group here in the city who hosted other writers to come in and instruct workshops. I'm a past member of the Biggar Writer's Group. I've judged a monthly poetry and prose competition and been invited to judge speech and performing arts competitions for young people. I have instructed workshops of 10 - 300 people including students and adults in art, writing and social issues. I have a heart for social and social justice issues that affect people locally, nationally and globally. I have also liaised with women's organizations especially around the beginnings of the December Memorial. I have won awards in Canada and the USA for my poetry and received an award for a CoS report read into the minutes that changed the bus routes in Saskatoon. I will always appreciate the encouragement of my high school art teacher and Verne Clemence at The StarPhoenix for hiring me as a freelance book reviewer at the beginning of my career.

I have been the recipient of "Organized Stalking, Electronic Harassment" or multi-stalker harassment by strangers for the past five years beginning in 2008 when I became a self-employed cleaner to support my Arts career. With cleaning, I could make a certain amount per month but it was not stable as people were often away; sometimes everyone during the same month. Never the less, I enjoyed it and had many long-term clients but at times I've had all clients away at once so could not count on it. I also knew three senior clients well who passed away. That affected me as I had developed close friendships with them. I wanted to earn by cheque so I had a paper trail of my work and am very proud of my accomplishments with it during that time, tax-payer, etc. As you can see, without a significant other, this was not sustainable given the rising cost of housing in Saskatoon.

I went through a bankruptcy at that time. I am a 52-yr-old divorced mother of two college graduates who are working in their careers in another province. I had a "normal" life living in Biggar, SK, prior to returning to Saskatoon in 2006 with friendships across the social spectrum. It was a financial struggle in Biggar, but my children and I had a good standard of living there and could afford housing, car and vacations prior to that time. I would work the jobs I was working and would go through bankruptcy again to make sure they were raised right.

When I returned to Saskatoon, I began to take jobs out of necessity, rather than choice. I discovered several poor work environments including the foster care system with high aboriginal children/youth intake around the time the children's report came out --- I discovered I could not make a difference ---including dealing with burnout from one, prior to settling into cleaning.

I lived in an area in Sutherland where I was asked by the rental office to have a surveillance camera placed in my home for a period of time as there was suspicion of drug-related activity directly related to the house across from me. I became more and more uneasy about this as it was supposed to be in my home for a very limited time period and I was not interested in spying on my neighbors. I finally went to the landlord and asked to have it removed.

She was surprised to discover from me that it was still there. A friend who lived in the area let me know that a grow-op was later discovered at that location. Another cleaner friend of mine was also asked to host a surveillance camera at her home around this time in another area overseen by the same landlord. This camera was situated outside of her home.

The harassment began and continued, following me place to place in the city into housing, employment, public places, etc. I tracked some of this down to my banking information re: a previous pin number which has now been changed. This also included months of harassment at my next home on Cumberland Ave. including loud conversations starting approximately 2:30 – 3 am every night meaning no sleep or interrupted sleep.

I have also exhausted possibilities of "Organized Stalking Electronic Harassment" being a medical issue as I've gone to a doctor and gone on medication when experiencing this harassment. Medication did not stop the multi-stalkers functioning in real time nor did it stop the V2K. If this was a medical problem it would go away with medication. It hasn't.

I have received interference with my paper mail, email and telephone with all communications being interrupted or affected in some way. This includes five to six months' worth of missing mail this year that included banking

information. When I recently changed addresses with Canada Post this year the missing mail never arrived. I went to my bank to get copies of my missing bank statements and did report this problem to them. When I contacted Canada Post in person or by phone to report missing mail, they let me know they couldn't help me as they don't track envelopes. I also had people phone my cell with hanging up, crazy laughter and unintelligible comments. I reported this to my cell provider who referred me to the police. The police said they couldn't help me but suggested I change phones. I replaced my phone to the tune of \$700. Email problems continue as I was trying to send something again last night. I could not submit a form. When I tried to send a copy of the info to myself, the email I was working on disappeared.

While shopping in Saskatoon or out at a restaurant I have been the recipient of unwanted following and overt hostility by strangers and have come to discover when I have been with friends or family something hitting me called voice-to-skull (V2K) technology. This is a psychological tactic to try to drive one crazy or show the person experiencing this in a bad light as it is hard to explain this or hold it all together while receiving this. Eg. I was with two friends at a west-side coffee shop when I received derogatory name calling referring to me in the 3<sup>rd</sup> person that only I heard but another friend went unconscious in broad daylight. This is highly unusual and we have spoken since about our mutual experiences with it.

I was recently involved in outdoor seasonal work where I returned from travel with a burn 4" x 2" on the left breast and received overt hostility directed at both the company I was working for and me personally. I did very well with the company and created more business for it but was again harassed on the job. This burn occurred under 2-3 layers of clothing and took 2-3 weeks to heal and chaffed after that. Any sunburn I've had previously heals after applying ointment within 2-3 days.

This harassment issue has made it nearly impossible to proceed with my Arts career or to maintain steady employment and I have become a hidden homeless statistic for the past year. I have gone so far as writing a letter to Amnesty International, London, UK but they nicely refused to help. Amnesty here in Canada can only cover so many issues at a time and is running 10 years behind although they are doing outstanding work.

I slowly realized what was happening to me, researching this relatively-hidden, able to function given our eco-political climate, emergent 21<sup>st</sup> C crime, discovering women and visible minorities are most often targeted. A smear campaign was accompanied by perpetrators of various events trying to cause me to notice or react to a given scenario taking place. Only the targeted person is the recipient of all of the events which seem to anyone else like life's hard knocks.

Further to this, small appliances were destroyed at several locations I've lived and personal belongings would go missing from the house on or about the same time as I would host a group in, whether with family members or friends to destroy trust in these people and to try to create a sense of isolation and paranoia.

There was an attempt at the Sutherland location to access my home through a second bedroom window not used often. There was also another attempt to get into my home on Cumberland while I was at home through a back door deck screen.

I had an experience in the North last winter where this followed me from the workplace through the community driving me to visit the medi-clinic and the hospital. It included the invasion of my privacy at every level by phone, coming into my apartment, filming me there in my most private moments and the locking down of my computer including movement and loss of files of poetry, stories, etc. This computer was not hooked up to the internet. I have a laptop for that. I was in fear for my life there.

An ongoing slander campaign is destroying my credibility and exhausting my resources both physically, mentally, emotionally and financially over a period of time.

Many targeted individuals (TI's) spend their lives trying to speak out about this issue affecting citizens most often of Westernized countries. They are most often labelled or misdiagnosed as schizophrenic, mentally ill or some other nonsense. The tactics happening resemble Nazism, fascism or Church of Scientology "fair gaming." It seems to function outside the law while allowing perpetrators to harass and persecute more victims. This is meant to humiliate/shame an individual, create fear in him/her and to ultimately silence the victim.

I have been wrongly portrayed to others of lying, theft, prostitution, being a "spy", that I have been "caught

working as a man” among others. Many of these “nudges” “suggestions” to others paint a picture of me being “other”, “undesirable” “not to be trusted” “expendable”. The perpetrators flash phony ID and files to make them appear “legit” and people approached want to help. Never mind that the information is false. It doesn’t matter. This is a psychological attack.

When I became aware I was experiencing this I have tried to first of all to receive help with it to no avail, learn everything about what it could and could not be, speak out about it and educate others on what is happening.

I realize this is difficult to grasp if you are not the recipient of this yourself. Please research this topic and decide for yourself.

My thanks to you for any help in bringing information forward about this crime in general.

To Whom It May Concern....

My name is Robert Wood and this is my true life story regarding being an ORGANIZED/GANG STALKING/COINTELPRO target/victim in the United States of America. This is only a partial account as I could write a large book about my experiences, but do not have the time or resources at the present time to do so.

First let me state..., I am not a criminal, I am not a terrorist. I have not been charged with a crime, nor am I connected to anyone who is, to my knowledge.

There are covert crimes being committed against innocent and virtually defenseless American citizens and citizens of other countries as well. I am one of these persons.

These crimes all follow a similar pattern and are advanced technology based. The foundation for these crimes is COVERT SURVEILLANCE. Once the TARGET/VICTIM has been CHOSEN, they are put under covert surveillance. This includes, their residence, car, place of employment or anywhere else. As much information as possible is gained through that surveillance or in any other manner, i.e.... illegally going through target/victims journals, personal papers, interrogation of friends, relatives, employers or anyone else connected to the target/victim. After a period of time what can only be described as "a campaign of terror and assaults" begins. These crimes run the gamut from what is called "ORGANIZED/GANG STALKING/COINTELPRO" operations to "DIRECTED-ENERGY-WEAPONS-ASSAULTS". The end result of these CRIMES can range from virtually ruining someones life, institutionalization, to death. Considering the severity of these crimes, it's a wonder anyone survives at all. There is almost complete secrecy surrounding this horrendous situation.

There is much information about these crimes on the Internet and elsewhere. Simply research ORGANIZED/GANG STALKING/ COINTELPRO. Also, many of the tactics are documented in government records i.e.... COINTELPRO, MK ULTRA and many others. There is ample documentation regarding ALL the advanced technology referred to in this statement/report, including "DIRECTED-ENERGY-WEAPONS" or DEW. Patents exist and can be found. These weapons are a standard part of the military arsenal and are advancing all the time.

The tactics and technology used on targets have been pulled out of these various government programs, COINTELPRO, MK ULTRA etc, and the military, and are being used across the board on anyone put on the LIST.

I WELCOME/CHALLENGE ANYONE TO RESEARCH THIS FOR THEM SELF

My story starts about ten years ago. Though at the time I had NO idea what was happening or what I was in for.

I started noticing that someone had been entering my truck at various times. I would come back to my truck and SOMETHING would be left inside the cab that had not been there before, the truck had been locked at the time. This is the first thing I remember and goes back about ten years. Obviously the perpetrators wanted me to know they had payed me a visit.... Things progressed from there.

I remember feeling angry, violated and fear, but at the time didn't think too much of it.

I then started noticing OBJECTS being left in and around my truck or anywhere I went. They were usually the same objects..., so it seemed obvious they were left there for me. This increased until there were objects left everywhere I went. Also, around the residence where I lived. There was no place I could go where this did not happen, things were escalating.

I was becoming alarmed, something was definitely going on.

About eight years ago[12/01] the stalking activity increased dramatically. That is when the residence I live in was electronically bugged or I was put under audio and visual surveillance inside the so-called home I live in. [how depends on the technology]

At this time I started noticing strange things happening INSIDE the residence I was living in, HOME. My personal things started showing signs of having been gone through by someone. My books, personal papers, journals etc..., had pages folded, were marked in various places or in some cases were actually missing. Other items began to disappear..., keys, things from my wallet, etc... , also various items were moved around. Now I was really starting to become concerned. I talked to the people I was living with at the time, family, no one knew anything about it.

Anything I did inside my residence was subject to feedback when I left or at a later date or time.

Things continued to progress...

All these things were happening multiple times a day. It was negatively impacting me mentally, emotionally, psychically, spiritually and physically. I was getting physically sick at times. No one I talked to knew anything about it or could offer an explanation or help.

I can not at this time go into all the tactics of ORGANIZED/GANG STALKING /COINTELPRO operations, there are too many. A quick Internet search will reveal a great deal of them, again, research ORGANIZED/GANG STALKING/COINTELPRO. I have been tortured with almost all of the classic tactics plus a few. For the sake of brevity I will quickly list some of what I have been assaulted with.

### TACTICS

Twenty-four-hour-seven-day-a-week surveillance, including the so called home I live in. I live in an ELECTRONIC-CONCENTRATION-CAMP.....my home.

Feedback from that surveillance.

GPS or "Global-Positioning-System" on vehicle, for tracking.

Followed, watched, harassed and/or assaulted everywhere I go, including nine states.

Residence and car illegally entered and items moved, marked, broken or stolen. [The perpetrators have keys to both the residence I live in and the vehicle I drive]. I now have a sophisticated surveillance and alarm system in the residence and use combination padlocks for the car.

Land-based phone at residence tapped.

Cell-Phone hacked into.

Outgoing and incoming mail tampered with.

Email and Internet interference.

Harassing phone calls.

Vehicle-Tampering: Water removed from the radiator, gas removed from gas tank, bulbs removed, tires slashed and various other things. [I now have a locking gas cap]

Feedback: This constitutes a plethora of ways of letting me know I am being watched. Anything I do anywhere including the residence I live in is subject to feedback.

Directed-Conversation: [a type of feedback] This is where people talk about your personal business [knowledge gained through covert criminal surveillance] out loud in public places around you, like grocery stores, gas stations or anywhere else.

License-Plates: License plates have been and are used as weapons and tools for harassment. I have found at least six other target/victims that license plates have been used on. My tormentors have made these one of their favorite tools.

Street-Theater: This has been used extensively by my stalkers. Street Theater is a fairly common ORGANIZED/GANG STALKING/COINTELPRO tactic. It involves setting up or staging various situations[skits].... including, but not limited to, vehicle accidents or potential accidents. This can involve all sorts of possible scenarios , here are a FEW I have encountered... vehicles coming at me the wrong way on a one way street [many times], vehicles trying to run me off the road [many times], various staged potential accidents where I had to take quick-action to avoid contact/crash [many times] . And lots of other incidents..., too numerous to

mention here, I can't even remember them all. At times this happened on an almost daily basis... very stressful.

Friends, acquaintances, family members and neighbors all have been coerced/recruited by my stalkers into going along with the plan. This is common in ORGANIZED/GANG STALKING/COINTELPRO operations.

There is no place I can go and nothing I can do where I am not followed, watched, harassed and/or assaulted.

Psyops-Tactics [Psychological-Warfare-Operations-Tactics]: In addition to what I am listing here I have had many other psychological tactics [including... sensitization-to-various-stimuli] used against/on me. For various reasons I will not go into the details of these tactics now, but will say that they have been extensive and multiple times a day. If necessary I can go into detail

Again..., this is not a complete list as this is not a complete report/statement.

I have gone to the Police and they have been no help what-so-ever... OF-COURSE. Since ORGANIZED/GANG STALKING/COINTELPRO operations are perpetrated by the government, the police are involved. They may not perform all the deeds/tactics but they are at least partly responsible. And they get many others to cooperate... that is how these operations function. The police will do everything in their power to try to discredit the target/victim and try to provide evidence that the target/victim is mentally ill.

### IMPACT

The effects of this type of treatment are devastating:

One is harmed mentally.  
One is harmed emotionally.  
One is harmed psychically.  
One is harmed psychologically.  
One is harmed spiritually.  
One is harmed physically.  
Ones nervous system is harmed. [tremendous stress]

One loses TRUST in almost everyone.

I am afraid to put certain items down or leave them for fear they will disappear. [as has happened numerous times before]. I keep an extra set of keys around my neck, and lock my car and residence with combination pad-locks, this seems to have helped. [ I now have a sophisticated surveillance/alarm system in the residence]

There was at least a two year period where I got little or no sleep, sleeping is still a problem.

I left a job I had because at the time I did not know what was going on. It is only the last three years that I found some of the websites that expose these atrocities and I am now in touch with other target/victims. I dealt with this situation alone, not knowing what was going on, for about six years, damage was done.

The ORGANIZED/GANG STALKING/COINTELPRO operation has cost me and my family at least tens of thousands of dollars. If necessary I can go into detail.

I have had various physical ailments [sickness] as a result of being an ORGANIZED/GANG STALKING/COINTELPRO target. If necessary I can go into detail.

I am treated like an animal or insect in a science experiment..., NOT HUMAN!

I have not had a day off in over eight years,

EVERY AREA OF MY LIFE HAS BEEN AND IS AFFECTED!

I CAN NOT ACCURATELY BEGIN TO ASSESS THE TOTAL COST/IMPACT/DAMAGE OF BEING AN ORGANIZED/GANG STALKING/COINTELPRO TARGET/VICTIM. IT IS BEYOND MY CAPABILITIES.

### CONCLUSION

I AM LIVING AN ORWELLIAN EXISTENCE. I AM LIVING THIS ORWELLIAN EXISTENCE IN THE UNITED STATES OF AMERICA.

For a long time I did not know what was going on and damage was done. Recently, thanks to the Internet and contacts with other target/victims I have been able to put some of the pieces of this nightmarish puzzle together and put a face on this otherwise faceless monster. I am not alone, not by a long shot.

As I mentioned earlier in this statement/report many target/victims are being hit harder than I am. Many are being assaulted with Directed Energy Weapons [DEW]. Right now I don't believe I am, but it is possible I'm being hit with ELF [extremely low frequency] microwave or RFR [radio frequency radiation] waves. All part of the ELECTROMAGNETIC SPECTRUM WHICH HAS BEEN WEAPONIZED.

All this deceit based criminality is being done covertly/remotely. It is all done behind the target/victims back, when they are not there or from a distance. The target/victim is basically helpless and defenseless. If the target/victim complains to the appropriate authorities they are likely to be labeled "mentally-ill", or worse, thus giving the target/victim no recourse [credibility], and making the situation that much worse. This is all part of the master plan, of course, it is an almost perfect trap. This is not an accident, it is all done by design, the formula is basically the same for ALL target/victims.

The target/victim can be harassed, assaulted, abused and even killed in ways that are only limited by the imagination and technology..., and there is virtually nothing the target/victim can do about it.

If these same tactics were used on a foreign citizen they would be considered an "act-of-war" as it is it is treason. It is one or the other.

All this is nothing short of what went on in Nazi Germany before and during World War Two. Or Stalin's Soviet Union or other authoritarian or totalitarian regimes. Only in the year 2010 it can be done much more effectively because of advancements in technology.

This is an outrage to say the least, something has to be done about it, people need to be informed about what is going on and it must be stopped. Innocent Americans are being tortured to death in their own country. I believe the vast majority of Americans do not know this is happening. It can and will be done to you or a loved one if something is not done to stop it now.

**27/7/08**

my targeting picked up exponentially in the year 2002, however looking back I can trace some targeting to the year 1998. In other words... I have been heavily GS/OS/ targeted/assaulted since 2002..., but looking back I can see that some of it/targeting started in 1998. I hope this is clear enough and answers your question/s. Just for your information..., for about eight years I did not know what was going on and dealt with this situation alone. About 27 months ago I found some of the websites and have been working on trying to put the pieces together and network with other targets.

## ENERGY AND NEUROLOGICAL WEAPONS

**19/2/10**

I have a couple of questions for you that I need help on . First in all of your research have there been any implants reported to be located in the lower spinal cord area anywhere in the world. Second are you aware of any Law Firms located in the U.S.A. that has represented any implant victims in law suits against the US government or their private contractors . It would be a great help to me if you have any information in these two areas. I hope all is well in your world. Thank you and am looking forward in hearing from you.

**29/12/12**

it has been a couple of years since I have contacted you last and now would like to bring you up to date on my situation. I now am living in northern California in a small town where my two sons live. My oldest son is a Lt. in the fire department here and my youngest son is a policeman. They are both helping me in fight for freedom.

I have just returned from Beijing, China. for the second time this year and spent a total of two months in China this year . The first month was in January and the second month was November. I have as well traveled to Tokyo, Japan., London, England. and Hawaii. I have traveled all over the United States and Canada and all in order to test the resolve of the people running this program on me and to try to break the frequency link between the implant in my spinal cord and the computer system that I am linked to.

Three months ago My oldest son and I met with a Mister Jesse Beltran from Sacramento, Ca. and he performed a frequency test on me and while he did this test my son video taped the test. The test showed that I am broadcasting frequencies in the (ELF) extremely low frequency(3Hz to 30Hz) band range as well as some cell phone frequency band ranges. Only the US and Russian military use this range of frequency.

In all of my travels all over this world the frequency link between my implant and the control center computer has never been broken and has worked in every country as well as in the air travel up into the Arctic in traveling to China . I have been broadcasting and receiving on this frequency for well over two decades non-stop 24 hrs a day.

I am here in Oroville, Ca writing about the last 2 + decades and the about all experiments performed on me as well as the efforts that I have made alone to regain my freedom in all of my travels. I left Oregon last summer and started this trip that I am on now and this is my last trip that I will make. I started in Oregon and am going to freedom and will do what ever it takes to get there.

This is a lethal telepathic weapon system technology that I have been dealing with and forced into developing all these years. This Federation law suit has little to do with me or my experiences. They speak of Harassment and I am more in the area of life or death and this is the world that I am in.

I hope you are well and will keep up your good work. If I can be of any assistance to you please let me know.

My best regards,  
Galen John Wright

April 26, 2017

I am Galen John Wright an American citizen 53 years old at this time. It is very important to read this text and understand my situation in full as I have no privacy with this implant technology inside my body.

I was forced into a research experiment against my will as a test subject over 23 years ago by Doctors in Sacramento, California into developing a human control and counter intelligence weapon system technology. A Satellite Frequency up-link communication Bio-chip implant device injected into the spinal cord with a large medical needle at that time.

This Bio-chip implant is powered from the electricity produced by my body and has total access to my mind and body, vision, hearing, higher and lower thinking, memories, dreams, central nervous system. This Bio-chip implant transmits a continuous signal to a central computer control center in the United States through satellites from all over the world. I have a continuous white noise sound caused by the frequency that is constant in my ears and mind. The weapons contractors are always at the control center recording everything I do, say, hear as well as think

24 hours a day.

This Bio-chip implant is Transmitting in the Extremely Low Frequency (ELF) band range 3Hz to 30Hz. this can be **verified in a simple frequency test**. I was tested positive for frequency emission by Mr. Jesse Beltran of Sacramento, CA from the **ICAACT**.

This is a very dangerous weapon system technology that I have been forced into being an unwilling test subject. What has been done to me over the past 23 years is very difficult to describe but it would be difficult to find anyone who has survived as long as I have. I have been violated on the most basic level of human existence (basic thought).

All of my knowledge of is from my own personal experience being a test subject (white mouse) over the past 23 years in an experiment to developing a Lethal Telepathic Weapon System. I am able to recall many of the individual experiments performed on me during this time period as well as the purpose of each experiment.

From the beginning I was force into this experimental program in early 1991 by my own doctors Dr. David B. Coward and Dr. Stephen C. Weber of Sacramento, California to develop this Telepathic Weapon System as they injected a Telepathic Bio-chip implant (Transceiver) into my spinal cord in the middle of my back. This was done without my permission or knowledge by these doctors.

I have never been in the military or worked for my government in anyway. I can account for my entire life, employment, places I have lived and places I have traveled to around the world.

I have done many extreme things over the past 23 years to try and break the frequency that links me to the computer control center located in the United States. I am enslaved to this experiment and the frequency link is the chain that keeps me from being free and forces me to remain in this experiment.

The implant in my spinal cord is linked to the computer control center in the USA through a frequency that is far below the range of the domestic frequency band range. It is in a frequency band range that only used by the United States Navy and Russian military. My implant has a **white noise from frequency transmission** sound that is created in my ears and mind. When someone is speaking to you – you will hear their words in your ears but your understanding is created in your mind and that is where I hear the **white noise frequency transmission** sound.

In my travels to many countries the frequency link has never been broken and when I am in an area that the frequency might be broken (on a train going through a tunnel in a mountain or flying over the arctic in a jet at 35,000ft) I communicate with the Operators (people) at the control center telepathically just by mental thought. I have always tested the frequency link in all of my traveling all over the United States and Hawaii, Montreal Canada, London England, Tokyo Japan and Beijing China on four different occasions.

The following will give you a basic idea of what the access of the **Telepathic Bio-chip Implant** has to my mind and body through the frequency to the computer control center in the United States.

**Eyes** – everything I see is transmitted to the control center on a computer screen (they see what I see) and they can draw my attention to anything with in my visual range using their mouse courser on the computer. They can also turn on a camera in the control center allowing me to see them. Also a computer screen visualization that will appear as if the screen was right in front of my eyes as in a heads up display system (HUD) found in fighter jet weapons targeting systems .

**Hearing-** everything I hear is also transmitted to the control center as I hear it as well as on a computer screen. This would be the longest subject to cover because of all of the things I have experienced. Voice transmission can be heard in many different ways.

**Emotions** – when a person is implanted the control center records everything through brainwave's (algorithms') that the person thinks, feels, hears, sees and experiences throughout that person life (this is called mapping ). When enough information gathered they can reproduce any feeling or emotion that has previously been recorded from your own experiences.

**Central Nervous System-** through the implant in my spinal cord the control center can access my entire nervous

system. They can assault my body causing neural pain in my eyes, teeth, muscle pain, headaches and convulsions so violent my spine or neck could be broken.

**Memory-** the implant allows total access to my brain and body 24 hours a day and has recorded everything that has been done to me as well as everything in my life over the past 23 years (many bad memories). They also have the ability to retrieve memories from before the implantation in 1991. These memories are used in a weapon fashion as a form of control to force your mind into a mindset they wish you to be in.

**Dream control-** is a way to scan your mind to retrieve past memories and record them while you are sleeping. They can take your mind to any place they wish while sleeping to retrieve these past memories.

**GPS-** the implant also has satellite tracking device component as well as if I know where I am so do they.

Through this access to my mind and body the computer control center records everything that I see, hear, feel, emotions and records the central nervous system all muscle movement as well as any pain or fatigue felt in my body. This information is recorded through the brain waves (algorithms) that are recorded from the Bio-chip implant to the **central computer** in the computer control center through the frequency I am broadcasting.

All of this information is fed into a **central computer** and this computer has the ability to act as a second brain with the many specialized computer programs that make up this Telepathic Weapon system. All of my information that is in my mind is stored in the central computer just as in my mind.

With this information recorded in the central computer the Operators at the control center can manipulate my mind and body with great effectiveness anywhere in the world through the satellite uplink between the implant and central computer from the United States control center.

Ten years ago an upgraded Telepathic Bio-chip Implant was developed that does not have a white noise transmission sound that my implant has. This newer implant is totally silent and if the control center communicates with the implanted person it would be computer generated brainwaves (algorithms). This communication will feel like your own thoughts and your own ideas.

Any foreign national citizen visiting the United States of America over the past ten years could have been easily injected with this technology with their knowledge. This implantation process can be performed in any hotel room by covert means (without the person's knowledge) as this is the way all implants are injected into people covertly.

I am only aware of American citizens of being implanted with the permission of their own doctors in league with US Weapon Contractors but the patient is not aware of this implantation. These doctors have signed the death warrant of these patients by forcing them into these experiments that has taken so many lives of innocent American Citizens to develop this Telepathic Weapon System Technology.

If you were to try and look this Telepathic Weapon System Technology up on the internet it would be very hard to find factual information. It is a highly advanced and **Classified Secret Weapons Technology** by the US Government.

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**24/11/08**

We are being tortured horrifically in our home right now.

My name is Deborah Lamb and my boyfriend, John Mecca from Kings Park New York are writing to you, because we have evidence of our being tortured in our home and this letter is on behalf of New York residents with their names and addresses at the end of this letter; they are victims of the same kinds of attacks in your state. The chance that New York residents are being attacked as we are in New York is too great a probability to dismiss out of hand; the issue of their being attacked should be responsibly looked into because their stories are so similar to ours that it amounts to preponderance of evidence.

No less serious in experience of having been attacked is Brian Wronge from Queens New York, whom has x-ray evidence of rectangular foreign bodies in the area of the cochlea ear area. He has a radiology report stating that the rectangular foreign bodies are paramagnetic. It was done without his knowledge and consent. His suffering like so many others is receiving audio signals ( noise and voices) from the paramagnetic devices which are apparent radio receivers is an immoral and egregious act by again by authorities.

Many others are being stalked by what are believed to be federally funded civic groups associated with the Department of Justice "Weed and Seed Programs" and or Homeland Security. As well it is suspected that such activity is based upon such persons being stalked are implanted by tracking chips inside their body and the stalking is practice of federal tracking programs of suspects; such is assumed to be based on false affidavits and warrants that are malfeasance or immoral acts by authorities sanctioning these activities.

We are being tortured in our homes with near lethal levels of radio and electric energy according to tables of exposure on the Center for Disease Control's website. The test we used was the IEEE test for human exposure to radio and electric energy using a test device made specifically for the IEEE test. That test validated there are covertly installed electronic devices similar to a pace maker in our bodies that emit electrical and radio energy, the energy is not from the environment as we have tested simultaneously with a spectrum analyzer. Deborah and I are being caused so much horrific pain purposefully and continually.

Debbie has metal detectors go off in the abdominal area showing some kind of metallic material in the area that an MRI shows large circular interference rings as well as unknown etiologies and artifacts. Doctors are either not trained to look for camouflaged devices or have ignored facts we have presented and have left us without a solution. We are tortured everywhere we go and are praying that you would please help all of us who are victims of immoral electronic torture attacks.

It is expected such activities are being done using false affidavits and warrants combined with waiver of informed consent to perform human experimentation to allow torture level pain and to carry out so called lawful investigations including near lethal levels of pain (extreme pain is not considered torture by the current administration but instead it is considered interrogation). Also, note there are recent studies that implanted devices, such as gps devices cause cancer in animals. There are many legislations that need to be mooted or modified and narrowed regarding their vague verbiage, that allows extreme pain through the installation of covert implanted devices and energy beams among other modalities.

We ask that you initiate a Hearing for New York residents that will look into the reports of torture and hopefully validate them for further investigation and recommendations as to what laws need to be modified and how. Subsequently we have hope that such a public exposure of these activities through such a hearing will bring public support from newspapers and television before, during and after it occurs for subsequent support of a BILL in the Senate and or Congress to ban state and federal activity of the nature described by the victims; to order a stop to immoral human experiments and investigations. Such egregious activities can cause all sorts of disease by electronic, biological and chemical means. These activities are I believe considered "Lawful Investigation" being either a clinical or law enforcement investigation.

Having investigated this issue of attacks on myself and others for 10 years, it can be concluded that such

activities are definitely being used on public servants, as the broad latitude of legislation suggests that an agency head could waive consent for any individual including elected officials.

a.) We ask that you initiate Senate and Congressional hearings into un-consensual human experimentation where the term “waive consent” is the method apparently being used to allow immoral clinical experiments involving the use of extreme pain and other immoral activities such as the use of audio by cochlear implants and similar directed beam technology; such waivers to use experimental methods are believed being used in immoral law enforcement investigations. One of the many legislations is the Title 45--Public Welfare PART 46--PROTECTION OF HUMAN SUBJECTS; it allows “Agency Heads down to small Institutional review Board Heads to WAIVE CONSENT. Such legislation can be used unethically to funnel names of people who dissent or others whom are causing persons in authority discomfort to be placed on lists to experiment on as a means to retaliate and cause them to cease to be capable persons by causing them harm, disease or death by experiment.

Additionally that such hearing include the issue of covert experimentation using military technology on persons for any law enforcement purpose whatsoever a moral mistake in its wording, in that the specific law being Title 50 War and National Defense 1520a which has wording somewhat like a used car salesman's contract that is misleading where it seems to convey the “necessity of the consent of a person; however from analysis the first sentence stating consent is required, is mitigated by verbiage further along in that legislation to allow for police to grant consent to use that legislation for use on any person. This legislation and analysis is attached with a column on the left of independent analysis and the right column Title 50.

Honorable Senator , in January 22, 1997 then Senator John Glen proposed the following failed Bill to stop covert experimentation, you must not fail as he did or generations will be lost, respect for authority be eroded and the purpose of the country and common decency and beyond recovery.

**Senator John Glenn's Introductory Remarks on S.193:**

Mr. GLENN: Madam President, I rise today to introduce the Human Research Subject Protection Act of 1997. I send the bill to the desk.

The PRESIDING OFFICER: The bill will be received and appropriately referred.

Mr. GLENN: Madam President, if I approached any Senator here and I said, ‘You did not know it, but the last time they went to the doctor or went to the hospital, your wife or your husband or your daughter or your son became the subject of a medical experiment that they were not even told about. They were given medicine, they were given pills, they were given radiation, they were given something and were not even told about this, were not even informed about it, yet they are under some experimental research that might possibly do them harm--maybe some good will come out of it, but maybe it will do them harm also--but they do not know about it,’ people would laugh at that and say that is ridiculous. That cannot possibly happen in this country. Yet, that very situation is what this piece of legislation is supposed to address.

b.) The Department of Justice “Threat Assessment Program (TAP)” is so broadly written so as to allow all and any immoral action be done to a person, no matter whether they do nothing legally actionable except indulge in an extra drink, which can be contrived as worthy of placing a person into a Threat Assessment Program investigation; these investigations can be jury rigged by authorities and initiated without proper public oversight according to the broad verbiage of that programs description of reasons to investigate. Such a TAP investigation can too easily be boosted up to be eligible for their inclusion in Anti terrorism and Effective Death Penalty Act 1997 ( ADEPA), where merely based on authorities perception their demeanor and or mental aptitude can be defined as a person whom “might” be of a kind that a terrorist can use them as a resource again without public or proper oversight. As well the ADEPA legislation seems to infer that a person being repeatably investigated is using national security resources and can therefore also be subjected to the ADEPA act, resulting in a secret punishment judgment of any kind at the discretion of those whom enforce it and again without proper oversight. During our research we have found that many persons are covertly implanted and/or experimented on to cause them to be placed on such lists; where authorities use electronic means or drugs to make them look aberrant and then use that as a reason to place them on TAP or ADEPA.

c.) There was a case in the Supreme Court that we ask you Honorable Senator to write a letter in support to bring back that case to that court as the Bush Administration. The crux of the case is that the persons John Mecca and Deborah Lamb in Supreme Court Case No. 07-706 which exists as PDF's from the original Federal Complaint to the Supreme Court Filings on <http://www.secretangel.tv>

That you Honorable Senator contact the President Elect Obama and the Supreme Court and tell them to bring back this case; it needs to be supported by you Senator and sent in writing to the new President Elect Obama and that our hope is that you make an effort to gain that administrations support. Without active effort on your part the cronies in the agencies installed by previous administrations will remain along with their interpretation of the legislation that has done so much harm to the nation.

There is a Supreme Court Rule that supports the allowance to resurrect a petition for appeal and it is shown in the (Supreme Court Eight Edition) Titled "The Interests of Justice, Part 15.3(b)). Our Supreme Court Petition is No. 07-706 and references an exhibit that was ignored by all the courts, being that, local police declared to Mr. John Mecca as a first hand witness that the electronic attacks upon him in his home, was and is being done by the military but that they could do nothing to stop it or they would get into trouble. That the original complaint first hand account alleges the police declared that federal military authorities were involved in an immoral action against the petitioners. It seems fitting that you Honorable Senator in your wisdom begin the process of support to curb previous administrations abuses of power in overly broadly written legislations, by having Hearings that as a part of its purpose codify the structure of needed revision.

There are thousands of people across the country reporting being attacked with advanced technology and we expect that from clues of syndromes and disease many more whom do not know what has been done to them. Many are in New York.

The fact is that we have indisputable evidence via an IEEE test that shows we have near lethal torturous energy coursing through our bodies, the levels of approximately 30 milliamp is based upon the Center for Disease Controls numerical tables for electrical exposure, this occurs wherever we go and according to a spectrum analyzer is "not" from the environment; we have been implanted with a device similar to a microwave oven that emits energy from inside the body and causes that energy to resonate in specific areas of the body such as the brain and other areas depending upon the frequency emitted. The instruments used were manufactured specifically for the IEEE test. The IEEE (Institute of Electrical and Electronics Engineers, Inc.) is the world's leading professional association for the advancement of technology, setting standards for industry and governments around the world. IEEE test titled "C95.3- 2002, subpart (5.6); titled "IEEE Recommended Practice for Measurements and Computations of Radio Frequency Electromagnetic Fields with Respect to Human Exposure". Upon going to my local 4th precinct police department in 1999 and explaining that I was being attacked inside my home with exotic weapons, one of the six officers there sitting in front of a computer asked for my name and address and after a time looked up and said "it's the military and we cannot do anything about it or we will get into trouble". John this bold seems redundant, to previous paragraph. That is culpable negligence if true for them to engage in abrogating our New York State rights to federal authorities; however I think it is a police program that has federal support and is not legal on the basis of its moral repugnance to upstanding persons. This could be a clinical investigation or a law enforcement investigation, nevertheless it is happening to us with our knowledge and without our consent and without due process. We are being severely electronically tortured with these weapons continually on a daily basis. This is an activity that cannot be allowed to continue. Our research into the subject of human experimentation has shown FOIA documents that provide copies of memos where persons being experimented on have had their doctors told by authorities not to assist or properly diagnose them in order to complete their experiment; even when there is high expectations the result will be that the targeted person will die. This has been documented to have occurred in many experiments. It is hoped that such an atrocity will be stopped and not be allowed to reoccur here in New York.

We have not touched upon the Patriot Act and other legislations as it's text length is too long to go into detail here, we need to see such laws modified to stem abuse. In closing, wrong headed virtually criminal legislation brought into being over the last administrations need to be reviewed immediately upon the swearing in of the new administration for the benefit that the national security be preserved.

Yours Truly;

With the full support and endorsement of the following persons whom claim to be suffering from similar attacks as described here in the letter above!:

DEAR SIR/MADAM

**I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

I am victim of Mind Control.

I suffer from the following continuously:-

1. the telepathy of at least four people at a certain moment in time. This telepathy have many aspects:
  - a- abuse with emotional manipulation.
  - b- abuse with conversational telepathy.
  - c- Astral body abuse to commit sexual harassment and weaken my physical body ability.
  - d- open my aura from the back which makes me run out of energy all the time.
  - e- Dragging my astral body out of my aura and abuse it. This leads to some reaction on my physical body like having back pain, arthritis and some other symptoms.
  - f- attempt to harm my physical body with astral body assault consist on making two telepathists make their astral body penises pees into my kidneys. This cause sudden physical pain and could lead to ailment.
- 2- Head or brain injury. Criminals have been hired to do invasive manipulation for the brain with an object. They removed some of the brain tissue to make a space where telepathists can find it a source of function.
- 3- Intoxicating the body with chemicals that alters the body and mind to what makes the person weak enough to fail to resist telepathy. The symptoms by it self for the intoxication is a torture.

**20/8/09**

**Petition date starting in Ottawa and Toronto from Aug. 25, 2009**

Dear Member of the Canadian Government:

CC:

To Whom It May Concern:

This letter is to ask for your help for the many constituents in Canada who are being affected unjustly without their informed consent by Psychotronic (or Mind Control, Electronic, Directed Energy, Neurological, Non-lethal) Weapons.

We are writing you on behalf of Canadian Organization of Victims of Psychotronic (Mind Control) Weapon. We, and many others, are being TORTURED AND MUTILATED IN A MIND CONTROL CONCENTRATION CAMP 24/7. We wouldn't be tortured and manipulated in a properly functioning legal system/society.

Victims of Psychotronic Weapon detail the most extreme and totalitarian violations of human rights in human history, including the most horrendous incidences of psychological torture, mental and physical mutilations. Criminals place human subject under continuous surveillance, no matter where he/she is; they monitor human brain, including thoughts, reactions, motor commands, auditory events and visual images; they continuously alter consciousness, introduce voices, noises, other disturbances, commands, images and "dreams" into the brain; they directly abuse, torture and hit bodies - including performing advanced medical procedures - from remote locations. The technology they are using is so advanced that it allows the controller'(s) to see through the eyes of the targeted individual, essentially seeing whatever the victim sees.

These are some of symptoms of targeted individuals:

- 1). Microwave hearing and torture with intense loud electronic sounding noise
- 2). Visual disturbances, visual hallucinations
- 3). Manipulation of will, emotions, feelings, perceptions
- 4). Manipulation of human behavior: forced speech, involuntary body movements, transmission of specific commands into the subconscious, compulsory execution of these commands
- 5). Reading thoughts remotely, retrieving memories, implanting personalities
- 6). Debilitation of mental acuity, inability to concentrate, disruption of ability to think rationally and independently
- 7). Loss of memory and knowledge
- 8). Inadequate states, which targeted individuals have never experienced before (states of narcotic intoxication, depression, obsessive desires and so on)
- 9). Control of sleep patterns: sleep deprivation or uncontrollable sleep
- 10). Blurred vision
- 11). Cramps, seizures and spasms
- 12). Excruciating artificial pain in any part of the body, for example, heart attacks and other symptoms

We have contacted police, RCMP, Security/Intelligence Agencies, Courts and other Government institutions over and over and over again, but have had our appeals for assistance and protection almost completely ignored or suppressed. Government "doing nothing" in this situation is a form of sanctioning these horrendous fascist experiments with psyche on innocent and defenseless people, that is why Canadian Government is responsible for these crimes. Government of Canada must uphold the rule of National, International and Human Rights Law and protect Canadian citizens by these laws, instead we see the huge disconnect between its professed Principles and Values and the reality.

It is our responsibility to record and alert the world to these horrendous crimes and the extreme danger that these technologies pose to democracy, human rights, privacy, mental and physical freedom, health of all people. These are the most horrendous weapons and crimes imaginable, and the people, using them, are mass-murdering conspirators, pursuing fascist, totalitarian, fundamentalist schemes.

"Doctors Mengele", who started developing these techniques in concentration camps during World War II, were brought over here from Europe after the war to continue their atrocities. MKULTRA was the first of these illegal and immoral experimenting with unwilling victims, we are the latest victims. THIS MUST STOP, and the responsible people exposed and brought to justice for these unspeakable crimes against humanity. We demand only that human rights are respected, and the Canadian Government appoints a Committee to get to the bottom of this most serious matter based upon the evidence piled up, which was collected, intercepted and captured by the victims years after years.

This gross violation of human rights must be investigated immediately.

My name is Dave Yeager and I have come across your name as an author and expert in this field.

I have spent the last two and half years trying to figure out what was going on here and I have finally been able to come the conclusion that it is indeed a gang stalking. I do have to admit that it seems to have a bit of "fantastic" or Pseudo-Parapsychology to it.

I do believe that a Voice to Skull device has been used and I have included a couple of samples. I have 3 weeks, 24 hours per day of this audio and much of contains what you will hear. I am working on filtering out everything below 10KmhZ as I believe the full transmission is at levels above that.

I have also included photos and I have a ton of video of the proceedings at my home. I would love to be able to talk to some people who have had this happen (less the loons I seem to be finding) and I understand you have a large worldwide mailing list of people who have been through this.

Thank You and see the attached pdf,  
Sincerely Dave Yeager

### **GROUP STALKING – THE REAL LIFE HORROR OF A SIMPLE, QUIET WEB DESIGNER**

I bought my home 2 and half years ago and 2 years of it have been disturbed to say the least. I have studied gang stalking as a result of my experiences over the past two years. The past few months it has escalated and I have no doubt that there is a psychic and/or pseudo psychic psychological attack occurring at the present time. The "Ramp up" started about 10 weeks ago when it seemed that I could hear someone repeating my every thought back to me, it was a child's voice. As soon as I would think something, I would hear it repeated by the child voice. I think their point they have communicated to me is that this is my "spirit voice" or "inner voice" but it has certainly changed from this time. Other voices started to join in and it seems as if I can hear my thoughts played back to me over a speaker, often with a strange tone or sound.

I do know that at times I can hear this very clear and at other times I cannot at all. I do wonder if it could be usage of a noise generator and some simple "seeds" planted in your mind to get you thinking something. It seems at times as if a recorded version is playing and at other times it is no doubt other people talking to me. I have coined it "Brain Whispering" but I think the term is "Voice to Skull".

I have no doubt that microwave radiation is being used and have three weeks of microwave radiation levels that vary greatly. They have repeated certain phrases hundreds of times over night such as "Do you want to (then a thud thud thud as they say) suck my dick". Then after your mind is trained to give this response they started the next day with acting as if they were a 15 year old boy who was psychic and would say do you want to (then be silent and provide a thud thud thud) as another voice, maybe my own thoughts, would fill in the suck my dick. Now claiming that I must leave my home or they will call the police and report the fact that I have been trying to "hit" on a 15 year old boy. I have no doubt that nearly all people would have folded by now but I will not ever succumb to the actions of terrorists and would rather be dead than to live in a world where a group like this can just steal my home. Their main point is that I must move from the home that I own. "Just get up and leave and do not come back" is their main message to me. We are calling the police and even staging voice plays where they have a cop outside my home and have placed a young mentally challenged boy in my crawl space that will say I have raped him and kept him hostage in this space. (of course no such thing has occurred and the threats are all empty.)

It is regular that they claim to be the mother of the boy who every time he says do you want to my mind or "spirit" responds with "suck my dick". Claiming that I desire to do this and even that my spirit has come to this boy since I bought this home saying that I am going to rape and kill him. Of course no adult or any other person has called and there has been very little physical proof. I am a web designer and work at home. This events have costs me a lot of money and time. I thought I had lost my mind and I am a rational person. I have self-evaluated for Schizophrenia and it simply does not make any sense.

I am however hearing voices. It starts with a tingle in my head followed by a ringing in my ears or high pitched squeal that is followed by people talking to me. For the past 6 weeks this talking has occurred 24 hours per day and 7 days per week. They instructed me to concentrate on something else or not "try to hear" it. Telling me initially that they thought I was psychic and they were psychic and they would help me. They have some kind of imaging system that makes you see images in bushes and in the grass. I would think that this was delusions however I have caught the images in photos and on video. Which makes mental illness highly unlikely. About 4 times per day they

would claim to be the young boys mother and act mad. Saying "I am not going to say this again, this boy is my son and you are not going to walk away from this. I....." then start getting very quiet so that I could not make out what she was saying and other voices would chime in and be much louder. Then she would walk off saying that I cannot hear her because I do not want to hear what she has to say. Also saying that I am a child molester and she is calling the sheriff. Which of course never shows up.

I am thinking that the original gang stalking concept is indeed the case here. Would you mind to listen to audio and let me know what you think?

I have discovered who they are and they are saying that they are now going to cook up a way to have me imprisoned so it is important for me to spread the word of this intent as much as possible at this time.

I also want to include that the persons who have been doing this to me and have communicated that they hate faggots and are going to kill me two different times today live directly across Eric Street from my Home (Front Yard).

Also the immediate neighbors to their North and South as well as the only next door neighbors to my home and the only house that is catty corner out my backyard without any fence to their back yard (the man, blonde woman and two small kids) are the ones who have been involved in this and are saying they are going to kill me today.

*Raw Sound File Recorded with Portable Voice Recorder on an amplified microphone*

I have hundreds of hours of this audio. I believe it to be Voice to Skull communications. It would always start with a tingle in the top of my skull followed by a ringing in my ears or high pitched squealing sound. It has a bit of a modulated sound like you can distinguish in the files. Their directions to hear them has been to concentrate on something else and to keep the thought out of your conscious and allow only your subconscious to listen or decode the message. *Another File Here*

These photos have been taken (or screen grabbed from video) all taken inside my house and directly into the front or back of my home. There is no chance of "mistaken intent". The bushes seen are a hedge directly in front of my home.

**21/10/09**

I was sent to me by Paul Baird, I am a victim of mind control, my name is fernando zablah I live in Honduras, I graduated from a us based university in mexico city, I started writing poem in an abstract structure of a cube, then my house was under suveillance and military tactics were applied, I left to cankun to a cousins house then state of the art tech. was used brain wave were measure and thoughts were read, I left to honduras with a facial paralis, the book the problems of freedom and knowledge was secretely placed in my luggage, mentions a logical angel that writes poems in an abstack structure of a cube, I also found that my last name is in the jewish talmud and i decoded it into a cube. In Honduras then a few month later a ring started sounding and a few month before an american soldier aimed a laser at me in the middle of the night on my way for food, the types of laser that are connected to satellite and military base, and then torture started 0208, I am sort exhausted I am traveling to europe or us to find some help what can you help me with Mrs. Welsh They are doing similiar experiment to my father a 84 year old man I think it has to do with my genes or race, I am trying to go to 1 world country to try and find eeg machines

and oscillating scanners to prove the frequencies. Can you help me please my case is easy to see how it escalated. It has been more than a year I am afraid of spending money and finding no help. and I would have to go to mexico if I was going to the states to ask for a visa. I can explain the whole experiment (it includes the eyes the penis the mind the anus and the ears out of all the experiments this is more than cruel.) thank you.

**23/10/09**

I AM TRYING TO GET A SQUID OR A OSCILLATING SCANNER, YET THERE IS NOT THAT MANY AVAILABLE, CAN YOU GIVE ME MORE INFORMATION ON HOW OR WHAT EXACTLY IS THIS APPARATUS MEASURING, AND IS IT ENOUGH FOR A HUMAN RIGHTS OR POLICE OR FBI OR WHAT EVER TYPE OF THESE. THANK YOU VERY MUCH, i AM ALSO TRYING TO GO TO MICHIGAN SINCE IT IS ILLEGAL IN MICHIGAN FOR THESE MACHINES.

i have more information on these sattelite, the experiment they are dioing is more than what on the internet.

thank you and where are you,

**4/4/10**

My name is fernando zablah, Mind control satellite surveillance and torture has been applied on me since 0906, it all began when I started to write poems in an abstract structure of a cube, then federal police helicopter were over my house every night for almost a few weeks, this was in mexico while I was studing at my university this happened two months after I graduated, I sent Mr. Baird an email he is a perso that has a website that describes information similiar to what has happened to me, I asked him why dont we all join in and purchase a squid, which is a machine that detects an electromagnetic field on the human body I found a company that sells them they are called tristan, you may read the email below you will also find that he mentions and asks me to go to you, or a Mrs. Welsh, that is why I am sending you this email, I arrived in mexico a month ago, to the place where it all started, do you think this is possible I found a website that has about 500 victims so I thought if we get around 500 people and donate 100 dollars that would be about 50000 thousand dollars, a sqiud is costing around 60000 and with the specifiacion in order for it to detect another electromagnetic pulse it might cost it little more, can you help me we can start collect funds, Mr. Baird told me that most of the people cannot sue yet my case might be different I have not been able to contact that many people due to the torture, yet I might have enough proof for a lawsuit, (mexican federal police were involved and I am 100 percent sure that the us army are involved, I can explain to you in another email) yet I would need to prove there is another electromagnetic field in my body. I came back to mexico since I exhausted everyone that would be able to help me out, I even contacted the president michelletti, yet there was a coup in honduras and jobs were not easy to find, so i thought of getting closer to the beehive and try to get testimonies and more help from friends that have polical connections here in mexico this might be dangerous but I need to do everything possible to stop this, my case is inhumane Mr. Robinson I sent an email to cheryl welsh yet she has not answered back could you contact me as soon as possible and help me out. thank you very much.

**22/4/10**

I am a victim, I started writing poems with an abstract structure of a cube, then four months later federal police (helicopters) and military personell harrassed me and I left to another part of the country, in my luggage i found the explination in a book called the problems of freedopm and knowledge by chomsky and about the essays of bertrand russell, it mentions a man or a child as they describe it that would come to the earth and write poems in abstract structure, me Mr. Finch, after that was when it escalated to mind control with torture, I guess it gives it more value since my family is from oneof the original families of bethlehem, theories on gene and the origins of language and logic and description have to do with this. My faculty member were also involved yet through there own experimentation, out of all the information I found there might be a way that if we all got together and maybe purchase a squid tech . that identifies electromagnetic pulses on the body this would give us more tool tocreate awareness and in my case in which I do have some sort of evidence might have enought to win a case, but contacting you I have found is sometimes more difficult than reaching obama, I sent a copy of your email below, so we can purchase this machine, there was also a program on the discovery channelcreating awareness about these tech. If we can make a force we might be able to have more tools.please send me your phone number the number you gave was wrong i need to talk to some one please. fernando zablah.

**2/7/12**

My name is fernando zablah, i am a victim of sattelite surveillance I AM ON YOUR LISY BELOW and until 2006 i found out what was going on THAT i was tortured with sattelite, i am trying to move to the usa to try and help derrick robinson in a safe house in california, i have to wait several years in order to get my citizenship, so i have to be patient, i wanted to know more about your case, and i am trying to get as many victims stories of this horrendous

crime so i can find more ways in how these people are being tortured and learn more about the technology, ever since i started to plan to move to the usa torture has intensified, i have tried to travel 4 times in a 5 years but each time i travel i get tortured even more and have to return to my home country,

Mr. finch have you heard of holographic inserts in the eyes, and have you heard of sound manipulation, I am asking you this because i have much experience in this being a victim, and i wanted to ask you to think about if you ever were gang stalked by jewish or asian people (this i got from reading your story), but have you ever thought or considered those people to be fake images inserted in the eye, with the capacity to talk and interact with other people and maybe making you perceive the interaction just through holographic inserts and voice manipulations, these fake people having the capacity to be TANGIBLE, Mr. Finch have you ever thought that this technology can manipulate two people that have a person to person conversation and with holographic inserts make them believe they exchanged a certain type of information but truly with the combination of a holographic insert in both peoples eyes and voice manipulation, make them exchange different information from what each had intended, i ask you this because i first thought that i was gang stalked but it was actually a holographic insert....remember it is almost impossible to track people down, Mr. Finch above i mentioned that torture has been intensified to me since i am planning to go to california, these people have changed the color of every single car and cloth on people to green and red, everyone in the street, consider this please mr finch, they have also changed entire books meaning they have changed every single word in a book with information that could be manipulative and dangerous because it had to do with how i was getting tortured, the pages looked the same and since it is artificial intelligent it created a stories filling books with more than 500 pages. it is an information monster. so if you are followed by asian and jewish people believe me they have enough information to create in your eyes and ears fake people.... if you would like to hear more about my story please get in touch, also mr. finch i am 100 percent sure you are wrong about what has happened to you on the tv, they can use the same holographic insert in the eyes and voice manipulations or even make up a fake tv show and intervene in your tv to scare the life out of you. remember when you have a satellite and secret technology remember to never underestimate them.... if you follow me it will help you get on the correct track other wise it will seem impossible for other to believe by for example blaming the tv people. it is just in the eyes and ears or electronic devices and no one knows about you.... remember in my case every single car and person on the street is wearing green and red and it does not exist.... no one knows you.... it is just experimentation and secret technology, THEY TRY TO INVOLVE AS MANY PEOPLE AS POSSIBLE, AND USE ELECTRONICS LIKE TV PHONE INTERNET AND BOOK, AND EVEN FAKE PEOPLE THROUGH TECHNOLOGY TO BULLSHIT YOU... NO ONE KNOWS YOU DOT WORRY TRY TO GET WELL. please contact me. good bye..

fernando zablah

Dear Victims of Torture,

My name is Fernando Zablah, I have been a victim of satellite torture for a number of years and have much experience in how this technology is being applied on human beings. I will try to make a list of how this technology has been used on me, describing more than 25 different ways in which satellite technology can torture you. The reason why I am contacting you is for a few important things. I wanted to inform you some very important ways in which these technologies can be used and maybe through my explanation you may find some relief and most importantly answers. So in other words what you are going to read here is something NEW, it is something that you will not find in the other websites and mostly it will CLEAR UP HOW THIS TECHNOLOGY WORKS AND WILL PROVIDE ANSWERS TO IMPORTANT ISSUES SO PLEASE READ CAREFULLY. THIS IS SOMETHING NEW....

LIST ON HOW THIS TECHNOLOGY CAN TORTURE YOU PLEASE READ ALL OF THEM THIS IS NEW AND HELPFUL.

1. Gang Stalking: this type of intervention can be explained through laser technology or what in other websites call it a holographic insert in the eye, through sound manipulation in the ears and the ability to manipulate real objects (any move, actions). here is also the presence of thought manipulative technology when all these tactics are being done, they can insert a holographic insert and make you think something that they want so they could lead you into where they want you to think.

In other words many people have had the experience of being in contact with other people and have had the sense that they have been stalked but stalking is person is one of the most difficult things for any body to do it is almost

impossible for other people to have such precise knowledge of VITAL information, information that only you would know or information such as what are you deciding on doing in the following seconds. But if you have a satellite that sees through your eyes and knows everything about your thoughts and that is ABLE to insert an image in your eye at the moment you just went out of your house for example with an image of a man with the exact behaviour and appearance of a human and with the ability to immitate the sounds of him walking towards you and with the ability to simulate a strike for example at the window of your car and make the window shatter and making the man run away. This would give many people I hope many answers as to whom and how most of the gang stalking is being done. Now, the window was shattered by this technology not by the holographic insert in your eyes, it is like a simulation. This is a very important tool since it can create ILLUSIONS, meaning that if the satellite wanted to make you think a certain ethnic group was after you they would insert images of jewish people or asian people and most likely make you think WRONG INFORMATION. And the only one that have this type of technology is the us army and most of it is covert and classified.

Another important function about a holographic inserts, sounds manipulation and the manipulation of objects is that it has as the creative executioner of these strikes an artificial intelligent satellite computer being able to insert in your mind every single object that a Word can describe and make it appear in front of you. What will appear will on depend on how they want to torture you (from aliens, to spirits, to red coca cola bottle caps in the floor, everything that words describe).

In my case I have been inserted with many images such as army men with state of the art lasers pointing them at me in the middle of the night, secret mexican police harrassing me to kill me. They inserted a mexican federal police helicopter for a few night in my house. This is important to analyse since it make you involve authorities with helicopters and army men in the street when there exist no connection. Making you enemy invisible and imposible to catch. They can insert anything from real to make beleive objects. ANOTHER EXAMPLE AND VERY IMPORTANTLY THEY TURNED EVERY SINGLE CAR IN MY COUNTRY INTO A RED AND GREEN COLOR AND EVERY SINGLE CLOTHS IN EVERY PERSON ON THE STREET INTO RED AND GREEN EVERY SINGLE LIGHT BULB RED AND GREEN.

Another important function of these technologies is the manipulations of face expressions and conversations. They can make anybody no matter who they are say and make you hear information that may manipulate you or make you involve innocent people to whom do not know anything about the information the satellite made you hear. For example you could be either walking in the street or even have a (very important) person to person conversation with anybody and make that important person give you wrong information. In order for them to do this they have to not only be inside your mind but also be doing the same thing to the other person it is sort of complex because the other person has to always be intervened by the satellite in order to create and use this other person as a weapon.

Remember never under estimate the power of this technology.

1. Fake crimes such as robbery, homicide, rape, car accidents every single crime you can imagine this technology can simulate. Since this technology has the capacity to move objects no matter how large or small and has a simulator it can break into your house and simulate that everything has been robbed when actually it was a satellite that did it and if it wanted it can with a holographic insert make other people see fake people enter the house. Fake crimes such as homicide, rape and car accidents for example: Since this technology can simulate everything and when i mean everything it may make appear in front of you a car and you will be able to touch it and it will sound exactly like a car, it can make appear a human being and you may have a conversation with this person and be able to touch this person even have sex with this person. So what this translates to is that they can do crime with this technology and make it look like a human did it. It can simulate car crashes and send you off a Cliff. It can assassinate as many people as possible without leaving trace and pattern of a satellite. So if you know anybody that is on this type of surveillance or of anybody that has been raped or assassinated please send this email. Remember this technology can manipulate all the senses and make you feel see hear taste and smell fake information. So very important they can make anything appear in front of you and you will be able to touch it, see it, smell it, feel it, hear it. This technology makes the satellite invisible.

1. Electric Devices: Television, Telephone, Radio, Computers, Internet and every other electric device that exists, you may also include vehicles and machines everything, it has no limits:

Being a victim of this type of harassment and specially at the beginning you may easily fall victim to the manipulation of electric devices that provide information and that very importantly involve OTHER innocent

people. So what I am trying to tell you and from my experience is that fake television shows may appear in your television, even with famous people talking about you. This makes the problem even worse involving the wrong people and make your enemy (which is the satellite) invisible and making you sound delusional. Intaking false information coming from the media with fake people using the technology I mention above about fake gang stalking can make your REALITY A FALSE ONE. IN MY CASE THEY USED EVERY SINGLE TYPE OF SOURCE OF INFORMATION FROM ELECTRIC TO FAKE CONVERSATIONS WITH FAMILY MEMBERS MAKING ME BELEIVE EVERYTHING THIS SATELLITE WANTED. DISTORTING MY REALITY.

Internet and computers: Just like the false television shows this technology may fabricate false web pages, fake emails, fake information, it may include information that would make you think that the internet and people controlling the web pages are in to you, involving more innocent people and distorting your reality. Important webpages like CNN may have articles with information similiar as to what you are experiencing and everything is made up. They can do everything to your computer from ruining it to make it work better it all depends on what they want.

Telephone: The telephone can be lethal with this technology it can simúlate family members voices, whom ever voices and make them call at very peculiar moments with false information. The danger with this is that if you only trust your parents and this satellite knows that and if they immitate the voice of your parents then it will use this information and make it easier for you to beleive what ever this satellite wants.

Radio: With the radio it is exactly as the televisión they can play your favorite tune, they can simúlate the voice of your favorite radio news show, they can invent information about you they will use radio to also provide you with false information.

I am witness of the use of this technology in all these sources of information, I dont know about you but they used everything on me, I am a lucky person to be alive, but the most important about this is the INVOLMENT OF INNOCENT PEOPLE DISTORTING YOUR REALITY AND MAKING YOUR ENEMY DISSAPEAR WITH ALL THIS INFORMATION.

Vehicles and other machinery: This technology has the ability to be in contact with everything and since it has the ability to move everything it can make your vehicle stop when ever they want, it can evaporate all your gasoline, it can do everything to your vehicle, it can cause a flat tire. I have also been a witness of this.

1.Dreams: Dreams can be used in many ways. If you dont know a satellite is torturing you and they are interested in manipulating your thoughts they may send you a dream with information that might manipúlate you, and if you are naive about the meaning of dreams and are a beleiver of messages in dreams well you are a good candidate for these people to send you dream. In certain types of torture and depending on your case and the stage of torture (meaning if you already there is a satellite sending you dreams) dreams may be used as a way to manipúlate you and give false information and depending on how much knowledge you know about what is going on you maybe be lead to beleive people with hidden powers are sending you dreams, this is an example of the begining of victims experience with this technology. After the victim acknowledges that it is a satellite then it may help you better understand and deal with fake dreams. Dreams almost never have Word messages or a repetition of information dealing with how you are tortured, so this could be used as evidence in a court that dreams dont have messages coinciding with how your symptoms of torture are manifesting, Dreams can also be used on other people making other people tell you about their dream and make you think that they know something or label them as suspicios or being involved or in contact with a fake enemy. Nor can dreams know future events, I am witness that people may warn you of something they dreamed of and that will happen the following day like a car crash and then (VERY COMPLEX AND WILL EXPLAIN BELOW) make the individual crash his car (controlling your mind to crash your car after receiving the warning from the other persons dream, this has to do with controlling the entire mind of real people will explain below). Fake dreams are forever no matter if it is a long night sleep or if it is just a nap. Sleep depravation can be induced. Dreams from what I have experienced are harmless and they are only an illusion so if you are new and suddently something is invading your mind you will think alot of negative things about it. Dream may also be used with a combination of mind control tactics such as a thought or idea, so they may send you dream and just to help the person think what ever the satellite wants you to think it will make you think additional information (or thoughts) so the dream may be more effective. Or they may send you a dream and control your mind as I mentioned above covertly (making you crash a car without you knowing), you will never know that something is controlling your mind and will make you think once the victim acknowledges the satellite that the dreams were at fault, but no the dream is the front and the other tactic controls everything. So to new

victims and old victims dreams dont do anything.

1.Diseases: This technology since it is a weapon to covertly experiment with humans and it has the capacity to assassinate with as many natural diseases that exist. It can provoke, simulate, intensify, worsen a disease, it can do everything in the human body and it all depends on its goals but mostly they needed as many ways to kill and experiment with people in as many different ways so they would leave a pattern. So for example if I had to kill 10 people I could cause multiple diseases, car accidents, assassinations with fake people everything and obviously they would never kill them all at once. It can simulate and provoke any disease in the world. I am a witness that it may provoke cancer and that it may simulate painful symptoms of diseases.

I have experimented diarrhea, salmonella, flu and cold symptoms, rashes, infections it in the eyes, pain in the knees, pain in my legs, pain in my stomach, fake acid indigestion, they have broken my teeth. They may also use disease to experiment psychologically whether with pain, or near death experiences such as i have been exposed to. VERY IMPORTANT: They have also used a combination on me of a holographic insert in my eye making a friend look as if he had put something evil in my drink, then a few minutes later i lost control of my legs and lost total control of everything I fell on the floor, this is a simulated disease and poisoning making me think that my friend was to blame very dangerous.

1.Fake objects: Holographic Inserts, Sound manipulation, Manipulation of the Senses, Simulations.

I explained above about fake people gang stalking you and committing crimes. I also talked about fake car crashes with fake cars. I will now explain briefly about fake objects such as books or using holographic inserts to change the information on every newspaper, book everything from scratches on the wall to everything. In my case after they would increase torture or at the beginning they would change the information on entire books, on newspapers, or very important they would place a fake book in my luggage with false information making me believe that someone in the airport with authorisation opened my luggage and placed the book, plus photographs of nuclear missiles and a bag of marijuana. They use these strategies as above to INVOLVE people with authority to enter the airport and place fake object in your luggage. The objects that were placed in my luggage had very manipulative information having to do with how they started torturing me and since books are believable i started to believe fake information. This is very dangerous I enjoyed Reading but now I cannot read anymore. Be very careful with fake objects and information. This as above makes people get confused and most importantly INVOLVE INNOCENT PEOPLE AND ORGANIZATIONS, MAKING YOUR SATELLITE INVISIBLE.

Fake sound can be used in many ways, in my experience sound was used to imitate people walking outside my house and making comments about what was happening to me. Noise was also used as if the neighbors were the authorities and would bang really hard at the floor upstairs in every room i would be in, giving me the sense that people knew where i was and were listening to everything I was thinking. Noise can also be used to imitate every single noise in a city, field every where and anything.

Fake smell and fake taste: satellite technology can be used to provoke fake taste and smell, it is used in many ways but i have not experienced that much exposure to this type of treatment but yes i have been exposed to, and since they are not as important I guess they don't use them that much.

1.Job loss, Suspicious or unexpected behaviour from society other than just holographic inserts and false information. If you are a victim of satellite surveillance and you have been fired or you did something incredible that does not seem normal I hope this helps. Job loss maybe explained in many ways, the most important thing to remember is that it was made to leave no patterns and it was made to manipulate every single aspect of society and since we live in a capitalist world we all have to work and Money is the best way to control people. So this technology uses as many different ways to get to its objectives. To make it easier it can manipulate you or it can manipulate the other people in your job or it can do both, how it does it is simple it can use all the examples i have given you above and below this section. I will give you an example on how they can manipulate both you and your company comrades. They can for example provoke fake mental states of stress and dissatisfaction provoking poor RESULTS they can also manipulate other people like your boss to react even harsher to your behaviour. They can make people under experimentation work better than the rest then when experimentation is over or when the experimentation stage changes they may provoke unproductive behaviour and cause termination by either manipulating them or the boss what ever. So for all those people that have been terminated don't blame anyone it is the satellite. Another way of getting you terminated is by controlling your mind to do stupid behaviour. For example smoking a cigarette in a place where it is illegal and termination would be inevitable, this involves total control of

the mind without you knowing it (I will explain about this below). You could also be committed without doing anything by the manipulation of other people like your family. The most important thing is ODD behavior.

1. Voice to skull: Voice to skull can be anything and manifests itself in many different presentations, it all depends on the audience or victim (on his or her background) and on what the satellite wants. This is artificial intelligent satellite computer, (classified remember so it is more powerful and able to take on the whole world, any limit a victim puts on this computer is wrong, these are technologies or weapons of mass destruction, innocent people like you and me are not the usual target, making its audience every single human being in the world, you may compare it to a bullet it can kill everything so can this.) Voice to skull can describe every single thought a human can think of, it does not make mistakes it can describe thoughts having to do with nuclear physics to simple thoughts like from a child. In other words it knows every single language in the world, from every single area in the world, considering every single different accent and new Words that are made up. How it is applied varies from person to person, varies from experiment to experiment, personality to personality. It is a very powerful weapon it takes away inner peace and it is used as a front for people not allowing the victim to reach further in into what the satellite is doing. It is also used as a fake symptom of schizophrenia. It can read your thoughts and make them sound in a different location with different voices repeating everything you say making you think that people with mind Reading abilities are Reading your mind, but it was actually the satellite. The voice to skull can be used in many ways that is the most important thing in all this. For example knowing this is an artificial intelligent machine and it knows everything about you and everything around you and knows things you don't know it can manipulate information and try to get you confused talking to you. The biggest mistake some people do is trust the information heard from these voices, they are very intelligent more intelligent than you and me and since they know everything about and what you are thinking then it adapts to what ever you are doing. With a combination of interrogation techniques and induced thoughts of doubt, fear and induced thoughts it can confuse you, all you have to do is ignore the voice but sometimes it is almost impossible. The voice will not allow you to sing in your mind, it will change your inner voice, it will not let you read with your inner voice, it will not let you think in with your inner voice. It will change the word you have thought of in a sentence, it will repeat words making you get desperate from hearing the same word. VERY IMPORTANT it knows a few seconds before what you are going to say and do, this gives them the ability to insert ideas that are not your, it gives them the time to change words that are not yours, it gives them the time to manipulate body movement.

1. Imagination, Memory, Thinking, Emotions, Images, Induced Mental States and Conscience, Planning and Research: If you notice here I use different words that describe the MIND and important the words PLANNING AND RESEARCH. First I will explain everything in order as I list above because I think it is the best way to explain it.

Imagination: The imagination of a victim once on satellite experimentation is destroyed or never used anymore this was the case with me at least. From what I researched imagination is almost not used that much within our daily activity. Ever since Satellite Torture started my imagination has been replaced with images looking like something made from a computer, sometimes they replace the image that you imagined by something else making you imagine the same thing again. Or they make you imagine something while you are doing something. A new victim may feel scared that his imagination is replaced but from what I have observed it does absolutely nothing, but it is very provoking.

Images: Images can be inserted in the brain making you perceive images in your mind while you are AWAKE and ASLEEP. They can be anything from words to pictures to simulations of real life action, what they insert will all depend on what they want from you. When you are awake you just see an image in your mind but when you are asleep it is more complex it can make your entire body and mind live a simulation, when I say live the simulation by your body and mind this means that for example if the simulation or video lets call it make your lower body wiplash violently because in the video your mind perceived that an imaginary object made your lower body move like that then your whole body will react exactly the same.

Thinking: Thinking is a reflection of our mind, thinking is what we write on paper all through life, everything involves thinking. So what we think is very important to this technology. Since we are victims I have experience that this technology can make you think improperly, it can simulate unnatural thinking patterns to produce the effects of mental diseases, it can make you think ideas that are not yours and make you talk about things that you did not think about and it makes you think about ideas and make you think you have thought about them, so in other words it has the capacity to control your mind and not let you know they are doing this. This is part of the description of what some call the Manchurian candidate or destroying people making them do criminal activity or

making them do what ever posible (this has the capacity to make a person a poet and a assasine). This can simúlate every stage in thinking in almost every mental disease so it may sound normal, they can simúlate every single thought and make you think it, every single thought every imagined it can make you feel.

Memory: Memory are the recolection of information from a very early age. Since this technology is present since many years they have been able to make a person remember only the things that they have wanted the victim to remember all there life. I am this kind of victim, that is why I have enough information on this technology, it is difficult to explain since it is almost 34 years of information. I think my case is very valueable to any victim (victim or anybody) in the world since in every single bit of memory they left evidence that they existed, they left evidence they existed all through my life and finally appeared when I was 28 years old and destroyed me with intense torture, the same day i finished my degree, the same day i got fired from a stable job after working four years, the same day a fake helicopter scared me out of mexico city, same day my father got diagnosed with cáncer, more things happened that day but you would not understand since you dont have the complete story.

Memory can be inserted in your mind making you think you thought about something. They can make you recall sad events or happy events using your memory, they can also make you wake up in the middle of the night and wipe out your memory and make your fall asleep waking up normally. They can do everything with your memory, they can wipeout some information and make you remember other information. Anything you can imagine they can do.

Emotions: This technology can simúlate every single emotion in the mind. Now when we speak about emotions we speak about fear, happiness, angry, they can also provoke stress ect. They can induce every single type of emotion, emotions are also conected or a reaction to thoughts or information perceived such as a car passing by, this technology has the capacity to provoke every single type of emotion and thought to simúlate everything it wants. So when it is provoking a paranoid thought and you see a car coming it will make you think something paranoid about the car. This is obvious since one day out of the nothing you may start having paranoid thoughts. So thoughts and emotions are connected.

Induced Mental States: Mental states or diseases can be induced. One time they induce mental state similiar to schizophrenia, it was a very hard time for me they tortured me with everything and I had to flee to my country again. They can induce every mental state posible, a few times that I had traveled they changed most of the information in my brain changing my concienceness and making me aware of somthing else, for example I wok up in the morning and I thought that everyone was after me (paranoia), this was done to me after a friend gave a tafil something harmless but this technology took advantage and induced me in the morning thoughts that everyone was after me, making me beleive that the person and the pill had changed my reality. I lost my job and had to leave to my country where work is imposible. They have not let me travel.

Planning: It might seem odd when I am talking about the mind and I mention a Word like planning, but remember this is a satellite and an artificial intelligent computer so in life the better we plan anything the more in control and aware of everything you are. When we talk of planning we talk about a start and a finish, we talk about means to an end. Now if we bridge planning to human experimentation you will be able to take advantage the most out of the victim and do as much experimentation as posible, since it is not a human doing the experiment it is a artificial intelligent computer that can do so many experiments at once and have NEW and UNTRACEABLE EXPERIMENTATION THAT NO HUMAN WOULD BE ABLE TO DO EVER. Planning is useful in so many ways but to give you an example in my case and this is why I think that planning should be mentioned is that they were experimenting on me for all my life then after 28 years and a whole bunch of coincidences happened they let me know that they were there, they tortured me and after 5 years of being tortured they let me think about how it actually happened and made me connect the dots with every single tactic they did to me since I was a Little child.

So, since I was a child they knew that I would know everything at the age of 28, they knew I was going to live in mexico because they left a message in my memory when I was I fourth grade that They were there by leaving a message at the sam time my sister was leaving to mexico, and she was the one that helped me get to mexico and there is where it all happened 28 years. In mexico I lived for 5 years then I got tortured and kicked out of mexico then 5 years exactly and no coincidence I started thinking to myself and found out how the whole operation had been done, connecting the dots from when i was a small child. This is Total control of the mind, So if you really are a satellite torture victim they can do anything to you, they did everything to

## **me absolutely everything.**

1. Research: If we take my case as an experiment that lasted 34 years until now and if we analyse that all this technology is technology that tortures and has the capacity to research and most importantly if you have a computer that makes a person do so much with information, then this is a research and mind expert with the capacity to do as many experiments to humans, with new and cruel ideas, than ever before so that is why I mention research. **Please take advantage of this information.**

1. Burning of the body: This technology has the capability to burn your whole body or specific body parts without leaving a scar, they have burned my feet and my entire body, they can also burn a person leaving marks but it can simulate any type of burning.

1. Shielding and Protection: This technology is the most advanced in the world from 34 years experience in this technology and very importantly it can not be felt it is undetectable, if you are feeling something that has to do with a satellite it is because they are making you feel simulated beam on purpose, it is impossible that this makes you feel a beam or whatever, this technology costs more what most nations owe, so if you feel it might be them if not you might be lucky and just have something that is not torture. Shielding is impossible aluminum will not stop a military covert satellite, if you build a satellite with this type of technology protection is a priority and it has to be made impossible and if it is possible it will not allow you find that information by all means possible so don't waste your time shielding. If shielding did exist we would have to have Access and cooperation from the government or leading experts helping out. Whether it can be detected I am not sure but I think that detection is priority also and they may do everything so you may not find how but what all of us victims should do is concentrate time in looking for technology that can detect it more than shielding it, once detected you can have proof, if you find shielding you will die and will not be able to move from that place and cost will be high, but mostly help has to come from the first world countries.

**1. Another thing about this technology that makes it so dangerous is that it can control all the ideas in all the victims head and if it wanted to it can make all the victims not think the correct idea on how to fight this technology (mind control) and this is done without you feeling any manipulation, use my case for example I found out about how the whole experimentation when they wanted to make me think correctly about everything.**

1. I think all victims should stay close and try to fight this together, I think there should be a data base on how everyone is being tortured and most importantly I think there should be done something about getting all the victims together, I don't know how but this is very important this is more important than shielding and if we are together then more ideas can flourish. **More ways to make a sustainable structure that can sustain us in order for us to win major battles, battles like this are not easy you need to do this in order to win...**

1. About microchip devices, from my experience the whole process of inserting something in your body while you are not conscious make it really impossible for me to believe, it could be possible but it is impossible without the help of a satellite telling you what you are doing and make you not wake up while this is inserted, and since poisoning a person is hard and knowing when they are asleep is impossible, I know that microchips with just GPS do exist but not that may make you feel pain or mind read or anything. My bet is that you are victims of satellite surveillance, and if you found an X-ray with a chip the satellite can make a fake X-ray with a fake chip in it. and produce the same symptoms, and if you met someone strange and then this started and you think you were inserted then please read this essay or description they can make fake bumps in your skin, make you talk to fake people and distort your reality they can make you feel anything they want.

1. The people who are doing this is the army they are the only ones that have satellite no one else. Remember they can not get caught so they do what ever they want and make you believe it is everyone else except them, in my career they said that your worst enemy is an enemy that is invisible... **illusions...**

Fernando Zablah

**4/10/12**

this is Fernando again, I don't know if you received an email I sent you, but I was explaining how they are not letting me travel, you mentioned to me they just provoke fear, but as I explained in my email that you did not return, that in my case and please read this but I think and I am most positive that from the few descriptions I have heard from

other victims, the other cases are nothing compared to what they have done to me and are doing, for example i will give you an example of what they are doing each time i travel, which is identical to how it started, first let me start with how they started they made me beleive that the poems i wrote were super human, and then they through fake voices on the phone made me beleive that the us army knew about the poems and that i was famous, or super human, after some time in which my reality of everything changed because of this information i got to know the truth that no one knew about me and that the poems were worth less, then when i travelñed to mexico to try to find a job since in honduras it is very poor, one morning out of the nothing i woke up and i started thinking that everyone knew me again as if my mind were a computer program and they eliminated the truth from me and eliminated basic information about society friends and family, in other words another reality, this is far more creul that all the stories i have read, because if your reality is distorted then nothing in the outside world is true, totally delusional, this is far more dangerous than experiments done like john finch, which is mostly pain, pain does not take the truth from your reality, and since they started making me believe that I was a super human, they started through voice and skull and other weapons to try to make me believe first that I was super human then they changed it to a super human with evil qualities, so in a districthed reality and thinking that everyone knows you it is more dangerous because it might make you attck or defend yourself from innocent people, and since they use holographic insert they can make an innocent person make a angry face or as if they know you plus if you add to a fake holographic face with fake voices they make you perceive an innocent person to have evil intentions to you. So that is far more dangerous than other stories of pain derrick I send to a summary of my explanation of how they have tortured me, in there experiment it was planned to after five years let me know through example of how they manipulated me, Derrick if you read MY DESCRIPTION this will solve many questions to so many ti, I will send you my description please read it carefully, it explains gang stalking, and many other ways this satellite uses it weapons against us, I am sure If you did not receive my information it was because it was blocked, to get baqck to the story I arrived here in mexico a few weeks ago and they automatically started with pain in my teeth and stomach, they invoked paranoid thoughts about every single human interaction, I was working in a hostel and the hostel got robbed when I was at my shift, I saw the man that robbed but here is where most of the websites are not providing information correctly, since they have not as in my odd and very bizarre case that after they did this to me they revealed most of the technology to me, this may sound kind of weird but remember this is another world of torture and psychological experimentation and physical `pain, PLEASE I BEG YOU, IN THERE SICK EXPERIEMTN ON ME they at the end revealed everything to me, everything, I asked you to try and ask other ti to describe there torture, and I heard that from your knews letter you have been comparing victims with Japanese victims, that is why I begged you to at least try and start compliling information on how each one is being tortured, Please Believe me but they gave me everything after five years, all the information on how everything is done by examples, so before I would go to an interview they would show me an example and that made me expect those types of examples to happen and made me feel more in peace in how to confront it, for example most of the victims don't know why they were tortured by I have enough information to know why I got chosen, and if you are a representative of a organization of victims you should please use this as a bible I will explain everything, I am sorry to repeat to you but in a sick way they revealed many if not all the experiment to me, either by pain by wiping out my reality, or giving me information that gang stalking can be created by a satellite, I wl give you an example of paul baird from Australia, he thinks that he got caught because he wrote a book about the future, and that he say on the media information about him, and from my experience they tried the same thing but after some time they revealed everything that it was them, and if I ever do here something suspicios on the tv they know that I will know it is them, and if they revealed everything single weapon they have and this is odd to explain but when I was a child I had a thought that I would be a writer it was a thought with an induced image of a writer in a nice house, and 15 years latter I got screwed with this very beautiful poem, and I started writing above than average poems, and a few months later I got screwed and they made me believe that is was super human, so they did some very good planning, I want you to try and believe that this machine especially in your position of organizaer of an organization of victims, that your thought are manipulated in a covert way, and they will block and valueable information that might really help you out. And I am an example of this, in my essay I wrote to you and joh finch and paul baird, I did not have answers back from none of them, just john finch quickly stated that the gang stalking was true, but through my experience and from what the satellite and how this experiment is don't on me they revealed everything bring me back to a normal human reality, and giving valueable information so I could identify and keep safe, now this is horrifying since if they are telling me this and they had planned that I would be a brilliant writer and 15 years after I bstarted writing poems and used thiese poems to distort my reality that means, this more complex that what all the internet sites are saying. And I will give you an example from paul baird websites he metions voice to skull and holographic inserts in the eyes, and others but he does not example that this is the answer for gang stalking, putting a fake picture in your eyes of men following you, gang stalking I would believe it but back in the 40 or 50, but not know, I will give you another example when I was young my father dreamed of my crashing a car, and I went that day and had a car accident that was a combination of dream induced thoughts and total control of my body to cause that accident. I am very sorry for this complaint but I need more information

from you and I beg to god you read this email. And are interested in my description on how this works, paul baird reality is distorted believe the media men are up against him, but a satellite might provoke fake information the tv and have a coulpe of innocent people on the street to say his name through false voices, another one of there tech nology that involves fake voices and fake holographic inserts of people doing things, in other words from my experience and they proving to me so I could cool down about it is that they can make a fake conversation between to personal friends of yours in front of your face, and you will not know the difference. This is really evil if you don't know the truth. Derrick I spent 20000 dollars in an American university in mexico city, and the satellite changed my degree from business to international relations, I have enough proof to prove that, and the satellite with fake conversations and fake faces made me believe that it was my school that changed my degree, causing conflict, it is sick because international relations just talks on how usa destroyed the world to gain power as if this experiment was made for me to study the us army military operations and then five years later tell me it was them that did everytihng revealing evrything single torture techniqeue, another example is that when I felt harassed in mexico and tortured started nI called the police and the police officier who were real said fake information that I was a super human, and the whole converstation with these poor police men were fake done by the satellite. And blew my mind at that moment but when they revealed everything and gave me an example on how they can provoke a fake conversation with people infront of you I answered all my question and they would even remind of more information that I missed in which was them, like for example the time I went mexico and two cops came to me and just said they would cut my thought, that was all a fake converstation. I then found the book that was in my luiggage that was fake because the put a book in my luggage exlplaing that the poem had power super human stuff, but after a bit of time I found the same book and it was all false. Another important novelty that no victim has been don't to is the materialization of object, they have materialized money coins, papers, cigarettes, sand in my bed to make me think there was someone there, this is knew and you might no believe but I have proof, please read this carefully, we are all on the same satellite and they are playing a game with our llives. So key people specially in the us are treated better but are more manipulated that us in poor countries because you have more access to help, another rexample is the blocking of information through the internet and the ca`pacity to change all the information of an entire book, information that might be helpful to you , if you don't know the power of a holographic insert. I think that cases like mine should be put on you newletter so other people can identify how they are being attacked and tortured. ON the mani`pulation of people as yourself they can block helpful thoughts that may get you to something that might provide victory. You mentioned to me that I was young over the phone when we spoke with mark so I could stay at the safe house, but I am exhausted, I know that I am being more tortured than many and th3e really terrifying part about is that after I got tortured badly they started to reveal everything on how they did it, this makes it even more frieghtening, how they involved innocent people how they changed my degree, remember when I asked you if you knew that ti were able to study and travel well I don't think they will let since they revealed everything and the torture is nothing compared to anybodies believe me, derrick they will not let you try to end this by yourself suicide i mean, they have mechanisms to keep the pig alive, and I don't know if you knew this but I made some research and a show on tv and a human body is wroth 44 million dollars, so that is very important to keep the pig alive, we are not considered a humans, we are just live stock. Please read this.

how are you, I don't know if you remember me fernando from Honduras but I sent you a description of my case a few months ago maybe a year ago, it was a description of what happened after I understood the whole things and how in a really bizarre way, the satellite left me traces or hints so I could resolve for myself the whole situation in which I was induced, it is a really bizarre case, because part of the torture was leaving me evidence in how to figure things out!! and I would like to talk to you about what is a holographic insert or the use of cloaking technology in the eye, and the capacity to make up conversations in front of you providing wrong information to you but not affecting the other person. meaning for example I can talk to a cop a real one for example and they can change his face expressions and what he is talking about so you get a wrong message!!! while the other person or the cop is hearing something else from you!!! they did this in my university think about it please, I remember I gave you a description about this and I related it to gang stalking in which through cloaking technology in the eye they can make and invent a holographic image of a stalker and have him speak to you and even punch you or do anything physical. because it also has that capacity, now you told me that in your case it was not true, and that the stalkers in your case were real, but I am telling you that these people in my situation bizarre they gave me enough evidence about cloaking technology so I could find it out for myself!!! THIS WAS PART OF THEIR EXPERIMENT WITH ME PLEASE CONSIDER IT!!! NOW RECOGNIZING THIS IN THE END, OF FINALLY RESOLVING ALL OF WHAT THEY DID I UNDERSTOOD THAT IT WAS ONE OF THE CRUELEST CASES OF EXPERIMENTATION THAT THEY HAVE MADE, AND TO MAKE IT EVEN MORE TWISTED THEY LEFT ME EVIDENCE SO THAT ONE DAY I WOUOLD BE ABLE TO FINALLY GET THINGS STRAIGHT AND BE ABLE TO IDENTIFY THE DIFFERENT FORMS OF WEAPONDARY USED

ON ME JOHN I WENT THROUGH THE MOST INTENSE THINGS!!!

THANKS GOOD BYE

I WAS NOT ABLE TO HEAR THE CONFERENCE CALL, AND I WAS TOO LATE TO WARN DERRICK TO GET PREPARED FOR THIS CALL, SINCE THE UN GUY CLEARLY STATES THAT WE HAVE TO PROVE OF (VERY IMPORTANT FOR HIM) WHO IS DOING THIS. AND IN MY OPINION AS A POLITICAL SCIENTIST AND VICTIM, THIS IS ONE OF OUR GREATEST CHALLENGE, TO PROVE AN AUTHORITY WHO IS DOING THIS... EVEN THOUGH IT SOUNDS SIMPLE SINCE THERE ARE JUST A FEW TO HAVE ACCESS TO SATELLITES OUT THERE, BUT I THOUGHT THAT IF THESE SONS OF BITCHES HAD THE AUDACITY TO TORTURE AND DO HUMAN EXPERIMENTATION WITHOUT CONSENT THEN THEY MUST HAVE FIGURED OUT ALREADY REACTIONS LIKE MEETING A UNITED NATIONS AUTHORITY, AND KNEW ALREADY THE DEGREE OF DIFFICULTY IT WOULD BE TO TRY AND CONVINCE ANY HUMAN BEING SPECIALLY AUTHORITY OF THESE ATROCITIES... NO CRIMINAL WANTS TO GET CAUGHT, THAT IS HIS PRIORITY, I BET EVEN IF WE FOUND SOME BRILLANT AND INGENIOUS WAY OF JAMMING THE SATELLITE SIGNAL AND STOPPING THEM, THAT WOULD NOT BE A PROBLEM TO THEM, BUT GETTING THEIR ASS CAUGHT IS THERE MAIN PRIORITY, NUMBER ONE IN THEIR LIST OF WHAT THIS TYPE OF EXPOSURE CAN DO....

2. ANOTHER IMPORTANT ISSUE I WANTED TO SPEAK TO DERRICK ABOUT IS THE PSYCHOLOGICAL HEALTH OF A VICTIM AND AUTHORITIES, I WILL EXPLAIN: A VICTIM AS MYSELF THAT GOES THROUGH THIS TYPE OF EXPERIMENTATION GOES THROUGH A PROCESS, LETS CALL IT A PSYCHOLOGICAL PROCESS, WITHIN THIS PROCESS COMES ELEMENTS LIKE EXTREME STRESS (SAME AND EVEN MORE INTENSE THAN WAR, SINCE WE HAVE NO ESCAPE, AND WE NEVER CHOSE TO GET IN THIS MESS, WE ARE ALONE, NO OUTSIDE HELP, NO RECOGNITION), PSYCOSIS, FEAR, DAILY FUNCTIONAL IMPAIRMENT (LEADING TO FINANCIAL IMPOVISHMENT), PAIN, HUMILLIATION, DEPRESSION, GRIEF (LOSS OF MOST THINGS IN LIFE), ANXIETY, PSYCHOTIC DISORDERS, ECT... ALL THESE ELEMENTS THAT WE GO THROUGH (PLUS THE OTHER ELEMENT OF BIZARRENES THAT THESE TECHNOLOGIES MAY CAUSE TO THE HUMAN MIND) MOST OF CAUSE MENTAL IMPAIRMENT, AND ALL OF US NO MATTER IN WHAT STAGE YOU ARE IN WHETHER YOU JUST STARTED TO GET TORTURED OR WHETHER YOU HAVE 7 YEARS INTO THIS SITUATION LIKE MYSELF HAVE POST TRAUMATIC STRESS DISORDER, AND HAVE SUFFERED TO UN BELEIVABLE DEGREES NOT EVER WITNESSED IN HUMAN HISTORY...THE NAZI REGIME IS SMALL POTATOES COMPARED TO THIS DEGREE OF TORTURE, SO IN OTHER WORDS THEY KNEW THIS WOULD CAUSE MENTAL IMPAIRMENT DO TO THE PSYCHOTIC EFFECTS OF TORTURE TO THE MIND, AND THIS WOULD MAKE IT EVEN HARDER FOR US TO FIND HELP, OR AS THE UN GUY SAYS FINDING WHO IS UP TO THIS!!!!!! WHEN YOU GET A GROUP OF TI, DEFINING WHO IS UP TO THIS SPECIALLY WHEN YOU ARE DEALING WITH MULTICULTURAL VICTIMS, (WHO BELEIVE IN SO MANY MILLIONS OF DIFFERENT PERSPECTIVES AND HAVE BEEN TORTURED SO DIFFERENTLY, AND SO BIZARRELY) MAKES IT HARDER FOR US TO MAKE A UNANIMOUS DECISION IN SOMETHING AS WHO IS DOING THIS. JOHN YOU LIVE IN A FIRST WORLD COUNTRY, YOU HAVE YOUR BELEIF SYSTEM AND A GOOD ACCESS OF INFORMATION, AN EDUCATION, INTERNET ACCESS, FRIENDS AND FAMILY THAT ALSO ENJOY THESE TYPES OF LUXURIES, YOU HAVE A COMPUTER, IMAGE THE VICTIM THAT IS IN AFRICA AND LACKS ALL THESE THINGS THAT I HAVE MENTIONED, I NOTICED THAT MOST OF THE ORGANIZATIONS ARE IN THE FIRST WORLD, AND VERY FEW OF THEM ARE IN CONTINETS SUCH AS AFRICA, FOR EXAMPLE WITH OVER A BILLION PEOPLE, IN THE WORST LIVING CONDITIONS, OR LETS GO TO LATIN AMERICA WHERE YOU WOULD THINK THEY WOULD HAVE MORE ORGANIZATION BUT THEY ARE ALMOST NONE AND INEXISTENT DUE TO PVERTY, OUR ENEMIES BEST FRIEND... WELL SORRY FOR STRAYING AWAY FROM MY OBJECTIVE BUT I THINK ALL OF THIS MATTERS IN EXPLAINING THE DIFFICULTIES IN A SIMPLE GESTURE OF EXPLAINING SOMETHING SO INTENSE AND HARD AS BLAMING WHO IS TORTURING US.... SOMETHING THAT SHOULD BE EASY TO ANNOUNCE BUT BECAUSE OF THESE TECHNOLOGIES HAVE MADE IT ALMOST IMPOSSIBLE FOR US TO DO THIS... THE QUEEN OF ENGLAND IN THE TIME OF THE WAR WITH ARGENTINA MADE A SPEECH THAT WAS SUPRESSED UNTIL A FEW DAYS AGO, SHE EXPLAINED THAT HER GREATEST FEAR WAS TECHNOLOGY SINCE IN THIS WAR SHE WAS TOLD ABOUT TECHNOLOGY THAT COULD BLIND THE EYES OF THE ARGENTINIAN ARMY AND CRIPPLE THEIR SOLDIERS... WELL YOU AND ME AND ALL THE OTHER TI AROUND THE

GLOBE ARE WITNESSES OF THIS TECHNOLOGY AND OF HER WARNING THAT WAS SUPPRESSED, IN OTHER WORDS WHAT I AM TRYING TO SAY IS THAT WE HAVE TO GET A WAY IN NOT DIVIDING WHO THIS IS....

IN MY OPINION WITH THIS SNOWDEN CASE THAT WHISLEBLOW THE BREAKING OF INTERNATIONAL LAWS AND NATIONAL ONES (MOST IMPORTANT FOR THE VALUABLE USA SOCIETY, THE ONLY SOCIETY THAT MATTERS SINCE WE IN THE THIRD WORLD ARE NOT CONSIDERED HUMANS, I HAVE SEEN SPEECHES OF THIS EVEN FROM HARVARD STATING THIS), THE SPYING OF ALL THE USA, CHINA, BRAZIL, EU OFFICES, EMBASSIES, EUROPE, MEXICO... IF NOTHING HAPPENS, THEN I BELIEVE AND SORRY FOR BEING PESSIMISTIC ABOUT THIS, I THINK I READ TOO MUCH HORROR IN MY DEGREE AND MY EXPERIENCE BUT, I THINK THIS WORLD WILL LOOSE EVERYTHING BECAUSE THERE VICTORY IS MADE PUBLIC AND UNFUCKABLE..... ONCE YOU HAVE A GLOBAL ACCEPTANCE OF THE BREAKING OF LAWS, AND THE SNOWDEN CASE IS NOT THE FIRST I CAN WRITE YOU A BOOK ON THIS, BUT ONCE AT THIS SCALE AND ADDING IT TO THE REST, AND ADDING THE GLOBAL ACCEPTANCE OF SPYING THIS ONLY MEANS TO ME THAT WE HAVE NO FUTURE IN THIS SMALL WORLD... AND HOPES OF REVOLUTIONS LIKE THE ARAB SPRING, WHICH IS VERY POSITIVE TO OUR CAUSE, ARE USELESS.... SINCE THEY WILL NEVER HAPPEN IN THE WORLD POWER STRUCTURE.... OR COUNTRIES... LIKE MOSTLY THE USA... A THIRD WORLD WAR MIGHT BE OUR ONLY HOPE BUT WITH THIS GLOBAL ACCEPTANCE OF UNLAWFUL POWER FORGET ABOUT IT..

JOHN I AM IN A FINANCIAL JAM BUT I LIVE WITH MY MOM AND I AM NOT IN THE STREET LIKE SOME VICTIMS, I INHERITED SOME LAND AND I AM DOING EVERYTHING POSSIBLE TO SELL IT, IT WILL PROVIDE ME ENOUGH TO LIVE IN A PLACE LIKE INDIA TO RETIRE EARLY MOST IMPORTANTLY IT WILL ALLOW ME NOT TO WORK, RENOUNCING TO MANY THINGS, BUT THAT'S OK DUE TO THE SEVERITY OF MY CASE, I HAVE ACCEPTED MY FATE, AND IT TOOK ME A LONG TIME TO DO THAT, I STILL DREAMED OF STUDING A MASTERS DEGREE BUT THE PTSD I HAVE IS MORE INTENSE THAN ANY SOLDIER HAS, AND A REGULAR JOB IS ALMOST IMPOSSIBLE, IF I LUCK OUT AND GET THIS SOLD, I WILL DO MY BEST TO LIVE CLOSE TO THE THINGS THAT MOST MAKE ME HAPPY, AND TRY TO LIVE THE LIFE I ALWAYS WANTED, EVEN THOUGH I RENOUNCED TO MANY MANY THINGS, I AM HAPPY JUST BE ABLE TO GET TO AN OLD AGE WITH SOME BEAUTIFUL WOMAN, FROM THE EAST, I AM HALF PALESTINIAN MY FAMILY ARE ONE OF THE OLDEST CHRISTIAN FAMILIES IN THE WORLD FROM BETHLEHAM, I AM NOT CHRISTIAN I DON'T BELIEVE IN RELIGIONS OR ANYTHING, BUT I HOPE TO END THIS LIVING A BEAUTIFUL LIFE.

JOHN I HAVE A VERY GOOD BOOK I CAN LEND YOU IT IS FROM OXFORD PROFESSOR IN PSYCHOLOGY, IT IS ABOUT MEDITATION, IT IS FROM 2011, IT IS CALLED MINDFULNESS: FINDING PEACE IN A FRANTIC WORLD... IT TALKS ABOUT SURVIVORS OF THE NAZI REGIME, AND THE BENEFITS OF MEDITATION ON EXTREMELY STRESSFUL SITUATIONS, EVEN IN THE BOOK IT DOES NOT MENTION THE USE OF MEDITATION FOR THE THERAPY OF BEING EXPOSED TO PAIN, BUT I SAY A BBC REPORT OF THE ONE OF THE AUTHORS AND A CANCER VICTIM, THAT SUPPRESSES PAIN THROUGH THE BOOKS MEDITATIONS.... STRESS MANAGEMENT, ACCEPTANCE THEORY AND A COGNITIVE THERAPY, IT HELPS WITH EVERYTHING.... I WISHED EVERY VICTIM HAD THIS BOOK, I BET IT WOULD OF SAVED SOME LIVES... IF YOU ARE INTERESTED PLEASE LET ME KNOW I CAN SEND YOU MY ACCOUNT AND PASSWORD SO YOU MAY READ IT FOR FREE....

BYE

I hope something happens no matter how small or big, I have been doing research and from what I have read and heard we are going to have a very hard time for this, since the united states works undermining every single international law, and either ask for immunity in every international organizations that stand as international authorities against violent war crimes!!! so lets say we get something to happen and lets say we make I don't think there will be any people put in jail, and they might use international law against us even though they are breaking this same law. like for example I my torture started in mexico and I have been in many countries except the united states so they might say that since I was not tortured in usa territory they cannot prosecute or put in jail anyone. I am not an expert but looking from a positive angle what ever happens even small things would be better for all of us, the best thing would be just the acknowledgement of this technology by the public that would be very positive,

but then we would see the mainstream media not cover the story and protect usa interest, I have always thought that it is some agency whether the military of whom ever in the USA, but I cannot say whom since I don't know, since its ia bloody satellite,so let hope for the best, johni am ok, in my case to briefly explain I don't get tortured that much any more, the beginning was one of the worst cases or torture I have ever heard but since identifying it was them and since then it has been a more liveable situation, to tell you that for the last two years I have only been tortured with voices but

**693.** or a short period meaning I have had silence and peace for may be 3/4 of the last 2 years...

I am ok, I hope you are ok john. let stay in touch.

john in my collage I was the best writer in my university if you need a amateur writer to help make any letter more effective or just a second opinion please let me know plus my degree international relations or political SCIENCE MIGHT HELP.

Victim of Electronic Telepathic Link with monitoring personel from undisclosed location. With intention of slow destruction...

I would like to share intelligence I have gathered on these beings / people so others will not be victims as I was since childhood.

USA military is entirely taken over and controlled by same subjects from their bases. USA goverment 80% attempts are made to control all human thoughts world wide. By 2012 cause shift to dimension of dream, physical reality, potency charge suppressed with intentions to annihilate human race. To make it look as naturally as it possibly can.... one example: subject in coma and is thinking they are living normal life.

Only example reality is a different mater and reality manipulated with etc. On large scale. What these are planning not aliens no other side or parallel just organisation of subject with technology developed since 1949.

Introduce your self as builder Adam since my line is business line but is monitored by same people.

With total control of CIA I am suspect as terrorist on some list giving them excuses to do as they please in hidden here in Canada...when these will gain total power extermination camps are feasible same as they done in South America.

**26/4/08**

today i am harassed more then ever past 3 days all throughout have business to run etc.. nature is telephatic monitoring and harassment...

so for every day of a harasdsment there will be retaliation against those which cause the io harassment...

**here we go...**

**information released...**

**remote sensing agent at some military base by our Goverment which is not ours any longer naturally controlling highest unconscious thoughts processes of important subject such as bankers, politicians etc.so when you deal with them they will fall back on telephatic agent not their own human mind or yours when you in contact with them...this calls Greys lizard effect they are all over USA and middeast and EU at variety**

## **basis...real crap it is happening now... call taking over the social economic structures of Earth**

this means if this agent knows you and has negative intentions one person will then from some base control all as many can handle following your track blocking any of your own dealings  
thus many BECAME SUBJECT OF ONE NOT KNOW WHO THIS IS, WHERE THIS IS YOU Always here same answer...

and this calls: NEW WORLD ORDER few people told what to do sitting at some military base and manipulating highest sub consciousness of important subject to:-  
steal money, give order to kill, reject you business...etc these call remote sensing muppets one agent can control 1000 people easy...

well we do not HAVE GOVERNMENTS ELECTED HUMANS WITH EXPERIENCE FALLING AT OWN SUB CONSCIOUSNESS FROM EXPERIEMENT NOW WE HAVE REMOTE CONTROLL SHITHEADS...AS ONE WITH MIND OF GREY ALIEN AT SOME BASE ....

IS THIS SOMETHING....NEXT TIME YOU DESIRE...DISPLAY POWER ARE YOU SURE IT IS YOUR MIND OIR DESIRE SOMEONE ELSE...

**24/10/08**

HELLO,

THIS IS ME 285.NAME: GEORGE ZACHYSTAL

SOMETHING YOU SHOULD KNOW and accept as 100% correct all monitoring is done from in ELECTRONIC FIELD OUT OF PHASE TO OUR OWN REALITY SCIENCE DEVELOPED BY NAZIS IN 1930'S AND REST IN 40' MILITARY BASIS TAKEN OVER BY ALIEN ENTITIES OR DEFORMED HUMANS FROM GENETICALLY EXPERIMENTS WHICH ARE USED FOR ELECTRONIC REMOTE SENSING OF TARGETED INDIVIDUALS THEY SIT IN GROUP UP TO 8 PEOPLE AND TOGETHER FOCUS AT SUBJECT CALL "TARGET" 24 -48 HOURS SHIFTS

WHY THESE INDIVIDUALS: THEY HAVE POTENTIALS OR INFLUENCE AND ADVANCE HUMAN CULTURE OF ORDINARY PEOPLE THUS ARE NOT MOTIVATED BY MONEY, GREED ETC..

IMPLANTS ARE USED IN BRAIN OF INDIVIDUALS BUT NOT NECESSARY AS HUMAN BRAIN LIKE FINGERPRINT HAS UNIQUE FREQUENCY WHICH CAN BE MEASURED WHEN OBJECT OF PERSONAL NATURE IS STOLEN FOR A WHILE AS SUCK, UNDERWEAR, HAIRBRUSH ETC.I CALL THEIR MONITORING CRY FOR HELP OF THEIR OWN MASSACRE EXISTENCE THEY CREATED FOR THEMSELVES AT THEIR BASIS OTHER SIDE OR UNDERGROUND THEY DO NOT KNOW IN REALITY HOW TO GET OUT...LIKE A CHILD WHICH WANTS ATTENTION,

THEY WORK FOR HIERARCHY ORGANISED CRIME, AND OTHER INSTITUTIONS OF POWER...ELECTRONIC FIELDS ARE PRESENT TIME INSTALLED IN EVERY CITY EFFECTING REALITY AS IS 2008

NOW IMAGINE WHEN SHORT IDIOTIC BEING LINKED TO YOUR BRAIN YOU LOOSE BALANCE ETC.. CANNOT THINK STRAIGHT DO OWN STUFF AND THIS IS WHAT HARASSMENT IS ALL ABOUT CALL: MIND INTRUSION

IN MY CASE IN SEPT 4 2008 WHEN ONE OF THE IDIOTS TUNED INTO ME OR IMPLANT OR WHATSOEVER HOW THEY DO THIS CAUSE ME DE SENSITIZATION OF MY LEFT BRAIN HEMISPHERE THUS CONTROL OVER MY RIGHT BODY ESPECIALLY BONES AND MASO CAUSE ME SERIOUS ANKLE INJURY ...NATURALLY THEIR INTRUSION DE ATTACHMENT OF MY OWN CONTROL OVER MY BODY RIGHT SIDE NOW HOW CAN I HEAL I HAVE CLUTCHES PRESENT TIME CANNOT PUT ANY WEIGHT ON MY RIGHT INJURED FOOT ..SHOULD BE HEALED LONG TIME AGO

AND THUS THEIR LINK IS IRRITATION TO MY INJURY AND FURTHER DE SENSITIZATION DO THEY CARE?? NOT AT ALL THEY DO NOT GIVE A SHIT DO YOU THINK I CAN DO BUSINESS GOING TO ESTIMATE CONSTRUCTION JOBS IN CLUTCHES????

NOW HERE COME BEST PART: IMAGINE NEW PRESIDENT OF USA TOTALLY CONTROLLED BY THESE BEINGS WHICH ONCE JUST MONITORED AND REPORTED WHATEVER ON MONITORED INDIVIDUAL THIS PRESIDENT LIKE REMOTE CONTROL ROBOT IN HOLD OF CASE WHICH CAN LAUNCH NUKES ANYTIME....IS THIS SOMETHING...MC CAIN OR OBAMA AS SAME WHY FOCUS AT CONGRESS WHY NOT JUST ONE BEING THE NEW PRESIDENT MANY PEOPLE NOTICED THIS AS WELL SOMETHING STRANGE THEY STARTED TO DO THIS IN 2008 MAY...NEVER DONE BEFORE

LOOK FOR MORE EVIDENCE YOU TUBE YOU FIND IT SEND LETTERS TO EVERY CONGRESS

MEMBER TELL THEM ABOUT MIND CONTROL MORE THEN 50% FUNNY THIS HAPPENED ONCE IN HISTORY IN SPAIN: THEY HIRED MERCENARIES WHICH LATER TURN ON ARABS AND KICK THEM OUT AND ELECTED THEIR OWN KING

SO THOSE WHICH MONITOR TOOK CONTROL IN MAY 2008....COMPLAIN SEND LETTERS BECAUSE THEY PHYSICALLY INJURED ME THEY TURN ME TO INVALID WITH CLUTCHES IF YOU WISH I SEND YOU MY PHOTO

I AM WITHOUT INCOME LIVING OF VISA ACCUMULATING FURTHER DEBT SOON HAVE TO GO BACK TO EUROPE INSTEAD OF GOING UP NORTH FOR EXAMPLE TO FORT ST. JOHN TO WORK ON PROJECT AND MAKE 300\$ PER DAY I AM HERE LIKE SOME RETARD...NOT BECAUSE OF MY STUPIDITY

BECAUSE OF THEIR MORE THEN 50% IGNORANCE OF ELECTRONIC MONITORING CAUSING ACCIDENT IT OCCURRED IT IS DONE AND THEY NEVER QUIT...THEY ARE BIGGEST ENEMY OF HUMANITY ALL HUMANITY EVEN OF RADICAL MOSLEMS OR JEWS OR NEW NAZIS ALL OF THEM THEY HAVE UNIQUE CULTURE AND MUST BE STOP TO DO WHAT THEY DO ON LARGE SCALE OR GAIN TOTAL POWER OR CONTROL....

AWARENESS IS THE KEY IN INTELLIGENT SENSE ...IF SOMEONE SAYS TO YOU IT IS NOT TRUE THEN SAY: HOW COME DOG LOOKS LIKE THE OWNER AND OWNER AS DOG?

MIND CONTROL??  
HOW COME DAUGHTER KNOWS MILES AWAY WHAT IS OCCURRING TO HER MOM AND SO ON MIND NEURON LINKS ARE REAL...

HUMAN BRAIN FREQUENCY IS 8.75 HZ 12 75 HZ ANYWAY WRITE TO EVERY SENATOR AND TELL THEM THEIR IGNORANCE TO VICTIMS OF WORLD FEW HUNDRED NOW BE MILLIONS OR BILIONSEXPERIEMNT FINISHED DUE TO CONGRESS USA IGNORANCE TO MISERY OF FEW...CONGRESS FAMILIES CITIZENS IN CONTROLLS AND NEW USA PRESIDENT...MY PREDICTION IS: THEY WILL LATER KILL SUCH PRESIDENT SO TEHY CAN ASSUME TOTAL CONTROLLS VIA IDIOTIC VICE PRESIDENT ETC

THOSE THEY: UNDERGROUND REMOTE SENSING INSTALLATIONS OUT OF CONTROLL FOR THEMSELVES TO STEEL, MURDER AND TAKE OVER ...WHOLE PLANET

**18/3/09**

I AM VICTIM 343 GEORGE ZACHYSTAL  
IN EUROPE WITHOUT INCOME BASICALLY SUPPORTED BY FAMILY HERE  
VANCOUVER BC WAS TO DANGEROUS RESULTED IN ACCIDENT PHYSICAL PRE PROGRAMMED INJURY still barely walking doctors do not understand why it does not heal i cannot explain to them it is electronic nature basically they are to ignorant and stupid

IN PRAGUE arrive 25 nov 2008 CZ  
TOOK 14 DAYS BEFORE HARASSMENT HAPpEN AGAIN AS USUAL ELECTRONIC NATURE CANNOT GO IN TO DETAILS TO PAINFUL AND BORING UN PRODUCTIVE AND NEGATIVE TO DEAL WITH SINCE THE HIERARCHY IS DOING EXPERIMENT ON ME SO THEY CAN TRAIN THEIR SUPER SOLDIERS BETTER OR WHATEVER REASON  
THUS TO GET BACK AT THEM ONE RATS ON THEM

#### **HIDDEN AGENDA OF NWO DEAD WISH**

SUCH INFORMATION BECAUSE IT IS TO COMPLEX AND DETAILED PEOPLE ARE NOT INTERESTED UNLESS IS SOMETHING WHICH EFFECTS THEM IMMEDIATELY

mass murders of earth population commencing 2009 likely perhaps 2010 are planed by world hierarchy in usa / canada SINCE 1988 IN STEPS genocide of undesirable etc CONTROL NEW WORLD SECRET AGREEMENT ALL POWERS TOOK PLACE ON SHIP IN MEDITEREIAN between all powers and agreed chinese invasion of eu as cleaners of people

i am not sure of scenarios

1.either as if terror attack 3 nukes on new York

2>? or every major city in world nuked by pre planned placed devices ( to risky is unlikely)

3> likely scenario what is realistic and in plan already by state department usa

usa will attack iran july 2009 - july 2010 ?

russia having agreements with iran will then

go in war with usa

china join as well after invasion of Taiwan, Japan etc.

hierarchy needs to get rid of USA own blacks moslems 1 mil strong

and of EU as power system economical

all is pre planned pre staged between countries to reduce population and thus rest so easy then / better management control of 7% which will remained

93% will be killed

so you should know i am harassed every day electronically they keep me alive to find out leak some more stuff

because i have access to intelligence and know things what is said to you is just 10% of all

never forget 140 cities underground exists world wide is reality linked by tube systems metros super fast runned by military etc. that ios reality

**29/10/09**

**THIS IS GEORGE ZACHYSTAL ON VICTIMS LIST SOMEWHERE**

this months 12 attacks 3 times they attempted to place me in coma state via really alive dreams trough electronic imprint of someone else etc. am up every day at 3-4 am for about 1-2 hours

so alive almost hapen...I assume ELF waves

I am totally broke unemployed no business in Prague CZ instead of being in Canada

last electronic attack cause me to have injury to fall at work was done electronically not due to my stupidity or being tired etc. my ankle was broken etc.

I have my family helping me now they are targeted as well...

in Czech Goverment this MR. TOPOLANEK was targeted as well althroughout he does not admit I seen the signs how he was effected

they have taken over him from base... ruined him politically...

so what is needed is: teach people there are military underground basis 4000 world wide all united agaist people US with people taken over by entities or lower level assholes...what they grown took over...

and look up ELF waves low frequency and its effects and educate people about this...

as well tell them they are using this to make sure we have no food on table in future and are placed in concentration camps including those who are helping them by being apathic..

people are being slothered right now electronically rich one are first so those rich one should know that their kids are target

good luck

do not stop but be abitch increassee your complains action action action

I cannot afford doing anything just research

yours truly

george zachystal

This is in regards to my encounter with synthetic telepathy.

These are things admitted to me by John and company in the FBI first hand and the things his followers have done to me since July 2015.

Waking up everyday at 6 am

Torture

Rape

Attempted murder

Single parent losing house

A med student losing his career

Med student losing his job

Playing god

Saying I am god

Mocking god

Mental enslavement

Stealing memories

Battery

Assault with powers only they possess

Misuse of the power god granted them

Bigotry, racism, labeling, stereotyping

I've heard many things about a technology called synthetic telepathy. People claim the government uses it for their own personal vendettas. Obviously, being one who practices my religion, I believe we are dealing with Satan or with one who is possessed by him as only such a person can do such horrific things. The technology was developed during World War 2 by the Nazis. The Stasi government used it to control the masses. Post World War 2, the technology was found and has since been used by the US government without the people's knowledge or consent. They have intended to use it for their own personal measures. Furthermore, they attempt to put you through hell for their own personal gain and pleasure. Agencies such as the FBI, NSA, CIA, police officers and the military have used and are using this technology without the public ever knowing.

Technologies:

Radiation microwave technology

Satellite synthetic telepathy V2K (they specifically told me they were using this)

Nano-chips used for tracking and controlling

Satellite laser technology

Synthetic telepathy uses blackbody radiation to expose the body to dangerous amounts of radiation which through trial during wartimes, have found that certain frequencies of black body radiation cause the mind to do and react in a certain way. Doing so, scientists have discovered that mapping the human mind's electrical activity through electroencephalograms and recording them onto a chip allows one to read another's mind based on brain activity in certain moments which were previously mapped and recorded onto a computer chip. There is also radio technology which allows them to use V2K, skull to voice technology to communicate with their mark. The technology goes unspoken of when it comes to the public and social media. However, the individuals targeting me specifically said they were from the FBI and they were indeed using V2K technology.

The idea is to make the mark (targeted individual) to live a life of hell. They will attempt to either drive you insane or leave you financially bankrupt, or both.

The technology allows them not only to read minds but also allows them to control the mind. Radio frequencies are directed through satellite, cell towers, and communications systems. They locate the mark through the technology we have become used to using on an everyday basis. And it surrounds us. Whether it be your TV service, cell phone,

computer, or any other electronic service or device.

Because of them i have lost my house, my career (doctor), and they repeatedly try to take more day by day. Anything positive I do with myself or my life they negate with their power invested to them.

They use names and voices of specificity. Everything they say serves a purpose. They read your thought and communicate telepathically leaving the person without even a second of peace in their own mind.

Names I have encountered are not completely irrelevant. Three names, John, Stephanie and Mark. And, as they have access to all their technology and our memories they use voices of people you know to convince you to do things. These three people are always there. They say derogatory statements all day in an effort to distract and control you, making your life as miserable as they can. They speak to you all day and all night. And they gps track you everywhere you go.

They will control the way you feel through brainwave technology:

Signs and symptoms:

Rapid heart beat

Headaches

Hearing voices ( must rule out schizophrenia by trusting yourself )

Controlled dreaming ( they will try to control your dreams in an effort to implant ideas into your mind. One night I woke up and heard them chanting as I laid there not moving.

decreased mentation ( difficulty in concentration )

Blood pressure elevations

Feeling of sudden loss of breath

Voices will always be there and may comment on yourself, including your entire body.

Random body pain in areas where there is no trauma

Sudden changes in mood

Inability to concentrate

Sleep deprivation ( a favorite of theirs)

Depressed mood

Reading your occipital cortex they can get a visual display of what your looking at.

Watching and commenting on you in the shower, bathroom, or while you are getting dressed.

Watching and commenting while your with your significant other.

A feeling of increased pressure inside your skull.

God gave these things the power to do justice, yet they use it for personal gain and control, or vendettas. I fear the United States may end up being what Nazi Germany once was. The idea of big brother during the cold war, watching everything and everyone, also comes to mind.

They are very discreet about what they do. But if you do encounter them do not go to the doctor or the policemen. Doctors will declare you insane and policemen are told not to say anything, as is the same with most attorneys. My only recommendation is to hire a private investigator who specializes in these types of incidents. Google "synthetic telepathy private investigator" and it will pull up a few for you to choose from.

This must be made a public concern as only the people with the power are those who should not have it. It is a well kept secret so that it may be used by the people keeping it, with a lust for greed and a hunger for control.

The question of satan comes to mind. But they seem to fear god, so they will never kill you. This is just an assumption. They simply make you suffer for as long as they wish.

After being through medical school I realize what we are dealing with is not mal cognition. Its simply a way of one individual to get back at another. Except on uneven ground. They abuse the power god gave them. They use it without the people of united states' consent. The things they do to people are horrendous. If you experience the same, just know your not alone.

Its only a matter of time before this technology becomes more apparent, and integrated for public use. Steven Hawking has a very similar machine he uses in order to communicate with others. He thinks it, and what hes

thinking pops up on a screen. Very similar to what they are using.

Believing in god and mankind I know this machines intended purpose is for good. Yet all they use it for is bad. Its a way to control the people, the government, and all those who control our nation. The technology is very dangerous in their hands and the way its being used is even more dangerous. Radiation has been shown to damage cells and destroy DNA in medicine. Prolonged exposure means increased risk of many diseases which are not listable due to the sheer amount.

I would like to add that i have tried antipsychotic medication as I was a medical professional. Trust yourself and persevere. The medications did nothing to me and they will do nothing for you, as there is nothing wrong with you. Hopefully you can overcome this horrible situation and may god be with you.

I am also a victim of electronic torture. In 2005 I had a medical procedure, and I strongly believe that without my knowledge I had been implanted with microchips. Since then I have terrible symptoms, and none doctors are willing to help me.

I heard that you are collecting the cases of worldwide victims to submit to the U.N. Could you please include me into your list. Please let me know what kind of information you need from me. I can give you a lot of details.

Also, I heard that an international organization is being formed to represent all targets of electronic torture before the world. If you know the name of that organization, could you please tell me. I would like to join it. I am an American citizen.

**21/9/08 A Message From Derrick Robinson FFCHS**

ANANDA ZAREN - TI in Santa Barbara. I just received a call from the California Highway Patrol because I had left a message on her cellphone. Another group member received a similar call. The officer is trying to locate next

of kin. He said she has been in a serious car accident. She is in the hospital on life support and not expected to survive.

He then asked me what I meant when I said in message "I hope you're ok." I then explained that another member of our group had been called by a chaplain. He asked what group. Then I said, "Freedom From Covert Harassment and Surveillance." He paused after that and said, 'Ok'.

Personally, I do NOT believe this was REALLY an accident, but again the perpetrators are covert and no one is the wiser.

**28/9/08**

Ananda Zaren, a truly beloved TI, has passed away after the horrible "accident" this past weekend. Seems her car went off a cliff to the train tracks below as she was driving home from work. And I have reason to believe this was definitely an orchestrated attack! Ananda will be greatly missed by this community. For more information, please visit: <http://www.thewellpet.net>

DEAR SIR/MADAM

## **I SUPPORT THE WORLDWIDE CAMPAIGN AGAINST TORTURE AND ABUSE USING DIRECTED ENERGY AND NEUROLOGICAL WEAPONS**

**11/6/11**

The organized stalking started in 1991 which continues today along with work mobbing and the electronic torture-based mind control with full 24/7 speech control by first person, second person, third and fourth persons which creates all internal dialogue and external, separate from the v2k, in which I am threatened daily by nonperforming police officers, facial control, induced character changes, tone of voice changes, induced emotion control and climate control-directed energy/ microwave weapons and this all started in 1996. And there is so much more of this continuous excruciating torture, similar to what you've been going through and then more; the mind controller/handler has an IQ of 25-50, with very poor speech skills, little to no work experience, practically brain dead to where the mind controller doesn't know how to do things domesticated to where you don't know how to open a car door, turn on radio, answer a telephone, turn on a computer, it will scramble brain to where the mind controller will get confused where shoe to put on and I'm locked into and 30 minutes will pass, not being able to get to brain before placing shoes on, and it's a lot worse than that. In total, 21 years of the worse torture  
Thanks so much, Brenda

Unclassified mind control documents indicate that all internal dialogue by Melvin Berger Mind Control is all created, and there is a first person and a second person, well, these knuckleheads, injected a third and fourth, that sometimes mesh, so layered. all of these "persons" they use to guess at my thoughts, and then on the outside is the voice-to-skull by the police officers which verbally death threatened while I am physically abused for them to control me like a robot, very frankenstein linda blair effect. and the officers think it's what their saying, it has no bearing on the excruciating internal compression, torquing, wrench, twisting and turning of brain coupled with 24/7 forced controlled speech, facial distortion and altered voice tone, and then I am continuously struck in the head with instant undeveloped emotional waves, as I call them, it's instant barriers, and then there blocks and barricades that prevent use of brain while they occupy it with their thoughts, and then they manipulate their own thoughts and their speech, while I am trapped inside head like a POW.

Thank you for adding me to the list of victims.

I was controlled to quick send this email before editing; I hope it makes sense. I just wanted to send you the short version of it, the number of years, but as you know after 21 years of this very sick, sadistic, cruel, demeaning, inhumane 24/7 torture, there isn't any short version of this nonstop living hell, and only another TI, like yourself, who has had similar experiences would understand this type of horrendous abuse.

Once I am able to prepare a summary, I will submit it to all of these organizations as well as seek justice and compensation for all of us...

Thanks again for your time and through all of our efforts, I look forward to someday regaining our freedom of mind and the return of a peaceful, quality lifestyle once more.

**LETTER TO AMNESTY INTERNATIONAL**

November 7, 2013

Amnesty International Team,

I have read your response to John Finch, and I am extremely disappointed with your organization. There are thousands, and probably tens of thousands of individuals who are victims of electromagnetic weapons which are being used throughout the globe, and especially within English speaking countries.

The weapons are used as a form of torture, performed remotely, to attack innocent law abiding persons. The goals of the criminals using this weaponry is unclear, and some victims believe these weapons are being utilized as experimental testing of nonconventional weapons in preparation for a second Cold War, others believe it is to control every behavior of the victim as a punitive measure by the use of pain, outside of the law, and still others believe these attacks are a form of human extermination, which occur remotely, and are untraceable to the perpetrators of these crimes, due to the intentional disguise of the attacks to mimic natural causes of death and or acute or chronic illness. In the absence of electromagnetic attacks, the victims regain normal physical and mental health.

At any level, the quality of life for these persons, virtually imprisoned within their homes, due the attacks, is poor. Many persons die within a relatively short time period. Others are ill, at various levels of impairment, and most are mentally or physically impaired. Some persons carry a mental diagnosis, and this is solely as a result of the targeting process, which is designed to camouflage the attacks. Others develop physical illnesses. The weapons can produce mental and/or physical symptoms, depending upon the frequency chosen, brain waves duplicated and imposed upon the victims, and part of the body attacked.

Many experts have spoken out about the protocols and the design systems, such as Barrie Trower, Robert Duncan, and John Hall. I request that you educate yourself on this issue, because if ever there were an issue you should investigate and support, it is this issue. This is the plague of the 21st century.

I urge you to change your position on this issue, because the safety of the world is being threatened with this new secret technology. You may help by investigating these issues, and by supporting the victims, and publicizing this

problem. More victims come forward every year, and the numbers are growing exponentially at a rate which threatens all of mankind. The victims of these crimes are not "insane", but they are merely a barometer reflecting the extent of the usage of these rogue technologies on innocent persons.

Sincerely,  
Margaret Zawodniak  
Pennsylvania, United States of America

P.S. I am enclosing the Personal Part of my Affidavit, which I prepared last spring.

Personal Message of Margaret Zawodniak

I request the assistance of the members of Congress and Senate with any and all of the 16 federal agencies and their private contractors which perform electromagnetic torture and electronic surveillance using electronic weapons and radiation (ionizing and non-ionizing), including but not limited to the FBI, CIA, NSA, DOD/DOJ, HSA, National Counterterrorism Center, Fusion Centers, Infraguard (including the utility companies), Citizens Corp (developed by the DIA).

I believe false information has been passed to the various federal agencies which has resulted in me becoming a "Targeted Individual". I was illegally arrested by the FBI in May 1989, and because I could prove I was innocent, the charges were dropped. I subsequently had the arrests (all stemming from one charge) expunged. If I have been "targeted" for any reason, I must be released from this "program", in any event. There is no cause for it, and furthermore, it is a violation of my rights.

I have been followed by persons unknown to me since the time of the false arrest. I have had my reputation ruined repeatedly, especially in the last 6 years, by persons unknown to me, even after I had cleared background checks necessary for working with children. I am under 24/7 surveillance by way of electronics, both within my own home and anytime I leave my home.

I have electromagnetic weapons directed at me continuously, inside my home and whenever I am away from my home. I am attacked whenever I drive my car. These are ELF and microwave (measured using RF detectors), laser (visible), and may include other weaponry at other frequencies, probably maser and VLF weaponry. I believe these are military grade weapons. Some of the effects of the radiation I have experienced are headaches, severe tooth pain, jaw pain, fever, dehydration, burns, earaches, vision disturbances, subconjunctival hemorrhages, epistaxis, pain and numbness in fingers, hands, arms, and feet; pain and bleeding in the digestive tract, kidney and urinary tract, back pain, scapular pain; sinusitis, bronchitis, pneumonia, and flu-like symptoms; fibromyalgia, tinnitus, premature accelerated aging, extreme fatigue, severe vertigo, nausea and vomiting, chronic sleep deprivation, resting tachycardia, angina, chest pain, choking sensations, black hematomas, cherry hemangiomas, hair loss, overheating of isolated body tissues, and severe prostration. I feel ill every day.

Damage to my home has included untimely and unnatural damage to electrical devices and electronics. My stove, refrigerator, washer, dryer, hair dryers, 5 stereo systems, CD players, 6 cameras, computers, televisions, vacuum cleaners, light fixtures, light bulbs, electrical outlets and switches have all either had to be replaced or professionally repaired. It is an expensive nuisance to be continuously replacing and repairing these items.

I have had repeated problems with break-ins, damaged and missing items, electronics, food, clothing, small pieces of electrical wiring left on the floor and damage to my floor. Outside, my husband and I have told "intelligence agents", dressed as hoodlums, to leave our fenced property (a regular sized city lot), and they laughed at us. They sit in cars outside my house. My tires have had nails inserted into them repeatedly, while my car is parked in my driveway.

I am an innocent, law-abiding, American, and the descendent of early colonialists. I am currently a homemaker and I have a husband and two school aged children. Additionally, I am a bachelor's prepared registered nurse, and have a long history of community service with the local school, scouting, museum and hospital. I have never been a trouble maker or an insurrectionist, but I was a domestic violence victim in a bad divorce situation, long ago, in 1989.

I have been victimized by not only a violent ex-husband, but also victimized by the Federal Intelligence Agencies. I need for the targeting against me to stop, because it is interfering with me living my life, and it is destroying my

health. I fail to see how destroying my health and my property is keeping America safe from "Terrorism". I say, the people doing this to me and my family are "Terrorists." The "National Security" clause does not apply to my case. The complete records of intelligence, defense, military agencies and their contractors need to be released, and I need to be compensated as a victim of their crimes.

**They're torturing me, Honduras' Manuel Zelaya claims**

<http://www.miamiherald.com/1506/story/1248828.html>

by Frances Robles

"I prefer to march on my feet than to live on my knees before a military dictatorship," Zelaya said in a series of back-to-back interviews.

Honduras' ousted President Manuel Zelaya, talks while a supporter rests inside the improvised room in the Brazilian embassy in Tegucigalpa, Thursday. It's been 89 days since Manuel Zelaya was booted from power. He's sleeping on chairs, and he claims **his throat is sore from toxic gases and "Israeli mercenaries" are torturing him with high-frequency radiation.**

"We are being threatened with death," he said in an interview with The Miami Herald, adding that mercenaries were likely to storm the embassy where he has been holed up since Monday and assassinate him.

Zelaya was deposed at gunpoint on June 28 and slipped back into his country on Monday, just two days before he was scheduled to speak before the United Nations. He sought refuge at the Brazilian Embassy, where **Zelaya said he is being subjected to toxic gases and radiation that alter his physical and mental state.**

**Witnesses said that for a short time Tuesday morning, soldiers used a device that looked like a large satellite dish to emit a loud shrill noise.**

Honduran police spokesman Orlin Cerrato said he knew nothing of any radiation devices being used against the former president.

"He says there are mercenaries against him? Using some kind of apparatus?" Cerrato said. "No, no, no, no. Sincerely: no. The only elements surrounding that embassy are police and military, and they have no such apparatus."

Police responded to reports of looting throughout the city Tuesday night. Civil disturbances subsided Wednesday afternoon, when a crush of people rushed grocery stores and gas stations in the capital.

Israeli government sources in Miami said they could not confirm the presence of any "Israelis mercenaries" in Honduras.

Zelaya, 56, is at the embassy with his family and other supporters, without a change of clothes or toothpaste. The power and water were turned back on, and the U.N. brought in some food. Photos showed Zelaya, his trademark cowboy hat across his face, napping on a few chairs he had pushed together.

“Look at the shape he’s in — sleeping on chairs,” de facto President Roberto Micheletti told a local TV news station.

Micheletti took Zelaya’s place after the military, executing a Supreme Court arrest warrant, burst into Zelaya’s house and forced him into exile. The country’s military, congress, Supreme Court and economic leaders have backed the ouster, arguing that Zelaya was bent on conducting an illegal plebiscite that they feared would ultimately lead to his reelection.

Micheletti said he was prepared to meet with Zelaya and a delegation from the Organization of American States, but only to discuss one topic: November elections.

On Wednesday, the U.N. cut off all technical aid that would have supported and given credibility to that presidential race. Conditions do not exist for credible elections, U.N. Secretary-General Ban Ki-moon said.

“I proposed dialogue, and they answered with bullets, bombs, a state of siege and by closing the airport,” Zelaya said.

Zelaya told The Herald that Washington should be taking a stronger stance against the elite economic interests that “financed and benefited” from the coup that ousted him three months ago.

If President Barack Obama hit Honduras with commercial sanctions or suspended free-trade agreements, the coup “would last just five minutes.”

The Obama administration suspended economic aid to Honduras and withdrew the visas of members of the current administration.

About 75 percent of Honduras’ commerce depends on the United States, Zelaya said. And because powerful economic forces were behind Zelaya’s ouster, Obama should hit those forces where it hurts most, Zelaya said.

“I have told this to Obama, to Secretary of State Hillary Clinton, to the U.S. Embassy here and anyone else who will listen,” Zelaya said. “They know how to act. Until now, they have been very prudent.”

With Micheletti showing a new willingness to talk with the OAS, and the U.N. Security Council set to meet to discuss the embassy situation soon, it isn’t the moment for more penalties, the U.S. State Department said.

“Right now, when there are openings for dialogue, is not the time to announce new sanctions,” a State Department official said.

Dates for the OAS visit, which could include emissaries from 10 countries, are being worked out, the official said.

Spokesman Ian Kelly said the U.N. Security Council meeting came at the request of the Brazilian government. No date has been set for the meeting.

“In general, we continue to work with our partners in the U.N. and the OAS to come up with means to promote a dialogue and defuse the tensions, of course with the ultimate goal of resolving the crisis,” State Department spokesman Ian Kelly said at a media briefing in Washington. “And we’re continuing our consultations with our partners in the region, and enlisting wherever we can their assistance in this process.”

The U.S. Embassy here spent the day denying rumors that Zelaya planned to move to American grounds. The rumor may have started because U.S. Embassy vehicles were used to evacuate Zelaya supporters who left the Brazilian Embassy willingly Tuesday.

“The embassy has been turned into a bunker for Zelaya,” Assistant Foreign Minister Martha Lorena Alvarado de Casco told The Herald. “He’s turned it into his headquarters, and he is using it to call for insurrection.”

Brazilian Foreign Minister Celso Amorim told CNN en Español that his government asked Zelaya to tone down his rhetoric while he remains an embassy guest.

"The word 'death' should not even be mentioned," he said.

Rioting broke out in various parts of the capital Tuesday night, and lines hundreds deep formed at supermarkets when desperate shoppers scrambled to buy food after a round-the-clock curfew was briefly lifted.

"I have no food in my house," said Patti Vásquez, a housewife who, after two hours, still had not reached the front doors of a supermarket in an upscale shopping mall. "I need to get milk and juice and eggs."

Zelaya says he has no plans to leave the embassy anytime soon.

"I am the president the people of Honduras chose," Zelaya said. "A country can't have two presidents — just one."

## **MANUEL ZELAYA UNDERGOES STRANGE SIEGE INSIDE BRAZILIAN EMBASSY**

[guardian.co.uk](http://www.guardian.co.uk), Sunday 25 October 2009 21.07 GMT

<http://www.guardian.co.uk/world/2009/oct/25/honduras-manuel-zelaya-embassy-siege>

### **A JOURNALIST HOLED UP WITH THE OUSTED HONDURAN PRESIDENT DESCRIBES LIFE ON THE INSIDE OF A SURREAL POLITICAL STANDOFF**

**Fabiano Maisonave**

It was just past 2am when the music blasted us from our sleep. Honduran soldiers had placed high-powered speakers just outside the embassy compound for a night-long, deafening serenade.

One song in particular, Two-legged Rat, was repeated again, and again, and again. The lyrics are not subtle: "Filthy rat/crawling animal/scum of life/ill-made monstrosity/subhuman/mirror image of hell/damned louse/how much damage you've done to me."

When the Mexican singer Paquita la del Barrio performed it she was addressing a former lover, but the Honduran military had a different target in mind: Manuel Zelaya, the ousted president.

A military-led coup toppled him in June but on 21 September he sneaked back into [Honduras](#) to lobby for his reinstatement and, to the chagrin of the army and the de facto government led by Roberto Micheletti, found refuge in the Brazilian embassy in Tegucigalpa.

Zelaya's return galvanised domestic and international protests against the new regime, which found itself confronting a public relations nightmare.

#### **Life inside**

It has returned the favour by making the leftist leader's life a living hell. In the first two days electricity, water and telephones were cut off, and the embassy remains isolated from the rest of the Honduran capital by heavily armed soldiers and police. Initially Zelaya and more than 300 supporters crammed into 400 sq metres' of mansion. Now that number has dwindled to 46, mostly followers and aides but also five journalists and a Brazilian diplomat.

It is a strange siege. The de facto government dares not storm the embassy and Zelaya dares not leave, knowing he would be arrested. Talks between the two sides have collapsed and no resolution is in sight. Access to the building is restricted, with only UN officials; a local human rights organisation, which delivers food; embassy staff; and three Zelaya envoys allowed to regularly come and go.

The interim government only allows certain kinds of food and goods. Forbidden items include cigarettes, new clothes, sleeping bags, pillows, footballs, batteries, iPods, televisions, cell phones, refrigerators, raincoats, prescription drugs: things, in other words, which could improve the quality of life.

Sniffer dogs are used to check that food does not contain drugs. Sometimes police keep soft drinks and desserts for

themselves. Zelaya's food comes separately and is prepared by his daughter because he fears being poisoned.

Three weeks ago, checks took so long that the food went off. Thirty people had diarrhoea, clogging up the embassy's six toilets. Three toilets are reserved for Zelaya, his wife and closest aides.

There are arbitrary rules. For example, fruit outside of meals can only enter with medical prescriptions, and a new lamp can only be exchanged for an old one.

"The Brazilian embassy is a neo-Nazi concentration camp," said Zelaya.

It's an exaggeration, but his daily life here is far from being that of a president recognised by the EU and the US and who is received with honours by heads of state in countries like Brazil and Mexico. Due to security, Zelaya, 57, sleeps on an airbed in the tiny but secluded library. The window faces the backyard, beyond the range of snipers, and at least four security personnel keep guard in the living room next door.

In the first weeks, Zelaya was sleeping in the much larger office of ambassador, but then he thought the room was too vulnerable. He claims he is being subjected to an "electron bombardment with microwaves" which produces "headache and organic destabilisation".

To try to protect from these alleged attacks, all windows of the office where Zelaya spends much of his time with his closest aides or on the phone were covered with aluminium foil, creating a sort of low-budget sci-fi movie set.

This office is also used for meals, the most relaxed moment of the day. Zelaya is always accompanied by his wife, Xiomara, his closest aides and the Brazilian diplomat Lineu de Paula. All use plastic utensils and dishes for meals served in Styrofoam containers. "Zelaya is always in good humour, even in the most critical days. He always chooses a victim for his jokes, but his favourite target is the press secretary, Luis Galdamez," said De Paula, who sleeps in the embassy.

Besides the microwave bombardment, Zelaya also complains about the devices blocking mobile phone signals. On Saturday, he was forced to climb the small hill in the yard of the embassy, the only place where the connection is not cut off after a few seconds.

### **Cowboy hat**

One of the few presidential-like rituals to continue concerns Zelaya's white cowboy hat. One of his bodyguards, Eduardo Muñoz, has the specific function of holding it in the palm of both hands like a crown whenever he takes it off.

Life is harder for Zelaya's followers. Most of them took refuge in the embassy on the second day, after police dispersed a gathering in front of the building. In the beginning, they had to share even the few toothbrushes available, and most of them still sleep on cardboard in the open car park (only Zelaya's top aides and journalists were allowed to bring air mattresses).

The siege is becoming more intense. On 8 October the police set up mechanical platforms across the street with armed guards on top. One week later, those platforms were moved within two metres of the embassy's wall. At the same time, two powerful floodlights were switched on.

The worst days were between 16 and 21 October 16, when army troops and police officers broke the silence in the night with loud noises. In addition to music, they used horns and imitated the screaming of animals, including cats, dogs, horses and cockerels, waking up almost everybody inside.

Last week the Permanent Council of the Organisation of American States (OAS) condemned "the hostile action by the de facto regime against the embassy of Brazil in Tegucigalpa and the harassment of its occupants through deliberate actions that affect them physically and psychologically and violate their human rights."

As Muñoz, Zelaya's hat-holder, observed: "In Honduras, there is a saying that the leather will one day break, either in the thicker or in the thinner side. But one day it will break."
