Hello,

I'm Katherine Horton. This email was given to me by Joanne Boddington and I am not sure if it is the right one. You mentioned on your facebook page that you would be willing to help me. Would it be possible to talk to you on skype at some point?

Thank you very much and best wishes,

Katherine

Hi Katherine. I might be able to help you understand and maybe test a type of bio-field dampener on you. I might be able to do a skype but email is the best way to reach me.

See attached document. I have a friend doing a documentary on credible TIs and university professors about some of the state of the art mind hacking technologies. If you don't mind, may I forward your email address to him?

Cheers,
Robert Duncan

Dear Robert,

Please let me know when you would be available to skype. I need your help as soon as possible.

Sure, pass on my email. Who is that colleague of yours?
With regards to the survey: I am not in the US, I am in Switzerland.

Pray tell me, what is that poem at the end of that file?

Best wishes,

Katherine

I've listened to one of your interviews. Stalking I can do nothing about other than to say ignore it. What are your perceived physical attacks or what does the audio say to you?

I have a couple book on Amazon that might help you for now. "How to Tame a Demon", and "Project: Soul Catcher. Secrets of cyber and cybernetic warfare revealed."

Robert,

I need a bit more professional help and I don't have time to read books. I am being physically shot into as you can see in the videos where I film the attacks. I need to know what frequencies they use to cause the pain. It seems to be pencil beams.

Then I am also hooked up to chatter boxes that literally force my thoughts and if I try to think of something else I get "pulsed" to the head. Sometimes, it feels like my brain is burning up from the inside. A feeling that they gloatingly announced (like they announce everything ahead of time). They do that via real people. I don't have v2k. The only time I had was for about 20s where I heard a tone loudly inside my head next to my left ear.

They also implanted me just last week. I woke up with a scar above my eye. Last night they were flashing images into my head.

Forget the stalking, I need tangible scientific pointers how to collect evidence. I also need a professional testimonial for my court case. I need the concrete scientific stuff. I am a high energy physicist.

Could you please help? It is urgent.

Also, I would like to see you via skype at least once because I had a series of nonsense email addresses pretending to be someone else. My patience with the Empire of Bullshit has run out.

Best wishes,

Katherine

You are going down the completely wrong track. You are believing everything they want you to believe based on the only way you can understand reality, through your senses and experiences. They have you terrified and panicked of death soon. They will induce many deaths. You are at the heart of the program to break you down in every way financially, mentally, social supports, etc. But from an outsiders perspective, they only see you doing it to yourself.

There is no one frequency. The algorithms are adaptive.

Give up on the idea that human laws will stop this and you will be compensated.

I advise seeing a doctor and getting some valium to calm your anxiety first so that you can think about the complexity of this "game" more rationally.

You are not implanted. It is another false belief they have put into you.

They tell you what they are going to do next because it is a type of forced, weaponized, hypnosis. By you expecting something to happen you "feel" the pain all that much more.

I might have time for a short skype at 4pm (MST).

Katherine I tried. I can't play your game right now. You're mind is too average. They can predict every move you make and control you. You live in another country and refuse to educate yourself. I can't help you.
