Comment: Hi Jean,

You wrote last year this article about your father: <https://www.wired.com/story/my-father-says-hes-a-targeted-individual-maybe-we-all-are/>

From what I have read, I can confirm that your father is a targeted individual and further that in the case of such victims THEIR ENTIRE FAMILY are being targeted too, whereby they usually attack and manipulate one person overtly and the rest covertly. In all those cases, the entire family is usually implanted with microchips and miscellaneous biosensors. One can measure these easily.

I am a former research fellow from the University of Oxford and a former particle physicist who worked at CERN in Geneva. I have run a detailed investigation for the past few years and I can confirm that there are large-scale human "experimentation" (read: Nazi-style torture) programs happening in the US and Europe. Victims are being experimented on in the most brutal fashion and are human trafficked into various weapons testing programs.

At the end of last year, I have launched a global victim survey. The first 15 detailed court-actionable affidavits under oath are now in. From those alone, I can prove that targeting is for life and involves the most horrific torture. See here: <https://stop007.org/home/court-cases-and-evidence/international-affidavits/>

I strongly encourage your father to fill out an affidavit and get his evidence ready as there are large-scale court cases including class actions being launched. The affidavit template can be obtained from my website here: <https://stop007.org/home/burning-down-the-house/affidavit-collection/>

Should you or your father have any further questions, don't hesitate to contact me.

Best wishes,

Dr. Katherine Horton
